----------START QUOTED MESSAGE----------

Hi all,

On Thursday, December 14, 2006, much to my regret, I delivered a letter
of resignation to David Sumner, K1ZZ. Such an early departure had not
been my plan but had become necessary. On Friday, in a meeting with Dave
and Mr. Harold Kramer, ARRL Chief Operating Officer (COO), I made it
clear, when asked, that my resignation was in no way a retirement. I
also conveyed that it did not indicate any fundamental differences with
ARRL outside of the jurisdiction of Mr. Kramer. I offered them the
opportunity to release information about my resignation, but Mr. Kramer
could send only a terse two-line message, and then only to the HQ Staff
and the closed reflector of the ARRL Officers, Directors and Vice
Directors, hence this message.

All in all, it's been a fun six and one-half years. The League has been
a great place to work, and I'd do all but the last 22 months over
again.
I thank all of you around the World for your great support. In
particular, I offer special thanks our volunteers - advisory committee
members, log checkers and advisors. I also urge all of you to support
the ARRL financially. Be sure to tell them what you want, though * they

don't always ask. I hope to regenerate an active interest in Ham Radio
back in Wyoming. Maybe there'll be another DXpedition or two as well,
and look for N7NG - Jackson Hole - to be an active Wyoming contributor

to LoTW as long as it's in business.

73, Wayne, N7NG

Jackson Hole, Wyoming

2. zepp antenne

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-02 11:50:53 UTC
From: PH0HM <zeker@geenspam.nl>
Message-ID: <1356048.6V46bKCxmn@ITgroundnetworks>

Gedag allen.

besten wensen en een gezond 2007...

Ben van plan , op voorlopige basis een zeppelin antenne op te hangen voor 80 meter(een halve golf lang 40 meter lengte dus).
De voedings lijn een kwart golflengte lang.

Toch twijfel ik of ik een voedingslijn van 450 Ohm of 600 oHm zal gaan gebruiken.

Mijn vraag is...kan ik 450 Ohm twinlead ook gebruiken?

Met dank voor de replay's
73' Cor van Soelen PH0HM

http://people.zeelandnet.nl/cor19vs

pd4vlo gebruikte zijn klavier om te schrijven :
> Als je die Zepp alleen voor 40 meter wilt gebruiken, dan kun je zelfs coax
> (mits een kwart golf lang) als voedingslijn gebruiken.

HI. De voedingslijn moet natuurlijk geen coax zijn maar lintlijn of
open lijn. Na een kwartgolf lintlijn/openlijn gebruik je dus pas coax.
En de antenne is niet bedoelt voor 40 maar voor 80.

Te snel geschreven of niet goed gelezen "Piet"? Of iets anders....

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, W3HC, W3UR & The Daily DX, N4AA & QRZ DX, N4GN, WD4ELG, K5LBU, K8CX, K8YSE, WD9EWK, Pete's-DX-Newsdesk, 9M2TO, DJ5AV & The DX News Letter, DL4KQ, DK8JB, DL5EBE, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, I1HYW, JT1CD, PG5M, RSGB IOTA, SP6NVK, VA3RJ & ICPO, VK4FW and YZ5W for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 31st/December, through Sunday, 7th/January there were 223 countries active. Countries available: 1A, 3A, 3B8, 3D2, 3DA, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J6, J8, JA, JD/o, JT, JW, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S0, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T5, T7, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A4, SMOM. By the time you read this, activity from 1A4A from the S.M.O.M. (Sovereign Military Order of Malta) should be going or are QRT. QSL seems to be only direct to the QSL Manager IZ4DPV: MASSIMO CORTESI, P.O.BOX 24, 47100 FORLI' CENTRO (FC), ITALY. Online log will be available at: http://www.1a4a.org

3DA, SWAZILAND. To celebrate the 75th Jubilee of the Irish Radio Transmitters Society (IRTS), a group of IRTS members plan a "AFRI75 Dxpedition 2007" to Swaziland between March 16-30th. Activity for this DXpedition will also cover St. Patrick's Day and the CQWW WPX SSB Contest. The callsigns to be used will be published as soon as available. The DXpedition's leader is IRTS Vice President Paul Martin, EI2CA. Currently, the following members have signed up for the DXpedition: Peter/EI7CC, Aidan/EI8CE, Paddy/EI8BFB, David/EI4DJ (GI4FUM), Rory/EI4DJB, Brendan/EI3GV, Pete/GI4VIV and Paul/EI2CA. A private UK/Ireland YAHOO newsgroup for this DXpedition is available at: http://uk.groups.yahoo.com/group/AFRI75/ Admission to this group is by request only and is at the discretion of the group moderators. Skeds may also be requested to any of the DXpedition members.

3Y9, ANTARCTICA (Update). Dag, 3Y9SDA, who is currently operating from the Norwegian Troll Base Station (WAP NOR-10), will leave to head back home for Tromso on February 5th. He is there installing satellite equipment for receiving polar obit remote sensing satellites. He is operating on the 20 and 40 meter bands using a dipole and a ground plane antenna with only 100W output. Dag is trying to be active on PSK and SSB in the morning around 0730z and in the afternoon starting at 1900z. Watch around 14203 kHz.

4TH ANTARCTIC ACTIVITY WEEK (AAW Update). The Worldwide Antarctic Program's (WAP) 4th Antarctic Activity Week (AAW) will take place between 0000z, February 19th and 2400z, February 25th. The following stations have announced/lined to be active next month:

Callsign Ref. Number Opeartaors

For more details/updates on the WAP and the 4th AAW, please see the following Web page at: http://www.ddxc.net/wap

9M2, WEST MALAYISA. Tex, 9M2TO, informs OPDX that the callsign 9M4SIX has been issued to the Malaysian Amateur Radio Transmitter Society (MARTS) for 6 meters operations. A beacon signing 9M4SIX (supported by MARTS, JA1OCZ and JI1ETU) is now active and transmitting on 50005 kHz from Tex's QTH.

A22, BOTSWANA (Ops Needed!). Frosty, K5LBU (aka-C91CF/7P8CF/3DA0CF), is once again trying to put a team together to operate from another African country. He thinks operating from Botswana (A22) for the IARU Contest in July would be a good place. The contest is July 14-15th, so Frosty thinks that 15 days total would be the best amount of time to operate (arrive on the 9th of July and depart on the 23rd). This would give them 2 weekends on the air. If he can find at least 5 or more operators to join him, he will set up 2 stations (one for CW, one for SSB and/or possibly one can be used for RTTY and PSK or whatever a person would like to run). If he can not find a good place in A22-land, Frosty might look at Lesotho (7P8) if they can get real callsigns and not portable ones. He states that Daniel, ZS6JR, will have to check both places out. If you are interested in joining Frosty, let him know ASAP, at: frosty1@pdq.net

CT9, MADEIRA ISLANDS (Lighthouse Activity). Members from Madeira Island Radio Club (ARRM) and operators Alfons/DJ8VC and Rudolf/HB9CQL will be active as CT9F from the Ponta do Pargo Lighthouse (DFP FMA-004, ARLHS MAD-005 and WLOTA LH-0053) on Madeira Island (AF-014, DIP MA-001), January 19-21st. Operators mentioned are Hermann/CT3FN, Rudi/HB9CQL, Alfons/DJ8VC, Jose/CT3MD, Luis/CT3EE, Tiago/CT3KU, Jose/CT3DZ, Jose/CT3KY, Luis/CT3DL, Joe/CT3BD, Duarte/CT3EN, Miguel/CT3IA, and other associates from the Radio Club. Activity will be on 160-10 meters, CW, SSB, RTTY and PSK. QSL via CS3MAD: ARRM, P.O. Box 4694, 9058 Funchal, Madeira Island.

DX0, SPRATLY ISLANDS (Update). Members of the Philippine Amateur Radio Association (PARA) and a group of JA operators will be active as DX0JP from the Pag-Asa Island, in the Kalayaan Island Group (AS-051), Philippines, February 3-13th. Activity will be on 160-2 meters, CW, SSB, RTTY and PSK, with a special emphasis on the low bands. Operations will also be on 6 and 2 meters (JT65 EME). JA team members include JA1BRK, JA1RJU, JF1IST, JA4DND, and JF2XGF, and the PARA operators are DU1EV, DU1BA and 4F2KWT. QSL via JA1HGY. EME QSO only via JA1RJU. Look for more info to appear

nearer to the date on the DX0JP Web page at: http://www.dxcom.jp/dx0jp

DXCC NEWS. OPDX received a report that the 5X1RI operation should be approved for DXCC credit very soon. Documentation was mailed and possibly the approval announcement will take place this week. Stay tuned!

EY8, TAJIKISTAN. Nodir, EY8MM, will be active in the CQ 160-Meter CW Contest (January 27-28th) as a Single-Op/High-Power/Assisted entry. QSL via K1BV. Priority will be given to NA QSOs and New ones. See Nodir's Web page for skeds: http://ey8mm.codan.ru

HAMATLAS ON THE WEB! Darek, SP6NVK, informs OPDX that he has started a new ham atlas service on the Web after 4 years of work on it. This service contains the complete information on all 337 DXCC Entities, over 3000 pictures and 1100 maps. He hopes everyone will enjoy and be satisfied in using his service. The HamAtlas Web site is available at: http://www.hamatlas.eu/

HL8, SOUTH SHETLAND ISLANDS. Sang, DT8A, was on the air this past weekend as HL8KSJ from the South Korea's King Sejong Station on South Shetland Islands (VP8/h, IOTA AN-010). Activity was on 20 meters CW/SSB. The length of his stay is not known. QSL via HL2FDW.

IOTA NEWS.....
AS-093. Kang, DS4DRE, is currently active as DS4DRE/4 from Hong Island (ARLHS SKR-041, WLOTA LH-1528, WW Loc. PM24OR) until June 30th. Activity will be on 80-10 meters CW/SSB. QSL via DS4DRE (see QRZ.com).

JT, MONGOLIA. Khosbaya, JT1CD, announced this past week that licensed radio amateurs of Mongolia held a conference on November 18th and have now established a new organization. The name of new organization is the "Mongolian Amateur Radio Soceity" (MARS). MARS will officially represent Mongolia to the IARU and all amateur radio societies. MARS hopes that they can co-work together in the future. Once all licensed amateur radio operators of Mongolia have switched their membership from Mongolian Radio Sport Federation (MRSF) to MARS, they hope that they can change the name and keep IARU membership. MARS will continue to pay its dues to IARU and their QSL bureau will be working permanently in the future. Also, MARS will be providing Mongolian Amateur Radio Awards to the world's amateur radio operators. If there are questions, please feel free to contact the following:
President of MARS D.Bolor, bolor@ntc.mn
General Secretary N.Khosbayar, JT1CD, jt1kaa@mtcone.net
Secretary D.Nekhiit, JT2AN, jt2an@yahoo.com
Member of EC C.Chadraabal, JT1CO, jt1c@mongol.net
Member of EC S.Baatar, JT1BB, baatars@yahoo.com

KP2, U.S. VIRGIN ISLANDS. Bruce, KI7VR, will be signing KP2ZZ from the Island of St. Croix (NA-106, also count for WLOTA LH-2477) between January 24th and February 6th. Activity will be on 160-10 meters, mostly CW, with an emphasis on 160/80 meters each night. Daytime activity will be focused

on 30/20/17 meters CW for the first few days, then some SSB. QSL via G4OOC (QRZ.com).

NCDXF PRESS RELEASE: "NCDXF announces new video! I'm pleased to announce a new video about the Northern California DX Foundation. This video explains the history of NCDXF and highlights the Foundation's many accomplishments, including our scholarship program, the sponsorship of DXpeditions, the NCDXF/IARU International Beacon Network, and support for the World Radiosport Team Championship (WRTC). Everyone will enjoy the footage from numerous Foundation-sponsored DXpeditions and even long-time NCDXF supporters will probably learn a few things they didn't already know about the Foundation's activities.
The video runs just under ten minutes in length and was produced by James Brooks, 9V1YC. DXers around the world are certainly familiar with the high-quality DXpedition videos James has produced over the years.
DVD copies will be available in the coming weeks, but the video is available now for viewing on-line under the "Videos" section of the NCDXF web site: http://www.ncdxf.org
It may also be viewed or downloaded from the Google Video site at the following URL: http://video.google.com/videoplay?docid=-1969114446660423090
Feel free to spread the word about this video. Thanks for your support of NCDXF! 73, Tim Totten N4GN, Director, NCDXF"

NEW OFFICERS FOR 2007. Members of the Oceania Amateur Radio DX Group Inc (ODXG) recently had its annual general membership meeting and elected the following officers for 2007:
President - Bill Horner, VK4FW
Senior Vice President - Maurice King, VK2KV
Junior Vice President - John, Mcrae, VK5PO
Secretary/Treasurer - Eric Fittock, VK4NEF
Directors - Elvira Simoncini, IV3FSG
- Larry Duncan, K4WLS
- Paul Spinks, VK5GX
- George Koutsoukos, VK6NKG
- Mill Reiff, LX1CC

PACIFIC TRIP/ACTIVITIES (Update). Hrane, YT1AD, during his Pacific trip and preparation for the upcoming Swains Island (KH8/S) DXpedition (March 29th to April 21st), will be active from three different islands this month and February. His schedule is as follows:
January 25-26th - Fiji; active as 3D2AD
January 27th to February 1st - America Samoa; active as KH8/YT1AD
February 1-5th - Independent State of Samoa (formerly known as Western Samoa from 1914-1997); signing possibly 5W1***.
For more info about next KH8/S DXpedition, visit the N8S Web page at: http://www.yt1ad.info/n8s

PIRATE ALERT. Tom, K8CX, informs OPDX that a station signing VU2DX on 40 meters CW, around 2220z on December 31st, working a pileup was a PIRATE. Tom thought the VU2's signal was way too strong, so he E-mailed Abdul, VU2DX, and he stated that he hasn't been on the air for a couple of months.

QSL INFO AND NEWS.....
CN2BG via F8ALU
CT1APE via W3HNK - Only for USA & North America, after 01-Nov - 2006
DU2US direct
LU9DO via LU2CN
LX2007D via LX1KC
LX2007L via LX1KC
SM4FQW via SM4EXP

QSL 9M2/PG5M via PG5M, by the Dutch QSL Bureau or direct to:
Gerben A.Menting, Brandparken 2, 9351 XM Leek, The Netherlands.
Activity this past week was from Pulau Pangkor (AS-072), West
Malaysia.

INTERNATIONAL REPLY COUPONS (IRC). The international reply coupons that
bear the following language on their front side:
Aechanger jt "31-12-06 expires on Dec 31, 2006
should now be destroyed.

TYPO/CORRECTION: Last week our fingers got carried away and typed an
extra character in QSL Manager Osten's, SM5DQC, callsign as SM5DQCI.
We are sure most individuals caught it, but if you didn't we decided
to report the TYPO anyway.

S21, BANGLADESH (Update/Reminder). Just a reminder that the "Bangladesh
2007 DXpedition" will take place this week between the January 10-16th.
The callsign to be used is S21XA. The team members are: Josep/EA3BT (Team
Leader/SSB/Digital), Tony/EA2PA (CW), Nuria/EA3WL (YL/SSB/Digital),
Fernando/EA5FX (CW) and Juan/EA8CAC (CW/SSB). Activity will be on SSB,
CW and RTTY, on all bands from 160-6 meters. Their aim is to give a new
entity to the maximum number of stations, and that's why they will have
3 stations on the air simultaneously. The team is expected to arrive
at Dhaka, at 2:00 a.m. (local time), January 8th. Plans are to install
all antennas and equipment during January 8-9th so as to have all 3
stations up and running. They will be on the air on January 10th, at
12:00 a.m. local time (1800z, January 9th). QSL via EA3BT (direct or by
the bureau). Further information and updates will be available at:
http://www.ea3bt.com/s21xa.htm

SATELLITE DEMO. Patrick, WD9EWK, will be part of the AMSAT table at the
Thunderbird Amateur Radio Club's "Westfest", at Glendale Community College
in Glendale AZ on Saturday, January 13th. As part of the AMSAT table,
Patrick will demonstrate the AO-51 and SO-50 satellites on up to 4 passes
during the morning, subject to satellite availability:
SO-50: 1317-1330 UTC (south to northeast)
1458-1510 UTC (west to north)

AO-51: 1509-1522 UTC (east)
1647-1702 UTC (west)
Thanks to the hamfest organizers, Patrick is authorized to use the
hamfest's special callsign W7W for the demonstrations. He will provide
the hamfest with a copy of the satellite log, which will be combined with
the log for the HF contacts the hamfest's station makes. QSL information,

and more details about the hamfest, can be found at:
http://www.w7tbc.org/Westfest.html
The grid may not be exotic (DM33), but Patrick hopes to work you next
weekend from the Westfest.

V31, BELIZE. Greg, K4NO, will be active from here between February 14-19th.
Activity will include the ARRL DX CW Contest (February 17-18th). The
callsign will be determined. Operations will be from V31MD's rental QTH.
QSL to his home address or via the Bureau.

VP9, BERMUDA. Kyle, WA4PGM, will be active as VP9I in the CQ 160-Meter
CW Contest (January 27-28th) as a Single-Op entry. QSL via N1HRA, by the
bureau or direct to: William R Champagne, 105 Main St., Ashaway, RI 02804,
USA). The log will be uploaded to eQSL and LoTW.

VU7, LAKSHADWEEP ISLANDS (VU2RG News).................
* The countdown continues for the second VU7 operation. Activity should
begin in about one week. For up-to-date details, visit the VU7RG
Web page at: http://www.vu7.in/

* PRESS RELEASE (January 4th, edited): "VU7RG permitted for Minicoy
Island (AS-106)!!!! Today special permit was granted by WPC (Indian
Govt.) to operate from Minicoy Island (Asia's #1 on Most Wanted IOTA
List) which will be the fourth operation site.
Minicoy operations will start on January 16th, and you can expect
2-3 well equipped stations on SSB and CW, 40-10 meters.
The IOTA-Hunters easily can identify the Minicoy stations since
they will use VU7RG/VU..... while Agatti, Bangaram and Kadmat Island
stations will use VU7RG.
Pilots - William, K6GNX, has joined the team of pilots. We now have
2 pilots for North America, see the operations page (on the Web page)
for the details.

Frequencies - Now we have 4 operating sites, the frequency plan has
slightly changed, see the operations page (on the Web page) for the
details."

* ADDED NOTE: Frank, DL4KQ, reports: "The last operation from Minicoy
Island took place decades ago, and it was extremely difficult to obtain
this additional permit. Once again NIAR and Bharathi, VU2RBI, made it
possible again; first the special 30m permit and now Minicoy!"

XT, BURKINA FASO (Update). The F6KOP ARS of Provins group is now active
as XT2C from Ouagadougou, the capital city of Burkina Faso. Activity will
last until January 20th. Suggested frequencies (+/- QRM) are as follows:
CW - 3514, 7014, 10115, 14014, 18071, 21014, 24892, 28014 and 50096
SSB - 3785, 7057, 14266, 18140, 21266, 24966 and 28444
RTTY - 10140, 14082, 18100, 21082, 24920 and 28082
PSK - 10140, 14072, 18100, 21072, 24920 and 28122 kHz
160m - CW only Asia/OC: TX 1830 RX 1820-1825
EU: TX 1832 RX 1835-1840
NA/SA: TX 1832 RX 1833-1835

The QSL Manager for XT2C is F9IE, by the bureau or direct to:
Bernard Chereau, BP 211, 85330 Noirmoutier en l'ile, France. For all direct requests, please send a Self Addressed Envelope (SAE) with:
- 1 IRC or 1 USD for European Union and Switzerland
- 1 IRC or 2 USDs for other destinations
Only "NEW IRC" (with validity date after 31st Dec 2006) will be accepted.
All direct requests that do not have a SAE and/or sufficient IRC/USD required to cover postal fee will be returned via the bureau. If you wish to receive a QSL via bureau, you can speedup the process by sending a list of your QSOs by E-mail (with callsign, date, time, band and mode of each QSO) after January 21st to: xt2c@orange.fr
By following this procedure, you do not need to send a paper QSL via bureau.
All requests received via e-mail or bureau will be answered. Visit the XT2C Web page at: http://xt2c.free.fr/

XU7, CAMBODIA. John, 9M6XRO (ISWL Member 9M6-6982) will be active as XU7XRO from an established DX shack in Sihanoukville, Cambodia, between February 1-10th. Activity will be on CW, SSB and possibly digimodes as well (bands information was not provided). Pete/XU7ADI and Steve/XU7DXX are also accompanying John, and will be operating under their own callsigns. John is looking forward to working some International Shortwave League (ISWL) members and welcomes SWL reports. QSL route for XU7XRO is via QSL Manager M5AAV: Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ, England. Direct QSLs with return postage are preferred, but Graham will also reply to cards received via the bureau. PLEASE NOTE FOR SWLS: SWLs be aware that Graham, the QSL Manager, will not accept SWL reports unless you log John working at least 3 or more stations. ADDED NOTE: Please see the following interesting Web site at:
http://www.qth.com/dxshack/XU/XUtop.htm

XU7, CAMBODIA. Peter, NO2R, will be active as XU7ACY from Sihanouk Ville between January 7-30th. He will be concentrating on the lowbands, CW and SSB. Peter will also be active in the CQ 160-Meter CW Contest (January 27-28th). Doug, W2EN, will act as his pilot station. QSL via K2NJ.

YS, EL SALVADOR. Look for Roberto, I2JIN, to be active as YS3/I2JIN from January 10-31st. Activity will be on all bands, mostly CW. An online log can be found on Roberto's Web site at: http://www.i2jin.com/
QSL via his home callsign.

Hi you all there!

I need to build an antenna preamplifier for the FM band.So after a short looking i found the follow Fets:BF198,BF199,BF173 to design
my equipment.Will this choice could be better?Do you know some other FETs/TRs for this purpose?Thank you.

What a chaotic mess.

Two major problems that could have been taken care of.

1 - 1A4A calls for "North America - Any 6's or 7's" then takes a 1, 2, or 3. He should have only taken a 6 or 7 but never did, shame on him.

2 - All those nice, polite, 10 year plus Extra Class 1, 2 and 3 call signs (read - being a 20 WPM CW Extra is NOT a filter - of any kind) who kept calling even when 1A4A called for any 6's or 7's.

As propagation to 6 and 7 land was limited and weak we sure appreciated all you 1's, 2's and 3's giving us a chance.

Not complaining, there will always be another DXpedition and there will always be another chance for a contact - BUT - we were not at our finest were we?

as a soon to be extra since he did not say only 6 and 7s why should he
not have work other calls if that was what was there

if he had said 6 or 7 Only then obviously he should not have rewarded
the rest
>
> 2 - All those nice, polite, 10 year plus Extra Class 1, 2 and 3 call signs

did they wait a bit and give a 6 or 7 a chance

again the tone you have the dx experence a preference for calls where
the propagation does not seems to have been runing

after a decent pause why should n't any other NA call jump in

But he's not even DX !!

18. Six Meter ops - Please QSL

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-10 20:30:30 UTC
From: Caveat Lector <CL@nowhere.com>
Message-ID: <G1cph.3345$Wx.755@newsfe07.phx>
Source record: 2789

Well I jumped on six meters a few years ago
Worked all 50 states except KY
Sent SASE's to all states and over 120 Grid square contacts

Only 60% of the Grid Squares have come back - Sent 18 Months Ago

Of the states -- all came back except WY and RI

In todays mail my SASE to WY came back -- 3 and half years after I sent it !
Oh well at least I got it

For RI after a year -- sent another SASE -- no return. After another year --
made up a QSL card for the guy along with an SASE -- no return. Only a few
thousand Hams in RI and I am on the west coast. Could be years B4 I catch
another.

So if you work six meters it is important to QSL, the award managers want
the cards as proof.

Working all states on six is achievable -- but not easy - could take several
years.

I gave up on 100 grid squares VUCC just such a poor QSL return

Grouse and complain

CL looking for KY on 6

I agree with your observations.

After checking my log and return on 6 meter QSL's I have found that 6 meter ops are the worst return rate I have. I do better on DX either direct, to a manager or via the buro.
Have never figured out why it is so hard to get confirmations of 6 meter contacts.
Don't know what else a person can do after sending a card with an SASE, following that up a couple of months later with an email and another card with SASE and still not getting anything back.

I have had some (though by no means complete) success by preparing a QSL for the other operator. Just draw something up on your computer, the way you'd design a QSL for your own station, fill it out as if it was a card from the other guy, then mail it to him w/SASE & ask him to sign & return if it's accurate. That's how I got my first QSL from California on 6.

But some people simply do not QSL. (I think others don't reply at all if their log indicates you did not, in fact, QSO. One would *hope* they would write "not in log" on your card & return it.)

I would have to concur that 6m return rates are not very good.

Caveat: I forget, what's your callsign? I worked the June contest last year from the mobile on the way to Wisconsin, and made a fair number of QSOs from Kentucky. If you worked me, the fact that QRZ.com says I'm in Tennessee doesn't necessarily mean you worked Tennessee. That operation is also in LOTW.

My only 6m capability, in fact, is mobile. It takes about a half-hour to get across the state line from here. If it were 40 meters, I'd be delighted to run a sked - but of course on 6, the chances a sked would work at any predetermined time are not very good!

I suspect the low rate of return may be because there are many Technician
class operators on the band and as such do not have QSL cards like the HF
ops. But gee one can make their own with a computer and an ink jet printer
http://www.qsl.net/wa7s/

or get the economy QSL cards. Examples: one can buy generic cards for $4.95
a hundred
http://www.universal-radio.com/catalog/hamacc/1116.html

or standard economy cards for $10.00 a hundred.
http://www.cheapqsls.com/standard.htm

Be aware that there are only about 2300 Hams (total) in Rhode Island and
about 1600 Hams in Wyoming -- so you must help these folks with postage --
Self Addressed Stamped Envelopes (SASE)
In fact I send SASE's for all 6M contacts.

6M the Magic Band - Lets keep it alive and QSL

CL

My "log" is an Access database and I've got homemade QSLs
set up as a report; it prints either one on demand from the
QSO form, or prints all QSLs since the last print run,
depending. I print them onto Sparco 3.5x5.5 perforated
index cards; it's fast and easy, and now that the print job
is set up, I can print special cards for special events
(contests, etc.) if I want.

What I really wanted to add to this discussion, though, is
that I always appreciate QSLs, but I especially like the
homebrewed cards--anything from fancy full-color ones done
on an inkjet, to simple hand-drawn ones photocopied onto
cardstock. All QSLs are good, but the ones that are made
at home by the hams themselves are particularly fun--they
give you a better sense of the ham on the other end of the
QSO, often provide more information than the standardized
ones, and they're just more fun all around.

So new hams: do NOT let not having store-bought QSLs keep
you from QSLing! Heck, write it by hand on an index card--
the recipients WILL like them, honest!

This assumes the other guy is with LOTW -- I suspect few Techs are on this program.
My return of LOTW for 6M contacts is minimal. But pretty good for HF.

But a worth while program Logbook of the World

Indeed Kuzen -- my prize QSL card is a homemade card from a little 12 year old Maori girl in New Zealand. It is hand painted.

Also got one from a student in Guyana. Also hand painted.

I am sure most card collectors understand your situation. One solution
I tried was to get generic contact cards (W4MPY has them) and fill them
out for the contact and then send them with an SASE requesting that they
be signed and returned. The results were marginally better, but still
not what I had hoped. I wonder what percentage of us are still logging
each contact.

Yeah, my return rate isn't very good either, but it's there, it's
free and it works.

If you keep your logs on a PC, it's silly not to use it.

On the other hand, the boxes full of QSL cards are fun to browse
through when I'm feeling nostalgic for the good old days when we had
sunspots :-)

I've tried to buy IRC's (International Reply Coupons) at the local P.O.,
even though they have them, they won't sell them! Their screen says: "Not
For Sale" when they are scanned.
This has happened at the main Helena, MT P.O. and Tuesday at the Missoula,
MT P.O.
Anyone else experiencing this problem? BTW, these are the new ones good
until 2009.

IRCs are a SORE subject for a lot of us, Terry. I've been
able to buy them at one post office near me, pretty regularly,
but it's routine to ask for them and be told:

1. "We don't carry them." (You did a few weeks ago.)

2. "I've never heard of them."

3. "Those have been discontinued."

4. "What the heck is an IRC?"

We Americans are fairly lucky, in that "green stamps" are
acceptable and useful for a lot of foreign hams.

Tell them to look at

Postal Bulletin 22184 (7-6-06, page 28).

and

Mailing Standards of the United States Postal Service, International Mail Manual (IMM®) part 372 and Publication 51, International Postal Rates and Fees

IRCs are part of that and tell them your next step is to contact the US Postmaster and ask him why the local postoffice wont comply and carry IRCs. I did that and now they are available all the time.

From Wikipedia
http://en.wikipedia.org/wiki/International_reply_coupon#IRC_Availability_in_the_United_States

IRC Availability in the United States
If a post office in the United States does not offer IRCs for sale, direct the postal clerk to Section 372 of the International Mail Manual, Issue 33, dated 06/23/2006, Sub-section 372.2 which clearly states, "Reply coupons may be requisitioned by Post Office facilities in the same manner as postage stamps. The coupons should be stocked at Post Office facilities that have a demand for them."

CL who just bought some after grousing at the PostMaster

Perhaps the Post Office will someday allow us to
purchase the IRC on their website and print them
on our own printers, just like click and ship postage.

Naw, that would be too easy !

I don't buy many, using GS instead but when I do, I usually get them
from a QSL manager (like KU9C) for a lot less than the P.O. price.

The problem is they don't have the bar code in their price schedule.
The time before last I bought them at one PO and they finally did a
search by price ($1.85) to get a stock number.

About two days ago at another PO they had a paper "cheat sheet" in the
back room with a stock number.

Tell them to keep trying.

BTW for those who wonder about sending a GS, a lot of managers want two
GS these days, so $1.85 is less expensive. Note I didn't say cheaper.
Both are expensive when you're sending lots of cards.

not I in general make me think prehaps I beeter mention in my qrz bio
if you expect a QSL card you should tell me during the contact

althought there are a couple of folks I refuse to QSL because I had
unpleasent dealing with outside of the imdeiate contact

You're lucky. The post office is saving you money. Buy IRCs from QSL managers selling them and you'll save a lot of money. Going rate these days is about $1.20. Make sure you get the new ones, as the old ones expired the first of the year.

Personally, I use greenstamps, rather than IRCs 99% of the time.

Until the QSL managers build up their stock with the new version, they
aren't likely to have any for sale for a while yet.

Try KU9C, Steve usually has more thasn adequate supplies of up to date
IRC's for reasonable prices I might add

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, N2OO, K3LR, NG3K, W3UR & The Daily DX, K4ZLE, N4AA & QRZ DX, N4II, K6EID, AC7DX, N7NG, K8ND, K8YSE, Pete's-DX-Newsdesk, 5B4MF, 5B4NC, 9A6JYL, DJ5AV & The DX News Letter, DJ7IK, DK8JB, F5NQL & UFT, F6AJA & Les Nouvelles DX, G3SWH, I1JQJ/IK1ADH & 425 DX News, I1HYW, I2YSB, LZ1ZF, M5AAV, OH2BH, PA7FM, RSGB IOTA and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 7th/January, through Sunday, 14th/January there were 218 countries active. Countries available: 1A, 3A, 3B8, 3D2, 3DA, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C2, C3, C5, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FW, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J6, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV/a, SV9, T30, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2V, VP8, VP8/h, VP8/o, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2006 MOST WANTED SURVEY RESULTS ARE IN! Look for the complete results of the "2006 Most Wanted Countries" in the January/February issue of "The DX Magazine". From the top 100 world-wide listing/ranking, the most wanted top 10 are:
1) Scarborough Reef (BS7) 6) Glorioso (FR/G)

2) Lakshadweep (VU7) 7) Bouvet (3Y/B)
3) North Korea (P5) 8) Desecheo (KP5)
4) Yemen (7O) 9) Marion Island (ZS8)
5) Navassa (KP1) 10) Heard Island (VK0/H)

Editor Carl Smith, N4AA, does mention that this year's survey does have an error. Swains Island was NOT shown on the survey form by mistake and Carl apologizes for the error. Carl actually feels Swains Island is the number one most wanted country due to the "relatively small number of contacts" made by the KH8SI DXpedition and that "only one operation has ever taken place from Swains Island". He states, "Although it is not shown in the #1 spot on any of the reports, please consider it to be there." Carl usually posts (not there yet) the results of the survey on "DX Publishing, Inc." Web page at: http://www.dxpub.com/

3B8 & 5R8, MAURITIUS AND MADAGASCAR. Karl, DK2WV (one of the XF4DL crew), is currently on holiday in Mauritius (AF-049) until January 20th and is expected to be active as 3B8/DK2WV. He has been there since January 6th, but we have not seen any QSNs on him yet. He is also expected to be active as 5R8HG from Madagascar (AF-013) between January 21-23rd. Activity will be on the HF bands using an amplifier and dipole antenna. QSL via his home callsign by the bureau.

4TH ANTARCTIC ACTIVITY WEEK (AAW Update). The Worldwide Antarctic Program's (WAP) 4th Antarctic Activity Week (AAW) will take place between 0000z, February 19th and 2400z, February 25th.

* Stefan, DC2SF, will be active in the 4th AAW as DR2��7ANT (WAP-83) from Hochschule Ulm (JN58AK), Germany. QSL via the Bureau is preferred, direct with no problem via DC2SF. QSLs will be printed in Spring 2007. ADDED NOTE: DR2��7ANT will also be active during the International Polar Year starting March 1st. Activity will be from Michael's, DH8BM, QTH in Ertingen (JN48RC), Germany.

* Lanny, W5BOS, will be joining the 4th AAW be signing N5T/ANT from Texas, USA. His WAP reference is WAP-91.

* Operators Willy/OE3WWB, Reiner/OE3RPB, Karl/OE3KTA, Bert/OE3AIS, Karl/OE3KKA and Gus/OE3SGA will join the 4th AAW by signing their own callsigns/ANT. They wanted to apply for a club callsign but their regulation in Austria will only allow them to work from each operator's home station. The WAP reference number issued individually, is as follows: OE3WWB/ANT WAP-85 OE3KKA/ANT WAP-88
OE3RPB/ANT WAP-86 OE3AIS/ANT WAP-89
OE3KTA/ANT WAP-87 OE3SGA/ANT WAP-90
They will be active mainly on SSB but also PSK and CW from February 19-25th.

* Correction. Last week, under "stations announced/lined" to be active for the AAW, had K4A's operator listed as K6IED and it should have been K6EID. Information was listed wrong on the WAP Web site.

For more details/updates on the WAP and the 4th AAW, please see the
following Web page at: http://www.ddxc.net/wap

5T, MAURITANIA. Benoit, F8PDR (ex-6W7/F8PDR), will be active as 5T5DY
from Nouakchott, February 5-18th. Activity will be mainly CW on 80-10
meters, using only 100w into a vertical antenna and a G5RV antenna. Since
amplifiers are not allowed, Benoit will try to focus on most evenings
on the low bands (160/80m). Benoit says a great thanks to Jean, 5T0JL,
for helping him with official formalities to get a 5T5 licence. QSL via
the bureau (French REF-Union Bureau only) or direct to: Benoit Lebourgeois,
Route de Chevry, F-50420 Tessy sur Vire, FRANCE.

6O, SOMALIA. Michael, PA5M, is currently in Kenya (he has applied for a
5Z license) and is expected to return to Somalia on the January 17th. He
will stay for a short period (possibly 7-10 days or so) due to the safety
situation; this schedule is subject to any changes at anytime. He will
be activating his 6O0M callsign again. Most of his activity will be during
his local evening hours while daytime is worktime. He will be using wire
antennas (same as last year) and only 100w from a FT857. QSL via PA7FM:
Dennis Robbemond, Loggerhof 11, 3181NS Rozenburg, The Netherland. Visit
the following Web site with a log search at: http://www.pa7fm.nl

8Q, MALDIVES. Andrew, G7COD, will be active for the second time as 8Q7AK
from Embudu Island (AS-013) between January 21st and February 2nd. Activity
will be on 30/20/17/15/12 meters mostly SSB with a little CW. QSL via
G7COD, direct or by the bureau. However, if you use the Bureau system
and do not have access to a QSL Manager or a bureau, please inform him
on your QSL card, and instead he will send an eQSL. ADDED NOTE: Andrew
has announced the following schedule later in the week:
He will be transmitting at the following times every day on the
designated frequencies +/- 10 kHz to allow for QRM.
0900-1000z - 18133 and 21253 kHz
1300-1515z - 14183, 18133 and 21253 kHz
1600-1700z - 10123 and 14183 kHz

9A60, CROATIA (Special Event). Members of the Amateur Radio Club Koprivnica
(9A8K) will be active with the special anniversary callsign 9A60K to
celebrate the 60th anniversary of the ARC Koprivnica. This special callsign
will be in use between January 10th and December 31st. Also, to celebrate
this 60th event of the radio club of Koprivnica, the members will issue
the "Koprivnica City Award" for the contacts with radio amateurs from the
City of Koprivnica. The QSL and Award Manager for this activity is Kresimir,
9A7K. For more detailed information about this activity, please visit
the following Web page at: http://www.9a7k.com

C6, BAHAMAS. Foster, W1CGT, will be active as C6AWN from March 19-26th.
During his stay, he will be active from the islands of South Andros
(NA-001) and New Providence (NA-001, also counts for WLOTA LH-1115). His
activity will mainly be on 40/20 meters, maybe some other bands. Look
for him during his mid afternoons on 14260 or 14300 kHz.

CU2, AZORES. Operators Martti/OH2BH and Juha/OH8NC will be in the Azores
from January 23-29th. They will be active using their portable callsigns

on 160m and 80m. Martti will be operating in the CQ 160M CW Contest (January 27-28th) as CU2A. QSL via their home callsigns and CU2A via OH2BH.

DAYTON HAMVENTION ACTIVITIES.....
* The SouthWest Ohio DX Association is pleased to sponsor the 22nd annual DX Dinner to be held in conjunction with the 2007 Dayton HamVention ®. The dinner will be Friday evening, May 18th, at the Crowne Plaza Hotel, located in Dayton City Center. This is the same venue as in years past. The program details are not final yet, but they will have a good one. As in the past, there will be some nice attendance prizes - last year the main prize was an Icom IC-756 Pro III! They have upgraded the menu this year. Tickets are 36.00 USDs per meal, payable in U.S. funds to SWODXA. (Sorry, they do not process PayPal or Credit Card payments.) Please advise if you want a vegetarian meal when you order. You may order tickets from Jay Slough, K4ZLE, at his CBA. SASE would be appreciated. They attempt to honor group seating requests when tickets are ordered together. There is not a bad seat in the house, but seating is definitely limited. Come join them for an evening of fun and fellowship. Further information may be obtained from Jay at:
k4zle <at> yahoo <dot> com
K4ZLE's CBA is: 8183 Woodward Dr., West Chester, OH 45069

* Tim, K3LR, Dayton Contest Dinner Chairman, informs "The North Coast Contesters are pleased to announce: "The 15th Annual Dayton Contest Dinner --
2007 Contest Dinner tickets are on sale now exclusively via the WEB this year!

Master of Ceremonies for the Contest Dinner is CQ Magazine Contest Editor John Dorr, K1AR

The 2007 Contest Hall of Fame Inductions will be formally announced by the CQ WorldWide Contest Director Bob Cox, K3EST.

We are thrilled to have Dr. Barry Merrill, W5GN as our keynote speaker.

The Contest Dinner will be held on Saturday night, May 19, 2007 at 6:30 PM Cash bar opens at 5:30 PM.

Located at the Crowne Plaza Hotel (Official Contest Hotel) 5th and Jefferson Streets (Next to the Convention Center) Dayton (Downtown), Ohio in the VAN CLEVE BALLROOM

Menu: Prime Rib of Beef, Potato, vegetables, rolls, chocolate fudge cake, choice of beverage, coffee, tea or iced tea.
*** Vegetarian menu available by request at the Contest dinner.

Price is $34.00 per person or $265.00 for a reserved table of 8.
** SEATING IS LIMITED TO 300, SO PURCHASE YOUR CONTEST DINNER TICKETS EARLY ****

***** You must bring your WEB receipt to the dinner to get in.
Seating is random. Tables are set in rounds of 8.
Tickets are only available on http://www.contestdinner.com
There will be no Contest dinner tickets for purchase at the door.

Many contest operators from around the world attend this event. If
you enjoy radio contesting, you do not want to miss this Contest
dinner. We expect a quick sell out just like past years. Go to the
web and get your tickets early!
73! Tim K3LR - 15 years and going strong!"

DXCC NEWS.....
* Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the
following operation is approved for DXCC credit:
5X1RI - Uganda; Operation from May 5th, 2005, to February 3rd, 2006.

* N7NG E-MAIL. From Wayne Mills, N7NG: "Effective tomorrow, 15th, January,
2007, all personal email for N7NG should be sent to n7ng@arrl.net. This
mail will be properly forwarded to my personal account.
Mail sent to n7ng@arrl.org or wmills@arrl.org will NOT necessarily
be rejected or returned. It will likely be read and forwarded to the
appropriate individuals.
Non-electronic mail can be sent to my Wyoming CBA or to my Bloomfield,
CT address until late Spring..... 73, Wayne, N7NG"

EA8, CANARY ISLANDS. Leppala, OH2BYS, will be active as EA8/OH2BYS during
the ARRL International DX CW Contest (February 17-18th) as a Single-Op/
Single-Band (20m) entry. QSL via OH2BYS.

FM, MARTINIQUE (NA-107). Patrick, F6CMH, will be active as FM/F6CMH from
January 18-28th. Activity will be on 20/15 meters, on the usual IOTA
frequencies. QSL via his home callsign.

G6, ENGLAND. Operators G6PZ, M0CLW, M0DXR and possibly others will be
active in the ARRL DX CW Contest (February 17-18th) as a Multi-Single
entry. QSL via M5AAV.

IOTA NEWS.....
AS-120. The Nicosia Amateur Radio Club (5B4NC) has decided to go on a
DXpedition to Agios Georgios, one of the coastal islands of
Cyprus. The DXpedition will take place at the end of July and
the Club will operate in the IOTA Contest from AS-120. The
team will probably operate there for an extra 1-2 days either
before or after the contest. Callsign, QSL info and other details
will be announced at a later date.

NA-123. Operators Frank/DL2SWW (V31FG), Gerd/DJ4KW (V31YN), Gisela/DK9GG
(V31GW) and Gabi/DF9TM (V31DG) will be active February 8-13th
from the Turneffe Islands, Belize. QSL via the operator's
instructions.

NA-141. Members of the Motorola Amateur Radio Club (Florida Chapter),
will operate from Key Biscayne, part of the Florida State South
East group, as W4MOT/4 on February 3rd between 1400-2230z.

This operation will also activate the Cape Florida lighthouse, ARLHS USA-118. Activity will be on CW, BPSK31, and SSB, on 40-10 meters on the usual IOTA frequencies. QSL via W4MOT, direct or by the bureau.

OC-066. Alain, F2HE/FO5RH, will once again be back on Tuamotu Island starting January 16th. He informs us that if he cannot receive the QSL cards from the FO QSL bureau, he will then reply through the bureau once a year when he is back in France.

OC-084. Operators Mike/KM9D and Jan/KF4TUG are expected to be active now as T32MO from Fanning Atoll (aka Tabuaeran), East Kiribati, possibly through this coming weekend. NO QSNs have been reported as this was being written. Activity will be on 160-10 meters. Look for Mike to be on CW while Jan will handle the SSB. QSL via OM2SA, including the LoTW.

SA-027. Bone, PP5VX, is currently active from Sao Francisco do Sul (DIB SC-02 for the Brazilian Islands Award) in the Santa Catarina State North Group until December 31st, 2010. Activity will be on all bands and all modes. QSL via the address on QRZ.com. E-mail skeds are OK at: profsamy@gmail.com

J20, DJIBOUTI (Update/IOTA Op). A group of Italians will be active from Moucha Island (AF-053), February 1-15th. Silvano, I2YSB, informs OPDX that the team has added another operator. Stefano, IK2HKT, will join operators Alfeo/I1HJT, Vinicio/IK2CIO, Angelo/IK2CKR, Carlo/IK1AOD, Marcello/IK2DIA and Silvano/I2YSB for the DXpedition. They expect to land in Djibouti on February 1st (early morning) then go straight to Moucha Island. The first station should be ready before sunset. Callsigns will be J20M and J20R. Activity will be on all bands 160-10 meters including the WARC bands, CW, SSB and RTTY. They plan to have three stations on the air. QSL is via I2YSB. Their Web page is available at:
http://www.i2ysb.com/j2/
Silvano informs OPDX: "Internet access is not available on the island. To update the online log it will be necessary to sail to the mainland. Furthermore, Internet connection is very slow in Djibouti, we will do our best to update the log online every 3-4 days."

J6, ST. LUCIA. Bill, WB5ZAM, will be here for his annual vaction/DXpedition between April 1-13th. Look for him to be active as J68WI on the HF bands, CW and SSB. He states, "Operations will be between the beach and enjoying the St/ Lucian hospitality." QSL via his home callsign.

KC4, ANTARCTICA. Adam, KC4/K2ARB, has been active from Patriot Hills Base (WAP MNB-02) in Antarctica since November 11th. He has been heard around 0600z on 14219.5 kHz using an Icom 746 and a 1000' V-Beam, 25 ft. above the Ice. Patriot Hills is a Logistics Base supporting expeditions to the South Pole and the Ellsworth Mountains and is privately funded. Location is 80S and 81W about 600 miles from the South Pole. The operation ends on January 27th. QSL to K2ARB. Visit the following Web site for more info and updates: http://www.k2arb.blogspot.com

ADDED INFORMATION: Adam, K2ARB, reports that a group researchers/members of the KoreaMet are setting up a Field camp at the "Martin Hills Fields Camp". Location is: 82=B0 01' South, 88=B0 04' West. The 2006/2007 Korea Expedition for Antarctic Meteorites includes 2 Hams: Hankyoo Yoo/HL1TJF and Jongwoo Park/HL1TR who are both signing KC4/HL1TJF and KC4/HL1TR. Their operation will last until the end of January. Their setup is an HF rig and dipole, provided by Adam, KC4/K2ARB. Look for them to be active on 40/20 meters SSB (Check 7040 and 14188 after 2300z). Look for the "Martin Hills Fields Camp" to be added in the WAP Directory as WAP MNB-05.

OM, SLOVAK REPUBLIC. Members of the LBCC will be active as OM7M in the ARRL DX CW Contest (February 17-18th) as a Multi-2 entry. QSL via OM3PA.

PJ2, NETHERLANDS ANTILLES. Operator Jeff, K8ND, (Station Manager for PJ2T) and members of the Caribbean Contesting Consortium (CCC) will operate as PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942) in the CQWW 160 CW Contest (January 27-28th). He states, "Everyone should note that we are at or very near the sunspot minimum, a GREAT time for Topband operations! The CQWW 160 CW Contest will be a great opportunity for a 160 meter 'newbie' to jump in and work some DX!" QSL PJ2T via N9AG or Logbook of the World (LOTW); be among the first to receive the *new* PJ2T QSL card design!

PJ7, ST. MAARTEN. Bil/W8EB and his wife Dorothy/W8DVC will be here between February 25th and March 25th. Activity will be on 160-10 meters, CW, SSB, RTTY and PSK31 as PJ7/W8EB and PJ7/W8DVC. Bil will operate in the ARRL DX SSB Contest (March 3-4th) as PJ7B. This will be Bil's 12th consecutive ARRL DX SSB Contest participation from St. Maarten. All QSL requests go to W8EB.

QSL INFO AND NEWS.....
LY1FGW via LY3BV LY2IN via LY2TX
LY1FTG via LY2TG LY3AV via LY3R
LY1XM via LY4T LY3NL via LY1KAT
LY2BT via LY2BVB LY3TL via LY2L

3Y0X QSLS. QSLs via Bob, N2OO. Bob reports: "I am expecting a large crush of QSL mail once the VU7RG operation gets going. So, if you have been waiting to send for your 3Y0X, CE0Z, XR9A QSLs (or any other QSL I handle), right now is a GOOD time to send for it. Once the VU7 mail starts coming in, all other QSLs I handle COULD be delayed a bit. Remember! If you use IRCs, ONLY send the NEW current IRCs that expire Dec 31, 2009."

5A7A QSL STATUS. Andy, DJ7IK, informed OPDX on January 8th that some 38000 QSL cards were printed, and they are now starting to answer the 4400 direct QSL cards which they have received. There has been some reports that people are receiving their cards. Andy also mentions that there are two different QSL cards which and they can be viewed on the 5A7A Web page at: http://5a7a.gmxhome.de/qsl.htm
Please remember that they can only accept the new valid IRCs for direct return. QSL cards sent with old IRCs will be answered via the bureau, but with the first batch. ADDED NOTES: Several articles have been written

about their DXpdedition for QST, ARRL and other ham magazines which will be published soon. Andy, DJ7IK, states that he is producing a powerpoint presentaion about 5A7A, and Rudi, DK7PE, is working hard on their DXpedition video. Meantime you can watch video samples on: http://youtube.com
Just search for 5A7A. The team is happy to make Jari's, OH2BU, "Mega DXpedition List", listed in the 4th position after D68C, 3B9C and 4O3T, but they set two new records: Most QSOs of a DXpedition on 160m and 80m!

NOT THE QSL MANAGER. Ron, AC7DX, reports that he is no longer the QSL Manager for T93X and VK6JB.

Phil Whitchurch, G3SWH, is pleased to announce that he has recently acquired a copy of the log for the XU7ABC operation by G3XAQ between May 3-6th, 2001. Anyone still needing a card can apply for one via the usual channels, i.e. direct with adequate return postage and SAE, E-mail for a bureau reply or via the RSGB Bureau. His E-mail address is: Phil@g3swh.demon.co.uk

QSL STATUS FOR YX0A AND YX0LIX. QSL Manager Steve, KU9C, reported on January 10th, the following: "As of this morning, I've probably got about 25% of the card requests in the mail. Many more to do, so please be patient. The timing of the stuff I need to manage the QSL sending came at a bit of an inopportune time for me with other commitments, but I'm hammering them out. A few notes:
- There were a number of QSOs that DID NOT make it in the initial logs that are online. I've recently received a final update, and am checking the 'not in logs' thoroughly against these new logs. Unfortunately, this is going to slow me up a bit, but I want to make sure you get credit for as many QSOs as I can match!

- A number of you requested QSLs for other stations I manage. I've been able to finish many of these before the YX0 cards arrived, so that hasn't slowed me down...but for those of those I missed, this will slow the request down substantially. Please do not re-submit, as this just adds confusion.

- I'll be putting up the logs in LOTW, but this will be after I get the direct cards mailed, for a number of reasons.

I'll update as I get down the pile further. 73, and
Happy New Year -- Steve KU9C"

S21, BANGLADESH (Update). The "Bangladesh 2007 DXpedition" is now active until January 16th. The callsign is S21XA. The team reports that the "conditions are terribly poor and they try to take advantage of all the openings towards EU and NA since with JA there are better conditions." QSL via EA3BT (direct or by the bureau). Further information and updates will be available at: http://www.ea3bt.com/s21xa.htm

SPECIAL EVENT. Look for the Balkan Contest Club (LZ1KZA) to use the special callsign LZ170VL from now until December 31st. Activity is to celebrate the 170th anniversary of the Bulgarian national hero Vasil

Levski, who was born on July 18th, 1837, in Karlovo. For details, visit:
http://en.wikipedia.org/wiki/Vasil_Levski
http://www.iianthropology.org/vassillevski.html
QSOs with LZ170VL counts for 10 points towards the "St. Teodosii Tyrnovski Award". For details, please visit: http://www.balkanclub.org
QSL via LZ1KZA, by the LZ QSL Bureau.

V7, MARSHALL ISLANDS (Kwajalein Atoll, OC-028). Just a reminder that Neil, WD8CRT, will once again be active as V73NS as January 12th and will remain there for at least two years on the Island of Roi-Namur. Activity will be mostly CW (possibly some Digital) on 160-6 meters. He was spotted this past weekend on 40 meters CW after 0930z and 20 meters CW after 0000z. QSL by the Bureau or direct to: Neil Schwanitz, Box 8341, APO, AP 96557 (USA). QSLs for his 2003 to 2005 QSOs are "OK" to the same address. Visit his Web site at: http://www.qsl.net/v73ns

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
* By the time you read this, the fun should begin to work the second VU7 operation. (CHECK THAT! Just before going to print, the VU7RG team is now up and active.) Remember, for up-to-date details, visit the VU7RG Web page at: http://www.vu7.in/

* PRESS RELEASES (dated January 9th) from the VU7RG Web page:
- Special callsign for Minicoy Island (AS-106): The Minicoy operations will have a special callsign VU7MY granted by WPC (Indian Govt.) and will be active from January 15-31st. This will be an all Indian Amateur Radio operation station.

- License extended for Indian Operators: Indian Radio Amateurs have given permission to operate until 31st January 2007.

- VU7 Team: The Kadmat advance team is already on Kadmat to make preparations. Lots of the other team members are arriving in Cochin.

XT, BURKINA FASO (Update). The F6KOP ARS of Provins group continues to be active as XT2C from Ouagadougou, the capital city of Burkina Faso. Activity will last until January 20th. The team reported Sunday morning that some of the operators are still ill, but they continue to operate. They are all close to their physical limits, and even the strongest team members are exhausted. However, they are still having fun and are in a good mood. The propagation is not as good as during their first days of operation. They also report that the low bands (160-40m) are now very noisy, and signals on the higher bands during daytime have a strong QSB. QSOs count as of Sunday's report is about 36,558. The QSL Manager for XT2C is F9IE, by the bureau or direct to: Bernard Chereau, BP 211, 85330 Noirmoutier en l'ile, France. If you wish to receive a QSL via bureau, you can speed up the process by sending a list of your QSOs by E-mail (with callsign, date, time, band and mode of each QSO) after January 21st to: xt2c@orange.fr
By following this procedure, you do not need to send a paper QSL via bureau. All requests received via e-mail or bureau will be answered. Visit the XT2C Web page at: http://xt2c.free.fr/

XU7, CAMBODIA (Update). Operators Steve/9M6DXX, John/9M6XRO and Pete/SM5GMZ will be active as XU7DXX, XU7XRO and XU7ADI, respectively, from an established DX shack in Sihanoukville, Cambodia, between February 1-10th. Activity will be on CW, SSB and the digimodes with operations on all bands, depending on propogation, of course. Steve will primarily be on SSB and John will be on the key and RTTY. QSL XU7ADI via SM5GMZ, and for XU7DXX and XU7XRO via M5AAV: Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ, England. ADDED NOTE: Please see the following interesting Web site at: http://www.qth.com/dxshack/XU/XUtop.htm

XU7, CAMBODIA. Operators Yoko/JA3DFM, Yoshi/JA3EGZ and Tada/JA3PPH will be active as XU7DFM, XU7EGZ and XU7PPH, respectively, from Shihanoukville City, March 16-19th. Look for activity on all HF bands and modes. QSL via their home calls (QRZ.com).

XW, LAOS. Alex, RK3DT, is now active as XW3DT between now and January 20th. Activity seems to be on 40/30/20/17/15/12 meters, mostly CW with some SSB. QSL via: PO Box 11, GPO, Hong Kong (before May 2007).

ZK3, TOKELAU ISLANDS (Also, 5W). Look for operators Sara/HA9SDA and Eli/HA9RE to be active as ZK3RE from February 3-21st (possibly 22nd). They plan to have two stations on the air operating CW, SSB and RTTY, and on 160-10 meters. The suggested frequencies are:
CW - 1815.5/1831.5, 3507/3511, 7007, 10117, 14040, 18084, 21040, 24914 and 28040 kHz
SSB - 3789, 7047/7080, 14240, 18114, 21255, 24940 and 28440 kHz
RTTY- 14075, 21100 and 28075 kHz
After their activity on the Tokelau Islands, they will head to Samoa and be active as 5W0RE possibly starting February 26-27th to March 11-12th. Activity will be the same as on the ZK3 operation. QSL via HA8IB.

That's Google Subscribers. Not the number that Read in via ALL USENET

Google Groups does not equal USENET Groups.

Only 115 does not surprise me because most computer users, including
DXers, are not aware of UseNet.

DX Bulletin No. 794
BID: $OPDX.794
January 22, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Web site, K1XN & GoList, NC1L, NJ1Q, KA2AEV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W6YD, K8YSE, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, E21EIC, F5NQL & UFT, G3NKC, I1JQJ/IK1ADH & 425 DX News, M5AAV, RSGB IOTA, UA2FM, UA4WHX, UA9CDC, VA3RJ & ICPO and VK1AA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 14th-January, through Sunday, 21st-January there were 219 countries active. Countries available: 3A, 3B8, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C2, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E4, E51, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S0, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, VU7, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

100 POUND DXPEDITION (VP2M - Update/Reminder). Members of the "Buddipole Users on Montserrat" (BUMS) will mount a DXpedition to the island of Montserrat (NA-103) from January 29th to Feburary 6th, 2007. It seems DXpeditions have now moved from Microlite to Ultralite. DXpedition team members will pack light for this DXpedition taking only lightweight transceivers and portable antennas. The maximum equipment weight taken to

the island will be 100 pounds per person. With this lightweight equipment, the team plans many on island portable operations in the hills, on the beach, and from the volcano observatory on the southern part of the island. The team members mentioned are (updated): Budd/W3FF/VP2MFF, Chris/W6HFP/VP2MHF, Paul/KB9AVO/VP2MVO, Mike/KC4VG/VP2MVG, Tom/W4OKW/VP2MTC, Bob/AB7ST/VP2MST, Dan/WZ1P (No VP2 callsign yet), Scott/NE1RD/VP2MRD and Dave/KZ1O. Activity will be on all bands 160-6 meters, CW, SSB, PSK31, RTTY and SSTV. QSL via NE1RD. Check their Web site for more information and updates at: http://dxpedition-vp2m.com/
Also, you can follow along with the planning, preparation, execution, and follow through on this DXpedition through NE1RD's blog, "The 100 Pound DXpedition", at: http://100pounddxpedition.blogspot.com

2007 VISALIA INTERNATIONAL DX CONVENTION. The 2007 International DX Convention will take place April 27th, 28th and 29th, 2007, at the Holiday Inn Hotel & Conference Center in Visalia, California. This is an ARRL sanctioned convention that is sponsored this year by the Northern California DX Club. It is expected to draw visitors from around the World and will feature programs from recent DXpeditions and contest operations.
The Convention theme this year is, "Elmering New DXers is Job Number One!" Accordingly, a portion of the programming will be devoted to helping new DXers learn how to be noticed in a pile-up, snag a "new one" and get that elusive QSL card.
Other Convention offerings will include: DX, Top Band and Contest Forums, technical talks, many door prizes, both Friday and Saturday evening "attitude adjustments", Saturday Barbecue Lunch, Saturday night banquet, Sunday morning "power" breakfast, Vendors Exhibits and QSL card checking.
Current information and registration forms are available on the Convention web page which can be found at: http://www.dxconvention.org
Additional registration information can be obtained by contacting Convention Registration Chairman, Dick Letrich, W6KM via Email at: dlw6km@aol.com
If you're interested in DXing, the Visalia DX Convention is the place to be. We hope to see you there.

5H, TANZANIA (IOTA Op Cut Short!). World traveler Vladimir, UA4WHX, informs OPDX, that he had to cut short his 5H3VMB/3 IOTA operation from AF-075 because of a major transceiver failure. His activity only lasted for two days before the failure. He is currently in Dar-es-Salaam looking to repair or replace his radio. He feels the radio may not get repaired and may try to borrow or purchase a new radio (or possibly invite someone to come and operate with him). Vladimir does want to travel to a couple more locations before returning home to Russia. If you can help Vladimir, let OPDX know and we will contact him.

9M8, EAST MALAYSIA. David, VK2CZ, will be attending an Electrical and Electronics Engineers (IEEE) Region 10 meeting in Koto Kinabalu and plans to be active for a few hours during the CQ WPX SSB Contest (March 24-25th) possibly as 9M6/VK8AA. David states, "I've love to catch up with any ham in / around East Malaysia - given the hassles about securing my own 9M licence.."

9Q, DEM. REPUBLIC OF CONGO (Possible Topband Activity). Philippe/9Q1TB and his friend/neighbor George/9Q1EK (VE2EK) were heard this past week. Watch 40/30 meters. Philippe mentioned that this past week George and he were conducting some encouraging tests on 160 meters after setting up an Inverted L this past Sunday (January 14th). He states, "The signals are not too open over Africa, but we've heard a lot of Europeans." They hope to set a second antenna. Those who can access Google Earth, enter the following coordinates at: 4° 19'40.00"S and 15° 16'31.80" E You can see George's house on the left and Philippe's on the right. The two operators share air time because their stations are so close; they also share a great part of their antenna systems. QSL 9Q1EK and 9Q1TB, via SM5DQC (only direct) to: Osten B. Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden.

C5, THE GAMBIA. Jay, LY4Y, will be active as C56NN from January 22-29th. Activity is planned for 160-10 meters. QSL via LY4Y, by the bureau or direct to his home address in the United Kingdom: Jukna "JAY" Sarunas, 10 Johns Avenue, Haydock, St. Helens Merseyside WA11 0QB, United Kingdom.

CN, MOROCCO. Members of the UA2 Contest Club will be active as CN2A during the CQ 160-Meter CW Contest (January 27-28th) as Multi/Single entry. The operators mentioned are Denis/CN2A, Victor/RV2FW (CN2FW), Andy/UA2FB (CN2FB) and Vladimir/UA2FF (CN2FF). This team scored three world records in 160m contests from C42A and 3V8BB some years ago. Some activity before the contest is expected, possibly starting January 25th. QSL CN2A and others via DK4VW (direct) or via the UA2 QSL Bureau (http://qrz.ru/qsl/, English version for 2F's address is also there). DK4VW's address is: Ulrich Mueller, Kreutzacker 13, D-35041 Marburg, Germany.

E2, THAILAND. Champ, E21EIC, informs OPDX that he will back home in Southern Thailand and operate as E21EIC/8 between January 19-26th (was recently in Vietnam). He was heard this past weekend on 40 meters CW. JA stations QSL via JR5XPG, all others QSL via his home callsign.

IOTA NEWS.....
NA-246. A team of XEs and Ws will activate Larga Island, February 23-25th. The callsign was not mentioned. However, they plan to operate around 48+ hours with 3 stations, CW and SSB. QSL via N6AWD.

OC-212. Nick, VK1AA, will be active as VK1AA/2 from Broughton Island, February 25-28th. Activity will be on 40/20/15 meters, CW and Phone. QSL via PO BOX 900, Spit Junction 2088 NSW, Australia.

SA-021. Members of the Bahia Blanca DX Group and Mistongo DX Tandil Group will activate Trinidad Island as LQ0D on February 2-4th. Trinidad Island is located in the Atlantic Ocean near Bahia Blanca, 3 hours navigating from Puerto Rosales, at 35km from Bahia Blanca. The ship will set sail on Friday, February 2nd at 6:00 am and will arrive at the island at mid-morning. The group will immediately start moving all the materials to the camping site where there are lots of bushes but no trees, no houses and no fresh water. The group will return on Sunday at

7:00 pm. Activity will be on 80-10 meters including 17 and 12
meters (depending on propagation) on CW, SSB and the Digital
modes. A special full color QSL card will be printed for this
operation. QSL to the GDXBB Manager, Carlos, LU7DSY: PO BOX 709,
ZIP CODE 8000, BAHIA BLANCA, Argentina. Argentinean stations
will have to send a self directed envelope, with a 75-cent stamp.
Foreign stations will have to enclose 2 USDs or 2 IRC. QSLs
will also be possible via bureau. For further information,
contact at: lu7dsy@hotmail.com

LX, LUXEMBURG. Operators Juergen/DL4SDW, Bernd/DL8SCG and Philippe/LX2A
will be active as LX7I during the CQ 160-Meter CW Contest (January 27-28th)
as a Multi-Op entry. QSL via LX2A. Visit the following Web page at:
http://www.lx2a.com

LX, LUXEMBURG (Special Event). Members of the R&#65533;seau Luxembourgeois des
Amateurs d&#65533;Ondes Courtes (RL - Luxemburg Amateur Radio Society) will
activate three special event stations during the year of 2007. Activity
is to celebrate Luxemburg being the European's Capital of Culture this year.
Look for the following stations to be activated by several operators:
LX2007L (district Luxemburg), LX2007G (district Grevenmacher) and LX2007D
(district Diekirch). QSOs will be confirmed automatically via the QSL
bureau. A special award is issued as well. An online log will be available
via eQSL, LoTW and the RL homepage at: http://www.rlx.lu
For more details or questions, please send an E-mail to: lx1kc@rlx.lu

MD4, ISLE OF MAN. Operators David/G3NKC, Peter/G4MJS and Martin/G4XUM
will be active as MD4K during the CQ 160-Meter CW Contest (January 27-28th)
as a Multi-Op entry. QSL via G3NKC. David, G3NKC, informs OPDX that the
team will go to the Isle of Man on Thursday before contest. He states,
"Hopefully, we will be on for JA sunrise before the contest, following
many requests, probably using GD3NKC/P." QSLs for both callsigns should
go to G3NKC. If direct; please remember that 1 USD is not sufficient for
return postage outside of EU.

QSL INFO AND NEWS.....
6I2YBG via XE2YBG HS0ZCY via AA4XR
A62ER direct XU7ADF via AA4XR
CN8WW direct

8Q7DV ONLINE LOG. Igor, UA9CDC, reports that the online log for the
2006 8Q7DV operation is now available at: http://radio-8q7dv.narod.ru

Graham, M5AAV, informs OPDX that he is no longer the QSL Manager for
G6PZ, GX6PZ or GB6MD, effective immediately.

VK1AA QSL EXCHANGE SERVICE: "Part of the enjoyment of contacting other
amateurs is the final courtesy of the QSO - the QSL card. In addition to
the necessity of verification of contacts for awards, many amateurs enjoy
collecting QSL cards. VK1AA QSL Exchange Service is a QSL service for
those who would like to have a better return rate than through an existing
QSL bureau.

To our Australian members, we guarantee 4 weeks delivery time on all incoming cards for symbolic yearly membership of only $A10 (US$ 8) or $A5 (US$4) for F-class callholders. Of course, we gladly accept all incoming cards for all VK stations; members or not. (Non-member cards are forwarded to local National bureau on bi-monthly basis).
Our members are encouraged to promptly reply to all incoming cards through our own outbound QSL service to overseas bureaus which is free of charge for small to medium users and 'at actual cost' to large volume users.
We believe QSL Exchange Service will make a dramatic impact on QSLing 'down-under' and we invite you to support our project. Sending your QSL cards for VK stations via QSL E. S. will not just unclog the existing, mostly inefficient system, but will also reduce delivery time from many months to just a few weeks.
Please do not send money or IRC - this 'new old-fashioned' QSL service is not for profit. Should you wish to receive an acknowledgement of receipt, please include your E-mail address. Thank you for your patronage and happy QSLing..... Nick Hacko, VK1AA
QSL Exchange Service, PO BOX 900, Spit Junction 2088 NSW, AUSTRALIA
For more details on this service, please visit:
http://www.vk1aa.com/qes.html

S21, BANGLADESH (Update). The S21XA "Bangladesh 2007 DXpedition" is now QRT. The team pulled the plug Tuesday, Jaunary 16th, at 0000z with little more than 17,000 QSOs. They report that the S21XA team was tired after seven hard days of 24 hours/day of non-stop operations. The team is happy with their operation inspite of the bad propagation. They were able to provide a "new one" for a lot of operators and also help fill in a new band and/or mode QSO to the rest. QSL via EA3BT, either direct or by the bureau. Online logs are available at:
http://www.ea3bt.com/bangladesh/bangla-logs.php

STATESIDE CODE TO BE ELIMINATED. The following is from the ARRL Web page this past week: "Codeless Amateur Radio Testing Regime Appears Set to Begin February 23 (Jan 19, 2007) -- The ARRL has learned that the FCC's Report and Order (R&O) in the "Morse code proceeding," WT Docket 05-235, is scheduled to appear in the Federal Register Wednesday, January 24. Assuming that occurs, the new Part 97 rules deleting the requirement that Amateur Radio license applicants pass a Morse code examination for any license class would go into effect Friday, February 23, 2007. The League cautions that this date is tentative, pending official confirmation and publication." The ARRL has posted all relevant information on the important Part 97 rule revisions on its "FCC's Morse Code Report and Order WT Docket 05-235" Web page, at: http://www.arrl.org/fcc/morse/

TA, TURKEY. Ozer, TA2RC, will be active during the CQ 160-Meter CW Contest (January 27-28th) as a Single-Op/Slow-Power entry. QSL via TA2RC by the Bureau.

TZ, MALI. Operators Eric/ON4LN (TZ2T), Ivo/ON5CD (TZ1T), Stefaan/ON4FG (TZ4T) and Bart/ON3VK (TBA) will be active from Bamako, Mali, April 2-7th.

The group plans to activate some prefixes that were never issued before. Activity will be on 160-10 meters on SSB, CW and Digital modes (RTTY, BPSK31, etc.) with at least 2 stations on the air simultaneously. Bands and mode will largely depend on the propagation. The aim is to activate the low and WARC bands, CW and digital modes as often as possible. QSL direct to ON4LN for all callsigns, or via bureau to their home callsigns. More information is available on their Web site at: http://mali2007.obox.be/

V2, ANTIGUA. Ed, N2ED, will be active as V26G during the ARRL DX CW Contest (February 17-18th) as a Single-Op entry. He will be there between February 10-21st. Look for activity on all the HF bands including the WARC bands before and after the contest. QSL V26G Via N2ED.

VK, AUSTRALIA. Tino, VK3EGN, will be active in the CQ 160-Meter CW Contest (January 27-28th) as a Single-Op entry. He states that he will be using a kite lifted antenna from Ocean Grove Beach. QSL via VK3EGN to the Bureau.

VQ9, CHAGOS ISLANDS. Larry, VQ9LA, will be active in the CQ 160-Meter CW Contest (January 27-28th) as a Single-Op entry. QSL via VQ9LA.

VP2V, BRITISH VIRGIN ISLANDS (NA-023). Look for Steve/AK0M and his XYL Sandy/KC0RD to be active as VP2V/homecall from the Island of Anegada, February 12-18th. Activity will be on 40-6 meters, possibly some 80m operations if the antenna situation permits. Their emphasis will be on 40/30/17 meters, also 12m if the band is open. Operations will be primarily on CW, but with some possible SSB. Look for activity to be sporadic since this is a holiday style operation, but they do plan to be on the air at least 2-3 hours a day. Some limited time of participation, possibly 6-12 hours, and are expected in the ARRL DX CW Contest (February 17-18th), as a QRP entry. Their operating locations will vary between portable locations including the beach and from their living accomodations. QSL via AK0M, direct or by the bureau (processed once a year). Logs will also be available on LoTW after the trip. For more details/information about their operation, visit: http://pages.cfu.net/~sjs/vp2v/vp2v_feb_2007_main.html

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
* Plenty of activity is on the air from the VU7RG teams on all four islands. Remember, for up-to-date details, visit the VU7RG Web page at: http://www.vu7.in/

* Depending in what IARU Region you are in, there are three different QSL routes for this operation. They are:
IARU Region 1: (Europe, Africa, Middle East and Northern Asia)- QSL to the German DX Foundation: GDXF, Blumenstr. 25,
50126 Bergheim, Germany
IARU Region 2: (The Americas) - QSL to Bob Schenck, N2OO:
Bob Schenck, REGION 2 QSL MANAGER FOR VU7RG,
P.O. Box 345, Tuckerton, NJ 08087-0345 USA

IARU Region 3: (Asia-Pacific) - QSL to I-House Radio Club/JA3UB:
I-House Radio Club/JA3UB, P.O.BOX 73, Amagasaki,
660-8799 JAPAN

It is recommend to visit the VU7RG Web page for more details on how
to QSL to each different route, especially for Bureau QSLs.

* Online logs are available (most, but not all) at the following
Web site: http://www.dx-pedition.de/lakshadweep2007/logs/logsearch.php

XT, BURKINA FASO (Update). By the time you read this, the F6KOP ARS of
Provins group should be back in Paris early Sunday morning, January 21st.
Reports indicate that the team was very happy to excess their QSO goal.
Last QSO count was 56,287. Last contact was made on Staurday, January 20th,
at 1200z. The last XT2C contact can be heard online on the DXpedition's
Web page at: http://xt2c.free.fr/
A log search will be available very soon online at:
http://xt2c.free.fr/log_uk.php

YW0, AVES ISLAND (Update). The 4M5DX Group recently announced that a team
of 15 experienced operators lead by Alex, YV5SSB, will be active as YW0DX
from Aves Island (NA-020) beginning the second week of February 2007, for
10 days. Conrad, IT9DAA, the team's QSL Manager, reports that the last
agreement with the Venezuelan Military Navy was to board for Aves Island
February 7th (with operations beginning February 8th). Their departure day
is still undetermined (the date could vary, between February 15-18th).
The team has now put a survey (poll) on their Web site for band and mode
needs. To participate, go to: http://yw0dx.4m5dx.org/poll.html
QSL via IT9DAA. They are looking for sponsors/donors. More details
are available on their Web page at: http://yw0dx.4m5dx.org

ZL, NEW ZEALAND. Bill, ZL3NB, will be active during the ARRL International
DX CW Contest(February 17-18th) as a Single-Op entry. QSL via the LoTW or
the Bureau. Bill hopes to achieve "WAS" via the LoTW!

ZP, PARAGUAY (Also HH). Dale, N3BNA, will be active from here between
January 23rd and February 6th. Activity will be from ZP6 and possibly
ZP9 land, so look for him to sign ZP6/N3BNA and ZP9/N3BNA. Dale mentions
that he has never worked a JA station on 160 and 80 meters, and would
really like to work them. Also, look for Dale from Haiti as HH7/N3BNA
between February 11-24th. Dale states, "In Paraguay, I will have a big
station with power...In Haiti, it will be low-profile station with 100
watts or less...so not much chance to work JA from HH7...Maybe on 40m or
80m." Please QSL ZP6/N3BNA, ZP9/N3BNA and HH7/N3BNA via KA2AEV.

Hi,

Take a look, I know you'll love it as much as I do.
They give you access to some of the best groups others may not carry.
Images, video, mp3 music, the real news from around the world... it's all inside waiting for you.
One thing I love about them, they don't keep log files of the news I read or files I download.
They offer some of the best premium newsgroup access anywhere.

Keyword searchable
Blazing fast downloads
800 GIGS of new multimedia content each day
Convenient thumbnail indexes
2,000,000 new posts each day
Posting allowed!
Very long retention

Just go to http://www.newsdude.net and see why I love them so much. Bye for now!

55. Getting QSL Cards from contacts long time ago

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-26 15:17:07 UTC
From: tladotse <w4tki.kenn@gmail.com>
Message-ID: <1169824627.281468.242000@s48g2000cws.googlegroups.com>
Source record: 2676

Hi all. My situation is that I am very much into increasing my DXCC numbers right now. I was almost inactive for a number of years on HF after my wife was ill and died. About a year ago I started counting my DX contacts. I found that I had apparently lost a box of qsl cards for dx in moving and am missing a number of cards that I had confirmed at one time.
I am going back and trying to beg another card out of those that I find in my logs.
Specifically, on some operations such as ones in the South Pacific Islands, Clipperton, etc that I have worked and even had confirmed at one juncture have had the same call sign assigned to different people during different time periods. Is there a source on the web or otherwise where one can find out who was the holder of a given call at a given time and additionally who might have been the qsl manager.
Thank you so much for the information
73 and DX
Kennon W4TKI

56. ? How to make them for call signs

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-26 16:19:38 UTC
From: Caveat Lector <CL@nowhere.com>
Message-ID: <sSpuh.1576$uj5.1358@newsfe07.phx>
Source record: 2677

Google to the rescue for ?

Also ? ? ? and lots more

See URL:
http://tlt.its.psu.edu/suggestions/international/accents/codealt.html

? is really a Nordic O slash. For a true slashed zero -- see URL:
http://www.reference.com/browse/wiki/Slashed_zero

The slashed zero looks just like a regular letter 'O' or number '0' (zero),
but it has a slash through it. Unlike the Scandinavian vowel '?' and the
"empty set" symbol '?', the slash touches the walls of the surrounding O
shape but does not extend past them on the outside.

More on slashed zeros at URL:
http://www.eham.net/forums/ComputersAndSoftware/1

In Ham work I use the Nordic O ? for call signs, but be aware this can
goof up some logging programs

CL

Try typing the callsign in Google.

Also contact your local DX club and present the problem to the members. Most likely these folks worked the same stations as you.

And you can post a list here for the ones you need.

I may have some of the ones you need -- so post em -- will see if I and others can help

Good Luck

CL

I use Terminal font (included with Microshaft Windoze since dirt was new) --
no extra keystrokes needed, and it imports/exports w/o issues. Fixedsys also
offers a slashed zero, though the representation is better, in Termainal
font.

< snip >

I read the request and I'm not sure how to respond. Yes, I would like to see a NG that had the politics and flames flushed out of it by a "duty roster" of moderators. However, I'm bothered that it is proposed to *supplement*, not *replace* the other newsgroup. How could I be sure that some (valid) posters weren't behind in the old, abuse-filled group, toughing it out???

What I'm saying is that I want a clean break. If I have to check *two* newsgroups as a substitute for previously having had to check one, that's unfortunately not an improvement.

If my dilemma is too obvious and I shouldn't have bothered stating it, I'm sorry.

73,
KD6VKW

Leave the old group for those who want to wallow in the problems.

The simple solution for most of us will be to simply ignore or even delete
the other groups.

Thanks, All useful info.
However, what I really need is a symbol for the letter 'O'. I have
problems with my callsign, and, as I use my callsign in my e-mail
address, I suspect that a lot of the time I fail to receive mails
intended for me. At least one professional organisation has it as
'g30ohx'. Despite occasional repeated requests to correct it, it remains
the same.
Ian.

Ideally, we will wind up with the wheat in one
newsgroup and the chaff in the other. Participants
will use their free will to decide when (if ever)
to make that "clean break".

well removing RRAP is not going to happen according the Proponent

and Frankly I don't think the new NG is going to realy get moving if
get launched

I started writing short stories about my travels, people I met, situations I encountered..., many of which happened in the background of expeditions like FO0CI, AH1A, VK0IR, 3Y0PI and DX activities such as D2TT, 5X1T, YA5T, AP2ARS, YU8/ON6TT, etc...

I hope they form an interesting read for the DX community.

My travel short stories in blog-format can be found at:

http://theroadtothehorizon.blogspot.com/

71. 6m beacon sorted list and google earth support

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-28 13:49:50 UTC
From: mayer45@m05.yer.at
Message-ID: <1169992189.938972@ee1>
Source record: 2692

hello

http://ma.yer.at/6m/

is updated now.

it gives the possibility to calculate azimuth and
distance to the 6m beacons for a given location.
now it's possible to select the sort-criteria.
default is qte direction, alternative you can select
the sort by qrg frequency or qrb distance.

downloading beacon6m.kmz brings an overview of all locations
worldwide for 50 mhz beacons with google earth.

best regards
hans
oe1smc

73. Re: Ø How to make them for call signs

Newsgroup: rec.radio.amateur.dx
Date: 2007-01-28 17:58:34 UTC
From: SMØIMJ <sm0imj@telia.com>
Message-ID: <ev5vh.30587$E02.12470@newsb.telia.net>
Source record: 2694

Hi guy's,
This is a well known problem and unfortunately a presentation problem
(i.e. font problem).
Why would I like to change font?
Because;
In a presentation, e.g. mail or log application, it is almost impossible
to differentiate between e.g. SO2R and S02R (Sierra Oscar Two
Romeo = Poland and Sierra Zero Two Romeo = West Sahara).

This can be fixed by typing a different character (e.g. the scandinavian
vowel ï¿½), the slashed zero, but that will mess up export files (ADIF
etc.) because it uses a different ASCII code (hexadecimal value). To
create the slashed zero you can press and hold ALT while typing 0216,
but it will create a different hexadecimal value for that character and
mess upp exports and ADIF files.

There is anonter way to fix this (mainly screen/print problem) and that
is to use adifferent font where the display bitmap is showing the
slashed zero for the normal zero ASCII value. There are some useful, ham
radio designed, alternative fonts that would give you; SO2R and Sï¿½2R as
a result without changing the value of the character, e.g. Anadale Mono
(mono spaced font, I'm using Anadale Mono
in my DX-cluster window, it's just great...) and Ham (looks like Arial).
You can find these fonts and a lot of other Ham fonts if you look at
http://www.k8zt.com/zero.html.
But to be able to fix this, it must be possible to set the font in the
application you use.
Either as a default for all windows within the application or window by
window (I prefer the first alternative).
Yes, you can change the default for Windows, but you probably don't want
this to be changed for "all" your applications.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 795
BID: $OPDX.795
January 29, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, N8PR, NE8Z, W9VNE, Financial Times, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, DO1DXX, F5NQL & UFT, F6AJA & Les Nouvelles DX, I1HYW, I1JQJ/IK1ADH & 425 DX News, IZ8CGS, LU1FAM, OK1DOT, RSGB IOTA, SP9MRO, VA3RJ & ICPO, VK2CZ, YO3JW and ZL2AOH for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 21st-January, through Sunday, 28th-January there were 222 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J6, J7, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S0, S2, S5, SM, SP, ST, SU, SV, SV9, T30, T32, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, VU7, XE, XT, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

100 POUND DXPEDITION (VP2M - Update/Reminder). The "Buddipole Users on Monserrat" (BUMS) have made their final preparations for their lightweight DXpedition. Operations are planned for January 29th through February 6th. The seven operators are: Budd/W3FF (VP2MFF), Chris/W6HFP (VP2MHF), Scott/ NE1RD (VP2MRD), Mike/KC4VG (VP2MVG), Paul/KB9AVO (VP2MVO), Bob/AB7ST

(VP2MST) and Tom/W4OKW (VP2MTC). They will establish two stations at Gingerbread Hill, one SSB/CW and the other operating various data modes including PSK31 and RTTY. Several portable stations will be operated during the day from various interesting points on the island including the Montserrat Volcano Observatory, hilltops along hiking trails, and beaches using portable antennas, batteries, and solar power. DXpedition pilots supporting the operation from their homes in the U.S. are Dan/WZ1P and Dave/KZ1O. QSL all contacts from operators via NE1RD. Additional information on the operation, including an on-line log, are available from the DXpedition's Web site at: http://dxpedition-vp2m.com/
Daily reports from the operation will be made through NE1RD's blog, "The 100 Pound DXpedition", at: http://100pounddxpedition.blogspot.com

2U0, GUERNSEY (EU-114). Kevan, 2E0WMG/ISWL G-21098, will be active as 2U0WMG from March 19th-23rd. If you need to work EU-114 for the IOTA award, or you want to bag an ISWL Monitor point, please drop him an E-mail to arrange a sked at: poopsie219@hotmail.com
He will be active on all HF bands if conditions allow.

3B6, AGALEGA (DXpedition Update). Members of Polski Zwiazek Krotkofalowcow (PZK)(the Polish Amateur Radio Union) and SP-DX-Club are organizing a DXpedition to the Island of Agalega. Team leader Witek, SP9MRO, informs OPDX that the group has received their license and will be active from March 22nd to April 2nd. The callsigns to be use are 3B6/SP9MRO and 3B6/SP9PT. A copy of their license can be viewed on their Web page at: http://3b6.godx.eu/
Team members mentioned are: Witek/SP9MRO (co-leader), Wojtek/SP9PT (co-leader), Marek/SP9BQJ, Bogdan/SP3IQ, Danuta/SP9SX (YL), Jozek/SP9-31029, Wojciech/SP5BFX and his XYL wife Basia (who's responsible for logistics and PR). They are planning to be active on all bands from 160-10 meters, on the modes CW, SSB, RTTY and PSK31. They will not be active for 6m according to the change of Mauritius's rules. At the moment, they are collecting funds for the trip's realization. Witek states (edited), "The Dxpedition cost is huge! We are going to travel for nearly 1200 km on the Indian Ocean and live on the island which is practically isolated from all the other people except the local community. There are no planes landing. But as we have heard from our HB9 friends, there are nearly 200 extremely kind people who live there and are very friendly towards hams. We are encouraging all of you who would like to help us to do so. All the information needed can be found at our webpage." Earlier reports indicate that activity is also possible from Seychelles (S7), Mauritius (3B8) and /MM operations from the Indian Ocean. Remember the team is looking for sponsors to help off-set the huge expenses of this DXpedition.

3W, VIETNAM. This one was received a little late, but if you worked 3W3W during this past week's CQ 160 Meters CW Contest, operators were Eddy/XV1X and Stan/3W9JR. This special callsign was issued to them on January 17th to be used during the contest. The operators of 3W3W operated from a location 15 km southeast of Haiphong, Vietnam. The antenna was a vertical feed Delta loop directly above the sea water facing towards Europe, Japan and North America. QSL via OK1DOT, DIRECT ONLY.

4S, SRI LANKA. Joel, F5PAC, will once again be active from here as 4S7PAG from February 2-22nd. He will be on the main island, but on February 10th and 11th, he will be on one of Sri Lanka's Coastal Islands (AS-171, possibly Barberyn Island) for some IOTA activity. He will take his FT-897 and vertical antennas for 20 and 17 meters. QSL via F5PAC.

6W, SENEGAL. Jacques, F6HMJ, will be active as 6W/F6HMJ from February 9th to March 13th. Activity will be on 80-10 meters on CW, SSB and RTTY. QSL via his home callsign.

7W0, ALGERIA.Just a reminder that operators Mike/DB1JAW and Michael/DK5MH will be active from the northern part of the Sahara using the special callsigns 7W0JAW and 7W0MH, respectively, between February 2-10th. Activity will be on 24 hours a day on 80-10 meters, mainly on SSB with a little bit of PSK31 and RTTY (maybe). The main activity will be on the following suggested frequencies: 14185, 14290, 18120, 18150, 24950 and 24980 kHz. All QSLs are to be sent direct only to DB1JAW (SAE is not required, return postage is appreciated): Mike Weiler, Stormstr.126, 47445 Moers, Germany. NO BUREAU QSLS ACCEPTED!

9M6, EAST MALAYSIA (Update/Correction). David, VK2CZ, informs OPDX that he was a little off on the location he reported last week. He will be attending an Electrical and Electronics Engineers (IEEE) Region 10 meeting in Kota (not Koto) Kinabalu (9M6 and not 9M8), March 25-27th. He also mentioned that he plans to be active as 9M6/VK2CZ (not 9M6/VK8AA) "during the last 6 hours" of the CQ WPX SSB Contest (March 24-25th) as a Single-Op/ Single-Band (20m)/Low-Power entry.

ANTARCTIC NEWS.....
Dag, 3Y9SDA, who is currently operating from the Norwegian Troll Base Station (WAP NOR-10), will leave to head back home for Tromso on February 5th. He continues to be active on 14130 kHz between 1700-1830z. Hopefully, he will move up the band for the stateside guys during his last week.

Francois, F8DVD, announces that he has been issued the special callsign TM4IPY to celebrate the beginning of the 4th International Polar Year (IPY), and will be active between April 1-14th. Activity will be on all bands, SSB and CW. A special QSL card will be available by the Bureau or direct to: Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, FRANCE (with 1 new IRC or 1 USD for Europe, 2 USDs outside Europe). TM4IPY will be referenced as WAP-84.

Gianni, I1HYW, reports that some callsigns for the IPY have already been assigned/issued by different country's administrations. The first ones issued are: TM4IPY to F8DVD (see above), IA8IPY to IK8WEJ, and IA0IPY to I0OCD. They expect more callsigns to be issued shortly and the list of entries will grow. They remind DXers that the 4th IPY celebration will start on March 1st. IPY special stations will be active throughout the year at different times. Being also a great Antarctic event, the IPY callsigns will be referenced with a WAP number as well and could be valid for the WAP-ASEA and IPY Awards (the first of which has been presented recently by the Italian ARI Cassino).

Gianni, IZ8CGS, informs: "ANTARCTICA AWARD - The Mediterraneo DX Club's Antarctica Award Directory is the official source of information for the IOTA Program on stations active from Antarctic bases. It acts as an extension of the IOTA Directory and provides the IOTA reference number for each base. The updated edition of the Antarctica Award Directory is available for download at: http://www.mdxc.org/antarctica/download.asp "

C6, BAHAMAS. Look for Bob/N4BP (C6AKQ) and Pete/N8PR (C6AHR) to be active from February 12-19th. A few days later, Kevin/K4PG (C6APG) will join them and be active from February 15-19th. The trio plans to be active as individual station entries in the ARRL DX CW Contest (February 17-18th). Pete will be on 160 meters and will try to set a new world record in the contest. Pete hopes everyone will work him. Bob will be on 40 meters (look for him, he is also trying to set a record!). Kevin will be on 80 meters (look for him too, he gets lonely). Prior to the contest, check all bands including the WARC bands. Before the contest and when 80 meters is not open in the contest, look for C6APG on 6 meters (when he is not sleeping). QSL to their home callsigns, direct or by the Bureau.

C9, MOZAMBIQUE (IOTA Op). Operators Jose/CT1APE and Filipe/CT2GLO will be active from Bazaruto Island (AF-072, WLOTA LH-0816) as C98APE and C98GLO, respectively, between February 18-24th. Activity will be on all HF bands with modes of CW, SSB, RTTY and PSK31. QSL via their home callsigns.

CE, CHILE. Lucas, LU1FAM, will be active as CE/LU1FAM or possibly CE3/LU1FAM from March 1-5th before and after the ARRL DX SSB Contest (March 3-4th). During the contest he will team up with Roberto, CE4CT, and be active as CE4CT as a Multi-Single entry. QSL CE3/LU1FAM via AC7DX. QSL CE4CT via EA5KB.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports the following:" 2007 DXCC Honor Roll Deadline Approaching
Just a reminder that the deadline for the next Honor Roll listing is March 31, 2007. Your submission must be postmarked March 31, 2007. The Honor Roll list will appear in August 2007 QST. There are 337 current entities on the DXCC list and you must be at 337 (for Top of the Honor Roll) or within the numerical top 10 to qualify for the Honor Roll. The current minimum number for Honor Roll is 328. (Deleted entities do not count towards Honor Roll). Top of Honor Roll and Honor Roll plaques and lapel pins are available to all past and current Honor Roll members. See www.arrl.org/awards/dxcc for the order form and current fees."

INTERESTING WEB SITE. Well-known DXer, Peter, ON6TT, has put together an interesting Web site which includes writing short stories about Peter's travels, people he has met, and situations he has encountered. Many of the stories deal with the DXpeditions he participated in, such as FO0CI, AH1A, VK0IR, 3Y0PI or DX activities like D2TT, 5X1T, YA5T, AP2ARS, YU8/ON6TT, etc... Some are simply stories of every day life during his work for a UN humanitarian relief organization. Peter states, "I hope they form an interesting read for the DX community." His travel short stories can be found in blog-format at:
http://theroadtothehorizon.blogspot.com/

IOTA NEWS.....
EU-008. Operator Jon, M0OVL, will be active as MM0OVL/P from Island of Mull in the Inner Hebrides, July 27-29th. Activity will be on 80-10 meters and entry in the 2007 IOTA Contest. QSL via M0OVL (QRZ.com). Visit it his Web page at: http://www.2e0ovl.com

EU-011. Members of the Cray Valley Radio Society team will once again (4th trip) activate St. Mary's Island in the Isles of Scilly for one last time during the IOTA Contest (July 28-29th). The team will be there between July 24th and August 2nd. Operators mentioned are: Dave/G4BUO, Justin/G4TSH, Chris/G0FDZ, Nobby/ G0VJG, Richard/G7GLW and Simon/M3CVN. In the past the team has operated on the WARC bands and 6m prior to the contest either using their callsigns above /P or the club callsign of G3RCV/P. During the contest they will be active as M8C and after until they leave the Islands under the callsigns above. QSL via G4DFI, the QSL Manager of M8C and the Club callsign.

EU-030. Operator Jens, DL8WOW, will be active as OZ/DL8WOW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203), August 5-17th. Activity will be on 40-10 meters, mainly CW, with an FT-897 at 100 watts. QSL via his home callsign.

OC-164. John, VK6HZ, will be active from Rottnest Island (WLOTA LH-2197), March 5-11th. The callsign for the operation will be announced shortly. Activity will be on SSB and PSK, possibly CW. This will be a holiday style operation, and John will use an IC-7000. QSL via VK6HZ.

KOSOVO (Independence/New Entity?). "Kosovo is to declare independence in the next few months, with the tacit support of the EU and NATO, in an effort to resolve the eight-year impasse on the status of the province at the heart of the 1999 war between NATO and Belgrade", states the Financial Times this past week. Read the story at: http://www.ft.com/cms/s/5c608a60-ad7d-11db-8709-0000779e2340.html

KP2/WP2, U.S. VIRGIN ISLANDS. Operators John/K3TEJ and John/K3CT will be active from St. Croix as WP2Z during the ARRL International DX CW Contest (February 17-18th) as a Multi-2 entry. QSL via KU9C. Activity before and after the contest will probably be on 160m and the WARC bands by KP2/K3TEJ and KP2/K3CT. The operators will be here between February 14-21st. QSL to their home callsigns.

NEW PREFIXES. Beginning in March, look for some new prefixes to show up for Greenland (OX), Faroe Island (OY) and Denmark (OZ). While still keeping the old prefixes, look for stations to use the following new prefixes in: Denmark - OU, OV, 5P and 5Q Greenland - XP Faroe Island - OW

QSL INFO AND NEWS.....
Johannes, DK8JB, provides the following QSL routes for all OK Beacons:
OK0EG via OK1MGW OK0EQ via OK2ZI OM0MSB via OM3WA
OK0EH via OK2VLT OK0ER via OK2XDX OM0MTA via OM3ID
OK0EJ via OK2QW OK0EU via OK1DCP OM0MTB via OM3WA

OK0EK via OK2PWM OK0EW via OK1JKT OM0MUA via OM3ID
OK0EL via OK1AIY OK0EX via OK1FPC OM0MUB via OM3WA
OK0EM via OK2BZM OK0EY via OK2UWH OM0MVA via OM3ID
OK0EN via OK1DUB OK0EZ via OK1DXF OM0MXA via OM3ID
OK0EO via OK2VLX OM0MKA via OM3ID OM0MYA via OM3ID
OK0EP via OK1VPZ OM0MSA via OM3ID OM0MYB via OM3WA
OM0MZA via OM3ID

LU2ERA/Z (PLEASE NOTE). Henry, LU4DXU, informs the DX community that the recent activity by LU2ERA/Z from South Orkney will not be good for DXCC. It was suggested that operator Hugo, who is at the South Orkney Base, be on the air without knowing that he never renewed his LU2ERA license and lost it. This callsign has now been issued to another individual. As soon Henry received this information, he spoke with Hugo to cancel the operation. All QSL cards received will be returned to the sender. Henry hopes that Hugo eventually renews his license and is able to activate such rare Bases in the near future. PLEASE DO NOT SEND QSL CARDS FOR THIS OPERATION to LU4DXU.

NEW MANAGER. Petr, OK1DOT, informs OPDX that he is now the QSL Manager for TG9AKH. QSL only to OK1DOT and not via Mario, TG9AKH! More info at: http://www.qrz.com/ok1dot

The logs for the recent special Romanian callsign YR0UE are now available online at: http://www.hamradio.ro/default.asp?id=18&mnu=6

ZL6QH via ZL2AOH or via bureau - New Zealand

TK, CORSICA (EU-014). Iain, M0VPE, will be active as TK/M0VPE from July 22nd and August 5th. Activity will be on 20/15/10 meters SSB and the IOTA Contest (July 28/29th). QSL via M0VPE (QRZ.com).

V8, BRUNEI. Kanzi, JA4ENL, will once again visit "The Sultanate of Brunei" and be active as V85NL between, March 8-12th. Activity will be mainly CW on all bands (including 160m) depending on the propagation. QSL direct to JA4ENL.

V8, BRUNEI. Ambran, V85SS, reports that the bands are getting better now, and he is active on most days on all bands CW only. He states that he has good success with stateside stations on 80/40 meters between 1200-2200z on most evenings. On 20 meters, he listens around 0800z for Hawaii and later for the West Coast. Ambran is just operating barefoot, about 50 watts into GP vertical and dipole for the top band. ADDED NOTE: Ambran is currently building a small shack (behind his QTH) with a bedroom (for 3 to 4 persons), sitting room/radio room, shower and kitchenette for a DXpedition, contesting or just holidaying hams who wants to see Brunei. He hopes to rent the shack out possibly about April.

VK9N, NORFOLK ISLAND (Update). Members of the Bavarian Contest Club (BCC) will be active as VK9DNX from Norfolk Island (OC-005) between February 15th and March 3rd. Two new members (Ben/DL6FBL and Joerg/DL8WPX)have been added to team of Markus/DJ7EO, Heye/DJ9RR, Christian/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM and Dieter/DL8OH. Activity is planned for 160-10 meters on CW, SSB and RTTY, with a focus on the lower bands. QSL Manager is Mario, DJ2MX. The group will also have an "Online QSL Request System" (OQRS) for bureau QSL cards on their Web site. Visit the DXpedition's Web site for more information at: http://www.df3cb.com/vk9n

VQ5, TURK AND CAICOS ISLANDS (Rare Prefix). Jim, W9VNE, will be signing with a rarely used prefix VQ5 next weekend for a 48 hour period. His main focus is to participate in the FOC Marathon (a members only event) on CW. Jim also knows that some prefix hunters will want to exchange reports too, so he will be pleased to give any prefix hunter a report too. Operation starts late Friday afternoon, February 2nd at 2100z through 2100z, February 4th. The FOC Marathon is the annual on the air event for the "First Class Operator's Club (FOC). There are members throughout the world on all continents. The exchange for members is their membership number. For non-members an RST will suffice. Jim has been an FOC member for more than 36 of his 68 years. Jim just celebrated his 54th anniversary of being a ham. He was nominated to the FOC (in 1970) by W9IOP the first editor of

CQ Magazine and K4FW the founder of Electro Voice and Ten Tec as well as his long time mentor, W9VW. Jim operates this event and VQ5FOC in their memory and various contributions to the ham fraternity. The FOC Web site is available at: http://www.firstclasscw.org.uk/
See Jim's QTH at: http://www.vp5jm.com
QSL via W9VNE to: Jim Danehy, Box 54482, Cincinnati, Ohio 45254

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
Some of the following information is from the VU7RG Web site (and can be edited) at: http://www.vu7.in/
* VU7RG QRT: On January 24th, 2007, at 1830z (Indian time 2400) VU7RG went QRT. During the 9 days of operations from Agatti, Bangaram and Kadmat, 92,134 QSOs were made. We like to thank the world wide audience for the excellent behavior on the bands which made it possible for us to keep the spit ranges within agreed limits. We have spent lots of effort to work North America in which we partly succeeded, the propagation was not in our favor.

* VU7MY Minicoy: VU7MY will stay active until January 30th, 2007. The Minicoy QSL card goes via the same QSL route as VU7RG and the logs will be published later. EDITOR'S NOTE: VU7MY was heard early Sunday (EDT) begging for contacts on 14260 kHz around 1430z.

* Special QSL Cards: The special QSL cards will go in the mail right now. The envelope is stampted by the Kadmat Lakshadweep Post Office.

* On-line Logs: On Kadmat, we struggled to get the logs uploaded on a daily basis, we had limited Internet access restrictions at the local high school, unreliable transportation and the operating sites were separated 2 Km. Furthermore, we also had to make QSOs with you so time was flying. By the time you read this we have sent the final logs to DL5NAM for Agatti, Bangaram and Kadmat. The Minicoy logs will be published on-line somewhere in February 2007.

* EDITOR'S FINAL NOTES: QSL info was published in last week's OPDX.794 bulletin. Depending in what IARU Region you are in, there are three different QSL routes for this operation. It is recommend to visit the VU7RG Web page for more details on how to QSL to each different route, especially for Bureau QSLs. Online logs are available (most, but not all) at the following Web site:
http://www.dx-pedition.de/lakshadweep2007/logs/logsearch.php
It is also worth visiting the VU7RG "QSO Statistics" page. See the breakdown of the operation by band, mode, continent and date. A quick breakdown shows that CW was 65.1% and SSB was 29.1%. QSOs by continent: EU +64k, AS +17k, NA +9.3k and AF/OC/SA +1k. QSOs by bands: 40m +19k, 20m +16k, 17m +14k, 15m +14k, 30m +10k, 80m 9.3k, 12m +4k, 160m +2k and 10m +1k. The "QSO Statistics" page is at:
http://www.dx-pedition.de/lakshadweep2007/operations/statistics.html

YS, EL SALVADOR. You only have a few more days to work Roberto, I2JIN, as YS3/I2JIN. His activity will end January 31st. He seems to favor 30 and 17 meters CW. However, there have been some QSNs on 80/40 meters CW

and 20 meters SSB. QSL via his home callsign. An online log can be found on Roberto's Web site at: http://www.i2jin.com/

ZL6, NEW ZEALAND (Special Activity). Look for Charlie, ZL3CED (#9039), to be active throughout the month of February, using New Zealand FISTS Club station ZL6FF. Working ZL6FF is worth five points towards FISTS awards, including the FISTS Down Under Award.

Hi All. These are some of the calls that I extracted from old logs
which fortunately were not in the same box with the cards that were
lost. It seems that the same call in some instances is issued over and
over and the operator and qsl manager/information change with the time
frame worked. Thanks for your help. I think there are some more that I
need but it takes quite a bit of time to go through the old logs and
extract them.
73 and best of DX

The Ohio/Penn DX PacketCluster
DX Bulletin No. 796
BID: $OPDX.796
February 5, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, W1RG, KA2AEV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4WX, K5LBU, K8YSE, KU9C, Pete's-DX-Newsdesk, 3W9JR, DH7WW, DJ5AV & The DX News Letter, DK8JB, EA8AUW/EC8AUA, EB7AEY, F5NQL & UFT, G3XTT, I1JQJ/IK1ADH & 425 DX News, IT9DAA, LA5HE, OH2BH, OH2BN, RSGB IOTA, RX3RC, SP9MRO, VA3RJ & ICPO, VE1DX and ZL3AB for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 28th/January, through Sunday, 4th/February there were 230 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, VU7, XE, XT, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA (Update). Team leader Witek, SP9MRO, sent out the following press release: Newsletter No. 2 -- "We would like to inform, that Polish expedition to Agalega Islands, planning its activity from March 22nd until April 2nd, 2007, is in the middle of negotiations with transporting

companies concerning the insurance and the equipment's transport to the islands.
So far the previous assumptions have much changed - the transporter set up costs highly inadequate to the preliminary. The expedition's budget estimated for 70,000 EUR is not sufficient!
The expedition is actively seeking for sponsors and financial aid from every institution and foundation. Our cooperation conditions are presented on expedition's web page < http://3b6.godx.eu/ > as well as we are willing to organize actual conversation concerning the sponsoring.
The group is planning to execute about 40,000 QSOs during its activity, mainly using the emissions CW, SSB and RTTY.
On our web page, you can find two surveys concerning the emission and frequency of activity that are expected by our correspondents. Their results will be considered during the activity from 3B6 islands."

3B7, ST. BRANDON (DXpedition Update/Press Release). Don Field, G3XTT, FSDXA Publicity Officer, sent out a press release this past week titled "FSDXA St. Brandon DXpedition • Bulletin No.3". Excerpts from the release state: "Two members of FSDXA recently visited Mauritius to set up logistics for the September operation from St.Brandon (see previous press releases). We are pleased to say that all the necessary permits and licences are in hand, and a suitable ship has been located to take the team members and something like 6 tons of equipment to the island. There is still a lot to be done, but we are all looking forward to putting another rare one on the air." Also, the release mentions the recent DX Magazine's •Most Wanted• survey which lists 3B6/7 at 45 overall, but at a high 18th place on the U.S. West Coast. Other area rankings were also noted: Europe 55th, Asia 47th, North America overall 40th, U.S. Eastern 40th, U.S. Central 63rd, U.S. Mountain 66th and the Rest of World at 26th. The press release states: "Clearly this means we will make a particular effort to work U.S. West Coast as well as ensuring we don•t forget those 'other' parts of the world (Africa, South America, VK/ZL, etc.)." The FSDXA is also delighted to announce that they have been selected to receive a Colvin Award in respect of 3B7C. As well as the Colvin award, FSDXA announced that NCDXF (Northern California DX Foundation) and the UK•s CDXC (Chiltern DX Club, the UK DX Foundation) have recently come on board with sponsorship, but further sponsorship is still required to make this very large scale operation possible. Details appeared in previous press releases or can be obtained from the author.

3B9, RODRIGUES ISLAND (AF-017). Look for Nigel, G3TXF, to be active as 3B9/G3TXF between February 7-13th. Activity will be on 80-10 meters CW. The location will be the same Cotton Bay Hotel used by the large Multi-Op 3B9C DXpedition in April 2004. He will be using small vertical antennas during this one week stay.

3DA, SWAZILAND (Update). To celebrate the 75th Jubilee of the Irish Radio Transmitters Society (IRTS), a group of IRTS members plan a "AFRI75 Dxpedition 2007" to Swaziland between March 16-25th. Activity for this DXpedition will also cover St. Patrick's Day and the CQWW WPX SSB Contest. The callsigns to be used will be published as soon as available. The

DXpedition's leader is IRTS Vice President Paul Martin, EI2CA (3DA0PM). Currently, the following members have signed up for the DXpedition: Peter/EI7CC (3DA0PB), Aidan/EI8CE (3DA0AM), David/EI4DJ/GI4FUM (3DA0DG), Rory/EI4DJB (3DA0RH), Brendan/EI3GV (3DA0GV), Pete/GI4VIV (3DA0GI) and Paddy/EI8BFB. A private UK/Ireland YAHOO newsgroup for this DXpedition is available at: http://uk.groups.yahoo.com/group/AFRI75/
Also check: http://www.irts.ie/afri75
Admission to this group is by request only and is at the discretion of the group moderators. Skeds may also be requested to any of the DXpedition members.

3W, VIETNAM. Operators Eddy/XV1X and Stan/3W9JR, the 3W3W Team, are now back in Hanoi from Doson, and they inform that it was a very hard weekend during the CQWW DX 160M CW Contest. However, they state that it was fun, good score and lot of new experiences. They want everyone to visit their Web page at: http://3w3w.ok1jr.com
On the Web page you can use the log search, see a personal presentation and 50 pictures in Photo Gallery. Team states, "Thanks to all of you who call us." QSL via OK1DOT, DIRECT ONLY.

4L, GEORGIA. Operator Scott, MM0LID, will be active as 4L0N during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/All-Band/High-Power entry. QSL via MM3AWD.

6W, SENEGAL. Operators Ingolf/DL4JS and Rich/DK8YY will be active as 6W/homecall from now until February 9th. Activity will be on CW, SSB and the Digital modes. As this was being written, QSNs showed 6W/DK8YY was active on 160 meters after 2100z and was also on 20 meters PSK after 1600z. There was no sign of 6W/DL4JS. QSL for both callsigns are via DH7WW, by the Bureau or- direct to: Ulrich Moeckel, Muldenstr. 1, 08304 Schoenheide, Germany.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, will once again be active from Africa and will also activate again both Senegal (as 6W2SC) and Guinea-Bissau (as J5UAP), between February 25th and April 30th (posssibly longer). Activity from both places will be on all bands, mostly Digital and some SSB. QSL via HA3AUI; direct, by the bureau, LoTW or e-QSL. He is currently has a Web page under construction at: http://cqafrica.net

ANTARCTIC ACTIVITY WEEK NEWS.....
PLEASE REMEMBER - Stations That Are Active May NOT Be In The Antarctic!

Just a reminder that the Worldwide Antarctic Program's (WAP) 4th Antarctic Activity Week (AAW) will take place between 0000z, February 19th and 2400z, February 25th. The AAW is an unique world-wide event where Hams are "celebrating and working to improve Worldwide interest around the Antarctic Continent and its related matters, to understand and share what the Nations and Organizations are doing to study and protect this still non contaminated corner of the world and share from there, a message of peace." Also, AAW is celebrated every year during the last week of February, and it coincides with Argentine's celebration

of their Antarctica Day (see http://www.marambio.aq) on February 22nd. Visit the WAP's Web page at: http://www.ddxc.net/wap

Look for the special callsign II1MNA (WAP-060) to be activated for the first time during the 4th Antarctic Week from the National Antarctic Museum (MNA - Museo Nazionale dell'Antartide) in Genoa, Italy. During this activation, activity will count towards the Italian Castle Award (DCI). Listen for the reference number.

Paolo, IK2QPR, will be active as IU2ANT (WAP-52) during the 4th AAW (February 19-25th). QSL via IK2QPR.

Francesco, IZ7AUH, has been issued the special callsign IR7ANT (WAP-74) from the Italian Ministry of Communication Dept. Members of the SRT Group of Puglia and Taranto HF Team will use this callsign during the 4th AAW (February 19-25th). However, Francesco will be using IR7ANT/n starting February 11th (where /n will indicate the days before the 2007 AAW 2007 event). QSL via IZ7AUH, by the Bureau or direct to: Francesco Giacoia, Casella Postale 2224/TA05, 74100 Taranto, Italy. More info and details are available at: http://ir7ant.iz7auh.net

C5, THE GAMBIA. Andre, ON7YK, will once again be here for 3 weeks between February 9th and March 1st. His callsign is currently unknown. Activity will be on 80/40/20/17/10 meters SSB using a dipole and a Kenwood TS-2000 running only 100 watts. Andre states, "Be aware that this is not a DXpedition." QSL via ON7YK (with e-QSL!).

CDXC CONVENTION. This year's Clipperton DX Club's (CDXC) annual DX Convention (their 29th) will be held on September 21-22nd. The Convention's location will be in Puyloubier near Marseille and the Mediterranean Sea. For complete details visit the CDXC Web site at (in French): http://www.cdxc.org/Conventions/2007-Puyloubier/puyloubier2007-f.htm

CE, CHILE (Lighthouse Activity). Look for Hector, CE3FZL, to be active as CE2P from Panul Lighthouse (ARLHS-073) during the weekends until the end of February. Activity will be on 40/20/15/10 meters, SSB only. He was heard this past week and weekend on 40 meters between 0145-0803z. QSL CE2P via EA5KB.

CW7, URUGUAY. Calvin, K6CT, member of the Florida Contest Group, will be active as CW7T during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/Single-Band (15m)/High-Power entry. QSL via K5WW.

DX0, SPRATLY ISLANDS (Update). Members of the Philippine Amateur Radio Association (PARA) and a JA group of operators are now active as DX0JP from the Pag-Asa Island, in the Kalayaan Island Group (AS-051), Philippines, until February 13th. Activity will be on 160-2 meters, CW, SSB, RTTY and PSK, with a special emphasis on the low bands. Operations will also be on 6 and 2 meters (JT65 EME). JA team members include JA1BRK, JA1RJU, JF1IST, JA4DND, and JF2XGF, and the PARA operators are DU1EV, DU1BA and 4F2KWT. QSL via JA1HGY. EME QSO only via JA1RJU. Look for more info on the DX0JP Web page at: http://www.dxcom.jp/dx0jp

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operation is approved for DXCC credit:
VU7LD - Lakshadweep Islands; Operation from December 1-30th, 2006

EF8, CANARY ISLANDS. Edu, EA8AUW/EC8AUA, informs OPDX that a Spanish and Canary Islands team will be active as EF8A from the URE Las Palmas section during the CQ WW WPX RTTY Contest (February 10-11th) as a (possible) Multi-2 entry. Operators mentioned are: Juan/EB1ISN, Roberto/EA2RY, Juan/EC8ABQ and Edu/EA8AUW. QSL via EA8AUW, by the Bureau or direct.

HK, COLOMBIA. Operators Stan/AC8W and Hank/K8DD will be active as HK1/AC8W and HK1/K8DD, respectively, from in Cartagena, between February 14-21st. Activity will include the ARRL CW DX Contest (February 17-18th) as a Multi-Single entry. Their sign has not been decided yet. QSL via their home callsigns.

IOTA NEWS.....
EU-048. Jean-Marc, F5SGI, will be active as F5SGI/p from Groix Island, French Brittany (DIFM AT-012, WLOTA 050), April 7-13th. Activity will be on the HF bands, propagation permitting, mainly on CW. QSL via F5SGI, either direct or by the French REF Union Bureau.

IS0, SARDINIA. Mauro, IN3QBR, will be active as IS0/K7QB during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/Single-Band (160m) entry. QSL via AA4NN.

J20, DJIBOUTI (Update/Contest/IOTA Op). The group of Italians, who are now active as J20MM and J20RR from Moucha Island (AF-053) until February 15th, have announced that they (Operators IK2CIO, IK2HKT and I2YSB) will be in the CQWW RTTY WPX Contest (February 10-11th) as J20RR as a Multi-Single entry. Activity outside the contest will be on all bands 160-10 meters including the WARC bands, CW, SSB and RTTY with three stations on the air. The complete team of operators are: Stefano/IK2HKT, Alfeo/I1HJT, Vinicio/IK2CIO, Angelo/IK2CKR, Carlo/IK1AOD, Marcello/IK2DIA and Silvano/I2YSB. QSL is via I2YSB. Their Web page is available at: http://www.i2ysb.com/j2/
ADDED NOTE: The team has also requested a licence for 60 meters (5 MHz) and will try to be active next week.

MOST WANTED OCEANIA SURVEY. Mark, ZL3AB, is collating an "Oceania Most Wanted Countries List" and is seeking submissions from operators in VK/ZL and Oceania only. Lists can be submitted in text, Word, or Excel formats or simply in the body of an E-mail. Email your list to:
giggs501@yahoo.com.au
Submissions will close on February 28th with results published in March and E-mailed direct to all who submit.

NEW OFFICERS/DIRECTORS FOR 2007. The South Florida DX Association (SFDXA) is pleased to announce that its newly elected officers and directors for 2007 are: President: Ray Smolenski, N4RU
Vice President: Bill Marx, W2CQ
Secretary: Richard "Gil" Gillingham, W1RG
Treasurer: Bruce Phegley, W4OV
Directors: Norm Alexander, W4QN

Steve Romagni, W4DTA
Don Search, W3AZD
William ?Randy? Shirley, N4QV
For questions or additional information, please contact: Gil, W1RG,
by E-mail at: rmoodyg@bellsouth.net

PIRATE ALERT. The station active as VK7ZO on 17 meters CW January 28th (2007) was a PIRATE. The operator gave his name as Jeff, but Buckmaster, QRZ.com and RAC list VK7ZO as Graham. The original VK7ZO sold all his gear in 1997 and moved to Canberra, taking on the callsign VK1ZO. Save your postage and green stamps.

PJ4, NETHERLANDS ANTILLES. Joeke, PA0VDV, is now active as PJ4/PA0VDV from the Island of Bonaire (SA-006, WLOTA LH-1279) until February 18th. He was heard on 10 meters CW this past weekend after 1630z. QSL via his home callsign, direct or by the bureau.

QSL INFO AND NEWS.....
Johannes, DK8JB, provides the following QSL routes for all SP Beacons:
SR0CWK via SP9NLY SR3XHR via SP3WYP
SR1LHX via SQ1BVJ SR6NCI via SP6GWB
SR1XHX via SQ1BVJ SR6XHZ via SP6LB
SR3FHB via SP3DRT SR9FHD via SP9BGS
SR3LHE via SP3DRT SR9LHK via SP9BGS
SR3SHF via SP3DRT SR9UHK via SR9BGS
SR3UHD via SP3DRT SR9VHK via SP9BGS
SR3VHC via SP3DRT

4O3T (MONTENEGRO) QSL CARDS. Martti, OH2BH, reports: "The last problem QSLs were sorted out this past week and should reach hungry DXers latest by the 15th of February. Over the next ten months the direct QSLing phase will continue through sub-QSL managers and then by the end of 2007. The rest will be released for distribution via the worldwide bureau network. It was also noted that an unknown volume of direct requests were lost in the postal system somewhere along the way. You can obtain 4O3T QSLs direct as follows: USA & Canada - John, N7CQQ
Japan & Asia - Martti, OH2BH
Europe and the rest of the world - Hans, PB2T
YT6A QSLs via YU1FW."

NEW QSL MANAGER. There is a new QSL Manager for EX8AB. Please QSL to RX3RC. QSL by the bureau or direct to: Roman A.Novikov, P.O.Box 21, 392000 Tambov, Russia.

NOT THE MANAGER. Mike, KA2AEV, reports that he is not the QSL Manager for V26VR. QSL should go to G4OOC.

STATUS OF THE YX0A/YX0LIX QSLS: QSL Manager Steve, KU9C, reports: "I've mailed about 70% of the cards as of this morning. What's left to do is a large pile of cards that have the following issues:
- 'sticky' qsos that are not in log. There appears to have been at least two major 'slim' runs, one on 15 meters and one on 80 meters

that are creating a need to triple check some q's.

- folks that requested /mm cards. I've got to do those, and have been concentrating on getting out the Aves Island card first.

- folks that requested other cards that I manage.

- I've not started bureau cards yet, and won't for some time. I apologize for the slow delivery of these cards; my hope was to be able to mail these a long time ago, when I had some slack time in my schedule, but the process 'came together' just as some hectic work and personal commitments came into my schedule.

Doing the best I can, have patience... 73 Steve KU9C"

SOUTHERN INDIAN OCEAN. Gildas (Gil), TU5KG (aka FT5WL and FT5XP), will once again be maritime in the Austral Sea (in the Southern Indian Ocean) on a fishing boat near/around the Kerguelen and Crozet Island. This year he will be using the new callsigns FT5XQ and FT5WM. Gil will be active until February 15th as FT5XQ/MM and then FT5WM/MM until March 15th. He is expected to visit Port aux Francais, Kerguelen Islands, on March 14th. Gil will be active as FR/TU5KG from Reunion Island from the April 15th until he returns to France in April. FT5XQ/MM was heard this past week on 21295 kHz at 0815z. QSL via F4EFI, direct or by the bureau.

SPECIAL EVENT. Members of the Torbay Amateur Radio Society (TARS) will be active as GB60TR throughout the year of 2007. Activity is to celebrate the TARS Diamond Jubilee. Their society was founded on February 24th, 1947. Look for them to be active all day long on the 24th, from the TARS HQ, in Newton Abbot, Devon. QSL via G3LHJ, direct or by the bureau.

SPECIAL EVENT. Members of the Uppsala ARS (SK5DB) will be active as SC5L until June 26th. Activity is to celebrate the 300th anniversary of the birth of Carl Linnaeus (1707-1778), the famous botanist, physician and zoologist. QSL via the bureau. Those who prefer the direct route, QSL via SM5XSH (SE5S). An award is also available; see details at QRZ.com for SC5L or visit the SK5DB Web site at: http://www.sk5db.se/

SU, EGYPT. Mustapha, DL1BDF, is in Cairo for two or three days (end of stay not known yet). The purpose of the trip is to meet with local authorities to prepare for the next Lufthansa ARC DXpedition to take place between March 2-12th. Activity will be on 40 and 20 meters SSB and digital modes including SSTV and APRS as SU/DL1BDF. QSL via the DARC Bureau or direct.

TI, COSTA RICA. Andy, DH8WR, will once again be active from here between February 5-27th. Callsign was not provided (possibly DH8WR/TI). He will try to uploaded his logs via his Web site after the DXpedition. For further information, check his Web sites at: http://www.dh8wr.de http://www.dxx.eu

TO5, MARTINIQUE. Al, F5VHJ, will be active as TO5A in the ARRL International DX SSB Contest (March 3-4th) as a Single-Operator/All-Band/High-

Power entry. QSL via F5VHJ, direct or by the bureau.

XU7, CAMBODIA (Update). Operators Steve/9M6DXX, John/9M6XRO and Pete/SM5GMZ continue to be active as XU7DXX, XU7XRO and XU7ADI, respectively, from an established DX shack in Sihanoukville, Cambodia, until February 10th. Activity over the past weekend has been mostly CW on 40/30/20/15 meters, and some SSB on 40/20 meters. Look for the digimodes to be used and possibly the other bands (depending on propogation). Steve will primarily be on SSB and John will be on the key and RTTY. QSL XU7ADI via SM5GMZ, and for XU7DXX and XU7XRO via M5AAV: Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ, England. Remember, ISWL members can claim John for the "Monitor Award", if heard or worked.

YW0, AVES ISLAND (Update/Change). The recent announcement by the 4M5DX Group, that a team of 15 experienced operators lead by Alex, YV5SSB, will be active as YW0DX from Aves Island (NA-020), has changed their plans for activation. The agreement with the Venezuelan Military Navy is to leave for Aves Island on February 7th (with operations beginning February 8-9th). Their departure day will be between February 13-15th. It was also announced that operators YV1FM, YV1CTE, YV1RDX, YV5KAJ, YV5RED, YV5OHW, YV5SSB, YV5MSG and YV5WW will be active in the CQWW RTTY WPX Contest (February 10-11th) as a Multi-Op/Single/Low-Power entry. QSL via IT9DAA. They are looking for sponsors/donors. More details are available on their Web page at: http://yw0dx.4m5dx.org

ZB, GIBRALTAR. David, EB7AEY., will once again be active as ZB2/4O3AL, February 23-25th (if all is OK and weather conditions permit). Activity will be on 80/40/30/20/17/15/12/10 meters SSB and RTTY. He is also expected to be active during some other months throughout 2007 during his spare time. QSL via EB7AEY.

ZD8, ASCENSION ISLAND. Operators Bill/W2WX (ZD8WX) and Jan/K4QD (ZD8QD) will be traveling here on February 19th. They will remain on the island until February 27th. Jan will enter the CQ 160-Meter SSB Contest (February 24-25th). Outside the contest, look for them on all bands CW, PSK-31, RTTY and SSB. QSL ZD8WX direct only to W4WX and ZD8QD via K4QD, by the Bureau or direct. Read all about the Island at:
http://www.ascension-island.gov.ac/

Dan Yemiola AI8O wrote:
> can anybody tell me where in Peru OA4 is located?

OA4 contains the "departamentos" Lima Metropolitana, Lima Region,
Callao, Pasco and Junin. So with a good probability a OA4 station
will be located in Lima, the capital city.

Here is a prefix map of Peru:

http://www.mapability.com/ei8ic/maps/prefix/maps/south_america_west.gif

Tim, EI8IC's collection of ham radio prefix maps is an amazing
ressource for every DXer. His website contains dozens of prefix
maps from all areas of the world, in great detail.

http://www.mapability.com/ei8ic/

From Google in a coupla places
General Certification Rule (CGR) applies, that is, have two licensed amateurs certify that QSL cards have been sighted and are in your possession.

Ohio/Penn DX Bulletin No. 797

The Ohio/Penn DX PacketCluster
DX Bulletin No. 797
BID: $OPDX.797
February 12, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1DG, NC1L, NJ1Q, KA2AEV, KA2BZS, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5LBU, W5ZL, WE7K, K8DJC, K8PT, K8YSE, NE8Z, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, EA5KY, EY8MM, F5NQL & UFT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, JA1ELY, LU5FF, RSGB IOTA and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th/February, through Sunday, 11th/February there were 233 countries active. Countries available: 1S, 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, YV0, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

8P, BARBADOS. Tom, W2SC, will be active as 8P1A during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/All-Band entry. QSL via NN1N.

8P, BARBADOS. Operator Dean, 8P6SH, will be active as 8P2K during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/Single-Band (20m) entry. QSL via KU9C.

A2, BOTSWANA (Ops Needed!). Frosty, K5LBU, reports that they have a good place to operate from in Botswana for this upcoming summer trip. Daniel, ZS6JR, has found a operating place that is on a large game farm in Botswana about a 6 hour drive north of Johannesburg. He says there is room to put up all the antennas and the electricty is good. The food is also good. However, Frosty is still looking for 2 more operators. The dates will be to arrive at Johannesburg on July 4th and be at the operating site on the 5th. They plan to depart from Botswana on the 20th and fly home on July 21st. If anyone would like to join them, Frosty will be at Visalia for the International DX Convention in April, so stop by and talk to him. All you have to bring with you is your laptop for loging and your clothes. All antennas and radios are in Johannesburg. Frosty states, "We will have a callsign just for the IARU Contest to use, and each person will have their own A2 callsign (I hope)."

ANTARTIC TRIPS PLANNED (Just A Reminder!). A group of four American hams are planning a few deep south expeditions which includes stops in the Antarctica, South Georgia and the Falklands. Operators Marc/K9PET (VP8DJU), Jim/W3ASA (VP8DJV), Bill/W3WKO (VP8DKD) and David/W3WKP (VP8DKG) are scheduled to be at the following locations:
February 11th - Depart Ushuaia, Argentina
February 14-17th - Antarctica (KC4)
February 19th - South Orkney (VP8)
February 22-25th - South Georgia (VP8)
February 28th-March 2nd - Port Stanley, Falkland Islands (VP8)
March 4th - Return to Ushuaia.
The operators, when in the Antarctica, will use their homecall/KC4.
Activity will be on 40/20/15 meters, CW, SSB and PSK from all locations.
For updates, check the Casual DX Web page at: http://www.casualdx.com/

CN, MOROCCO. Jim, W7EJ, will be active as CN2R during the CQ WW WPX SSB Contest (March 24-25th) as Single-Op/Single-Band (160m) entry. He will be active before the contest starting on March 13th. Look for activity on the WARC bands. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

BS7, SCARBOROUGH REEF. The following surprising announcement was sent out this past week by Tom, N4XP, (released by Don, N1DG) which seems to be in the works for 3 years.....
Don, N1DG, posts on the NJDXA Mail Reflector: "After 3 years of hard work it gives me great pride to post this to the reflector:

Announcing the 2007 DXpedition to Huang Yan Dao

Better Known as..... Scarborough Reef

After three years of effort to obtain permission to land and operate from the most needed entity in the world, that needed authorization has

been received. A multi-national team led by W6RGG will operate from Scarborough Reef for ten days in late April 2007. BA1HAM and BV4FH have been instrumental in bringing this operation to reality with ongoing support being provided by N4XP, N1DG, K5YY and N6MZ.

A team is being assembled that will include members from Asia, Europe and the USA.

As with any DXpedition to a location such as this, transportation is very costly and will be the largest single expense. Success will depend on the contributions of the DX Community.

Please QRX for more information as it becomes available and the web site is activated.

N4XP for the 2007 DXPedition to Huang Yan Dao.

More to come......but we've already updated the online log and the first qsls are already in the mail so don't ask.... Don"

Some more details were released during the past weekend from a Web page that is still under construction at: http://www.BS7H.com
It looks like the callsign will probably be BS7H. The following inter-national operators have been announced and they are:
China (Representing the CSRA): United States of America:
BA1HAM, Chen Peng W6RGG, Bob Vallio
BA1RB, Fan Bin ND2T,Tom Berson
BA4RF, David Chen AA4NN, Joe Blackwell
BA1RC, Chen Fang K4UJ,Paul Pescitelli
BA7NQ, Terry Liang N5KO,Trey Garlough
K5YY,San Hutson
Republic of China (Taiwan): N6MZ,Mike Mraz
BV6HJ, Ko Chih-Ta N7NG, Wayne Mills

Singapore: Italy:
9V1YC, James Brooks I8NHJ, Max Mucci

Germany: Philippines:
DL3MBG, Christian Entsfellner DU1EV, Eddie Valdez

Off Island Support Team:
BV4FH, Paul Pai
N4XP, Tom Harrell
N1DG, Don Greenbaum
W6XA, Paul Hansen

QSL Manager for this operation will be Steve, KU9C. Suggested operating frequencies are:
CW - 1826.5, 3504, 7004, 10124, 10104, 14024, 18074, 21024, 24894 and 28024
SSB - 3799, 7057, 14185, 18145, 21295, 24945 and 28475
RTTY- 14080, 21080 and 28080 kHz

DXCC NEWS.....................
YU6AO QSLS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that DXCC is now accepting all QSOs dated June 28, 2006, and after for this operation. Anyone who has submitted cards for YU6AO and had them rejected, can send an E-mail to dxcc@arrl.org for corrective action.

Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operations are approved for DXCC credit:
5A7A - Libya; Operation from November 15-30th, 2006
VU7LD - Lakshadweep Islands; Operation from December 1-30th, 2006
VU7RG - Lakshadweep Islands; Operation from January 14-26th, 2006
YU6AO - Montenegro; Operation effective June 28th, 2006
ZL9BSJ/P - Auckland & Campbell Island; Operation of September 12th, 2006

E5, SOUTH COOK ISLANDS. Bob, G3PJT, will be active from Raratonga Island (OC-013), March 3-17th. He has requested the callsign as E51PJT. Activity will mainly be CW and an entry in the RSGB Commonwealth Contest (March 10-11th). QSL via his home callsign, direct or by the bureau. E-mail requests for bureau cards can be sent to: g3pjt@btinternet.com

EZ, TURKMENISTAN (Where are they?). Nodir, EY8MM, provides the following press release (edited): "Dear friends, colleagues!
Turkmenistan Radio Amateur League regrets to inform that: Starting from 2006, the Turkmenistan Ministry of Communications, without any official explanations, refuses to give radio-amateur sportsmen of Turkmenistan permission to use amateur radio stations.
With deep regret, we inform that we have no further opportunity to work on the air and to represent our country in different international competitions. We also announce with deep regret that BARKELOV RUDOLF IOSIFOVICH -an honoured radio sport instructor, Turkmenistan Radio Amateur League radiotelegraphists1 teacher, and GUBENKO ALEKSANDR EFIMOVICH - an active first category radio-amateur - ex UH8AS (had no time to restore under the prefix EZ) left this world for a better one. Moreover fell forever silent the preliminary calls: EZ8BO ex UH8BO - of the oldest and most active radio-amateur, till 2003 - a president of Turkmenistan Radio Amateur League - ZVONTSOV EVGENIY MIKHAYLOVICH, and EZ8DI ex UH8DI - of a former chief of the central joint radio station UH8KAA ex UK8HAA, UH9AWA-SHABALIN VLADIMIR BORISOVICH. Memory of them will live on forever in our hearts! For information that is more detailed you can contact: 'Turkmenistan Radio Amateur League', POB 555, 744020 Ashgabat, Turkmenistan." Chairman of Board - B.T. ADAKOV (EZ8AI)
Secretary of Board - V.P. ZINEVICH (EZ8BP)

HC, ECUADOR. Rick, NE8Z, will once again be active as HC1MD from Tumbaco, February 24th to March 14th. Most activity will be after March 1st and will be on 80-10 meters CW/SSB using 500w into 80-10m Carolina Windom. QSL via K8LJG: John C. Kroll, 3528 Craig Drive, Flint, MI 48506 USA.

HH, HAITI. By the time you read this, Dale, N3BNA, who was recently active from Paraguay as ZP6/N3BNA, should be active (along with his brother Ray, KC3VW) from southwestern Haiti. Activity is expected to start from February 12th or 13th and last until the 24th. Dale is expected to sign HH7/N3BNA and focus on CW, while Ray will sign HH7/KC3VW and focus on SSB. N3BNA will

try to participate in the ARRL DX CW Contest (February 17-18th) as a Low-Power station entry. The purpose of this trip is a mission project to replace the base insulator of a 220 foot broadcast tower for a Christian broadcast station. This is a huge undertaking, and amateur radio will be secondary, but they will try very hard to get on. Please QSL HH7/N3BNA via KA2AEV. QSL HH7/KC3VW via his home callsign or by operator's instructions.

HQ, HONDURAS. Operators Txema/EA5BWR and Luis/EA5KY will be active as HQ2R, February 14-21st. Operations will be from the "Radiosolidarity Project" on the Ulua River, in El Progreso. Activity will be on 80-10 meters, SSB and RTTY (by EA5BWR), and CW and RTTY (by EA5KY). Their equipment is a YAESU FT-897 and FT-857 with an amplifier. Their antennas will be a SpiderBeam for 20-10 meters, and wires for 30, 40 and 80 meters. QSL via EA4URE (by the bureau or direct).

IOTA NEWS.....
AF-020. Jack, F6BUM, will be active as J5BI from Bubaque Island, Guinea-Bissau, March 14-28th. Activity will be on 40-10 meters, CW, SSB, RTTY, PSK31 and SSTV (on request preferably on 21340 kHz). He will use a FT-857D w/100 watts in dipole antennas. QSL via his home callsign, direct, by the Bureau or eQSL. Visit his Web page (with a log search) at: http://www.f6bum.net

EU-125. A German Contest Crew will be active as OZ/DK&#65533;G from the Island of Romo (or Roemoe), Denmark (Grid JO45GD), February 26th to March 6th. Activity will be on the HF bands, VHF and microwave bands (inclusive 9 cm). Main HF activities will take place on March 3-4th during the ARRL International DX Contest, on 160 and 80m. QSL via DK&#65533;G.

J20, DJIBOUTI. Only a few more days to work the group of Italians who are now active as J20MM and J20RR from Moucha Island (AF-053) until February 15th. Remember to QSL is via I2YSB. Their Web page (with online log) is available at: http://www.i2ysb.com/j2/

LR2, ARGENTINA. Operators Lucas/LU1FAM, Gerardo/LU1FZR, Roberto/LU2FA, Jesus/LU5FC, Javi/LU5FF AND Mario/LW8DQ will be active as LR2F during the ARRL International DX CW Contest (February 17-18th) as Multi/Single entry. QSL via LU2FA. The Thursday before the contest, look for LU1FAM (QSL via AC7DX), LU2FA (via home callsign) and LU5FF (via EA7JX) to be active on different bands paying bigger attention to 160 and 80 meters.

MJ, JERSEY. Look for Pete/K8PT and Craig/K3PLV to be active once again from here as MJ/K8PT and MJ/K3PLV, March 14-22nd. Activity will be on 160-6 meters CW/SSB/RTTY. Their activity will emphasize the lower bands. Due to recent fierce winds there, their existing beam has a broken boom and other antennas are in poor shape. They hope to have an InterNet service there. While on the island their E-mail address will be: k8pt@hotmail.com Skeds can be arranged prior to their departure and activity at: k8pt@arrl.net
More information is available at: http://users.adelphia.net/~crahill/

OJ0, MARKET REEF (EU-053). Three to four operators (not announced yet) are planning a DXpedition to Market Reef for July 1-7th. Operators will sign OJ0/homecall. Activity will be on CW/SSB/Digital modes on 160-2 meters. More information will be forthcoming in due time.

OOOPPPSS DEPARTMENT. Last week (in OPDX.796), under "ZD8, ASCENSION ISLAND" we listed one of the operators as "Bill/W2WX (ZD8WX)", and it should have been "Bill/W4WX (ZD8WX)".

OPDX ADDRESS CHANGES. PLEASE NOTICE (as of February 12th), there are new E-mail address changes (listed below) for the OPDX InterNet HELP/SUBSCRIBE/UNSUBSCRIBE request.....

P4, ARUBA (SA-036). Andy, AE6Y, will be active as P49Y in the ARRL International DX CW Contest (February 17-18th) as a Single-Op/All-Band entry. QSL via AE6Y.

P4, ARUBA (SA-036). Operators Bob/AA1M, Mike/W1USN and Scott/W1SSR will be operating from here March 6-13th. They plan to be active on all HF bands, SSB, PSK and CW. QSL to their home callsigns.

QSL 5C5W via EA5XX. Operator was Mohamed, CN8KD, operating in this past weekend's CQ WPX RTTY Contest. This is the first time that the prefix 5C5 was used in Morroco.

QSL CT9M via the Bureau, LoTW or eQSL. Activity was from Madeira Island during this past weekend's CQWW RTTY WPX Contest.

QSL ER0FEO via UU0JM. Operator was Serge, UR5FEO, active in this past weekend's CQWW RTTY WPX Contest.

The J20RR/J20MM logs are now avaialble online at:
http://www.i2ysb.com/log/index.htm

QSL KH7X via K2PF. Activity was from Hawaii by Mike, KH6ND, in the CQWW RTTY WPX Contest this past weekend. He was a Single-Op/Single-Band 80m entry.

NEW QSL ROUTE FOR V51AS. Tommy, WE7K, informs OPDX: "Many hams have been frustrated with the lack of response of QSL cards from Frank, V51AS, as a result of local mail problems in Namibia, e.g. stolen and 'lost' content mail. As of March 10, 2007, Frank offers those who need his card to send their QSL cards to:
Frank Steinhauser, Schlossstr. Nr 68A, 82 140 Olching, Germany
He emphasizes that this is not a QSL Manager, so it may be up to four months before you will hear back from him. The QSL address in Namibia is still valid but not reliable."

RK2, KALININGRAD. Members of the UA2 Contest Club will be active as RK2FWA during the ARRL International DX CW Contest (February 17-18th) and the ARRL International DX Phine Contest (March 3-4th) as a Multi-Multi entry. QSL both efforts via DK4VW.

SV5, DODECANESE (EU-001). Willi, DJ7RJ, will be active from Kos Island, possibly as SV5/DJ7RJ from February 25th to March 18th. Activity will be on all HF bands, SSB and CW. QSL to his home callsign.

TZ, MALI. Operator Mac Obara will be active as TZ6JA from Mali between February 13-21st. Mac hopes to operate mainly on 75/40 meters SSB but with some 20/15 meters SSB. QSL direct only (w/SASE) to: Mac Obara, P.O.Box 59, Tama, Tokyo, 206-8691 JAPAN.

V2, ANTIGUA. Operators Henry/W2DZO and Robert/KG4NEP will be active as V26H during the ARRL International DX Phone Contest (March 3-4th). Their operation class is undecided. QSL via KU4BP.

V3, BELIZE. Operators George/K5PI (V31AT), Terry/AB5K (V31TG), Gary/W5ZL (V31ZL) and John/WC0W (V31TP) will compete in the ARRL International DX CW Contest (February 17-18th) from Cahal Pech in Western Belize. They will use V31TP for the contest callsign. There will be operations before and after the contest under the operator's individual callsigns. QSL to their home callsigns.

XU, CAMBODIA. Operators Fujimori "Tada"/JA3PPH and Mega/JA3EGZ of the Himeji Armature Radio Club, and Yoko/JA3DFM of JARL Kobe Club, will be on the air from Sihanoukville, between March 16-19th. Their callsigns will be XU7PPH, XU7EGZ and XU7DFM, respectively. Activity will be on 160-10 meters on CW and SSB. They are also planning to operate on 6m. QSL information via JARL Bureau: XU7DFM to JA3DFM, XU7EGZ to JA3EGZ and XU7PPH to JA3EGZ. Direct QSLs for all callsigns go to: Himeji Armature Radio Club, P.O. Box 6, Himeji, 670-8691 Japan.

YW0, AVES ISLAND. Only a few more days to work YW0DX. Their departure day will be between February 13-15th. As of 1530z, February 11th, the team reports 15,000 QSOs. The group tried working some 10 meters and was also heard in northern Ohio on 12 meters Sunday. On the Web site they mentioned that they don't have an InterNet access there, so the "Online Log" will be posted when they return on land. More details are available on their

Web page at: http://yw0dx.4m5dx.org

ZL8/ZM8, KERMADEC. Jacky, F2CW/ZL3CW, will once again be active from Raoul Island. He will leave Auckland on March 19th and be back on March 30th. He will be joined by Aki, ZL1GO (ex-JA4EKO). They will stay there for 5 days and be active as ZM8CW and ZL8GO.

ZK3, TOKELAU ISLANDS. Operators Sara/HA9SDA and Eli/HA9RE are now active as ZK3RE until February 21st (possibly 22nd). There seems to be plenty of activity. The duo planned to have two stations on the air operating CW, SSB and RTTY, and on 160-10 meters. QSL via HA8IB.

92. killing cars with RF?

Newsgroup: rec.radio.amateur.dx
Date: 2007-02-12 23:17:59 UTC
From: KE5MBX <nelson.blaha@gmail.com>
Message-ID: <1171322279.699704.122850@s48g2000cws.googlegroups.com>
Source record: 2613

Hi,
What's all this business I hear people talking about blasting people's car stereos or killing cars altogether with high-power RF? I run 2m, 10m, and 11m in my jeep and I'd like to sort out the fact from the legend and find out what kind of power I can use without risking damage to my jeep or cars around me. At what power level is front-end overload to a nearby radio likely? At what power level is damage likely, and to what componets?

I am currently using only 50 watts on a 5/8 wave (2m), 25w on a 1/4 wave (10m), legal 4w on a 1/4 wave (11m)

Thanks,
Nelson KE5MBX

Eveing Nelson,

I ran 2 Jeeps with a 706 in it. 20 watts on 2 meters, 100 watts on both
6 and HF

Make sure your amataur gear is thoughily grounded. If possible, keep
the main unit as far to the rear of the jeep as possible Run the power
from the battery (with appropriate fusing) and not the cigarette lighter
or accessory outlet

I did get some stereo front-end overload, mostly on 40 meters, so I
turned the stereo volume down

Each jeep left this wokrd with over 250k miles and I never had to
replace any audio component or vehicle computer component

But, yes, if you damage many components if you aren't careful with your
installation

GL

Steve KF2TI
usually mobile 17 meters

A few years ago. while in freeway traffic, my Chrysler minivan suddenly kicked into "limp" mode (no response, low rpm, second gear only), as a CB-er in a large van passed next to me. He had one of those stupid fat antennas with the gigantic "loading coil," and had to have been running a few KW for the Good Buddies.
The auto companies are well aware of the havoc RFI/EMI can wreak on a vehicle's microprocessor-based control systems for engine, drivetrain, braking,etc., not to mention the entertainment and navigation systems. I once had the opportunity to see the RF testing lab at the tech center of one of the "Big 3." It was a pretty impressive array of equipment and testing environments, and they try to anticipate and head off "worst case" problems.

ARRL has some good info on the subject:
http://www.arrl.org/tis/info/carproblems.html

I have a Vauxhall (GM) Astra diesel. In the handbook it specifies 10W
max for onboard transmitters, at all frequencies. I haven't been /M in
it, but would hope to run a bit more than that, say, what I have run in
the past (40W on 10m, and 30W on 2m). I suppose I'll find out!
Ian.

And for the third time, you still ignore part of the hierarchy.

While the first RFD ignored the hierarchy except for .misc and .policy,
and the second RFD added .antennas and .dx, this third RFD long after
the discussion started still ignores three of the newsgroups in
the hierarchy:
rec.radio.amateur.boatanchors
rec.radio.amateur.digital.misc
rec.radio.amateur.space

In the end, you can't speak for the hierarchy if you don't even
know which newsgroups exist in the hierarchy. No wonder you have
such disregard for the hierarchy, you only think of yourself as some
"administrator" type rather than a participant.

You aren't building bridges, you're imposing your vision on the hierarchy.
The fact that you still don't come to the hierarchy and simply talk to us,
isntead hiding behind the structure of creating a new newsgroup, says
everything about your relationship to newsgroups.

IN the end, I conclude that you like moderated newsgroups because Usenet
never sat well with you, and the only way you can deal with it is impose
your need for rules on something that is a haven from that.

Ultimately, you are like the problem posters. Neither of you can live
without rules, though you need them because you can't tolerate the lack of
rules, while they need them because they think the lack of rules is license
to do as they please.

You've spent the decade trying to impose rules on the hierarchy, while
the rest of us were actually trying to make the hierarchy good by
participating in the discussions.

Useless administrators are always trumped by people doing things.

Don't say never. You just posted to a moderated group.

Like you I can ignore and kill file, but some groups are so infested
that it is not enough because the good people give it up and leave. So
there is nothing left to read after you are done ignoring.

And Chrysler had a V-6 (I was going to purchase one) that ran the
computer on 147.00. One of those would drowned out the local repeater
that was only 2 miles away from a distance of nearly 3/4 of a city
block. I worked with the local dealer for several weeks, but we could
not get Chrysler to even admit to a problem.

Actually, due to Chrysler's refusal to even talk about the matter I ended up with a Toyota 4-Runner and I run one whale of a lot more than 100 watts even on 2-meters.

To top it off the Toyota mechanics ran the wiring for me, so all I had to do was plug in the radios, stick on the antennas and go.
Currently I just have the 50 watt TM-D700 (35 watts on 440) and a 160 watt out Mirage amp on 144. It runs closer to 180 watts on the Bird watt meter. I also have the Yaesu FT-897D, but I'm presently using it in my shop as a back up rig. When back in the car that will be capable of running about 600 watts out.

Actually, he might well be. Perhaps you're lucky enough
not to have any of these people where you live, but in
my neck of the woods, in some lower-socioeconomic-status
neighborhoods, there was a wave of enormous CB antennas
with HUGE open-wire loading coils at the base, ones that
appeared to be made of 3/8" copper tubing or something
along those lines. No telling if the coils did anything
or were just for show; some of the CBers used high power
and others poured their 4 watts into these enormous
whips .. I'm seeing fewer of them on the roads these
days but they're still around. :-/

I have used moderated news groups and found in general they are a
waste of time. They end up reflecting the moderators view points and
opposition is stifled. So I avoid them. I see this is cross posted to
a moderated group to which I do not belong.

>be missing much, but there ya go... I deal with the hecklers,
>goofballs, and
>wanna be porn stars by not reading their posts. Fairly simple really.

Which is the self governing mechanism of most news groups.

I see the proposed rec.radio.amateur.moderated as a waste of time and resources of those who handle such matters. So I would say that in the long run we would be better off with one un moderated group than an un moderated group along with a moderated one which dilutes the pool. Just kill file the posters and threads you don't want to read and let life go on a lot simpler with more people exposed to the knowledge that would otherwise be diluted by spreading it into another group.

Me? I would not bother subscribing to a moderated group.

Call To Arms, means, you will inspect your weaponry and prepare to do battle. Duty Stations, means, all men and women must assume their duty stations, weapons at the ready. Fire When Ready, means, man or woman your weapons, sight the target, finger the trigger, and fire when ready. Cease Fire Procola, means, continue fireing until the enemy targets are dispatched, and there is no sight of an enemy anywhere on the horizon. Procolas means, after ending all possiblities of any lingering survivors staying alive. It means to wipe them out, and leave no survivors.

This means, it is time to kill all Lesbianists, and all other enemies in my universe, the many groups of naughty kids in my universe, rascaleers and others, and we will continue this fight, untill they are all dead, and in my Epcot Centers, or untill they have surrendered. Rascaleers are evil people who wish only to harm others.

Religious Practices

This is a little confusing, but hold on, and I'll try to explain it. There are many parts to my religion. We call them, parts, but we can also call them, practices, some of them, but not all of them.

We have the fundamental 'root' practice, which is sexaling. From the root practice, comes all other practices.

There are side practices, and there are derived practices. There are also, accompanying practices. There are many other types of practices, but I don't remember the names for them all, right now, as I'm still

amnesiatic, and will be for a long time.

Fistiker Practice

Bringing about orgasming in another person is a fistiker practice. A fistiker practice is a side practice, but it is also something a little different from a side practice, depending on how you bring the orgasming about, and depending on how many people are involved, and depending on who is the primary person, the person whom we are working on, and who are the helping people, the people who are joined together, to help the primary person to orgasm. There are a number of other dependencies as well.

What Is A Dependency?

A dependency is some thing that is needed that will help to define something else.

As in the case of an accident victim, we have a crutch to define one level of severity of an accident victim's situation. But we might also have a wheel chair to define another level of severity for the same, or other, accident victim. These objects help to determine how badly or miserably a person is injured.

A crutch can help define a level of severity in the injury. A wheel chair can help also to define a higher level of severity. These are both dependencies. They help us to define something, and they are used to help us to define an accident victim's level of severe injuries.

When Sexaling

You can use your lips, for example, or your tounge to twiddle the toes of a woman, and the woman begins to orgasm. That twiddleing of your tounge on her toes to help her to erotem, and to experience erotistical orgasming, can be any number of things, depending on the involvement and complexities of dependencies.

Rubbing the vaginal face, the vaginal wall, or rubbing to either side of the vaginal crevice, the labial folds or felates, can help a woman to erotem and erotistically orgasm, and depending on the involvement and complexities of dependencies, the dependencies can be any number of things, if we try to define the sexaling activity more fully and completely.

We'll skip this for now, as it is a little too difficult to remember, right now. Just remember, the primary practice is sexaling, and that sexaling is like the roots of a tree. All other religious practices grow out of the 'roots' of the tree, sexaling, and can be defined in many different ways, such as a helping practice, a side practice, a subsidiary practice, a canceling out practice, an accompanying practice, and there are many many other terms for what kind of practice some thing is, depending on what dependencies are involved.

Labia And Felate

What is the difference between a felate and a labia?

A felate is the skin tissue of the outer surface, and some of the tissue of the tips and edges of the labia. It does not include the inner side of the labia, but only the outer side, and the surrounding edges, as far as I can remember.

A verb, or action word, as I call it, is 'felate' as in 'Felate that woman's or girls' left felate'. That means to suckle on the left felate of the woman or girl.

Felate is a verb, but it is also a 'nominal' word, or naming word for objectifying an object.

Do we say 'Labialize that woman's felate!' To labialize something is to make something into a labia. We wouldn't, unless we were a doctor, say that about a felate. But we might say it if we were doctors, and we had a woman who met with a bear, and the bare clawed at her genitals, and the sharp claws ripped her labial skin up, then we might say in a surgeon's room 'Labialize that woman's ripped up labia.' That would mean to stitch it up, and make it nice and neat, and clean and well stitched up, and then useful to her, again, and it would involve a lot of surgery, as many nerves would need to be connected, as they had been ripped apart, and the wiring was all dislocated. But in the end, we would be able to fix her labia, and her genitals, if they were also hurt, and then we could dismiss the patient from the hospital, after the labia healed, and after she recovered from her trauma of having her labia shredded by an impolite, rude, mean, uncaring, and hungry bear.

Genitals, Titties, The Labia, And The Many Sexaling Organs

The labia is not the genitals, but some people do consider them as a part of the genitals. The genitals are inside the woman's vagina, in my way of thinking. The vaginal wall is not part of the genitals. The vaginal orifice is part of the genitals of a woman. This seems odd, doesn't it. Well, that is how it works, in my brain, and I designed women, as well as men. If you notice, in my writings, I've talked about the draft table, and the throttle. These are major parts of a woman's genitals. They are inside the vagina, and you can reach them through the vaginal orifice. Before you get inside of the vaginal orifice, there are a few things outside, such as a pee tube, and an ejaculate tube, and the clitoris, as well as the labia. These are not part of the genitals, but are working parts of her sexaling organs. A woman's or girls' sexaling organs are not equal to her genitals. Genitals are for baby making, and for other purposes. Titties are not part of the genitals, but they are part of the womans' sexaling organs. This will require a long discussion to clear up, so I will save it for another day.

Bears In The Woods

That's the way it happens some times, when women or girls go out into the woods, and sexal with their female friends. They can get hurt by

bears, if they are not accompanied by men, who are tough, and strong, and who stay alert, to guard and watch out for dangerous animals, such as bears, wolves, cayotes, bobcats, puma, and even racoons. Racoons do attack humans, if they smell some thing that will taste good to the racoon. If a person has a skin tear, and is bleeding, even a tiny bit, the racoon will smell it, and come running, and then find the person, and so will panthers, and all kinds of animals will come, and it's just like a bunch of sharks and fishes of different kinds, and Moray Eels, they like the smell of blood, and they come and investigate, when they smell it.

Women and girls have periods, and it is not every twenty eight days, as I've explained about before, and blood runs down, out of their vagina, and they generally do not know it, as it is only a tiny drop of blood, or less, most of the time, and the blood is often wiped from the skin surface, when the woman or girl is on the potty, or toilet, and the woman or girl will not even see the tiny drop of blood that comes out of the vagina and drips down the labia, on the inside, and then falls or dribbles down to the felates, and then falls off the felates, while she is on the toilet into the toilet, or while she is out doors, and walking about, onto the earth, if the woman is walking on a park walkway, or bicycle path. If she is wearing underwear, it will not fall onto the earth, but it will dry up on the panties, or underwear, and the smell of the dried blood will attract wild animals if she is out doors, walking or jogging in a wooded or regional or rural area, where there are lots of, or even just a few, animals.

Pumas can smell the blood, from miles away, and so can tiny oselots, and bears, and many animals can. They can smell blood, because they know they need meat to survive. That is built into their brains, that are located throughout their bodies, and not only in the skull, and animals are very sensitive to the smell of blood, as well as to the smell of urine, and to the smell of poop. Some animals, such as racoons, will come up from behind a woman, and grasp at her panties, as the racoon may smell the odors of fecal matter, from her butthole. Men may be raked by the claws of raccoons from behind, as they smell the odors of fecal matter, and try to find out more about it, as the racoons know that there is something delicious hiding behind those odors from the buttholes of women, girls, men, and boys.

Expecate

When women and girls go out hiking, it is best to wash out the vagina, first, and then use a fermented oil, as a douching agent. The oil will help to slow the flow of the blood down the inner walls of the vagina, and it may help to trap the blood, and make it difficult for it to leak out, unless the amount of the flow of blood, is very large. In that case, it is best to stay home, and not go out, when a large amount of blood is expecated from the vagina. Expecated means to expell outwardsly. Expectate can also be used, as it is generally the same word, that is, and it also has generally the same meaning, but

perhaps it has a few more uses, maybe, but it is from a variant language of the English language, and is basically the same word.

You should expecate your fluids in your vagina, from your vagina, before you go out hiking. If you know when your period is, and there are ways to tell when you have a period, or when you know when you are about to have a period, than if you normally have a large amount of blood flow from your vagina, as that has been your experience, it is probably best to go and sunbath at the beach, far away from wild animals and their habitats, or by the pool side. Racoons sometimes come out of the woods, to the shores of beaches, and trumbel along, listening and watching, and sniffing the air, when they smell dried blood, or wet or moiste blood, inside of the swim suit lining in the groinal area.

How Do You Tell When Your Period Is?

To learn when your period is, you need to look into the toilet bowl that you pee into, and then see if there is any red droplets. You can place a piece of toilet paper onto the surface of the water, and it might help to show the redish color mixing with the urine.

Another way is to take a piece of toilet tissue paper, and wipe your felates, in the morning, or during the day, or at night. Night is a good time, but during the day, it is just as good. Some women like night time because they feel the day is finished, and they are now going to make a final check. Well, it doesn't always happen the way we want things to happen. You might start leaking blood fluids, at two or three or four or five, a.m., or at six, or seven, or eight, or while you are in the shower, or in the bath tub, bathing, before you plan to go out for the day.

It may take you several years for you to find out when your period begins, and when it ends, by checking for blood flow. When you have determined the number of days between one period and the next, and you are absolutely certain of it, and you have confirmed it, many times, and you have checked to see if there might be something you didn't notice, at other times, when you checked, eventually, you'll learn when your blood flow begins, and how long it lasts, and when the next blood flow begins. Once you know, then you can time your excursions to the woods, or to the beach, with your friends, both women and men.

Bears, Wild Animals, And People

Men are needed to help scare bears away, if they come to close, and pepper spray is a good way to get them to leave the area. Bears do not like the small of pepper spray, and you need a cannister of pepper spray that will fire fifty to eighty to one hundred and eighty five feet or more, to scare away a bear, safely.

Loud noises surprise bears, but hungry bears get angry and feel challenged by you, and may come at you at a fast pace, and not stop, once they are angered. If you are a good shot with a rifle, and you

see a bear, from a few hundred feet away, and it is moving slowly, towards you, following you, you can shoot it with a good fifty calibur weapon, from that distance, and it will go down, in an instant, if you hit it square in the noggin, about one inch or less above the nose.

You need to be a good shot, and several people should aim, and fire at the same time, to kill the bear, to be sure some one hits it, and then puts it down, and kills it.

Do not think that because you have one rifle, or two handguns, and a rifle, that you are safe. If you do not know how to shoot, and if you are an inexperienced marks woman, or marks man, than your chances of hitting the bear are near zero, for all three of you, at three hundred feed.

You need years of practice to become a good marksmen, and you can start with the lower calbur weapons, to get a feel for weapons that fire projectiles, and that make loud noises.

There is no such thing as a friendly bear, and people think, 'Oh, look! Isn't she cute, that bear.' If they think that way, they might as well have left their last will and testament behind, and signed all their assets over to another person.

Bears are animals that need to eat just as humans do, and just as all animals do. If you are so foolish to think that bears are cute, you are a lame brained idiot. Bears are dangerous animals. And so are all wild animals. If you think a racoon is a cute animal, you get the lame brained award for the year award, and trophy to sit on your desk at home to remind you of how stupid you are.

Brad Pitt, And Angelina Joline

Only idiots would think that wild animals, that eat people, are cute. They need remedial training, as they do not understand that their lives are in danger, every time they walk out the door of their home. Even in the cities, there are nasty people, who smile, and pretend they are your friends, and these same people, such as Hillary Clinton, Brad Pitt, Cheryl Davis, a friend of Brad's, but that's his current girl friend, Angelina Jo-line. She is not a Lesbianist, and Brad pretends to be her friend. He likes to watch her get eaten by bears, my abominant kids, when the Lesbianists feed humans, one at a time, to the bears, or to the crocodile abominant children of mine.

Abominant Elephant Kids

I have carniovorus, human being abominant elephant kids, and they are rude, mean, nasty, and really terrible. They scare people, and then they pick them up with their trunk, and place them on their head, and then they tell them not to move, or they will stample on them, or tromp downwards, and crunch them, painfully, from the foot, to the shin, to the thigh, to the pelvis, to the waiste, to the lower tummy, to the mid section, to the chest, and then the neck, and then the

head, finally killing them. They will take a person, pull the person up and lift him or her up into the air with his or her trunk, and then pull the person into his or her mouth, and then crumple up the person, and then spit the person out, and the person is all broken up, and chewed up, with all the bones, broken, in the legs, and in the arms, and in the waiste, pelvis, torso, neck and shoulders, and head.

The Lesbianists use lots of these elephants. They are pretty to look at, but they are mean, and nasty. When strangers see them, they think, 'Oh, what a pretty elephant.' They don't know that the elephant is my abominant kid, and can speak English, as many people recently found out near Africa, in Sri Lanka, and then also in New Guinea.

They were very surprised at the talking elephant. But they didn't know that the Lesbianists had let the Elephant, my abominant kid, lose from the cages that they kept him sealed up in. There were one or two, or maybe eight of them, in Sri Lanka, and eight or nine in New Guinea. Lots of people got eaten up, and killed. The elephants are still lose in New Guinea, but in Sri Lanka, they herded them into the pens, and brought them to New Delhi, to then begin a rampage in New Delhi.

Well, the Lesbianists are doing this, daily, because they feel they have lost this battle, and that they are just wasting time, doing nothing, as they can not get to me. So they want to have a lot of fun. Now they are releasing lots of my abominant kids, in many places, and in New Delhi, Bombay, Sri Lanka, and New Guinea, many people have been hurt and killed by these idiot kids, these abominant elephant kids of mine. The Lesbianists have thousands of animals they want to release, out into the public, in England, in Switzerland, Georgia, South Carolina, Paris, and many other places.

The Lesbianists think they are going to have a lot of laughs watching the abomniant kids of mine, tear people up, and rip them to shreds. They also think that the animals, who are not abominant kids, but are just bizarre animals, that catch people in very large, nets, that have threads as thick as ropes, and that are very sticky, are going to do a lot of wierd and crazy things, no one here on this planet, other than them, have seen. They think they are going to get a lot of laughs when they see the mayhem and havoc, the disruption to society, and frustration on the faces of people who get caught in the nets, and then turned into living mummies sealed up in a type of pulpyish paper so the person can slowly disolve, but stay alive, for up to a year or more. Maybe as long as ten to thirty years, in some cases, and I'm not kidding.

You may think I'm kidding, but I'm not. This began a few days ago, and the Lesbianists are intent on continuing this, for the next few years. Isn't that surprising. I never expected that. They are very strange people, aren't they. They are real sicko's aren't they.

I think you should all go and meet my kids, with a day pass, and ask them about it. Other wise, you might find your self in a very large

spider's web.

Labiating A Labia

To labiate is to suckle the labia, and to take one or the other of the labia into the mouth, and tickle it with the tounge, or twist it gently with the lips.

'Labiate that woman's left labia!' 'Felate that womans left felate!' The difference is, labiating is to suckle the entire left labia, inside or under the edge of it, on the inner side, and the edge of it, and the outside of it.

Felateing the felate, is to suckle the edge of the labia, the upper exposed edge. It does not include the labia, in its entirety. Only the upper, protruding skywards, or in which ever direction it is pointing, that portion of it that is extending outwards. If you lift it up between your finger tips, you'll pull up on the entire structure revealing the underside, or the unexposed underside of the labia. There is also the outer side of the labia.

The Felate is the top tip edge of the labia, generally speaking, and it is itself an isolated system, and not part of the labia. It's connected to the labia, but it serves a different function. It droops downwards, to seal out the possiblity of any thing entering the vagina from below, in an upwards moving manner. Bugs can not fly up into the vagina, as the felates prevent them from flying up into it. Without the felates, the vagina would be unprotected. The labia would not protect the vagina, as the labia is merely the skin tissue mass that the felates are attached to, and in an instance of removing a felate from a cadaver, or dead body of a woman, or girl, once the felate is removed, the labia have no closure over the vagina, in most women and girls.

There are exceptions, as we've had many animals in our heritage line. There are many differences when we line up ten women, and inspect their vagina, their felates, and labia, their bumbey pack, as children are encouraged to call the lower hanging sexual organ of the vaginal cape, as it is also called by doctors.

On this planet, the bumbey pack may not be called a vaginal cape, with the inferior texts with unadvanced, primitive, witch doctor level sexual sciences that do not help any one along, such we find with the myth that women and girls have a period every twenty eight days.

That is total nonsense, as I've explained about it, before. The truth is, every few days, to every eight to fifteen days, to even eighteen days, or evern thirty two or fifty five days, depending on where the woman has grown up and where her ancestors have grown up, the number of days between one period and another period can be very dissimilar, from one woman to another woman. Some women have a period every two or three days, or even every day. There is no reason an ovary can not fall, every day, several times a day.

An ovary is so small, no one can see it, without special optical technologies, such as pass through see through technologies, and other optics, and other videoing technologies. A microscope is an out moded, ancient, and novel device, fit for only museum use on display shelfs. It's like an old car of the twenties, or there abouts, or even earlier, of course, depending on how sophisticated it gets. Micron microscopes, the so called, 'electron' microscopes, are a misnomer to begin with, as an 'electron' is not a fictious concept, but no one knows what an electron is, generally speaking except for the Lesbinists.

An electron is a small bit of electrically heated plasma, that you can heat, with the right technologies. It can fit on the tip of a pencil or pen. This is a big joke to the Lesbianists, as are also their jokes about protons, and neutrons, and nuclei, or the so called combined nucleus, as in 'nuclear' family. Nuclear family, is not a 'tight' organization of two persons, and their children.

A nuclear family is a family that has been nuclearized, that is, exposed to radiological salts kiddies, and their radiative or radiological energies. That's another one of the Lesbianists' jokes on all of the scientists who the Lesbianists could get to swallow it.

What Causes A So-Called "Nuclear' Explosion Or Detonation?

A vast number of children are making babies at a very high rate of speed, and the energies that they give off, as they make babies, and then peel off from the area where they made their babies, one after another, as they rocket away, is what causes a nuclear blast. The tummy mommies and tummy daddies are making babies at such a frantic pace, they make millions and billions, and trillions, and more, before you can even send a signal to your eye lid to blink, from your brain part that sends the signal out. The signal will travel just a very short distance across a crupture, not even half way, more like, one or two feet in distance, if we are to look at the size of a crupture as the same size as our current universe. It travels about not even one foot, not even one inch, and not even one millimeter, and not even one millionth of a millimeter, and far smaller than that still, before the parents are already through making babies, and they have retired, and passed on, and several kabillion generations of families, and multiply that by a very large number, and you'll get how many generations of families lived and died, and passed on their DNA to their sons and daughters.

It's a hail storm of erupting magnitude when the tummy mommies and tummy daddies begin making babies, and making their families larger.

It all happens so rapidly, with more than that number of successive generations of families, in less time than the energy pulse will travel down an optic nerve, across a crupture, that very minute or very tiny distance, as I stated above.

That kind of frenetic baby making activity, makes for a lot of heat, as well as, it generates a lot of stresses, and a lot of energies go flying off in all directions, as the sexaling couples experience many nice orgasms and eroticisims, together. Temperatures, their body temperatures, collectively, and the incredibly vast number of movements, which also generate temperatures, by the animals, the tummy mommies, tummy daddies, tummy babies, the relatives, and the many generations of families, go skyrocketing, and the magnitude of numbers, and the intensity of all the activities the animals are busy with, as they make tummy babies, simultaneously, or nearly simultaneously, is of phenomenal proportions. There are also types of animals that we are not familiar with, who are also busy making babies, and they help to account for the brilliance of the light that is generated, along with other types of animals, that also help to account for the brilliance and light, as they are busy baby making, too. There are energies kids of all kinds busy making babies, and that is also a major important factor in the overall sequences of activities, to successful birthing by all the tummy mommies, and it is also important to help to get them all 'gyrated' or motivated, and to wake every one up from their slumber, or their condition of deep sleep, or stagnassis, to get them feeling alive, ready, and able for making lots of babies.

If we slow them all down, to our pace, and then compare them to our pace of life, they would be just like us, and things would move slowly for them, and not much would change, for many kazillions plus years, and then many, many more years.

However, they are moving so much faster than we are, and the length of time they live, to them, it is a long time, four or five, or eight or nine hundred years, in our time, maybe, in some cases, depending on the type of radiological salts kiddies and other types of animals, including the energies animals, who are all making babies.

On their scale or pace of life, they live that long. But on our scale, the length of time they live, is so tiny, we can not measure it, unless we have a very high level of advanced mathmatics that can account for such a small time period, or span of life.

Anyway, the frenetic adventures of the colonies of radiological animals, when they start to make babies, after they are woken up, and prompted to make babies, with a detonating surge of heat energies, light wave energies, pressures energies, trampolining energies, zespertudial energies, castikilial energies kiddies, and other types of energies kiddies, as well, which help get them all started, with the right combination, of heat, light, atmospheric temperatures, atmospheric pressures, food sources avaiability, drinking water availablity, trampolining energies, and a number of other types of energies, that awaken them, and then get them turned on, and sexaly active, they will suddenly erupt into a frenetic, mass of baby making furor, to us, any way, and with that, we have our so called, 'nuclear' detonation.

Cleansing Your Self With Your 'Built-In' And 'Attached', Cleansing And Washing, Clearifying And Erasing Energies Producing Genitals And Sexaling Systems, Eroteming And Orgasming Nervous Systems, And Baby Making Related Purifying Energies Generation Stations Aparati, Or Apparatuses, And Armatures

You women and girls, your vagina is your Holy instrument for assisting you to cleanse your self, and wash away the dirt and grime of daily living, the insults to you from strangers, the verbal abuse you experience in your arguments and conversations with friends and family, neighbors, relatives, work associates, and community acquaintances.

Your holy body, and your normal body are weapons to fight back against all the negativities you experience in your life, as you orgasm and erotem, showering off purifying energies, and lots of other beautiful other things and dings, as you vibrate your entire body concordially, in harmonic rythym, cadence, and rapture, while orgasming, in sequence and in timed rythym, with my GODLY Holy Body and many of its features, or parts, that are similar to your holy body and your holy body's parts and features. These are all activated while you are orgasming, and eroteming, and you become purer and holier, the longer you orgasm and erotem, and convulse, orgasmically.

Your breasts, your butty butt, your butty butt hole, your vaginal hole, your groin, your throes, your vaginal cleavage or labial folds as they are called here by these nitwittish doctors on this planet, who do not know any thing about the human body, your chest, your back, your legs, your arms, your hands and fingers, your ankles, feet, and toes, your ears, lips, mouth, tounge, cheek, your rectal cavity, your tummy button, your stomach, throat, your brains, and you have many more than just one in your body, but many millions and more of them in your body, and that is not an overstatement, and every part of your body, inside and out, your many nervous systems and all your organs, they are all set to orgasm and erotem, and generate purifying energies with the help of the power company, as I've explained about them, before.

Men and boys, and their bodies, both their normal bodies and their holy bodies work in the same way, and there is no disparity, when it comes to sexaling, orgasming, and eroteming, and showering off lots of wonderful energies, that purify men and boys, and the people who the men and boys are sexaling with.

Ticklement Tuning Forks

You have ticklements, tuners, or pitch fork tuning forks, that chime, in every cubic millimeter to every cubic inch, and in even tinier places, you have tinier ticklements, or tuning forks, and in larger areas, you have larger ticklements, or tuning forks, and they are all set to vibrate in various patterns of sexual thrilling eroticisms, and orgasming ecstacies, as you pump up the levels of sexalating energies you have available to you, in you, and showering off from you, and

those patterns and focal points change, slightly, minutely, as every micro second goes by, as we change our location in our universe, and our relative location or position to every thing else in our universe changes, from night to day, and from day to night, ongoingly, non-stopingly, never repeating the same set of tuning focal patterns. Focal patterns are frequencies.

Focal Patterns

These frequencies, or harmonic consistencies, are harmonic displays or the 'in rythm' with GOD, consistencies that allow you to be united with GOD, me, my devine and holy body, and my devine and holy mind, and my being or GOD SELF and GOD BEING, every moment, as you are orgasming, and eroteming, and convulsing orgasmically.

Men and boys have the same kinds ticklements, or tuning forks, and they are located in every organ of their bodies, too, just as they are in women's bodies and in girls' bodies, in every single organ and cell, and they allow all of you children of mine to stay in frequency with me, as you sexalate, erotem, and orgasm, and convulse orgasmically, practicing my religion, and as you sexal together with each other, and go about living your daily lives.

These many ticklements and tuning forks are all connected to your brains and to your nervous systems, and each living being in your body, has them as well, and every living being, and animal, has them as well.

All my children, animals, living beings, and human beings, are all connected to me, through these tuning forks, and they are connected to me in many ways, such as through the holy bodies all of my children have inside of them, and also through a myriad of other mechanisms that I have functioning in your bodies, in your astral 'energy' bodies, and the many millions of energies bodies each of you have in you that help to keep you all connected to me and my Holy GODLYNESS existence. My animals children and living beings childrens have fewer connectivities and fewer energies bodies, as they do not need as many as my human being daughters and sons. This is because you, my human being children, need to be more connected to me, as you are the only ones who can actively sexal and practice my religion, with your own self determination, and desire to sexal and practice, to become closer to me, GOD, as you become purer, and holyer.

I'm connected to all of you, day and night, three hundred sixty five days a year, in countless many fold untold numbers of ways and manners, and with countless many fold untold numbers of mechanisms. All of my children are likewise connected to me, in similar ways and manners, and with similar mechanisms, though the numbers and types of mechanisms may be different among my living beings children, and my animals children, compared to my human being children.

As you women, girls, men, and boys sexually rapture, erotem, orgasm, convulse orgasmically, and reach sexual peaks, and then sustain them, you grow holyer, as you become purer, brillianter, and closer in GODLYNESS to ME, GOD.

Obviously, then, the primary means for you to grow pure and holy is to sexal together with each other as sexaling is the basic way to become pure and holy, and as you continue, over the days, and weeks, then months, years, decades, hundreds of years, thousands of years, millions of years, and more, you slowly grow more pure and holy, and closer to me, GOD.

Sexaling is my primary and most fundamental religious practice and your primary religious practice for you to become cleansing machines, washing machines, purifying and sanitizing machines, so that you can clearify and erase your karmic markups, and purify your lives, and purify the lives of those around you, with your selfless actions of grace and serenity, sexaling and showering purifying energies in all directions for the sake of your self, and for the sake of others.

You women and girls need men and boys to assist you to become the powerful cleansing and purifying machines that you are capable of becoming.

Men and boys used to be somewhat nearly as useful as purifying and cleansing machines, as women and girls, but men and boys have different jobs, and different priorities, and there fore, the burden of work to purify my universe, and to clearify the karmic markups of all my children rests on the shoulders of all women and girls, with men and boys assisting women and girls.

You men and boys need women and girls to lead you, and to help you to become more proficient, powerful, and more capable cleansing, washing, purifying, and sanitizing machines.

Assistive Religious Practices

The practice of praying Nam Myeo Ho Ren Ge Kyeo is an assistive practice that allows you to become in touch with my GOD SELF, equally as well, but the time it takes, is much longer, as very little purifying energies are produced, merely by using your brain, muscles, ligaments, sinews, bones, mouths, tounges, and jaws, as energies sources.

There are many other assistive practices, from meditation, to breathing techniques, to yogic techniques, to ballet like techniques, to dance techniques, to body movements of various kinds, to help you to increase and or also store up your energies, and then for you to release them, for you to then become more firmly and closely connected to ME so that you can eventually begin to gain a higher appreciation of ME, GOD.

My many religions teach many ways to do this, and before my many religions were corrupted by the Lesbianists, they worked to varying

degrees of success.

Therefore, sexaling is the primary fundamental religious practice, and all other practices in my religions that I've taught over time, spanning all of my previous teachings from the begining of our time together, since I, my GOD SELF, created you as my children, are assistive practices, of one kind or another.

Sexaling, eroteming, orgasming, phlumetting are important practices, and as you orgasm, you are purifying your self, and others by pushing out and spraying your self with purifying energies as your holy and sacred energies shoot out to cover you and emmerse you in full body coverage, from head to toe, showering and shattering energies every where around you. They then build up and cover over all others who are around you, as well, with your purifying erototistic and orgasotistic purifying energies, clearifying yours and their karmic markups.

Astral traveling is another type of practice, but we'll define it, another time. Experiencing hyper trance states of mind and being, and a nearness to GODLYNESS are also a practice, and we'll define it, when I can remember every thing I need to remember about it.

Participating in my religious ceremonies is an assistive religious practice you can enjoy, as you become purer and holyer, and after you recognize that I am your Mother and Father, and your CREATOR, and that you exist because of me, as I made you from pieces and parts of me, your CREATOR.

After you realize this, you can enjoy participation in ceremonies with me, as training priestesses and priests, and you can make your way up the purity ladder, the more you participate with me, GOD, in my religious prayer hand signaling ceremonies.

Praying Nam Myeo Ho Ren Ge Kyeo to my Holy Body, or to the Gurkian Mandala, as I've explained about, is an assistive practice that will bring results.

It will not bring results as well and as effectively and as quickly, as sexaling, which is the most holy and virtuous practice, along with eroteming, orgasming, phlumetting, astral traveling, peaking, and so on.

I've spoken about peaking, before, and women and girls can peak, and experience wonderful feelings. Men and boys can peak and experience wonderful feelings, too, but I haven't discussed that, yet. We'll talk about that, another time.

In any case, do not confuse assistive practices, with the fundamental and primary practice of sexaling. We'll get back to all those other things, to define them, betterly, another time, after my brain heals, a little bit more, and after I erase more karmic markups that keep my brain karma from improving, fast enough for me.

How To Make Prayer Statements

Remember to include a prayer statement, such as 'I pray to the holy ephemeral body of the Creator, John Francis Ayres, for the [insert private prayer statement]', such as, '... for the serenity of mind, and the gratefulness of heart, for all those around me, who have helped me to become the person I am, and can become.' or, '... for the peace of mind, and serenity of heart, for the love of all men and boys, and the cooperation of all women and girls.' These prayers said by a woman or girl. Men can pray, similarly, '... for the grace and deviness of the women and girls who surround me, I am greatful to them, and I pray for their continued good health, and prosperity'.

You can also say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [insert private prayer statement]', but only when I am in the middle of a religious hand signaling prayer ceremony, i.e., while I am doing a prayer ceremony, and saying my prayers with religious holy hand prayer signals that my special kids who are religious kids, can pick up and then act on, in concert with other groups of kids of mine, who also are religious kids, most of them, I think, and who work together with my primary groups of religious kids.

I have lots of kids, and some are normal kids, who go about their jobs, as expected, for earnings, just as most people we know. But I also have lots of other groups of children, who are more, religiously oriented, to varying degrees, and who are very religious as their work is all for the sake of my religious self, my GOD SELF. My religous kids catch my hand signing, and then they pass the messages along to others of my groups of children, and with all of the different groups of children I have doing 'good' works for me, as well as groups of children who do 'religious' works for me, as well as groups of children doing normal work for me, but for the sake of my religion, nevertheless.

They all coordinate themselves, somehow, I have yet to figure out how they do it, but between them all, they get the jobs done, that I ask them to do, while I am religiously - and the prayer statements I am signing are very holy - hand prayer signaling, i.e., hand signing.

So, unless you know for a fact, by seeing me on a tv, such as during a live broadcast, once I get my religious conveyance set up, and built by my children, after all the conditions are met, for securing this world from the grasps of the Lesbianists, and after killing all the Lesbianists, and / or after making the remaining Lesbianists surrender, and then after all other conditions are met, as I don't know all the conditions, I've set, as my memories are still foggy, as I'm amnesiatic, as well as mentally retarded, but in any case, if you see me on tv, on a live broadcast, doing my hand signing, you'll know I'm in the middle of one of my prayers, and then you can say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [insert private prayer statement]', and you can omit the 'ephemeral' if you like, as it will work better if you omit the word 'ephemeral' as while I'm praying, I'm my normal, GOD, self, though I may not look to you,

on the surface, to be any different, over the video links, or even in person. It never the less works better if you use my recommended methods of making prayer statements, this way, for you to maximize your private prayer statements.

All of my groups of kids have lots of friends, and they do lots of work for me, and I do not remember how many groups of them there are, and how many children I"ve got, as yet, but in time, I'll be able to give you a better idea of how they work together to get the work done, that I ask them to do for me, with my religious hand prayer signals, or hand signals, as in hand signing, or signing.

My kids use signing for all their work assignments, so I use hand signing that they can catch, pick up and read, and it is all pretty much very religious in nature, and it is very solemn, as I am GOD, and when I'm signing, they know I'm GOD, and do not doubt it.

When I am not signing, they might now and then, doubt that I am GOD, but never the less, I am GOD, and my signing proves it to them - when I am saying my religous hand prayer statements, by hand signing - with out any room for doubts in their minds.

In other words, I'm a typical person, just a little mentally retarded, brain smattered, or brain damaged, after my many youthful and other brain bashings I recieved, the wiring is a little scrambled up, upstairs, and after many poisonings by the Lesbianists - from makeing coffee from kerosene, diesel fuel, gasoline, and motor oil contaminated coffee beans and then from drinking that coffee, without knowing it was contaminated with petrol fluids, as often happens to people - and with ill health karma that has me on disability, and I've been through a lot, life after life, and sometimes, my children may have had a thought or two, 'I wonder, if he is going to make it, like he said he would?'

Well, to dispel all doubts, I sign, and when I'm signing, I remind them of my old self, back in the old days, when I used to sign, religiously, and they know how serious a guy I was, so they do not harbor any doubts, so long as I am hand signing.

What To Say, When You See Me Using My Dick Or Other Parts Of My Body To Purify Others, And So Forth

You can say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [insert private prayer statement]', also while you see me praying, Nam Myeo Ho Ren Ge Kyeo, or also while you see me in a ceremony, using my dick and scrotum, or other parts of my Holy Body to purify others, during the middle of a prayer ceremony, and I need not be hand signing, or praying Nam Myeo Ho Ren Ge Kyeo, as I am in the middle of prayers and activities ceremony, which is just as good as a religious hand prayer signaling ceresony, any day.

My dick and scrotum package is very Holy, and it has a very useful function, and that is, it purifying others. My lips do, too, and my

butt hole, does as well. They all purify others very effectively and efficiently during my religious ceremonies.

My entire body, during a religious ceremony, butt hole, mouthal hole, lips, tounge, cheeks, legs, knees, feet, toes, butt, chest, back, arms, elbows, hands, fingers, head, neck, throat, ears, nose, and so forth, is entirely the body of GOD, as I am GOD, and therefore, while I am useing my body, during my religious ceremonies, and for my religious ceremonies, and you see me on tv doing so, then after you have verified that I am in the middle of a prayer ceremony, you can say your private prayer, in the manner as I've explained, 'I pray to the holy body of the Creator, John Francis Ayres, for the [insert private prayer statement]'.

I only use my dick and scrotum package for prayer ceremonies, except when I need to pee, so if you see that I am using it, during a prayer ceremony, or if you see me using any other part of my Holy Body, during a live broadcast prayer ceremony, then you'll know right away, that I am in the middle of a prayer ceremony and it is okay to use the statement, 'I pray to the holy body of the Creator, John Francis Ayres, for the [insert private prayer statement]'.

The same is true, pretty much, for any priestess or priest, who practices with me, in my religious holy body prayer circle, their bodies become very Pure, Holy, and Devine, but only after many life periods, that is, after many, many aeons, as they do not attain the same level of purity for a while, the same level of purity as I am at by my good old self, or the same level of pureness that is of ME, GOD, since I'm GOD, and they are not.

That means, it takes priestesses and priests longer to become pure, holy, and devine. I happen to be pure, holy, and devine, but that's because I'm GOD, and it is only during my religious ceremonies that you can understand that as you make your prayer statements, and sexal, etc.

After a long, long while, priestesses and priests will also become pure, holy, and devine, as their holy bodies, energies bodies that are pure, holy, and devine, but on a lower scale than are MY energies bodies, since I'm GOD, and I'm in charge of keeping things tied together, here in my universe.

After many aeons plus years of practice in my holy body praryer circle, the priestesses and priests become pure, holy, and devine, and then their bodies, their normal bodies, become very purifying, just as mine is, now, when I am in a prayer ceremony. I am in a prayer ceremony, daily, a few times, to a number of times, a day.

I've gone eighteen hours straight, once, and no sooner than I go to sleep, and then wakup, right away, I begin again, and I've gone many days, straight, praying, continuously, non-stop.

This is nothing, though, and is all preparatory, as in the future, when I get my health back, as I haven't been too healthy, for quite some time, I will be praying around the clock, some days, and for many days at a time, taking a break only to eat, drink, poop, pee, and clean up.

When priestesses and priests join with me, we will go for years without stopping, and with the priestesses, and with the priests, the both of them there, present, doing the prayer ceremony on my behalf, they can represent me, while I take a nap, go and shower, get some food, nourish myself, drink some fluids, read a book or news paper, or watch the news, or a movie, game show, video, or play a video game, and so forth. I won't be taking long breaks, and that is very funny sounding, but anyway, it happens that priestesses and priests will lose their attention, and then get lost, somehow, and then go and watch tv in their bed room, or whatever, and then we have to go and look for them, and they will get a few markoffs, and with enough markoffs, they will be asked to leave the religious conveyance, and they will be put on a type of vrobatiton, or under survielance, to see if they are good or not. My kids do all my survielance work, and they keep track of every one, so 'you'd better be good, you'd better be nice, you'd better look smart I'm telling you why, Santa Clause is coming, to town'.

Who Was Kris Kringle?

Did you know that Kris Kringle got its start from me? What a coincidence. I don't think he was wearing anything, though, or rather, I don't think I was wearing any thing, but you never know, as tolerances have changed over the long aeons of time, as they pass.

When priests and priestesses become that pure, holy, and devine, as pure, holy, and devine as I am, after their many aeons of religious practice in my holy body prayer circle - pure and devine on the exact same level as I am at - then they can represent me, as Mr. mini-GOD, and Mrs. mini-GOD.

You can not represent me as Kris Kringle, and whoever my wife was, back then. I think I had a lot of guys on that team, and a lot of women and girls, too, since sexaling was a part of that religion, too. You can learn more about it, if you're interested, by getting a day pass, and checking in with my kids, and then, signing up and joining our country, and then by becomeing a citizen, as I've spoken about, before.

You can include any good prayer, that comes to mind, that you feel is needed by you, to improve your life, and to level up your life.

You are the only ones who can pray, and practice, you women, girls, men, and boys, and there fore you are connected to me in many more ways than other living beings, the animals, and the amoebes, cells, and other living beings.

There fore, you are, both genders, the ones who will clean up the mess you have made, and you will continue to keep my universe clean, as you sexal with your genitals, and with your bodies, and with all your gizmos, igniters, trigger mechanisms, love bumps, love patches, tuning forks or ticklements, and so forth, as you are sexaling beings, who I, GOD, created, and you will sexalate, erotem, orgasm, phlumett, astral travel, peak, hyper tranceate, and so forth, just as I intended you to, from now till forever.

You will become virtuous and worthyable beings, worthyable tummy mommies, and worthyable tummy daddies, with your practice of my religion, who will bring into my universe, my many children who will join with you, and assist you and me, in cleaning up our universe, and the mess you have all made of it.

Is that understood? The answer had better be, "YES SIR!".

Lesbianists' Torment Campaign Under Way

Lesbianists are clearly releaseing wierd, ghastly, horrible, and dangerous preditorial animals, giant insects, giant spiders, giant lizards, snakes, and reptiles, ghastly, preditorial sea animals and sea mammals, winged, preditorial and horrific, aggressive scavenger and killer buzzard like creatures and other winged and destructive animals, and other horrible creatures, as well as my abominant kids to kill, maime, torture, and cause major disruptions and suffering to people, around the globe, in many locations.

Apparently, the whole world is now affected, or will be affected, by this dischordance and disharmonic display of defeated lunacy.

The peace has been shattered by the Lesbianists. It was not good before, the situation in the world, with the balooneying governments of the world, doing what they wanted to do, and torturing, and canabalizing people, and feeding people to my abominant cave bears kids, and to my crocodile people kids, and mistreating people, like Bill Gates, Steve Hawkins, Steve Irwin, many women, young girls, and men.

The war in Iraq, the phoney Saddam Hussein Trials, and all the bogus manipulation of the press and media, and the suppression of what is actually the case, with our being used and abused, poisoned, and maltreated by the Lesbianists, was a rotten situation. That was normal, or normality for us. Our karma is very poor, and we have the karma to suffer this abuse, and these torments, daily, unknowingly, in most if not nearly all cases.

But, it is becomeing really bad and there is need for serious concern, and action, to correct this situation. It has gotten out of hand, completely, and there is no stopping the Lesbianists in their wanton, and coldly miserable wish and lust for chaos and disturbances to others.

Now, more clearly than ever, as the Lesbianists rampage, the Lesbianists are causing major disruptions, suffering, anguish, and there is just an awful discordance of shock, dismay, and misery, that is growing, every moment. This is as real as the sunlight shining from the sun on a hot day in summer.

I don't have a clue what people are doing, and what is happening to them, as they are captured, tortured, and caused miserable sufferings, in many places. There must be horrible agony for many people, at this moment, and as each moment passes.

Our reality as it was has suddenly been shattered and torn up, and replaced with the lunacidal, Lesbianistic, mayhem and chaos.

Reuters reports a Lesbianists' joke for the Lesbianists, sarcastically and ironicly stateing, "New Perils Push Doomsday Clock Closer to Midnight" "(Reuters) Scientists have advanced the clock 2 minutes closer to midnight."

http://us.rd.yahoo.com/my/today/new_perils_push_doomsday_clock_closer_to_midnight;_ylt=AmUXlewr5ev2kNK_SfOHDFAL1vAI/*http://news.yahoo.com/s/nm/20070117/us_nm/doomsday_clock_dc_4

This is their private joke, to make this scenario more laugable than before for them. They could not care less, as they are manipulating every thing, and that statement is completely meaningless to them, as they are in control of every thing, in their conspiritorial lunacy to rule human beings, and to trash every one.

We'll see what the coming days, weeks, months, and years bring, and maybe there will be hope for change, when people begin to take action, to correct this situation, globally, united in spirit, permanently.

These are the most evil of evil people and abominant kids, in our immediate vicinity in our universe. We must begin our cleanup campaign here, as it begins where I am, and will continue from here on out, till we have rid my universe of all of these horrible people, and all others like them, and have made them surrender, or have sent them on to my Epcot Center.

I will establish my relgion in my universe, and begin my ministry, and they are not going to stop me, as my religion will bring positive change for all of us, forever.

I must establish myself outside the bounds of this Lesbianistic society, so your efforts and concern for our future, and your selfless giving of donations to my ministry, to allow me to set up my ministry, outside the bounds of this Lesbianistic society, non-dependent on Welfare, Supplemental Security Income or SSI, Medicaid, and non-reliant on the supported and financed Housing and Urban Developement or HUD subsidized apartment that I live in.

Once I receive in the mail, the 'Gift' donations to set up my ministry outside the bounds of this society, I believe things will gradually begin to positively change for us all, and the shift to positivity

will begin, and a new universe for us all, will become for the first time, ever, a potential reality with the sincere religious practice by all of my followers, all of you, who are practicing my religion, diligently, and daily, or as much as your health and your time permits.

There in, with your efforts to practice, will bloom your flowers of dignity and hope, justice and freedom, willingness for sharing, cooperating, and participating with others in our new age of enlightenment, the Gurkian Age, and your new found respect for self and others.

Captain Off The Bridge.

John Francis Ayres
GOd
And Children

It Is Now Time To Kill All Government Workers, Public Workers, Preachers, Islamic Clerics, Christian Bible Teachers, Bible Thumpers, And All Other Persons Who Support The Lesbianists And Their Lesbianistic Societies Around The World - 'Fivers' To Kill Lesbianists And All The Lesbianists' Supporters - Coma Patients - All Persons Who You Kill Will Transel To My Epcot Center - Japanese And List Keeping - Surrendering And Pledging To Serve All People In My Universe - What Does This Mean? Updated: 21-01-07 Rev.d.01.a 19:56 PST

It is now time to kill all police of every police department in every country in the world. It is now time to kill all jail and prison workers in every country in the world. It is now time to kill all zoo keepers who work in zoos and other related places around the world. It is also time to kill all pet store personel, and pet store owners. We do not need people housing and feeding potentially dangerous animals. You are further ordered to kill all pets in all pet stores, and elsewhere, even in private homes. You may then eat them, after you have cleaned out their guts and removed tummy foods and rectal feces, etc., that are decaying matter, that is harmful to your health, and after you have prepared them for eating by cooking, grilling, fire place cooking, barbecuing, smoke house fermenting, or by other safe and sanitary, healthful cooking methods.

It is also time to kill every fire department official or worker, no matter what capacity the person works in, as a fire truck driver, as an ambulance driver, as an assistant driver, as an attendant or support crew person, as a maintenance man of the fire or the police departement, it is now time to kill them all.

Further, it is time to kill all public bus drivers, who work on any metropolitan or local area or state or interstate, or national bus company. It is time to kill all ships' captains and their crew members. It is time to kill all railroad rail line workers. It is time to kill all subway drivers and subway line workers, no matter what

their job is.

Further, it is now time to kill all military personel, SWAT team personel, all government personel, and all civilian, or trained military, national guard, state or federal militia, toy soldiers, the people who dress up in old time war regalia, and outfits pretending they are old time, earlier period, confederate soldiers, or old time earlier period, union soldiers, who act out old time North the 'Union' vs. South the 'Confederates' and who participate in city and town parades, across the United States.

It is now time to kill all retired military personel who support the deranged, crazed, insepient, and corrupted Lesbianistic societies we live in, around the world. It is also now time to kill all persons who in any way support the governments of the world, including but not limited to, all school, university, kindergarden, missionary, day care center workers, nursery school teachers, teachers aids or teachers assistants, United Nations workers, United Nations teachers, substitute teachers, catholic school teachers, Irish protestant school teachers, parochial school teachers, all religious denominations around the world school teachers and their school support workers, government funded school teachers, tuition assistance by the government school teachers, all personel who work for the United Nations, all civil service agents, all DEA agents, all FBI agents, all FDA agents, all EPA agents, and workers, BLM agents who are Lesbianists as well as those BLM agents' who are Lesbianists as well as those friends of theirs, who support the Lesbianists.

It is also time to kill all other federal, state, or local, or globally tasked organizations, such as the CIA workers, INTERPOL workers, the several groups of workers within the Canadian Mounties, NIC a spy department of the U.S. Navy, the Korean C.I.A., the United States Presidential Police agents the Secret Service Agents, National Park Rangers, State Park Rangers, Forestry Service workers, Pentagon workers, National Library Of Congress workers, and all others who work in any capacity supporting any government organization, those listed above, and all others, as well as all persons who support the Lesbianists in any way at all.

It is now time to kill all judges, bailiffs, Supreme Court Justices, and the employees who work in their organizations, and all other judges, legal clerks, para legal workers, court stenographers, justices of the peace, lawyers, attorneys, state attornys, prosecuting attornys, defense attornys. It is time to kill all officials of all government organizations, and all the people who work for them and or even only support them, such as restaraunt workers who feed them lunch, coffee shop workers and owners who feed them coffee and food, bars and restaraunt personel and owners of bars and restaraunts who support and feed any and all persons connected to the governments of the world and who work for them in any capacity at all.

It is also time to kill all the money lenders who loan money to the Lesbianists, the mortgage company owners who provide the Lesbianists with house purchasing loans, and all the supermarket workers and supermarket owners, who supply food to the Lesbianists, as well as all of the druggists, the pharmacy workers, who supply medicines to the Lesbianists. It is time to kill all the taxi cab drivers who give rides to the Lesbianists, and to every person who supports the Lesbianists in any way, at all, unless those people surrender to my kids.

It is also now time to kill all civilian or civil servant or state civil servant worker who supports in any way, any Lesbianistic organization, such as the police departments, federal agencies, fire departments, libraries, schools, and so forth. It is also now time to kill all persons who maintain or provide services to any of the above listed organizations, and to all of the similar organizations in every country in the world.

This is my order to all of you, and you are all ordered, by me, GOd/ GOD, to kill all of them, unless they surrender. People also call me, 'Allah'. I'm the same person. Just do as I tell you.

You are to take my fuels' bombs with chlorine plastics' explosives formulas, and all other explosives formulas I've explained about on my bulletin board and the fuels' bombs explosives formulas including but not limited to radiological 'fracturable' rocks that provide so-called 'nuclear' explosions, all of my bombs' formulas, and all other bombs' formulas derived in part or in whole from what we have learned as I've explained on my bulletin board and to take them, and make the bombs and explosives, and to then use them, and then destroy and kill all of the Lesbianists, and all of the Lesbianists military bases, buildings, and kill every last one of them, all of them, leaving no one alive.

'Fivers' To Kill Lesbianists And All The Lesbianists' Supporters

You are to then make certain they are all dead. If they are not dead, you are to kill them with a 'fiver'. A 'fiver' is a bullet with five lines drawn or scored with a knife or sharp instrument into the tip of the bullet, to form a 'five' line pattern, so that the bullet will fracture into 'five' parts.

You are to take three 'fivers' and shoot each person who has not stopped breathing, and who is not dead yet, and shoot the three fivers into the head of the person, to make certain the person dies.

Three 'fiver's will destroy enough brain material, to kill any person if the bullet is large enough, and the handgun, rifle, or weapon is powerful enough.

The handgun bullet size must be at least larger than a .22 calibur, and at a minimum, 7 millimeters. You may use .38 calibur, 9 millimeter, 10 millimeter, .45 calibur, or any other, large sized bullet to make certain they are dead. Buckshot, 8 guage to 10 guage, or any comparable rifle load or handgun load, or home made weapon

load, will work equally as well, with three shots into the skull. A machete or similar instrument should then be used to chop the head off of the person at the neck line. If you have a machete or hatchet, or axe, and if you prefer to chop off the head of the person, then by all means, you are to do so. The point here is to kill the person one hundred (100) percent, and not leave the person in a coma.

Coma Patients

A person in a coma is perfectly alive, and can hear every word you are saying, but can not respond. People in a coma after severe accidents, such as near fatal traffic accidents, where their limbs were broken into pieces, or war victims, who are on life support in Veterans' Hospitals, can be in agonizing pain, and no pain medications are given to the patient as the patient has no way of communicating with the doctors, nurses, or staff members to complain about the pain, in many or in most cases, if not nearly all cases. Some patients can write or scribble out a note about the severe pains, or make gestures with their hands, pointing at painful spots they are able to point to, and then making squeezing motions, to indicate as best as they can, that there is something wrong in the area. Some people may catch the meaning of the gestures, but others do not, and may just wonder what is going on with the patient and they may wonder what the patient means by the hand gestures. Others, doctors and nurses, and staff members will merely find it amusing that the patient is making the gestures. Some doctors and nurses, and possibly staff members, will figure out the patient is in pain, and then steps can be taken to alleviate the pain, but it is an ordeal for the patient, and it may take months, or in some cases, years, before staff, cleaning persons, food servers, orderlies or assistants, nurses, or doctors figure out what the hand gestures mean.

The coma patient, after healing from the injuries, may still have residual pains, such as residual spinal pains, or neck pains, or ligament pains where ligaments were twisted, or ruptured, or severed, partially or wholly, and the ligaments didn't grow back properly, or didn't grow back fully, or much, or perhaps, in some cases, not at all, which does happen a lot, and each time the patient is moved in her or his bed, the person experiences extreme pain as no medications for pain are given to the coma patient, unless the patient has been successful in communicating that there is pain felt by her or him, in her or his body.

Leaving coma patients on life support systems is the cruelest thing you can do to a person in a coma as there is no such thing as being 'brain dead'.

It is a cruel and abominable Lesbianists' joke on humanity, and on all persons, that the Lesbianists have perpetrated with their teaching doctors and nurses that coma patients are brain dead, and do not feel, hear, taste, or sense, anything at all, and it is just another one of the Lesbianists' ways to hurt and torture people, and cruelly and

ruthlessly abuse human beings, in this case, in most of these cases, by proxy. There are doctors who are Lesbianists, and I have one who is one, that I am aware of, and he knows exactly what causes my health problems, but he sits there, non-responsive, and with a vacant stare on his face as if he doesn't hear, see, or know of any thing that is going on, something like the three monkeys with hands clasped over their, ears, eyes, and mouth, who represent 'hear no evil, see no evil, speak no evil' and then 'therefore, every thing is alright'.

All persons with brains, whether in a coma, or other sleep like state or condition, is perfectly brain alive as the brains and nervous systems, auditory, taste, touch and sense nerve systems, never die, until the patient stops breathing, and passes on.

All nurses and doctors are to remove all life support systems from all persons in a coma, immediately and confirm the persons have died. That will allow them to transel into my Epcot Center, and then be born again, as a tummy baby to a tummy mommy and to tummy daddies.

All persons in a coma, whether in a hospital, or in a nursing home, or at a private home or apartment, or in a group home, or group care center, are to be told the truth of this, and are to be told that you just leared it, and are to be told that I am GOD, and that I have an Epcot Center staff waiting for them to come in, to be treated for their traumatic condition, of not being able to do any thing about their condition to end it, as it is a miserable situation for these people who are in a coma, or in any trance like state or condition that resembles a coma, or a sleeping person, who can not wake up. The person is perfectly brain active, and there are no measuring devices to prove it available to hospital staff or to doctors, as none are made, and the technologies to detect a person's brain activeness and aliveness are kept secret after they are bought up, and then after the records of them are destroyed, and the information on them are kept secret and locked away, in vaults, and in storage facilities, hidden from view so that no one can get the information, and build a device to detect a person's brain alertness status.

After they are told the truth, and that you just became aware of it, you are to tell them to not be afraid, and that all measures to relieve them from their present condition, and all measures to assist them to transel to my Epcot Center, where they can recieve personal care, and then helped to recover from the trauma of the coma, or coma like state of not being able to wake up, speak, and talk to people. They are then to be injected with a powerful sleep sedaditive, or induced to swallow several strong sleeping pills, as they may become afraid, and then, you are to help them to pass on, and to transel over to my Epcot Center.

In some cases, if you pull on the large toe of a person, or on the thumb, the person may have control to pull in the opposite direction. That is an indication that they are awake, and fully aware of what is going on around them. Please check patients to see that they have

soundly fallen asleep, and snoring or breathing quietly, in relaxed manner, may be the only sign that the person is asleep.

Any sign of movement, mentally driven by the patient, no matter how slight, is nearly most always, nearly one hundred percent of the time, a sign that the person is completely brain alive, and that the person is completely aware of what is going on around her or him and can hear every thing. Even passing or expelling gas or farting, can be 'mentally' driven, and a sign the person is awake, and alert, and brain alive. Opening one's mouth is almost always, one hundred percent of the time, mentally driven.

Persons's in a coma, who have Eplilepsy, or other similar brain or neuro muscular disorder, and other conditions where patients experience spasming, whether the condition is diagnosed or not, these patients who spasm, may make some spamodic movement, now and then, and that is only a sign that the person is haveing a neuro muscular muscle spasm. Knee jerks or other similar movements, are not always muscle spasms and can be labored, mentally driven actions. These actions show the patient has control to that extent over her or his muscles, body, skeletal system, and other body systems related to the movement.

In any case, after the patient has fallen asleep, you are then to kill the person, and let the person transel to my Epcot Center, so that the person can recover in my Epcot Center, and then be born as a tummy baby, to a tummy mommy, and to tummy daddies.

All Persons Who You Kill Will Transel To My Epcot Center

Once you are certain all of the police, fire, teachers, and all others who support the Lesbianists' societies around the world are dead, they will transel to my Epcot Center.

It is now the time to bring an end to the lives of these people who support the crazed, insepient, bogus Lesbianists, and to destroy them all, leaving no survivors. Kill all of their family and relatives, and leave no one alive. Kill them all.

My Epcot Center will not be in any way, inconveinced by your brave and heroic actions. All doctors must be killed, all nurses must be killed. All medical techinicians must be killed. All library workers must be killed. All school teachers must be killed. All art museum and gallery museum workers must be killed. All workers for all of these institutions must be killed. All of them, in every country of the world, unless they surrender and plead for mercy, and then are allowed in to my kids' place, for swearing in and for joining as civilians, my country.

Further, it is time to kill all media corporations personel, such as news casters, news men, news women, anchor persons, cameral men and women, talk show hosts, administrative persons, Hollywood's movie actors and actoresses, all radio broadcasters, and all personel of all radio companies. It is time to kill all news paper company owners, and

publishers, editors, and all workers of these companies, unless they surrender to my children and plead for mercy.

It is time for all of you to kill all of them, and make sure not one of them is left living, including and most importantly, all politicians, who must all be killed, without any further delay. It is time to kill them all.

It is now time to kill Oprah Winfrey, Geraldo Rivera, Sarah Jessica Parker, Judge Judy, Jerry Springer, Liz Taylor, Michael Jackson, Clint Eastwood, Cher Bonno, Morgan Freeman, Steven Spielberg, Al Gore and his family, Hillary Clinton and her family, all of them, Jeb Bush and his family, all of them, Nancy Reagan and her family, all of them, former president of the United States President George Bush, Sr. and his family, all of them, including all persons related to him in any way, and all persons who work for him, in any way, and all persons who work for any of his associates, in any way, unless they surrender to my kids, and then plead for mercy.

We are not going to allow the Lesbianists to continue their illegal, inhumane, and horriblesome practices and activities on my planet, and in my universe, a moment longer. They must all die, now.

Is that understood?

I hope the answer is, "YES SIR! Mr. John Francis Ayres, GOd", as a 'negative' reply to my question is not acceptable.

Japanese And List Keeping

I haven't confirmed it, but from what I know, so far, the Japanese are very good at keeping lists, and they know about all the foreign people in Japan, and they keep lists of names of all of them, and they keep lists of names on all of the Korean people, and the Singaporean people, the Chinese people, the Ainu people, and the cast outs or 'burakumin' a group of meat cutters and fish sellers who some how got on a list of people who were felt to be 'unclean'. The 'burakumin' was a group of people who no one in Japan wished to talk about. The Japanese also, apparently, had lists on groups of people, who they didn't know much about, but they knew they were always doing things with each other. Those groups of people were the Lesbianists, so the Japanese knew all along, who I was talking about and were nearly one hundred percent certain those groups were the Lesbianists living in Japan.

They read what I wrote, and the notes of mine were passed to many people on an e-mail mailing list, and when they heard that Steve Irwin had been killed, they felt they had heard enough and they told all their friends about my notes, and then the Japanese killed all the Lesbianists in Japan on that list they kept.

It's something I heard, and I haven't confirmed it, but I think the Japanese are fully capable of handling that, as they were fully

prepared to deal with each one of the Lesbianists, and they knew who they were, and once the Japanese united, and decided to take action. The Japanese escorted all the Lesbianists to a meeting place, to which the Lesbianists were not happy to go to, but had no choice but to agree to follow the Japanese citizens who escorted them there, with the military or Japanese Self Defense Force, the Coast Guard, and National Police, and all other police agencies in Japan, plus the national organization of fire department workers, backing and supporting all the Japanese citizens.

As to what they did with the bodies of the Lesbianists, I'll leave that to them to explain to you, as it was quite brilliant and they had many very good ideas for dealing with the bodies of the deceased Lesbianists, who are apparently now in my Epcot Center.

The Japanese country side is now peaceful and quite, and things the winds are blowing, peacefully, and gracefully over the Japanese country side, cities and towns, across the ponds, marshes, lillies and lotus flowers swamp lands, bogs, bays, estuaries, lakes, streams, rice paddies, fields, mountains, and islands, from what I can understand and gather about the situation in Japan.

Surrendering And Pledging To Serve All People In My Universe

If the Lesbianists and their supporters surrender to my children, and then promise to devote their lives for the sake of others, serving man kind, and all human beings, and all people on this planet, and in my universe, for the rest of their lives, they will be allowed to surrender to my children, and my children will then arrest them and put them in a prison cell. If they are not willing to serve others, despite the fact that they say they will serve others and devote their lives for the sake of others, serving all people in my universe, then my children will ignore them, and my children will not arrest them because my children know they are lying. They must promise to do all they can that is humanely possible, for the sake of others, and devote themselves to the prosperity of others, for eternity. If they are not willing to do that, then please, just send them on to my Epcot Center, and we'll straighten them out, for there. My staff at the Epcot Center has training programs to straighten them out and make them nicer people, so that next time they are born as tummy babies, they will behave and be nice to others, doing nice things for other people, after they are retrained, a little. The retraining program takes a while, but the results are very good to excellent.

If my kids decide that the person who is surrendering, is telling the truth, my kids will use the special teletransportation technology, something like what we see in Star Trek on tv, with Captain Kirk saying, 'Beam me up, Scotty!', as many of us have seen on daytime tv, or in the movie theater, and my kids have very good teletranportation technology or 'beam me up, Scotty' technology, and the person, once he or she pledges honestly to serve others, will instantly dissappear.

Do not be surprised if when the person surrenders and promises to 'serve others', promising to devote her or his life for the sake of others, the person suddenly dissappears, and instantly, the person is no where to be seen. The person was 'beamed' into a prison cell that my kids have constructed, using other technologies, and we have many prison cells waiting for the Lesbianists and for the Lesbianists' supporters, and for other bad kids in my universe, as well.

For each person you kill, my kids will keep earning points scores on your efforts to send them to my Epcot Center, and you will be paid, when you have finished your job, and then finally, go in to visit my kids. My kids will pay you in the monetary currency that is used in the underground cities my kids have built, for protecting people from these horrible Lesbianists and for protecting people from the abominant kids of mine, and the ghastly and naughty animals and very large bugs and spider like creatures, that the Lesbianists use to help them torture people with, to make the Lesbianists laugh, and to amuse themselves, as I've explained a little about, already. The more Lesbianists and Lesbianists' supporters you send to my Epcot Center, the more earning points you will score, and the more money you will earn, and you will be paid that money, when you go to visit my kids after you have finished your work, killing the Lesbiansts and the Lesbianists' supporters.

If the Lesbianists and the Lesbianists' supporters do not disappear after they surrender, and after they promise to serve others, and pledge to devote their lives for the sake of others, the Lesbianists and the Lesbianists' supporters are lying, and you can then kill them, and send them on to my Epcot Center.

My children will escort the deceased Lesbianists and Lesbianists supporters, once you kill them, into one or an other of my Epcot Centers, and will make sure that the Lesbianists and the Lesbianists' supporters get in for a meeting with one or another of my managers, or with one of the staff members who work with my managers to arrange retraining programs for rehabilitating the Lesbianists and the Lesbianists' supporters.

The Lesbianists and Lesbianists' supporters will not qualify as tummy babies, until they are finished their retraining and rehabilitating programs. After they finish, they will be out, again, to join the rest of you, once again, but this time, as nice, kind, courteous, and polite people.

What Does This Mean?

It means, I want all the Lesbianists dead, but if they will surrender, and if they promise to serve all human kind, all people, and work and strive to enrich the lives of all others, dedicating their lives to others, then, you do not have to kill them, and you do not have to send them to my Epcot Center. If they are honest when they surrender, and when they promise to serve all people, devoting their lives to all people of the world, then my kids will 'beam' them in, using the

teletransportation technologies that my children use. If they are lying, then my children will not beam them in, and they will be stuck where they are. If they are stuck where they are, after they surrender to my kids, and after they promise to dedicate their lives to the welfare of all others in the world, and to all others in my universe, then they were lying, and you may then kill them, and send them on their way to my Epcot Center, for retraining, and for rehabilitation.

It also means to kill any person who works for the Lesbianists, if he or she is supporting the Lesbianists to try to stop you from killing the Lesbianists. Also, it means that you should kill any person who tries to interfere with you, while you are trying to kill the Lesbianists.That's what it means.

Captain Off The Bridge.

John Francis Ayres
GOd
And Children

Fermenting Oils - Fracuses Kiddies - Slugs, Snails, And Other Bottom Feeders - Feeding Everybody In Our Bodies - Putting An End To The Global Menace Of The Lesbianists - Changing Our Societies, And Our Universe, Forever Updated: 22-01-07 Rev.x.00.a 07:45 PST

Mix raw sugar, ocean salt, sessame seeds, dried fermented berries you have taken from a mix of berries fermenting as a flural hydrate liqour, or as a plain fermenting liqour, and make sure you dry them out in the oven, before useing them.

Mix the items together in a container, and mix in a drop or two of apple juice, pear juice, papaya juice, kiwi juice, banana juice, cherry juice, cranberry juice, strawberry juice, peach juice, nectarine juice, or plumb juice, and let the moisture settle into the mixture to allow it to become only partially and only very slightly moiste, and not wet or liquidy.

Allow the mixture to sit in a warm or cool place for a week or two, to eight to fifteen weeks, or even a few years, and it will grow molds in it, and with the longer the duration up to a point of sitting and molding, the more useful it will become.

It might develop a pungent, unpleasant odor, like a dead animal smells, which may mean that a fungus that is not very suited for you to use as a starter mold for starting a fermented oil batch has developed in the container, and in that case, you can throw the whole mix out, or use it for fermenting beans or something. Cheeses can be made with these kinds of growing funguses and molds, if you are the daring type, who likes to experiment with new and different tastes from variously fermented mixtures.

You can add some ocean salt, and make a soury vinegar, and then try to rescue it with the combination of the soury vinegar, ocean salt, and a

little raw sugar, and some honey.

It may be that some bacteria is in the mix, and it needs to be eaten up, before you can use it safely for a healthy mold mix for starting a nice cheese molds and funguses mixture.

Ocean salt can be added in slightly large amounts with raw sugar. Once the odors have stabilized, and once they have developed a more pleasanty odor of a fermenting mixture, with a slight alchohol ferment odor that will indicate that it is alright to use, and that it will not be harmful to you.

In some cases, the bacteria in the base mix, may be a result of hairs or particles of skin from the body of a dead rat or mouse, that some how found his or her way into the sessame seeds, or into the dried spices, or into dried berries that you used, and then died.

In that case, you might as well throw it away, unless you have a lot of patience, and do not mind waiting and working with it, for several years, for it to become something you can use.

One way to make it into something you can use is to mix in a high potency liqour brew, and let it sit for a number or years, and ferment it, and then after it smells nice and rosy smelling, after ten to fifteen years, to thirty to fifty years, you can evaporate the liquids out in a pail on an open porch that has a net covering to keep animals and animals' hairs out of it. Make sure there is good ventilation, and it should evaporate out, safely after a number of days on the porch in the sun. If there is no heat to make it hot enough to combust, and if there is good ventilation, it will not combust, and it will evaporate out, safely. Adding ocean salt and raw sugar to the mixture so as to fill it up with raw sugar and acidic ocean salts, will further help to safely evaporate out the liquids and prevent the liquids from combusting, accidentally.

Once the liquids have evaporated out, safely, you can use the materials that remain in the pail or container, to start a fermented oils brew mixture, or to start a cheese molds and funguses mixture, if you wish to make a nice cheese molds and funguses mixture.

The particles of skin or hair from the dead rat or mouse, or pidgeon, or other animal, will have been eaten up by all the ferment fracuses kiddies, and will no longer pose a threat to your health.

Fracuses Kiddies

Ferment fracuses kiddies are just plain old ferment kiddies who like to devour large bits of human or animal tissues, mites, or cockroaches, or their body parts, and then poop them out, and pee them out into the liqour brew.

You'll always have some of these kiddies in your brew mixes, and they are useful to you, as they eat up the things that you do not want in

your tummy. Also, there are other kiddies, such as snails, and other bottom feeders, that find their way in, in the skins and pulp material as tiny animals, or the eggs of animals, and they hatch, and they develop, and they grow big, and they then bottom feed, and they eat any dead rats, and dead rat parts from rats that might have fallen into the brew. These are useful pets, that you want in your rum and liqour brews, as they will keep the liqour brew healthy to drink, and they will keep you from getting ill.

Slugs, Snails, And Other Bottom Feeders

In the old days of bucanneering, as I may have mentioned, before, this was a crucial part of keeping the sailors alive, on their long voyages, and if crew members fell ill due to an unhealthy brew, with a dead rat in the mix, making it sour, and making it unhealthy to drink, then if there are not enough snails, slugs, and bottom feeders in the barrel or rum to eat the dead rat parts, the sailors will get ill, and when they get back to port, they will hang the rummery owner, and give the business over to the son, or to a third party, often times, one of their fellow crew members, who is liked by all the people, locally, and on the ship.

This is the case, still today, with many rummeries owned and handed down in the same family, from such instances as that.

Bottom feeders, slugs, snails, and many types of bottom feeding earth worms, and other types of healthy bottom feeding worms, that cohabitate well with the slugs, and snails, and other animals that are too tiny for you to see in the rum brew mixture, without a powerful microscope like, optical videoing technology, are essential to your brews mixtures, and they may increase in numbers as they make babies like every animal and living being does, and so now and then, you need to reach into your brew container, with your hand, or with a fine mesh small aquarium use fish net, and scoop them out, and flush them down the toilet, or let them loose in a local pond, lake, mountain stream, or water springs fresh water well, where they will help to keep the water clean, ahd healthy.

Once you have the materials to make your fermented oils mixture, you can add them to your container of food oils, and begin to ferment them, or use them to make a nice cheese mixture, to ferment and then to make solid as it matures with age. You can also use the materials to make a fermented bean mixture, or fermented barley, or fermented rice, or fermented millet, or fermented wheat mixture.

You can also use them to make a fermented brew mixture, as there will be many healthy molds and funguses kiddies in and among the dried out materials. Your health will improve, and by adding different spices, nuts, berries, root particles, ground up kiln dried pine cones that were green to begin with, and then fermented for a few months to a few years, in a brew mixture, then dried out, and ground up into a saw dust powder consistency, you can then have lots of crystals cages

salts kiddies of various kinds help you to make a nice regroverative brew, to help you to regroverate your amoebes.

Feeding Everybody In Our Bodies

You know, we need to eat foods to stay alive. We also need to feed all the living animals in our body, to help them to stay alive, so that they can help our health remain normal, from day to day. We also need to feed the amoebes all the foods and juices, salts kiddies, and the poopy liquids and pee liquids, and other liquids with other types of tinier salts kiddies in them, as well as other types of food kiddies, we haven't learned about, yet, but with all of them inside your tummy, you'll be able to feed every one who needs feeding, and then you'll be successful with your amoebe 'auto regroverate mode, on!' formula, so long as you have degunked your body of all the petro chemical oils, kerosene, diesel fuels, and other chemicals, the Lesbianists have been feeding you, from birth, in your diets, if you live in a society, where you are fed baby formula mixtures from Gerbers or Heinze, or any of the other baby foods manufacturers.

Putting An End To The Global Menace Of The Lesbianists

We need to put an end to this practice by the Lesbianists of poisoning us with their petro chemical industry oils and tars salts kiddies, which they use to rot our teeth out, and cause tooth decay, and which they use to cause ulcers in people's tummies, and which they use to cause lots of unpleasant illnesses, and diseases in human beings, and in farm animals. These petro chemical salt kiddies, and formaldehyic salts kiddies, all harm our amobes living beings children, and all the other animals that live inside of us. One day, we will have a lot of people practicing my religion, sexaling, and making prayer statements so as to help us to erase the karmic markups we have, that keep us living under the tyranny of these Lesbianists, and in their societies, suffereing the daily poisonings that cut our lives short. When we have erased enough of our karmic markups with my religion's religious practice of sexaling to purify our selfs and others around us, and to clearify and erase our karmic markups, we will eventually be able to say good bye to the Lesbianists, and their practices of poisoning us, and causing us major headaches, or problems in our lives.

Changing Our Societies, And Our Universe, Forever

At that time, we will be able to say hello to a whole new way of life, and that will be the beginning of our new, thrilling, and excitingly challenging, one world, unified, planetary, global culture, and it will be the begining of our new, thrilling, and excitingly challenging, one universe, universal culture for all of the people in our universe, who we have been living in our universe together with, since we first came out, and began living here in my universe, a very long time ago. We have to start somewhere, and so here we are, now, begining to prepare the foundation for our long and prosperous journey ahead of us, as we clean up our universe, together with each other,

and clearify and erase all of our karmic markups, and all of the karmic markups of all my children, and of all living beings who live with us, together with us, in my and our universe. We need to take responsibility for this clean up campaign of ours, as we are the only ones, besides my many worker, unionized children, who can use our brains, and use our sexaling organs, to produce purifying energies of all types, to help us clearify and erase all of our karmic markups, and all karmic markups, and karmic things and dings, of all of my animal children, and of all of my living beings children, and of all of my human children.

My kids have built underground cities, to help us to get started, in learning about the new ways of living together, and of sexaling together, for practicing my religion together with each other, so that we will be able to prepare ourselves, for our new global, unified society, and for our new, universal, united, civilization. We have a long ways to go, but we are starting now, with your efforts to correct this situation by eraseing the karmic markups and karmic things and dings, that have us living in this truly awful situation on this planet, in our universe, that we are now, curently living in. One day, when all the Lesbianists are either dead, or have surrendered to my kids, we will be able to gradually educate ourselves, and change our understanding about women and girls, and about men and boys, to understand the truth about women and girls, and about men and boys, and then we will begin our new and exciting journey into our future, together, with my religion at the basis of our new, unified society, universal culture, and universal civilization.

And Children

Donations To GOd - Monastic Mode - Who Works For Me, Anyway? - Obeying Orders - Every Politician In The World To Be Executed - Every Hollywood Actor And Actoress To Be Executed - Jump Ship, Explained - Fair Warning - Particle Remis Technology And Particle Dismiss Technology - Dismend Technology And Remend Technology - Mentalcosis / Mentaltosis And Comatosis - Michael Jackson - Retractions Updated: 26-01-07 Rev.b.02.a 06:45 PST

Donations To GOd

Why can't anyone donate any thing to me? I am GOd. So, how come no one can send me a penny in the mail, or a box of cookies, or a pair of socks, or something? I don't think I'm asking for too much, but I'm just curious about why no one can send me anything in the mail?

I don't get any phone calls. No one sends me any e-mail. No one tries to visit me. I have a religion, and I'm asking people to practice it. Now, how come no one can contact me?

I once said that I am in a monastic mode, and it is a cloistered monastic mode. That means, no one can be contacted out side of my monastery by any one inside the monastery, and no one can contact any one inside the monastery, by any one outside the monastery.

If there is no legitimate monastery business then no person will be allowed to contact me, or for that matter, any one else inside my monastery, who is leading a monastic life, with me.

Well, there is only me, right now, but maybe in the future, some one will be in my cloistered monastic discipline with me, helping me with my religious duties of doing my religious ceremonies, as I've mentioned about, before.

Monastic Mode

What does my 'monastic mode' mean? It means that I am here as GOD. You know, there is only me. I of course never sent any one, such as the Lesbianists claim. Why would I? I don't need any one to do the things I need to do. That's sheer idiocy to think I would have a son or daughter, and send them to do my business. That's absurd. You've been snookered into believeing all those hogwash tales, and now you don't know who I am, and you don't have the karma to believe in me, as a result of your following and believeing all those hogwash tales. My kids are everywhere, and they are doing their jobs.

Who Works For Me, Anyway?

Now, as I've been saying, I'm going to have you do your jobs, and that is to use your genitals, and to use your body, and to use your brains, and then participate in my religion, using your genitals and your body and your brain, and sexalate with each other, and purify your karma? Does that sound like a joke to you? If it does, you are very mistaken because it is not a joke in any way, and I am absolutely serious when I say that you are going to use your 'equipment' and I almost want to call it, your 'field' equipment, because you are armed with it, day and night, and you are going to use that equipment, to clearify and erase your karmic markups, and to purify my universe. Is that okay with you? I hope it sure the hell is, as a "NO SIR!" at this point, would be an unsatisfactory reply. Do you understand me? I hope so. You are going to jump ship, as I order you to, or be thrown over board, if you have a problem with that. I hope you understand.

Well, as far as I can figure it, no one realizes that I am GOD, so no one can donate money to me. If some one realizes that I am GOD, than for the first time, that person will be allowed to donate money to me. That person will be allowed to visit me, or call me on the phone, or donate money or food to me, or practice my religious ceremonies with me, if that person believes, and understands, and realizes, that I am GOD.

Right now, there is no one who realizes or understands that I am GOD. No one of course believes I am GOD. Never the less, I am GOD, and I am sitting here, waiting for donations, to help my ministry get started.

So, that is the reason that no one can get through to me, or donate money to me, or send me a postcard with some kind of message of cheer and support in it.

There doesn't seem to be any body who believes that I am GOD. Well, that isn't surprising. People do not have the karma to believe that I exist, is one way of looking at it. They have ignored my existence, and have not had any real thoughts about me that would link them to me, in my monastic mode.

What does that mean? It means, that no one remembers me, as the guy who created all of you. It also means, that I am in a religious mode, and no one understands that, or believes that I am in a religious mode. That is peculiar, since I am giving you a religion, one of my oldest, for you to practice, that will assist you in purifying your life, and that will assist you in eraseing and clearifying your karmic markups. That's very peculiar, but it is not that peculiar, as you do not have the karma to realize and understand that I am GOD. In any case, there will be no donations, no telegrams, and no phone calls or letters to me, so long as you do not realize, understand, and then of course, believe that I am GOD. Well, any way, so it goes.

Obeying Orders

Now, I want all these people, killed. Hillary Clinton. Bill Clinton. Chelsea Clinton. Ted Kennedy. Al Gore. Tipper Gore. Harriet Gore. Cheryl Gore. Dave Gore. Bill Gore, and all people who call them selfs, Gore and pretend to be related to Al Gore, or to Tipper Gore. Mr. Al Gore has lots of friends, who are also Lesbianists, and I want them all killed. Oliver North. Monica Lewinsky. Eve Arden. Elizabeth Arden. Michael Jackson. George Bush Sr. and all other George Bushes. Do you understand what I mean? It means, that they are all Lesbianists and they are all going to die, and we are going to blow up Washington D.C., and destroy Capital Hill, and level that area, and make it sink beneath the waves of the Atlantic Ocean. That's how big a bomb I want you to make, with my fracturable rocks, to then blow that area out of the water, and make it sink below the waves of the Atlantic Ocean. You'll probably need more than one bomb.

Did you know that Washington, D.C. is lying on a fault line, deep down, and it is on an ocean shelf, that has the ocean under it, lapping at the earth, very far down. That means, that it is on a fault line, and it is on a shelf, that is hanging over the ocean's waters.

Now, if you hit Baltimore, and Maryland, and Northern Virginia, and Washington DC with a large enough bomb to blow Baltimore out of the ground, and level it, and with another bomb large enough to blow Washington DC out of the ground and level it, at the same time, and a few more bombs, large enough to blow Maryland, Virginia, and that whole metro area out of the earth, at the same time, you will sink the nation's capital, that is, Washington DC, below the ground, as it will break off the ledge that it sits on, and it will sink into the ocean, as the ledge crumbles below it. There will be water, from the Atlantic

ocean, all the way out to West Virginia.

Now. I have every right to say that, and demand this, as it is a matter of self defense, as I know these motherfuckers are eating people, cannibalizing my kids, for their amusement, thrills, and fun, and they will continue to do that UNLESS THEY ARE STOPPPED! Do you understand that?

I hope so. I am going to see the whole of Washington DC and the area leveled, with Baltimore, and Northern Virginia, and Maryland, as well, and we are going to sink that area into the ocean, and make it disappear below the surface of the waters of the Atlantic. Now, that should be clear, shouldn't it.

This is not a joke. We will have to send a lot of my children to my Epcot Center, in the blasts that will occur, and in the after math of the blasts, but that is unavoidable.

We will have many people, drowning in the waters that come in from the ocean, and that stretch out to the hills of West Virginia, with only slight outcrops of land, hills, here and there, with a few people lying on top of them, blinded and in awful pain, but they will not live long, as they will not be able to survive for long, and they will pass on, die, and then they will transel to my Epcot Center, where they can get medical relief, medical treatment, therapy counseling, and rehabilitative therapies. That is what we will do to Washington DC and vicinity, so every one, please prepare for it, and get your pain medication in order, so you can take an over dose of pain pills, when your area is blown and shredded to bits, with one or more of my fracturable rocks bombs, as I've explained about.

Every Politician In The World To Be Executed

Next, I want every politician in the world, canceled out. I want their passports for living on our planet, canceled. That means, I want you to kill each and every one of them. Not only do I want you to kill them, all, but I want you to kill every single one of their associates, around the world. They are all Lesbianists, except for a few of them. If you happen to kill one of the non Lesbianists policitians by mistake, that is okay. They have the option of surrendering to my children, available to them, and once they surrender, they will not be killed, by accident.

Every Hollywood Actor And Actoress To Be Executed

After that, I want every Hollywood actor or actoress killed, and that includes all the actors and actoresses, around the world, and they must surrender to my kids, if they wish to not get killed. There are a lot of them, who are not Lesbianists, so those I've mentioned, who I've let you know are not Lesbianists, you can forget about them, and leave them alone. There are a lot more than thirteen billion Lesbianists living under the earth's surface, in underground cities. I did not realize there were so many. We need to kill them all, so we

will, in time, unless they surrender. Is that clear, every body? I hope the answer is, "Yes, Sir!" as you had better not answer any other way, or you will get yourself on my shit list. Is that understood? Good. I am the boss of my universe, so if you do not like it, than jump overboard, now, sailor. Have you got that clear? Good.

Jump Ship, Explained

What does 'jump overboard' mean? It means you are going to have severe problems with me, if you do not obey orders, and that there will be difficulty and jail time, ahead of you, if you continue to ignore my commands to you. It means there is going to be trouble, if you do not obey me. My kids are in charge of handling all the details on that, and it is not a joke.

Fair Warning

We are not going to let these Lesbianists run their show, one more minute. We are going to put an end to them, and their activities, here on this planet, and every where else in my universe, and this is fair warning of that.

Particle Remis Technology And Particle Dismiss Technology

As I said, once before, there is a technology called particle remis technology. There is also a technology called particle dismiss. They are the technologies that you can use to feed 2.3 billion Lesbianists down under the surface of this planet, and on every other planet that they are on.

Dismend Technology And Remend Technology

It is easy to dismiss molecules, and to dismiss, or dismend all the beings who need to be dismended, and sent to my Epcot Centers. It is also easy to remend them, and then get them back into the foods that I need them to be a part of.

My kids keep track of every one who needs to be dismended, and then remended. That is a lot of work, keeping track of every one, but that allows us to dismend the living beings, and animals, that I can let off from duty, and from further service, and then send to my Epcot Centers for them to live in. I can then recall them to duty, and remend them, and then have them serve in an apple or an orange, or banana, or a brick. Do you think that is a joke? It is not a joke, and there is no joking allowed, on my shift. Do you got that? I hope so, because if you do not, you will have to learn how to swim a long ways, as it is going to be a long way from shore, after I ask you to jump over board, and I have sailors who practice, all the time, just to show the passengers how it is done, just in case. I will have you jump from ship, if you do not get along with me, and if you disagree with what I am doing, pretty soon, as we are departing, now, or just about now. That means, we are not going to play around, much longer, and we are going to set sail. That means, there are going to be a lot of

people practicing my religion, pretty soon, as they will learn about it, and they will begin practicing it.

Mentalcosis / Mentaltosis And Comatosis

Mentaltosis is the state of a vegetable, like a stalk of cellery, or a plumb, or an orange. Comatosis is the state of complete awareness of self and others. Comatosis is not brain dead, i.e., more or less, mentaltosis, with no real significant brain activities occuring, other than the ones that keep you alive, and vegetative, and you do not need assistance to remain and function in a state of mentaltosis, and the Lesbianists know it. You are severely brainally handicapped, and when you come out of it, eventually, after you have your karma fully completed for being mentaltosically ill, and after it is then time to get on to something else, you will be very brainally handicapped, and you'll be an extremely retarded person, with little to nearly no brain awareness going on about self and others, but able to walk, barely, and later, after many many lifetimes as a mentally retarded individual, you'll begin to be able to mumble a little, or babble a little, for umpteen lifetimes, as you begin to get your higher brain functions, back, which takes a very long time to work out, and many many lifetimes to work out, karmically.

Comatosis is like a hit on the head, and when you wake up, your faculties are not all working, and you may not be able to speak, or move, or talk to your friends, but mentally, you are all there.

Mentaltosis is like a train ran over your brain, and every other nervous system in your body, nearly, and you are completely unable to think, or do any thing else, and you are reduced to a mere pumping heart patient, with not much else going for you, except you are breathing, and technically, you are alive. You can sit there for a million years, or a million or so life times, before you begin to come out of it, and then reveal your disorder of severe mental disorganization, mental disfunction, and mental retardation. There is a big difference between a bonk on the head, and a train running over it, and the rest of your body. Coma patients are fully aware of what is going on around them, and they may not be able to speak, but they are there, and they can twitch a finger, now and then, or flex a toe, or raise their tummy up a tiny bit, to pass gas, usually, and relieve the bloating sensation they are experiencing in their tummy, and in their intestines, or colon. They may be able to grasp your hand, and fully hold on to it, and not let go, for hours, if they have the strength for it. This horrible torture the Lesbianists are perpetrating on comatosic patients, needs to end, now. Person responsible for continuance of hospital policies, despite our informing them of the truth regarding this, are to be shot and killed, and sent to my Epcot Center, if they interfere with the removal of the life support and life support assitive devices, that are plugged into the comatosic patients mouth, or nose, or other orifice of their body, or any part of their body. If some one refuses to cooperate, you are

to throw them out of their hospital unit, and give them a good whack on the head. Come back in a few days, and then disconnnect their life support assisitive pumps, and tubes, and so forth, and shoot them in the brain with three 'fivers', as I've explained about, and then send them on their way to my Epcot Center. That is an order. Now do it.

I want you to pull the plugs on all the GI's and civilians who are on a breathing assistance machine, and life support assistance equipment, and I want you to send them all to my Epcot Center, where they can get treatment, and therapy, and then get themselves ready for being born, again, as a fine and a healthy, tummy baby to a tummy mommy, and to tummy daddies. You had better comply, if you know what is good for you, as my kids are now keeping track of your records on this account, and you are not going to do very well, if you do not follow orders. Is that clear. I will not have any insubordination of duty on my watch, and that means, you had better learn to follow orders, or you will be asked to jump over board, and then go for a very long swim to shore.

Michael Jackson

Michael Jackson is the biggest joke in the world. He is a white boy, and he pretends to be related to Janet Jackson, a black woman, partially, and they pretend to be related, and he is as white as an elbow macaroni, or a white goose. He is not a black person, though he does have some black ancestry, but he is a primarily white person, and he pretends to have bleached his skin color, which is a crock of shit. Now, I want you to kill that mother fucker, as well as Sylvestor Stallon, and Arnold Schwarznegar, Clint Eastwood, Morgan Freeman, Kirk Douglas, Matt Damon, Robert De Niro, Anthony Hopkins, Gary Busey, and their Lesbianists' buddies.

Retractions

Mr. Jerry Springer is not a Lesbianist. I was mistaken about him, as he was already killed by them, in a previous lifetime, as he developed a desire to bad mouth them, and they didn't like him, and they kicked him out of their group, and they killed him, with their murderous torture routines. Penelope Cruz is not a Lesbianist, but she was, but they killed her, and tortured her, and she is off the list. Angelica Huston is not a Lesbianist. She was, but they killed her, after torturing her. She is a popular and prominent person, and if she hasn't been abducted yet, by the Lesbianists who will feed her to my abominant kids, like they did to Steve Irwin, and Jeff Corwin, then they will be gettting around to it, not too long from now, as they like to feed her to the abominant kids of mine, just as they do Bill Gates, and lots of other, former Lesbianists. None of the Baldwin brothers are Lesbianists, either, as they were already kicked out, and killed by them, and then grievously tortured by them. They continue to be main attractions for feeding to my abominant kids. Jack Nicholson is not a Lesbianist, now, either, but he was. Ben Affleck is not a Lesbianist, as he was also kicked out of their organization, after they tortured and killed him. Charley Sheen is not one, either, but he

was. Martin Sheen is not a Lesbianist, but he works for them, and he was one, before they kicked him out, after they tortured him, and killed him, in a previous lifetime. Michael Douglas is no longer a Lesbianist, either, as they killed him, after their brutal torturing of him. He is up for being abducted, and for being fed to the abominant kids of mine, as he is a prominent person, and Kirk Douglas enjoys watching him get eaten up, and Kirk Douglas will laugh his guts out, as he watches Michael Douglas get tortured by the Lesbianists, which Kirk Douglas is a confirmed member of. Cher Bonno is not a Lesbianist, as I was mistaken in memory, though she was a leader for a while with Oliver North, she was killed by them, after being tortured, because she was getting "soft". Sunny Bonno was a Lesbianist, as well, but he was also killed after being tortured, officially kicking him out of the members league of Lesbianists. Sunny Bonno was captured, and abducted, and a body double was placed on a coroner's table, and Cher Bonno knew that the body double who was dead, who looked like Sunny Bonno, was not Sunny Bonno. The Lesbianists subsequently fed Sunny Bonno, after they captured him off the ski slopes, to my abominant kids. Elizabeth Taylor was thrown out of the corp of Lesbianists, after they heinously tortured her, and murdered her, and the Lesbianists have her slated, scheduled, after they find a way to abduct her, for feeding her to my abominant kids. Dennis Miller is not a Lesbianist. Though he was one, after torturing him, and sushi-izing him, please see my notes on that, the Lesbianist's sushi-izing of Dennis Miller eventually killed him.

It's hard to keep track of some people, as to whether or not they are currently Lesbianists. Others, are not so hard to keep track of, and I want all of those mentioned, killed, immediately.

On Praying, Fucking, Sucking And So Forth

You are rewarded for praying Nam Myeo Ho Ren Ge Kyeo. You are also rewarded for fucking, sucking, tounging, licking, fingering, dicking or massaging your dick against a woman's bun bun, or inside of her butt hole, where there are lots of sensitivities buttons that get her clicking and eroteming and orgasming, or against her titties to get her eroteming and orgasming, and so on, and for palming or massaging a pelvital button, or the love and joy stick, the dick, or a love button or love patch, igniter switch, or whatever nerve sending touch sensitive love joy button there is embedded into your body, in the pelvis, groin, vagina, and in the musculatures of the groin, pelvis, and vagina, with the palm of your hand, and so on. You also get rewarded for throating a woman with your dick, as there are lots of love buttons in her mouth, and throat, lips, and so forth. Men also have love buttons in their lips, throats, tounges, mouths, butthole, and on their body, and those buttons also get clicking, and turning on and off, and sending sensitivities messages or signals, nerve pulses, up the eroteming nerval system and up the orgasming nerval system. You

get rewarded for dicking men and boys in the throats, and in the buttholes, and their bodies, just as you get rewarded for dicking women. There is no discrimination in this area, and every one is equally rewarded for their meritorious acts of dicking others, women, girls, men, and boys.

Why are you rewarded for praying Nam Myo Ho Ren Ge Kyeo, and for dicking, fucking, and sucking, bumbeying, or moving your vaginal bumbey package against a woman's sexaling body parts to erotemize your self, and the woman, and for breasting your titties, i.e, rubbing your titties against or flopping them against and massaging them against a woman's butty butt or against her other sexaling body parts to get you and your friend sexually erogenized i.e., sexually stimulated, erotemized, and orgasming, and for other sexaling activities that help you and your friend and friends to produce purifying sexaling energies?

You are rewarded for your praying and for your fucking, sucking, dicking, and so forth, for helping to get every thing and every body going at the right pace in synch with every thing and every body else, for every body in my universe who is working for me, to keep them moving in harmony, perfectly meshed and in synch and in a timed persuasive mosture, with each other, so as to keep my universe standing up, strong, wholesome, robust, healthy, well, and fine. You are rewarded for praying as well as for sexaling, as you help move my children along as they do their work, as you pray and as you sexal and spray out energies from eroteming, from erotistically orgasming, and from sexually orgasmically convulsing, i.e., phlumetting, while you shatter out and spray out purifying energies in all directions, that will clearify and erase your karmic markups, and the karmic markups of others, all around you, for millions and more of miles, way out beyond where you are activiating and religialing, i.e., sexaling.

Your dicking, sucking, licking, titty massaging others, and so forth, will get wonderful and wholesome, GODLY, purifying energies shooting out of your bodies, and the energies shoot out at rates of speed that also help my universe to keep synchronized, and to move along at the right pace for it to be able to stand up and remain stable and solid, durile, strong, wholesome, pure, and a nice place to live in.

Every one who works for me, has a rate of speed they work at, a life pace, or life spin. We all have a pace of life. In some cities, it is fast and hustling. In some places, it is slow and whimsical. My kids work according to a rate of speed that is metered, and they keeps every one moving as best as they can, according to this metered pace. The metered synchronized pace that my children work at the rate of is one thirty seventh and one fifth, approximately, on the metronome.

If you help to push my kids along at that rate of speed, or a rate of speed that is close to it, as you pray at a metered synchronized pace and rate of speed, and as you fuck, suck, and so forth at a metered synchronized pace and rate of speed, then you are rewarded with angel

dusts, or purifying energies faerie dusts that my kids daub on your head, and throw buckets loads of over your head and body and that they wash your insides out with and that they wash your body, inside and outside, with as they shower them all over you on the outside of your body, and all around in your body on the inside of you, which then help to clean you up and clearify your karmic markups, cleanse your karma, and purify your life, making you a shining, radiant, pure and holy being, though you may not notice at first, as we are too filthy, karmically speaking, to notice the changes, as our karma is too thick and mucky to allow us to feel the changes that are taking place in our karma and life.

I have a gradient scale for how close you keep people moving, and at what rate of speed you help to push them along, and as you help to push my kids along, so that they can do their work, you are rewarded, in accordance with my gradient scale, with more angel dusts or purifying energies for better preformance, and with less angel dusts for poorer or less effective performance. You have to do some thing that will help my kids move along at a metered pace, so that they can get their work done. Praying Nam Myeo Ho Ren Ge Kyeo sets off a time frame synch. A time frame synch is the metered click, click, click, of the metronome. This time frame synch or metered pace, that you achieve while praying, Nam Myeo Ho Ren Ge Kyeo, will help keep every one moving, at the right pace, if you pray it in a rythym and at a rate of speed that will synch up with a metronome at one thirty seventh and one fifth, approximately. Your efforts to help keep my kids working and moving at a consistent rate of speed, will get rewarded, thus for praying, Nam Myeo Ho Ren Ge Kyeo, you are rewarded, with purifying energies, that my kids dump on you.

Your efforts for fucking, sucking, licking, tounging, titty whipping or banging your titty nipple against the vagina of a woman or girl, dicking, fingering, palming, and so forth, all get rewarded, if you try to keep every thing in synch with the metered pace of the metronome at one thirty seventh and one fifth, approximately. The gradient scale also applies, of course, as you are fucking and sucking, etc., so the better the job you do of keeping your pace at one thirty seventh and one fifth, approximately, the higher your rewards will be. Your rewards are the same, more or less, for both praying and for fucking and sucking, and my kids sprinkle and dump angel dusts, purifying energies, on you as a reward. You also get markups that are meritorious, and you are rewarded with a better and happier life.

Further, when you are orgasming, and eroteming, or pushing out energies as you orgasm, and erotem, you will be pushing out energies that shoot out at consistent rates of speed. These rates of speeds of these energies are in concordance with our pace of life, they all perfectly mesh with the paces of life that my kids keep. The energies as they pass out, and push along through time and space, at synched up and consistent rates of speeds, all help to keep my kids moving along

as they do their work and tasks, and they all help to keep our universe, standing up, strong, healthy, wholesome, well, and fine.

Chaos breaks the legs off the foundation to our universe, and our universe begins to creak and moan, as it begins to crumble, slide, twist, and tumble downwardsly. Making chaotic noises, and chaotic movements, detracts from the harmonics of our universe. Your breaking glasses, and breaking skulls, and legs, and arms, are also chaotic events producing, in most cases, and they will detract from the perfect synch up of our universe, as leg bones and arm bones, skulls, fingers and toes, begin to splinter, as you apply pressures to them, you get negative markups for your actions. A record is kept of every chaotic action you take, or make, and if you make enough chaos, in your lifetime, and in your following lifetimes, then you will suffer from your poor records of performance for keeping my universe standing up, wholesome, healthy, happy, and well.

Every scream you cause to be vocated or vocalized, is recorded, and the intensity of the scream, and yell, and crying out in pain, plus a lot of other factors involved, are all recorded by my kids, and you get negative marks for that kind of performance.

The love making oooohs, and aaaahhhs you cause to be vocated, are harmonic appeals of soothing restfullness to the spirit, and to the mind, are also graded, and you are graded on how well you can cause others to produce them, and your scores are kept, and if you are a lousy performer, with more negatives than positives, you'll end up with a lousy life, as a result, as you are rewarded in accordance for your positive performance, as well as for your negative performance.

Helping to keep all of my children working in harmony, and doing their jobs and tasks, at a metered pace, will be rewarded, not only with angel dusts, but also with a better life with more positive fortune, as you recieve positive points or merit points for your collaborating with my children, and working to support them, and more fun as your life becomes graced with more positive merits and as your rewards begin to pile up, and more good things begin to go on in your life.

If you sit on the side of your chair and have a pair of drum sticks, or are using a bongo drum, or calypso drum, with the long tube belly, or stack, a long barrel tubed drum, or if you sit at your drum set, or set up your electronic drum pads, and begin pounding away, in a syncopated manner, for your pleasure, just drumming away, with no notion in mind as to any thing other than achieving a nice rythym for you and your friends to listen to, if you happen to be with friends, your merit points will be near zero, and your efforts will not rate on my gradient scale, as your actions will not be in accordance with my program for a better universe for all people, and for my kids to live and work in.

If, however, you have the attitude, "I wish to support John's kids, and syncopate myself while I'm drumming, so as to be supportive of

John's kids, to help John's kids work in a syncopated manner, doing all I can to support John's kids", then, your merit points as you drum, will go sky high, through the roof, and you'll get meritorious benefits for your efforts, or merit points, and good marks, for your efforts. It's like helping kindly old women, who are frail and in need of a helping hand and support, cross the street. If you act in a kindly and charitable manner to help support those around you, you get meritorious points for your efforts. These efforts of your's, however kindly, regrettably, though they are kindly efforts, are not the kinds of efforts that we need, my kids and me, need to keep my universe standing up, and moveing strongly. For efforts that support my kids work environment, and that lend a hand to them to help them to get their work done, your meritorious efforts marks will go through the roof, and you'll be blessed with angel dusts, i.e., purifying energies that help to clean up your karma, and erase and clearify your karmic markups, or marks that record your bad and cruel, or negative actions towards others, and towards your self. You can kill your self, and cause grief to others, as a result of your departure, to my Epcot Center, and that rates negative marks and negative points markings or markups for you.

When you try to do any thing, that will help to syncopate my children, and to make my children's working environement more syncopated, and rythmical, with your concentrated mind, and determination to make that a reality, in other words, a prayerful attitude in mind, hoping to make John's children's working environments syncopated, and rythmical, and in rythym with every one elses', i.e., all of my other kids' syncopated working environements, then with that attitude of hopefulness, or a prayerful attitude, than, you are rewarded for your efforts, and determination, and as you drum away, or pound and beat on your calypso drum, or on your metal Bahamian or Tinian, or Haitian, or Jamaican, drums, or on your dresser drawers, if your mom does not mind, as you pound away, keeping your mind set on your determination to keep all of my kids working in unison with each other, and helping them to keep in syncopated harmony, all in perfect flux, and perfectly meshed in timing, with every one else, as they work for me, then your rewards and positive points markups, will be very high, and you'll be rewarded by my children, with angel dusts that they daub on your forehead, and dump all over you, from their barrels they carry full of angel dusts, or purifying energies to clearify your markups from your karmic markup piles, kept inside of your body, kept in storage in the molecules.

If you listen to music that is syncopated to the timing of one thirty seventh and one fifth on the metronome, or closely syncopated to it, you will be rewarded for merely listening to it, and you'll receive faerie and angel dusts, purifying energies, as my kids daub them on your head, and spray them all over you, inside and out.

Your markups are inside the molecules inside your body, but they are also out side of your body, in every molecule, nearly, going way out

to the very farthest edges of my universe. We will eventually get to all of them, and purify or clearify and erase all of your karmic markups, the notations and records that my kids keep on you, and on your activities, and eventually, we'll get them all, and your life will then be full of grace and happiness. It will be a long time before we get to all of them, as you and I and every one in my universe, have been here, and enormous length of time.

As you drum, or skip, or dance, or do areobics, in syncopation, with the attitude that you want to keep all of John's kids in step, and in synch, and in unison and harmonicly meshed and in perfect flux with each other, or perfectly meshing with each other, and every one else who works for me, whether you drum, skip, dance, or do areobics, it does not matter, if your mind is set and determined to help my kids, with your efforts, you will be rewarded for your efforts, no matter whether you skip, jump rope, dance, or areobically excercise.

As you sexalate, if you keep in your mind that you wish to keep all of John's kids in syncopated harmony, perfectly in flux, and in unison, just as when you are drumming, or skipping rope, or dancing, or playing basketball, or playing tennis, or badminton, or any sport, with your movements all timed, and in perfect syncopation, when you sexal with the right attitude to keep John's kids in synch, perfectly meshed in perfect accordance and flux, with each other, and with every one else, you will be rewarded grandurally, that is, grandly, or in a grand or very great manner.

Excercising And Activiating To Music Timed To One Thirty Seventh On The Metronome

Music timed to one thirty seventh on the metronome, and one fifth, or as close to one thirty seventh on the metronome that you can get, is okay, and it will help you to dance, play tennis, play sports, do areobic excercises, and other types of activities, at that pace that we need to keep to help keep my kids working smoothly, and you'll be graded on your performance, and on your attitude while you are dancing, or excercising, and the more intently you concentrate and use your mental energies and mental control to stay in synch, and in step, the better will your scores be, and the higher your marks, and the greater your rewards of purifying angel dusts and purifying energies that my working and unionized kids will pour and spread all about you, inside and out, and all over you.

Sexaling itself is a religious act. Yes. That's true. But, if you sexalate with this powerful prayerful attitude, or hope in mind, with your determined mind, and your concentrated mind, as you sexalate, and help others to sexalate, and help others to erotem, orgasm, phlumett, and shatter off wonderful energies from orgasming, eroteming, and phlumetting, your positive points and merit marks, and many other types of scores my kids keep on your efforts and behavior, all of them will go higher than any one can see, way out beyond the furthest galaxy that you can possibly see from your bedroom window, with your

telescope. They'll go out to the futhest edges of my current univerese, and even beyond the barrier walls, holding up our universe, that my kids put in, to keep our universe standing up, stable, strong, and durile or durable and with tensile integrity.

Any action for helping my kids do their work, syncopated, and in unison, and in harmony, will be rewarded, with angel dusts, and with positive marks and score points in your records that we keep on you and every one else in my universe. Your sexaling actions get rewarded, far more than any other activityating, as your sexaling actions are the most needed actions, to keep my universe, pure, durile, holy, sacred, free from negativities, healthy, wholesome, stable, and constantly in a state of improvementing.

Most people go around destroying things, and causing chaos. We, my kids and I, need people who are going to help improve the wonderfulness of our, my, yours, my kids, and all of my other kids, wether they work for me, or not, meaning, all of my guppies, who are like you, my relatively normal kids, as well as all of my abnormal kids, the abominants kids I've got, that go around thinking it is funny to eat people, and to pull them into their mouths, and crush them in miserable pain and agony, like my elephants abominants kids do to relatively normal human beings kids of mine.

Fisting And Punching People With Your Clenched Hands And Crasping Or Clasped Knuckles

You all have been bad kids, all of my guppies, all of you who do not work for me and go around thinking, 'Oh, gee. Aren't I special.' My guppies are these minded people, who are arrogant, who talk back to their mama's and to their papa's, and to their relatives, and brothers and sisters, and to their friends in school, and to their teachers. Later in life, they become worse, and they talk back with their actions of being mean to each other. As my guppies grow older, and become older people, they start fisting others, and that means, punching people, hitting them with their clenched fists and hard knuckles, and hurting them when they pound on their face, or on their stomach, or on their body some where, and break bones, and tear muscles, and stretch ligaments with their pounding each other.

Phlooching Out And Fisting The Vaginal Cavity, Rectal Cavity, And Mouthal Cavity

Fisting is a word used by some people to mean, to insert your hand into the vagina of a woman, and gay people, homosexually driven people, fist each other in the butt hole, if either men or women, or in the vagina, if women. Some people find it interesting to fist each other in the mouth, by sticking their fist inside the mouth of a person, pretending it is a dick or a dildoe. You need to phlooch out the neck muscles, and billow them up, or poof them up and out, and that will help them to gently relax, and then become expandable or stretchable, as when they relax, they will easily stretcth out, and

there will be some give, or freedom of expandingness. The neck muscles then become easy to stretch and push on from the inside with out hurting the person. It then is easy to insert your fist into the throat, to massage the inside of the throat, and to use your hand, or fist, to tickle the igniters, and triggers that set off love buttons and bells, and whistles, that help women and men to erotem, orgasm, and phlumett.

Fisting by inserting your fist into the vagina of a woman, when it is relaxed, and after you've massaged if for many hours, and after it begins to billow out, or poof out, and then open wide, and then you can see inside of it, and from the entrance of the vagina, there is a clear gaping cavity, you can then insert your clenched fist hand into, to massage the inside of the vaginal cavity. Doing this is very nice, and is very exciting to do, to help women and girls to erotem, orgasm, and phlumett. You can phlooch out the butt hole, by massaging it, for several hours, and it will begin to poof out, and expand, and you'll see a nanny gate face on it, and that means, it will begin to look a little bit like a vulva, or the vagina of a woman or girl when at rest, or exposed between a woman's or girl's legs as she is sitting or relaxed with no panties on or with no or few clothes on and nothing covering her hips, pelvis, lower pelvis, pelvital ridge, crotch and groin, butt and butthole and lower back, there by exposing her butt and vagina. If you compare a vagina with a phlooched out butthole, you will see they resemble each other, slightly. There is no vaginal cleavage of course, around the butthole, but there is a slight resemblence between a phlooched out butt hole, and a vagina, or vulva, none the less.

The Vagina And Vulva Compared To The 'Nanny Gated' Butthole

What is the difference between a vagina and a vulva? They are more or less the same, but the vagina includes lots of parts, inside as well as out side. The vulva is outside, basically, only, as far as I understand and remember these things, now. When you massage a butthole, long enough, it will begin to look like a vulva, or vaginal face. That's called the nanny gate, or on the male, the male butthole vagina, as I've spoken about it, before. On the woman, it is the female butthole vagina, a double 'immitation vagina' for the real one, as I've mentioned. Men's and women's buttholes are the same, and they both look like 'immitation vaginas' as I've also mentioned, after you phlooch out the butt hole of either the female or of the male. Once you phlooch out the butthole of a man or of a woman, it will poof out, and expand, and the butthole entrance and cavity will become relaxed, and easy to insert your clenched fist into, to then push up your fist into the butthole cavity, and massage it, once the person has cleaned out the butt hole cavity and once it is clear and free from debris matter, or food matter, and rotting food particles, and fleshy foods, or hamburger meat and so on. Phlooching out the vaginal caivity takes a little longer, but with patience, you can phlooch it out, and then fist, in this manner. If you phlooch out the butt hole, and rectal

cavity, you can fist your male friends, and your female friends, and every one, once they have cleaned out their poop hole, and made it free from rotting debris, will enjoy mutual, and reciprocal, fisting. Fisting in this way, for sexaling, is alright. Fisting in the other way, for beating people up, is not nice, and you are given poor marks for your actions of nautyness, meaness, and cruelty towards others.

Over the long course of time, you all have been naughty at one time or another. I have many ways to fix you, and to retrain you, and to rehabilitate you, but you always go bad, and sour, again, as that is your main drive, or driving internal force in your lives.

The Importance Of Kindlyness And Teamwork

Why have all of my guppie kids all gone south, or in other words, gone down the road towards unkindlyness? Because, as I've explained, you forgot what the Love Of GOD is. My religion will help people to understand what the Love Of GOD is, and that will help keep them on the correct path of kindly actions towards others, and it will help them to understand and remember that teamwork to help my working, unionized kids to keep our universe healthy, strong, durile, standing up, stable, a safe and happy place to live, and a wonderful place to live, is very important.

Doing things that support my kids working efforts, will be rewarded, and doing things that detract from the harmony and syncopation of the metered pace of my kids who are working, and that slows them down, and that causes dischordance, will not be favorably rewarded, and you'll become a female schmuck, or a male schmuck over the length of time, as you live on in my universe. A schmuck is an unlikeable person. Sexaling is the most important thing there is for us to do, other than feeding ourselves correctly to keep us healthy, and excercising, and leading a balanced, well regulated life, listening to your mama and to your papa. My religion is based on sexaling, as sexaling is the most holy and pure activity we can participate in, or do by ourselves.

All the bullshit propaganda of the Lesbianists, that Jesus said this, and that Buddha said this, and that God will save you if you do this, and so forth, is pure balooney, bullshit, and made up nonsense. I, GOD, will not do any thing for any body, unless you help me and my children to make this universe, a more kindly, and a more wonderful and prosperous universe for all of us. If you do, I will have my kids, bless you with angle dusts as they daub them on your forehead, and then pour barrels of angel dusts over you, as they dump barrels full over your head and body, for your extra good work, sexaling, in syncopation, with my kids working rythyms, and in rythym with their syncopations, flux, and their phenomenal elegance.

Phenomenal Elegance

What is phenomenal elegance? It is their keeping harmony with each other as they work and keep every thing in order, in my universe for

me, GOD.

You can not escape from this reality of your good actions and your bad actions being recorded, as my kids keep records on every one, and we make certain every one is rewarded for their good actions, and we make certain that every one recieves as close to what they deserve, to help balance things out, in accordance with their markups, for their bad actions. If they are bad, they will not meet nice people, and they will meet naughty people, and not so nice things may begin to happen between them. If they are good, and if they try to help my kids, as I've explained about, they will get rewarded, and they will slowly begin to break away from keeping company with bad people, and they will gradually ascend to higher rankings or status, and then they will begin to lead a better life, and they will begin to escape from meeting with bad people, and the good kids' lives will become blessed by my kids, as my kids begin to sprinkle angel dusts on the good kids, and daub the heads of the good kids with purifying energies, and then dump purifying energies all over the bodies of the good kids who listen to their mama's and papa's, and sexal with them, and as they sexal with their mama's and papa's, and sisters and brothers, relatives, neighbors, and others, the good kids help my kids keep this universe running smoothly, in harmony, in flux, perfectly meshed, and in perfect syncopation. Mama's, papa's, sisters, brothers, relatives, neighbors, and others, all get their heads blessed with angel dusts, purifying energies, for their good actions along with the good kids, you, I hope, of course, too.

Plurlbalescent / Plurablescent Nature Of Negative Punishments And Positive Rewards

This is very important for every body to understand. I have my working, unionized kids reward the good people, and I have my working, unionized kids keep records on every action of every one of you, and I have my kids make sure the bad kids, meet with what they deserve, or some thing close to it, which may not be too nice, most of the time, and I have my kids make sure that the good kids, all meet with what they deserve, or something close to it, and that is usually always something nice. It may sometimes not be something conspicuously nice, but it is nice, usually, or positive in nature, always. The bad kids will get rewarded by something that is negative in nature, always, usually, or plurlbalescent. What does plurlbalescent mean? It means, it might not be noticably negative, but it is still negative, in nature, in essence. This is a topic we can discuss, another time, or you can ask my kids for more information on it, when you go in and visit them, with your mama's and papa's, sisters and brothers, relatives, school teachers, principal, costodians, janitors, school workers, and others.

We have had too much chaos of late, and for quite some time, and it is now time to slow it, and bring it to a halt. We are going to produce positive harmonic concordances that will assist my kids as they work,

and that will help them to stay working in harmony with each other, with your fucking, sucking, eroteming, orgasming, your shooting out of purifying energies as you orgasm, and erotem, and with the increase of the oooohs, and aaaahs, you help to produce, with your practice of my religion.

We have to bring an end to the moronic violence of the Lesbianists. If that requires a lot of my children, making lots of babies, and lots of energies, and percussive forces, when you set off a fracturable rock bomb, then that is what it will take, as you blow Washington DC and the Baltimore metro area off its ocean ledge, and into the Atlantic, with that fracturable rock bomb, if it is big enough. Yes, there will be lots of painful, ouches, and screams, and so forth, but it is trite, compared to the violence these idiots have been perpetrating, over the long span of time that they have been in my universe.

We have been here for a very long time. It is nearly impossible to figure out how long, other than with mathmatical computations. Our brains will burn out, if we try to figure it out in our heads. It does not matter how long we have been here. It does matter what we do while we are here. You are not going any where else, and you are all staying in my universe, so you will all drop your pants, and your dresses, remove your shoes, socks, clothes, underwares, panty hosees, and panties, disrobe, and begin helping others to make lots of ooohs, and aaaahs, and lots of eroteming and orgasming energies. That will be the begining of your getting into line with the rest of us, here in my universe, my kids who work for me. As you eroto with each other, you'll get graded on your performance, and you'll get paid by my kids, once you join our country, as I've explained about, before.

Timed Persuasive Mosture

What is a timed persuasive mosture? It is just keeping every body in synch with each other, persuasively and accurately moving along, orderly, in an ordered fashion or manner, and with every body in rythm and syncopated with each other.

Mosture is a type of motus, or motion or fluidity of movement. The timed fluidity or fluidness of my kids working along in synch with each other, is critical to having every thing in my universe, standing up and sturdy, with every thing holding together, as it should be. Otherwise, if my kids and their work get out of synch, things can come crashing down, and things can come falling apart, and we do not want that.

This is a big universe, and we have a lot of people in it, my kids, and you wouldn't believe how many kids I have. Anyway, they all have to stay in syncopated, fluid motion, with their paces of life perfectly meshing with each other's paces of life, to accomplish their jobs and tasks, in an orderly, and in a fluid movement, harmoniously, and without delays.

The persuasiveness is accomplished with the help of your sexaling, and by your keeping pace, and synching your sexaling activities, and the movements involved in your sexaling activities, and by your spraying out your energies, as you erotem, orgasm, and phlumett. The persuasiveness is also accomplished by your keeping pace in unison with others while you are praying the syncopated phrase, Nam Myeo Ho Ren Ge Kyeo.

Every thing is timed, and so as you activiate, or carry out these activities of sexaling, eroteming, orgasming, phlumetting, as well as the movements involved in sexaling, and as you pray, your synching of your movements and sounds in time and in pace with the syncopated and metered metronome click, click, click, at the timed pace of one thirty seventh and one fifth, on the metronome, approximately, helps to persuasively move, or persuasively drive and push, every body about, and along, as they do their work for me, in their many syncopated paces of life, or life spins. I have many children working at different life spins, as I've mentioned before, and each group of them has a different pace of life, or time spin. Your activiating, as explained, helps drive them along, each at their own pace of life, or time spin, perfectly meshed with every other child of mine, also in his or her, and at his or her own particular time rate of speed, time spin, life spin, or, pace of life.

Every one and every thing must move along in perfect flux, or perfectly meshed with every body, and with every thing that is going on in my universe, on every possible level. There are many levels where activities are going on, and many people are working at different life spins. Every one, no matter what level they are on, and at no matter what life spin they are living at, must stay in flux, perfectly meshed and in perfect harmony, perfectly syncopated with every one, else.

You are rewarded for your helping to move my kids along, in perfect flux perfectly meshing with every one and with every thing that is going on in my universe, with your efforts at sexaling, and with your praying, as explained, earlier.

In our new society, which we will create, you will score earning points, and every thing you do, as you sexal, and so forth, and as you pray, is scored, and a record of your capabilities, or excellence, or lack of excellence, is kept. You are paid according to your work performance, as you sexal, activiate, pray, erotem, orgasm, and phlumett. Also, you are graded on how well you get along with others, and on how well you try to harmonize and then sexalate with others. You score earning points, accordingly, and you get paid, according to how well you perform.

Keeping Every Thing And Everybody In Harmony And In Synch

Explaining how this works, how praying, fucking, sucking, dicking and hugging, etc., helps keep every thing in synch and in harmony and how your efforts are rewarded, is a tiny bit more complicated than my

simple explanation, but that is it in a peanut shell.

For those Lesbianists hiding among you who do not wish to surrender, you Lesbianists will find we are not going to be acting kindly towards you. All of you Lesbianists, where ever you are in Washington DC, or hiding underground, or in Paris, or in Rome, Peking, and so forth, you will be dealt with harshly, as we need to put a stop to your activities, and a "maybe" is not acceptable in this case. We are not going to allow you to continue your chaotic, nonsensical, violent activities one moment longer, and we will blow you up flying high up into the sky, and off the ocean ledge down below you, in Washington DC, as we sink your Washington DC area into the ocean, along with all of Northern Virginia, and the ocean coastal area of Maryland and Baltimore, along with large parts of the states of Virginia and Maryland, out to West Virginia, as that area settles down into and below the waves of the Atlantic Ocean, after we bomb it with one or more of my fracturable rocks weapons for mass removal of Lesbianists from the face of the earth and from their hiding places under the surface of the earth. The Lesbianists in the Washington metro area and hiding under it, had all better surrender to my kids, or they will all get their pants and clothes blown off and shredded from their bodies, if they do not, as they are given a free ride out and up into the upper atmospheres of our planet, and then, beyond. All other Lesbianists had better surrender, too, or they risk getting a free ride out, as well.

Deep Sea Ocean Trench Off The East Coast Of The United States

There is a trench that extends south wards from Washington DC, some times reaching 25 miles out in some places, and in other places, it reaches out to eight hundred miles from the shore. In the north, it reaches out in some places, 85 miles out to one hundred and twenty five miles out, to three hundred and fifty five miles out, to eight hundred miles out in some places, in the south.

It is fifteen miles deep when you go out forty five miles off the coast from Washington DC and from the Chesapeak Bay. The ledge bottom is found about three and one half miles down, and the mouth of the opening continues for ten miles, approximately, downwardsly, on the western side of the trench. The It has a gaping mouth, and it opens up and lets ocean water inland, under the continent, eighty five miles down below Washinton DC, three to six to eight miles wide, from top to bottom, from the underside of the top of the mouth, the bottom of the ledge, to the bottom of the mouth. From under the nation's capital, to the south, it travels to over eight hundred and eighty five miles. To the north, it travels three hundred and thirty five miles, to six hundred and fifty miles, to about nine hundred and fifty nine miles, inland under the continent, depending on where you wish to locate the edge of it under the continent, northwardsly. It travels to the west, inland, three hundred and thirty five miles, to just over eight hundred miles, depending on where you find the edge of it. It travels

inland further westardsly, the further you travel north. It is slightly over one thousand and eight hundred miles from north to south, in total, as you'll discover, once you explode enough, and after you explode large enough fracturable rock bombs, over Northern Virginia, Maryland, Washington DC, Baltimore, covering the metro area vicinity.

The U.S. Navy, and the U.S. Coastguard know about the trench, or parts of it. They are not allowed to discuss it with anyone. No one is allowed out there, to research it as it is off limits to just about every one. Some navy personel of high rank, and coast guard personel of high rank, are allowed out to take soundings, every now and then, with their Lesbianists' staff members, and Lesbianists' personel in the Navy, and in the Coast Guard. The Soviets, at least, Boris Yeltzin, Vladmir Putin, Mikhael Gorbachev, and Zelda Gorbachev, know about it, and so do all the other Lesbianists. They can confirm it, if they wish to play ball with me, and if they wish to save their asses, after they decide to surrender to my children.

The Shelfs Systems And Trenches Systems

The shelf estends to under Lexington Kentucky, at about ten miles below it. It is five miles up under Chatanooga Kentucky. It is five miles below Washington D.C., in some areas. It is three miles below Baltimore Maryland, in some parts of the city. It is eight miles up below Pittsburg, Pennsylvania. It is fifty five miles up below, or under, West Chesterfield, New York. It comes up to eighteen to thirty miles below McLean Virgina. It is eighty eight miles below Norfolk, and the mouth, downwardsly, is five to ten to fifteen miles wide open, in a downwardsly direction. It some areas, it can be found below Ohio, and under Indiana. It crosses under the West of Kentucky, and into the south of Illinoise, five to ten, to thirty miles. It is a variegated trench system. It extends to Tennissee, parts of North Carolina, Mississippi, Alabama, Georgia, South Carolina, and to under parts of Northern and Western Florida, and is open out and into the Gulf of Mexico. The whole area of Eastern U.S.A., is sitting on an open shelf, trench system, and there is water passing below it, and out into the gulf, in several areas, over to eighty five miles west of Corpus Cristi, Glen Garden, population eight hundred and fifty, which south of Galveston, and north of Corpus Cristi, between the two cities. There is a mouth eigty five miles south of Tampa Bay, Florida, in the Gulf of Mexico. There are several openings or mouths to the underground fault line system, and deep sea ocean trench system, and shelfs systems, and water is passing from the Atlantic to the Gulf of Mexico. There is also a trench system in the north, under Niagra, that extends southwards, several hundred miles, and it has many branches to it, and it extends into this system of shelfs, trenches, and under continental water flows.

Side Bender Currents

What is a side bender? It is a current comeing out of the mouth of an opening, from under a continental shelf system, that allows waters to flow out. As the water flows out of the mouth, the outlet current of water, it flows very forcefully in an outwardsly direction, and it pushes the water out with great force, generally. If a submarine is traveling in the vicinity of a side bender, the submarine may get hit broadside, and that will often turn the submarine topsy turvy, and around facing the opposite direction it was traveling in, or another direction, not the one it was traveling in, most often. The crew will get swung about inside the submarine, and they will fly through the cabin, and pounce off the floor to the ceiling, and hit the ceiling, and then hit the sides of the corridor they were walking along in, and finally end up on the floor when the submarine rights itself, with its balast, and you'll get many sprained or stretched ligaments, and broken bones, arms, wrists, fingers, legs, knees, ankles, feet, toes, necks, backs, hips, spinal injuries, and other injuries. It can leave a crew of a submarine nearly one hundred percent, injured and in a ship's hospital, or a Navy or military hospital for recovery. Side benders are often called upwellings of currents by the Navy, but that is not generally the case as they are not upwellings, but they are side pushing currents, that come flowing out from under continental water flow openings, horizontally. There may be some upwards lift involved, if there is a reason, such as a mouth is angled at a slight sloping angle, as it releases the flowing waters out from its tube like cavity or hole.

Crew members and military passengers of Naval submarine vessels are generally told not to talk or discuss any thing about side benders with non Navy persons, and with persons unrelated to their ship or unrelated to their ships voyage, as the governments of the world, do not want any one to find out about side benders, and they do not want people, geologists, marine geologists, undersea deep sea ocean studies researchers, or others, to research and investigate side benders. It's a big secret, these side benders, and that's what the marines, and the navy personel are sworn to keep, or face a fireing squad, on insubordination, or on some trumped up charge of spreading naval secrets, acting as a foreign spy and receiving money, or something like that. Naval personel will generally obey orders, and not discuss side benders, or other 'secret' information, with any one, as they risk losing their job, and they might face a fireing squad, or a hanging patrol, sometimes called a marching platoon, or a hanging platoon, a group of soldiers commissioned to carry out orders to hang some one who is in the military. If you pay a naval officer or enlisted person, or other person with Naval submarine duty, such as some marines, and others, enough money, they may be willing to share some information on side benders, and information about what they know about side benders. Some persons who have had Naval submarine duty, may genuinely not know any thing, such as crew members who are never assigned to submarines that travel near side benders, on a regular basis. Some times family members of enlisted persons and of Naval officers, are allowed to travel on submarines, for fun and excitement,

as a special reward for their papa's or mama's duty on a submarine. Some of these family members have also had some experience with side benders, such as those who have traveled on submarines along the Marianna's trench, or other trenches, not listed, neccessarily on global maps, but none the less, which are there, and that are near shelfs systems under sunken continental shelfs, or under sunken continents, but that eject streams of water, nonetheless.

Our maps and globes of the world are incorrect, the ones we buy through bookstores, or from map publishers, as nothing that would indicate sunken continents, large sunken islands, and related trenches, or other related features, are not going to be indicated on them. The Lesbianists do not want you to find out information that could provoke you into researching, under water features, that they do not want you to know about, as your fictious understanding they have taught you, of the surface of this planet, and its history, is bogus, and any thing that would conflict with that, is certainly not going to be indicated on a map they would publish, and the map will be wiped clean of all traces of any thing that conflicts with the 'global' history of the earth, as the Lesbianists teach it, in geology courses for high school students, and below, and above. The global geological history they teach must coincide with their fictious propaganda about Adam and Eve, and "Lucy" the ape woman, the supposed mother of all people living on this planet, and about this earth being only 9 billion years old, or thereabouts, which is a bold faced lie, and other such bullshit notions they have fed every one to swallow, and have forced them to accept, and that they force people to use as primal notions to base scientific research on. The geology of our planet is much more complex than the Lesbianists are letting on to, and there is much to learn about planetary geology, as these planets have been around a very long time, and many things have happened, over and over again to them, and many things have happened to our 'solar systems', and star formations, and star systems, that people need to know more about, to get a realisitic understanding of our universe, its history, and its many complexities. In time, we will learn much more about all these things, and you can attend courses that my children have set up for every one, to teach people about our universe. You need a day pass to visit, as I've explained about, before, and then you should swear in, and become a citizen of our country. We have yet to declare this planet ours, but in time, we will, once we have finished and put an end to the problems associated with the Lesbianists, all of their shenanigans, and their malarkying around. One day we will declare this planet ours, and my kids will take charge of everything, and they will appoint people to posts of duty, and to positions of responsibilities.

Making A Large Swimming Pool

People should begin moving off and out of the area, around the Nation's capital, Virginia, Maryland, Pennsylvania, West Virginia, and North Carolina. We'll have a big swimming pool there, with lots of,

mostly uninhabited, tiny islets, or hill tops and mountain tops, after all of the current residents die, and pass on and transel over to my Epcot Center, after one of our compatriots, or groups of them, detonate enough of my fracturable rock bombs. People will have to watch out for hungry sharks, after they swim inland, above the sunken landscape, looking for corpses to eat, and to scavenge, as lots of Lesbianists' corpses will come floating up from underground hangouts and cities of the Lesbianists, under those parts of the U.S., and from under the Gulf of Mexico, from under the sea floors of the Atlantic, from under the Niagra trench systems, and from under other trench systems in the Eastern U.S. This is not a joke, by the way.

Stagnasis

Salts kiddies in stagnasis is when the salts kiddies are in their salts kiddies crystals cages, in a hibernative state, in perfect equilibrium, to keep them alive and well, for as long as possible. Salts kiddies crystals cages sciences help you to understand many things about how things work in nature. Please read over my notes on my bulletin board.

Black Powder 'String' Fuses

Take a spool of sewing thread, and use Elmer's glue to coat the string, and run the string with a thin layer of Elmer's glue coated on it, through a bucket of black powder gun powder, which you can order in the mail, over the internet, or pick up at an antique musket or old style 'cap and ball' musket rifles and pistols retail stores.

Elmer's glue and gunpowder will combine to form a minor plastiques explosive, after the salts kiddies mix it up, eat each other up, pee and poop out lots of stuff that is highly explosive, as they get busy making babies, except when gunpowder is used in large quantities with Elmer's glue, to form a major plastiques explosive. Benzine will help this along, with diesel fuels, as well, and with chlorine, we can see some major plastiques explosives in the making, as mama's and papa's begin making lots of children, as they begin mixing it up, and as they all begin pooping and peeing out body fluids that is food for others, that will contribute to the powerfulness and explosiveness of the mixture.

After you make your string fuse, and let it dry out for a couple of weeks, then coat a rag or muslim cloth in oil, or grease, or a mixture of turpentine, gasoline, diesel fuel, and grease, with benzine, and make a paste, and use that paste to coat a thin cloth, such as a muslim cloth, and then let that set and dry for a few days, and then wrap a few sets of 'string fuses' together in a bundle, and place them inside the cloth. It will become a very powerful explosive, in itself, the more gun powder you use with it.

Test it, to see how fast it burns once it is wrapped in a cloth coated with a mixture of grease and fuels. The thicker the grease, the slower

it will burn. The thinner the grease mixture, by adding more turpentine, or benzine, or paint thinner, the more rapidly the fuse will burn. You will have a very powerful explosives cocktail, with this mixture, so be careful. You have to be very careful with what you combine, as you'll be bringing together very explosive elements, when you mix these fuels and liquids together with gun powder on a string.

A few string fuses, wrapped in a well soaked cloth, with a mixture of these liquids and the axel grease, will make a type of plastique explosive, that can be used as a shape charge, or a mouldable, or shapeable, explosive, that is good for blowing doors off hinges, such as at pharmacies, or banks, and for blowing locks on private homes' fences to pieces, such as can be found at the White House, at 1600 Pennsylvania Ave. Washington, D.C., at the entrances and exits gates of the White House where guards are on constant duty patroling the area for security purposes. An initial explosive, a detonated fracturable rocks bomb, small in size, may cause a concusive force to cause the guards to black out, and pass out, and then sleep for a while. Be very careful with the size of the bomb, as we do not want to level the homes and buildings surrounding the White House, or across from it in Layfayette Park. After you put them to sleep, with your initial blast, you can test the shape charge on the nearby fences, at the White House.

Black Powder 'Cap And Ball' Pistols

Most black powder cap and ball pistols and rifles, muskets, sellers and retail outlets can be found on the internet, and some gun shops carry black powder, as well as the detonating fireing caps, for black powder rifles, and pistols. Many of them do, and you can purchase the black powder and copper detonating, ignition caps, for useing in your cap and ball pistol, or musket, or other, more modern, hunting rifle, that allows you to use black powder, and detonating copper caps that slip on a small round fireing ignition nipple that is made out of steel, and has a hole in it, to allow the percussive explosives in the firing copper igniting cap to ignite on impact with the hammer on the weapon, when it slams down on it, and the flames from the igniting explosives mixture, glued to the inside of the firing copper cap, then ignite the black powder, that was rammed down the barrel, or packed and tamped down in a cylinder of a percusive black powder cap and ball pistol. The caps are fairly useless, unless you wish to add them to a fuel oils, chlorine formula, and let them sit in the fuel oils mixture, and that will help develop plastique, as well.

Higher Temperatures Develop More Useful Energies For Making Babies

The copper in the cap will also allow for a higher temperature in burning, when the fuels mixture ferments after a few weeks. Magnesium in the cap as well, will also help to raise the burning temperature of the fuels mixture, and with some black powder added, and with some chlorine added, your plastiques recipe will become even more useful. These higher temperatures will help to produce energies that will be

conducive to baby making among the fracturable, or rupturable, and percussive, rocks radiological salts kiddies. You can then add a handful or more of powderized amethysts, or turquoise, that you can purchase in bulk, on Ebay, for some small bulk quantities, and also emeralds are useful, as they all have fracturable rocks kiddies embedded in them, and fast asleep, in stagnasis.

Zircon Diamonds, And Other "Radio Active" Gem Stones, Etc.

Zirconium is a mineral that they use for the fake diamonds they sell with the trade name, Zircon diamonds, or Zirconium diamonds. You can powderize them, and use them for a good amount of fracturable rocks explosives, large and fast family making, salts kiddies, for a 'nuclear' party, and a send off to the eastern coast of the United States, before it is blown off the coastal ledge it sits upon, and then sinks below the ocean waves, if you strike it hard enough, with one or more of my fracturable rocks babies making, "nuclear" salts kiddies bombs. You'll need a few handfuls of Zicon diamonds, powderized, to make a nice fracturable rocks, babies making bomb. You can mix turquoise, emeralds that are mined and sold in bulk quantities on Ebay, amethyst, and the other rocks that I've mentioned, along with powderized 'sand' from the beach. Argentina, and Venezuela, Baha, and Southern California are good places to collect useful sands, full of fracturable rocks, salts kiddies, that a geiger counter will detect, if it is a sensitive enough geiger counter.

Geiger Counters And Their Usefulness

They are not too hard to build, but you will have to look in your Popular Mechanics magazines, for the details on how to build a "geiger counter". Some mining stores, and mining outfitters stores, may be a useful places to order or purchase a geiger counter, if you are on a family budget. You might find one on the cheap, on Ebay, that is still useable.

There are some kits available, if you look hard enough, to use to build your own geiger counter. A mining outfitters store, in South America, or in Central America, or in Utah, or in Nevada, may be able to help you locate a kit, to put together, if you go in there, and pretend you want to go out and look for interesting rocks, and you need some information on where to look for interesting rocks, so go to a mining outfitters store, or to a rock hounding club, or rock hounding retail store, for looking at beautiful stones that rock collectors, or rock hounds, have found, and made available at the store. Usually the store owner will have his or her suppliers, on name cards, and you can get in touch with them to get more information on where to look for interesting rocks to test with your geiger counter, since you are facinated by radioactive elements in rocks, and you are interested in finding some, for a collection you wish to start.

You might want to pick up some primer books, on minerals and rocks, gems, and gemstones, from Amazon online, or from a local book store,

such as Barnes and Nobel book store, which has a few useful books on rocks, mineral rocks, gems, and gemstones, that you can find when you are out rock hounding. Desert Outfitters in Las Vegas, a miner's outfitters store, that also provides useful tools to rock collectors, such as rock hammers, and hand held pick hammers, for chipping away at rocks, to see what is under the surface of the rock, or under the peel of it, the outer layer, as well as terrain maps, and outfitting supplies, tents, and sleeping bags, and so forth, has these types of books, and lots of maps, and maybe they can help you find useful kits to purchase, to build yourself a geiger counter. They also sell geiger counters for about three hundred and fifty dollars or so. Sears used to sell Geiger Counters, and they still can order them for you, I think, through their catalogs. On Ebay, you can find many reasonably priced Geiger Counters. How well the geiger counters work, the ones people sell on Ebay, I can't say, so you'll have to talk with sellers, and see what they say about the geiger counters they are selling to others on Ebay, or read about them in old copies of popular mechanics, and in trade publications for the mining industry.

Novice And Amateur 'Rock Hounding' Rock Collectors Clubs

On Sahara, east of Las Vegas Boulevard, there is a rock shop, which is about two and one half, or so, blocks down from the intersection, on the north side of the street, and they have information, as well as lots of primer books, on rocks, and on geiger counters, and where you can find them. They are well connected to the local rock and gem, minerals and gems finding, or rock hounding clubs. You can meet their members, and go out with them, on excursions, as they know where to find just about anything.

There are similar clubs in every major city, and in lots of smaller cities. Mining towns of course have lots of mining outfitters stores, and they probably have geiger counters for sale, so you can use it to find some very nice, fracturable rocks, along coastlines, or in ancient dry lakes and seas, sediments filled, rock hounding areas.

Decontaminating Your Self With Ocean Salts

Acidic ocean salts in ocean water will help eat up the radiological kiddies that find their way into your bodies, and that make you feel ill. It might take several weeks for initial recovery, with you taking large amounts, several teaspoons or more, as much as you can handle, in your diet, every day, for up to three to eight years, to thirteen years, for severe contamination, and for full recovery. Other things, such as nutmeg, and oregano, in a salty tea brew, will also help you, and marijuana in the salty tea brew, will further help you. Berries can also be of great benefit for recovery from radiological salts kiddies contamination.

My kids have a recovery kit, that will help you recover from an overdose of radiological salts kiddies, after a major birthing event, and that kit will help you fully recover. You need to join our

country, and swear in, and become a citizen, to be given one of these kits to help you for your recovery. They can provide you with information, of various kinds, once you swear in. They have you swear in as full time citizens, now, except in special cases.

Ancient Dry Lakes

There are many ancient dry lakes, up north, in the colder areas, of Manitoba, and around the edges of wet lakes, you'll find areas that dried out, a long time ago, and you'll find interesting things in the sediments deposits under the surface soils of the earth, that have covered most areas, and that come in to our atmosphere, and then deposit themselves onto the surface of our planet, as they are blown in on the solar winds. A few feet of top soil may cover the dry lake areas, around the edges of these lakes, and the soils depths may reach to twelve feet, to fifty feet, to sixty or to eighty of more feet, in some areas.

Once you hit the sediments layers, around the edges of these lakes, outwards to eight to fifteen miles, to thirty miles or further, out to up to eight hundred miles, as in the case of Lake Erie, and that lakes region, the Great Lakes, that all use to be one large salt water sea, but is now, a fresh water set of lakes, you can begin looking for the radiological bullets of the previous catastrophes in my universe, that shot out radiological salts kiddies, into the sediments rocks of mineral stones, and sand. Gravels might contain some "radioactive" fracturable rocks, and you can tell which are the useful ones, with a geiger counter. There are still salt water lakes up in Manitoba, Lake Huron, and some others, that used to be part of Lake Erie, and all part of the Great Lakes, when they were a large, salt water sea, but which are now, no longer part of that lake region system of lakes, as fresh water now fills up the Great Lakes from under ground water systems of fresh water flows.

Hydrolific Pressures From Water Falls

Hydrolific pressures, from water falls, primarily, help to erode and carve out and build the under continent open areas of water flows, that flow under the continents, and that dump their waters by traveling underground, in culvers, and channels, and in trenches systems, and then flowing out and into the oceans, resulting in side benders currents and flows.

Underground Lakes

Hydraulisis is one type of water pressures. Hydrolific pressures are those pressures created by water beating down, steadily, as water falls from higher to lower places, creating underground holes, and large open underground cavities, and water holding vessels, aquafirs, and underground lakes in the underground rock layers. Lots of cities sit on top of such underground lakes, on the crust of the surface of the earth, or very near to them. The lakes are often ovular and

rounded in shape, from top to bottom. Many former water falls, are now low lying, and flat, and there is no water fall on the river, except for minor, cascades, such as found in the Grand Canyon Rift Valley down the Colorado River, and out into the Baha area.

Baha Mexico

Baha is a good place to go looking for interesting, "radio active", or radiological rocks, fracturable rocks with radiological salts kiddies sleeping soundly, embedded into other rocks, after colliding with them, in a hail of radiological rocks bullets, after a planet or a galaxy, or a large nebular star system, or a cluster of them, were detonated, by some fool with a huge and powerful, home made bomb. This happened, often, in the past, and still, today, it happens, now and then. Bits and pieces of the radiological rocks will come flying in, and then embed themselves into other rocks, as I've explained about, before. We've had so many catastrophes in my universe, that our ancient rocks, are peppered with radiological rocks that are embedded in them. Off the coast of Baha, is a good place to go diving, looking for rocks that were washed off shore, as waters flowed down the Colorado River, trinities of aeons ago, when this planet was still a young planet, maybe about one fifth the way through its infancy, after reforming, again, after its last major impact that shattered it to pieces, for the umpteenth kazillionth, plus more, time. This shattering and reforming, has been going on too long to count, and obviously, there is a large amount of mixturing going on, with debris from other star systems, galaxies, nebulas, and so forth, floating in, and becomeing part of our planets, all around and about, on solar winds. You'll find rocks on the inside of the Baha coast, and on the outside, as well, and along the Baha coasts. You might have to dig down thirty of fifty feet, to a few hundred feet to find them, maybe eight hundred feet, or sixteen hundred feet, or further, but you'll eventually find something useful with lots of radological bullets embedded in the rocks.

Finding Good Rocks With 'Radiological' Salts Kiddies Bullets

You can find interesting rocks, also on high hilltops, such as in the Andes, the Himalaya's, the Swiss Alps, high mountains in Austria, and in Germany, high hill tops and mountains in Iran, maybe in Afganistan, and the very high hill tops, that are generally old hills, in many countries. They will usually have, if they are very old hill tops, lots of rocks scattered about that are very old, and that have lots of fracturable 'radiological' salts kiddies 'bullets', from previous detonations around my universe, and other related kiddies in them, as well. You can also find them along ancient river beds, and along dried up desert gulley washes, in the valleys between the mountains, in areas where tall, old mountains exist. You might have to dig down into the underlying layers of rocks to find really ancient rocks loaded and peppered with ballistic radiological 'bullets', tiny fragments of radiological materials that went shooting out upon detonation of

nuclear materials, elsewhere in my universe. Lava or basalt rocks, may also contain large numbers of radiological salts kiddies, and other types of kiddies related to radiological salts kiddies. Iron stone is a basalt rock, granites are also, and samples of them may be loaded with radiological salts kiddies, etc. Geiger counters will let you know if your sample rock material is pacted full and loaded with the tiny radiological 'bullets', or just partially loaded with them, depending on the response from the geiger counter. Many types of radiological materials, the bullets fragments, may not register on current day geiger counters, as they are not set to the correct radiological energies frequencies and currents settings to be able to detect them in the rocks. There are many types of radiological rocks in my universe, and current day geiger counters are set to pick up the currents and frequencies of the energies from only a few types of them, and there are thousands of types of radiological materials, so the older the rocks that you find, the more likely that the loads of radiological materials in them will be high in not only the types of radiological materials the geiger counter can detect, but also, in the types of radiological materials the geiger counters are not set to the frequencies and energies currents of. Such samples of rocks materials with large amounts of fracturable rocks, radiological 'bullets' inside of them, will yield massive explosive potentials, if you raise the heats energies of your explosives formula, to near solar temperatures, as I've mentioned about.

Plastiques, Explosives, Radiological 'Bullets', 'Nuclear Detonations', And Decontaminating Yourself Of Radiological Salts Kiddies

Please see my web pages for information on making plastique, along with metals fragments, and high temperature burnoff minerals mixtures explosives to produce the energies needed to produce nuclear detonations. Field chemists and explosives experts should be consulted, as they will probably know more about the temperatures at which different metals and minerals burn at and they will be more helpful in providing you with accurate information on different alloys mixtures, and the temperatures they burn at, such as the new US Mint US dollar coins, that will burn at extremely high temperatures, at about one fifth to one third the temperatures of solar temperatures, when ground into fine dusts fragments, and then after fermenting them, and then mixing the fermented particles in with the petrol fuels, chlorine, and gun powder, etc., plastiques explosives formulas, as I've explained about, to some extent, in my notes on my Gurkian Age Gurkian Way bulletin board. Be very careful when testing, as you may find the results extremely hazardous. See my kids, for more information, as I've explained about, on my bulletin board. Ocean salt will help to decontaminate you of radiological salts kiddies. A two hundred pound man will need about three pounds of ocean salt on a daily basis, to live healthfully. To decontaminate yourself, you will need more than that, to properly get rid of the radiological salts kiddies in your bodies, after you've been working with radiological salts kiddies, and testing the explosives potentials, for some time.

See my bulletin board for more information on the 'salts kiddies sciences' to help you to understand what is going on in so called, 'nuclear detonations'.

Sledgehammering Continents And Land Areas Where Lesbianists Live, Hiding Below

Here are a few places to place some other fracturable rocks bombs on, to make them fall in, and collapse down onto the layers of rocks, below, and then puncture the ceilings of the cavernous cities the Lesbianists have made, down below those lower rocks layers. Topango in the South Pacific near the Marianas, the area midway between the Ryukyu Islands and Haha Jima, Chichi Jima, and Iwo Jima, where you will find a sunken continent, Wellington New Zealand, Peking, Falklands, Urals Mountains, Chile thirty miles north of Concepcion and eighty miles east of it, near the Argentina border, and the Kamchatka pennisula, which will split and collapse in the center of it, midway down the penninsula, if you hit it hard enough. Lesbianists will come floating up, if their bodies can fit between the tons of debris that will fall in on them, as you smash the land sites that sit on top of ocean shelfs, and on open lakes below the land, some miles down from the surface, in some cases, and further down, in other cases.

It may be hard or impossible to deliver a nice bomb below the ocean above or onto the top of the sunken continent below the ocean, between the Ryukyu Islands, or Okinawa, and the islands of Japan, called, Chichi Jima, Haha Jima, and Iwo Jima. If one can be delivered there, you'll crush the continent below the surface of the ocean, and that will cave in on the cities, there are more than one there, that are below the protected shelf layer of rocks, above the cities the Lesbianists have there, below the sunken continent, to live comfortably in. The other places aren't so hard to hit. It is just a matter of local interest, and urging of the people there, to take the correct action to help us to resolve this problem, of Lesbianists living below us, all around the globe, in their honey comb, bee hive like canival of cities.

A canival of cities, is a large collection of cities that is located in such a way as to make it easy to get from one place to another. They are conveneint for them to live in as they are well placed, and spread out evenly, using the full extent of the area, as efficiently as possible. The Lesbianists have a canival of cities under the lower rock shelf layers, that are above them, and that help to keep them protected, warm, dry for the most part, but not always, and that are conveniety located each one in a bee hive like, configuration, well placed, with a well designed, layout, with central cities, and with satelite cities. It is well designed and resembles in part, Melbourne Australia, which was laid out, planned and designed as a modern city. The Lesbianists of course, think Melbourne is puny compared to their accomplishments, and of course, with the technologies they had and have available to them, from time to time, they made good use of every

inch of space they have available to them, under the lower hard rock, but leaky rock layers above them.

My kids have places and locations maps of all the best places to locate your home built fracturable rock bombs, and so please pick up the information from them, after you have sworn in, as citizens of our country. Also, please see my earlier notes on the sciences that support a correct understanding of radiological particals based fracturable rocks explosives and other helpful and useful explosives you'll need to set off the fracturable, also called, rupturable rocks bombs, i.e., the so called 'nuclear' detonations.

Topsoils

Did you know that nearly 99.9999+ percent of the earth's crust, or mantle, is formed from space debris that has floated in on the solar winds? It's true. Only about 0.000001 percent of the top soil is from local vegetation, globally speaking. The rest of the top soil comes in from above, blown in on the solar winds, as debris from other planets that have been destroyed, crushed, or blown to pieces by idiots with very large bombs, that demolished whole galaxies, or multiples of galaxies, in a few milliseconds, as the instant they blew up, they were so well made, or constructed, and so powerful, they instantly blew up the whole area of galaxies the planet was located amongst.

If for instance, you fill up one third of the large tourist attraction, the meteor crater in Arizona, with one of these fuels and rocks bombs, and ignite it, you'll disentegrate all of the Milky Way, and some what more than that, in one attempt, by my estimation, if the fracturable rocks bombs were made well enough with the fuels bombs, to burn at near or close to, solar temperatures, and if there were enough materials in the fracturable rocks, to get lots of mama's and papa's making lots of babies, relatives, and others. There are lots of different types of salts kiddies in fracturable rocks, and there are other types of kiddies, the radiological kiddies, which are sometimes, but maybe are not always, grouped with the fracturable rocks kiddies. There are many types of kiddies living in radiological rocks. When we send high heats waves energies, and other types of energies into the fracturable rocks, we can get many types of kiddies to begin making babies. If we get enough of the different types of kiddies to begin making babies, we will have one fine and dandy, explosive shower of baby making events. You can get further information on this topic from my kids, and if you tell your friends to check in with my kids, and to swear in, and become citizens of my and my kids' new country, along with other people who are swearing in, and becomeing citizens of our new country, my kids will make certain that every one is protected, and no one is caught outside, when the bombs go off, as my kids will tractor you and all the other citizens in, with my kids advanced teletransportation technologies, before any one can get hurt by the bomb or bombs blowing up, locally, or in their areas. That means, my worker unionized kids are very quick on getting people into the

encapsulated living environment every one is living in, below the ground, that my kids built for every one to live in, until we get this problem straightened out, and until it is safely over with. People can continue to live in the encapsulated living environment, after it is over, as we are going to start a new economic and social system, and we are getting started, down below, where my kids are keeping the encapsulated living environment, well taken care of and well managed.

Later on, we'll worry about who comes out, and when, as we have plans for every one, to begin working inside the encapsulated living environment, which is very well designed, and bomb proof, of course. Once every one gets accustomed to the new way of living, in accordance with my religious principals, and in accordance with our new working and living programs, when people have saved up enough money, they can pool their money, and acquire a lease for land up above, on the surface, and then with more money, they can have nice places designed for them, and built for them, with your input and with your instructions. You will need to study designing homes, and layouts of homes, for large numbers of people, as you will be required to live in groups of people, as the old systems of living, one husband, one wife, and so forth, is out the window, and now we are going for group living, with many members to your groups. When you have got the maturity together to live in large groups, and to sexal with many people in large groups, then you will qualify, and then with lots of earned income, pooled together, you and the members in your group, can then move up and live on the surface, in your well designed home, which my kids will use their technologies to build for you.

This is how we are going to clean up our planet, and get started with a whole new system for living and working with each other, as GOD's children working and living together, begining here, and spreading, slowly, across and throughout my universe, as we bring others into our program, all across the universe, from end to end, from top to bottom, and from side to side, and in every nook and cranny of my universe. All of my kids, you, who I am speaking to, will learn to live and work together, supporting my worker unionized kids, in our new global, united, and universal society, we will begin to build, on this planet, first, and then later, every where else. I am the mother and father of all of you, and of all of my worker, unionized kids, as well, all of my kids who work for me, of course, and of all of my living beings, and of all of my animals. We are going to get this big family of ours, together, and we, the human beings, will begin to clean up our universe, by sexaling for a living, and with many other living by the points systems programs, and other projects. We will also begin to get our heads on straight with religious activitiating, in other words, by participating in religialing, in groups, or by oneself, in the encapsulated living environment, first.

As we move along, in time, we will develop our working strengths, and character, and some people will qualify, eventually, for working in my religious brigade, once they realize and understand who I am, i.e.,

GOD. Others, who do not give a darn about what I am doing, may do as they like, as long as they are citizens of our country, and as long as they enjoy what they are doing, and as long as they add to the welfare of all people in our society, universal wide, as we build it, larger and larger, for all of my children, no matter who they are. We will one day have all of my children, working for me, and if they do not like working for me, they still have to pay the fees for the resources they use, just as I have to, and that means, there is a charge for every thing we use, and it is detucted from our pay checks. Every one gets a pay check, if they work, and if they are disabled, they will get earnings to support them, for as long as they need to be supported, until they are regroverated, healthy, fit, mentally prepared, and willing and able to participate. Those who do not wish to participate, will work in jail cells, and prison cells, sexaling for a living, with animals, as I've mentioned before, and at carnival and entertainment centers and districts, we will eventually set up, first on and also inside of this planet, in 'encapsulated' carnival and entertainment parks, and later on and within, other planets.

We are going to have all my children working for me, eventually, as I've spoken about before, and in time, most people will wish to work, and when they are mentally prepared to work, they will enjoy their working, most likely, as sexaling for a living, is not a unwholesome way to earn a living, and it is a pure and holy way to earn a living, and a pure and holy way to spend our time, as part of our new working ethics environement. For more information on this, please see my worker, unionized kids, who handle the information hot lines, in our, and your, and their, as well, encapsulated, living environement, which they have built, maintain, and manage, for all of you, and which they are continuing to build and expand on, for the rest of you, who have not checked in with them, yet. My worker, unionized kids have their own places to live, inside of the molecules that are used in building your living environment, and in your bodies, and in the molecules outside your living environement, as well. They live in all of the molecules, all over my universe, and they work in them, as well. They have their own universes, that they live in, which are all contained with in the molecules in my universe. It is a little more complicated than that, and so see them for more information on it, if you are interested in learning more.

Disintegrating The Milky Way

The Milky Way is made up of not one galaxy, but of several thousand, of different sizes. We don't have the technologies to see too clearly to distinguish the different galaxies that are within the borders of the Milky Way, nebular star system and nebular star cluster system, another way of saying that the Milky Way is a collection of many nebular star systems. Nebular star systems can be considered similar to galaxies, but maybe not always, as there are exceptions to every thing in most cases, any way. We are of course part of the Milky Way, I suppose you could say that, but we are far out on the outer fringes

of it, and we are not any where near the center of it, and we have our own galaxy we are a part of, and it is not part of the Milky Way, so technically, we are not part of the Milky Way, although we might like to think we are, since it is an expansive set of star systems, and star clusters, nebular systems, and other types of solar bodies systems, and it covers over us, and beyond us, sort of over layering us. Be that as it may, we do not want to blow up or disintegrate the Milky Way, as we are in a way, part of it, or at least, we are encovered by it. Encover means to be covered over by something and encased within it, or to be encircled or surrounded by it.

Captain Off The Bridge.

Lay Order Of People

I have no lay order of worshippers, who participate with me, in any thing, or in any way. Why? Because, that's like me, the captain of the ship, coming into a town of persons who I don't know, and then saying that I'm the authority over them. No one is going to listen to me, and no one should be expected to listen to me. I wouldn't attempt any such thing, and so as the captain of my ship, my religious order, I have no authority over lay persons. I have nothing to do with lay persons, what so ever. I will never have any thing to do with lay persons, unless they realize that I am GOD, and that I am the mother and father of all human beings, and all animals, and all living beings. No one is going to recognize me as GOD, for a long time, as no one has the karma to recognize and understand that I am GOD. Lay persons are free to do as they like, and I have no regulations concerning them, in my religious order. My children may have many regulations, for non religious order people, but I don't have any thing to do with that.

Donations For The Sake Of My Ministry

The only thing is, that, as I said before, if a person recognizes and understands that I am GOD, and that I am the Mother and Father of all human beings, all animals, and all living beings, then they are free to donate cookies to me, or clothes, or wearables, socks, and scarfs, or coats, sweaters, or slacks, neckties, and so forth, cakes, or cupcakes, baked items, or financial contributions, or chairs, and furniture, beds, linens, tables, office furniture, phones, phone lines wiring, electrical wiring, plumbing items, housing items, for building up a house, paved drive ways, mason or rock walls, surrounding the property, or a set of dormitories, or a prayer sexaling room, or a prayer ceremonialing room, or a swimming pool, sauna, bath house, toilet facilities, bathing facilities, laundering facilities, a root cellar, a molds and funguses workshop, a brewery workshop, or any workshop for helping to educate others, the land to build these things on, or money, or whatever. If some one recognizes and understands that I am GOD, then it is perfectly alright, to donate any types of items, or any thing of value, that would assist my ministry to get up and get running. As yet, no one has understands or recognizes me as GOD, and that I am GOD, and the mother and father of all human beings, all animals, and all living beings, so as yet, I have not heard from one person, not a letter, or a phone call, other than an occasional wise cracking person, mischief maker, or a person or persons who are

worried, and then complain to me, or rather, to my answering machine, typically, as I don't pick up the phone, now, as I had one person calling who was a bad kid of mine, and he was just looking for trouble, and since that, I just ignore all complaints, or wise crackers, or mischief makers, and so on.

Nollicking Foolish People

Some people do not like me wearing my GOd cap, that is one of those specialty base ball caps, but with 'GOd' written across the front of it, and they might hate me, especially some South American or Central American Hispanic types, who have primitive and backwards religions and filled with local lore and ancient tales of demons, and goblins, and gooney bears, or ghostly ghouls, or other superstitious ideas and notions of things that go 'boo!' in the night, and try to scare or hurt people, as there are plenty of folklorish tales of such things, in primitive cultures, that thrive, even at the current time, nowadays, in large cities, even, and these types of people might want to kill me, and when they knock on my door, with their gun in their pocket, or in their hand, machete or knife behind their back, I just ignore them, and I don't even bother to get up from my work bench, i.e., my bed, to see who is knocking at the door, as I know already, they have nothing to do with my monastic order, and because they have nothing to do with my religious ministry, or with my setting up my religious ministry.

Just last night, some group of people droped by, and banged on my door, with the tip or barrel of a weapon, and it was rather hard sounding, and I just ignored them, and after a few minutes, or so, they went away, and they haven't come back, yet. I don't think they will, and even if they do, I don't think it will amount to any thing, as I may have occaisonal visitors or harrasment calls, now and then, but that's all they are, and I just won't allow my self to be bothered by them as they are unimportant, and my goof ball kids, are just too nutty to figure out that I am GOD, and that they are my kids. Nevertheless, these goof ball kids are here or there, and I get lots of compliments about my hat, and usually, if not always, the person giving me the compliment wishes to steal the hat from me, and then rob me, in any other way, he or she can, and then beat me up, if he or she can. Well, I can't let these types of things get to me, and I just ignore them, as I walk by them, and I don't reply or return any statements to them, except a polite, 'thank you' if they gave me a compliment about my hat, but that's about all, and I might mutter something, like, and well, so that's just another one of my goof ball kids, or something to that effect.

Nollicking And Nollygaging

Nollicking means idiotic and foolish people who are wasting their time, for accomplishing nothing. It's like, nolly gaging, but nollygaging, is just wasting time, foolishly, and while you are nollygaging, you are looking for some way to make a profit, from your

use of your time. Scanderously, you try to extort money from others, or force others to give you money, you do not have any right to. That's nollygaging, as I can recall, at the moment.

Goof Ball Kids, Their Mischievousness, And Maliciousness

Well, I have all kinds of kids, and many of them are malicious, if you give them a chance, so I just stay away from all of them, as I know most every one of my children, is malicious, from time to time, if given the chance, and I think that applies to all of them, regardless of their age, at some point in their life, they will commit crimes of one kind of another, against others, and not think much about it, except that, they just had to take care of that, as they wouldn't be happy, if they hadn't. Okay, so every one of my kids, at one time or another, will do goofey or goof ball things, and not think much about it. That's the way it is. There is nothing to be surprised about, as every one, and I don't care who they are, every one, does things they shouldn't do.

Me, personally, I get angry, and say nasty things, and make myself sound gruff, now and then, and maybe I shouldn't, but I just feel compelled to do that, when I have a righteous conviction that some one deserves my speaking up and telling them off. Well, you feel sorry about it, afterwards, if you hurt some one's feelings, but then that's the way it goes, and no one is perfect, so it's just. Let's try to live and let live, and live together in peace, and cut out the naughtyness, and stop the mischiefness, if we at all possibly can, and apologise if the opportunity presents itself. That's always the best way to handle things. Most people, after they kill someone, can't appologise, and young girls and boys, and older girls and boys, think nothing of killing people, or having some one killed, for them, and then of course, there is no way for any one to appologise to the dead person, since that person is in my Epcot Center. Well, we can't do too much about that, can we, but we can try to be kinder, and not kill as much as we feel we must to be happy.

More Than Ninety Five (95) Percent Of The Homicides In The World, Some Times As High As Ninety Eight (98) Percent, Or Even Higher, Go Unreported, And Are Therefore, Not Investigated

It's too bad that we kill others, and torture others, but that's the way my goof ball kids live in my universe, and despite what people might wish to think, to the contrary, it happens every day, in every city, town, hamlet, county, district, or where ever. My goof ball kids are killing people, right and left, and there are just so many deaths, the police don't hear the ninety five (95) percent of them, or so, as they never learn about it. The percentage of homicides the police do not hear about, is perhaps just a little higher, but in any case, no one should be surprised, as that is how my goof ball kids get along with one and each other, and they have been getting along with one and each other, that way, for a very long time, already, so it will not stop, any time soon, and that's just the way things are, for now. The

Lesbianists are responisible for just about eighty five percent of those homicides.

Labrynthine Cities Below Us Where Lesbianists Live, And Laugh At All Of Us

The Lesbianists living below us, in their cavernous, labryinthine cities, that are below the hard rock layers, well below the oceans, and other bodies of water, far below the continents, go around, and mess with every one, and they play with people, and they think they have the right to amuse themselves by useing the citizens of this planet, any old way they like. They go around, and set up phoney wars, and they watch the citizens of each country, kill each other, on their commands. The Lesbianists enjoy playing these kinds of games, and they set up civilization after civilization, and they bring it along, and help to develop it, and when they get it to a high enough level, they feel a sense of accomplishment, and then they watch and amuse themselves as they destroy what they built up, and the people who are living, unawares of them. The Lesbianists think it is funny, that the Lesbianists feed the lies about our universe, and the lies about science, to every one, and the Lesbianists think they have the right to bafoonerize every person who comes into our world, as a tummy baby, who is on his or her way in, and in fifty to eighty or so years, is on his or her way out.

Why Do Continents Sink? Why Do Land Masses Rise?

Load transference technologies, and partical transference technologies, redistribute the loads on the internal network of underground cities the Lesbianists live in, to keep them perfectly centered, when ever there is a major uplifting, or down plunging, of continental mass, rocks, and earth, that would cause continents to sink and continents or land masses to rise. Movements of 'earthen matter' or rocks and dirt is accomplished with load transference technologies, and other technologies, such as partical dismissive technologies, and partical remissive technologies. This way, a planet can move, inwardsly, as a continent sinks, after the underlying rock layers are washed away due to hydrolific pressures, and not destroy the underground labrythine cities. My kids also use the same technologies, and other technologies, for maintaining the integrity of their underground encapsulated living environment.

The sinking of the continent pushes downwardsly, and as it falls, it exerts high intensity pressures on the underlying layers of rocks, stones, pebbles, sands, sediments, clays, metals, minerals, and so forth. The pressures will normally push downwardsly, and outwardsly, and shifting of materials, occurs, and land masses rise, as a result. When you have an underground city, or collection of them ringing the planet, when the pressures occur, and when the materials begin to shift, you redistribute the materials, using advanced sophisticated technologies, that will shift the particals in the directions they need to move, and distribute them so that they will not interfere with

the structural integrity of the undergound labrynthine, and perfectly, geometricly laid out city dwellings and living habitats. It's high tech stuff, and so if you don't understand how partical dismissive technologies work, or if you do not understand how partical remissive technologies work, you will have a hard time understanding how this is accomplished. There are other technologies, that also must be employed, to work in an integrated manner with the partical dismissive and partical remissive technologies. All of these technologies, working in an integrated manner, will perfectly redistribute all the particals of rocks, and so forth, that need to be redistributed. The technologies keep the ring of cities perfectly centered within the earth. If there is a need for downsizing of the interconnected labrinthine layout of cities, that is also accomplished with these technologies. Downsizing may occur for any number of reasons. I've briefly explained what can happen as comets and asteroids pass by our planet, at amazing speeds, and that we can lose some or part of our planet, mountains, terrain, and lakes full of water, with a pass by, by a solartoid, or planetary sun, as it wizzes by at a phenomenal speed. Once the planet restabilizes, the downsizeing process begins. Even though there may be continental shifts, of uprising and down plunging events, and large, cometary passbys, with the technologies that are available to the Lesbianists to use, on a 'for lease' option, the integrity of the underground labrynthine layout of cities, is kept in tact, as best as possible. The technologies that accomplish this for the Lesbianists, that keep their cities perfectly situated, are not on lease, any more, and they have lost their lease on the technologies that would allow them to keep their cities perfectly protected, and perfectly centered. Some areas may not be too livable, for them, as leaky ceilings cause waters to accumulate, below, and they must trudge through salty ocean water, knee deep, in places, and in other places, the water is too deep to allow them safe passage down one tube, or trammel system transportation pass through tube, to a city or to cities which were previously accessable.

The Leases On Their Technologies Are Expiring

The leases on the technologies that they have been using, and that were assigned to them, after they swore in, and pledged to live on this planet, and pledged to sexal for a living have been expiring for some time, already, and will continue to expire for some time, to come. Because this was a newly formed planet, before they arrived, but after it recongealed, after it was shattered to pieces by a passing cometoid that ran smack into it, as I've explained about, or touched on, a couple of times, before, see my notes on the web, once the planet stabilized, and became a livable planet, they first needed to live underground, where they could live, and slowly over time, adjust to the types of solar radiations, and other factors that they would need to adjust to to be able to one day come out from down underneath the surface of the planet and begin to live above ground. The rock layers, land, and bodies of water above shielded them from potentially harmful radiation. The living area below, also had built in protection

systems to help protect them from the radiative energies that could harm them. After they adjusted to the conditions of the planet, they could come out, and as they continued to sexal for a living, other technologies would allow them to build large cities, for them to habitate in, as they continued in the sexaling for a living program. The cities that my kids built for them, that my kids have the permissions to use for these programs, are now down under the rock layers, all crumpled up, or they have passed into the molten core, and have been spewed out, as basaltic lava, as the Lesbianists did not hold to their pledge, and they broke the law, and the maintenance of their above ground cities, was terminated. With continental uplifitings, and downplungings occuring, over the long period of time, they lost their cities, and now they have only the underground, initial landing zone area, dwellings and habitats, that have down sized, some what, since their initial landing for occupation of this planet, in the sexaling for a living program. They broke all the rules, and they developed their own sham governments on this planet, and they went about, causing mayhem and destruction, every opportunity they got.

The leases that they signed on to, and that were assigned to them, that they had on the initial landing zone technologies, as well as all their other leases, that were assigned to them are now in the process of being cancelled. That means, that, their underground cities are being shut down, slowly over time, - thus the leaky roofs - and they will have to move out, and move to the surface, as the underground systems, begin to falter, shut down, and fail, one after another.

This happens to them, repeatedly, life after life, and the end result is they destroy them selves. The hideous, hungry animals they illegally brought from other planets will get lose, and then they will help to hurry the demise of their world civilization, which means, every one of the Lesbianists will die on this planet. After the Lesbianists destroy themselves, they will end up in my Epcot Center, and they will come back out as tummy babies, to tummy mommies and to tummy daddies, who have karma that matches up with theirs, and then they will repeat their old mistakes, again, and again.

As the usefulness of the Lesbianists' underground labrynthine cities declines, as leases expire on the technologies that were assigned to them, and as other leases, will also be expireing, over the next few years, to ten or twelve to fifteen years, to thirty eight years, to fifty nine to sixty to eight five years, and then finally, when the last of their leases expire, some time, not too long after that, up to two hundred to eight hundred years, or so, and then there are still a few that will remain active, until every one is expected to move out, within a few thousand years, eight to eleven thousand years, as they must be given time to build up their own new civilization on the surface of the planet, where they can all live, together, now that the facilities below will be totally closed off, and shut down, and no longer useable to them, as they will be locked out, and prohibited

from entering them. Once they are completely out, my kids will then remove all traces of the underground cities and underground facilities, so that there is no chance of any one ever useing them again. The Lesbianists will then begin living on the surface, full time.

Late Night Amusement Activities For The Lesbianists

Currently, as a regular sport or preoccupation, the Lesbianists go out regularly, at night on hunting parties, after exiting from below up through secret stairways, that lead up through police stations, and through fire departments, and through some military barracks, and through National Guard barracks, castles, buildings owned by royalty such as a king, or a queen, a monarch, dictator, despotic ruler, or by dukes, earls, princes', princesses', public buildings, government buildings, and through banks, hospitals, morgues, cemetary parks, schools, parochial schools, college campuses, college buildings, universities, university facilities, movie theaters, dance halls, auditoriums, disco-techs, sports stadiums, ball parks, parks, indigenous peoples' tribal reservations, port and harbor facilities, port authority landing zones, free trade zone districts, political districts such as Macau and Hong Kong, bordellos, brothels, drinking establishments, cocktail bars, lounges, late night restaurants, physical fitness centers that stay open 24 hours a day, YMCA's, YWCA's, Greyhound Bus stations, train and railway stations, air ports, national parks and forests, BLM lands, islands owned by Lesbianists, Riker's Island, Staton Island, Alcatraz, islands that have military forts' and bases that are active or semi active on them, private residences owned by Lesbianists, and through businesses owned by Lesbianists, through twenty four hour a day businesses owned by Lesbianists, Walmarts, K-Marts, 'Toy's 'R Us', Wendy's, Jack 'n The Box, McDonald's, In-'N-Out' hamburger chains, sushi restaraunts, late night restaraunts, hotels, motels, churches, mosques, synagogues, military bases, public and private museums, BINGO establishments, pachinko parlors, billiards halls, race tracks, gaming and gambling establishments, and many other Lesbianists' controlled facilities, buildings, and so forth, above ground, and they capture and abduct people, then bring them back into their underground lairs, and then the Lesbianists torture them, barbecue them, and then cannibalize them, for food, in their underground lairs. The Lesbianists enjoy torturing people, and eating them, and these abductions go on, regularly, all around the world, and the torturing, barbecuing, and eating of the above ground residents, below ground, goes on all around the world, beneath the surface of this planet.

There are over thirteen billion of them, and the number is even higher, still, as I did not have that number correct, either. It is higher than that, and that means there are a lot of hungry mouths to feed, in the future, after they lose their leases, unless they get a new civilization built, which they never do, as they do not like to work.

They will come out, at night, regularly, and abduct people, and then carry them into their underground lairs, and then cannibalize them. This will grow more and more busy, as they strive to remove every one they can from the surface of the planet. After they have removed enough people, they will begin to live on the surface in the homes, and cities that are there, already. There are too many Lesbianists to live comfortably on the surface of the planet, and they are too lazy to build their own civilization with homes, an economy, and so forth, so they will inevitably begin warring against each other, until there are only a few left, and then they will meet their end, when their exotic and deadly animals that they brought here for their personal amusement, strike at them, and kill them, for food.

The only way one can find a way out of this predicament, is for each one of you to join my country, swear in, and become a citizen. The Lesbianists in turn, must surrender. If they do not, at a certain point in the future, we will begin to dismend them, and sent them to my Epcot Center. When that will occur, I don't know, but it could be as far off as a few thousands of years from now, as we have to give them the time, and a chance to build a new civilization, with homes, and parks, etc., working together with the people who already live on the surface of the planet. We cannot cut short the allowance they must be given, in fairness - as the leases continue to expire, and the leases protect them, to some extent - to make efforts to mix with the people on the surface, and to come clean, and to tell it all, and to appologize, and then to work in peace and harmony with the people who currently live on the surface of the planet. They will have to share their knowledge of the sciences, and they will have to help to educate every one, and they will have to teach the people who are living on the surface, the sciences that will allow people to regroverate their amoebes, and other cells in their bodies, and to rejuvenate their bodies.

There is not much chance of that happening and of gaining their cooperation, so we will have to be on our guard, and we will have to look out for ourselves, and make sure none of us are abducted by them as they attempt to diminish the population living on the surface of the planet by reducing the numbers of normal people living on the surface of the planet, as the Lesbianists begin to get busier, abducting people, and eating them, one after another, to make room for them selves, on the surface of the planet.

Never the less, my kids are not allowed to act prematurely, and my kids are not allowed to begin dismending them, just to stop them from doing what they typically do, after they lose their leases. So, it will be several thousands of years, before this topic comes up for discussion, and action is taken. These are not normal circumstances, and so the dismending of these people, may begin some time after their final leases expire, if they present them selfs as a problem to the rest of us, living on the planet.

Our War On The Lesbianists Must Continue

This means, we have a few options, here, and the best option is to just get rid of them, and destroy their underground cities, and destroy the Lesbianists, world wide, before the Lesbianists get much more of a chance to abduct, torture, and cannabalize the citizens living on the surface of the planet. Thus, our war is now only begining, and we must continue to eliminate them, as they will only cause mayhem, and destruction, for those of us, living on the surface of the planet, as the Lesbianists abduct, and capture people, then torture and cannibalize them, in coordination with their Lesbianists friends, who run this planet. The Lesbianists' activities aimed at destroying the populations of the planet, is guaranteed to increase, as the years pass. That means, we must continue with our campaign to destroy the Lesbianists, and we must continue to work to bring an end to the control that they have, over every one on this planet. We can also concentrate on destroying the Lesbianists, underground, by dropping the home made 'radiological' explosives weapons down into the ocean depths, and down into the depths of the deeper lakes, onto the leaky ceilings below, where the Lesbianists are living, to crush them, and to drown them all. In the meantime, every one must join my country, and swear in, and become citizens of our new country, as I've explained about, before.

The Valderizing Lesbianists

The Lesbianists do not teach real science, or real geography, or real history, or real mathmatics, or real chemistry, or real anything, and they fool every one with their bogus religions that they either made up or corrupted, and valderized. Valderized means, they vandalized it, and sprayed grafitti all over it.

Well, that's the way the Lesbiansts get their kicks, and they are just a bunch of grown up children, valderizing every thing they can, and disrupting every thing, and every bodies' lives, just for their own amusement, and cruelish fun and games, such as feeding former Lesbianists to my abominant kids, who are need to be fed, and who are smart, and devious, and who destroy humans, and eat them up, and spit them out, and treat them terribly, while the Lesbianists watch on, in amusement, as they see people like Bill Gates, or Steve Irwin, and others, eaten up and then tortured, as I've mentioned about before. Valderize all they may, and be cruel all they may, we are all now finally finding out about their treacherous and horrid behavior, and now we are going to put a stop to it, permanently, and that means we will kill every one of them, and send them all to my Epcot Center, as I've explained about before.

Now we know we can cave in their cities, below the leaky hard rock layers, way down below, if we hit certain areas, hard enough, with a nice big hammer, such as one or more of my 'nuclear' bombs, the fracturable rocks kids bombs, with fuels oils, burning at extreme high temperatures, and with percussive shock forces, these, mixed together, will get my fracturable rocks kiddies, making lots of babies, and with a large enough fracturable rocks fuels chlorine, and metals that burn

at high temperatures, nearing solar temperatures, we will see some very explosive 'family making' adventures, among my fracturable rocks kiddies, and their radiological relatives and friends.

We know where to hit some of their locations, to drop a few miles of more of continental shelf down onto the tops of their ceilings that will then fracture their ceilings, and cause massive damage, as oceans of water fill up their labrynthine and very well laid out cities, below us.

Who Do We Kill, First?

Mr. George Bush, Jr., Mrs. Barbara Bush, Jr., Mr. George Bush, Sr., Mrs. Barbara Bush, Sr., Mr. Ronald Reagan, Mrs. Nancy Reagan, and lots of their friends, and nearly the whole crew of politicians in Washington DC, are all Lesbianists, and I want you to kill every one of them, and send them to my Epcot Center, and I want you to place the fracturable rocks bombs, in the right locations, and then drop a thick layer of continental shelf, down onto their ceilings, their ceiling that are below the water that is between us and them, and that is below our continental shelfs that we live on.

We can hear the water down below, if we have the right types of listening devices, and if you find the right places to place your fracturable rocks bombs over, then it may be easier to drop your continental shelf, down through the water, below you, and down further onto their ceilings, the hard rock layers below the water, that is below your continent, swirling about.

Now I want you all to study this, and find the right places to drop your continental shelfs, down through the water layers below you, and onto their ceilings, so as to smash their ceilings. I've given you some hints, already, as to where you can place the fracturable rocks bombs, and my kids also have given some people more information on that, and so we have lots of people, who are interested in solving this problem of the Lesbianists toying with you, one life of yours, after the next life of yours. It is time we brought their mischief, and non sense, and cruelty to a halt, and it is time we put on the brakes, and slammed down on the brakes real hard, and at the same time, slam down on the ceilings of the Lesbianists labrynthine cavities, below you, their cities that they have laid out in perfect symetrical, geometric shapes, like perfectly shaped, honey combed behives, with central cities, placed symetrically around the globe, in a perfect geometric layout, and with spokes or corridors reaching out symetrically, to other central cities, and to satelite cities, that they have well planned out, and have well laid out, perfectly, below you.

Hydrolific Pressures And The Labrynthine Cities Below Us

Because of the hydrolific pressures, they can never keep the ceilings, perfectly dry, and they are always in trouble, trying to fix leaks,

here, there, and every where. Now it won't take too much to bring the whole place down on them, flooding them like rats in a cage, below the water line, as a boat slowly sinks with a rats' cage on a table, with rats in it, slowly into and below the ocean waters.

The ones above, such as George Bush, Jr. the current president of the United States of America, and his wife, and his supposed family and relatives, and all his close Lesbianists' friends, should now all be killed, point blank, with your fracturable rocks bombs. I hope that is perfectly clear, and I hope you all understand what the situation is, and that it is an intolerable situation, and we are not going to allow them to toy with us, any longer, and we are not going to let them amuse themselves, any longer, and we are putting an end to their games, now.

DO YOU UNDERSTAND ME? I HOPE SO! AS A 'NO SIR!' WOULD BE UNACCEPTABLE.

Now that we know where we stand, we have nothing further to argue about, and so let's get to our tasks, as soon as we are ready, and prepared. Okay? Good.

Local Area Prayerful Collection Site

A collection site is where people gather to pray, and to sexal and to purify each other. It is not a site where people ask for offerings, or where people as for any thing else, involving money. It is a sexaling park, and a prayerful sexaling park. That is the meaning of collection site. A collection site is where people collect together, to sexal and purify themselves, and while they are at it, they make sexaling efforts to help to purify others, by shattering and showering out megawatts and tons of radiating, purifying energies.

We have a local area park, at the corner of West Tropicana Ave. and South Decature Blud., a local BLM piece of land, that some people like to camp out in, that I go out to, to bless, and to purify with my religious ceremonies, now and then. I claimed that area, and all other BLM lands that I could claim under Gurkian Law, and all other land on this planet, that I could also claim under Gurkian Law, such as other parks and forests managed by other government agencies, or private lands, supposedly owned by rich people, and lands around the world, that I have a right to claim, under Gurkian Law, and all that land, is now mine, under Gurkian Law, and I can use it in any way that I need to use it, regardless of what other people, think.

Aerobic Taichi Practice

I am busy, now and then, purifying that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd., with my religious ceremonies, that I conduct with my religious prayer hand signaling statements and with my use of my ability of arerobic Taichi, for religious ceremonies, as I seem to have recalled a lot of areobic Taichi, as well as some other forms of Taichi, that I knew, before, in previous lifetimes, but I am only interested in using it for practical

purposes of religious hand prayer signaling.

I'm very clumsy when it comes to aerobic Taichi, but any way, I enjoy it, and it is good excercise for me, and the more I practice, the better I get, but it will be zillions of years, before I get any where near good at it. I practice the arerobic Taichi while I make my religious hand prayer signaling statements.

I don't teach Aerobic Taichi. I only use it for my prayer ceremonies, when I am on my feet, and not on my back, mostly, even though, I do use a short version form of it, while lying on my back, or, while I am on my side, I use a very short form of it. Anyway, it is fun to do Aerobic Taichi, and that makes my prayer ceremonies, for me, more fun. When other people learn to prayer signal, they will naturally pick it up, as well, as every one has studied to some extent, Aerobic Taichi, and other forms of the martial arts, and my kids will release the knowledge that is stored in your memory banks, as you need it, once you begin practicing, for women, as a priestess, or for men, as a priest. It is not like the Taichi you see people doing in China, or Taiwan. It is a specialized form of aerrobic Taichi for use while performing hand prayer signaling. It is not used for fighting, but it is the basis for Taichi, and you can train in martial arts, while employed as either a priestess, or as a priest, and it will be useful to you to know, before hand, as it will make practicing your martial arts, that much more interesting.

I'm not hiring any one, now, or just yet, or any time, soon, as far as I know, as my kids do all the interviewing, and I have nothing to say, about who comes knocking at my door, to be interviewed.

Campers, Camping, Sexaling And Purifying The Area, And Useing The Parcel Of Land That I Publicly Claimed For My Setting Up Of My Ministry

Now, on that parcel of land, there may be campers, now and then, who want to camp there, because they want to find out more about my religion, and so they come out to Las Vegas, now and then, and they camp out there, on that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd. Since that land is where I am going to set up my initial ministry, when the time for that comes, I am preparing it, with my religious purification ceremonies, and there doesn't seem to be any troubles, with any one telling me not to go up to my property, that parcel of land, and there is no one trying to tell me that I can not bless my property, that parcel of land.

Now, if other people wish to come to that parcel of land, and wish to sexal on it, and thereby purify that parcel of land, they are more than welcome to come to it, with their camper trailer, or caravan bus, and they can maneuver into the area, and set up a tent, and campsite, but there is no water, or any thing else, so you have to come prepared to rough it, if you wish to come in your camper van, or caravan bus, or in a camper trailer, or with a tent, or with other types of

sleeping and living gear.

Straightening And Cleaning Up The Area

You can straigten up the area, and clean it up, and make it nice, for many people to pull into, to join together, and to sexal together, and with your purifying energies from your sexaling together, you are more than welcome to stay there, as long as you like, and as long as time permits, and as long as finances permit.

I have nothing there, except for my now and again, Aerobic Taichi practice and the energies that are imbued into the area, there, from my religious hand prayer signaling ceremonies. There are no structures of any kind, and I am sometimes there, busy purifying the area, with my religious ceremonies, so if you and your friends would wish to come to that area, and also help to purify it with your sexaling energies, than you are more than welcome to come and visit there.

Donating Your Sperm, Sexaling Spittle, Perspiration, Vaginal Juices, Titty Juices, And All Your Sexaling Juices

You men and boys may by all means, donate your sperm juices, sexaling spittle, and other sexaling juices, your perspiration you generate while you are sexaling, to the site, and you women and girls may by all means, donate your vaginal juices, your titty juices, your sexaling spittle, your perspiration you generate while you are sexaling, and all of your sexaling juices to the site, as they all will help to purify the property that I intend to set up my ministry on, as they all contain many, holy, pure, sacred, powerful cleansing energies, and GODLY energies in them, and they will help purify the land, and the environment for ages and aeons to come. All of your eroteming and orgasming energies will go shooting throughout your bodies, and they will find their way throughout your bodies, and out of your bodies and brains, and into the environment, and into your bodies' sacred and holy spillages, as I've discussed about before. Your bodies' spillages, as well as your perspiration, your pee, and your poop, not to mention all of your other juices that are produced as you sexal, erotem, orgasm, and phlumett, become pure, sacred, holy, powerfully cleansing, and GODLY, while you are sexaling, eroteming, orgasming, and phlumetting. Your pure, sacred, holy, powerfully cleansing, and GODLY energies find their way into all of your bodies' spillages, and so please donate them to the site, in appropriate manners.

Building A Latrine

Please employ some one to dig a latrine, and to fashion benches to sit on so as to be able to dump your poop, and pee your urine, into the latrine trenches. Manage the latrine, with care, and employ healthful, tactical, and sanitary techniques to use it safely. Provide hand rails, to grasp, so that no one will slip off and fall into the latrine. Provide barriers so that no one can accidentally fall into

the latrine. Use your common sense when providing 'tactical' safety measures.

You need not fashion an over hang, as there is no rain to speak of, in Nevada. You do not need a supported roof, or enclosure, as they will only become stench ridden, and no one will enjoy useing them. There are to be no enclosure walls, or sides, or backs, so as to enclose the odors of the latrine, and confine them to an air tight area, where they can accumulate, and cause explosions, accidentally. They need only be deposited into a safely dug, latrine, and then allowed to filter down into the soil, and then allowed to vapor up into the atmosphere, freely.

No doors should be used, and no barrier walls should be employed, when fashioning the outside framing of the latrine facility, itself. That means, there are no hiding places in the latrine, where people can hide, and be prevented from entering, or exiting from the latrine. Only hand rails need be supplied, and only barriers that are suitable for keeping people from falling into the latrine, need by provided.

Steps may also be provided, to a raised platform latrine, which is more sanitary to use, than a level to the ground, latrine. There should be no walls, and no blind spots when either ascending up the stairs or when descending down the stairs. Women, girls, men and boys, should all use the same facility, and there is to be no fraternizing. Fraternizing is playfully tearing up at the opposition, or at people who you do not like.

Tearing up at the opposition means, you are trying to over throw the person, and dispose of that person, into the latrine. Over throwing the person means to be using reckless abandonment when dealing with another. Reckless abandonment means to be recklessly risking the life and limb of another.

There will be no frolicking at the latrine site. Frolicking is when little boys, and big boys, and little girls and big girls, play around and provide possible hazzards to others. You will not behave in a hazzardous manner towards any one, at any time, or you will be asked to leave, and to not come back.

There will be no play time allowed for children, as this is a collection site, and that means it is a holy site for holy activities, so leave brats at home, and do not bring any one who drinks alchoholic beverages, or who acts unwholesomely, to the collection site. This is a private site, and a prayerful collection site, and that means, you are coming there, to pray, and to make love, and to sexal, as GOD's children, so as to purify the site. You are not allowed to act randomly and with reckless abandoment. Randomly means, without proper self control and restraint. This is not a gay fashion, show or parade, and we will not tolerate reclusive, or unwillingly unwholesome behavior.

Reclusive means, unwilling to participate for the stated purpose of purifying the area. Reclusive means, caution and carelessness is thrown out the window, and you are acting in an irresponsible manner.

Unwillingly unwholesome means, first, unwillingly means, non cooperative, private, or sordid. Sordid means you are acting in a selfish manner, and you are not acting in a responsible manner for self and for others.

Unwillingly unwholesome means, thusly, that you are acting in a selfish manner, irresponsible manner, uncaring towards others, and unwholesomely.

Unwholesome means, you do not care about the life and limb of others, and you would just as soon shoot a person you argue with, as talk to them for a friendly chat. Many of my kids, are very unwholesome, and will just as soon, talk to a person, as shoot the person. You will not act in any such manner.

Any unsafe or prohibited latrine construction will be ticketed on detection, by me, and you will be asked to rework the facility. That will be on the ticket, and please comply, if you and your friends who built it, will be so kind. If you do not rebuild it, you will be asked, with your friends, to leave the site, as you are acting in an irresponsible manner. You will not be allowed back to the site, without your showing proper repensive behavior. Proper prepensive behavior is an attitude of appology, as well as the acts of appology which means, you will take appropriate steps to see that the work is or has been redone, in the manner as required by safety laws, as stated by my children, under Gurkian Law. Either me, or my children, will leave the ticket, and you will be required to fix what ever it is you need to fix, or you will be asked to not stay and conspiriate at the collection site.

Conspiriate means, to participate freely with caution and care for the sake of others. Conspire is also the same, as conspiriate.

You will be asked to not stay and conspire at the collection site, means, the same thing. It means, you will not be permitted to participate freely with caution and care for the sake of others. That means, you will be asked to leave, and you will not be allowed to come back, if we, my children and I, and other attendents, as well, can at all help it.

Attendents are people who participate in the collection site activities, and they are people who take responsibility to make sure every thing is done, properly, and safely, with the sake and safety of others, in mind.

The Home Depot has many nice and useful janitorial equipments, and so it will not be difficult to build a safe and luxuriously clean, and handy, latrine, that is safe to use, for all people, of all ages.

Luxuriously clean, means, it is kept sanitary.

How do you keep a latrine, sanitary? You keep it clean and sanitary by venting the air out, freely, with no blind spots, either underneath or above, where pockets of air, and vapors can accumulate.

No partitions will be installed that will create a blind spot. A blind spot is an area where light can not penetrate. Therefore, your construction materials, must be perforated wood, or grated steel. You can weld together, if you know how to weld, a very nice, grated steel, latrine, that will be safe to use, by every one, of every age. You will need the correct strength of supportive steel poles, to handle the weights of the persons accessing the latrine, and of the latrine, as well. You will make certain to build it well, and to support it well, with firm foundations, of concrete or steel plates.

Any deviation from safe practices for building latrines, will be torn down, disassembled, and the persons or person responsible will ethier be asked to leave, or will be asked to appologise to the memebers of the collection, sincerely. If the person acts in a responsible manner, and appologizes, sincerely, and appropriately, then the person will be excused, with out further, charges being leveled. Further charges will be leveled by my children, if my children detect further, reckless abandonment on the part of any person, participating and acting in a reclusive or recklessly abandoned manner.

Glue People Begun 'Cleaning' Agents

Cleaning the toilet seats of the latrine, will also help to keep the latrine luxuriously clean, and sanitary. You should clean the toilet seats and parts of the latrine, with common household detergent agents, as at this time, we have no choice but to use the unwholesome, Lesbianists' manufactured, ajax, spic and span, lysol, and other such 'glue people begun' agents. Glue people begun agents means, aerosols, and other unwholesome petrol fueled compacted or pressurized sprays, or detergents, that help the Lesbianists to begin the process of turning human beings into glue people. Glue people, in this instance, does not refer to glue, but it refers to tar. Tar is an adhesive substance, and their intent was and is to turn every human they can find into tar people.

We have no choice but to use the local distributors selection of cleaning agents, but in time, we will one day, have all that straightened out, after we demolish the Lesbianists' hideouts, under ground, and after we kill them all, or welcome them in, as 'surrenders', with appropriate, remorseful, penentant attitudes.

Removal Of Latrine Wastes And Disposal Of Latrine Wastes

Latrine wastes materials shall be removed, and supplied to local pig farmers, who can then use the materials, for feeding the animals. Pigs and hogs love to eat away at latrine wastages, and no one knows that. Chicken also enjoy eating human wastages, as well as ducks, geese, and other fowl. Horses and burroughs also enjoy human wastages, if it is healthy enough, with large amounts of vegetable mass in the diets of

the human beings, whose wastages are carried to the farms for spreading about in the hogs and pigs, barrels. A barrel is a place where wastages are loaded, up into trucks for delivery to a sewage farm, or a place where farmers can use the wastages, that the hogs are finished with, as fertilizers.

Hogs and pigs use a roped off area, for eating wastages, and employees keep track of the unloaded wastages, and the spilled wastages from the hogs, and then the spilled wastages from the hogs, are then moved to a separate area, for pickup by carriers of farmers. Foods grown at farms using hogs and pigs wastages are useful and nourishing to humans, and other animals.

No fees of any kind for loading and for carrying away wastes to hog and or also pig farmers, should be levied by truck drivers, as drivers will earn a tokenous gratitude tip from the hog and or also, pig farmer. An appropriate payment to the driver and deliverer of the human wastes to the hog and or also pig farmer, should be paid by the hog or also pig farmer, unless the farmer is cash strapped. Cash strapped hog and pig farmers may be given money compliments by the people at the collection site.

Money compliments are small awards, or minor payments, out of gratitude to the hog and pig farmer, for his or her useage of the human wastes from the latrines. Money should be collected, regularly, if hog and pig farmers are cash strapped, and then given to the hog and pig farmer, out of gratitude to him or to her, and presented, tokenously, or as a gift payment. How much should be paid, depends on the expenditures of the driver, for his or her services, and for the use of his or her, vehicle, and for its whollyfied maintenance.

Whollyfied means, the regular maintenance that will allow the truck or vehicle to run at tip top conditon or shape, for the life of the vehicle, figuring it proratively.

Proratively means, spaced out, and paid proratively, or over the period, at regularly spaced points in time, over the given span or the useful life of the truck.

Discussions regarding this, and discussions for compensations, should be held at the collection site, and at the delivery site(s) for delivery of human wastes, by all parties, concerned, regarding all of this, and the primary collection site attendants, the persons elected by the attending or participating persons, at the collection site, who show the greatest interest and sense of responsibilities, at the collection site and with regards to the collection site, and with regards to the collection sites' safe, healthy, and wholesome management, must attend the discussions, and must deliver their sound judgements as to who is to be compensated payments for their participation in the removal and distribution of the wastes from the collection site, to the hogs and pig farmers, and as to how much should be dispensed, per each removal and delivery of human wastes.

Participating persons at the collection site, should elect attendants, and the attendants should regularly check on all points for the safe management of the collection site. Participating persons means, persons who are there for sexaling, and for depositing their holy, pure, sacred, powerfully cleansing, and GODLY sexaling juices at the collection site.

Nevada Power, and all other vendors, are not participating persons, and should not be construed as participating persons, regardless of what they might wish to think, and if they have any complaints, I authorise the killing of all persons who disagree, and persist in arguing that they are valid participants, despite their not participating in your holy sexaling, activities, as individuals, and not as company employees. No company employee, or personel of any kind, may participate, except as an individual, lone, and wholeseome, participating, sexaling agent.

A sexaling agent, is a person who is participating at the collection site to assist in the purifying of the parcel of land, on which I will build my ministry, with the assistance of my children, by their participating in sexaling activities, and by their depositing of their sexaling juices upon the grounds of the parcel of land.

How To Disperse Your Juices

Sexaling outdoors will normally require that persons are naked, and juices will naturally find their way to and into the ground. Men, boys, women, and girls, all must be naked, while sexaling outdoors, except for those persons who need to be on the move, such as male attendants, who will need to go around, periodically, checking on the points of interest, to maintain the soundness and integrity of the collection site, and of all things related to its operation and management.

Clothing

Clothes may be worn, at times while not sexaling, as particapating persons, decide.

Scarves, hats, and minor shawl like garments, Roman, Turkish, or Russian togas, or other comfortable sexaling apparel, for women and girls, to protect the dermal surfaces of the wearer of the scarve, hat, minor shawl, or other apparel, are allowed to be worn, while sexaling. We need every inch of dermal surface, bare and naked, if possible, or at least, accessible, to allow for maximum eroteming sensitivity, touching, massaging, tickling, and so forth, to heighten the erotic levels of excitement, and thrills, eroteming, orgasming, and phlumetting.

Men and boys may wear light weight garments, such as Roman, Turkish, or Russian togas, or other garments that do not interfere with access to sexaling buttholes, dicks, and so forth, for men and boys to be able to maximize their sexaling enjoyments, erotic attachments, their purposeful eroteming enjoyments, orgasming thrills, and pleasures.

Erotic Attachments

Erotic attachments refers to their titties, dicks, buttholes, mouthal holes, tounges, and other touch sensitive, eroticable and orgasmicable body parts.

Purposeful eroteming enjoyments means, their steady minded, determined, and sustained sense of attaining to the highest levels of eroteming enjoyments possible.

Leveling The Area

Some minor leveling of the area, for maximum use of the area, as an automobile and camper trailer, caravan bus, travel trailer, campsite park, will need to be done.

There are many tiny hills, and a few large ones. There is much dirt that can be removed, from the middle of the site, all the way back to the rear edge of the site.

There is a hilltop trailor park, past the edge of the rear of the parcel, and there will need to be built a very durable, and strong retaining wall, to keep that hillside, shored up, and to keep the trailor park from crashing down the hill side, after slide begins, and creep causes the trailor park to fall into the open area, that will be needed to be excavated, all the way to the rear of the park.

The grade or slope of the hill, need not be steep, but can be at a relatively low angle of ascent. An angle of between ten to twenty five, to thirty degrees, in graduations, from front to back, can be accomplished, with little difficulty, and with no disturbment to the trailor park, or disturbment to the integrity of the trailor park.

We need not seek any permits for construction, as I do not recognize the Lesbianists' governments, on this planet, and if any person shows up who says he or she is a county or city planner, inspector, or whatever, you are to immediately kill the person, and deliver three fivers to the persons' head, as that person is a Lesbianist attempting to interfere in my religious activities.

All activities at the site are to be done, without any interference from any public or other authority, and all costs for all changes and alterations to the site are to be financed by the local construction companies, who are working on the hotels industry, and they will cease immediately their work on all construction, private housing construction, casino construction, and all other towers construction, or work construction, other than the basic infrastructure needed to support the present population of Las Vegas, Nevada.

We are taking over this town and you all will begin to prepare to vacate this town and hand over all of your construction equipment, now, or face your companies and your private persons destruction with my fracturable rocks bombs, begining with the New Orleans Hotel, and all related hotels, and casions, bars, and restaraunts. That means,

every gambling establishment is to shut down, stop construction, and vacate this town, now, immediately, post haste, if you wish to live.

You will be destroyed if you refuse to follow orders. We are putting a stop to the non sense of the Lesbianists begining with Las Vegas, Nevada, Henderson, Pahrump, and all parts of Nevada and the Southwest.

You will disband your operations and hand over your companies, such as the water bureau, the power company, the gas utility company, and every other company, including all supermarkets, grocery stores, malls, and so forth, every last business in Nevada, and the south west, to the participants at the collecting site, to take over and then properly manage, until all residents of Las Vegas, remove themselves, to my kids facilities.

Is that understood? You are all resigning and moving into my kids place, underground, surrendering, and moving on for those who are not Lesbianists, but who wish to vacate this area, as this area is in whole, now, a religious grounds.

That means, that I will require the participants at the collection site to take over every thing, and to bring the news reporting stations to their knees, and force them to report the news, that every one is to retire to my kids underground, fortress, and they are all to remove them selves from Las Vegas, now, post haste, immediately, other wise, we will have a fractuable rock bombs throwing contest, to see who we destroy, first.

You must surrender all your holdings, owned property, equipments, and every thing else you call your own, and hand them over to the participants at the collection site.

Is that understood? "YES SIR!" had better be your answer, or you will find yourself on a one way ticket to my Epcot Center, with no return ticket, guaranteed, for however long it takes, to find you tummy mommies and tummy daddies.

I don't think there will be many volunteers, in the near future, as you are all abominant kids of mine, and the only kids people will ever bare, for some time to come, are abominant kids, and animals, and animal humans abominant kids, so I do not think you'll be leaveing my Epcot Center any time soon, if you resist and if you force us to kill you.

Is that understood every body? Good.

The penalty for not complying is death. Do you understand what I am saying? I hope so.

The Party Is Over In Las Vegas, And In The World

The party is now over, in Las Vegas, and at all casinos and gambling establishments, as we know you are all cheating, and we will kill every single last one of you to close you all down.

Who Is Staying And Who Is Leaving, Etc.

You will close down all of your establishments, world wide, and lock the doors on them, and then demolish them, post haste. Is that understood? I hope so. Either you do it, or we will do it. Do you understand that, now? I hope you do, because we are going to demolish every one of your establishments in this town, if you do not demolish them, yourselves. Every last one of them, all houseing, except for those noted in my children's compliance statements, which you are all to recieve, all trailor parks, with some exceptions, all every thing is to be removed, with only the basic infrastrastructure for heating, lighting, water, sewage, medical, hospitals, medical clinics, pharmacies, and so forth, food markets, services industry, HUD, Welfare, SSI, and other operations for the welfare of persons who are here, who can not leave, or who will be staying for some time, and who will be needing the services of those agences, construction companies, lighting companies, electric infrastructure installation and maintenance companies, as well as gasoline supply and distribution vendors, diesel fuels supply and distribution vendors, restaraunts, and telephone. That means, all humans are leaving, except for those person who are to stay on, as indicated in my childrens' compliance statements, and except for those who wish to stay on and participate in spilling their pure, holy, sacred, purifying juices, and those wishing to participate in purifying my area, all of Las Vegas, Nevada, the valley and beyond, in time.

Rules For Hospitals And Clinics, Etc.

There will be new rules for hospitals, and clinics, and my kids will see to it, that the new rules, are followed. There will be other rules, as well, and my kids will see to it, that they are followed, as well, or persons who wantonly disregard them, will end up in prison, underground. My kids have not only a living environment, they have prisons, as well, jail facilities, and many other things. Check with them for a fuller list, of what all they have in the way of facilities, as many are very nice, and there are great possibilities for improving your health, and rejuvenating your bodies, etc.

My kids have a full list of who is to be leaving, who is to be staying, and by when people are to be leaving, and where persons staying, are to be moving to, as we clean up this area.

All of you had better check with my kids, especially, you Lesbianists, but not only them, you religious fanatics, as well, and every one else, of course, or you, especially the Lesbianists and religious fanatics are at risk here, but not too much, the others who are to check in with my kids, risk dying, perhaps, prematurely, and then ending up in my Epcot Center.

My kids also have lists of who the people are who will be recieving all the properties for taking them over, which properties need to be demolished, who will be demolishing things, and how to remove those things that you must remove, and to where you will remove them, and

dispose of them, and in what manner you will dispose of them.

You will hand over every thing, and you will all comply, and those who are required to hand over their properties, after complying with removal demands, will hand them over, and then will move out and into my kids place, in accordance with the time schedule that my children have for you to follow. You are required now to check in with my kids, get every thing sorted out, and learn all the details, and then comply.

Those who do not follow these orders risk an early and, fortunate for us, timely meeting with death, and entrance to my Epcot Center for a long stay.

Erecting A Partition Blind On West Tropicana Ave.

The roadway, West Tropicana Ave. runs east to west, and west to east, and it is advisable to erect a pertition blind, so as to not disturb traffic, that comes down the side of the road, the parcel of land sits on, at very fast speeds, with people rubbernecking to see what is going on, as many people will possibly end up flying into the area, with their automobile, truck, gravel carrier, or eighteen wheeler spinnning and turning over, out of control, and then sliding off the roadway and into the collection site.

The traffic is very fact on West Tropicana Ave., and with the interest of the local area residents, who will learn about the collection site, and the activities at the collection site, there will be many hazzards arrising as a result. Some persons may decide to stroll through the area, to steal purses, or wallets, or cameras, and so forth, as there are many poor, indigent, or hopelessly poor, persons, in the area, who do not have any work, and who can not feed themselves, and they need to steal things, to sell, to earn a living.

Such people should be spoken to, and fed, and then warned not to act in an unrighteous manner, which means, please do not steal things, or damage the property, or any thing on it, and please do not get into fist fights, over insults, and disagreements with participants, about who is GOD, and so forth. There are many impoverished persons from South America, and Central America, who only know their local area witch doctor's teachings on voodoo men and voodoo women, and who know nothing but folklorish stories about gouls and ghosts, and people, or ghostly gouls, i.e., people immitating 'gouls', or mean and rotten people, who go 'boo!', or try to scare and rob people, in the night.

Electricity, Lighting, Etc., To Be Supplied By Nevada Power Free Of Charge, Or Else

The partition blind should be sturdy, tall, and break proof, so that vandals can not break it down, or climb over it. Lights for use at night, with the proper permissions for an electrical hookup from the Power Company, Nevada Power Company, will be granted, and provided by Nevada Power, along with all other neccessary, needed, safety lighting

hookups, to illuminate the area, fully, at night, so that it looks just like, or nearly like, daylight, or a well lit soccer areana at night, or a well lit professional baseball field, or football field, at night, and it will be given for free, lest we burn down Nevada Power, and kill all of their Lesbianists employees, and meter men, and all of their tawdry workers, who we do not wish to deal with. That means, we will blow up their buildings, and kill them all, unless they give us the electricity that we require. If we need to kill them all, we will then acquire all of their holdings, and we will operate all of them, ourselves. Fair Warning has been given, and consider that as a done deal, unless you wish to visit my Epcot Center.

Meat Vendors And Hispanics From Central And South America

An air of friendlyness, but caution, should be used. Men and boys are there to protect the women and girls. So, please work in teams, and do not let individuals, who might get kidnapped, and sold off to meat vendors, for a few dollars, or pesos, as it is, in Las Vegas, as the majority of such kidnappings and sales of human beings to meat vendors, the Lesbianists chain stores, such as Colonol Sander's Kentucky Fried Chicken, Burger King, MacDonalds, Jack 'n the Box, Wendy's, In-'n-Out, Fat Burger, Taco Bell, Dell Taco, and all the other, fast foods vendors, is by the locally landed hispanics from Central and South America, who need money, to stay alive.

Erecting A Partition Along South Decature Blud.

South Decature Blvd. also has much traffic on it, and there will be lots of people, rubber necking, to see what is going on, so a high, partition wall, made of lumber, should be erected down the side of South Decature Blvd. to prevent all such incidents of rubber necking, and reckess abandonment, from occuring.

The partition should be about ten to thirty feet high, and should be well constructed. Why so high? We do not want people climbing over it, to sneak into the area, to steal things, and to fight with people, and to cause trouble, and to come looking for young girls, and young boys, and helpless, elderly folks, and uneducated to the whims and ways of the downtrodden, brutal, abominant kids of mine, walking the streets of Las Vegas.

Yes. They are abominant kids of mine, and the proof of that is that their children come out as monkey people, and orangutan people, and chimpanzee people, and if possible, the hospital whisks the baby away from its mother, and disposes of it, in the prep rooms, used for killing incoming, abominant kids of mine.

Drawings On Demolition, Construction, Etc.

My kids have construction drawings for constructing all the facilities needed at the collection site for all the facilities that will be needed. They have electrical drawings for lighting, etc., health, fitness, and wellness facilities drawings, latrine facilities

drawings, showers facilities drawings, food and beverage eating and drinking areas drawings, and all other drawings related to all things that will be needed to be constructed, or altered in any way, for our project to proceed, including but not limited to, demolition of the cliffs, leveling of the entire area out to Harmon Ave. and up to Flamingo, and back to Tropicana, as well as what is to be removed and leveled between Jones and Decature. There are a few minor exceptions, such as the building that I am living in. Who will move where, to consolidate staff at this project, and who will be moving out, at this project, and what will be leveled at this project, are all detailed in the program specifications, my children have. My present quarters, will be my place of residence, as things move along, and in time, in accordance with the schedule for construction, a temporary facility for me will be constructed near the area but between Flamingo and Tropicana, and somewhere between Jones and Decature. Please see them for details. After the area is purified sufficiently, and after all the areas to be purified, are purified, and my children will decide on when that is accomplished, my children will then activate the technologies, and acquire the resources they need, and then they will build a more permanent settlement arrangement for all people concerned, who are staying on, if they decide to stay on.

The partical dismissive technologies and remissive technologies, for foods, and medicines, and other items that are needed, for continued survival, and for all other required purposes according to the specifications for the sexaling for a living programs, will all be provided to the participants who wish to stay on, and houseing for them, as well, will also be included. Parks will go up, and so will many other locally needed facilities. Many things will disappear, as my kids will partical dismiss the things and structures they need to remove, as they construct the new area, for all persons staying on in Las Vegas. My kids have a list of all the names of all the persons who may, if they decide to, stay on in Las Vegas, and not all of them, are local people, so you should all check to find out whether you name is on the list or not. All other persons, who are to be moving on, and all persons who do not wish to stay on, here, will be required to move into my childrens' present facilities, which they will continue to expand as we continue our program on this planet. We will eventually clear every one out of the area, inside and outside of Las Vegas and the Valley, and surrounding areas, and the world over, except for the persons whose names appear on the list, as houseing can be provided above ground, for participants in the juices spilling and areas purifying operations, by my children, if those persons wish to stay on and participate.

All other people will be required to move into the facilities my children have, and are continuing to upgrade, and expand, in their encapuslated living environement, in which, many people currently live. Persons in the encapsulated living environment, may also attend the collection site area activities, and future clearing activities, for purifying the areas with their pure, holy, powerfully cleansing,

purifying, cleericating [cle-er-i-cating], and GODLY energies filled, sexaling juices. Cleericating means, the same thing as clearifying. It is just a slightly different but related word from another a variant language of English, and to cleericate basically means the same thing as to clearify. When we get the areas, cleared enough, and purified enough, my kids will then start building things for the participants. All others will move below ground, and live in the encapsualted living environement, until they have earned enough money, with their friends, as talked about earlier, to purchase a lease on land, and acuire the lease on resources needed, to build a home, etc., for a large group of people, who will be living together, and working together in the sexaling for a living programs, and so forth.

When Will This All Begin?

As soon as people begin to comply, we will begin our efforts to clean up Las Vegas, to begin with, and then, the rest of the world, and then, the rest of our universe. It will take a long time, as we need to spill our juices, the lay persons, anyway, for some time, to come, as our universe is quite large, and so is the rest of it, that we are going to be recovering.

My Spilling Of My Purifying Sexaling Juices, And My Spilling Of My 'Prayer Time' Purifying Juices

I spill my juices, only for religious ceremonialing activities, during certain relgious ceremonies, and I don't spill my juices, on the properties, as I'm not set up to spill my juices, on the property, now, and will not be set up to spill juices, until I find an excuse for that, and an excuse for performing a religious hand prayer signaling ceremony that will require my spilling of my juices. It's pretty hard to spill juices, when there are no other persons working with me, and I do not work with lay persons, unless they are confirmed by me, and so there will be maybe, some confirmations, but not neccessarily so, as I do not know who is going to wish to be confirmed, and by the way, who ever it is I confirm, must realize that I am the Mother and Father of all human beings, animals, and living beings, and the Creator of my universe. There are not that many people who understand that, except for my kids, my working, unionized kids, and so it will be some time, yet, maybe a few hundred or more years, before some one realizes, 'Hey, he IS the Mother and Father of all human beings, etc., etc., etc.,"

Spilling 'Prayer Time' Spittle Generated While Praying

Until then, I'll use my spittle juices if I need to drop or drizzel any juices, that I generate while I am religious hand prayer signaling, as I don't like or care for the idea of jerking off in public, to spill purifying juices, in public, regardless of the fact, that I am GOD, so it ain't going to happen, any time soon. When I find a authentic 'believer' who realizes and understand that I am GOD, and so forth, I'll begin my public spilling of sexaling juices. I don't

mind it in private, but it is not going to happen in public.

Monkey Babies, Jimmy Carter, Oliver North, And The Lesbianists' Conspiratorial Bullshit Stories Of Adam And Eve, And "Jesus Saves"

Most people do not know this, but many births end in tragic loss of the child, because Jerry Falwell, Oliver North, Jimmy Carter, Ronald Reagan, George Bush, Jr. George Bush, Sr., and the rest of them, order and expect all the Lesbianists doctors to kill all babies born to people which do not look human. Doctors at birthing hospitals also comply, quietly, as it is hospital policy they can not break. If they go against it, they risk losing their job, and possibly losing their life. This is not a joke, and it is the Lesbianistgs policy of having all birthings in hospitals exactly for this reason, for disposing of non human looking babies, at birth, so that their bullshit creation by God, of a 'pair' of people, Adam and Eve, and that "Jesus Saves all good Christians", can not be contested, by logical proof of non human births to human being couples, or single parent women or girls. Abominant kids are born every day to my kids, on this planet, and they are all executed, or killed off by the local citizens, by their fright and fear of 'ghouls and ghosts' and 'goblins' in the night that go, 'Boo!'. These idiots, both the abominant South Americans, Central Americana, and all my other abominant kids, North American, Europeans, Russians, Chinese, Japanese, Thai, Philipine, and so on, must ask them selves why they are blessed with babies which are either not human or are abominant humans, or part animal humans. If they ask them selves these questions, they will find out the only answers are that these people born to them, are my children, and my children are born to them for reasons that have not been disclosed to them, before, by the clergical societies, i.e, the religions of the world, and by the other societies, set up by the Lesbianists, or by societies nurtured along as part of the Lesbianists' 'tragic comedy' of their toying with your lives for their humoring themselves, and for their amusing themselves. Once we get rid of the Lesbianists, and their ways of doing things, we will begin to see babies that are either not human, or are only part human, in animal bodies, and they will be born to all of you who are tummy mommies, and tummy daddies, if you birth enough children, to find out. How many is enough? About one in forty or fifty by my estimation, but depending on the person, it may be between thirty to eighty, from one person to the next. Take that to your pastor, and tell him or her, to stick it up his or her ass. It is the truth that animals are born to humans, all the time. Not only that, but abominant kids of mine, usually of the apey kind, but not always, are born to the 'normal' looking humans on our planet, and in our universe. We need not be afraid of these children, as animals, can be collected and put into zoos, and animal humans can be raised by the parents, or parent, in the case of a single parent. In time, we will adjust to this reality, and we will raise fine children, abominant animal humans, or human appearing abominant children. That means you are all abominants, and the Lesbianists are laughing at you, and at themselves as well, as they go around and kill and cravenly torture every

possible person they can. We will put an end to their craven ways, and we will make a wonderful universe for all of us to live in, in peace, and serenity, once we get started practicing my religion, and once we begin erasing, sufficiently, our karma and our karmic markups, with your purifying sexaling energies, prayers, and other activities, such as syncopated dance, syncopated excercise, syncopated sexaling, and so forth. You time it to the metronome at one thirty seventh, for now, and that will be fine. In time, we will get accurate metronomes, and then we will chance the pace, just ever so slightly, to push my kids along, as I explained about, for our wholesome and healthy universe, for all of us to live in, together with each other.

Punishment For People Who Practice Voodoo Religions Is Dismendment, I.E., Death

We will not be killing or executing children any more, at hospitals, or at homes, or in primitive, backwards towns and villages, or rural hideaway villages, where voodoo religions muster the people into peculiar states of mind, where they become entranced, and then begin mindlessly, acting like chickens, and birds, or fowls, or hippos, and so forth. There are too many of these types of so-called 'religions' in this world, and we are out lawing all of them, and punishment for adhering to them, will be a trip to my Epcot Center, as I have my children particle dismiss their bodies, and then dismend them, bit by bit, into their base components, and then have my children whisk them into my Epcot Center. We will bring every one up to the level of education every one needs to be at, to better understand my universe, and those who persist in abandoning their obligations, will be dismended with out further notice, after they are sent their last warning ticket, from my kids, in accordance with Gurkian Law. That also applies to the Lesbianists, and to every one else, who is unable to get the picture here, and get with the program. There will be no exceptions. And, this is not a joke. My kids have courses for you to educate your self in, to pull yourself out of the past Lesbianists' way of life and thinking, and into the new and current, reality, that we will be living in, for ever, from now on.

Local Businesses Will Have No Problems At All With The Collection Site And Will Have No Problems At All With The Activities Of The Faithful At The Collection Site

Walgreen's is across the street, on one corner, and Home Depot is on another corner. I don't think Walgreen's will have any problem with you using the site for your camping, for your meeting with others, for your sexaling with others, and for you and your friends' purifying sexaling activities in that park, i.e., the collection site. Home Depot, I don't think will have any problem with your use of the parcel of land, either, for those purposes.

What To Do If The Police Come?

Now, if the police come, and I'm there or not, I don't know what they'll say, but they have not got any right to say any thing to any one. Is that clear, Mr. Mayor of Las Vegas, and every one else in the area. I hope it is, as I am not going to stand for your interference or any one else's interference in my religion and in the relgious activities of people who wish to participate in my religion, sexaling to purify my universe. IS THAT UNDERSTOOD, MR. MAYOR AND EVERY BODY ELSE? I HOPE IT IS! AS A 'NO SIR' WOULD BE UNACCEPTABLE!

Now that we have an understanding, I think there will be no problems, and if there are, I will see what I can do about it, by calling my kids up, with my religious hand prayer signaling ceremonies, to see what they can do for you, to help you out, and to break the backs on law enforcement officers, and the Mayor of Las Vegas, and every other person, Lesbianist or not, who tries to interfere with me, or who tries to interfere with the people practicing my religion. I will not stand for any interference from any one, including Mr. George Bush, Jr., the current president of the United States, or any one else, such as the Mayor of Las Vegas, or the Governor of Nevada, or the Nevada Highway Patrol, or the Nevada Sherrifs Dept. or the Las Vegas Metro Dept. or with any other persons or parties, such as the Las Vegas Gaming Commission, or any other Lesbianists' or Lesbianistic organization set up by the Lesbianists, and that means all you church goers, parochial school teachers, and students, and others, and if any one interferes with any one who comes to my ministry's claimed parcel of land that I am purifying for setting up my ministry, and if any one hassels any one there, than who ever is visiting the collection site, to help to purify it, you have my permission to kill the persons attempting to interfere in any way at all, on sight, with what ever you have to kill them with. Please dispose of their bodies in the nearest trash dumpster.

DO YOU HEAR ME? MR. MAYOR. YOU ARE A DEAD MAN IF YOU EVEN TRY TO SEE WHAT MY RELIGIOUS FAITHFUL ARE DOING, AND SO IS EVERY OTHER PERSON ON EVERY SCHOOL BOARD AND CHURCH OR OTHER LESBIANISTS' COMMITTEE. IS THAT CLEAR, EVERY BODY? GOOD!

You will not interfere with my religion, and with my religious faithful, and they will come to Nevada, and they will come to Las Vegas, and they will start sexaling on that property as they see fit. Does every body understand that? I hope so. Now. Non responsive persons, who ignore my statements, will find themselves in trash cans, and trash dumpsters, every where in Las Vegas, and any where else, where there is a convenient trash can or trash dumpster. There are lots of them around, and people are throwing dead people into them, every day, across the country and around the world, and they all end up in landfill sites, and so there will be no added charges for our using the statewide Nevada Silver State trash retainers and containers, for however many others who need to be killed, and for my religious faithful to then place them into the trash cans and trash dumpsters. No charges should be levied by any other Lesbianists' trash collection company, around the world, as they are all owned and

operated by the Lesbianists, and we will not support them, in any way, what so ever.

If Mr. Mayor would like to be the first guest inside of one of the Nevada Silver State trash dumpsters, then he will try to interfere, in person, and he will be shot, point blank, in the center of his head. You will then kill him with three fivers, to make certain he is on his way to my Epcot Center, for his next trip out as a tummy baby. If the Governor of Nevada wishes to interfere, then he does so at the risk of being shot, killed, and made certain he is dead, with three fivers, and then after that, he will be deposited into a local or state trash dumpster, either here, in Nevada, or in California, or Arizona, or where ever it is convenient to dump him into a trash can, trash container, or trash dumpster.

Lesbianists Enjoy Eating People, Who Are Alive, As Well As Eating The Bodies Of Those Who Are Dead

You should let the state's vice mayor of Las Vegas's office know, who was shot, killed, and confirmed dead, after depositing three fivers into his or her head, and then where the body is, and generally when the body was dumped, so that they can get an idea of how decomposed the body is, and whether or not the body is in a land fill site. They can then check on it, and verify that the body will make it to the land fill site, if it isn't already, there, where all the other bodies, are ending up, unless they have already happened to have beeb eaten up by the Mayor, or by the friggen Governor, or by the Sherrif, or by another Lesbianist.

All persons are free to travel to Las Vegas, and they are invited to stay at the parcel of land that I described, and they are invited to make it into a nice camper trailer area for recreational vehicles, or for what ever other types of outdoors camping vehicles, travel trailers, caravan buses, or any other types of camp site temporary stay, housing and living arrangements you would like to use the area for.

Every Game Of Chance, Gambling Machine, Or Slot Machine Is Rigged, In Every Casino Around The World, With Only A Few Exceptions

If you will all sexal, regularly, to the best of your abilities, and help me to purify the area with your sexaling, undisturbed by any one, and clean it up with your purifying energies, you are more than welcomed to come and enjoy the area, and see what fine attractions, will be leaving Las Vegas, in the not so distant future, including the gaming commission, with all their phoney, rigged gaming systems, that the Lesbianists control.

The Lesbianists' Articles Of Participation

The Lesbianists have every game that you can possibly rig, controlled by electronics devices, or by slight of hand, mechanics, who control the gaming rooms, and gaming halls, so that only Lesbianists win any

money, that is worth mentioning about, and so that the Gaming Authorities, and the Mayor's office, and every other Lesbianist organization in Nevada, who has any one in their office, can then go and get the money the Lesbianist won, and get a percentage of it, given back to them, as they have arranged to do that, as that is part of their oath, and part of their sworn promises to do, as that is written out in their articles of participation, their rules for living upsite, not down below, in the labrynthine cities, and every Lesbianist must follow those rules, and when they win the Megabucks, and every Lottery in the world, they must give back money to the Lesbianists, as every game of chance that is run in this world, except for bingo, is rigged. However, even Bingo is rigged, in some ways, by people switching cards that look like winning cards, while players are not looking, and by other naughty tricks.

Every Lottery In The World Is Rigged

Every lottery in the world, performs the drawing out of the balls before a live audience, in most cases, before they actually air the show, and they have illusionary tricks they play, with the technologies they have, and they sucker people out of their money, daily, around the world. Las Vegas is no different, and they sucker every one out of their money, except for the Lesbianists, and they let some people, win now and then, small jackpots, on the gaming machines, and then after a winning streak, they set the machines the person uses, so that the person can not win a dime. They have the technologies for rigging every machine in Nevada, and across the country and around the world, so next time you visit one of their casinos, be sure and detonate one of our bombs, you can make, and destroy that casino. Is that understood? I hope so, as every day, millions of people are being suckered out of their hard earned money, they pay taxes on, through the nose, till they are practically choking, and the Lesbianists take it, and support their folley and games. They also support their folley and games with your revenues, that they make sure you lose, at every casion, and at every gas station, with a convience store, that has gambling machines in it, for you to deposit you money into. Every lottery in the world is rigged, and so if you spend money on it, if you are not a Lesbianist, you are just throwing your money away.

No Fair Play In Nevada, And No Fair Play In The World

There is no fair play, here in Nevada, or any where else, in the world, and I would like you all to know that, and become aware of that, and then I hope you will tell your friends about it, and then I hope you will destroy every single last one of their casinos, and gaming machines. We are not going to allow them to continue their frolicking at your expense, and we are going to destroy every last one of the Lesbianists, as soon as we can. If they prefer to surrender themselves to my kids, than we can allow them to live. However, if they do not surrender themselves to my kids, then we will kill them

all. And there are no 'maybe's' about that.

Sniper Shooting, And Miscellaneous Information

You have my permission to sniper shoot any police officer, park ranger, sherrif, or other person, plain clothesed police officer or detective, with or without a gun, on sight with your scoped rifles, and targeting assistant who will determine range, from your bunkered in the hillside, shooting site. Any hotel in the area, which might harbor shooters from local police, sherrif, or SWAT team operations groups, you have my permissions, and blessing, or go ahead, and my 'okay, and 'approved for action' sight of appeal. Sight of appeal means, my blessings, based on your determination as per your good judgement.

One hotel that is clearly the most convenient, and the closest with in shooting range, at close range, is the New Orleans Hotel. Hotels within shooting range, at a distance, are the Palm's Hotel, The Rio Hotel and Casino and its seperate tower wing, and a few others, off in the distance. You'll have to come and look at them from the approximate location of the site after you determine where every thing is, to locate and determine for your self which hotels and towers need to come down, and what you will need to bring them down. There is a tower off in the distance, a new hotel, that is going up, that I do not know the name of, but is clearly within shooting range, and needs to come down, and people are on it, daily, welding, and you can't miss it, if you look in the north easterly direction from the site. There is the Stratosphere Hotel and Casino, which also needs to come down, which is further over to the west from the new hotel wing that is going up. There are many scaffoldings in the area, that also need to come down with explosives, fracturables rocks, fuels, chlorine, and high temperature minerals particles ignition, and particles burnings bombs. There are probably a number of other landmarks, hotels, casinos, bars, restaraunts, trailor parks, trailors, houses, apartments, condominiums, near or off in the distance, that also need to come down, and need to be demolished with my light weight explosives fuels, gunpowders, metals particles, and chlorine plastique explosives bombs.

You will destroy them all, and you will come prepared, or be prepared to acquire all the demolitions needed to destroy them all, as well as to destroy all the local police and sheriff's many Metro offices, SWAT Teams offices and units, Fire and Rescue Ambulance units, Lesbianists' Hospitals, and other Lesbianists facilities, throughout the Las Vegas Valley, Henderson Nevada, North Las Vegas, Pahrump, Mesquite and the whole Southern Nevada, westward to San Diego, California, northward to Los Angeles, northward to San Francisco, California, northward to Berkely, California to Oregon, and Washington State, and back down to Reno Nevada, Arizona, New Mexico, Albequerque, Houston Texas, Dallas Fort Worth Texas, and all areas where there are tactical SWAT team units, military units, militia units, as all militias are organized

and operated by Lesbianists, despite popular beliefs that they are independent of the government, and anti government, as we often see on the "TV for the Brainless", as they are often refered to, i.e., the general public.

You will destroy all law enforcement offices, and personel, and all military and militias. All governments, their offices, and employees, are to be destroyed, and all personel are to be executed, except for those who take it upon themselves to execute the Lesbianists among them. My kids have a full list of all the places and structures that need to be destroyed, and demolished, and so please see them for that information.

Your Orders Are To Kill The President Of The United States And His Wife

And to repeat, your orders are to kill the president of the United States, George Walker Bush, Jr., his wife, Mrs. Barbara Bush, Jr., and all of his and his wifes' Lesbianists' associates, pretend relatives, and friends.

We are not going to let this stand, another moment, and if they do not surrender to my kids, you are to execute them all. My kids have a list of names, of those, who have not surrendered, as yet. Please see them for and ask them for that list of names of persons who have not as yet, surrendered, and who need to be executed, post haste, immediately, or, ASAP.

United States President George Walker Bush, Jr., is no exception to this, as he has not surrendered, as of yet, and that is confirmed. Neither has any of his colleages, or congressional office holders and diet or congress members, except for Ted Kennedy, and one or so others, and maybe a cabinet member, one or there abouts, but I haven't confirmed that, yet. There are some members of the congress who are not Lesbianists, and you can get their names, on a list from my kids, as well.

Captain Off The Bridge.

Texas's Lesbianists' Latest 'Vaccine' And Texas's Attempts To Destroy Women's And Girls Vaginal Lining And To Destroy Cervical Lining, Causeing Stillbirths To Increase, And To Prevent The Successful Birthing Of Children

The latest attempt by the Lesbianists' governments of the world, near by my computer window, on the internet news services, to destroy and toy with the human population of this planet, has been launched in Texas, and is targeted at women and girls, and their ability to have children.

See the article at the end of this post.

The new vaccine, which is mandated by Governor Rick Perry, who signed it into law, and is now obligatory, unless you protest it, and go to

court, and spend years fighting it, as an individual or small group of claimants, will destroy the vaginal cervical collar and the lining that holds every thing in place, and supports the interior of the vagina, thus making it impossible to carry a fetus to term. The vaccine is also targeting the brains fibers throughout the human body, and the fibers of the brains in a woman's or girls' body will slowly rot, and decay as they are eaten up by tiny animals that eat these energies conducing fibers, synapses, relay switches, and other related energical brainal related things and dings thoughout the body.

Latest Lesbianists' Vaccine Will Cause Numerous Problems

It will also speed up the eating away of the enamel of the teeth, and of the bones in the woman's and girl's body, her fingernails, and her skin membranes NS membraneous tissues throughout the body, and on the exterior of a woman's and girls' body, making the women and girls grow older looking at ever more younger ages, and making women and girls susceptable to skin cancer, melanoma, herpes, genital warts, other infestations of animals in the skin, and other skin related membrane destructing colonies of animals, that they use from out of their Bio Chem War encyclopedia of how to destroy human beings, with poisonous and health problems causeing crystals cages animals of all kinds. Especially numerous are the Bio Chem Warfare crystals cages animals of the petroleum industry's based kind.

The vaccine is no different from any other of the Lesbianists vaccines aimed at destroying the health of the people who live on this planet. It is compared to the 'polio' vaccine, in the news article, and that was similarly an attempt at destroying the health of the human being, by making the human being incapable of haveing any sexual orgasming capabilities, by killing off all the sex related animals and bugies in the body, which make sexaling juices, that make eroteming and orgasming possible.

Thus, this latest attempt at destroying the health of the people who live on this planet, locally, in Texas, and that I know of, anyway, is nothing more than the Lesbianists toying with the people who they are here to amuse them selves with by destroying them, little by little, over a long period of time.

Execute United States Of America, State Of Texas, Governor Perry And Family

This will not stand, and you will all destroy the capital of Texas, and Governor Perry's mansion, and the Governor and his wife, and their family, pretend or otherwise with my fracturable rocks and fuels chlorine and explosives, etc., bombs, that you will make in your home's garage, or workshop, safely.

Underground Books Distributor's For Militia Types Folks

Use the delayed timer invention, that is a workable time delay detonator, that I've explained about, especially if you use black

powder gun powder, mixed with axel grease, turpentine, benzine, chlorine, using also some Elmer's glue, prior to mixing with chlorine, and then set it in a warm cupboard, to ferment for a few days, to then turn into a nice plastic explosives mixture for detonating with the string of flash bulbs wired to the alarm clock trick, as described by Ragnar or by one of the other bombs making specialists, in their sub culture literature for militia types folks, who wish to destroy the government.

They find the list of names of all the people who request the literature, by mail, and then they go and watch them, with their surveilance technologies they have, and then they either capture and torture them, and then kill them, or they just make sure they are die, in a fatal car accident, or whatever.

Paladium Press is one of the Lesbianists' book publishers, and there are others, and this one is affiliated with the National Rifle Association, a Lesbianists organization.

This publisher has titles sold to underground books distributors, and you can find a number of underground book distributors on the internet, which carry more titles than Palladium press.

Delta Press, who publishes their books and paraphenalia distribution listings magazine, 'Delta Force' is one of these distributors of interesting underground literature.

http://www.deltaforce.com/catalog/page30dp.html

'Home Made Fireworks', is one web page to look at, if you have the time.

http://www.deltaforce.com/catalog/page28dp.html

'Booby Traps, Explosives and Black Medicine', is another useful page to look at, as well.

http://www.deltaforce.com/catalog/page30dp.html

There are a number of other distributors of underground literature, and some have better selections than does Delta Press.

In any case, with a little research, there are plenty of 'timed detonation devices' drawings, and explanations, for you to view, and learn from, that will help you to construct a timed detonator, that will allow you to safely set off one of your plastiques bombs made with my explosives formulas.

Paladin Press, you can find their books at Amazon Books on the web, another Lesbianists owned corporation, is another publisher of interesting underground literature, that can be useful for you to study and learn from.

Paladin Press can be found at, http://www.paladin-press.com/

Books for supposed 'Professionals' who are anti terrorists professionals, that allow them to detect the different types of bombs people can make, and then use to destroy others, is sort of a tounge in cheek joke of the Lesbianists, for luring in people who wish to find information on bombs and explosives.

There are many useful books published to help beginners understand the basics of bomb making. The idea is to use the information for professionals who wish to understand the craft of making bombs, and detonating devices, and then use that information to build your bombs and your detonating devices.

The flash bulbs wired to an alarm clock with matches and ignitable phosphates glued to a string of flashbulbs, wired properly together, then crushed, so as to expose their flash and heat ignition coils filaments, for your detonating heat energies ignition needs, is one of the basics and you can find it in one or another of the underground books on bombs making and detonation devices making for 'professional' anti terrorist's private investigator or bombs detection professionals types.

This is one of the ways the Lesbianists lure in persons who know nothing about weapons, and then they find out who they are, and then they make friends with them, and toy with them, and introduce them to their Lesbianists' friends, and hang out with them, and pretend they are all friends, then one day, they all attack the person, and torture the individual, and get their kicks, amusing them selves, by ripping the person up, or by hanging, and nailing the person to a wall, with a nail gun using, approximately, three inch nails, and then hammering in longer, seven inch to twelve inch nails, or larger ones, or other similar nonsensical, childish, but fiendish behavior.

The "BRUTAL ART OF RIPPING, POKING & PRESSING VITAL TARGETS"
"by Loren W. Christensen"
http://www.paladin-press.com/detail.aspx?ID=1441

Is a beginners guide to ripping people apart, one arm, or leg, at a time, or with team work, one half of a person can be ripped from the other half, if you hold the right bones in place, and then, using teamwork, rip the person into two or more pieces. This book gives a person a preliminary sense of what he or she can muster, as an individual who attempts to rip at a person, and tear the person apart, one limb at a time, or with friends, how to rip a person up, one piece or more, at a time. Ripping people up is accomplished best, if they are unconcious. If they can not fight back, or resist, it is easy to rip a person apart, if you have the needed strength. Since many people have ancestors who were monkeys, chimps, orangutangs, guerillas, and so forth, with tremendous muscles strength, there are lots of very tiny persons, with phenomenal strength, and they can easily rip a person in two, by them self, if they try.

Books on booby traps for law enforcement personel, are simple descriptions of bombs that they may or may not encounter, and there

may be some useful information in some of them such as,

"BOOBY TRAP IDENTIFICATION AND RESPONSE GUIDE FOR LAW ENFORCEMENT PERSONNEL"
"by Tony L. Jones"
"This manual teaches cops and other law enforcement personnel all they need to know to recognize a booby trap and respond properly. Find out where booby traps are most commonly employed; the 11 physical signs that most often signal a trap; what to do (andnot do) if a trap is suspected or found; how to safely search a building, outdoor site or vehicle; and the one indicator that practically guarantees that a building has been booby-trapped. Shows more than 90 different booby traps in place. For academic study only. 5 1/2 x 8 1/2, softcover, photos, 80 pp."

There are others, which you can also find, that will provide schematics, and drawings of useable ambush related devices, and detonators for them.

"Contingency Cannibalism", sold through Paladin Press, and other 'underground' book distributors, is one of the Lesbianists' favorite books, that help them to track persons who they would like to later, cannibalize, themselves, as a joke on the person.

"CONTINGENCY CANNIBALISM"
"Superhardcore Survivalisms Dirty Little Secret"
"by Shiguro Takada"
"This twisted, tongue-in-cheek look at cannibalism as a last-resort survival option analyzes real-life case studies and historical episodes of cannibalism. Then it examines the hard-core decisions and gruesome details one must know in order to partake in this grisly practice. Recipes included. For entertainment purposes only. 5 1/2 x 8 1/2, softcover, 160 pp."

The Rusksack, "Survival Information Clearinghouse", is just one club of members of mainly Lesbianists, who have fun toying with the people who live on this planet.

http://therucksack.tripod.com/survival.htm

Information On Bombs Making And Detonators On The Web

For information on making detonators, and other bomb related stuff, please see this web page as it costs nothing.

http://www.bombshock.com/archive/Homemade_Bombs/

Solar Flares And Flare Igniters

A solar igniter as talked about in the article on page,

http://www.bombshock.com/file9/crtrmkr.txt-Crater_Makers-932.htm

'Crater Makers', is a solar flare igniter, a device that is used in solar flares, or night time distress signal flares, that ignite the flare, by sending an electric battery current into the flare phosphates holding tube, down a wire, on an ignition circuit, and then igniting the distress signal flare.

You can find solar igniters inside of distress signal flares that are used on boats, for shooting up into the air, with a flare gun for maritime use, that will send the distress signal flare up into the sky, if you have the flare gun pointing in that direction, and then at a certain altitude, a trip switch circuit is activated, due to air pressure, or due to timing from time of departure of the distress signal flare from the flare gun barrel.

You have to exhibit extreme caution, when taking a flare apart, as it can detonate, accidentally, and they are not made in a way so that people can safely take them apart, and people who try to take them apart, are accidentally injured, on a regular basis. Do not use this, if you do not know any thing about demining, as a professional mine deactivating specialist in the military, or with military training. This is best left up to the professionals, and is not meant as something the average house wife, business man or business woman, or chemistry or other studies, school student, should attempt.

You can use a flash bulb, and get the same results, if you glue some gun powder and phosphates to the flash bulb housing, and then crush the glass, and then wire it properly to a common house morning wake me up, alarm clock with a striker bell and a striker that moves back and forth. The circuit is simple, and you can figure it out with little difficulty.

The Lesbianists' Balooney On Minus Charges As Opposed To Positive Charges

Remember the minus sign on a battery is where all the activity of the little energies kids is going on, and the Lesbianists purposefully teach that the positive side is where the current is moving out of, and around towards the negative side of the battery. The Lesbianists teach that the active side of the battery is the plus or positive side, or the side with the plus sign on it, when you look at a common house hold nine volt battery, and that the non-active side is the negative side, or the side of the battery with a minus sign. This is false. The side with the minus sign on it, is the active side, and that is where you do not want to wire any thing to, unless you know what you are doing. The positive side has no activity going on, and is safe to touch, but the other side is not safe to touch, and the testing meters are wired to show you that the reverse is true. They have tampered with the design of testing meters, so as to support their allegation and falseity, that the minus side is where there is no activity, contrary to the truth.

That means, that, the flash bulb igniter system and the flash bulb itself should indicate that one side is the positive side, for the

positive wire to be attached to. You had better check carefully, and make sure there is no mischief here, as you do not want to detonate your igniter, accidentally. Ask a qualified electronics specialist to do all your wiring of your detonators, as he or she is the only person qualified to wire these types of detonators.

The Lesbianists' Maps Of The Brains

It's rather confusing, the way the Lesbianists have reversed things, and have messed around, so as to thwart your attempts to make nice detonators that work every time, unless you have a normal set of brains, which unfortunately, I have not got a pair of, or triple set, or more of. That's sort of a joke. On a magazine, yesterday, I saw how the Lesbianists teach that one part of the brain is for speech, and one area of the brain is for speaking, and one area of the brain is for sight, and one area of the brain is for logical thinking, and one area of the brain is for signing, or one area of the brain is for artistic inventioning, and so forth, but that's a lot of hog wash.

The brain is not partitioned in that way, and they know it, and they are misleading every one, and laughing at all of you while they are doing it, with their 15th to 17th century style drawings, that they have plastered on all the Time magazines, or what ever magazine cover it was on, that I saw in the check out lane, at the super market, yesterday. You have kazillions, and more of parts to your brains, and there are so many, it is unlimited, nearly, and your brains are so complex, and you have got brains in lots of other places in your bodies, other than in your head, and I'm not going to go into that one, now, but the Lesbianists are lying through their teeth, when it comes to this type of pseudo historically backwards, archaic, or cave dwelling human's notions on science, that should insult a first grader, or kindergarden school student, or preschool student.

In any case, ask your local electronics' specialist or house hold electricians' specialist, or handy man repair persons, who work for house hold water heating devices installation companies, or other electrical home appliances sales and installation companies, who also get confused, from time to time, as I've witnessed them, personally, blow up breaker circuits.

Get a qualified, and that's hard to find in so far as I've witnessed them at work, electronics' specialist to wire your detonators, or go take a course with my kids, as they have courses available on wireing such devices.

There is no minus charge, and there is no positive charge, and that is what you should understand. There is a side to the battery where there is lots of activities going on, and that is the minus sign side on the battery. The positive sign side on the battery is where there is little to very little or nearly no activity, but no activity is not the truth, either, as there is activity, you just can not measure it with todays' electronics measuring devices, as they are not

technologically sophisticated enough to be able to detect the activity, though I'm sure there have been intrepid scientists who discovered that both sides of the battery have activity, and then they were shot and killed, after that discovery, by a Lesbianist assasin, or by a hired assasin, assigned or paid to kill the scientist who discovered that there is activity at the 'minus' side of the battery as well as at the 'positive' side.

That means, that you need only concern your self with the 'minus' side, since you will not be able to detect any thing at the positive side, unless you use the reverse wired electronics and electrical energies detection devices that the Lesbianists market through Tandy, or Radio Shack, and at Sears, and so forth.

It gets confusing, a little bit, doesn't it. Anyway, go and take a course at one of my kids classes, after you sign in, and swear in as a jr. member to our new country, which I haven't sworn on to, as yet, or joined - but though I am the boss of, regardless - since my kids do not speak to me, on a daily, or weekly, or other basis, and I just happen to be able to know what they are doing as they tell me what they are doing, through some secret port hole in one of my brains some where, in my toes, or nose, or who knows where, as they telegraph or some how signal in, using semiphore signaling, or probably hand signaling, that my brain then catches, and then passes on to me, their messages that they signal in to me, and the news, as well, about what they are doing, and about what is going on with them, and about what is going on with some other things, as well.

Since I am GOD, I happen to have a right to know this stuff, what they and every body else is doing, on a daily basis, but they haven't told me how my brains catch their information, yet, or the other information that gets there, some where into my one or more of my brains, and I haven't figured it out, yet, myself, either, though I think I know something, a very little something, about how it works.

This does not mean, that my brains are unreliable - except for my memories areas of my brains, in particular - but that I am just waking up to what is going on, here, and I have a few kazillions of years to work out every thing, or some of the basics, any way.

In any case, you have all been snookered by them, with regards to their non sense sciences, and you are being laughed at, and toyed with, daily by them. That happens to be the truth, whether we find it pleasant or not.

Execute The Current President Of The United States Of America, George Walker Bush, Jr.

In any case, the Lesbianists are a twisted group of individuals, who toy with the people who live on this planet. Mrs. Hillary Clinton, Bill Clinton, George Walker Bush, Jr. President of the United States, his wife, Barbara Bush Jr., George Bush, Sr., former president, and

his wife, Barbara Bush, Sr, are all gagsters, or jokesters, who wish to only toy with you, and eat you, or deprive you of your life, and of your rights, in fiendish and horribalistic ways and manners.

They are all to be executed, especially George Walker Bush, Jr., President of the United States of America, currently residing at 1600 Pennsylvania Ave. Washington DC, in what they call the White House. You are to kill them all, and send every last one of them to my Epcot Center, as soon as is convenient for you.

Lesbianists Who Decide To Sexal In My Religion With Lesbianists And Non-Lesbianists' Persons

If any Lesbianists decide to sexal in my religion, with their friends, and their friends may include other Lesbianists who decide to sexal, as well, as well as, other people they know, then they may begin sexaling with their friends in my religion, however, they must have a pentative attitude, and they must say they are sorry, and they must now and then, when they feel they wish to, and feel emotionally and mentally capable of speaking about it, they can talk with their friends who they are sexaling with, and with others who wish to listen as well, and they can denounce the Lesbianists by telling people about the things the Lesbianists do, and did.

If they decide to do this, this is the same as surrendering, and my kids will protect them from other Lesbianists who might want to harm them. They have not sworn in, as a citizen of my and my kids' country, and as citizens of our country that every one is swearing in to as citizens, but it is sort of a promise to swear in, informal gesture that they are committed to, once they begin sexaling with their friends, and with other Lesbianists, who also wish to sexal and in time, denounce the Lesbianists with them.

Citizens By Proxy

By denouncing the Lesbianists organization, and by telling people about what the Lesbianists do and did, they are essentially stating they are sorry for what has happened, and that is a pentative attitude, and with that pentative attitude, they are accepted as citizens, by proxy.

Temporary Full Time Citizens

Citizens by proxy means they are accepted by my kids as pentative persons, who wish to join our country, and who there with, qualify as citizens of our country, in an informal manner. Citizen by proxy means, they give up their old citizen ship, to whatever government they used to belong to, and they are taken in, as temporary full time citizens.

Temporary full time citizen is a term that means they are full time citizens, but on a temporary committal agreement, and that will be made permanent when they have the chance to meet with my children, and

then can swear in, as a permanent full time citizen.

They can then participate at the collection site, in the activities that will be going on, with others, who wish to participate, as they spill their juices, and purify the area with their sexaling juices.

What To Do About Untimely Pregnancies, Health Issues, Medicines, And Regroverative Formulas

My kids will deliver to them, to the men and to the women who surrender and become citizens by proxy, and temporary full time citizens, the needed medications that will help to make their bodies, wholesome and well, and regroverated, as well as the medications that are needed to prevent untimely pregnancies.

Medical And Housing Benefits, And Other Health And Work Related Benefits

My kids will make certain that they will be given the right medications, and my kids will also provide all the same medications for each individual who participates in the collection site activities to purify the area where we will one day set up my ministry with my kids assistance. My kids will also set up other facilities, as well as the ministry facilities. The other facilities will be scattered through out the valley, and they will be the houseing units and other facilities for people to use to become physically fit, well, and well nourished, and healthy, such as gyms, aerobic studios for practicing aerobic dance, and aerobic excercises, as well as sauna and health spa, and swimming, tennis, badminton, cricket, and other sports facilities for baseball, rugby, foot ball, for those who wish to play a friendly game of foot ball, now and then, with the needed bleachers, lighting, and other supportive facilities for allowing persons to attend and watch the games that are going on, not only for foot ball, or for base ball, but also for tennis, soccer, rugby, and all out door sports facilities that will be needed.

When will my kids set up these facilities? They will set them up at the same time or shortly there after, as my kids begin to set up my ministry facilities, and the needed facilities for living and working in the valley area, sexaling for a living.

At that time, the citizens by proxy, and all other persons who have not yet sworn in, but wish to, will have the opportunity to swear in, and then they can enter and use the facilities full time, twenty four hours a day, without any further discussion about it.

All people who participate in the collection site activities, are also citizens by proxy, and as such, will automatically qualify for all medicines, all health supportive medical formulas, and all youthfulness prolonging, or regroverative formulas, that will feed all the amoebes, and other cells, or living beings in your bodies, and that will feed all the living beings in your bodies, that will then allow you to enjoy full regroveration of your body and rejuvenation of

your youthfulness, youthful energies, and of all the other health benefits that accompany a youthful body, such as more energy, a stronger libido, a more healthful body, and so on.

When do people begin this participation in the collection site activities? As soon as they come out here, to Las Vegas, and arrive in their camper trailers, or caravan buses, or other vehicles, or with their camping gear such as tents, and cooking grills, and so forth.

When Can People Begin To Come So As To Be Able To Participate?

How soon can people begin coming to participate at the collection site in the activities that will be on going at the collection site for some time to come?

They can begin coming to participate any time. My kids will watch out for the safety of all the people who come to participate in the collection site activities. My kids will prevent accidents such as current Lesbianists shooting at people at the collection site, from high rise towers, scaffolding, tall cranes, or from hotel and casino properties owned by the Lesbianists, and from other tall condominium and also from tall apartments buildings and also from normal sized, two or three storey, to eight or so stories, apartment buildings, in the area. Of course, my kids will prevent accidents from happening such as shootings, from all possible locations, and not just from those named structures and locations.

Sniper Points, Places Where Snipers Shoot From

There is no need to blow or destroy them with explosives, in Las Vegas, as there will be no way any one can use those hotels, and other structures, as shooting or sniper points, places where snipers shoot from, to harm any one who is participating at the collection site, in the collection site activities.

In time, every thing will be worked out, and all the people who must hand over their companies, or disolve their companies, and sell or get rid of the assets of their companies, all of that will be in compliance with my childrens' instructions with regards to it, as I've stated about it, already, in brief.

Once the facilities are set up by my kids, and people swear in formally, then my kids can begin to pay people their earned income, for the work they did as they sexal for a living, and for their work, as they spill their fluids, to purify the collection site, the collection site area, and the general vicinity.

Pocket Knives, Construction Tools, And Miscellaneous Daily Life Management Tools And Equipment

No one needs to bring weapons to the collection site area, or to Las Vegas, as they will not be needed, and pocket knifes are okay, and construction tools are okay, but they will be for daily use

activities, only. Daily life management tools are forks, knives, spoons, chopsticks, plates, dishes, glasses, coffee cups, can openers, bottle openers, cork pullers, and these types of things, as well as all the other types of kitchen use tools for cooking food, for eating food, for drinking beverages, and for the collection of garbage, and food wastes, and for cleaning up their eating and cooking utensils, such as portable wash basins, and portable gas stoves, or fixed stoves, fixed wash basins, fixed showers in camper trailors, and in caravan buses, and so forth.

Hookups For Travel Camping Vans And Similar Vehicles

We have no hookups at the site, for water supply, electricity, or sewage, as yet, but the instructions that my kids will make available to persons who come in to my kids' underground facilities - the protected and encapsulated living environment - those persons who go in to recieve the instructions, and other information they must recieve on companies and assets, and persons moving on, and on persons staying, and other information needed to successfully carry out the removal of hotels, and the demolition of buildings, etc. which my kids will handle with the technologies they have available to them for their use for these purposes, and for other purposes.

Cleaning Up The Area And Throwing Away The Garbage

My kids will also handle the required steps for clearing up of the litter and garbage in the area, all of Las Vegas, Pahrump, Henderson, Laughlin, Mesquite, North Las Vegas, Arizona, New Mexico, California, Utah, and beyond, above ground and below ground, and for cleaning up the areas, and for removing the underground and above ground garbage, or city buildings and Lesbianists' structures, and all structures that are no longer needed, train tracks, airports, roadways, bridges, parks, hospitals, medical clinics, and so on, all of which will no longer be needed.

Schedule For Leveling Of The Ground And Hills In The Area, Removal Of Unsightly And Smelly Garbage

Initial leveling of the grounds' areas, leveling of the uneven surface areas, and leveling of the sloping areas, and of the tiny hills, and other uneven and unuseful features to the area, such as hills, low cliffs, and removal of unsightly, smelly garbage, will be done by my kids, with the technologies they have available to them, according to the schedule for making these types of changes, and cleaning up of the area, so as to make the area, one hundred percent, useable for collection site activities, for people to then come in and use the area as a collection site.

Setting Up New Facilities

My kids will take care of all of that, and they will take care of all of the work and tasks for setting up a private collection site area - for spilling purifying sexaling juices, to purify the area - in

accordance with my kids' schedule for these works and tasks for setting up a private collection site area, with tall side walls, and barricade walls, to prevent people from rubber necking as they drive by, so as to prevent car, truck, automobile, motorbike, and bicyle accidents. My kids will also set up the latrines, and other needed hygenics facilities, sleeping accomodations, eating facilities, rehydration facilities, co-opted bathing facilities, sports and excercises facilities, and other facilities.

Co-opted facilities means facilities used co-optively by men, boys, women and girls. Co-optively means, in cooperating measures with each other. Cooperating measures means, each of the four groups of people, men, boys, women, and girls, will work together, to keep the facilities sanitary, clean and healthful, neat and tidy, and safe for use, keeping young children from playing on the stairs for the elevated latrines, and keeping young children from getting in the way of asscending and descending users of the co-optively, or cooptively managed facilities.

Fountains And Showering Lamponeers

My kids will also use their high tech teletransportation technologies for removing toddlers from the stairs, and for placing them in a much safer location, such as in a near by sand garden, or play area, with sandy areas, and with toys to play with, and with cold showers, or showering fountains, people can refresh themselves under, and with fresh water to drink.

Lamponeers are showers that shoot up from sprinkler systems embedded in the paved surfaces, or concrete like surfaces, that shower water up and over the area, up and above and over persons who are there, to cool every one off.

Restaraunts, Clubs, Lounges, Eateries, Cafeterias, Bars, Pubs, Bicyle Paths, And So Forth

Bicycle paths, mini bike paths, walking paths, with rest stations, for refreshments and food, will be set up, and restaraunts and other facilities will be set up, nearby and they will be accessable by following these foot paths, bicyle paths, waling paths, and so forth.

All needed facilities for all parties, such as accomodations, living quarters, health clinics, excerize facilties, swimming pools, saunas, spas, and clubs for eating and mingling with persons, either in light weight evening wear and garments, or partially naked, or in the buff, will also be set up by my children for the use by all legitimate collection site participants. Gurkian Laws apply, and no other laws, such as local area laws, will be enforcable. Police and others will be turned away, and the rights of participants at the collection site area, will be protected one hundred percent, as we begin to change over to the new Gurkian Laws we will all be living by, from now on.

Dealing With Criminally Minded Persons

Any violators of the Gurkian Laws, codes, statutes, and so forth, my kids will arrest, and detain, and then place into prison cells, and then sentence them, in accordance with the sentencing requirements under Gurkian Laws, etc., and they may end up doing humiliatory punishments, or community clean up activities. In any case, they will be arrested by my children, who will use their high tech, biometrics and teletransportation technologies, and their other integrated technologies that they have, to swiftly remove the violators of Gurkian Laws, from the collection site and from the collection site area, and vicinity, and that will effectively cancel out their participation, until sentencing has been given, and until penalties have been leaned.

Penalties have been leaned, means, they have undergone sentencing, and the penalties have been enforced upon the violators, i.e., the guilty parties.

Alterations, Modifications, Changes, Clearing Up And Removal Of Garbage In The Areas, And Additions Time Schedules

These modifications, alterations, changes, and additions, etc., will occur over a period of time, as my kids have a schedule for all of these changes, modifications, alterations, clean up, and additions, etc., and they must stick to the schedule, so after you arrive, if you do not see some thing you feel should be there, by then, it is not there because it is not on the priorities facilities and priorities changes, etc., schedules lists.

Captain Off The Bridge.

Texas requires cancer vaccine for girls

By LIZ AUSTIN PETERSON, Associated Press Writer

AUSTIN, Texas - Bypassing the Legislature, Republican Gov. Rick Perry signed an order Friday making Texas the first state to require that schoolgirls get vaccinated against the sexually transmitted virus that causes cervical cancer.
ADVERTISEMENT

By issuing an executive order, Perry apparently sidesteps opposition in the Legislature from conservatives and parents' rights groups who fear such a requirement would condone premarital sex and interfere with the way parents raise their children.

Beginning in September 2008, girls entering the sixth grade - meaning, generally, girls ages 11 and 12 - will have to get Gardasil, Merck & Co.'s new vaccine against strains of the human papillomavirus, or HPV.

Perry, a conservative Christian who opposes abortion and stem-cell research using embryonic cells, counts on the religious right for his political base. But he has said the cervical cancer vaccine is no different from the one that protects children against polio.

"The HPV vaccine provides us with an incredible opportunity to effectively target and prevent cervical cancer," Perry said in announcing the order.

"If there are diseases in our society that are going to cost us large amounts of money, it just makes good economic sense, not to mention the health and well-being of these individuals to have those vaccines available," he said.

Merck is bankrolling efforts to pass state laws across the country mandating Gardasil for girls as young as 11 or 12. It doubled its lobbying budget in Texas and has funneled money through Women in Government, an advocacy group made up of female state legislators around the country.

Perry has several ties to Merck and Women in Government. One of the drug company's three lobbyists in Texas is Mike Toomey, Perry's former chief of staff. His current chief of staff's mother-in-law, Texas Republican state Rep. Dianne White Delisi, is a state director for Women in Government.

Perry also received $6,000 from Merck's political action committee during his re-election campaign.

Texas allows parents to opt out of inoculations by filing an affidavit objecting to the vaccine on religious or philosophical reasons. Even with such provisions, however, conservative groups say such requirements interfere with parents' rights to make medical decisions for their children.

The federal government approved Gardasil in June, and a government advisory panel has recommended that all girls get the shots at 11 and 12, before they are likely to be sexually active.

The New Jersey-based drug company could generate billions in sales if Gardasil - at $360 for the three-shot regimen - were made mandatory across the country. Most insurance companies now cover the vaccine, which has been shown to have no serious side effects.

Merck spokeswoman Janet Skidmore would not say how much the company is spending on lobbyists or how much it has donated to Women in Government. Susan Crosby, the group's president, also declined to specify how much the drug company gave.

A top official from Merck's vaccine division sits on Women in Government's business council, and many of the bills around the

country have been introduced by members of Women in Government.

Morals For A Sane Society - It Is Now Time To Destroy The Lesbianists - Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean - Chaos Every Where In My Universe - Bringing An End To The Chaos In My Universe - Surrendering And Repentance - Lesbianists With Non Repenentant Attitudes Who Will Not Surrender - Orders To Kill All Presdential Candidates, Etc. - New Coins Ready And Are The Ever Useful To Us! - Public Nudity And Public Sexaling - What Does The New Moralicity Mean, In Plain Language? Sexaling Is An Absolute 'Good' And An Aboslute 'Right' - Free Action Sexaling Updated: 13-02-07 Rev.a. 00.a PST 23:25

Morals For A Sane Society

To not fuck a person when you can fuck a person is a wicked act.

Not to fuck a man or a woman in the mouthal hole, or in the buttal hole, or to not fuck a woman in the vaginal hole, when you can, and when you are healthy, and when you have the time for it, by refusing, for what ever reason, other than mental illness, or 'gayist' reasons, you are committing a cheap and wicked act, when you refuse to fuck the other person, and use your dick, or your tounge to felate or kiss and tickle, and lick at the ladies' groinal area, and her vaginal cleavage, and vaginal flaps, or labial flaps, or labial tissue, and also her labial throes.

To not suckal a dick or a scrotum or tickle the males' groinal area, with your tounge, or with your fingers, and so forth, when you are able, and ready, and capable, is a cheap and wicked act, whether you are a woman or a man, girl or a boy.

You are given demerit points for not sexaling when you can and are able to sexal, and your time permits it.

To not participate in sexaling when you can participate in sexaling, is a wicked act. To prevent others from sexaling with you, or prevent a person from sexaling with you and your friends, these are both wicked acts.

A kindly and goodly person is a person who sexals all he or she can and who participates in sexaling with people, all he or she can, when ever he or she can to help those people, and one self, to erase the negative karmic markups each person has, and to help to create the wonderful energies that you can create by sexaling, and to change our universe into the nice place we need to change it into for us to live in, prospering with each other, in kindly loving embraces with each other.

If you stand or sit, talking, drinking, eating, with your clothes on, arguing, and discussing football, or baseball, or the local news on TV, or whatever, and you if you are not sexaling, as a result of your actions, when in fact, you could be sexaling, and helping to purify all the people around you, and yourself, as well, you are commiting an evil act, and an immoral act. It is immoral to behave in an uninterested manner, towards sexaling, and towards helping others by sexaling to purify their karmic markups. You are engaging in wicked, unkindly, and evil behavior, by non chalantly staring out the window, at a restaraunt, or in your car, with others around you, thinking about your miscellaneous thoughts, and by your not attempting to purify others, with every ounce of energy you have got, by sexaling with them, in a safe manner.

We do not want you to drive down the road, sexaling, and not paying attention to the traffic, and thereby causing accidents, and there be causeing harm and injury to self and to others, thereby preventing one self and others from their being able to freely mobilate, or move around freely, or ambulate, as they say in modern English, and then freely participate in sexalating activities of fucking, sucking, tounging, massaging the bodies, and the titties, and buttholes of women and girls, and massaging their kissing lips, and their vaginal lips, their facial cheeks, and their butt cheeks, and so forth. You must drive safely, and make it home, to a safe place, where you and your friends can freely sexalate with each other, without others interefereing with you.

A wicked or evil person is one who prevents a person from sexaling, and who destroys or ruins another person, physically, mentally, morally, emotionally, psychologically, or psychically, so that the other person can not participate freely and fully in holy and pure, GODLY sexaling activities.

This type of person who prevents others is a ruinous person, who will invite ruin and disaster to his or her doorsteps, and into his or her life.

There are many ruinous people, who execute others, and who torture, and cause pain, and suffering to others, and who disfigures others. These people who execute others, and who terminate their ability to sexal, prospering with others, making our universe into the kind of nice place we all want to be living in, together with each other, are wicked and evil people.

It Is Now Time To Destroy The Lesbianists

However, when we have a problem of the size and the magnitude of the Lesbianists, that we have, today, in this period of chaos, across my universe, and the Lesbianists' who are toying with humanity, and with all human beings who are not Lesbianists, it is time for us to take action, to prevent them from toying with us, and put a stop to their amusing themselves with their toying with us, any further, and it is now time to destroy them.

"I am Arjuna, a wickedly angry man, and I come to protect those who can not protect themselves. I will kill and thrust my sword and lance through the hearts of men and women who evilly try to prevent people from being prosperously good and bekindly to others."

This is a stanza or sentence from one of my writings, of old. 'Wickedly angry' in this sentence means, outraged, and furious, so much so, every one is scared and afraid of me.

I am 'wickedly angry' and I am here 'to destroy' those who would fuck us up, and ruin our lives, and make our lives miserable, as they toy with us.

My name is GOd, but in my Buddhist scriptures, I am referred to by many names. One of my many names, as I appear to people, in many and various personas, is Arjuna.

I have many sides to my character, as I am GOD, and I am here to protect my children, no matter what the name is people use to refer to me by, and that I am known by, and no matter how it is and no matter who it is among my many children, who I will protect from wicked and ruinous people.

Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean

There will not be any further Lesbianists living in Washington DC, or in Baltimore Maryland, or in Northern Virginia, and that vicinity, above ground, and below ground, if some one will be so kind as to place a very large explosives, fuels, chlorine, high heat burning metals fragments, and fracturable rocks bomb, outside the gates to the Washington DC White House, where the number one enemy, Mr. George Walker Bush, Jr., President of the United States, lives, and works, and then detonates that bomb, out side the gates of the White House, where the president lives, currently, and then destroys him, and his

White House, a lair for Lesbianists, with multitudes of torture rooms, i.e, lots of them, below and inside of the White House.

You will destroy and kill the President of the United States, Mr. George Walker Bush, Jr., and Mrs. Barbara Bush, Jr. and every one else who lives at 1600 Pennsylvania Ave. Washington DC.

Why are we going to throw all these people into my Epcot Center. Once in my Epcot Center, they can freely sexal with each other and they can earn merit points.

That will help them straighten out their karma, and it will help them to have a nicer life, when they are born as tummy babies. There are many tummy mommies who will match up with these people, and when they come out as tummy babies, they can start their life, with us, out here in my universe with us, again.

Am I a wicked wrongful person for terminating so many people's lifes? No. Why not? Because that is the only way we can over throw the vastly wicked and evil Lesbianists who practically rule my universe, with their perverse friends, and there are many groups of perverse friends, who we are going to get rid of, and send into my Epcot Center, one after another, as we move ahead, in our efforts to clean up our universe, and in our efforts to stop this nonsense of senseless killings and torturings of people, for amusement, and for game playing.

The Washington White House is one of the homes for these perverse people who game play and toy with all human beings who are not Lesbianists, who live on this planet.

We have many Lesbianists to trash, and to say good bye to, before we can begin to get our world, straightened out, and started up again, with a new culture, with new morals.

We will throw out their old cultures, their Lesbianistic cultures, and we will replace them with our new culture, and our new civilization, that is based on my religion, and on the sanctity of sexaling as a common sense value.

Sexaling is a sacred and holy act. Even if you sexal with a kangaroo, or a chimp, it is still a sacred and holy act.

Why is that? It is because every body is made of something, and that something comes from me, GOD. That something from me, is pure and holy, as I am pure and holy. I designed every person, and every animal, and every living being, with sexaling capabilities that allow that pure and holy GODLYNESS to come out once they begin sexaling.

That GODLYNESS begins to radiate out, as each person begins sexaing, and as each animal begins sexaling, and as each living being begins sexaling, eroteming, orgasming, and phlumetting, and it purifies each and every living being, and washes away the karmic markups every

person, and every animal, and every living being, has in them, and has stored in the molecules that are stacked up in my universe, out side the boundarary walls that hold this universe up, and that keep us in side of the area we are in, and that keep the rest of my universe standing up, stable, making this a safe place to live, at least, safe in so far as nothing comes crashing down on us.

My kids are expert builders, and it is thanks to them, that we have such a nice and safe, and well built universe to live in. It is also thanks to them, that we have these bodies to live in, and to sexal with, since my kids put us together, one molecule at a time, as we need to have our parts put together, along with all the anmials, and living beings, who are inside of us, that my children also assemble for me, and for us.

What is this GODLYNESS? It is a purifying force, that is of me, and is me. It is inside of every one, and inside of every creature, animal, and living being, in my creation.

This is woven into the fabric of your being, and it is of me, and is always a part of me, and is always connected to me. Since I am always pure, and GODLY, you have a possibility of becomeing pure, and holy, like me.

Right now, we are filthy, and grimey, and all gunked up, with sludge, and residues of our karmic heritage. We have done many things that contribute to who we are, and to what we experience, day to day, and if we are not happy with our life, that is because we have the karmic records and markups that dictate that we must be in this miserable and suffering condition, that we are in, today.

There is always sufferring, and unwholesomeness, in our lives, and around us, every day. There are many wicked things that go on, every day. People perpetrate wicked acts, daily, and they go on, unpunished, for a long time, until their karmic markups begin to add up to sufferings coming out, in that person's life.

Sufferings are your payback for your wicked acts, and they help to keep our universe in balance, as I've spoken about, a little, before.

It may seem unwholesome that I ask you to kill my kids, and put them into my Epcot Center, where they can sexal, and where they can get retrained, and where they can be taught to be nice people, after they are retrained, but my asking you to kill my kids, this is merely an expedient, or a means to an end, and it is permissable, given the circumstances, and given the situation, and given that we are at the begining of our new Age of Gurkian Englightenment.

The result we wish to see by killing them, is an end to the activities of the Lesbianists, and and end to the activities of other people like them, in my universe. The Lesbianists are ruining my universe, and ruining the lives of every body in my universe, and though this was the way things were balanced out, prior to now, we are starting out,

with a new method of 'payback' and a new means to balance out the karmic balance book. This is all to be governed by my rules and regulations, that my kids will enforce, in our new, Gurkian Age of Enlightenment, begining about now.

Our killing the Lesbianists, will help to control their ruinous and heinous behavior and activities, and it will help us to get them out of the picture for a while, until we are able to set up our new government, globally, or universal wide, across our universe, in a one universe government, over seeing the activities of all of my kids. It is the only way we have to begin to get our selves straightened out, and onto our new path, that we will follow, for the rest of eternity.

This marks the begining of the Gurkian Age of Engligtenment, and it marks the end of the previous period, or random, or just about nearly random, chaos.

We went through a very long period of decline, untill we got to the period of chaos that we are in, now. This period of chaos, we call, the 'melt down' period.

The 'melt down' period, came after the 'run amuck' period, when my kids began their severely ruinous activities that led to the period of chaos that we are now in.

Chaos Every Where In My Universe

We are going to begin to pull ourselves out of this period of chaos, with the help of my religion, and with our religious activities, and it is going to take us a very long time to pull ourselves out of it, as this 'chaos' is going on every where in my universe.

It will take us a long time to begin to be able to erase our karma enough, based on my religious principals, and the ethics of the Gurkian Age of Englightenment, and our religious activities of sexaling, dancing and excercising, and sexaling in syncopation with the metronome, at one thirty seventh and one fifth, or so, to then some day be able to have erased enough karma, to be rid of, completely, all these horribalistic people, my horribalistic kids, in my universe. When I say, be rid of them, I'm not saying, to trash them, completely. I am saying, we will put a stop to their activities, by changing our karma, and by purifying ourselves with my religion and our religious activities of sexaling, keeping time, in synch with my children, as we sexal, and as we activiate, playing basketball, tennis, or as we swim, or as we pray Nam Myeo Ho Ren Ge Kyeo, and so forth.

Bringing An End To The Chaos In My Universe

We are going to bring an end to the chaos, and to the chaotic behavior, and abberant, ruinous behavior in our universe, as we bring this period of chaos to a close. We will, as we steadily move forward, open the way for the budding and flowering of the Gurkian Age of

Enlightenment, and to the budding and flowering of the new age of friendship and loving care, among all of my children, who participate in my religious, social, economic, and karmic revolution, as we sexal with each other, lovingly, and strive to clearify and erase our karmic markups, sexaling, and synching our activities to one thirty seventh and one fifth on the metronome. Later we will fix our metronomes to keep exact pace in synch with my children, and after we fix and reset the timing scale of the metronome, the timing will be one thirty seventh, exactly, on the metronome.

Our sexaling will produce all types of wonderful, purifying energies, that will revive our universe, and that will revive us, and that will help us to reclaim our universe, and that will help us to live, prosperously, and prosperingly in our universe, together, with each other, and with every one of my children, as we reform the bad and naughty ones, who are wicked and unkind to others, and who prevent people from sexaling, together, with each other.

That means, we are going to kill all the bible thumpers, Pat Robertson, Orwell Roberts, Billy Grahm, Tammy Faye, Jim Faye, and all the other Lesbianists of every religious faction, or group, whether they are Lesbianists who are christians, islamists, judaists, shiites, hindus, buddhists, black moslems i.e., afro american black muslims, or whatever.

We are going to destroy them all, all who would try to prevent us from what we are attempting to accomplish, a global, universal wide, government, run by me, GOD/GOd, as I am the Captain of this ship, and then we are going to begin our new age of Enlightenment, hand in hand with each other, and when they come out of my Epcot Center, again, next time, to be born as tummy babies, to tummy mommies, and to tummy daddies, we will teach them the new rules, ethics, and morals of our new universal wide society, and then we will begin again with them, and raise them in accordance with the new rules, laws, regulations, ethics, and morals of our Gurkian Age of Enlightenment, led by me, GOD/GOd.

Surrendering And Repentance

Those who will surrender, will be allowed to be repentantent, and they will be forgiven for their misgiven, misbegotten, and ill minded ways, once they begin sexaling with the rest of us, and participating in our religious, economic, and social revolution, and once they begin following Gurkian laws, rules, ethics, the codes and norms of behavior, and our righteous, and correct morals, acting and exerting one's efforts for the sake of others, never sparing a moment of energies, wastefully on trivial and trite activities of gossipping, mischiefing, or other harmful, and potentially ruinous, wicked, and evil behavior.

Lesbianists With Non Repenentant Attitudes Who Will Not Surrender

Those who will not surrender, we will send to my Epcot Center, as that is the only way we can get them out of the picture, temporairily, so that we can then get things in order, before they return, once again, as tummy babies, into the lives of tummy mommies, and tummy daddies.

Orders To Kill All Presdential Candidates, Etc.

You are hereby authorized by me, GOD, John Francis Ayres, to kill all United States Presdential candidates, including but not limited to, Barack Obama, Hillary Clinton, and Mitt Romney. They are to be executed on sight. Also, you are ordered to kill all non repentent Lesbianists, such as, Vice President Dick Cheney, Tony Blair, Butros Gauley, Oliver North, Colin Powell, Oliver Poindexter, Casper Willard Weinberger, United States Supreme Court Chief Justice John Roberts, Associate Justices, John Paul Stevens, Anthony Kennedy, David Souter, Clarence Thomas, Ruth Bader Ginsburg, Stephen Breyer, Samuel Alito, Antonin Gregory Scalia, Arnold Swarzneggar, Sylvestor Stallone, Robert Deniro, Gary Busey, Kevin Sorbo, Timothy Dalton, Michael Jackson, Matt Damon, Bruce Willis, Mila Jovovich, Peter Jennings, all members of the United States Congress who are Lesbianists, and all other Lesbianists, whether in politics or not, and in whatever government you find them, around the world. There are many Lesbianists in local and metropolitan police departments, and in SWAT Team units, and in fire departments, and in the National Guard units throughout the United States, and Lesbianists own every news media organization, television corporation, cable television corporation, satelite television corporation, major radio station, transportation corporation, chemicals corporation, petroleum corporation, coal mining corporation, as well as every other major corporation around the world. You are to kill every last one of them, and spare no one. We will then destroy every underground city they are hiding in, and force them to surrender. If not, we will kill them all, and I authorize you to do exactly that, kill every last one of them, all thirteen billion plus Lesbianists, hiding under the surface of our planet, or out walking about, pretending to be an ordinary citizen on this planet. Nothing is further from the truth, and you are authorized to kill each and every one of them, and send them all to my Epcot Center, using what ever means available, including my tactical, powerful, home made radiological explosives bombs, i.e., nuclear explosives. Please study my notes on my web site for further details regarding radiological fracturable rocks, and my notes on how to make an explosive weapon to detonate nuclear materials, you can find along beach shorelines, in sediments deposits, and on old mountains, every where on our planet, if you have a geiger counter.

New Coins Ready And Are The Ever Useful To Us!

http://money.aol.com/news/articles/_a/new-dollar-coins-enter-circulation-this/20070211095409990001?ncid=NWS00010000000001

"Updated:2007-02-11 15:20:31"
"New Dollar Coins Enter Circulation This Week"
"By WILL LESTER"

"AP"
"WASHINGTON (Feb. 11) - Maybe Susan B. Anthony and Sacagawea should not take public rejection personally. It's not easy overcoming people's indifference to dollar coins, even those honoring such historic figures."

See also,

http://news.yahoo.com/s/ap/20070211/ap_on_bi_ge/money_ap_poll

The new coins reportedly have many fracturable rocks in them, as the metals used, were mined from deposits of minerals that contain large amounts of fracturable rocks.

They also have high heats and high temperatures burning minerals in them, that will level up your thermal temperatures to near solar temperatures, if grinded up and mixed in, and allowed to ferment, in sour berry juices, slowly, with tiny amounts of salt, and large amounts of raw sugar.

The high heat temperatures, and the energies produced at these higher heat levels, will reach near solar heats energies temperatures, and that is very important for developing the energies needed to wake up every body, in the fracturable rocks - or 'fissile' materials, in Lesbianists' speak, or Lesbianists' mumbo jumbo language - to get them to begin making children and families.

Please see my notes on 'Radiological' crystals cages salts kiddies, and other related energical animals kiddies, of various, and hard to imagine, types, unless you're a kid and unless you have the mental flexibilities and typical mental gymnastics capabilities of a normal child, unhindered by brainwashed thinking and brainwashed patterns of thought the Lesbianists have caged, and closeted in the dark, our brains with.

Public Nudity And Public Sexaling

Public nudity and public sexaling is now a way of life for all, in our, now, Gurkian Age of Enlightenment. We will begin broadcasting live sexaling events, and other entertaining and informational, educational programming,, as soon as I get my new quarters, a unit to live in, where I can eat more properly, sleep more properly, recieve the medical health aides and regroverative formulas, that I need, and where I can practice my religious ceremonies, with others, daily.

The public broadcasting of various informational programing, educational programing, sexaling entertainment programing, sexical, hygenical i.e., sexaling hygene, and sexical educational programing as well as sexical training programing, as well as my religious ceremonial sexaling activities, and my general, more typical day to day, religious ceremonialing, for now, until I get my health up to a level of youthful vigor, and robust wellness, as I religiously interact with my students, and train them, the disciple priestesses,

and disciple priests, will all help to set the basis of normative, and expected, social behavior, for all people in our universe, to learn about, now in our Gurkian Age of Enlightenment, so that we can all get along, with one primary set of customs and standard of behavior, and with one primary language for communication, as we will all be sexaling with each other - all of my children who are now just begining to get with the program, at least, anyway, will be sexaling with each other - from now on, and for all eternity.

We need this exposure, as well as alternative programing, for laundering up to, and for begining to expose ourselves to, and learn about, the reality of the universe, my universe, that we live in.

Laundering up to, means, exposing ourselves to the mischievous antics of the Lesbianists, to launder their filthy, garbagical, and tormentuous ways, so that all may learn about them.

This will be coming up, in the near future, possibly, as far as I can determine, any way, after we have the spilling of the sexaling fluids campaign under way for purifying the area where I will be setting up my religious ministry, on the parcel of land, on the north west corner of the intersection at West Tropicana Ave. and South Decature Blud., Las Vegas, Nevada, and possibly on confiscated properties to the north, as well as to the west, for now. This is a public service, informational bulletin, on what you are to expect, in the near future. Prepare yourselves, accordingly.

What Does The New Moralicity Mean, In Plain Language?

Our new moralicity means we are going to learn we can and should sexal with every person, and even with animals, when we have a chance or opportunity to sexal with people and animals, and that we can and should sexal with every person we see, so long as we have a mutual reciprocical understanding of the truth to sexaling, that it is a pure, blessed, and holy act, GOD, me, made possible, to purify you of your blemishes. It is the most significant and powerful way to purify you of your blemishes and karma

You can also clearify your blemishes, your karmic markups, by praying Nam Myeo Ho Ren Ge Kyeo, and by your keeping syncopated and in rythm with my children, helping my children to work smoothly, syncopated and in rythm with each other, perfectly fluxed, meshed perfectly with all my other children, working at different life spins, as I've mentioned about, as my kids will reward you by sprinkling faerie dusts, purifying energies, and other types of related, purifying things and dings, all over you, as a reward for your cooperation in keeping my universe, humming, and running, smoothly.

With your syncopated rythms, your syncopated pace of movement, and actions, as you time your motions, and stay in synch with one thirty seventh on the metronome, plus one fith of a mark on the metronome we currently have available to us, here, on our planet, during your

activitiating, sexaling, playing sports, dancing, excercising, and so forth, you will purify your life, and you will purify the lives of those around you, with your actions, as you get rewarded by my children.

Our new moralicity means we can and should sexal with each and every person possible, in free association with each other, no matter what the age of the person, and no matter what the gender of the person, no matter what the tribal background is, no matter what the tribal heritage is, any place no matter where we are, any time no matter what the time of day or the time of night it is, in public spaces or in private living spaces any and all places, no matter who else is around us, as sexaling is a blessed act that my kids reward you for, any time, every time, no matter where you are sexaling, and no matter with who you are sexaling with, or even no matter what type of animal you are sexaling with.

It means there are no bullshit, propagandists' Lesbianists dreamed up taboos, any longer, regarding sexaling, and that sexaling is a blessed act, and not a 'forbidden' act, as the bullshit Lesbianistic Christians, Muslims, and other religious 'pious' bullshit assholes, who would want us to believe that sexaling is forbidden by 'God', which is complete and total bullshit, and a lie, as they base them selfs on their 'holier than thou' pious 'ignorance' of the truth.

So long as you and the person or persons you are with are equally, mutually, and reciprocally interested in purifying your lifes, and interested in clearifying your karmic markups, and interested in helping my children work in synch with each other, and interested in helping to push my children along, with your energies, and efforts, and so long as you can sexal together with one and each other, without damaging either or any of the participants, it is morally correct behavior, and any person or actions to prevent that morally correct behavior must be condemned, and punished.

Some people, especially young participants, do not have butt holes, mouthal holes, or vaginal holes that are large enough to swallow a dick, or mouthal holes that are large enough to swallow a tittie and suckle it fully, without straining.

You need to spend several hours phlooching out the butt hole, or phlooching out the mouthal hole and throat, and phlooching out the vaginal hole, with generous massage over several hours to the muscles and tendons in the neck, mouth, nose, eye ridges, ears, throat, face, chest, tummy, back, arms, hands, fingers, shoulders, titties, thighs, hips, waist, groinal area, labial folds, vaginal lips, facial lips, male genitals, and the entire torso, back and front, the legs and feet, ankles, and toes, as well, and all parts and areas from head to toes and in between, with continued efforts to massage all these places, until the body begins to respond, and until the body responds fully.

The butthole will loosen up, and the throat hole will loosen, and the mouthal hole will widen, and the vaginal cavity and vaginal mouth will widen and expand in size, and the groin in girls will spread apart, allowing for more room for access to the vagina, and for smoother access to the butthole, as the hips loosen up, and begin to spread apart in response to your efforts at massaging the body, to prepare it for sexaling.

No matter how old a girl is, and in the case of a boy, no matter how old the boy is, baby, child, adolescent, or adult, phlooching out the sexaling orifices, is easy, if you spend the needed time on preparatory and thorough massage, sufficiently enough.

That's how I designed your bodies to respond to massage efforts to loosen up the muscles, ligaments, sinews, cartiladges, so as to allow the bones of the body to move and spread apart, freely, and loosenly. Your body is like a rubber band, and if you massage it, well enough, it will begin to respond like a rubber band, and it will loosen up, and spread apart, where it needs to spread apart, so as to allow you to sexal, thoroughly, and continually, for as long as you continue your sexaling activities.

After you finish your sexaling activities, your body will begin to stiffen up, as all the ligaments, sinews, cartiladges, muscles, and fiberous threads throughout your body, begin to tighten up, for returning to daily life, working activities, where you need a hard, and tough body, to survive, as you work in the field, or work in the rice paddies, or work on the farms, to labor for producing crops for feeding you, your families, your children, relatives, tribal village friends and tribal villages neigbors, who are, or who used to be, traditionally, as life used to evolve for us, all related to all of those concerned in the area, or on the planet, for that matter, or in the entire galaxy, or spread out over many galaxies, and even spread out over even larger, and wider areas of my universe in the large, familiies that used to be the norm.

You may need to spend several hours, or even several days, or maybe even longer, a number of weeks, or even a number of months, before the body will begin to respond, and begin to flex, and bend, to help all the ligaments, sinews, cartiladges, tendons, muscles, and all the body parts, and supporting, interwoven parts of your bodies, as I've briefly talked about, before, as well as all the lubing stations, that will eject fluids to assist in the loosening up of your bodies' ligaments, sinews, cartiladges, tendons, muscles, and even the bones, to allow them to be more flexible, including the jaw bones, facial bones, neck bones, spinal bones, leg bones, thigh bones, hips bones, pelvic bones, buttal bones, groinal bones, back bones, and all the bones of the body. Every bone in your body will loosen up, and become more flexible, and pliant, durile, durable and tensilely strong, as you massage all the parts of your body, and the bodies of the people you are sexaling with, very young, young, adolescent, adult, middle aged, elderly, and even the ancient, or the extremely very old.

This is the truth to this matter, and you can find out for your selves, if you try and see how your bodies respond, to daily, rigorous, continued massage, over various lengths or periods of time.

This is part of the ancient and old art of sexaling, as I taught in my religious teachings, in every religion that I taught, and I have taught a lot of religions in my time, to lots of different peoples in my universe, from the begining of our time, here, together, in our universe, after we arrived, which I've talked a little about, before.

Sexaling Is An Absolute 'Good' And An Aboslute 'Right'

Even the veryest oldest and the veryest youngest have a right, duty, and obligation to sexal and produce holy, sacred, sanctifying, i.e., to make sacred, holy, and pure, harmonious, purifying energies.

It is an 'A B S O L U T E' RIGHT as in, a 'right' to free speech.

It is also an 'A B S O L U T E' RIGHT as in, 'this is right, correct, upstanding, laudable, commendable, proven to be always right, correct, true, holy, graceful or GODlYNESS and GOODLYNESS gracefilled, morally right, morally correct, morally absolutely right, and morally absolutely correct', as opposed to, right and wrong, i.e., as in the opposite of wrong, as in, that is wrong, that is incorrect, evil, hateful, sinful, morally inaccurate, morally wrong, morally defunct, undoable as it will not stand, and useless,'.

It is also an 'A B S O L U T E' GOOD and an 'A B S O L U T E' GOODNESS.

Free Action Sexaling

Anything that counters, or runs contrary to this, is an 'A B S O L U T E' WRONG, and an 'A B S O L U T E' EVIL. It is absolutely wrongful to deny or to prohibit or to interfere with, in any way, with any one who wishes to sexal, as THAT PERSON IS CLEANING UP MY UNIVERSE WITH HIS DICK, OR WITH HER VAGINA, BUTT, AND TITTIES, AND WITH HIS PURIFYING ENERGIES, OR WITH HER PURIFYING ENERGIES! DO YOU UNDERSTAND THAT?

Any body who even attempts to impede, to deny, to prevent, or to interfere with, in any way at all, with a person's absolute right to sexal runs counter to Gurkian laws, regulations, codes, ethics, morals, standards, and you will serve jail or prison time, for prohibiting, or interfering, or impeding, or violating in any way, a person's absolute right to free action sexaling, which is, the act of freely chooseing who one wishes to sexal with. DO YOU UNDERSTAND THAT, SOLDIER? GOOD! BECAUSE A "NO SIR!" WOULD BE INAPPROPRITATE AND UNACCEPTABLE!

To learn more on these subjects, swear in, and become a citizen of our country, and begin studying, and working in the many programs my children have for you to study and work in, to score earning points, and to earn a living in our new, Gurkian Age of Enligtenment, where

and now that we work, and we pay as we go.

Those who refuse to work, in time, will be required to work, to pay off their debts and to pay off the fees that are owed for the use of my resources, all the molecules in my universe, and all the resources, energical, or otherwise.

Even though I am GOD, in our new system of working in my Gurkian Age of Enlightenment, even I have to pay for the resources that I use, as I work as chief priest of my religion, spiritual director of my universe, and boss of my universe.

I'm the mother and father, the creator of all humans, animals, and living beings, as I've explained, every thing in my creation, and people will begin to understand that, that I am GOD, as they practice my religion, over the years, and over the aeons, and over the millenias.

The people who refuse to work, will be required to work in prisons, sexaling with animals, to produce sexaling energies that will restore the supplies of energies in our universe, as I've mentioned about, before, as they work and learn their new trade of animal husbandry, and animal wifery, in the animal habitry industry, as I've also mentioned about, in earlier notes.

No matter what the age of the person, every person can participate in our Gurkian Age Of Enlightenment, sexaling, dancing, excercising, and syncopating their movements, in rythm, to assist my kids as my kids, work to keep my universe, strong, durile, flexible, safe, and a nice place for every one to live in.

DO YOU UNDERSTAND THAT? YOU HAD BETTER, AS A "NO SIR!" WOULD BE UNACCEPTABLE, SOLDIER! DO YOU HEAR ME? I HOPE YOU DO! NOW, GET TO WORK AND SEXAL TILL YOU DROP, SOLDIER, AND I'M NOT JOKING!

We will build a nice and comfortable, safe place for every one to live, now, in my universe, and we will follow the Gurkian Age of Enlightenment Rules and Regulations, Codes, Morals, Ethics, and behavioral norms, that you are required to live by, now that we are going to become, one, very big, happy, harmonious, in synch, prospering family.

You will not forget to wash out your butty butt holes, and to flush out your vaginas, and your mouths, and to practice proper and health promoting sexaling and love making hygene, with the medical formulas that my children will be providing to you, and that you will pay for, out of your earnings, and they are very reasonably priced, now that I am making every thing available to every one, at a set, yet, flexible, and low cost for the use of my resources, once you citizenize your selfs, and swear in, as a citizen of our new, global, i.e., universal wide, one universe, family of GOD's, that's me, children.

The costs are flexible, in the sense that you do not have to pay, yet, as you will be learning about the ways to work, and you will be learing and preparing your selfs for a new working life, in my universe, for some time, and so we have no hurry to have you pay for the resources you use. We can collect the fees, and costs for resources, in the future, when you are a big money earner, once you learn your new work requirements, for sexaling for a living, as that is the only job opportunity open to every one, and the only job opportunity, that you have a choice about.

My working children, though they do have many different jobs, they have basically the same set up, or arrangements as you now will have, and so you will be joining my children, and you will be working, i.e., sexaling, excercising, aerobically dancing, and so forth, in synch, and in rythm, for me, just as all of my children are doing, at least, those of my children who are able to work, and who are bright and intelligent enough to work for me, to keep my universe, healthy, safe, solid, durile, strong, wholesome, and a nice place to live in.

That means, I have a lot of burnouts kids, and rampant, vagarous, dangerous children, who are not really very bright, and they do not work for me, yet, but they will, in time, regardless of the fact that they may at the present, be abominants kids, or not.

As I've mentioned, all my up until now, non working children, are abominants. What does that mean? It means, they do not give a darn about killing another person. They kill for selfish reasons, and for fun and games, and so forth, and you are all guilty of that, though you may not remember that you killed for fun and games, and for selfish reasons, in previous lifes, in my universe, but you all have, and you are all abominants, of varying degrees.

So, welcome to the Gurkian Age of Enlightenment, and welcome to my workforce.

Captain Off The Bridge.

I still see them occasionally, often on the top of big old Suburbans for some reason. Not exactly a practical thing--I imagine they're constantly raking trees and overhangs and such. But I often get a grin when I see the things. :-)

I got into mobile HF about a half-dozen years ago; I had just bought a white 2000 Chevy Impala, mounted a 706 in the glove compartment--or, as my wife pointed out with real pain in her voice, where the glove compartment used to be. :-) I had a trunk-lip-mounted Hamstick for 20 or 15, an MFJ mag-mount 6-meter quarter-wave, and a little 2meter mag mount on that car.

For a while I was puzzled at how many people in front of me would abruptly slow down when I got behind them. Then I realized some of the local police departments had bought white Impalas, and seeing one festooned with antennas (more and bigger antennas than actual police cars) apparently made people think I might have been "The Law." I left the 706 in that car for several years--it was easier than un-shoehorning it out of the dash--but took the antennas off as soon as I quit using HF from the car, to quit scaring people. :-)

I ran into one of those guys last summer, not just one but two antenna's as described. I chatted with him a bit and found out he was running a 10KW CB rig. I was incredulous until he popped open the hood to show me the 5 alternators running off the engine to power it. The engine was also modified to kick up the idle when the rig was one so it wouldn't stall when keyed up.

I've pretty much come to the conclusion that the FCC has completely given up enforcement on the CB bands.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1DG, NC1L, KA2AEV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N5FF, K8DJC, K8GG, K8YSE, K9EL, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DJ0GM, DK8JB, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, I2WIJ, IT9EJW, IZ8EDJ, JA1ELY, OM2TW, PY2HS, RSGB IOTA, SM5GMZ, VA3RJ & ICPO and YZ1EW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th-February, through Sunday, 18th-February there were 230 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E5, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T32, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, YV0, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK2, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND (Update). To celebrate the 75th Jubilee of the Irish Radio Transmitters Society (IRTS), a group of IRTS members are planning a "AFRI75 Dxpedition 2007" to Swaziland between March 16-25th. Activity for this DXpedition will also cover St. Patrick's Day and the CQWW WPX SSB Contest. The callsigns to be used will be published as soon as available. The

DXpedition's leader is IRTS Vice President Paul Martin, EI2CA (3DA0PM). Currently, the following members have signed up for the DXpedition: Peter/EI7CC (3DA0PB), Aidan/EI8CE (3DA0AM), David/EI4DJ/GI4FUM (3DA0DG), Rory/EI4DJB (3DA0RH), Brendan/EI3GV (3DA0GV) and Pete/GI4VIV (3DA0GI)
A private UK/Ireland YAHOO newsgroup for this DXpedition is available at: http://uk.groups.yahoo.com/group/AFRI75/
Admission to this group is by request only and is at the discretion of the group moderators. Skeds may also be requested to any of the DXpedition members. Operation will be on all bands with particular attention given to the WARC bands, digital modes and the LF bands. It is also hoped to have some activity on EME, 2m and 6m. QSL Manager for all callsigns is via EI7CC and cards may be sent direct or by the bureau. Also, please visit the IRTS Web page which will be updated with information on a regular basis at: http://www.irts.ie/cgi/afri75.cgi
A log search facility will be updated on a daily basis.

4S, SRI LANKA. A few weeks ago we mentioned that Joel, F5PAC, would once again be active from here as 4S7PAG from February 2-22nd. We also mentioned that Joel would try to activate one of Sri Lanka's Coastal Islands (AS-171, possibly Barberyn Island) on February 10-11th. We were informed by Alfred, DJ0GM, that Joel was not able to activate Barberyn Island because foreigners are not allowed to go to this island. He also mentioned Joel had several problems getting on the air from 4S-land. Alfred states that Joel hopes to hit the airwaves by Saturday, February 17th and is currently staying north of Colombo on the westcoast of Sri Lanka. Joel was heard this past weekend on 14256 kHz after 1300z. Look for him on 20 and 17 meters. QSL via F5PAC.

4TH INTERNATIONAL DX CONVENTION (Rome). A press release from the Strange Radio Team states: "The hills of the Roman Castles and a sumptuous 19th century villa only a few kilometers outside of Rome will be the scene of the 2007 4th International DX Convention organized by the Strange Radio Team (SRT), which will be held on next May 5th and 6th. On Saturday the 5th, from 3 PM to 8 PM, the DX Conference will be held followed by the 3rd Strange Radio Event 2006 Awards. Sunday the 6th will be devoted to visiting the Eternal City, marvellous Rome! This year, differently from the previous editions, the convention will gain a greater international dimension with the presence of illustrious, renowned foreign guests who will speak during the proceedings. The hotel features ample parking, a restaurant, bar, and a fully-equipped conference center. In addition, all the rooms are a harmonious blend of elegance and practicality besides featuring every type of confort (each room is equipped with Internet connection)." For more details and program schedules, please visit the SRT Web page at: http://www.strangeradioteam.com

4U, UNITED NATIONS HQ. Operators Johnny/LA5IIA, Martti/OH2BH and Bernie/W3UR, were active this past weekend as 4U1UN during the ARRL CW DX Contest as a Multi-Single effort. Remember to QSL via HB9BOU.

5C/CN2, MOROCCO. Dick, W7ZR, will be active as 5C5Z during the CQWW WPX SSB Contest (March 24-25th) as a Single-Op/Single-Band (20m) entry. He will be operating CW and RTTY before contest as CN2ZR. QSL via W7ZR.

6W, SENEGAL. Pete, SM5GMZ, informs OPDX that he will be active from here starting April 27th. The callsign will be 6V7-something. He plans to operate for 12 days. Activity will be on all modes and bands, but look for him especially on 80/160m.

9M6/9M8, EAST MALAYSIA. Pete, SM5GMZ, informs OPDX that he will be active as 9M6/SM5GMZ between March 13-21st. He plans to be active on the lower bands on CW. On March 22nd, Pete will go to 9M8-land and during that weekend he will work the CQ WPX Phone Contest together with Steve/G4JVG.

ANTARCTIC ACTIVITY WEEK (AAW). Remember that the Worldwide Antarctic Program's (WAP) will hold their 4th Antarctic Activity Week (AAW) this week, February 19-25th. This annual event is to promote worlwide interest in the Antarctic continent. There should be many special event callsigns on the air from around the world. For more details and a list of callsigns, please visit the WAP's Web page at: http://www.ddxc.net/wap

ARRL'S 2007 GREAT LAKES DIVISION CONVENTION. Mark your calendars and make plans to attend and be part of the ARRL 2007 Great Lakes event of the year! The GLDC will be held on September 22nd the day before the 2007 Cleveland Hamfest, so make it a weekend to visit Northern Ohio. The GLDC's location will be at the Sheraton Independence Hotel, 5300 Rockside Rd., Independence, OH 44131 (Tel: 216-524-0700). The Convention/Seminars will begin Saturday, 11:30 AM, followed by a dinner banquet in the evening. The seminars will be geared towards the new upcoming (and old) DXers and other amateur radio interest (Emergency Comm., AMSAT, ARDF, Antennas..etc.). Seminars will open with guest speakers Bob Heil/K9EID and Chip Margelli/K7JA from Heil Sound. DX Seminars will be moderated by Tedd/KB8NW (Editor of the OPDX) with guest speakers Bernie McClenny/W3UR (Editor of "The Daily DX and Weekly DX" and QST's "How's DX?" column.), John Papay/K8YSE (Swains Island operator) and possibly other speakers. Seminars will close with Tim Duffy/K3LR (on Antennas/Contesting). The dinner banquet will be at 7:00 PM with guest speaker Joel Harrison/W5ZN, President ARRL. For more details on tickets/rooms and updated convention information, please visit the GLDC Web page at: http://www.2007gldc.com

BS7, SCARBOROUGH REEF. Last week we announced the upcoming DXpedition to Huang Yan Dao (Scarborough Reef) which will take place in late April. The multi-national team is seeking financial contributions to help defray the cost of this DXpedition. Full details on how to contribute can be found on the DXpedition's Web site at: http://www.bs7h.com/

C5, THE GAMBIA. Members of the "Mosquitos Contest Club" (known as OM0C Contest Crew) are pleased to announce a DXpedition to Gambia C5. A group of 6 operators will be active as C52C between October 17-30th. Activity will be on all HF bands (160-10m), and 6m with an accent on the lower bands, especially 160m. They plan to have up to 4 well equipped stations on the air. They will also participate in CQWW SSB Contest. Operators mentioned are: Rich/OM2TW (Team Leader), Bob/OM1KW (CW/SSB operator), Roman/OM2RA (CW/SSB operator), Joe/OM5AW (CW/SSB operator), Noro/OM6NM (CW/SSB operator) and Dano/OM1NW (Digi modes and SSB operator). The last major activity from Gambia was the C5Z (2003). During this DXpedition, the group wants to try to activate Bijol Island (AF-060). Currently, they still don't have

permission for landing and the licence for the island. QSL via OM2FY, direct or by the Bureau. More information will be available on: http://www.om0c.com/gambia

C9, MOZAMBIQUE (IOTA Op). Remember to look for operators Jose/CT1APE and Filipe/CT2GLO to be active from Bazaruto Island (AF-072, WLOTA LH-0816) as C98APE and C98GLO, respectively, between now February 24th. Activity will be on all HF bands with modes of CW, SSB, RTTY and PSK31. QSL via their home callsigns.

D6, COMOROS. World traveler Vladimir, UA4WHX, is currently active from here, D60VB, and as always the length of his stay is unknown. Look for him to be active on any HF band CW/SSB. He was heard this past week on 30/20/17 meters. Vlad has been travelling throughout Africa for sometime now, and who knows where he will be active from next. Many have been complainning about "When will the QSLs be out?" The answer is when he returns to Russia. It is recommended to hold off sending QSL cards until he is done with his travels. Once that happens, then you can batch up all of your QSL cards in one envelope and send them to UA4WHX.

DAYTON TOPBAND DINNER. George/K8GG and George/W8UVZ sent out the details for the upcoming Daytom HamVention Topband Dinner. The press release states: "All 160 meter enthusiasts are cordially invited to the Topband dinner on Friday evening of the 2006 Hamvention in Dayton. This annual event brings together 160 meter operators from around the world for food, drink and camaraderie." Details are about the same as last year. The date will be Friday, May 18th, the time (Social Hour 6:15 PM [cash bar], Dinner 7:30 PM), and the location is: The Barnsider Restaurant (Near Hara Arena and Hamvention), 5202 North Main Street (Highway 48 just north of Needmore), Dayton, Ohio [PH.(937) 277-1332]. The cost is 29 USDs each, in advance, which includes complete dinner, taxes and gratuities. To reserve a seat, send your pay dinner cost to: George Guerin, K8GG, 14322 A Drive North, Ceresco MI 49033-8611 (USA) (e-mail: k8gg@arrl.net). PLEASE NOTE: Reserve now and pay dinner charge by May 1st. Foreign visitors may pay at the door but need to reserve by E-mail (or airmail) now. This restaurant is space limited, so please make your reservations ASAP (they have only 100 seats). If you reserve by E-mail, you will be confirmed by return E-mail shortly. If you mail in your request, please include an E-mail address or SASE for confirmation.

DXCC NEWS (CORRECTION). Last week (in OPDX.797) the year was listed wrong for the VU7RG operation. It should have read:
VU7RG - Lakshadweep Islands; Operation from January 14-26th, 2007

DX MARATHON DEADLINE NEARS! John, K9EL, reminds everyone that the last day to submit your scores for the 2006 DX Marathon is February 28th, 2007. All submission information and forms are available at:
http://www.dxmarathon.com
If you use DX4WIN, you can create a submission using a tool from AD1C at:
http://dx4win.ad1c.us/marathon.htm

FR, REUNION ISLAND. It has been reported that Gildas/TU5KG should be going QRT as FT5XQ/mm and is expected to be on Reunion Island on February 20th before heading back to France on February 26th for 10 days. His tour has been cut short due to the breakdown of the refrigerator on the ship.

HH, HAITI (Update). We were informed this past weekend that Dale, N3BNA, who was recently active from Paraguay as ZP6/N3BNA, and was to be active (along with his brother Ray, KC3VW) from southwestern Haiti, is currently having radio problems. His QSL Manager Mike, KA2AEV, states that Dale is hoping that he will be able to make repairs and get back to business as soon as possible! If you hear him, please QSL HH7/N3BNA via KA2AEV. QSL HH7/KC3VW via his home callsign or by operator's instructions.

IOTA NEWS.....
AS-139. Operators He/BD1DRJ, Jack/BA4ALC and Wenjun/BD7KLO will be active as homecall/7 from Weizhou Island, February 20-24th. Activity will be on the HF bands, CW and SSB. QSL via their home callsigns.

EU-034. Frank, DL1FT, will be active as ES0FTZ from Saaremaa Island, July 11-21st. Activity will be on 80/40/30/20/17/15 meters SSB. For more information and exact times, check Frank's Web site at: http://www.funkexpedition.de/estland

EU-054. Operators Giovanni/IT9GAC, Giacomo/IT9GIE, Rosario/IT9IVA, Carmelo/IT9TPJ, Eugenio/IT9VKY, Eugenio/IW9BCW, Giuseppe/IW9BDV and Nucifora/IW9FY will operate as IF9RGE from Favignana Island (IIA TP-011, MIA MI-025) between April 21-23rd. Activity will be on HF (CW,SSB, RTTY), 6 and 2 meters. QSL via IT9EJW, either by the Bureau or direct to: Alfio Bonanno, Via della Regione, 20 - 95028 Valverde (CT), Italy. Visit the Radio Gruppo Etna Web page for updates and more information at: http://www.rgetna.org

NA-091. Heinz, VA7AQ, will be active as VA7AQ/p from Quadra Island (BC-006 for the Canadian Islands Award) between July 26th and August 1st. Activity will be on all bands, SSB only, plus an entry in the RSGB IOTA Contest (July 28-29th). QSL via his home callsign, direct or by the bureau.

NA-183. Operators Enrique/XE1IH, Francisco/XE1KOF, Luis/XE1YJL, David/XE1XR, Martin/XE2ML and Ben/XE2AUB will be active as 4A3IH from two different islands with the same IOTA references. They will activate Roqueta Island (Light House ARLHS MEX-069) between May 14-19th and Ixtapa Island between May 21-26th. Activity will be on HF (CW, SSB, Digital mode), 6 and 2 meters and the satellites. QSL via IT9EJW, either by the Bureau or direct to: Alfio Bonanno, Via della Regione, 20 - 95028 Valverde (CT), Italy. More information is available at: http://www.mdxc.org/4a3ih

OC-164. Operator John, VK6HZ, will be active as VK6ARI from Rottnest Island (WLOTA LH-2197), March 5-11th. This will be a holiday style operation with IC-7000 on SSB, PSK and RTTY, possibly CW. Activity will be around the usual IOTA frequencies. QSL via VK6HZ.

JW, SVALBARD. Maria/IN3TCH and Mauro/IN3SAU will be active from here as JW/homecall from March 8-11th. Activity will be on RTTY and SSB from the Longyearbyen JW5E club station. Look for them to be active on all bands especially the low bands. QSL via IN3SAU.

KH2, GUAM. The Japanese WRTC2006 Team members Fukuda/JK2VOC and Nose/JA2BNN will be active from here for the Russian DX Contest in March. Fukuda will participate as KH2/JK2VOC and Nose as KH2/JA2BNN, both as Single-Op entries. Operators will be here between March 16-19th. Activity before the contest will be on the WARC bands. QSL via their home callsigns.

KH8S, SWAINS ISLAND (DXpedition Update/Added Operations). Hrane/YT1AD, with the team of Krassimir/K1LZ, David/K3LP, Alan/K6SRZ, Doug/N6TQS, Harry/RA3AUU, Eugene/RK3AD, Viktor/RU4SU, Vangelis/SV2BFN, Alekcej/UA4HOX, Roman/UR0MC, Milovan/YU1AU, Mladen/YU7NU, Vel/YZ1BX, Stevan/YZ7AA, and potential team members Srecko/YU1DX and Dragan/YZ1EW, will be going on a DXpedition to Swains Island between April 4-15th, using the callsign N8S (November Eight Sugar). They will stay on Swains Island 10 days and will operate with 6 stations on the air at the same time. Activity will be on 160-2 meters using CW/SSB/RTTY/SSTV/PSK31. Current suggested frequencies are:

BAND	CW	SSB	RTTY	SSTV	PSK31
160	1825	1835	1835	-	1835
80	3505	3795	3582	3723	3582
40	7005	7082	7035	7035	7035
30	10105	-	10145	-	10145
20	14020	14195	14081	14230	14081
17	18075	18150	18100	-	18100
15	21020	21295	21081	14230	21081
12	24895	24950	24920	-	24920
10	28020	28495	28081	28680	28081 kHz

Frequencies for 2m and 6m will be determined later.

The DXpedition will also be active from the Tokelau Island as ZK3A between April 16-19th, and the Independent State of Samoa (5W - formerly known as Western Samoa from 1914-1997) as 5W5AA between April 20-24th.
QSL N8S via YT1AD: Dr. Hrane Milosevic, 36206 Vitanovac, Serbia - EU
QSL ZK3A via YU7NU: Mladen Bogdanov, Beogradska 21/18, Pancevo, 26000, Serbia - EU
QSL 5W5AA via YZ7AA: Stevan Stepanov, Temerinska 22, 21000 Novi Sad, Serbia - EU
The total cost of the DXpedition is 155,000 USDs. All donations are welcome. To donate, please contact the co-leader of the DXpedition, Dave/K3LP via E-mail at: K3LP@yahoo.com
Also, it seems the DXpedition team is still looking for one more operator. For more details and updates, please visit the KH8/S Web site at:

http://www.yt1ad.info/n8s/

LX6, LUXEMBOURG (Attention Prefix Hunters!). A new prefix, LX6, is now being issued to Novice licenses as of January 1st, 2007. The LX6 stations are now allowed to work on 160/80/15/10 meters with 100 watts.

OPDX ADDRESS CHANGES. PLEASE NOTICE (as of February 12th), there are new E-mail address changes (listed below) for the OPDX InterNet HELP/SUBSCRIBE/UNSUBSCRIBE request.....

PJ7, SINT MAARTEN ISLAND (NA-105). By the time you read this, Alex, PY1WAS, should be active as PJ7/PY1WAS through February 22nd. Activity will be on 40-10 meters, most CW with some SSB and some VHF operations. Especially look for him on 60 meters (5403.5 kHz). QSL via the LABRE-SP Bureau or direct to: Liga de Amadores Brasileiros de Radio Emissao, - LABRE-SP, PObox 22, (ZipCode:) 01009-972 - Sao Paulo -- SP, Brazil. More info is available at: http://www.qsl.net/py1was or dalmasso@uol.com.br

QSL INFO AND NEWS.....
QSL Route For Contest Stations and Beacons
CN3A via I2WIJ FX3THF via F6DBI OH9VHF via OH6DD
CT1ART via CT1EPS FS5KA via W3HNK ON0VHF via ON7PC
DB0JW via DL9KAS GB3SSS via G3AGA OY6BEC via OY1A
DB0LBV via DC6WM GB3VHF via G0FDZ PI7CIS via PA0C
DB0SI via DL1SUZ IQ1SP via IK1LBW PI7HVN via PA3FHY
EA6VHF via EA6FB IQ2CY via IK2THZ PI7PRO via PA3FGE
EA8EW via RX3DU IQ3MF via IN3IYD PJ2T via N9AG
EI2WRB via EI8JA LX7I via LX2A SK4MPI via SM4HFI

QSL STATUS OF CN3A AND 5D5A. Bob, I2WIJ, QSL Manager for CN3A and 5D5A callsigns, regrettablly informs the deserving HAM community that due to unpredictable delays in QSL card printing, he is not able to answer any of the QSL card requests yet. As of February 14th, he hopes that the printed QSL cards should be available before the end of the next month.

Some of the VU7MY logs (as well as VU7RG) are now available online at: http://www.dx-pedition.de/lakshadweep2007/logs/logsearch.php

S9, SAO TOME and Principe. Luciano, CT1HHP, will be active from Sao Tome as S92FM (waiting confirmation) from February 26th to March 7th. Activity will be on 40/20/15/10 meters and perhaps 17 meters using RTTY and BPSK31. QSL via his home callsign.

SU, EGYPT. Members of the German Lufthansa ARS will be active from here between March 3-12th, using the special Egyptian callsign SU8DLH (Deutsche LuftHansa). Activity will be on all HF bands, CW, SSB and the Digital modes. Further information about the QSL Manager to be announced soon.

V7, MARSHALL ISLANDS. Look for Keisuke, JK1QLR, to be active once again as V73KN from Majuro Island (OC-029), March 16-22nd. Activity will be on all bands. QSL via JK1QLR only, either through the JARL Bureau (DO NOT QSL VIA THE V73 BUREAU!) or direct to:

Keisuke Nagase, #203 371-1 Bishamonyokocho, Kamigyo-ku, Kyoto 6020817 Japan.

YK, SYRIA. Saad, N5FF, will once again be active as YK1BA. He is expected to arrive in Damascus during the evening of April 9th and should be active between April 10-27th, before returning home to Texas on the 28th. Saad informs OPDX, "As usual, the purpose of the trip is not a DXpedition, so my operating will be spotty. However, I hope to be able to operate at least 3-4 hours a day. With the current band conditions and my typical operating times, I suspect that I will spend most of my radio time on 30, 40, and 80 meters. However, I will operate on whatever band (80-10m) and mode that have the best propagation at the time. Most probable operating times are between 2000-2300z or between 0200-0500z, and possibly some occasional activities between 1200-1400z. I will be active on SSB, CW, and RTTY." QSL via N5FF.

Well, 10kW = 13hp.
Allow 50% efficiency for the TX, so there's 26hp.
I don't know about the alternator - 70%?
That makes it 37hp before the vehicle moves.
Ian.

The code hating losers were too stupid and lazy to learn and use CW,
they're also probably going to be too stupid and lazy to solve TVI
and interference problems with their neigbhors. There will be more
amateur to amateur and amateur to non-amateur conflicts. Hams will look
bad and the FCC will regulate the service more because of all the retards
we let have HF privledges. CQ Breaker, CQ Breaker.

Welcome to CB everybody.

115. Internet Relay Chat Repost)

Not sure if this made it the first time since I never got it back...

Radio Enthusiasts,

This posting is to invite radio entusiasts to investigate Internet Relay Chat (IRC), a free realtime multi-user chat medium that allows users to connect to a network of servers and chat in realtime with other users connected to any of the servers on the same network.

IRC uses "channels" similar to the chat rooms on AOL for those familiar with those. Anyone who connects to any server in an IRC network can join any channel on that network and chat with any and all other users in that channel regardless of what server in the network they have connected to.

Using IRC, it is possible (for example) for radio clubs, ARES/RACES or other EmComm groups, etc. to have a realtime online chat forum where members can connect and have sort of an online clubhouse or meeting. This is great for groups with members in widely separated geographical areas who can't otherwise have a "meeting" in the usual sense.

The IRC network IRC-GLOBAL is one example of an IRC network, and it happens to be operated by radio hobbyists. Feel free to check out the network's website at http://proxemic.net - this network is now inviting radio enthusiasts of all stripes to use the IRC-GLOBAL network as a forum for realtime multiuser chat with other like-minded individuals. Hams, CB operators, scanner and shortwave listeners, whether individuals or clubs, are welcome to use this network.

IRC-GLOBAL offers five open public IRC servers using active connection ports 6661-6669 (and also, 6697 for SSL connections). running full modern services (ChanServ/NickServ/MemoServ/BotServ/HostServ). Secure client connections are available using SSL. Channel owners have full founder control of services tools and security options. All of this is free, there is no charge of any kind for the use of any IRC-GLOBAL servers or services.

There are already some radio-related channels formed (#monitor, cross-linked to the #monitor channels on four other IRC networks as well, is the busiest right now), or you may of course form your own channels - about radio, or anything else as long as it's not illegal or just for the purpose of harassing others.

I hope nobody will consider this "spam" or be offended by it, if so, I apologize - I'm posting this as a network administrator on the

IRC-GLOBAL network, I have no financial axe to grind since the use of the network is totally free to any and all who wish to use it. I'm one of the radio hobbyists who has helped put this network together and just want to invite other radio people like myself to make use of it.

Hope to see you on IRC-GLOBAL soon!

73 de John Kasupski, KC2HMZ
IRC-GLOBAL Network Administrator

FYI - IRC is also one of the larger sources of computer infections, so be sure yours is fully patched & all protection software is activated before you take the suggestions below!

Well, that's good advice that should be followed before you even
connect to the Internet, even to download your e-mail. I do know,
however, that I've used IRC regularly since 1996 and have never, ever
gotten any kind of virus or other infection as a result of my IRC
activities. Thoigh I suppose other people's mileage may vary.

John

It's also been obsoleted by Jabber and it's Multiuser Chat.
http://en.wikipedia.org/wiki/Jabber.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1DG, NG3K, W3UR & The Daily DX, KI4HLV, N4AA & QRZ DX, K8YSE, W8QZA, K9NW, AK0M, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, F5NQL & UFT, F6AJA & Les Nouvelles DX, F6FQK, HL1VAU, I1JQJ/IK1ADH & 425 DX News, JK1QLR, ON4CAS, RSGB IOTA, SM5DQC, SM5MX, SP2FAP, SP9MRO, VA3RJ & ICPO, VK6HZ and ZL3AB for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 18th-February, through Sunday, 25th-February there were 228 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK2, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA ISLAND (DXpedition Update). Team leader Witek, SP9MRO, sent out the following press release (edited): "2007 DXpedition to Agalega Islands 3B6 Newsletter No. 3 -- Today (February 21st) the decision to suspend the expedition to 3B6 Agalega had been taken. We will decide on

March 15th whether it is postponed only or rather cancelled. The decision is due to enormous costs of the expedition that have much exceeded the estimated budget.
The expedition was supported by PZK, SP-DX-C, G DX Foundation, EU DX Foundation and institutional sponsors as well as other hams from a few countries. We would like to thank all of those. Our main sponsors have decided that the period between receiving the licenses and the time set by Mauritius' government to start the ham's activity is too short.
Due to all of that, expedition's members are checking the possibility to postpone it until the 4th term of 2007 unless it collides with September's expedition to St. Brandon.
All of the donations will be immediately returned the same form they were paid. We hope that, in case of reorganizing the expedition to Agalega in the end of this year, our kind donors will be able to support us once again. We would like to thank those who supported our actions, especially those from Mauritius. Simultaneously we would like to apologize to all of those who along with us counted on QSO in March 2007."

3DA, SWAZILAND. Operators Filip/ON4AEO, Kath/ON7BK, Danie/ZS6VWD and Elize/ZS6EMH will be active as 3DA0FC from April 5-9th. Activity will be on 80-10 meters including the WARC bands. QSL via ON4CJK. The group's Web pages are: http://www.3da0fc.be
http://www.filipstattooshop.be/swaziland

6Y, JAMAICA. Iain, KI4HLV, is expected to be active as KI4HLV/6Y5 on the satellites from Kingston very soon. He is expected to be active there for an extended time. Hopefully, more details will be forthcoming. If anyone needs/wants 6Y5 on the satellites, please contact Iain at: ki4hlv@gmail.com

9U, BURUNDI. Operators Franz/DJ9ZB and Baldur/DJ6SI are now active as 9U9Z and 9U0X, respectively, until March 1st. Activity is expected to be on 160-10 meters on CW and SSB. Baldur has been heard mainly on CW and active on 30/20/17/15 meters. Franz has been mainly SSB on 20/17 meters. QSL 9U0X via DJ6SI and 9U9Z via DJ9ZB.

AH7, HAWAII. Bill, W8QZA, will be operating from the QTH of KH6SQ for the ARRL International DX Phone Contest (March 3-4th) as AH7ZA. His category will be All-Band/QRP. QSL via W8QZA.

BD3, CHINA. Look for Zhang, BD3APX, to be active during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/Low-Power entry. QSL via BD3APX.

BS7, SCARBOROUGH REEF. The following is another press release on the upcoming DXpedition to Huang Yan Dao (Scarborough Reef) which will take place in late April. PRESS RELEASE (February 21, 2007): "Plans and arrangements are on track for the scheduled date of late April. Equipment is being received from sponsors and testing will begin soon. So far Icom, Acom, SteppIR, Butternut and Heil have provided equipment.
To those who have already sent donations, thank you. Please help us make this operation a success by assisting with a donation. You can see your

donation listed on our web site at www.bs7h.com. Your donations can be received using Pay Pal, credit card or by mail as explained on the web site. All support is appreciated. You can also sponsor a page on the web site, contact N1DG if interested at don@aurumtel.com."..... Tom, N4XP
The multi-national team is seeking financial contributions to help defray the cost of this DXpedition. Full details on how to contribute can be found on the DXpedition's Web site at: http://www.bs7h.com/

CT3, MADEIRA ISLANDS. Operators Rosel/DL3KWR and Hardy/DL3KWF will be active again as CT3/DL3KWR and CT3/DL3KWF, respectively, March 8-22nd. Activity will be mostly CW and on the WARC bands. QSL via their home callsign. E-mail requests for bureau cards can be sent to: <dl3kwr@darc.de> or <dl3kwf@darc.de>, respectively. Their Web site is at: http://www.mydarc.de/dl3kwr

CU2, AZORES. Look for Pedro, CU2CR, to be active during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/Low-Power entry. QSL via CU2CR.

E5, SOUTH COOK ISLANDS. Remember to look for Bob, G3PJT, to be active from Raratonga Island (OC-013), March 3-17th. He has requested the callsign of E51PJT. Activity will mainly be CW and an entry in the RSGB Commonwealth Contest (March 10-11th). QSL via his home callsign, direct or by the bureau. E-mail requests for bureau cards can be sent to: g3pjt@btinternet.com

FY, FRENCH GUIANA. Oliver, F5MZN, will be active as FY5KE during the ARRL International DX Phone Contest (March 3-4th) as Single-Op/All-Band/ Low or High-Power entry. QSL via FY5KE.

IOTA NEWS.....
AS-079. Take, JI3DST, will be active as JI3DST/JS6 or JS6RRR from Miyako Islands, March 2-5th. Look for him to be especially active on 160/80/40 meters. QSL via his home callsign through the JARL bureau only.

AS-148. Operators Rocky/HL1VAU, Ryu/DS4NYE and Han/DS2GOO plan to activate Sonyu Island (Korean Districtiion Number G02) on March 1-4th. Operators will sign homecall/4. Activity will be on 40-10 meters CW/SSB/RTTY and PSK31. Their activities will also include the ARRL International DX Phone Contest (March 3-4th) signing as D70LW/4 and possibly as a Single-Op/Single-Band (20m)/High-Power entry. QSL via their home callsigns and D70LW/4 via DS4NYE. Look for pictures and online logs to be available after their return trip.

OC-164. (Update/Change) Operator John, VK6HZ, will be active as VK6ARI from Rottnest Island (WLOTA LH-2197), March 2-11th. This will be a holiday style operation (between fishing, drinking beer, fishing, spending time with his family, drinking beer and fishing!) using an IC-7000 on SSB, PSK and RTTY, possibly CW. Activity will be around the usual IOTA frequencies. John informs OPDX that he hopes to be up on 40 meters SSB during the evenings,

then the following mornings. He suggests to look for him around
1100z for an hour or two, and 2200z, again for an hour or 2 on
7055 kHz SSB or 7030 kHz CW. John states, "Look on 6 meters
(50.110) for VK/JA, but please don't expect much! Hope to spend
some time over the weekend of March 3-4th on 20 and 15 meters
SSB/RTTY and maybe some PSK. Will hopefully have online logs
uploaded each evening at: http://home.exetel.com.au/vk6hz
If not during the operation, the logs will be avaliable after
March 15th online. QSL is via VK6NE."

MOST WANTED OCEANIA SURVEY DEADLINE APPROACHING. Mark, ZL3AB, wants to
remind operators in VK/ZL and Oceania area that submissions for the
"Oceania Most Wanted Countries List" will close on February 28th. Lists
can be submitted in text, Word, or Excel formats or simply in the body
of an E-mail. Email your list to: giggs501@yahoo.com.au
The results will be published in March and E-mailed direct to all who
submit.

OE4, AUSTRIA. Members of the OEVSV HQ Contest Team will be active as OE4A
during the ARRL International DX Phone Contest (March 3-4th) as a Multi/2
entry. QSL via OE1EMS Direct.

ON60, BELGIUM. Look for UBA club stations in Belgium to use the "ON60"
prefix until early 2008, to celebrate the 60th annivesary of the UBA,
the IARU Society for Belgium. A special commemorative UBA 60 Award will
be available. Contact at least five different ON60 stations during the
calendar year 2007. Each ON60 station is only valid one time. There are
no band or mode restrictions, but contacts via repeaters, packet radio
or echo link do not count towards the award. The award can be achieved
by HAMs and SWLs worldwide. Endorsement stickers are available for 10,
20 and 30 different contacted ON60 stations. For more details, please see
the following Web page at: http://www.uba.be/hf/awards/awards_fr.html
Web page is in French, but Google will translate the page.

PJ2, NETHERLAND ANTILLES. "The Sultans of Shwing" will be taking a break
from the snow and the cold of northern climates to spend a few days on the
sunny Island of Curacao (SA-006) sippin' some brews and makin' some Qs.
Operators Chad/WE9V, Scott/KA9FOX, and Mike/K9NW will be active from
February 26th to March 6th signing PJ2/homecall. Look for them during
the ARRL International DX Phone Contest (March 3-4th) as PJ2T in the
Multi/2 category. QSL PJ2T via N9AG. QSL all other individual (PJ2/homecall)
callsigns via their home callsign addresses.

PJ7, ST. MAARTEN. Bil/W8EB and his wife Dorothy/W8DVC will be here between
now and March 25th. Activity will be on 160-10 meters, CW, SSB, RTTY and
PSK31 as PJ7/W8EB and PJ7/W8DVC. Bil will operate in the ARRL DX SSB Contest
(March 3-4th) as PJ7B. This will be Bil's 12th consecutive ARRL DX SSB
Contest participation from St. Maarten. All QSL requests go to W8EB. Visit
their PJ7B Web site at: http://www.qsl.net/pj7b/

9Q1EK/9Q1TB QSL STATUS. QSL Manager Osten, SM5DQC, informs: "Due to a misunderstanding between me and the printer, Tony, LZ1JZ, (my fault) I have not yet received the 9Q1TB cards - please be patient! I'm up to date with mailing of 9Q1EK cards, more than 230 letters mailed as of today (February 20th). Georges is now back from his vacation, busy with work but on the bands as much as he can.. For Europeans: We don't have "euro" postage here, it's the same 11 SEK if mailed to USA or to Finland. 1 USD is NOT enough as our postage to ALL foreign countries is the same, and we do NOT have economy mail, all mail goes as 'priority mail' = 'air mail'. (USD 1 = SEK 7)"
There is a log search available at: http://www.logsearch.de
However, Osten states that there are "busted calls", and if you have any questions to please send him an E-mail at:
sm5dqc@areteadsl.se -or- sm5dqc@arrl.net

NEW UK POSTAL RATES. QSL MANAGER Phil Whitchurch, G3SWH (AD5YS), reports that beginning April 2nd, 2007, the UK postal rates will rise across the board by slightly more than 10%. Current situations and for some time now, the 1 USD has been insufficient to pay for the minimum return postage to countries outside Europe. This new increase will mean that 1 USD is no longer sufficient to pay for the minimum return postage to countries *WITHIN* Europe. There is no surface mail service offered by the Royal Mail to countries within Europe. However, they do offer a surface mail service to countries outside Europe. However, at today's exchange rate, the new postage cost is barely met by 1 USD and with the continuing decline in the dollar/pound sterling exchange rate, it is unlikely to remain so. The good news is that the new, 2009 expiry IRCs are still exchangeable for the minimum return postage to all parts of the world. However, very few seem to be using them at present. Please bear the above in mind when sending QSL requests which may not be able to be processed and returned before April 2nd. In particular, the cards for the VP2MTE operation are unlikely to be received from the printers by this date. Please do not send currency other than USDs or properly stamped, 2009 expiry IRCs. If you must use mint stamps, please supply them loose (not stuck onto the envelope). Any QSL requests received without adequate return postage will be answered via the RSGB bureau.

SESH AWARD. The editor of Polish Radio Amateurs' Journal "QTC" is issuing a "Special Events Stations Hunter Award" (SESH) to an amateur radio station which can submit proof of 100 or more contacts with special events stations. QSOs can be made on all bands and modes for contacts that have been made after November 15, 1945. The SESH Award is also available for SWLs. For complete details, visit QTC's SESH Web page at: http://qtc.radio.org.pl/pokazartykul.php?articleID=482

TP2, FRANCE (Special Event). Francis, F6FQK, TP2CE Station's Director, informs OPDX that to commemorate "International Woman Day", the Council of Europe Radio Amateur Club (TP2CE) will be active between March 9-11th. The station will be operated by 3 YLs (operators were not provided) on CW, SSB and RTTY. QSL via F5LGF. Visit the Council of Europe Radio Amateur Club (CERAC) Web site at: http://www.coe.int/t/e/tp2ce

USI ACTIVITY. Operator Jay, AE4MK, is expected to be active as K3USI from several new islands in North Carolina for the U.S. Islands Awards program April 20-22nd. His plans include to activate the following islands: Bear (NC-new), East Dudley (NC-new), Wast Dudley (NC-new) and Huggins (NC-new). Jay will be kayak camping on the North Carolina coast near Swansboro. He will be limited to battery power using only a TS-50 w/50 watts on all bands. QSL via USi eQSL, direct or by the bureau.

V7, MARSHALL ISLANDS (Update). Keisuke, JK1QLR, informs OPDX that he will once again be active as V73KN from Majuro Island (OC-029), March 16-22nd. Operations and band activity will be limited because Keisuke will be there on business. He recommends to watch for updates on QRZ.com. QSL via JK1QLR only, either through the JARL Bureau (DO NOT QSL VIA THE V73 BUREAU!) or direct to (new address):
Keisuke Nagase, 486-60, Totsuka-cho, Totsuka-ku Yokohama City, 2440003 JAPAN

VP2V, BRITISH VIRGIN ISLANDS (TSA Problems). Steve, AK0M, informs OPDX just before going to print "my VP2V/AK0M operation did not happen as was planned for last week. TSA in Chicago refused to let me carry most of my gear onboard my flight, causing a last-minute scramble for a way to get the gear there. It ended up loosely packed in a cardboard box that was checked through as luggage and things arrived in various states of operability. Then my other luggage with some of my antenna parts was lost for 4 days..... This is the first time that TSA has ever had any problem with my equipment and is hopefully due to the specific manager in Chicago that examined my carry-ons. Hopefully, Andi, DL2AU, was able to meet the needs for VP2V. I will have more information on my website." His Web site is at: http://www.ak0m.com

WP3, PUERTO RICO. Alfredo, WP3C, will be active during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/Single-Band (15m)/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK.

XV, VIETNAM. Rolf, SM5MX, is back in Hanoi and has revived his old license for XV9SW. He is expected to be on the air until April 30th. Activity will be on CW on 20 and 15 meters. However, Rolf informs OPDX that the downtown electric smog is worse than ever, so operation is just barely

possible now and then. Looking at the QSNs, Rolf's activities seem to take place between 0430 and 1100z around 14044 and 21044 kHz. QSL via his home callsign. He will answer QSLS upon his return to SM-land in August.

Z35, MACEDONIA. Ozren, Z32XA, will be active as Z35T during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op/Single-Band entry. QSL via Z35T.

ZF, CAYMAN ISLANDS (NA-016). Bob, K3UL, will once again be active as ZF2UL, March 1-7th. Activity will be mainly CW on 160/80/30 meters. QSL via his home callsign.

ZP0, PARAGUAY. Tomas, ZP5AZL, will be active as ZP0R during the ARRL International DX Phone Contest (March 3-4th) as a Single-Op entry. QSL via W3HNK.

>Actually, he might well be. Perhaps you're lucky enough
>not to have any of these people where you live, but in
>my neck of the woods, in some lower-socioeconomic-status
>neighborhoods, there was a wave of enormous CB antennas

Oh, we have a bunch. Local law enforcement says about a third of the
drivers up here are driving on a suspended or revoked license...or
they never did bother to get one.

They like to run those radios, but I've never seen any of *those* big
antennas <:-))

It soulds more like a lot of the ham antennas up here, particularly
for 160 and 75 when they are running 500 to 600 watts. We have a
number of those "mobile porupines" covering 1.8 through 440 or higher.
Back in the 60's I ran one that required guys to keep it from laying
down and pointing to the rear. No big loading coils or top heats, it
was just *tall*.

>with HUGE open-wire loading coils at the base, ones that
>appeared to be made of 3/8" copper tubing or something
>along those lines. No telling if the coils did anything
>or were just for show; some of the CBers used high power

Go on e-bay. You can find some huge amps for reasonable prices... if
you don't care about what the signal sounds like. OTOH there's a 2K4
on there at present (2-27) listed as a 10 meter amp. They sure
aren't going to get much out of it driving it with 4 watts at 10db of
gain. <:-)) Still they do get hold of much higher powered exciters.

>and others poured their 4 watts into these enormous
>whips .. I'm seeing fewer of them on the roads these
>days but they're still around. :-/

Other than that one Chrysler model with the particular V-6 I've not
run into any problems. Still my 4-Runner doesn't lend itself well to
HF antennas.

They do nail a few of them that manage to creep up into 10 meters now
and then.

We run multiple belts to propellers from engines running that much
power. <:-))

When I get my plane done...Glasair III (fiberglass with carbon fiber
horizontal stab) I plan on having up to 500 watts on HF and I'd really
like to make it 160 watts on 2-meters. 30 to 50 is plenty on 440.
However I have a longggg way to go.

In the Beech I just run the HT clipped to the inside of the door which
leaves the antenna sticking up in the window. With that set up I
typically get 50 to 75 miles with 5W FM and the rubber duck antenna.
The problem with the antenna in the window is it tends to be pretty
directive...without any gain. I've worked 150 miles with 5 watts
from 22,000 feet, but that wasn't in my plane which has a service
ceiling of only 19,500.

Geez what a bunch of tossers you all are - you don't like someones postings so
you try and get him evicted from the net, why not just use a kill file - you
DONT have to read his posts/threads now do you ?

Why is it the net is getting populated by the biggest bunch of self absorbed
little Hitlers ? You don't like someones posts so you bloody complain or mail
bomb them - grow up you bunch of fucking sad gits !

Richard.

Fred Read (postmaster@foxhouse.demon.co.uk) wrote:

: He posts this drivel every week or so to a number of groups that
: I subscribe to and nothing seems to stop him. *ALL* of his posts
: are off topic and unwelcome to the groups he posts to.

: We have complained about him to his postmaster on at least four
: previous occasions and he still posts the same crap. As his SP
: seem unwilling, or unable, to do anything about him, we were
: windering if there was anything you could do?

If he is not actively using tactics to avoid or sabotage killfiles
(posting from various systems, forging, massive crossposting to create
cross-newsgroup flame wars) then it should be quite easy to killfile
him.

It does seem that the frequency and the size of his posts are
approaching net abuse. However, IMHO, they aren't quite there yet. If
his postmaster were to act in this instance, it would raise troubling
censorship issues.

March 5, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1AC, K1XN & GoList, N1DG, WA2VQW, NG3K, W3UR & The Daily DX, K4ZLE, K4WW, N4AA & QRZ DX, K5XK, W5MPC, K6SE, NM6E, K8YSE, Pete's-DX-Newsdesk, 9K2HN, DK8JB, DK9TN, DL7MAE & The DX News Letter, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, M0OXO, OH2BN, OK1MU, RSGB IOTA, VA3RJ & ICPO and VK4HFO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 25th-February, through Sunday, 4th-March there were 228 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9X, 9Y, A2, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7X, ALGERIA. Yves, F5MSR (ex-FT2XE and one of the F6KAT ARS gang), will once again sign 7X0MT from Algier, Algeria. The length of his stay is not known at this time. He will use a FT 817 (QRP) and a long wire. His activity will be mainly on CW and the digital modes. QSL via his home callsign, either direct (QRZ.com) or via the French REF Bureau.

9M0, SPRATLY ISLANDS (Update). Spratly Island 9M2SDX DXpedition will take place this week from Pulau Layang Layang (AS-051) in the Spratly Island group, March 10-19th. Operators will include members of the Malaysian Amateur Radio Transmitter's Society (MARTS) and a group of JA operators. Malaysian operators mentioned are: Chow/9M2CF, Kiyohiro/9M2/JH3GCN, Tex/9M2TO and Yasumasa/9M8YY. JA operators mentioned are: Yoshiaki/JA1OCZ, Tack/JE1CKA, Harumi/JF1PJK, Naoyuki/JK1FNL, Miho/JJ2VLY, Yutaka/JQ2GYU and Takashi/JR7TEQ. They plan to have 2-4 stations up and running for 24 hours on all bands 160-6 meters, and on CW, SSB, RTTY and PSK modes. QSL via 9M2TO, by the bureau or direct to: Tex Izumo, 2C-10-03 Mutiara APT., JLN. SG. EMAS 11100 Batu Ferringhi, Penang, MALAYSIA. Visit the DXpedition's Web page at: http://island.geocities.jp/layang9m4sdx/

BS7, SCARBOROUGH REEF. The following is another press release on the upcoming DXpedition to Huang Yan Dao (Scarborough Reef) which will take place in late April. PRESS RELEASE (March 2, 2007): "The BS7 Team is happy to announce a third easy way to support our operation.
Now our European friends who wish to send their donations via paypal in Euros can contribute that way as well. Through the assistance of the Mediterraneo DX Club their website can accept Paypal donations in Euros. The web address is http://www.mdxc.org/bs7h/
This is in addition to the US Paypal system on the main BS7H site and the two collection points in America and Germany for mail in donations:

If you are sending a check in North America or Asia , please make it payable to " Paul Pescitelli". Please mail this form to:
PAUL B PESCITELLI, K4UJ
622 Ridgeview Drive
Lilburn GA 30047 USA.

European Donors can make their checks payable to "Dr. Markus Domach" and send it to:
Dr. Markus Dornach, DL9RCF
Lautensackstr. 19
94036 PASSAU GERMANY.

European Donors can also easily transfer donations to DL9RCF via E-banking respectively the European standard money transfer - just contact Markus, DL9RCF, via dl9rcf@t-online.de

As we enter the 60 day window for our activiation of the number one country on the DXCC list, your support is now more vital than ever. Thank you again for your continued support. THE BS7H team."

Remember, the multi-national team is seeking financial contributions to help defray the cost of this DXpedition. Full details on how to contribute can be found on the DXpedition's Web site at: http://www.bs7h.com/

CN, MOROCCO. Members of the Dar Bouazza Contest Group (DBCG), will activate their ARRAM club station (CN8MC) in Rabat, during the CQ WW WPX SSB Contest (March 24-25th) as CN5W and as a Multi/Single entry. Operators mentioned are: Mohamed/CN8PA, Jean-Luc/F5IQA and Patrick/F6IRF. QSL via EA7FTR or the LoTW. More details available soon at: http://cn2ww.blogspot.com/

DAYTON HAMVENTION DX DINNER. Jay, K4ZLE, states, "This is a reminder of the 22nd annual DX Dinner to be held in conjunction with the 2007 Dayton HamVention. The dinner will be Friday evening, May 18th, at the Crowne Plaza Hotel, located in Dayton City Center. This is the same venue as in years past. Our key speaker will be Ward Silver, N0AX. Ward is a well known DXer, Contester and author. In addition to the camaraderie and fellowship we expect to continue the tradition of have some very nice attendance prizes - last year the main prize was an Icom IC-756 Pro III! We have upgraded the menu this year. Tickets are 36.00 USDs per meal, payable in US funds to SWODXA. (Sorry, We do not process PayPal or Credit Card payments.) Please advise if you want a vegetarian meal when you order. You may order from Jay Slough, K4ZLE, at his CBA. SASE would be appreciated. We attempt to honor group seating requests when tickets are ordered together. There is not a bad seat in the house, but seating is definitely limited. Come join us for an evening of fun and fellowship. Further information may be obtained from Jay at: k4zle <at> yahoo <dot> com. K4ZLE's CBA is: 8183 Woodward Dr., West Chester, OH 45069"

DAYTON HAMVENTION RTTY FORUM. Shelby, K4WW, informs that the 2007 Dayton RTTY forum will take place on Sunday, May 20th, from 10:15-12:00 at Hara Arena, in Room 2. Speakers will be Ken/K1EA and Ed/W0YK. He states, "Ken will discuss log checking, and distinguish between myth and reality, busted/unique calls, serial numbers, and packet poaching. Ed will give ideas of efficiently improving RTTY contesting. Time permitting, there will be a question/answer session following the presentations."

DQ50, GERMANY (Special Event). Look for special event station DQ50SAAR to be active through the end of the year. Activity is to celebrate the 50th anniversary of the DARC Distrikt SAAR (Q). This activity counts as a special DOK 50SAAR. A special QSL will be issued and available via DO7VLR. QSLs will be sent automatically via the Bureau.

EK0, ARMENIA. Operators Hovik/EK6TA, Anna/EK6YL, Leszek/SP9LJD and Kazimierz SP9UON/DJ0MCZ will be active as EK0B during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/? entry. QSL via SP9ERV.

FK, NEW CALEDONIA (Also 3D2/R). Tony, 3D2AG (aka FO5RK), is currently active as FK/FO5RK from Noumea, until the end of April. Activity is mainly CW on 40 meters after 0600z and 20 meters after 0900z. Reports indicate that he will go to Rotuma in May/June and operate as 3D2AG/p.

HB0, LIECHTENSTEIN. Look for two WorldWide Young Contesters (WWYC) teams to activate Liechtenstein between March 16-19th, and participate independently in the Russian DX Contest (March 17-18th) from there. The German team, consisting of Simon/DJ4MZ, Matthias/DK4YJ, Ulf/DK5TX, Christoph/DK9TN and Martin/DL5RMH, will sign HB0/homecall outside of the contest, but will be active as HB0/DK4YJ in the Russian DX Contest as a Multi-2 entry. QSL via the Bureau to their home callsigns. The Croatian Team, consisting of Dragan/9A2SX, Igor (Siro)/9A3AXX, Hrle/9A6XX and Mark/9A8MM, will sign HB0/homecall outside of the contest, but will be active as HB0/9A8MM in the Russian DX Contest as a Multi-Single entry. QSL via the Bureau to their home callsigns. Visit the two WWYC team's Web sites at:
German team

http://www.dk9tn.de/hb0
Croatian Team
http://www.rkp.hr/active/index.php?option=content&task=view&id=306&Itemid=77

HF40, POLAND. Members of the "Piastowski Klub Krotkofalowcow" will activate their club station (SP6PAZ) using the special event callsign HF40PAZ to celebrate their 40th anniversary. The station will be on the air between March 1st and April 30th, and again between September 1-30th. Also, look for HF40PAZ to be active in the 2007 CQWW WPX SSB Contest (March 24-25th). QSL via SP6PAZ. Visit their Web page at: http://www.sp6paz.int.pl

HI, DOMINICAN REPUBLIC. Javier, NM6E, informed OPDX on Thursday that he is in Santo Domingo and is active as HI8/NM6E. He will be in the country on an extended work assignment until March 15th. He plans to travel around the country, so look for him to also sign HI3/NM6E (Santiago) and HI7/NM6E (Punta Cana). Activity will be on 80-10 meters CW/SSB. Javier will use his K2 #4409 (QRP) station and a Super Antenna MP-1 vertical (10-80 plus wire antennas). His operation will be from the hotel pool areas or beach as his work schedule permits. He was expected to be in this past weekend's ARRL International DX SSB Contest (QRP Category) and Elecraft QSO Party (both modes, common QRP calling freqs). Depending on his work, Javier should be on in the evenings and on the weekends. QSL via LOTW ONLY.

IOTA NEWS.....
AF-019. Operator Luigi, IK8HCG, will be active as IG9R from Lampedusa Island during the next CQWW DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m) entry. QSL via IK8HCG.

AS-099/
EU-186. Operators Pavel/TA2ZAF (OK1MU), Slavek/OK1TN, David/OK1RK, Standa/OK1AU, Karel/OK1DG, Zdenek/OK1FIA and Vlada/OK1CW will activate two Turkish Islands between March 4-11th. They will be using the special callsigns TC0DX and YM0DX to activate the Gokceada (EU-186) and Bozcaada (AS-099), respectively. Activity will be on 40-10 meters CW/SSB. They will have three IC-746PRO, 2 x PA, 5 elemnet Spiderbeam, 17m 2 element Delta Loop, 20m HB9CV and loops for 30m and 40m. QSL via OK2GZ, either by the OK Bureau or direct or via E-mail (for Bureau request). Online logs, story, photogallery, daily news, team, etc.... are available at:
http://www.okdxf.eu/ankety/tc0dx/en/tc0dx.php

NA-082. Members of the University of Mississippi ARC (W5UMS) will be activating Horn Island, March 10-11th. Operators mentioned are Barrett/W5BJC, Jim/W5JMO, Mike/WB5HSX and Mike/W5MPC. The team will be on the island from around noon Saturday through noon Sunday. Operation will be on 80/40/20 meters CW, SSB and the Digital modes around the regular IOTA frequencies. The callsign used will be K5I. QSL via W5MPC.

OC-137. Tim, VK4HFO, on Lamb Island, is expected to be active on 40 meters for stations wanting this IOTA. Look for him starting

at 0600z onwards and again at 1700z onwards. Tim can be found
working ZL1BMW most mornings around 7060 kHz (+/- QRM/QRN).
Skeds are "OK" by E-mail at: vk4hfo@yahoo.com.au

IPY ACTIVITY. Following the recent "Antarctica Activity Week'' event,
look for operator Charles, M0OXO, and the North Wakefield Radio Club to
be operating the special event station GB4IPY from March 1-15th. Activity
is to celebrate the "International Polar Year". Look for them to be active
on all HF bands on SSB, PSK31 and CW. QSL Manager is M3ZYZ. Also, a brand
new WAP reference has been issued: WAP-098. ADDED NOTE: Remember, the
following stations are also expected to be active are:
TM4IPY - Operator Francois/F8DVD; QSL via his home callsign.
LZ07IPY - Operator Svetly/LZ3SM; QSL via his home callsign.
IA3IPY - Operator Adriano/I3XMQ; QSL via his home callsign.
IP7IPY - Francesco/IZ7AUH; QSL via his home callsign.

J75, DOMINICA. The W2RZS Amateur Radio Club will be returning to Dominica
for the 2007 CQ WW WPX SSB Contest (March 24-25th) and they will be using
their J75RZ callsign. This will be their third trip to J7-land. They expect
to arrive on March 21st and stay for 6 days. Their "home" will be the
Harmony Villa which boasts a 1700 foot elevation and is situated in the
rain forest. Due to work schedules, there will be only two operators this
trip; Bob/WB2NVR (J79RS) and Mike/WA2VQW (J79VQ). They will be active
before and after the contest and will be concentrating on the lower bands.
All QSLs for J75RZ should be sent to W2RZS via direct or by the bureau.

J8, ST. VINCENT AND THE GRENADINES. Look for Gary, W0AW, to be active
as J8/W0AW from the Island of Bequia (pr. Bek-way) in the Grenadine Islands
(NA-025), March 10-16th. He will be using an ICOM IC-7000 and an inverted
"L" for 80-10 meters. If antenna space is available there will also be
some operations on 160m. Activity will be CW, RTTY, and some SSB. QSL via
W0AW, either by the bureau or direct.

KH6, HAWAII. Matsuda, JM3PIT, will be active as KH6/JM3PIT from Oahu,
March 21-25th. His activity will include the CQ WW WPX SSB Contest
(March 24-25th). QSL via JM3PIT, by the Bureau.

LZ129, BULGARIA (Special Event). Members of the Balkan Contest Club (LZ1KZA
& LZ5A) will activate the special event callsign LZ129LO from March 1-31st,
to commemorate 129th anniversary of the "Liberation of Bulgaria from Ottoman
yoke by Russia." The special station LZ129LO counts 10 points towards the
"St. Teodosii Tyrnovski Award": http://www.balkanclub.org
QSL via LZ1KZA by the Bureau.

QSL INFO AND NEWS.....
QSL Routes For Contest Stations and Beacons:
QSL CN3A via I2WIJ QSL LA6UHF via LA4OO
QSL I7A via I7FNW QSL LA7UHF via LA6LCA
QSL IQ0RI via IZ0DZT QSL LA7VHF via LA5TFA

QSL LA2UHF via LA1K QSL OH2UHF via OH2LNM
QSL LA3UHF via LA3BAA QSL OH2VHF via OH2LNM
QSL LA4VHF via LA6LU QSL OH2VHH via OH6DD
QSL LA5UHF via LA3EQ QSL OH9UHF via OH6DD

QSL CU2A via OH2BH. Activity was during last weekend's ARRL International DX Contest. Operators were CU2CE, CU2DX and OH2BH.

Ron, K5XK (QSL Mgr for 3B8FQ), informs OPDX readers that the following are excerpts of an E-mail from Dimiter, LZ1AF, one of the higher profile DXers from Bulgaria, addressing pilferage of currency directed to his P.O. Box in Sofia. This may be of interest for anyone needing a quick LZ QSL reply not only from Dim, but other LZ stations as well:
"I QSL via the QSL bureau 100%, and direct if required. I am going to have LZ50DX cards printed soon. For either of my calls, QSL via Bureau or Direct via P.O. Box 412, 1000 Sofia, Bulgaria. For direct replies, please include an SAE + 1 new IRC return postage (rather than USD because dollars are often intercepted. Thus, I am not aware of the QSL sent!). 73! Dim, LZ1AF"

QSL VK9DNX via DJ2MX. The German BCC DXpedition to Norfolk made some 60k+ QSOs. Online log is available at: http://www.df3cb.com/vk9dnx/

SILENT KEYS.....
OPDX and its readers would like to send out our deepest sympathy to the families and friends of the following Silent Keys.

SU1ER. Early last week Hamad, 9K2HN, informed the DX community that Ezzat Sayed Ramadan, President of the Egypt Amateurs Radio Assembly (EARA - Egypt's IARU Society), became a Silent Key (SK). On February 25th, 9K2HN states, "It is with grief and deep sorrow that I received this morning the news of the sudden loss of our good friend, Ezzat Ramadan (SU1ER) who passed away peacefully. We would like to pass our deepest heartfelt condolences to his family on behalf of the Arab Radio Amateurs. May his soul rest in peace. For the people who never met Ezzat, he was very constructive in supporting Amateur Radio in Egypt and the Arab world. Ezzat will be greatly missed....."

N6ZZ. Well known contester Phil Goetz, N6ZZ, became a Silent Key (SK) on February 27th after suffering from a brain hemorrhage. Phil lived in of Alto, NM, and was 64 years old. For more info on Phil, visit the following Web page at:
http://www.arrl.org/news/stories/2007/03/01/100/

SU, EGYPT. Just a reminder that a small group of Egyptians and members of the Lufthansa Radio Club will activate the special event callsign SU8DLH (DLH stands for Deutsche Lufthansa) from Cairo, March 5-10th (possibly the 12th). Activity will be on all bands CW/SSB/Digital. 160m will only be possible with a maximum 100 watts and an inverted Vee fixed at 18m! QSL via Christofer, DK2CL.

TOPBANDER DX DINNER AT VISALIA. Earl, K6SE, announces that the Topbanders' DX Dinner will take place on Friday, April 27th, at 6:30 PM in the banquet room at the Sizzler Steak House, 2121 W. Caldwell Ave. in Visalia, CA, during the International DX Convention there. Dinner attendees will order from the Sizzler menu and pay their tabs individually. There is no fee to attend. To ensure adequate seating if you plan to attend, please contact him at: k6se@juno.com
Information on Convention activities may be seen at:
http://www.dxconvention.org

V31, BELIZE. Robin, K4VU, will be active as V31RG from March 21-28th. Activity will include the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op entry. QSL via K4VU.

VP9, BERMUDA. Mark, AA1AC, will be operating from the Hamilton Parish, Bermuda, as AA1AC/VP9 from March 11-15th. QSL via to his home callsign, direct or via the bureau.

VR2, HONG KONG. A group of VR2 hams will be active as VR2C during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/2 entry. QSL via VR2NN (NO Bureau cards).

If you have Microsoft Streets or AutoRoute, you have all you need for live APRS tracking. Now you can take advantage of the superior maps that comes with it and use it with APRSPoint. We have update the installation process of APRSPoint so that it now supports Streets or AutoRoute. You can visit http://www.aprspoint.com for a free download and trial.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 801
BID: $OPDX.801
March 12, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1AC, K1XN & GoList, N1DG, K2MGA, W2VU, NG3K, W3UR & The Daily DX, K4QD, K4VUD, N4AA & QRZ DX, AA8LL, K8YSE, WD9DZV, Pete's-DX-Newsdesk, 9M2TO, DK8JB, DL7MAE & The DX News Letter, E21EIC, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, RSGB IOTA, SP6DVP, UT5UY and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th/March, through Sunday, 11th/March there were 229 countries active. Countries available: 1S, 3A, 3B8, 3B9, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, D6, DL, DU, E5, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP2V, VP5, VP6, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK2, ZK3, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2U, GUERNSEY (EU-114). Kevan, 2E0WMG, will be active as 2U0WMG from March 19-23rd. Activity will be on 80m-70cm, mainly HF SSB only. QSL via 2E0WMG (QRZ.com).

3D2, FIJI (IOTA Op). A group of five Ukrainian radio amateurs will be activating two IOTA groups between late April and early May. Operators mentioned are: Len/UR3HR, Sergey/UR7HTX, Max/UR7HTZ (3D2TZ), Alex/UT5UY (3D2UY) and Alex/UX0LL (3D2AP). Their activity will start from Taveuni Island (OC-016), using the callsign 3D2AP, 3D2TZ and 3D2UY between April 27th and May 3rd. The team will then move to one of the "Most Wanted IOTA and Most Wanted Fijian IOTA Group (only 7.8% IOTA Chasers are credited) and activate Yanuca Island in the Ringgold Isles Group (OC-189) as 3D2RI (suffix RI=Ringgold Isles) between May 3-7th. The group plans to have 2-3 well equipped stations active and operating simultaneously using YAGI antennas. There will be a special effort on the lower bands. QSLs for 3D2RI are via UR3HR, by the bureau or direct to: LEONID BABICH, P.O. BOX 55, POLTAVA, 36000, UKRAINE. QSL cards for personal activity from Taveuni Island should be sent direct to home callsign or through the bureau (QSL 3D2UY via UT5UY, 3D2AP via UX0LL and 3D2TZ via UR7HTZ). Due to the high cost of this operation on a remote Pacific Island, the group is asking for sponsorship by various DX organizations and individuals around the world. If you would like to help fund or sponsor their DXpedition, please contact Alex, UT5UY, by E-mail at: ut5uy@ukr.net For more information, please visit the Ukrainian DXpedition Team (UDXT) Web site at: http://www.3d2.dxer.com.ua

3DA, SWAZILAND (Reminder). Remember, members of the Irish Radio Transmitters Society (IRTS), will celebrate their 75th Jubilee by planning a "AFRI75 Dxpedition 2007" to Swaziland between March 16-25th. Activity for this DXpedition will also cover St. Patrick's Day and the CQWW WPX SSB Contest. The DXpedition's leader is IRTS Vice President Paul Martin, EI2CA (3DA0PM). Currently, the following members have signed up for the DXpedition: Peter/EI7CC (3DA0PB), Aidan/EI8CE (3DA0AM), David/EI4DJ/GI4FUM (3DA0DG), Rory/EI4DJB (3DA0RH), Brendan/EI3GV (3DA0GV) and Pete/GI4VIV (3DA0GI)
A private UK/Ireland YAHOO newsgroup for this DXpedition is available at: http://uk.groups.yahoo.com/group/AFRI75/
Admission to this group is by request only and is at the discretion of the group moderators. Skeds may also be requested to any of the DXpedition members. Operation will be on all bands with particular attention given to the WARC bands, digital modes and the LF bands. It is also hoped to have some activity on EME, 2m and 6m. QSL Manager for all callsigns is via EI7CC, and cards may be sent direct or by the bureau. Also, please visit the IRTS Web page which will be updated with information on a regular basis at: http://www.irts.ie/cgi/afri75.cgi
A log search facility will be updated on a daily basis.

5C, MOROCCO. M'hamed, CN8NK, in Rabat, will once again be active using the special callsign 5C8A during the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via EA5XX.

5R, MADAGASCAR. Vlad, UA4WHX, continues to be active as 5R8VB, but there are no details on when he is leaving. He was heard this past week on 80/40/30/20/18 meters using CW or SSB. QSL via UA4WHX, after he return from his trip.

60M WEB PAGE FOR DXERS. Tom, K4MM, has provided an interesting Web page for 60 meters operators looking for DX. The Web site lists DX stations that have been active on this new band and also lists upcoming operations. The Web page can be found at: http://http://60meters.info/
Possible stations to look for in the coming months are:
Guernsey - By GU4WTN in early spring.
Madeira Island - By Hardy/DL3KWF and Rose/DL3KWR. They have applied for permission, March 9-22nd.
Jersey - MJ DXpedition is planned for March 14-22nd.
Costa Rica - By Ed/TI8AA in the high mountains of Costa Rica, April 2-7th. QSL via TI8AA.
Swains Island - Callsign N8S; beginning April 3rd.
Bermuda - By Ed/VP9GE and Joe/W8GEX; working on getting VP9GE permission.
ADDED NOTE: The 60 meter band became available to U.S. amateurs on July 3rd in 2003. Any U.S. amateur radio operator holding a General, Advanced or Amateur Extra Class license may only transmit USB on the following five channels: 5330.5 (CH 1), 5346.5 (CH 2), 5366.5 (CH 3), 5371.5 (CH 4) and 5403.5 kHz (CH 5). Transmission on these channels are with an effective radiated power (ERP) not to exceed 50 watts PEP. Channel 5 is the unofficial DX calling frequency!

9M4, SPRATLY ISLANDS (Update). The Malaysian/Japanese 9M4SDX DXpedition is now active from Pulau Layang Layang (AS-051) in the Spratly Island group until March 19th. One of the operators Tex, 9M2TO, informed OPDX before leaving that the group will have a 6m beacon on 50.115 MHz. The group plans to have 2-4 stations up and running for 24 hours on all bands 160-6 meters, and on CW, SSB, RTTY and PSK modes. Remember to QSL via 9M2TO, by the bureau or direct to: Tex Izumo, 2C-10-03 Mutiara APT., JLN. SG. EMAS 11100 Batu Ferringhi, Penang, MALAYSIA. Visit the DXpedition's Web page at: http://island.geocities.jp/layang9m4sdx/

9M4, WEST MALAYSIA (Contest/IOTA Op). Members of the Malaysian Amateur Radio Transmitter Society (MARTS) will use their special contest callsign 9M4DXX during the CQ WW WPX SSB Contest (March 24-25th). Operations will be from Tex's, 9M2TO, QTH on Penang Island (AS-015). QSL via 9M2TO.

9N, NEPAL. Popa, YU7EF, is once again back in Nepal until May 3rd. No other information is available at this time (callsign/bands). Some reports indicate he may operate from Stig's, LA7JO (9N7JO), QTH. Hopefully, more info will be available next week.

ANOTHER 9 BAND DXCC VIA LOTW. Clive Penna, GM3POI, became the second ham to achieve 9 band DXCC using only Logbook of The World (LoTW) confirmations. John Sluymer, VE3EJ, in Ontario, was the first. Congratulations, Clive!

CQ MAGAZINE. Richard Moseson, W2VU, Editor of CQ Amateur Radio, provides the following: FOR RELEASE: IMMEDIATE (March 8, 2007)
CQ Introduces "HF Operator's Survival Guide"
(Hicksville, NY - March 8, 2007) -- In response to recent changes in licensing rules and operating privileges for all hams, the editors of CQ Amateur Radio magazine have prepared an "HF Operator's Survival Guide," a 16-page "getting started" guide for newcomers to high-frequency (shortwave)

amateur radio communications.
Written by CQ Contesting Editor John Dorr, K1AR; Contributing Editor Gordon West, WB6NOA, and CQ Editor Rich Moseson, W2VU, who also oversaw the overall production, the booklet is a practical hands-on guide to success in HF ham radio.
Segments include:
"HF: Your Window to the World," by K1AR, a brief description of the characteristics of each HF ham band and which is best when;

"The Basics of HF Operating," also by K1AR, covers operating practices on HF, particularly as they differ from common practices on VHF;

"Choosing Your First Rig," by WB6NOA, looks at the considerations that go into deciding whether to buy new or used, basic or something to "grow into," and important considerations such as band coverage and receiver quality;

"Antennas to Get You Going," by the late Joe Carr, K4IPV (written for a previous project that was never published), covers the basics of dipoles, verticals and beam antennas;

"HF Activity Guide," by W2VU, which looks at the different modes and operating activities a ham is likely to encounter on HF, along with an introduction to certificate-chasing and contesting; and

"An HF Band Chart," showing the new frequency privileges for each class of license on each HF band

"Starting out on HF can be pretty intimidating," says Moseson, "especially now, at the bottom of the sunspot cycle, when DX opportunities are harder to find. This practical guide will help the new HF operator, regardless of license class, hit the air running."
CQ's "HF Operator's Survival Guide" sells for $2 (plus shipping), with discounts available for bulk purchases. To order, or for more information, contact CQ Communications, Inc. at 800-853-9797 on weekdays between 9 a.m. and 5 p.m. Eastern time.

E2/HS, THAILAND. Champ, E21EIC, and others have announced that the "Radio Amateur Society of Thailand" (RAST) has received authorization from NTC for Thai operators to operate on 80 and 160 meters during contests in the year 2007 (ending December 31st). Thai operators may operate their stations on CW and SSB between 1800-1825 kHz and 3500-3536 kHz. Split operations have also been authorized. Stations in Thailand currently can only operate on 40/20/15/10 meters and can not operate on 30/17/12/6. However, activity on the WARC bands and 6 meters is sometimes granted with special permission.

HF40, POLAND (Update). Members of the "Piastowski Klub Krotkofalowcow" will activate their club station (SP6PAZ) using the special event callsign HF40PAZ to celebrate their 40th anniversary. The station will be on the air between March 1st and April 30th, and again between September 1-30th. Also, look for HF40PAZ to be active in the 2007 CQWW WPX SSB Contest (March 24-25th). QSL via SP6PAZ. A special award is now available to both SWLs and hams. Please visit the following Web pages for details at:

http://www.sp6paz.opole.pl
http://www.sp6paz.opole.pl/pdf/50en.pdf

H44, SOLOMON ISLANDS. Bernhard, DL2GAC, is once again active as H44MS. He is expected to be on the Solomon Islands until April 25th. The "DX Newletter" reports that Bernhard is collecting QSLs for his U.S. Counties Award and 5 Band WAS from there. His activity will have an emphasis on 80/40 meters SSB. He was also heard on 20 meters this past week. There are reports that Bernhard might show up from different islands throughout his operation like he did during all of his previous DXpeditions. QSL direct or via the bureau to DL2GAC.

HH, HAITI. Jan, K4QD, will once again be active as HH4/K4QD from here, March 19-30th. Activity will be on 80-10 meters CW/SSB. As in the past, Jan will operate from the NW Haiti Christian Mission: http://www.nwhcm.org Jan prefers QSLs direct to K4QD or LoTW, but the Bureau is OK.

HV0, VATICAN. Station HV0A has been very active over the last week, especialy on CW, RTTY and 160/80 meters. Most of the activity has been on 20 meters between 1400-1700z, but this past weekend's activity was on 160/80 meters between 0330-0630z. QSL via IK0FVC.

IOTA NEWS.....
EU-008. Dennis, M0LSB, is expected to be active as MM0LSB/p from the following three Scottish islands between March 14th and April 2nd: Islay (IOSA NH-22, SCOTIA CS-25), Jura (IOSA NH-21, SCOTIA CS-28) and Gigha (IOSA NH-24, SCOTIA CS-23), Inner Hebrides (EU-008). Activity will be on 80-10 meters SSB. QSL via M0LSB (QRZ.com).

EU-010. Dennis, M0LSB, will be active as MM0LSB/p from Great Bernera, Scotland, July 27-29th. Activity will be on 80-10 meters SSB and in the RSGB IOTA Contest (July 28-29th). QSL via M0LSB.

EU-071. Kent, SM5ELV, will be active as TF7/SM5ELV from Heimaey Island, Iceland, June 10-13th. He will try to activate as many bands and modes as possible using only 100 watts, a vertical antenna and maybe a dipole. QSL via SM5ELV.

EU-123. Operators Tom/MM0BHX, Gordon/MM0GPZ, Douglas/GM0ELP, Phil/GM0LIR, John/GM0NBM and Iain/GM0OQV will be active as GM0B from Bute Island, Scotland, during the RSGB IOTA Contest (July 28-29th). QSL via MM0BHX.

EU-125. Mike, DK5NA, will be active as OZ/DK5NA from Romo Island, March 18-30th. Activity will be on 160-40 meters CW. QSL via DK5NA (QRZ.com).

NA-034. Members of the Mid Florida DX Association (MFDXA) will be activating special event station N2D in memory of founder and 1st Club President Dan, W2NDP (SK), from Honeymoon Island. This will be a one day only operation. Operators mentioned are: Tony/N2MFT, Steve/KS4WA, Gregg/N6ZUE and Warner/N4WBJ.

Activity will be 20 meters, 15 meters and maybe 17 meters
(depending on propagation) and the IOTA frequencies will be
used +/- QRM. QSL via W4FDX (QRZ.com). Visit the MFDXA Web
page at: http://www.w4fdx.com

NA-076. Wade, AA8LL, will be active as AA8LL/4 from Cedar Key, FL,
now through March 13th. Activity will be 40-10 meters, CW,
SSB and RTTY; with 100 watts and wire antennas. QSL direct,
bureau, or LoTW to AA8LL.

NA-113. Operators Pete/W2GJ, Ed/K3IXD and Randy/K4QO will be active
from Crooked Island, South Bahamas Group, July 27-30th. Their
activity will include the RSGB IOTA Contest where they will
use the callsign C6APR. Activity before and after the IOTA
Contest will be on the WARC bands plus 6m, using CW, SSB and
RTTY, and the callsigns C6AXD (K3IXD) and C6AQO (K4QO). These
QSOs will also count for Bird Rock Lighthouse (ARLHS BAH-005,
TWLHD WLH C6-002, WLOTA LH-0118 , WW Loc. FL22TU). QSLs for
all callsigns go via K3IXD, by the Bureau or direct to:
Ed Steeble, 202 Huntington Rd., Summerville SC 29483 USA.

NA-183. (Update) Operators Enrique/XE1IH, Francisco/XE1KOF, Luis/XE1YJL,
David/XE1XR, Martin/XE2ML and Ben/XE2AUB will activate two
islands in the Guerrero State Group as 4A3IH in the month of
May. Look for them to activate Roqueta Island [ARLHS MEX-069]
(May 14-19th) and Guerrero Island (May 21-26th) on all HF bands,
6/2 meters, CW, SSB, Digital modes and the Satellites. QSL is
OK via the Bureau or direct to IT9EJW: Alfio Bonanno,
Via della Regione, 20 - 95028 Valverde (CT), Italy. More
information is available at: http://www.mdxc.org/4a3ih

SA-089. The 4M5DX Team will be active as YW1DX from Cayo Sombrero,
July 27-30th. They will participate in the IOTA Contest as a
DXpedition category. Look for YW1DX on the WARC bands CW, SSB
and RTTY before and after the contest. The team is looking for
sponsors/donors for this operation.

J5, GUINEA-BISSAU (IOTA Op). Just a reminder to look for Jack, F6BUM, to
be active as J5BI from Bubaque Island, March 14-28th. Activity will be
on 40-10 meters, CW, SSB, RTTY, PSK31 and SSTV (on request preferably on
21340 kHz). He will use a FT-857D w/100 watts in dipole antennas. QSL
via his home callsign, direct, by the Bureau or eQSL. Visit his Web
page (with a log search) at: http://www.f6bum.net

JW, SVALBARD. Francois, F8DVD, will once again be active as JW/F8DVD
from the Longyearbyen ARC, located on the Spitsbergen Island, 78° North,
and about a thousand kilometers far from the geographic North Pole (EU-026,
WAZ 40 and Grid Square JQ78TF), April 12-23rd. His activity will be on all
HF bands both CW and SSB. This will be Francois's 5th time on the island.
He will use the Longyearbyen Radio Club's equipment which consists of an
ICOM 751 and a 500 watts PA, into a 5 elements yagi on a 30 meters
high tower. QSL via his home callsign, through the French REF-Union Bureau

or direct, w/SAE + 1 IRC (or 1 USD for EU, and 2 USD for elsewhere) to:
Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, France.

NP3, PUERTO RICO. Operators Jim/KS1J, Joe/K1JN, John/W1DX, Matt/WE1H, Pat/NG1G, Foster/N3KCJ, Jim/AJ1M Bill/N1HRA and Carlos/WP4U will be active as NP3U during the CQ WPX SSB Contest (March 24-25th) as a Multi/Multi entry. QSL via WP4U.

PIRATE ALERT. Tim, WD9DZVA, informs OPDX that a station sign SU0FEC is a pirate, and he is not the QSL Manager for this callsign. However, Tim is a QSL Manager for many other stations.

POPULAR COMMUNICATIONS CHANGES EDITOR. CQ Communications, Inc., President Richard Ross, K2MGA, provides the following:
EDITH LENNON, N2ZRW, NAMED EDITOR OF POPULAR COMMUNICATIONS
(Hicksville, NY, March 8, 2007) -- Edith Lennon, N2ZRW, has been named Editor of Popular Communications magazine, it was announced today by CQ Communications, Inc., President Richard Ross, K2MGA. Lennon, who is currently the magazine's Managing Editor, succeeds Harold Ort, N2RLL, editor since 1996.
Edith's name may be familiar to readers of CQ Communications magazines and books, having served in various editorial capacities on several publications produced by CQ over a 17-year span. In addition to her work on Popular Communications, Lennon has been Editor of Radio magazine (produced by CQ for RadioShack), the CQ Amateur Radio Buyer's Guide, the CQ Beginner's Guide to Amateur Radio and The Music and Computer Educator. She has also been Managing Editor of several publications from CQ and other publishers, including CQ VHF and Communications Quarterly. In addition, Lennon has edited several technical books and was Managing Editor of the highly acclaimed CQ Amateur Radio Almanac. She also does freelance writing in the media industry.
"Edith brings more than a decade of publishing and hobby radio experience to this position," said Ross. "I am confident that she will be able to make a good magazine even better."
"Today, the listening hobby has expanded beyond just radio," said Lennon, "including streaming audio on the internet and other sources. One of my goals is to broaden the base of Popular Communications to include all of these new information sources as well as traditional over-the-air radio."
Lennon assumes the editorship of Popular Communications with the June 2007 issue.

QSL INFO AND NEWS.....
QSL Routes For Contest Stations and Beacons:
QSL PI7QHN via PA0QHN QSL SK3UHF via SM3AFT
QSL PI7YSS via PA0JAZ QSL SK4BX via SM7ECM
QSL S55ZRS via S57C QSL SK7MHL via SM7ECM
QSL SK1UHF via SM1IUX QSL SR5VHW via SP5TAT
QSL SK2UHF via SK2AT QSL UA6HJQ via UA6HJQ
QSL SK2VHG via SM4RNA QSL YO2X via YO2IS
QSL SK2VHH via SM5JXA

QSL HS0T via the QSL Manager HS6NDK. He has started answering QSLs for the November 23-29th, 2005, operation from Lanta Yai Island (IOTA AS-053 and WLOTA-0946).

SEANET 2007. Champ, E21EIC, the 2007 SEANET Contest Manager, informs OPDX that the 2007 SEANET Contest rules are now available online on the SEANET 2007 Web site at: http://www.sabah.net.my/seanet/contest_rules.htm

TA4, TURKEY. John, DJ6JH, will active as TA4/DJ6JH from April 7-13th. This will be a holiday style operation and activity will be mainly on RTTY and PSK31, and 20-10 meters. QSL via his home callsign.

VP5, TURKS AND CAICOS ISLANDS. Dave, W5CW, will be active as VP5/W5CW between March 20-28th. Activity will be on 160-6 meters CW/SSB. He will also be in the CQ WW WPX SSB Contest (March 24-25th) using the special callsign VP57V. QSL via his home callsign.

WP4, PUERTO RICO (NA-099). Alfredo, WP3C, will be active as WP4I during the RSGB IOTA Contest (July 28-29th) as a Single-Op/Low-Power/SSB-only/ 24 HRs entry. QSL via W3HNK.

YB9, INDONESIA. Kees, PA5CW, will be active as YB9/PA5CW from Bali, April 25th to May 10th. No other info provided.

ZL7, CHATHAM ISLANDS. Yoshi, JJ8DEN, is once again active as ZL7/KH0PR. You will only have a few more days to work him because he is expected to go QRT on March 13th. Activity has been mainly on 17/15 meters, RTTY and CW. QSL via JJ8DEN.

ZP0, PARAGUAY. Tomas, ZP5AZL, will be active as ZP0R during the CQ WPX SSB Contest (March 24-25th) as a Single-Op entry. QSL via W3HNK.

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, Amateur Radio Newsline, ARRL Web Page, K1XN & GoList, AD1C, N1DG, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, W8GC, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, EA8AUW, F5NQL & UFT, GM4FDM, I1JQJ/IK1ADH & 425 DX News, I2YSB, OH2BN, PY3CQ, RSGB IOTA, VE3LYC, VA3RJ & ICPO and ZL3AB for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th-March, through Sunday, 18th-March there were 232 countries active. Countries available: 1S, 3A, 3B8, 3D2, 3DA, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T33, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4E, PHILIPPINES. Operators Leopoldo/DU1LR, Ed/DV1DPE, Thelma/DU1IVT, Efipanio/DV1VEQ, Ramon/DU1UGZ, Valentin/DV1AIR, Nazario/DV1QZC, Edwin/DW1VEU and Alejandro/DW1UPV will be active as 4E1P during the CQ WW WPX SSB Contest (March 24-25th) as a Multi-Multi entry. QSL via the bureau.

4L, GEORGIA. Mamuka, 4L2M, will be active during the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via info on QRZ.com.

4L, GEORGIA. Gia, 4L4WW, will be active in the CQ WW WPX SSB Contest (March 24-25th) as Single-Op/Single-Band (40m) entry. QSL via EA7FTR.

5D, MOROCCO. Operators Stefano/IK2QEI, Matteo/IK2SGC, Bacha/CN8WW and Spiros/SV8CS will be active with the special callsign 5D5A during the CQ WW WPX SSB Contest (March 24-25th) as a Multi-Single or Multi-2 entry. QSL via I2WIJ.

6Y, JAMAICA. Frank, K3TRM, will be vacationing in Lucea, (NA-097, also counts for WLOTA LH-0214) between March 31st to April 9th. He is expected to be active as K3TRM/6Y5 and be active on 80-10 meters, SSB, RTTY, PSK31 and possibly some CW. He has a request to the Jamaican Spectrum Management Authority for special permission to operate on 60 meters. 60m is not currently authorized for Amateur Radio use at this time. QSL direct to his home callsign (w/SASE) to: Frank Aiello, 7600 Burnt Tree Drive, Manassas, VA 20111 USA. DX stations can send cards through the bureau. Further information can be found at: http://www.k3trm.com

8P, BARBADOS. Tom, W2SC, will be active as 8P1A during the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band entry. QSL via NN1N.

9H, MALTA. Ralph, DL9MWG, will be active as 9H3RT from April 28th through May 11th. Activity will be on the HF bands mainly on CW. QSL via DL9MWG.

AO1, SPAIN. Operators Joaquin/EA1AAW, Roberto/EA1JK, Alberto/EA1TU and Fernando/EA1EA will be active as AO1O during the CQ WW WPX Phone Contest (March 24-25th) as a Multi/? entry. QSL via EA1EA.

AO3, SPAIN. A group of EA3 operators will activate the callsign AO3A during the CQ WW WPX Phone Contest (March 24-25th) as a Multi/? entry.

AO4, SPAIN. Operators Javier/EC4DX, Oscar/EA4TD, Dimitri/UY7CW, Juan/EB1ISN, Santos/EA4ATA, Ricardo/EA4ZK, Jose/EC7AKV, Miguel/EA4DEC, Alberto/EA4KE, Martin/EC7AEJ, Mariano/EA4ZR, Angel/EC4ABM, Hector/EA4CMD and possibly others will be active as AO4R during the CQ WW WPX Phone Contest (March 24-25th) as a Multi/Multi entry. QSL via EA4TD. Look for more information to be available at: http://www.dxfun.com

8J1, JAPAN. Members of the Nippon Boy Scout Amateur Radio Club (JA1YSS) will use the special callsign 8J1S to celebrate the 100th anniversary of Scouts and be active in the CQ WW WPX Phone Contest (March 24-25th) as a Multi/Multi entry. QSL is OK via the JARL Bureau.

8J3, JAPAN. Operators JP3PZD, JH3PRR and possibly others will be active as 8J3YAGI during the CQ WW WPX Phone Contest (March 24-25th) as a Multi/Multi entry. QSL via JA3YKC. This will be the final contest operation of Dr. Yagi memorial station; QRT at end of March.

C5, THE GAMBIA. Operator Darren, G0TSM, will be active as C52T from March 20-27th. His activity will include the CQ WW WPX Phone Contest (March 24-25th). QSL via G0TSM.

CQ MAGAZINE'S 2006 DX MARATHON ANNOUNCES THE FINAL SCORES. The final high scores for the 2006 DX DX Marathon have been posted on the following Web page at: http://dxmarathon.com/highclaimedscores/
Congratulations to Peter/N0FW (for the Unlimited Class) and Chris/DL5NAM (for the Formula Class) who finished top in their respective categories.

DXAC NEWS. During the ARRL's Board of Directors annual meeting at Hartford/ Windsor Airport Marriott in Windsor, Connecticut, on Friday, January 19th, and Saturday, January 20th, President Joel Harrison, W5ZN, announced the appointment of a new DX Advisory Committee (DXAC) Chairman. Bob Allphin, K4UEE, was appointed the new DXAC Chairman.

EF8, CANARY ISLANDS. Edu, EA8AUW/EC8AUA, informs OPDX that he will be active as EF8A during the CQ WW WPX Phone Contest (March 24-25th) from the radio club in the URE Las Palmas section. QSL via EA8AUW. Look for more information on: http://www.ea8url.com

HG3, HUNGARY. Gabor, HA3JB, reports that his International Police Association station in Siofok City will be on the air with a new license (valid until 2011) and will now sign HG3IPA. Look for him to be active on the HF bands including the WARC bands, CW, RTTY, SSTV, PSK31, SSB, Packet and APRS. If you are a policeman and you need the QSO, please write an E-mail to him at: hg3ipa@freemail.hu
QSL via HA3JB: Gabor Kutasi, H-8601 Siofok, P.O.Box 243, HUNGARY.
Visit his Web page at: http://www.hg3ipa.uni.hu

IOTA DINNER BANQUET. The 12th annual Islands On The Air (IOTA) Dinner will be held on Friday, April 27th, in the Birch Room of the Holiday Inn Hotel and Conference Center, 9000 W. Airport Drive, Visalia, CA 93277, in conjunction with the 58th annual Visalia International DX Convention. The event's program agenda is as follows:
1800 Eyeball discussions (drinks available)
1830 Welcoming/Introductions (dinner served buffet-style)
1900 IOTA Programs begin
"IOTA Program Overview/Status" (G3ZAY)
"Santa Cruz Is, NA-144" (N6VR)
"Canadian IOTAs, NA-195 & NA-156" (K9AJ & KD6WW)
"Mexican IOTAs, NA-1" (XE2K)
"Alaskan IOTA, NA-237" (W5BOS)

The dinner will be served buffet style in the Birch Room at a cost of XX USDs per person, payable at the door (cash only). The buffet menu will contain entr&#65533;e choices of beef, fish, and chicken along with selected vegetables, salad, dinner rolls, dessert, and a beverage (coffee, ice water, or ice tea).
Reservations for this event are not required and will not be taken. Attendees will pay as they enter at the door. Admission is free for those wishing only to watch the programs without dining. As usual, seating will be performed using a "first come, first seated" policy. For additional information regarding this event, please contact: Jim Zimmerman (N6KZ), (IOTA Dinner Coordinator), 2316 W. Dallin Street, Lancaster, CA 93536-5702 Home Phone: (661) 945-6539 E-mail: jimzim1@mindspring.com

IOTA NEWS.....................
AF-004. Wilko, PA3BWK, will be active as EA8/PA3BWK from the Island of Lanzarote (DIE S-007, Punta Pechiguera lighthouse FEA D-2782, WLOTA LH-0099, WW Loc. IL38BU), June 10-16th. Activity will be on 40-10 meters, mainly CW, at 10 kHz up from the lower band edge. QSL via PA0ZE (QRZ.com).

AS-117. Kenji, JA4GXS, will be active as JA4GXS/4 from Ohzu Island (JIIA AS-117-110), JA4 Yamaguchi Prefecture, between now and March 20th. Activity will be on the HF bands CW. QSL via his home callsign, by the bureau or direct: Kenji Sasaki, 2-15 Ishikannon-cyo, Yamaguchi-City, 753-0038 JAPAN

EU-039. Operators Jean/F5IRC, Christophe/F5UBH, Luis/F5THW and Karim/F4CTJ will be active as TM5CI from Chausey Island (DIFM MA-004, WLH 0424, PB062, DFCF 50002 and may be DFCF 50007), March 22-24th. Activity will be on 80/40/20 meters CW, SSB, RTTY and PSK31. QSL via the bureau.

EU-096. Operators Andy/IZ0EHO, Vincenzo/IZ0FKE, Simone/IZ0BTV, and Markus/OH1MN will be active as OH10TA from Parainen Island, April 25-29th. Activity will be on all bands, the WARC bands included. QSL via OH10TA (QRZ.com). Further information can be found at: http://www.oh10ta.com

EU-146. Operators Fons/ON4AWT and Win/ON8VD will be active as PA/homecall from Schouwen Duiveland, April 8-13th. Activity will be on all HF bands, CW, SSB and the Digital modes. There will also be activity on VHF SSB. QSL via his home callsign; the bureau is preferred.

NA-231. Operators Cezar/VE3LYC and Ken/G3OCA will attempt to activate for the first time NA-231P (East Pen Island, VY0), between July 20-22nd. Ken is a well experienced island activator, but this will be Cezar's first. East Pen Island is the only island approved for this IOTA group and the breeding place of polar bears, which brings interesting challenges to the team. They are prepared to have two stations on the air operating CW and SSB from 40-10 meters. QSL via VE3LYC, either direct or by the bureau (G/GI/GM/GW stations can QSL via G3OCA).

SA-098. Simon, IZ7ATN, is expected to be active this week as OA6/IZ7ATN/p from Blanca Island in the Arequipa/Moquegua/Tacna Department Group (new one) around March 20-22nd. He will concentrate on 20 and 17 meters SSB, plus 15 and 10 meters if the bands are open and 40 meters if he can put up a decent antenna. QSL via his home callsign.

J75, DOMINICA (Update). The W2RZS Amateur Radio Club will be returning to Dominica for the 2007 CQ WW WPX SSB Contest (March 24-25th), and they will be using their J75RZ callsign. This will be their third trip to J7-land. They expect to arrive on March 21st and stay for 6 days. Their "home" will be the Harmony Villa which boasts a 1700 foot elevation and is situated in

the rain forest. Due to work schedules, there will be only two operators this trip; Bob/WB2NVR (J79RS) and Mike/WA2VQW (J79VQ). They will be active before and after the contest on 160-6 meters, CW/SSB/RTTY, including the WARC bands, and possibly 60 meters. They will also be concentrating on the lower bands. All QSLs for J75RZ should be sent to W2RZS via direct or by the bureau.

LIGHTHOUSE ACTIVITY. Members of the Scouting Association Ham Radio Baependi (PY3UEB) will be activating Santa Marta's Lighthouse (ARLHS - BRA 187/ DFB SC/012) in Santa Catarina State, now through March 20th. Look for the following: PP5/PY3UEB/LH, PP5/PY3CQ/LH, PP5/PY3KN/LH, PP5/PY3NZ/LH and PP5/PY3FOX/LH. QSL via the bureau or direct (QRZ.com or HAMCALL.net).

MOST WANTED OCEANIA SURVEY RESULTS. Mark, ZL3AB, announced his results of his "Oceania Most Wanted Countries List" that were sent in by operators in the VK/ZL and Oceania areas. Mark seemed disappointed that just under 40 contributors took part in his survey. Here are the top 10 countries (out of his top 40) with their ranking as follows:

Rank	Prefix	Country	Rank	Prefix	Country
1	7O	Yemen	6	FR/J	Juan de Nova & Europa
1	KP1	Navassa I.	6	KP5	Desecheo I.
3	3C0	Pagalu I.	8	FR/G	Glorioso Is.
4	BS7	Scarborough Reef	8	PY0P	St. Peter/St. Paul Rock
5	FT8Z	Amsterdam & St. Paul Is.	8	TN	Congo

P4, ARUBA (SA-036). John, W2GD, will be active as P40W during the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band/High-Power entry. Look for some CW activity before and after the contest. QSL via N2MM. Logs will be loaded on LoTW upon his return to USA.

P4, ARUBA (SA-036). Andy, AE6Y, will be active as P49Y from March 21-27th. His activity will include the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band entry. QSL via AE6Y.

PJ2, NETHERLANDS ANTILLES. Operators Martin/K2PLF, John/N4RV, Helmut/DF7ZS, Joe/W9JUV, Ray/WA9YYY and Geoff/W0CG will be active PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942), during the CQ WW WPX SSB Contest (March 24-25th) as a Multi-Single (or possibly Multi-2) entry. QSL via N9AG.

G3NOM QSLS. Tom, GM4FDM, reports (edited): "As some of you may know, I am the QSL Manager for Ray, G3NOM, and have all (or most) of his log books for his various travels. Again, as some of you may know Ray had a major stroke some time back and has not been on the radio since and is doing VERY poorly. Today I received a package from one of Ray's friends in Thailand containing a number of QSL cards which have been received in Thailand either direct to Ray's home or via the Bureau. Some of these QSLs go back quite a long ways and contain old style IRCs etc. I shall try to honor all these requests but returning cards either by the bureau or direct as they arrived irrespective of whether the IRC is valid or not as they were all valid when posted. Please bear with me, and I shall do my best to get this done as quickly as possible. Please do not trouble Ray or his XYL with any more QSL requests. I have a large number of blank cards, and as I said earlier, all or if not most of the logs. The only cards I cannot verify are for 160m just prior to Ray's illness. As you know 80/160m was only allowed in Thailand on a few special occasions, and I always verified the 160m QSOs with Ray before responding, so if you have a 160m QSO, then unless it is very clear in the logs, then I cannot help you. I have logs for: 5B4/G3NOM, 9M2OM/P, 9M2/G3NOM, 9M2OM, A52OM, E22DX, E28DX, G3NOM, HS0AC/2, HS2AC, HS0/G2NOM, JT4/G3NOM, S21U, S2/G3NOM, XY1HT and ZC6/G3NOM. I also have logs for V8NOM, BUT I have NO QSL cards for this one. Please feel free to E-mail me any questions. 73 de Tom GM4FDM" ADDED NOTE: Tom's E-mail address is: tom@gm4fdm.com

J20RR/J20MM QSLS. Silvano, I2YSB, informs OPDX that all the QSLs for J20RR and J20MM have been sent out (over 2300 cards).

QSL OH0B via OH2BH. Operators Toni/OH2UA and Martti/OH2BH were breaking ice when traveling to Brando, Aland Islands, to activate OH0B in the Russian DX Contest this past weekend. This is their first outing in 2007 to observe how all the antennas have survived the freezing winter at 60 degrees North.

SPECIAL EVENT. To commemorate the 95th anniversary of the sinking of the Titanic, ham radio operators worldwide will participate in a special event broadcast originating from the TITANIC Museum Attraction (in Branson, Missouri) beginning at 8 a.m., Saturday, April 14th, and concluding at 7p.m., Sunday, April 15th. Members of the Nixa Amateur Radio Club will transmit the news of the anniversary using the special event callsign W0S. Operators from Nixa, Missouri, have permission from the FCC to broadcast using this special callsign which stands for "White Star," the name of the company that built the Titanic. The worldwide broadcast will take place to honor the radio broadcasters working aboard the Titanic on the night she sank. ADDED NOTE: A UK group is also expected to be active. Details should be forthcoming.

SX5, DODECANESE (EU-001). Operators Theodor/SV1GRM, Sotirios/SV1HER, Nikiforos/SV1EEX, Cliff/SV1JG, Spiros/SV1RC and Lykourgos/SW1GZL will be active as SX5AS from the Rocky Islet of Astakida and lighthouse (WLOTA LH-0393, WW Loc. KM35JV), July 17-23rd. Activity will be on all HF bands, CW and SSB. QSL via SV1HER (QRZ.com).

TI, COSTA RICA. Operators Don/N6JRL, Sandra/N3TQU, Cliff/N0ZUQ, Lisa/KB0RLJ and David/WA6IFI will be active as TI5N in the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via info on QRZ.com.

TM4, FRANCE. Operators Jean-Paul/F6FYA, Genevi&#65533;ve/F5SQM and possibly others will be active as TM4Q during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/? entry. QSL via F6FYA.

TM6, FRANCE. Operators Andre/F0ELK, Olivier/F1AKK, Stephane/F4DXW, Laurent/F5MUX, Xavier/F5TTU, Robert/F5VCR and Sebastien/F8DBF will be active as TM6M during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/? entry. QSL via F6KHM.

YE1, INDONESIA. Operators Joz/YD1JZ, Terry/YC1KAF, Yoyan/YB1CCF, Heri/YB1KAR and Mohammad/YE1AA will be active as YE1ZAT during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/Multi entry. QSL route was not provided.

YI, IRAQ (Stations Are Off The Air!). Several sources are reporting that the Amateur Radio in Iraq has been suspended until further notice. Details of the suspension, reportedly, are from a letter addressed to the world-wide ham radio community from the Iraq Amateur Radio Society (IARS) President, Diya Sayah, YI1DZ. He received confirmation from the office of Prime Minister Nouri Al-Maliki that all Amateur Radio activity in that nation is to be closed down immediately. This includes operation by Iraqi nationals, foreign visitors and even members of the coalition forces safeguarding that nation. This is apparently in an effort to increase security.

ZK3, TOKELAU ISLAND (Op Cancelled!). Members of the N8S Swains Island DXpedition have cancelled their trip to the Tokelau Island (ZK3A). The operation to Swains Island (as N8S) will take place April 4-15th. However, operations from the Independent State of Samoa (5W - formerly known as Western Samoa from 1914-1997) as 5W5AA (and possibly other callsigns) will take place between April 17-24th.

ZL8/ZM8, KERMADEC ISLANDS. Remember that Jacky/ZL3CW (F2CW) and Aki/ZL1GO (JA4EKO) are expected to be active this week as ZM8CW and probably ZL8GO from Raoul Island (OC-039) between March 22-27th. QSL via ZL1AMO.

ZY7, BRAZIL. Members of a PY7 team will be active as ZY7C during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/Single entry. QSL via PT7WA.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, K2FF, KA3UNQ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, KU9C, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, EA1FCH, EI5DI, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, OH2BH, OH2BN, OK1MU, ON7YX, PA7DA, RSGB IOTA, SP9MRO, VA3RJ & ICPO and YZ1EW/RA4U for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 18th-March, through Sunday, 25th-March there were 231 countries active. Countries available: 1S, 3A, 3B8, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E5, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H2, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP6, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK2, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA. Team leader Witek, SP9MRO, announced on March 22nd that the Polish DXpedition to Agalega Island has been rescheduled to take place between June 6-18th, provided that the team can obtain permission for staying, a licence and the right ship to take them there. For updates please visit the 3B6 Web page at: http://3b6.godx.eu/

3B8, MAURITIUS (AF-049). Starting April 5th, look for Mart, DL6UAA, to once again be active as 3B8MM for a few weeks. His activity will be mostly CW, but he will also try SSTV (on 14230 kHz). QSL via his home callsign, direct or by the bureau. Visit his Web site at:
http://www.dl6uaa.de/indexa.html

4O3/YT6, MONTENEGRO (Late WPX Announcement). There was another contest effort from Montenegro by Ranko/YT6A (on 20m) and Martti/4O3B/OH2BH (80m) during this past weekend's CQ WPX Phone Contest. The OH2BN press release stated:
"They will be using many newly established stations and antenna concepts at Ranko's 'Premium Contest Resort' 600 meters above sea level near the city of Herceg Novi." ADDED NOTE: Visit Ranko's new Web site (still under construction) at: http://www.skycc.info/yt6a

7P, LESOTHO. Operators Tony/ZS1APB, Barry/ZS1FJ, Shaun/ZS1RA, Roy/ZS1ROY and Deon/ZS1ZL will be operating from the highest point in Lesotho (3000m ASL) on the north border escarpment of the Drakensburg Range between April 5-12th. The team has requested the callsign 7P8DX. Activity is planned for 80-15 meters with an emphasis on the lower bands. They plan to have three stations active simultaneously using Yagis and V-beams.

A2, BOTSWANA (UPdate/Ops Stilled Needed!). Frosty, K5LBU, reports that so far they now have 3 operators beside himself. He would like to find at least 2 more to join their group. The dates are still the same, July 5-21st. Frosty states, "It looks like we might be able to do some EME and LEO work also while there." If interested, contact him via E-mail at:
frosty1@pdq.net
ADDED NOTE: Frosty is already thinking about next year, possibly 3DA0 or 7P8.

A5, BHUTAN. Beginning in April, operator Kunio, JA8VE, is expected to be here on a two year work assignment through March 2009 as a JICA senior volunteer for Japan's Ministry of Foreign Affairs to coach the Bhutanese telecommunications ministry. He will be active as A52VE and will be operating from the capital city of Thimphu. Activity will be on all bands including 6 meters, SSB, Digital modes and some CW. Kunio states that he will use a Yaesu and Icom radio with ONLY 100 watts (amps are prohibited) possibly using a Spider beam and Inverted VEE or DP. QSL via JF1OCQ, using the QRZ.com address.

CU2, AZORES. Pedro, EA1FCH, will be active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH, June 27th through August 5th. Activity will be on the lower bands and WARC bands, mainly CW and the Digital modes. QSL via EA1FCH, by the Bureau or direct.

DXCC NEWS.....
JUST A REMINDER (DXCC Honor Roll listings due)! The deadline for the next ARRL DXCC Honor Roll listing is approaching very fast. Just under a week to go! All submissions must be "postmarked by March 31st". The Honor Roll list will appear in the 2007 August QST. There are 337 current entities on the DXCC list, so you must be at 337 for Top of the Honor Roll or within the numerical top 10 to qualify for the Honor Roll

(minimum of 328 entities; deleted entities do not count toward Honor Roll).

Reports indicate that the following operations are not yet approved for DXCC credit: E51PDX - North Cook Islands
E51PEN - North Cook Islands
Reason given: No documentation received for either of these 2006 operations.

Bill Moore, NC1L, ARRL DXCC Branch Manager reports that the following operations are approved for DXCC credit:
1A4A - Sovereign Military Order Of Malta 2007 Operation
9M4SDX - Spratly Islands 2007 Operation
9U9Z - Burundi 2007 Operation
DX&#65533;JP - Spratly Islands 2007 Operation
YW&#65533;DX - Aves Island 2007 Operation

ER, MOLDOVA. Andy, RW3AH, is now active as ER/RW3AH until April 12th. This is his third DXpedition to the Republic of Moldova. He plans to pay special attention to the 160/80m bands and as usual on 20 meter CW/SSB (for USA General Class above 14260 kHz and for Russian amateurs around 14150-14180 kHz). Also mentioned is that Valery, RW3GW, may possibly join him as well as a second operator using the callsign ER0/R7C or ER0/NA1SA between April 8-12th. QSL direct using the address on QRZ.com.

GP8, GUERNSEY (EU-114). Chris, M0DOL, will be here for 7 days and is expected to arrive during the morning of May 26th. He plans to activate castles and forts on the island. He will stay in Richmond near Vazon Bay, in sight of both Fort Richmond and Fort Hammet. Chris states that he will also be at Vale Castle on Sunday, May 27th. Look for Chris, along with Tom/2E0TSW and members of the Norhampton Radio Club, to activate the callsign GP8LED/p for the first time ever from all locations. Activity will be on all bands. A full colored double-sided QSL card will be available only direct from M0DOL (information via QRZ.com). ATTENTION CASTLE HUNTERS: A list of CASHOTA reference numbers will be available soon on the following Web page soon at: http://www.cashota.org

HL, SOUTH KOREA (IOTA & LH Activity). Jean-Pierre, F5AHO, will be active as HL1/F5AHO from May 12-20th. His plans are to activate some IOTAs and Lighthouses. The following were mentioned: AS-081 (LH0304), AS-060, AS-026 (LH0686) and AS-085. Activity will be SSB on 20/1715 meters using his FT857 and a wire GP. QSL via his home callsign, by the bureau or direct.

INDIAN OCEAN TOUR. Gildas, TU5KG, will once again be portable maritime-mobile (/MM) around Kerguelen Island (FT5XP) and Crozet Island (FT5WL). This time Gildas will not go to Port aux Francais. He will, however, be on Reunion Island (FR/TU5KG) around May 15th. QSL via F4EFI, direct or by the bureau. No e-QSLs accepted.

KH8S, SWAINS ISLAND DXPEDITION (Update). It is a little over a week to go before members of the N8S Swains Island DXpedition will hit the air between April 4-15th. Then the team will move their operations to the

Independent State of Samoa (5W - formerly known as Western Samoa from 1914-1997) as 5W5AA (and possibly other callsigns) between April 17-24th. Acim, YZ1EW, announced this past week that both the N8S and 5W5AA teams will be active on 60 meters (on 5403.5 kHz), 2m EME and 6 EME with WSJT65 A,B,C (on frequencies 50.375 MHz and 144.375 MHz). He also announced that the following pilot stations for the operation are: Toma/YU1AB for Western Europe, Lee/KH6BZF for the Americas and the Pacific, and Antic/YU1AA for the YU and Eastern Europe areas. Lastly, he stated that the DXpedition team is ready to go. All donations are welcome according to the data on their Web site at: http://www.yt1ad.info/n8s/
Acim also adds (edited): "The most wanted DXCC country needs HAMSPIRIT on the frequency, and please listen carefully to the operator on the current frequency."

LIGHTHOUSE ACTIVITY.....
Operators Jim/KA3UNQ, Dan/KD3CQ and Al/W3REG will operate as N3L from the Point Lookout Lighthouse (ARLHS USA-628), Maryland, on April 14th, from 1400-2000z. Activity will be on 80/40/20/17 meters SSB, PSK31 and possibly CW. Certificate is available on request. QSL with SASE to KA3UNQ. Visit the Point Lookout Lighthouse's Web page at: http://www.ptlookoutlighthouse.com/

Operator Jim, KA3UNQ, will be active as a portable from some island in the IOTA NA-031 group (Aquidneck, Goat and Conanicut Islands), April 7-9th. He will also activate numerous Rhode Island lighthouses and U.S. Islands. Activity will be on 40/20/17 meters SSB. QSL with SASE to CBA.

ON50, BELGIUM. Look for special event station ON50EU to be active now through December 31st, to celebrate the 50th anniversary of the Treaty of Rome (EU 50 years). QSL via ON7YX, by the Bureau or direct.

OX60, GREENLAND (NA-018). Look for special event station OX60AD to be active April 1-30th. Activity is to commemorate the 60th anniversary of the U.S. Air Force and the 56th anniversary of the Defense Treaty between the U.S. and Denmark for the Protection of Greenland. The "AD" suffix in OX60AD stands for "America-Denmark". Activity will be on 40/20/17/15/10 meters using CW, SSB, and RTTY. QSL via OX3UR.

PA50, NETHERLANDS. Members of the VERON-Leiden are now active as PA50EU until April 9th to celebrate the uniting of Europe from Rome. Activity will be on 80 meters through 70cm. QSL cards can be sent via the Dutch QSL Bureau (DQB).

QSL INFO AND NEWS.....
QSL 3DA0EI via EI7CC QSL EF8A via EA8AUW
QSL 3XM6JR via UA6JR QSL EY3M via QRZ.com
QSL 4E1P via Bureau QSL LX7I via LX2A
QSL D44AC via QRZ.com QSL LX8M via LX1ER
QSL D69XC via UA9XC QSL TA2K via TA2RC
QSL ED8D via EA8BHD by Bureau QSL TO5A via F5VHJ

The logs for the recent 9M4SDX Spratly Island DXpedition are now available online at: http://9m4sdx.dxers.net/log_search/search.html

PZ5A was operational this past weekend in the CQWW SSB WPX Contest. QSL DIRECT via PZ5RA (Ramon) as indicated on QRZ.COM. IMPORTANT NOTE: PZ5A was first activated in the 2003 CQWW SSB WPX Contest, and QSLs for that operation still go via W5UE (Randy). The second activation of PZ5A as a special callsign (2007 SSB WPX) goes via PZ5RA only DIRECT as indicated on QRZ.COM.

U.S. POSTAL RATES GOING UP! The cost of mailing a letter will go from 39 cents to 41 cents (first ounce) for letters on May 14th. Howvever, you will be able to lock in that price no matter how rates rise in the future by buying the new "forever" stamp. More details are available at: http://news.yahoo.com/s/ap/20070319/ap_on_go_ot/postal_rates

XT2C QSL STATUS. Bernard, F9IE, has reportedly put the first batch of QSL cards in the mail for direct requests.

YX0A, YX0LIX and YX0A/MM QSL STATUS. Steve, KU9C, reports: "Folks, After returning from a long business trip, I've now sized the YX0A/YX0LIX/YX0A-MM QSLs and can provide the following status:
- I believe all QSLs received at my QTH by mid-February will be in the mail back to you by April 9, 2007. The only exception I see are folks that have sent cards for several calls I manage in one envelope; these will be delayed and I cannot easly predict when I'll be done with those. By the fact that you included several in one envelope, I've made the assumption that you're not in a big hurry for these. If you've not received your card by mid-April, feel free to email me; at that time I'll be able to provide status..... 73 Steve KU9C"

RMD SPECIAL EVENT. Look for special event stations to be active from 1200z April 14th to 1200z April 15th to commemmorate Radio Maritime Day. This is a CW event which will be operated from former marine coastal radio stations and possibly ships at sea. Suggested frequencies are: 1854, 3520, 7020, 14052, 21052 and 28052 kHz. Look for the following mentioned stations (or individual operators with a special /designator):
R gen Radio /DHS (MRD callsign DL2DHS)
Norddeich Radio /DAN (MRD callsign DL7DAN)
Boulogne Radio /FFB (MRD callsign TM1FFB)
ST Lys Radio /FFL (MRD callsign TM2FFL)
ST Nazaire Radio /FFO (MRD callsign TM3FFO)
Napoli Radio /IQH (MRD callsign IIOIQH)
La Spezia Radio /ICS (MRD callsign II1ICS)
Roma Radio /IAR (MRD callsign IIOIAR)
Genova Radio /ICB (MRD callsign II1ICB)
Trieste Radio /IQX (MRD callsign II3IQX)
San Benedetto Radio /IQP (MRD callsign IQ6SB)
Portisheadradio GKA (MRD callsign MOROA)
South Chatham Massachussets Radio /WCC (MRD callsign WA1WCC)
KPH / KSM Radio (MRD callsign K6KPH)
Tuckerton Wireless /WSC (MRD callsign W2WSC)

Gothenburg Radio /SAG (MRD callsign SK6SAG)
Praha Radio /OLP (MRD callsign OL32OLP)
See the RMD Web page for further info and updated stations at:
http://www.radiomaritimeday.org

TC0DX-YM0DX WRAP-UP. Pavel, OK1MU, informs that the TC0DX-YM0DX DXpedition team reports (edited): "In 106 hours of operating time, some 21,793 QSOs were made by the TC0DX expedition team working from the rare IOTA Gokceada Island (EU-186). Also, 6,199 QSOs were made by the YM0DX team working from the Bozcaada Island (AS-099). Please visit the following Web page for more info, details, photos, on-line logs, QSL info etc... at:
http://www.okdxf.eu/ankety/tc0dx/en/tc0dx.php
QSL Manager is OK2GZ. QSL by the Bureau, direct or by E-mail (for Bureau QSLs). We would like to thank you once again for ALL the QSOs and excellent pile-ups. 73 and GL from Ankara!"

V6, MICRONESIA (IOTA Op). Operators Nando/IT9YRE, Claudio/I1SNW and Mike/K9AJ will be on from their Micronesia tour April 2-19th and be active as V63RE, V63WN and V63J respectively. They plan to activate three different IOTAs: Ngulu Atoll (OC-180), Sorol Atoll (OC-277) and Woleai Atoll (OC-132). Activity will be on CW and SSB. QSL via their home callsigns. Visit their Web page at: http://www.mdxc.org/v63

132. DX Gazetteer & Map - FREEWARE

Newsgroup: rec.radio.amateur.dx
Date: 2007-03-27 18:17:42 UTC
From: Jim <denews@taborsoft.com>
Message-ID: <130inu6hfdjoo3f@corp.supernews.com>
Source record: 2453

Greetings,

The ï¿½DX Gazetteerï¿½ is part of the WinCAP Wizard QSL-ware ï¿½ aka ï¿½freewareï¿½ - download. The ï¿½DX Gazetteerï¿½ provides a prefix to location search that is second-to none and unique two-way integration with the SmartMap-Geographic View. Again, all free for your exploit.

Download WinCAP Wizard and try out the DX Gazetteer or read on for more details.
http://www.taborsoft.com/

The WinCAP Wizard DX Gazetteer is a geographical dictionary where the focus is specifically geographic location and regional division. The DX Gazetteer utilizes a database "table" containing ï¿½recordsï¿½ of locations and related information of interest to amateur radio operators.

Main Features
Powerful prefix searches
More than 6600 worldwide locations including all US counties
Plot - locate - currently selected target to the maps
Distance, direction, grid sub-square, CQ and ITU zones of each location
Incremental searching, in any column
Tree-type display of locations
Full customization of displayed information columns

The WinCAP Wizard DX Gazetteer is organized in a ï¿½tree likeï¿½ structure with "primary locations" organized in ï¿½DX listï¿½ fashion and oriented toward convenience for amateur radio operations. Incremental searching on any column - of information - is provided so even if you do not know a call "prefix" the target location can be located by country or city name.

The DX Gazetteer features bi-directional integration with the SmartMap-Geographic View. Using ï¿½Ctrl-clickï¿½ on ï¿½mapï¿½ locations selects the target in the DX Gazetteer. Alternatively the DX Gazetteer ï¿½Locateï¿½ button ï¿½plotsï¿½ - locate by means of coordinates - the target prefix and the great-circle path to the map for quick visual identification. If the SmartMap-Geographic View is not open when the DX Gazetteer Locate button is clicked the SmartMap-Geographic View is automatically opened and the target location plotted.

There are tools with a few similar features available but the unique power and functionality of the WinCAP Wizard DX Gazetteer provides you a tool with no known peer.

WinCAP Wizard provides numerous other tools in the default QSL-ware mode and additional features when registered. However we are inviting you to use and enjoy our ï¿½freeï¿½ DX Gazetteer tool here because we believe you will find it useful. For full details on other features see the web site and help document.

http://www.taborsoft.com/

73 & Good DX,
Jim - KU5S

April 2, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W7YAQ, K8CX, K8PYD, K8YSE, N8KOL, WD9EWK, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, DL2AH, EA8AUW, F5NQL & UFT, GM3YOR, HA0HW, I1JQJ/IK1ADH & 425 DX News, LU6EF, RSGB IOTA, VA3RJ & ICPO, YZ1EW/RA4U, ZS1RA and ZS4BS for the following DX information.

** EDITOR'S SPECIAL NOTE (by KB8NW): There will "NOT" be an OPDX bulletin for April 12th. I know, you heard this before, but it is true this time. My wife (chief proof-reader) and I will be heading south to Tybee Island, Georgia, for our daughter's "barefoot on the beach" wedding. Besides, I can really use the break! However, PLEASE continue to send your DX info to me. If there are any special announcements, I will try to send them out.... 73 de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 25th/March, through Sunday, 1st/April there were 211 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5R, 5U, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EY, F, FG, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, H3, H4, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J7, JA, JD/o, JT, JX, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VP2E, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS. Mart, DL6UAA, will once again be active as 3B8MM starting April 5th and staying possibly for a few weeks. Activity will be mainly CW on all HF bands with some SSB and SSTV. QSL via his home callsign, direct or by the bureau. Visit his Web page at: http://www.dl6uaa.com

3DA, SWAZILAND (Reminder). Operators Filip/ON4AEO, Kath/ON7BK, Danie/ ZS6VWD and Elize/ZS6EMH will be active as 3DA0FC from April 5-9th. Activity will be on 80-10 meters including the WARC bands. QSL via ON4CJK. The group's Web pages are: http://www.3da0fc.be http://www.filipstattooshop.be/swaziland

5Z, KENYA. Alex, IK4ALM, will be active as 5Z4/IK4ALM between now and April 10th. This will be a holiday style operation with only 100 watts and a ground plane on SSB. QSL via his home callsign.

60M ACTIVITY (Between Saturday, March 31st and Sunday, April 1st). The following were heard: G0HNW, G3ZGP, G4YSG, GD3YUM, IK4WTU, MU0FAL and YN2N.

7P, LESOTHO (Update). Shaun, ZS1RA, informs OPDX that due to unforseen circumstances, the team had some withdrawals. Operators ZS1ROY and ZS1ZL will no longer be able to participate. Shuan states, "This has put some undue financial pressure on the 7P8DX team, and we are short of some 500 Euros or approx. 700 USDs. All donations would be greatly appreciated." The current list of operators are now Shaun/ZS1RA, Barry/ ZS1FJ and Tony/ZS1APB. Listen out for them between April 5-12th. They will be operating from the highest point in Lesotho (3000m ASL) on the north border escarpment of the Drakensburg Range. The team has requested the callsign 7P8DX. Activity is planned for 80-15 meters with an emphasis on the lower bands.

AO1, SPAIN. Operators Roberto/EA2RY and Juanjo/EB1ISN will be active as AO1A during the EA RTTY 2007 Contest (April 7-8th) as a Multi-Op entry. Activity will be from the Palencia Province in Spain. QSL via EB1ISN, by the Bureau or direct.

C6, BAHAMAS. Eric, K9GY, will once again be active as C6AYM from Nassau, New Providence Island (Grid FL15) during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/All-Band/Low-Power entry. Outside the contest he will also be on 6m and 2m. QSL via K9GY, direct or by the Bureau.

CN, MOROCCO. Members of the Dar Bouazza Contest Group (DBCG), will activate their ARRAM club station (CN8MC) in Rabat, during the CQ WW WPX CW Contest (May 26-27th) as CN5W and as a Multi/Single entry. Operators mentioned are: Nico/SV3SJ and Patrick/F6IRF. QSL via the LoTW. More details about the DBCG are available at: http://cn2ww.blogspot.com/ http://cn5w.blogspot.com/

DXCC NEWS.....
UPDATE. Bob, W7YAQ (E51PDX/E51YAQ), informs OPDX of the following: "The accreditation documents for the November 2006 E51 North/South

Cooks operation of N7OU and W7YAQ have been resubmitted to the ARRL DXCC Desk. The original packet sent in January got lost somewhere between Oregon and Connecticut. Please accept our apologies for the inconvenience and thanks for your patience."
73, Bob W7YAQ / E51PDX / E51YAQ and Bill N7OU / E51PEN / E51NOU

CHANGES. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports the following changes in DXCC, WAS and VUCC Card Checking Program rules. "Effective immediately, DXCC announces the following changes to the DXCC Card Checking program:

The 10-year rule is now removed. Card checkers can now check cards 'for current entities only', dating back to November 15, 1945. Card checkers still cannot verify 160 meter cards or deleted entities.

In addition, DXCC card checkers can also check applications, if they agree to do so, for:
The Worked All States Award (WAS) (See www.arrl.org/awards/was); and
The VHF/UHF Century Club Award (VUCC) (See www.arrl.org/awards/vucc)

Contact Bill Moore, NC1L (dxcc@arrl.org) with questions."

HOLIDAY OPERATIONS. Drew, GM3YOR, informs OPDX that he has made plans for some holiday operations for this year. Look for him to be active as GM3YOR/P from Isle of Islay (EU-008), Inner Hebrides, Scotland, between May 19-26th. Also, look for him to be active as SV5/GM3YOR from the Isle of Symi (EU-001), Dodecanese Islands, between September 15-30th. He will be taking his TS50 and wire antennas, and will operate when time is available.

IOTA NEWS.....
EU-048. Francois, F5JNE, will stay at his son's home for about two weeks, starting April 30th, on Belle Ile en Mer Island.
Activity will be during his evenings on the HF bands, mainly CW. During this stay he has scheduled to visit some of the other islands in the Bretagne (Morbihan) Region Group with Max, F5IRH (tide, wind and sea permitting):
May 1st - Les Grands Cardinaux Island
May 5th - Ile aux Chevaux (Horses Island)
They will sign as homecall/p on 80/40 meters (and possibly on some other bands), CW and SSB. QSL via their home callsigns, direct or by the bureau.

EU-171. Operators Ela/DL1TM and Tor/DJ4MG will be active as OZ/homecall from Island of Vendsyssel-Thy, Nordjylland Island, Denmark, April 10-26th. Activity will be on 160/80/40/20/17/15 meters and VHF 2m SSB. Their favored operating time and frequencies are: During the Central Europe's daytimes on 40m and 20m on SSB, but 20m mostly somewhere around 14260 kHz. QSL via home callsign (QRZ.com addresses).

NA-031. Page, WA3EOP, will be active as WA3EOP/p from Conanicut Island (USI RI-007S, Newport County, Rhode Island) and the Beavertail Lighthouse (ARLHS USA-048), July 18th. Activity will take place during the afternoon and evening. Another operator will join her at 1900z; Al, KZ3AB. Suggested frequencies are: 14266, 14332, 7178 and 3902 kHz. Look for activity before and during the Century Club nets on 75/40 meters. The QSL will picture the Lighthouse.

OC-078. Keisuke, JK1QLR, will be active as V63LR from Ulithi Atoll, Micronesia, April 20-23rd. Activity will be limited (holiday style), but he will be on the HF bands, CW, SSB, RTTY and PSK31. QSL via JK1QLR.

SA-049. You still may have some time to work members of the Radio Club Ushuaia that are now active as AY7X from Redonda Island (SA-049, WW Loc. FD55UE) until 1200z April 2nd. The Isla Redonda qualifies for "GACW Five Argentine Islands" award with #ARXP6. Operations will be on CW, SSB,PSK and RTTY on the following suggested frequencies:
CW - 3530, 7030, 14040, 21040 and 28040 kHz
SSB - 3670-3765, 7045, 14260, 21260 and 28560 kHz
PSK - 3620, 7040, 14070, 21070 and 28110 kHz
RTTY - 3620, 7040, 14080, 21080 and 28120 kHz
QSL via WD9EWK, by the Bureau or direct to:
Patrick Stoddard, 4031 E. Aster Drive, Phoenix AZ 85032-7417 USA. Argentina stations can send their QSL cards to:
Radio Club Ushuaia, Polideportivo Municipal, Pasaje Jorge Vrsalovic S/N 9410 USHUAIA - Tierra del Fuego. Details of the Radio Club Ushuaia award program can be found at:
http://www.geocities.com/rcushu

J3, GRENADA (NA-024). Operators Harry/AC8G, Ed/K1EP, Wayne/K8LEE, Brian/KA7KUZ, Janet/W8CAA, Joe/W8GEX, Harry/W8KKF, Ron/WA8LOW and Don/WC4D will be active as J3A during the CQ WW DX SSB Contest (October 27-28th), as a Multi-Multi entry. QSL via WA1S.

J5, GUINEA-BISSAU. Tibi, HA7TM, will once again be active from here as J5UTM between April 14-21st. He will be using an IC-706 and and DunaX GPS for 40-10 meters, and dipoles for the lower bands. Activity will possibly be on CW, SSB, RTTY and PSK31. He will be using an amplifier with 500 watts. An online log search will be available and updated every two days at: http://ha7tm.uw.hu/7tmlog/searc.html
Also, visit his home page at: http://ha7tm.uw.hu

KH8S, SWAINS ISLAND DXPEDITION (Update). It was reported last week that the N8S DXpedition to Swains Islands will be leaving a day earlier than announced which mean the team should be active on April 3rd. The current team consists of 17 operators: Hrane/YT1AD (Team Leader), David/K3LP (Co-Leader), Krassimir/K1LZ, Alan/K6SRZ, Doug/N6TQS, Chuck/JT1CO, Harry/RA3AUU, Eugene/RK3AD, Viktor/RU4SU, Vangelis/SV2BFN, Alekcej/UA4HOX, Roman/UR0MC, Milovan/YU1AU, Mladen/YU7NU, Vel/YZ1BX, Stevan/YZ7AA and Mome/Z32ZM. Current suggested frequencies are:

BAND CW SSB RTTY SSTV PSK31
------ ---- ----- ------ ----- ------
160 1825 1835 1835 - 1835
80 3505 3795 3582 3723 3582
40 7005 7082 7035 7035 7035
30 10105 - 10145 - 10145
20 14020 14195 14081 14230 14081
17 18075 18150 18100 - 18100
15 21020 21295 21081 14230 21081
12 24895 24950 24920 - 24920
10 28020 28495 28081 28680 28081 kHz

As announced in last week's bulletin, the team will also operate on 60 meters (on 5403.5 kHz), 2m EME and 6 EME with WSJT65 A,B,C (on frequencies 50.375 MHz and 144.375 MHz). He also announced that the following pilot stations for the operation are: Toma/YU1AB for Western Europe, Lee/KH6BZF for the Americas and the Pacific, and Antic/YU1AA for the YU and Eastern Europe areas. For updates and more details, visit their Web site at: http://www.yt1ad.info/n8s/

PACIFIC TOUR. Ulli, DL2AH, announced his next DXpeditions will take place in the Pacific between the end of September and mid-November. Using only a FT897 and a loop antenna for 40-10 meters, look for him to be active on SSB and RTTY from the following locations:
ZK2 - Island of Niue; between September 29th and October 12th
ZL7 - Chatham Island; as ZL7/DL2AH, between October 17-30th
VK9N - Norfork Island; two weeks
QSL via home callsign DL2AH or by the German Bureau or direct (SAE + IRC/2007). More info will be forthcoming later.

QSL INFO AND NEWS.....
Reports of 3C0M QSLs are now being received. Activity took place in October 2006.

Reports indicate that the VU7RG and VU7MY QSL cards have not arrived from the printer. However, pre-process labeling is being done so they can send them out once the cards do arrive.

SPECIAL EVENT. Look for special event station YU07HST to be active now through the end of this year. QSL via YU1FJK. Activity is to celebrate the upcoming 7th World High Speed Telegraphy (HST) Championship which will be held September 19-23rd, in Belgrade, Serbia. For details, visit the following Web page at: http://www.hst2007.org

SPECIAL EVENT (Update). To commemorate the 95th anniversary of the sinking of the Titanic, ham radio operators worldwide will participate in a special event taking place between April 14-15th. Look for members of the City of Belfast Radio Amateurs Society (COBRAS - GI2BX) to activate GB2MGY for this event from the Blackhead Lighthouse in Northern Ireland. The COBRAS are ISWL affiliated, so this callsign will count for the "Monitor Award". The QSL info is still to be announced, so keep your eye on QRZ.com for the latest information. ADDED NOTE:

Remember to look for "W0S" to be activated by the members of the Nixa Amateur Radio Club from the TITANIC Museum Attraction (in Branson, Missouri). See OPDX.802 for details.

SPECIAL EVENT. Look for special event station OL75CAV to be active on April 22nd, to commemorate the 75th anniversary of the founding of CAV - Ceskomoravsti Amateri Vysilaci (Czech-Moravian Transmitting Amateurs). Activity will be on all bands on CW and SSB, also with time permitting on RTTY and PSK. All QSOs will be confirmed with a special QSL card. QSL via OK1UU. For more information on CAV, check out their Web page at: http://www.c-a-v.com/news.php

T7, SAN MARINO. There has been a report that Tony, T77C, came up on 5371.5 kHz and gave out a new 60 meter country QSO. Tony had a severe QRN problem and had trouble hearing stateside. Hopefully the QRN won't be as bad the next time he shows up. QSL via direct only!

TZ, MALI. Just a reminder that operators Eric/ON4LN (TZ2T), Ivo/ON5CD (TZ1T), Stefaan/ON4FG (TZ4T) and Bart/ON3VK (TBA) will be active from Bamako, Mali, April 2-7th. The group plans to activate some prefixes that were never issued before. Activity will be on 160-10 meters on SSB, CW and Digital modes (RTTY, BPSK31, etc.) with at least 2 stations on the air simultaneously. Bands and mode will largely depend on the propagation. The aim is to activate the low and WARC bands, CW and digital modes as often as possible. QSL direct to ON4LN for all callsigns, or via bureau to their home callsigns. More information is available on their Web site at: http://mali2007.obox.be/

V3, BELIZE. Glen, W5IF, is currently active as V31IF until April 4th. Activity will be on all bands 160-10 meters, CW, SSB and RTTY. He was heard this past weekend on 40/20/17 meters after 1700z. QSL via W5IF (QRZ.com).

V6, MICRONESIA (Update/IOTA Op). By the time you read this, operators Nando/IT9YRE, Claudio/I1SNW and Mike/K9AJ should be active from Ngulu Atoll (OC-180) as V63RE, V63WN and V63J respectively. This is the first part of their IOTA Micronesia tour between April 2-19th. They plan to be at OC-180 just under two days before moving onto Sorol Atoll (OC-277) and then Woleai Atoll (OC-132). Activity will be on CW and SSB. QSL via their home callsigns. Visit their Web page at: http://www.mdxc.org/v63

VK, AUSTRALIA. David, VK2CZ, will be active as VK8AA during the CQ World Wide DX SSB Contest (October 27-28th) as Single-Op/Single-Band (40m) entry. He will be using stacked 40m yagis. QSL via VK6NE.

W8AH WEB TRIBUTE. Al Hix, W8AH, was known around the world by thousands of amateur radio operators for his pursuits in the DX. He became a "Silent Key" at 85, on June 25th, 2003, at home after a short illness. Well-known DXer/Dayton-photographer Tom Roscoe, K8CX, has put up a special Web page in tribute to W8AH. Is your photo with Al in there? Visit the following Web page at: http://hamgallery.com/Tribute/W8AH/

ADDED NOTE: Who is the unknown person in the Dayton 2000 photo on this page? Let Tom know at: k8cx@hamgallery.com

WAB ACTIVITY........
John, M0JDK, is expected to be active mobiling on a canal boat from Warwickshire up to Liverpool and Manchester now until April 15th. This is primarily a holiday for him, but he will be on 80/60/40/2 meters. Activity is good for the "Worked All Britain Award" (WAB). QSL via the info on QRZ.com.

Tom, G0JRT, will be mobiling around in Scotland between now and 0900z April 6th (possibly the 7th). Activity will be on 3760 kHz possibly or 7060 kHz depending on conditions. QSL via info on QRZ.com.

WP3, PUERTO RICO. Alfredo, WP3C, will be active in the CQ WW WPX Contest (May 26-27th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK, direct preferred but Bureau is OK.

ZF, CAYMAN ISLANDS (NA-016). Operators John/K6AM, Joe/W5ASP and Dale/ KG5U will be signing ZF1A from Grand Cayman Island (WLOTA LH-1042) during the CQ WW WPX CW Contest (May 26-27th) as a Multi-Single entry. QSL via W5ASP, direct or by the bureau or LoTW.

ZS, SOUTH AFRICA (Talk to The Hell!). A team of ten operators from the Boland Amateur Radio Club will be visiting "The Hell", also known as Gamkaskloof or Gamka's Valley, situated in the Swartberg Mountains of the Southern Cape in the area between 33.28 S 21.15 E [KF06nr] and 33.33 S 21.42 E [KF06rq]. They will be using a special callsign, ZS1HELL. The team consist of Rassie/ZS1YT, Karl/ZS1KC, Bennie/ZR1JHD, Graham/ZS1GVB, Conradt/ZR1CE, Derrek/ZS1DUP, Douglas/ZS1GUD, Johan/ ZS1GP, Mac/ZS1XX and Olivier/ZS1OLI. The special station, with the callsign ZS1HELL, will be active from Friday, April 27th until Monday, April 30th. The station will be active on 160, 80, 40 and 20 meters. Although the station will be active on some DX frequencies, their main aim will be to achieve a Worked All ZS Award and a Top Band certificate. The electronic QSL system on the SARL Web page will be used as well as standard QSL cards. The direct QSL address is: PO Box 273, Strand, 7140, South Africa. For more information on "The Hell", visit the following Web page at: http://www.diehel.com

Some ideas -- try and get your request on to the DX news sites such as
NG3K Amateur Radio Contest/DX Page http://www.ng3k.com/index.html
Bill@ng3k.com

Also try The OPDX Bulletin http://www.papays.com/opdx.html
k8yse@papays.com

In the past I have seen requests on these for QSL manager volunteers

Good Luck
Lamont

Try the QSL Manager Society at http://www.qsl.net/qslmanagers/
They have a large list of managers.

```
-----BEGIN PGP SIGNED MESSAGE-----
Hash: SHA1

N1KI will be the QSL manager for CO2WF. I have Winty's logs up to
04/12/2007. I also have all T40C contest logs, and the T40C online log
is on my personal web site (url on QRZ.com.) I am working on updatine
CO2WF's EQSL log and hope to have T40C on LoTW in the near future.

147. N8S Logbook Lookup Problems?

Newsgroup: rec.radio.amateur.dx
Date: 2007-04-15 22:31:27 UTC
From: larryj@teleport.com
Message-ID: <1176676287.322844.201240@b75g2000hsg.googlegroups.com>
Source record: 2468

Has anyone been successful looking up QSOs on the N8S DXpedition page lookup? No matter what Computer I use, at home or at work, I always get the following response when I try to go to the Logbook QSO Lookup section:

"Not Found. The requested URL /logsearch/logsearch_n8s.php was not found on this server.
Additionally, a 404 Not Found error was encountered while trying to use an ErrorDocument to handle the request. "

There's also a link to another web site for people having problems with the log on the N8S page - it goes to a site called "I'llkickyouinthenuts", and there are logbook lookups available for a number of callsigns, but N8S is not in the list.

Anyone have any other suggestions?

The Ohio/Penn DX PacketCluster
DX Bulletin No. 805
BID: $OPDX.805
April 16, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1KI, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, WC5N, K8YSE, K9EL, ND9M, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, EA4ATI, F5NQL & UFT, G3USF, HA0HW, HL1VAU, I1JQJ/IK1ADH & 425 DX News, IZ0FKE, JG7PSJ, PT7WA, RSGB IOTA, SP9GKM, SU1SK, TA1HZ, VA3RJ & ICPO, VE3KF and VK2YJS for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 8th-April, through Sunday, 15th-April there were 235 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H3, H4, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH4, KH6, KH8, KH8/s, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4X, ISRAEL. Dov, 4Z4DX, is expected to be active as 4X0MDC during the upcoming Holyland DX Contest (April 21st, 0000z-2359z). QSL via IK2VUC.

5H, TANZANIA. Vlad, UA4WHX, who was active from Malawi (as 7Q7VB) in the beginning of April, is now active as 5H3VMB. He was heard on 30/17/15/12 meters. INTERESTING NOTE: On QRZ.com, Vlad asks everybody to send IRCs instead of dollars. He also writes "to be more patient (possiby for years) if you want to receive your card via the bureau."

6W, SENEGAL. Dani, EA4ATI, is heading back to Dakar again. He informs OPDX that he will probably use the callsigns 6W/EA4ATI and 6W1EA for contests. He is expected to be there this month and will stay until April of next year. He will probably use a three element yagi beam antenna for 10-15-20 and dipoles for the other bands (40-80-160 and the WARC bands). QSL via direct to his home callsign EA4ATI.

9N, NEPAL. Operators Nob/JA2AAU, Yoshi/JA2AIC and Iku/JA2ATE will be active from Khathmandu between May 10-15th. Activity will be on 40-10 meters, CW, SSB, RTTY and PSK31. Their callsign and QSL information are as follows: QSL 9N7AU via JA2AAU, 9N7IC via JA2AIC and 9N7TE via JA2ATE. Direct addresses are:
JA2AAU - Noboru Kanno, Shikata 1785-61, Kitanagoya, 481-0004 JAPAN
JA2AIC - Yoshiyasu Iwata, Minamiaoki 30, Sotowarida, Kisogawa, 493-0007 JAPAN
JA2ATE - Seiji Morishima, Tonomachi 1-8, Ichinomiya. 491-0848 JAPAN

CQ MAGAZINE ANNOUNCES WINNERS OF 2006 DX MARATHON. Press release dated April 9, 2007: CQ Magazine DX Marathon - "In 1947 CQ Magazine held the first ever DX Marathon which then morphed into the CQ World Wide DX Contest. Jump forward almost 60 years and from January 1 to December 31, 2006, the DX Marathon was re-born where hams everywhere were encouraged to "work 'em all" in a twelve month period. The CQ DX Marathon has already increased activity on the bands and appeals to hams in any location and any station capability. The DX Marathon will be repeated every year from January 1 to December 31.
For 2006, the winner in the Unlimited Class is Pete Meyer, N0FW. Pete had an amazing score of 326 - 286 countries and all 40 zones. The Formula class winner was Drago, T94GB, with an impressive score of 228 including 193 countries and 35 zones using 100 watts and wire antennas. Complete results will appear in the June 2007 issue of CQ Magazine.
For 2007, the WARC bands are now permitted, so overall participation is expected to increase. For complete rules and submission information, please see our web site at: www.dxmarathon.com
Good luck and see you on the bands!"
73, John, K9EL, Program Manager, CQ DX Marathon

FS, SAINT MARTIN. John, K9EL, will once again return to this island mainly for a family vacation but will operate as FS/K9EL whenever possible between April 27th and May 6th. He will be using an IC7000 and verticals for 80-10 meters, and mainly CW and SSB. QSL to his home callsign; bureau QSL cards are OK.

GB100, ISLE OF MAN (Special Event). Members of Wrexham ARS will be operating from Scarlett Point, Isle of Man (EU-116, WLOTA LH-0449) between May 25th and June 5th as GB100TT. This is a special event callsign celebrating 100 years of the "Isle Of Man TT (motorcycle

road) Races". Activity will be on all bands from HF to UHF and might even use their club callsign GT4WXM/p. Operators mentioned are Colin/MW0JNI and Mike/GW6NLP. QSL via MW0JNI (QRZ.com). Visit the the "Isle Of Man TT Races" Web page at: http://www.iomtt.com/ Also, visit: http://en.wikipedia.org/wiki/Isle_of_Man_TT

GM, SCOTLAND. Gordon, G3USF, is off to the Shiant Isles with others from the Grantham ARS and expects to be active as GM3USR from late Tuesday, July 10th until early Friday, July 13th. Their Grid square is IO67tv. They will use 50 MHz gear w/100W + 3 or 5 element beam as well as the usual HF antennas. Information and updates will be available via the RSGB IOTA Web site under EU-112.

IOTA NEWS.....
AS-080. Operators Rocky/HL1VAU, Han/DS2GOO and Ryou/DS4NYE are planning to activate Anmyon Island (Korean Districtionn Number F26) during the first weekend in May. Operators will sign homecall/3. The team will use some wire antennas with simple barefoot mobile transceiver. Most of their activity will be on the digital modes and the WARC bands.

AS-134. Look for He Lei, BD1DRJ, to be active as BD1DRJ/3 from ShiJiuTuo Island, April 21-22nd. Activity will be on 40/20/15/10 meters CW and SSB. QSL via his home callsign. Visit his Web page at: http://bg1drj.spaces.msn.com/

AS-135. Operators Kevin/BA4XA, Mary/BA4XYL, Roy/BA4VE, Li/BD4XD, Wang/BD4XW, Chang/BG6IQD and Tiger/BG4VGJ will be active as homecall/4 from Dongxilian Island between May 1-7th. Activity will be on or around the usual IOTA frequencies, using a 2 element yagi, vertical and dipole antennas with 100 watts of power. The group will be on holiday, so their activity will be limited. QSL via the operators' home callsign.

EU-060. Members of the White Tower DX Team will be active from Skyros Island (MIA MG-115, WLOTA LH-2002), June 17-22nd. Activity will be on all bands and modes. Operators mentioned include Peter/SV0XAW, Giannis/SV2FPU, Babis/SV2HNZ, Christos/SV2HOB, Nikos/SV2HPP, Giannis/SV2HPY, Paul/SV2HRT and Dimitris/SV2HSV. QSL via SV2HPP (QRZ.com). Visit the WTDXT Web page at: http://www.whitetowerdxt.com

EU-096. A group of Swedish operators will be active as OH3I from either Parainen or Nauvo Island, between 1000z, April 21st and 0830z April 22nd. Suggest frequencies are:
CW - 7026, 10116, 14036 and 18096 kHz
SSB - 7056, 14266 and 18136 kHz
Digital - 7036, 14096 and 18106 kHz
They plan to use 2-3 transceivers with amplifiers and good antennas. QSL via OH3BHL.

EU-096. A group of Italian and Swedish operators will activate the rare IOTA Parainen Island (Turku Islands) with the special callsign OH10TA, April 25-29th. Operators mentioned are: Markus/OH1MN, Peter/OH0JFB, Jourko/OH1RX, Andrea/IZ0EHO, Vincenzo/IZ0FKE, Simone/IZ0BTV and Matteo/IW0HJH. Activity will be on bands and modes. QSL via IZ0EHO. Visit their Web page at: http://www.oh10ta.com

EU-129. Look for Karen/DL8HK and Alfred/DB1VQ to be active as DL0EFA/p from the Island of Usedom (O-13 for the German Islands Award), between April 26th and May 1st. DL8HK will be active only on CW, while DB1VQ will be on SSB. QSL via DK9VB (QRZ.com).

EU-158. A group of OM/YL German operators will active from Proti Island (MIA MG-092) between July 26-31st. Their activity will also include the upcoming RSGB IOTA Contest. Look for the OM operators Olaf/DJ7TO, Uwe/DK3WW, Frank/DK7AO, Michael/DL6MHW, Holger/DL7AU and Holger/DL7IO to be active as J48IO. They plan to run 2 stations simultaneously from 160-10 meters. Each station has its own generator and antenna setup for 160-10 meters. The YL operators Katrin/ DL1AXL, Andrea/DL3ABL and Birgit/DL7IQ will be active as J48YL. Activity will also include the RSGB IOTA Contest on all bands and modes. QSL route for both callsigns are DK7AO. Bureau QSL cards are preferred. An E-mail Bureau request is also "OK" via: dl7io -at- qsl.net

EU-172. Operator Ulli, DO2ML, will be active as OZ/DO2ML from Aeroe Island (DIA FY-014, WLOTA LH-0973), June 4-7th. Activity will be on 80/40/20 meters SSB only. QSL via his home callsign, direct or by the bureau.

OC-012. Kei, JK1QLR, will be active as V63LR from Yap Island, Micronesia, after April 23rd. QSL via JK1QLR.

OC-078. Kei, JK1QLR, will be active as V63LR from Ulithi Atoll, Micronesia, April 20-22nd. QSL via JK1QLR.

OC-144. Operator Hotang, YC0IEM, will be active from Bangka Island, April 16-22nd. No info on bands/modes were provided. QSL via IZ8CCW.

OC-256/OC-283/OC-284 (Rare IOTAs to be Activated). Team organizers Hans/SM6CVX and Derek/G3KHZ are planning a DXpedition to the islands of Nukumanu (OC-284pr) and Takuu (OC-283pr) this coming September and October. The team will comprise of 4 radio amateurs plus a Swedish friend, a professional photo-grapher, a film producer and a scientist. These islands are the most remote islands from the main island of Papua New Guinea. They plan to be active for 6 days on each of the islands. If time permits, they will also make a stop at Kilinailau Island (OC-256). INTERESTING NOTE: "These islands

are low lying and are suffering from the effects of global warming which is causing the sea level to rise. Takuu is especially vulnerable because it is also sinking due to the movement of the tectonic plates in the region. The net result is that the sea level is rising 20cm per year and the island is only 2 metres above the high tide level. 600 people live on this island. Nukumanu is also populated."
QSL route/manager is to be announced later.

JD1, OGASAWARA. Skip, JE2HCJ, will be active as JE2HCJ/JD1 from April 16-25th. Activity will be mainly on CW on 160-6 meters. After April 20th, he will focus on the lower bands. QSL via his homecall.

JD1, OGASAWARA. Operators Hide/JM1LJS (JD1BLK), Koya/JI5RPT (JD1BLY) and Harry/JG7PSJ(JD1BMH) will be active from Chichijima Island (IOTA AS-031) in the Ogasawara Islands Group, between 0600z Sunday, April 29th and 2200z Saturday, May 4th. Activity will be on 160-6 meters and the Satellites with operations on CW, SSB, RTTY and PSK31. QSL JD1BLK via JM1LJS, JD1BLY via JI5RPT and JD1BMH via JG7PSJ. Please visit the operators' Web sites at:
JD1BLK - http://radio-dream.com/jd1blk/
JD1BLY - http://www.ji5rpt.com/
JD1BMH http://sapphire.ganko.tohoku.ac.jp:8080/jd1bmh/

JT, MONGOLIA. Operators Nicola/I0SNY, Giampiero/I5NOC, Pino/I8YGZ, Andrea/IK1PMR and Claudia/K2LEO/IZ1GLO will be active from here between now and May 3rd. The group will operate as JT1Y from Ulanbaatar and will also be visiting the call areas 8, 9 and 0 along with members of the JT1KAA radio club. Look for activity to be on 160-10 meters CW, SSB, PSK31 and RTTY. QSL via I0SNY.

JW, SVALBARD. Just a reminder that Francois, F8DVD, will once again be active as JW/F8DVD from the Longyearbyen ARC, located on Spitsbergen Island, 78° North, and about a thousand kilometers far from the geographic North Pole (EU-026, WAZ 40 and Grid Square JQ78TF), April 12-23rd. His activity will be on all HF bands both CW and SSB. This will be Francois's 5th time on the island. He will use the Longyearbyen Radio Club's equipment which consists of an ICOM 751 and a 500 watts PA, into a 5 elements yagi on a 30 meters high tower. QSL via his home callsign, through the French REF-Union Bureau or direct, w/SAE + 1 IRC (or 1 USD for EU, and 2 USD for elsewhere) to: Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, France.

N8S SWAINS ISLAND UPDATE. By the time you read this, the N8S DXpedition to Swains Island should be QRT. Reports indicate that they would be going QRT around 1800z. As this bulletin was being written, the online log search was showing 104,532 QSOs, but we heard reports of over 112,000 QSOs. Logs should be completely updated once back in Pago Pago. Look for more info and pictures to be added to their Web page. QSL is via YT1AD. Online log is available at:
//logsearch.de/index.php?option=com_content&task=view&id=170&Itemid=104

ADDED REMINDER: Remember the DXpedition will move onto Samoa next and be active as 5W5AA (possibly other callsigns also) from April 17-24th.

QSL 5T5JA via JA1BAB and 5T5DX via JL1HHN. Activity was a group of Japanese operators who were in Nouakchott, Mauritania.

QSL cards for recent AS-148 (Sonyu Island, March 1-3rd, 2007) operation have been printed and arrived on the door step of each operator. Rocky/HL1VAU, Han/DS2GOO and Ryou/DS4NYE are now processing the dirct QSL requests. Bureau QSL will go out later. The team logged over 2,300 QSOs. Operation was under 20 hours. Activity time was restricted by power failure, weather problem and some sleeping. Over 80 percent of QSOs were with Europe, and most of the QSOs were made on the WARC bands.

QSL VIA LOTW: 9H1ZA, CT3FN, VE3DZ and VP2E.

QSL RECEIVED VIA MAIL: 3C0M, 3Y9SDA, 4J5A, AH2L, BY4RB (1989), DD0PI, DK0MOS, EA6SX, EE5E, GP0STH, HS0T, II5ANT, J20MM, J20RR, S21XA, UA1PAC/1/ANT, V49A, VE1OTA, VK1AA/2, XT2C and YN2N.

RUSSIAN MOUNTAINS TO BE ACTIVATED (RMA and RDA Activity). Operators RV3ATS, RV3ATT and RU3AVF plan to activate 16 mountains and 3 area regions for the Russian Mountains Award (RMA) and the Russian District Award (RDA) between June 19th and July 21st. The mountains will be in the Maykopskiy region (AD-06), Hostinskiy Region (KR-10) and the Tuapsinskiy region (KR-58). Activity will be on 40/20/15 meters. For more details on the RMA and RDA awards, please visit the following Web pages:
RMA - http://www.mountain.ru/radio/rma/engl.shtml
RDA - http://rdaward.org/indexeng.htm

SPECIAL EVENT. During the period of May 1st through July 31st, look for special event station SN750C and station SN750BK of the "Brotherhood of the Rooster" (Bractwo Kurkowe whose responsibility was to defend Krakcow against the numerous and always threatening invaders) will be active. Activity is to celebrate the 750th anniversary of Krakow City, Poland. Also, look for individual stations using the special callsign prefix SN0 to be active. QSOs with these stations and the SN750 stations on any band and mode will count towards a special diploma. Diplomas will be endorsed and signed by the residing president of the City of Krakow. More details are available at the following Web page: http://www.sp9pkz.republika.pl

SU8, EGYPT (Special Event). You still have until April 17th to work the special event station SU8DRM which is organized by International Telecommunication Union (ITU) for the Regional Conference on Disaster Relief and Management - International Cooperation & Role of ICT, in Alexandria, Egypt. Operators mentioned are: SU1GS, SU1SA, SU1SK, SU2TA, SU1AO, SU1KA, SU1KM and SU9NC. QSL Manager is SU1KM. Egypt has no QSL bureau. Please QSL ONLY DIRECT via: MOHAMMED EL KAFRAWI, P.O.BOX 70, MAGLESS EL SHABB, POST OFFICE CAIRO, 11516 EGYPT. IRCs are not acceptable by their postal offices, only (USD) green stamp is barely enough to cover return postage and QSL card cost.

TC57, TURKEY (Special Event). Operators Tevfik/TA1HZ and Bekir/TA2RX will be operating from the Gelibolu Peninsula as TC57ALAY between April 21-25th. Activity is to commemorate the 57 Regiment martyrs who lost their lives in Canakkale War in 1915. Look for them to be on 7090 kHz (+/-10) and 14270 kHz (+/-30).

TK, CORSICA (EU-014). Operators Laci/HA0HW, Tomi/HA4DX, Geza/HA4XG, Ivan (Johny)/LZ1PJ and Valya/LZ5AV (XYL) will be active as TH/homecall from Cap Corse - Nr. Tollari (WW Loc. JN43QA, DIFM TK-001, MIA MCO-001, WLOTA LH-1390), April 21-28th. Activity will be on all HF bands 160-10 meters (depending on the propagation) with two stations, and one VHF station also. Operations will mainly be CW, but they will also use SSB, RTTY and PSK31 as well. Geza will try to be on 144 MHz Tropo, MS (FSK441, 1st. period, 144.363) with IC746 + 500 watts + 10 element DK7ZB yagi during the morning and evening hours. QSL via the HA and LZ QSL Bureau, or direct to each operator's home address.

TO3, MARTINIQUE. Alex, VE3KF, will be active with the special callsign TO3T, May 23-31st. Activity will be on CW and SSB plus an entry in the CQ WPX CW Contest. QSL directly to VE3KF or via the bureau.

TO4, CUBA. Operators Willy/CO2MHZ and Winston/CO2WF will be active as T40C from Habana, Cuba, for the next CQ WPX CW Contest (May 26-27th). QSL via N1KI.

VK, AUSTRALIA. Saturday, April 28th (UTC), is International Marconi Day, and the Hornsby and Districts Amateur Radio Club will be running the only IMD station in Australia using VK2IMD on all HF bands. ADDED INFO: This international event is operated by stations in locations that have a link to Marconi. In the case of VK2IMD, operations are

located close to Wahroongah, in the northern suburbs of Sydney, NSW, where Ernest Fisk of AWA received the first direct radio message from Britain to Australia in 1918. This was a telegram from the Australian Prime Minister Billy Hughes (who had just returned to Britain, having toured the World War I battlefields in France). It was sent by Marconi's station in Carnarvon, Wales. Visit the following Web pages for more info:
General info - http://www.gb4imd.org.uk/
List of IMD stations - http://www.gb4imd.org.uk/awardstns.htm

VP5, TURKS AND CAICOS ISLANDS. Fred, PY2XB, will be active as VP5/PY2XB from Providenciales Island (NA-002) between April 19th and May 3rd. Activity will have an emphasis on the lower bands (160/80/40m) and the WARC bands (30/17/12m), as well as the digital modes (BPSK31 and RTTY). He will have a six meter CW beacon active on 50.097 MHz. QSL via PT7WA, direct or by the bureau. On-line logs will be available at:
http://www.py2yp.ws/py2xb

VQ9, CHAGOS ISLANDS. Jim, VQ9JC (aka ND9M), has returned to Diego Garcia for another four month tour and will resume operating as VQ9JC. He informs OPDX: "Operating time tends to run about 85% CW, 10% SSB, and 5% digital and is on 80-10 meters. I must take a boat from my ship (where I am one of the few remaining Radio Officers) to the island where the ham shack is located and usually cannot be QRV before 1200Z. (Local time is GMT +6 all year.) In order to be on the boat back to the ship, I must QRT by 1635z on Sundays through Thursdays, and by 1735z on Fridays and Saturdays, although I will occasionally stay overnight to work early morning DX." Jim was heard this past week on 20/15 meters CW. QSLs go to ND9M (ex-WB9IHH); either by the Bureau or direct is OK. Jim states, "My XYL will forward direct requests to me every three weeks or so, but mail typically takes about two weeks to get to the island once she mails it. As for direct QSL requests, I'm continually surprised to see the number of invalid IRCs coming through. A few are the older style that expired at the end of 2006, but the majority of them are invalid because they were not stamped by the issuing post office. I wouldn't mind 'eating' two or three, but I've received literally dozens so far this year. All QSL requests are answered of course, but requests that come with invalid IRCs will be answered via the buro. CU in the pileups! 73 for now, Jim, VQ9JC / ND9M"

I had luck with the log lookup mentioned on the n8s page last week - but now, there's no listing for n8s - or I get a "Service Temporarily Unavailable" - at least I got in while it was still working!

Logsearch.de is working as of Sunday evening, but it is not up to date. It did not have my contact from earlier today, Sunday morning, but it had one from Friday afternoon.

The other site I"llkickyouinthenuts," is really dxped.com, and it had the N8S log on Sunday morning, with a link in the left column, but on Sunday night this link and the log are missing (link 'n logs--I think I have something there).

The official site, www.yt1ad.info/n8s/log.html, has not had the log for the past four or five days. Perhaps this will be the first site to get the full log now that the DXpedition is over.

From what I can tell from a Google search and my experience, these are the only two sites that have had the logs.

You have to first click on N8S Log Search in the left column before
you enter your call.

156. ARRL Buro Working...

Newsgroup: rec.radio.amateur.dx
Date: 2007-04-19 23:03:30 UTC
From: Dave WB4IUY <support@scootworks.com>
Message-ID: <1177023810.070143.174580@p77g2000hsh.googlegroups.com>
Source record: 2477

It's been a while since I posted on the topic. I received a FAT envelope today from the incoming ARRL buro. I don't know what was wrong, but it seems that Dick has it fixed. There were 46 QSL in there, some dating all the way back to 1992! Yipee!

Dave WB4IUY

157. dxped.com works for N8S

Newsgroup: rec.radio.amateur.dx
Date: 2007-04-20 11:17:09 UTC
From: Jan Ditzian <ditzian@alltel.net>
Message-ID: <59edc$4628a0ee$a227321e$6165@ALLTEL.NET>
Source record: 2478

This morning (April 20, 1100Z) I was able to search an updated log for N8S at dxped.com. There was no longer a special link at the left on the main page--I had to use a drop down menu (online logsearch at the left) to move toward the log, which is a few layers down. At the same time, the log at yt1ad.info did not work (404).

Jan, KX2A

158. Status of BS7H ?

The list of donors seems to be kept up-to-date on the BS7H web site, but no news of the expedition's status has been posted for about six weeks.

Does anyone in the group know the status?

DX Bulletin No. 806
BID: $OPDX.806
April 23, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5LBU, K8YSE, K4WY, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, EA4ATI, F5NQL & UFT, G3SWH, HS0ZCW/K4VUD, I1JQJ/IK1ADH & 425 DX News, IZ0FKE, PG5M, RSGB IOTA, SM3CVM, TA3YJ, UA9OBA, UT5UY, VA3RJ & ICPO, VE3EXY, VK2YJS and YV5AJ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 15th-April, through Sunday, 22nd-April there were 219 countries active. Countries available: 1S, 3B8, 3B9, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J5, J6, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KH8/s, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2V, VP5, VP8, VQ9, VR, VU, XE, XU, XW, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FIJI (Update/Reminder and IOTA Op). A group of five Ukrainian radio amateurs will be activating two IOTA groups between late April and early May. Operators mentioned are: Len/UR3HR, Sergey/UR7HTX, Max/UR7HTZ (3D2TZ), Alex/UT5UY (3D2UY) and Alex/UX0LL (3D2AP). Their activity will start from Taveuni Island (OC-016), using the callsign 3D2AP, 3D2TZ and 3D2UY between April 27th and May 3rd. The team will

then move to one of the "Most Wanted IOTAs and Most Wanted Fijian IOTA Group (only 7.8% IOTA Chasers are credited) and activate Yanuca Island in the Ringgold Isles Group (OC-189) as 3D2RI (suffix RI=Ringgold Isles) between May 3-7th. The group plans to have 2-3 well equipped stations active and operating simultaneously using YAGI antennas. There will be a special effort on the lower bands. QSLs for 3D2RI are via UR3HR, by the bureau or direct to: LEONID BABICH,
P.O. BOX 55, POLTAVA, 36000, UKRAINE. QSL cards for personal activity from Taveuni Island should be sent direct to home callsign or through the bureau (QSL 3D2UY via UT5UY, 3D2AP via UX0LL and 3D2TZ via UR7HTZ). Due to the high cost of this operation on a remote Pacific Island, the group is asking for sponsorship by various DX organizations and individuals around the world. If you would like to help fund or sponsor their DXpedition, please contact Alex, UT5UY, by E-mail at:
ut5uy@ukr.net
For more information, please visit the Ukrainian DXpedition Team (UDXT) Web site at: http://www.3d2.dxer.com.ua

4K, AZERBAIJAN. Vlad, 4K9W, from Baku, seems to be active most days after 1945z on 40 and 30 meters CW. He was also heard this past weekend on 160/80 meters SSB during the YU DX Contest. QSL to DL6KVA.

5W, SAMOA. The N8S DXpedition team is now active until April 24th. Look for the callsign 5W5AA to be used. Operators are also using their own 5W callsigns. Please be careful and check their prefixes (5W5 and 5W0). QSL 5W5AA via YT1AD or YZ7AA, 5W5LP via K3LP, 5W0AA via YZ7AA, 5W0NU via YU7NU, 5W0JT via JT1CO, and 5W0SV via SV2BFN. The team will be disassembling their camp and antenns between April 24-26th. Some of the operators will head to the USA and attend 58th Annual International DX Convention, Visalia, CA, between April 27-29th.

6W, SENEGAL (Update). Dani, EA4ATI, is headed back to Dakar again. He informed OPDX last week that he will probably use the callsigns 6W/EA4ATI and 6W1EA for contests. He is expected to be there this month and will stay until April of next year. Dani informed OPDX this week that he will be active on all bands and will bring a small amplifier with him this time. QSL via his home callsign, either direct or by the bureau.

8Y/SI9, SWEDEN (Special Event). Members of the Jemtland Radio Amateurs (SK3JR) will be hosting the 2007 Scandinavian Young Ladies Radio Amateurs (SYLRA) meeting in Ostersund, Sweden, from August 23-26th. Look for the special callsign 8S3SYL to be on the air during the meeting. The QSL Manager for 8S3SYL is SM3CVM. QSL via the bureau is preferred, but direct cards are OK with SASE and sufficient return postage (one new IRC or two USDs). QSL without sufficient postage will be sent via the bureau. Direct requests go to SM3CVM: Lars Aronsson, Lillfjallvagen 62, SE-831 71 OSTERSUND, SWEDEN. Also, on Friday, August 24th, there will be a special activity by YL operators from SI9AM with two stations active simultaneously. QSL also to SM3CVM. All YLs and OMs from Scandinavian countries as well as from other countries are invited

to join SYLRA 2007. Visit the SYLRA Web page at:
http://www.sylra.se/_sgg/m1_1.htm

9M2, SPRATLY ISLANDS. Gerben, PG5M, is now active as 9M2/PG5M from Pulau Layang Layang, Spratly Islands (AS-051) until 23 April. Activity will be CW only on 40-10 meters, using a FT-897 and only a vertical antenna; possibly a G5RV dipole. QSNs over the past weekend show Gerben has been active mainly on/around 10102-10106, 14020 and 18073 kHz. QSL via his home callsign, direct or by the bureau. Gerben states on his Web page that he will start processing all QSL requests (including other 9M2 contacts from West Malaysian Islands) when he is back in the Netherlands by the middle of 2007. Please be patient and do not send multiple requests. His new mailing address is: Gerben A. Menting, Brandparken 2, 9351 XM Leek, The Netherlands. Visit his Web page at:
http://www.dx.to

A2, BOTSWANA (Update/Topband). Frosty, K5LBU, reports that this July there will be at least 6 operators in their group active from Botswana starting on the 6th of July until the 20th. They plan to have a 72 foot vertical for 160/80 meters and a 4 square for 40 meters. They hope to have their A25 callsigns soon.

BS7, SCARBOROURGH REEF. As of press time, there is still no news on this upcoming operation that is expected to take place "ten days in late April." DXers should be alert and expect anything at anytime to happen. This means they may just show up on the air. All we can provide at this time are the following suggested frequencies:
CW - 1826.5, 3504, 7004, 10124, 10104, 14024, 18074, 21024, 24894 and 28024
SSB - 3799, 7057, 14185, 18145, 21295, 24945 and 28475
RTTY- 14080, 21080 and 28080 kHz
Remember, QSL via KU9C and the BS7H DXpedition Web site, will post updated information at: http://www.bs7h.com
Logs will be available ONLY after the end of the DXpedition.

HB0, LIECHTENSTEIN. Look for a team of at least six German operators to be active from Chalet Barsula (1200m ASL), near Triesenberg, between May 26-30th. Activity will be on 160/80/40/30/20/15/10/2 meters and 70cm. Modes will be CW, SSB, FM, PSK31, RTTY and WSJT. The group plans to use 1000 watts on HF, 100 watts on 144 MHz into a 9 element F9FT antenna and 20 watts into an 11 element Flexa yagi on 432 MHz. Planned skeds are possible on 144 MHz and 432 MHz by sending an E-mail to:
DL5ZA@web.de -or- michael@do1ars.de

HS, THAILAND (80m HS Plans). Charles, HS0ZCW (aka K4VUD), announces that he will have an 80m antenna functioning at the HS0ZCW station (a sloper antenna pointed North). He wants more 80m HS activity, so he is asking for direct replies to sked suggestions. However, please note these limits he has announced...
"1. Skeds must be on Thailand time/dates WEEKENDS because HS ops can not operate this band unless there is a ham contest running, and contests are almost all only on weekends... Fridays, Saturdays,

and Sundays. Thailand is +7 hours GMT/UTC and neatly 12 hours ahead of EST.
2. The frequencies must be between 3500-3535 kHz by Thailand rules, CW or SSB there.
3. I have a slow, sold as fast, internet connection.
4. For any contacts, hoping there can be some, I would like to work CW first, then I xmit SSB to your CW to confirm for you a SSB contact, too. Note you will not xmit SSB in this part of the band.
5. This message is carefully written; please read it at least as carefully to avoid wrong replies.
Feel free to email me suggestions of skeds. My Thailand phone number is +66-085-046-1922 for use only during on-the-air times. Hey, let's have some more fun.... 73, Charles Harpole HS0ZCW"
His E-mail address is: k4vud@hotmail.com

IOTA NEWS.....
EU-008. Operator Jim, MM0BQI, will be active as MM0BQI/p from Shuna Island, between April 28th and May 5th. Activity will be on 80-17 meters CW, SSB and RTTY. QSL via his home callsign, direct or by the bureau.

EU-038. Operators Kees/PA3EEQ and Age/PA0XAW will be active from Texel Island (NET-024), April 28-29th. Activity will be on 80/40/30/20 meters, CW and SSB. QSL via their home callsigns, direct or by the bureau. Full information on the Dutch Lighthouses Award can be found at: http://www.dutchlighthouseaward.nl

EU-048. Operators from the Eure et Loire area hams plan to activate two islands in this IOTA group as TM5EL, between April 28-29th. Activity will be on the HF bands, CW, SSB and the digital modes. Operators mentioned are: F6KHI & F5KDY ARC, F0DIG, F1LLS, F5RAB, F6AXN, F6DPD, F6GED, F6HEQ and F8AEJ. The team will first activate Belle Ile en Mer (DIFM AT-015, DIM O-08, WLOTA L0872, and also DFCF56-008 Fouquet Castle for the French Castles Award). The will then try to ativate Ilot des Poulains (DIFM AT-089, DIM O-15, WLOTA L0093 and also DFCF56-009 Sarah Bernhardt Castle for the French Castles Award. The access to this island is difficult due to some regulations, so the activity will be limited. QSL TM5EL via F6KHI.

EU-086. Yuri, UA9OBA, Radio Chief of Communications for the "Polar Ring-2007" expedition to the Arctic Ocean (Barentz Sea), informs OPDX that a plane will be landing on Vaygach Island, April 22-24th and operator Oleg, UA3ATS, will be active as R3CA/1 from EU-086 during 1-2 days only. The usual traffic frequency is 14120 kHz, but check the IOTA frequencies near 14260 kHz (SSB) and sometimes 14060 kHz (CW). View their trek throughout the day during their expedition with an inter-

active map, messages, weather and satellite data, that can
be seen on APRS HF system at:
http://www.ec-arctic.ru/pr2007eng/index.php?call=R3CA-7&old=0
&maptype=expedia&range=1
QSL cards will be via UA9OBA after the expedition is
finished. For more info on the "Polar Ring-2007" expedition,
please visit: http://www.ec-arctic.ru/index_eng.html

EU-092. Jim, MM0BQI, will be active as MM0BQI/p from Tanera Mor
(IOSA SC-10, SCOTIA CN-32), Summer Isles, between July 21st
and August 4th. Activity will be on all bands 80-10 meters
using CW, SSB and RTTY. QSL via his home callsign, direct or
by the bureau.

EU-105. Members of the Union Francaise des Telegraphistes will be
active as F8UFT from the Vierge Island (DIFM MA-020, WLOTA
LH-0241, PB-007, ARLHS FRA-038, TWLHF F-075) on April 28th.
Activity will only take place during their afternoon for
about one hour and a half, between 1200-1600z. They will
have two stations on the air on 40 and 20 meters, CW and
SSB. QSL via F6ICG.

EU-125. Ric, DL2VFR, will be active as OZ/DL2VFR from Roemoe Island
(NS-001 for the Danish Islands Award) between August 26th
and September 1st. Activity will be on all HF bands, mostly
CW. QSL via his home callsign, direct or by the bureau.

EU-184. Operators OH8GZN, OH8GZQ, OH8HQL, OH8HWI, OH8WM and possibly
others will be active as OH8T from Hailuoto Island, April
20-22nd. Activity will be on 80-10 meters CW, SSB and the
digital modes. There is also a possibility of 2 and 6 meters
activity as well. QSL via OH8TA.

NA-057. Look for members of Radio Club de Honduras (HR2RCH) to be
active from Little Cay, a small island of the Bahia Islands
archipelago group in the Atlantic Ocean off the coast of
Honduras, May 4-6th. Activity will be on 160-10 meters, CW,
SSB and the digital modes, if conditions permit. QSL via
HR2RCH direct for faster processing or by the bureau. For
more information, visit: http://www.qsl.net/hr2rch

NA-075. John, VA7PX, is currently active from Mayne Island (BC-035
for the Canadian Islands Award) until December 31, 2010. You
will find him using the digital modes, particularly RTTY and
PSK contesting. He also does SSB contesting. QSL via VE7AXU
direct, by the bureau or LoTW.

MUSEUM SHIPS WEEKEND EVENT. This special event is sponsored by The
Battleship New Jersey Amateur Radio Station, and will take place this
year between 0000z, June 9th through 2359z June 10th. Currently, 49
ships have announced their participation in the event from USA,
Germany, Belgium, Netherlands, Sweden and Italy. More are expected

to join this event. During this event, operations are allowed to take place on any amateur radio frequency. However, most ships will be operating in the General portion of the bands. Event's PSK31 activity is suggested on: 14070, 10142, 18100, 21070 and 28120 kHz. Some ships will also be on 3880-3885 kHz and 7290 kHz Amplitude Modulation (AM) with either their ship's original equipment or modern equipment. While any mode can be used during this event, CW and SSB are the dominant modes, organizors are encouraging all particpating ships that have the ability, to fire up their original equipment on 3885 kHz, 3600 and 3625 kHz (in the UK), 3705 (W. Europe), 7290 kHz and 14286 kHz in the AM mode. A certificate is available for working 15 ships. Ships wishing to participate, should send a note with the name of ship, callsign, location, QSL info and contact info for person responsible to: museum@nj2bb.org
For more details and a list of ships, visit the Museum Ships Weekend at: http://users.tellurian.com/freddie/nj2bb/ship-event.html

N8S SWAINS ISLAND DXPEDITION. Hrane, YT1AD, reports that they made 117,205 QSOs. QSL is via YT1AD. Online log is available at: //logsearch.de/index.php?option=com_content&task=view&id=170&Itemid=104
Visit the N8S Web site at: http://www.yt1ad.info/n8s/
The distribution of the QSL cards is due to start after May 15th, 2007.

OD, LEBANON. Pablo, CT1EFS, is reportedly in Shama near Tyre in the southern part of Lebanon, and will be staying there until June. He has been waiting for authorization from the local government to operate as OD5/CT1EFS. Activity will be on 40-15 meters CW/SSB. Watch for him daily around 1730z. He also has 6 meters with him. QSL route is to be announced later.

OOOPPPS DEPARTMENT. Last week we had a little typo under "TO4, CUBA." Actually, the heading should have been "T40, CUBA."

PJ2, NETHERLANDS ANTILLES. Dale, KC2PZ, will be active as PJ2/KC2PZ from Signal Point, Curacao (SA-006), May 8-14th. QSL via his home callsign.

PJ2, NETHERLANDS ANTILLES. Jim, WI9WI, will be active as PJ2T from Signal Point Station on Curacao between May 21-29th. His activity will include the CQ WW WPX CW Contest (May 28-29th) as a Single-Op/All-Band/ High-Power entry. QSL via N9AG.

PJ2, NETHERLANDS ANTILLES. Operators Carsten/DL6LAU and Joachim/DL8OBO will be active PJ2/homecall from the island of Curacao (SA-006, WLOTA LH-0942), July 9-16th. They plan to participate in the IARU HF Contest (July 14-15th) as PJ2HQ, and as a Multi-Multi entry. QSL via their home callsigns. QSL PJ2HQ via N9AG or LoTW.

Phil, G3SWH, informs OPDX: "I am pleased to announce the launch of a new web site where operators can view the QSL cards, search the logs of most and request bureau QSLs for all of the 85 callsigns that I currently manage. There are even some photos of me! The URL is <http://www.g3swh.org.uk>"

Nilay, TA3YJ, informs OPDX that she sent out nearly 5,000 QSL cards for TA3J, TA3J/0 (AS099), TA3J/0 (AS115), TA3J/3, TA3J/4 LH, TA3J/60, TA3YJ, TA3YJ/4 LH, TC2K4J, YM125ATA, YM125ATA/4, YM21TA, YM3ATA, YM3BU, YM3LZ (WPX2000), YM3LZ (WAE2000), YM3SV and YM75TA to the QSL Bureaus of Austria (R), Belarus, Belgium (R), Bosnia & Herzegovina, Brazil, Bulgaria (R), Canada (R), Colombia, Croatia, Cyprus, Czech Republic (R), Denmark, Estonia (R), Finland (R), France (R), Germany (4 Packet) (R), Greece, Hungary (R), Iceland, Ireland, Israel, Italy (2 Packet) (R), Japan (R), Kazakhstan, Lithuania (R), Luxembourg, Macedonia, Malta, Mexico, Netherlands (R), Norway, Poland (R), Portugal (R), Romania (R), Russia (3 Packet) (R), Serbia, South Korea, Slovakia, Slovenia (R), Spain (2 Packet) (R), Sweden(R), Switzerland (R), Turkey, Ukraine (R), United Kingdom (R), USA (W0, W1, W2, W3, K4, AK4, W5, W6, W7, W8, W9, KL, KP4) and Venezuela by air-mail postage direct on April 19, 2007. [(R) : Registered Mail]

QSL CREDITS RECEIVED VIA LOTW: 8P1A, 5B/G3SXW, CP6/DF9GR, FP/G3SXW, G8DQZ, GM0UDL, GM4WZL HQ9R, ON4AXU, TO5A, V73RY and ZS6AAA.

QSLS RECEIVED BY THE MAIL: 9U9Z, BY4CQB, FP/DJ2VO, HV0A, SV1AER, V51AS and YL2SM.

SUBMARINES ON THE AIR (SOTA). The weekend of April 28-29th is the Submarines-On-The-Air Special Event. There will be many submarines on the air during this event, and there is a special certificate available for working 10 of the boats. The suggested frequencies are:
CW - 3543, 7043, 14043, 21043 and 28043 kHz
SSB - 3843, 3943, 7243, 7279, 14243, 21283, 21379 and 28343 kHz
For more details, visit the Submarine Veterans Amateur Radio Association (SVARA) Web page at: http://groups.yahoo.com/group/SVARA/
Also visit: http://w0oog.50megs.com/

SX2, GREECE. Look for special event station SX2SB to be active May 19-20th. Activity is to honor the soldiers who fought in the Battle of Skra during the World War I. The suffix of the callsign stands for "Skra Battle". The two opposing sides back then were Greece and Bulgaria. The special station will be active on all bands using the following modes: CW, SSB, PSK31 and RTTY. QSL Managers are SV7CUD and SV1EOS. QSL by the Bureau or Direct.

VK, AUSTRALIA. This coming Saturday, April 28th, is International Marconi Day (IMD), and the Hornsby and Districts Amateur Radio Club will be running the only IMD stations in Australia, using VK2IMD, on all HF bands. This international event is operated by stations in locations that have a link to Marconi. In the case of VK2IMD, this station is located close to Wahroonga, in the northern suburbs of Sydney, NSW, where Ernest Fisk of AWA received the first direct radio message from Britain to Australia in 1918. This was a telegram from the Australian Prime Minister Billy Hughes (who had just returned to Britain, having toured the World War I battlefields in France). It was sent by Marconi's station in Carnarvon, Wales. For more information on IMD, please visit: http://www.gb4imd.org.uk/
For a list of IMD stations: http://www.gb4imd.org.uk/awardstns.htm

YW, VENEZUELA (Rare State). Members of the Radio Club Venezolano have announced their plan activation from Cojedes State using the special callsign YW4AJ, between April 28th and May 1st. Activity will be on 80-6 meters and on all modes. Satellites will be activated too. QSL via YV5AJ, direct (QRZ.com address) or by the bureau. This rare state is good for the D.E.V. (Venezuelan States Award). For more details, visit the following Web page at: http://radioclubvenezolano.org/concurso.htm

ZS, SOUTH AFRICA (Talk to The Hell!). Just a reminder that a team of ten operators from the Boland Amateur Radio Club will be visiting "The Hell", also known as Gamkaskloof or Gamka's Valley, situated in the Swartberg Mountains of the Southern Cape in the area between 33.28 S 21.15 E [KF06nr] and 33.33 S 21.42 E [KF06rq]. They will be using a special callsign, ZS1HELL. The team consist of Rassie/ZS1YT, Karl/ZS1KC, Bennie/ZR1JHD, Graham/ZS1GVB, Conradt/ZR1CE, Derrek/ZS1DUP, Douglas/ZS1GUD, Johan/ZS1GP, Mac/ZS1XX and Olivier/ZS1OLI. The special station with the callsign ZS1HELL will be active from Friday, April 27th until Monday, April 30th. The station will be active on 160, 80, 40 and 20 meters. Although the station will be active on some DX frequencies, their main aim will be to achieve a Worked All ZS Award and a Top Band certificate. The electronic QSL system on the SARL Web page will be used as well as standard QSL cards. The direct QSL address is: PO Box 273, Strand, 7140, South Africa. For more information on "The Hell", visit the following Web page at: http://www.diehel.com

Anyone know how to filter out "To ALL de xxxx" announcements on DXSpider spotting network?
I have tried "reject/spots 0 info ALL" and "reject/announcement" but it is not working.

thanks

Rick K2XT

Thanks so much. I also found a more extensive user manual with set commands
in it at:
http://www.krk.fi/usermaen.txt

This will help a lot. I was getting tired of seeing the chat stuff all the
time by inconsiderate users. I had been trying setting filters with no
success.

If anyone else is interested in a simple first filter, that will get rid of
spots from Europe, etc (I am in the USA and can not make use of spots from
other parts of the world) this works great:

reject/spots 1 not by w,k,n,a,ve

Message-ID: <SdSYh.6320$j63.6245@newsread2.news.pas.earthlink.net>
Source record: 2484

How many shortwave relay stations does the VOA still use around the world? Do they
broadcast via shortwave from any relay stations in the U.S. anymore?

Does be BBC have any relay stations in the U.S. broadcasting to the Caribbean and Central/South America?

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 22nd-April, through Sunday, 29th-April there were 224 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4W, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E4, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H3, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7C, ST.BRANDON ISLAND (DXpedition Update). Don Field, G3XTT, has sent out a press release (#4) with updated information. Excerpts from the release states that plans for the September FSDXA DXpedition to St. Brandon are progressing well. A suitable boat has been chartered to take the team and its 6 tons of equipment to the island. The licence

has been received, and all permits are in place for their stay on the island. The team will be operating from Isle du Sud, the southern end of what is shown on the charts as Cocos Island (not to be confused with Cocos Island in TI9 or the Cocos-Keeling Islands VK9!). "Lighthouse on the Air" enthusiasts might be interested to note that Cocos Island does have a beacon (WLOTA-Ref. LH 1017). This will be an all-time new one for lighthouse collectors - assuming the light is accessible from Isle du Sud. There have been some team changes. Some of the previously announced members have, unfortunately, had to drop out of the expedition. These include G3VMW, G4KIU, SM5AQD, WF5T and W3WL. However, they are delighted to announce that they will be replaced by Bob/MD0CCE (also known as N2BB), Pete/SM5GMZ (recently QRV from 6W), Gordon/G3USR and Clive/GM3POI (well-known as a low band expert living in the Orkney Islands). It was also announced at the RSGB Board meeting on Saturday, March 16th, that the board unanimously agreed to award the Five Star DXers Association (FSDXA) the "Calcutta Key" for the association's outstanding service to International Friendship. The FSDXA now has a four page full-color brochure with more information about their expedition available. This can be downloaded in both high and low definition PDF format from their Web site at: http://www.3b7c.com

4W, TIMOR-LESTE (OC-148). Members of the Korea DX Club will be active from the capital city of Dili between May 30th and June 4th. Operators Kim/6K5YPW, Lee/DS2BGV, Choi/HL5FUA and Yoon/6K2AVL will be active as 4W6AAV (or possibly a 2 letter suffix callsign that will be requested upon their arrival). Activity will be on 160-10 meters CW, SSB and the digital; depending on propagation. Suggested frequencies are:
CW - 1822/1824, 3515, 7015, 10115, 14015, 18075, 21015, 24895 and 28015 kHz
SSB - 3795, 7095, 14195, 18130, 21295, 24950 and 28460 kHz
Digi - 14082, 21082 and 28100 kHz
QSL via HL5FUA: Jong-sool CHOI, P.O.Box 5, ULLEUNG ISLAND, 799-800, Republic of KOREA. QSL cards will be sent to the KARL Bureau after completing the direct request. More info and logs will be available at: http://dxpedition.co.kr/

6W, SENEGAL. Remember Pete, SM5GMZ, is expected to be active from Thies as of April 27th. The callsign will be 6V7-something. He plans to operate for 12 days. Activity will be on all modes and bands, but look for him especially on 80/160m. QSL via SM5GMZ, direct or by the bureau.

BS7, SCARBOROUGH REEF. A team of 18 operators left for Scarborough Reef at 0600z, April 25th, from Hong Kong and arrived at the Reef on the North side just as the sun was setting on April 28th. The trip was slower than expected because of extreme rough seas. As this bulletin was being written, the team reportedly (as of 0300z, April 29th - Local time at Scarborough Reef was 1100 hours in the morning) "has made entry into the lagoon area and are starting to build the operating positions. They are proceeding as quickly as possible under the conditions that are present. The weather is now perfect and for the time being should not hinder work activities as the day moves on." Currently, all the

DXers world-wide wait patiently to work the most wanted DXCC entity. By the time you read this, they should be on the air and active for 9 days. This operation has been in the planning stages for 5 years. We were told that the International Team is led by Bob/W6RGG and includes James/9V1YC, Chen/BA1HAM, Fan/BA1RB, David/BA4RF, Chen/BA4RC, Terry/BA7NQ, Ko/BV6HJ, Eddie/DU1EV, Jun/DU1BA, Tom/ND2T, Joe/AA4NN, Paul/K4UJ, Mike/N6MZ, Mike/K9AJ, Martti/OH2BH, Massimo/I8NHJ and Christian/DL3MBG. The support staff include Tom/N4XP, Don/N1DG, Sam/K5YY, Paul/BV4FH and Jose/DU1JMG. According to their press release: "Scarborough Reef has unique and dangerous attributes and as such we will not have online logs or pilots. All efforts are on keeping our team safe so they can provide a new one to as many hams as possible." OPDX wishes the team best of luck and a safe operation and safe trip back from BS7. QSL via KU9C. For updates, visit the BS7H Web Page at: http://www.bs7h.com
NEWS FLASH (Just before going to print!):PRESS RELEASE #9 (14:00 UTC 29 April): "The BS7H team worked throughout the day in setting up the stations and managed to get one station operational as darkness fell. The first QSO was made at 13:47 UTC. The dangerous environment prohibits any work in darkness, and they were unable to fully provision the one station that is operating. As a result, the CW station now on 14024 does not have enough gas to last the evening, so when you hear them QRT do not panic. At daybreak they will resupply the station as well as complete adding the other stations. We expect the team to be fully operational with all stations by darkness tomorrow.
N4XP and N1DG for the BS7H

C4, CYPRUS. A team of operators (possibly 5B4AIE, LZ2HM and LZ3CQ) are expected to be active as C4I during the CQ WW WPX CW Contest (May 26-27th) as a Multi/? entry. QSL via LZ2HM.

C6, BAHAMAS. Kenny, K2KW, will be active as C6ATA between November 18-26th. Activity will include participation in the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. Outside of the contest he will be active on 160-30 meters, mostly CW. QSL via WA4WTG.

C9, MOZAMBIQUE. Eduardo, CU2AF, is expected to be active as C91AF from Maputo between now and May 6th. He plans to be active only a few hours a day on 80-10 meters SSB, RTTY and PSK31. QSL via his home callsign.

DAYTON HAMVENTION ACTIVITIES.....
SWODXA DX DINNER: This is another reminder of the 22nd annual DX Dinner to be held in conjunction with the 2007 Dayton HamVention ®. It is not too late to order tickets, but time "IS" running out. The dinner will be Friday evening, May 18th, at the Crowne Plaza Hotel, located in Dayton City Center. Their key speaker will be Ward Silver, N0AX. Ward is a well known DXer, contester and author. ICOM has generously donated another IC-756 Pro III as a door prize. In addition, there are many other nice prizes. Full information can be found on their Web site at: http://www.swodxa.com

Please check it out. Come join them for an evening of fun and fellowship. After checking out the web site, further information may be obtained from Jay at: k4zle <at> yahoo <dot> com. Be sure to get your tickets now, sales at the door are done as a courtesy for selling those tickets previously purchased but brought back or sent back at the last minute.

LINE-UP FOR THE CONTESTING AND DXING FORUMS
11:15 p.m. - 1:45 p.m. Contesting
Moderator: Doug Grant, K1DG
Speakers: * Atilano Oms, PY5EG-WRTC2006 Video
* Randy Thompson, K5ZD/PT5Q; John T. Laney III, K4BAI/PW5Y and Charlie Wooten, NF4A (referee of PT5O)- Memories of the WRTC2006 Experience
* Dick Norton, N6AA/PT5K-The 40-Zone Adventures of Phil Goetz, N6ZZ
* Champ C. Muangamphun, E21EIC (PS2T in WRTC2006) - Contesting from Thailand & South East Asia
* Tim Duffy, K3LR/PT5G - The K3LR Multi-Multi Station and Video Notebook

2:00 p.m. - 4:45 p.m. DXing
Moderator: Jay Slough, K4ZLE
Assitant Moderators, Harry Flasher, AC8G & Tom Kissner, W8WQT
Speakers: * John Papay, K8YSE ..KH8SI; Swains Island
* Ramon Jose Perez Brett, YV5EED..YX0A/YX0LIX; AVES Island
* Ralph Bellas Jr., K9ZO..ZL8R; Kermadec Island
* Theodore Mirgliotta, KB8NW; OPDX Bulletin preparation and distribution.
* Glen Johnson, W0GJ.. VU7NR; Lakshadweep Island
* Mike Mraz, N6MZ - The upcoming Scarborough Reef operation.
* Dewey Jones, W8KJ

E51/S, SOUTH COOK ISLANDS. Gary, ZL2IFB, will be on a family holiday to Rarotonga and is expected to be active during his stay sometime at the end of May. He has not received his callsign yet (possibly E51IFB). His activity will include the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/All-Band entry. He states that he will be "using 5W or 100W to wires at the hotel unless a friendly E51 op needs an extra CW contester and perhaps some logistics help from the ZL end." QSL via ZL2IFB or LoTW.

E51/N, NORTH COOK ISLANDS. Sailing couples Mike/KM9D (E51QMA) and Jan/KF4TUG (E51TUG), are expected to be active any day now from Suwarrow Atoll, Northern Cook Islands. QSL via OM2SA.

EF8, CANARY ISLANDS. Operators RD3AF, RZ3AZ, RA9JR and RX3APM will be active as EF8M during the CQ WW WPX CW Contest (May 26-27th) as a Multi-2 entry. QSL via RX3DU.

FS, SAINT MARTIN (Update). John, K9EL, is now active as FS/K9EL whenever possible until May 6th (because he is on a family holiday). He

will be heard this past weekend on 60 meters (5346.5 kHz after 0245z). He is using an IC7000 and verticals for 80-10 meters, and will mainly be on CW and SSB. QSL to his home callsign; bureau QSL cards are OK.

HI7, DOMINICAN REPUBLIC (NA-096). Flavio, IW2NEF, will be active as IW2NEF/HI7 from Bayahibe, June 3-9th. Activity will be limited to no more than 1 or 2 hours a day on HF, on 40-10 meters and VHF 6 meters E-skip. He will use a Yaesu FT-857D w/100 watts max power into a vertical "9M WIRE" for HF and a J pole for the 6M band. QSL via IW2NEF.

IOTA NEWS.....
AS-049. Operators JA1GLE, JA3BKM, JA4JBZ and JR8GZU will be active as homecall/6 from Taira Island (JIIA AS-049-011), Tokara Islands, May 3-8th. Activity will be on the HF bands and 6 meters. QSL via their home callsigns, direct or by the bureau.

EU-008. (Update) Jim, MM0BQI, will be operating as MM0BQI/p from the Island of Shuna (IOSA FL08), in the Inner Hebrides, NW Scotland, now through May 5th. He also mentions that he will have a boat available so other island activations may be possible in the local area. Operation will mostly be on 80/40/30/20 meters, RTTY, SSB and CW. QSL to his home callsign, by the RSGB or direct.

EU-030. Jurgen "Yogi", DB5YB, will be active as OZ/DB5YB from Bornholm Island (BO-001 for the Danish Islands Award, LH-2203) between May 5-18th. Activity will be on 20/17/15 meters SSB. He will also try to be in the DARC VHF/UHF Contest. QSL via his home callsign. For more information, vist: http://www.gellertinloehne.de/db5yb/Islands.html

EU-041. Max, IK2YSE, will be active as IM0/IK2YSE from Caprera Island (IIA OT-012, MIA MIS-006), May 3-5th. Activity will mainly be CW only on 40-10 meters. He will also try 6 meters; watch 50200 kHz. QSL via his home callsign, direct or by the bureau.

EU-054. Operators Raffaello/IT9ATF, Gianni/IT9ORA, Renato/IT9NPR, Pippo/IT9PPG, Giuseppe/IT9RZU and Pino/IT9WDC will be active as IF9A from Favignana Island (IIA TP-011, MIA MI-025, WLOTA LH-1545), May 2-6th. They will also be active between October 26-28th, for the CQWW DX CW Contest. Activity for both operations will be on all bands and modes. QSL via IT9ATF.

EU-055. Operators Henk/PA3FMC and Ruud/PE1BTV will be active from Utvaer Island and lighthouse (ARLHS NOR-264, WLOTA LH-2373). They will participate in the International Lighthouse/Light-ship weekend. Activity will be on all HF bands using SSB and BPSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). More information can be found at: http://la2007.dxpedition.nl

EU-096. Jorn, DG5XJ, will be active as OH1/DG5XJ from Mossala/
Houtskaer Island between June 7-13th. Activity will be on
80/40/20/15/10 meters SSB only, using a Yaesu FT-897 with
100 Watt output to Force 12 Sigma 40XK and perhaps a big
vertical. QSL via his home callsign. More information can be
found at: http://www.managementpsychologie.de/dg5xjiota.htm

EU-128. Jorn, DG5XJ, will be active as DG5XJ/p from Fehmarn Island
(O-01 for the German Islands Award), May 8-10th. Activity
will be on 80/40/20/15/10 meters SSB only, using a Yaesu
FT-897 with 100 Watt output to Force 12 Sigma 40XK or
Spiderbeam. QSL via his home callsign.

EU-138. Bernd, DL8AAV, will be active as SD1B/7 from Aspo Island
between June 18th and July 1st. Activity will be on all HF
bands, SSB only. QSL via his home callsign.

NA-062. Mark, KG8DP, is planning to be active from Grassey Key some-
time after "Labor Day" (September 3rd). He is looking for
operators (possibly from FL). His E-mail address is:
kg8dp@columbus.rr.com

NA-128. Operators Claude/VE2FK and Jean-Pierre/VA2SG will be active
as VE2FK from Ile-aux-Coudres (CISA QC-009) from July
27-29th. Activity will be on 80/40/20 meters CW only and
will include an entry in the IOTA Contest. Some RTTY is
possible. If the propagation and weather is good, they may
stay an extra day to operate this mode. QSL direct to VA2SG.
North America stations are requested to send 1 SASE with 1
USD to VA2SG. Info is available at QRZ.com. Others stations
are requested to send 1 SASE with 2 USDs to VA2SG. More info
can be found at: http://www.qsl.net/va2sg/_sgt/m1m2s3_1.htm

NA-196. (ZONE 2) Operators Pete/VE3IKV and Bill/W4TAA will be
activating Belcher Islands in CQ Zone 2 and the VY0 Nunavut
Territory, using the special callsign VF0X between June 29th
and July 4th. Activity will be on HF and 6 meters, CW and
SSB. QSL via VE3IKV, direct (quick) or by the bureau (slow).

LZ07, BULGARIA (Special Event). Several members of the Bulgarian
Federation of Radio Amateurs (BFRA) will activate the special event
station LZ07KM (LZ Zero Seven KM) from May 1-31st. Activity is to
commemorate the brothers St. Kiril (Cyril) and St. Methodius, founders
of the cyrillic alphabet, and the Bulgarian's Culture and Literatute
Day (May 24th). QSL via LZ1PJ, by the bureau or direct to: Ivan Ivanov,
P.O. Box 15, BG-1324, Sofia, Bulgaria (w/SAE+ 1 IRC-EU and 1 IRC or
2USDs-DX). NO eQSLs. QSL bureau E-mail request via: lz1pj@qsl.net

MMAA DX CONTEST. The Manchester Mineira All American DX Contest (MMAA
DX Contest) will take place between 1500z, May 19th through 2359z, May
20th. The purpose of the contest is to celebrate the anniversary
(birthday) of Juiz de Fora City, obtaining CWJF Awards and promote CW
activity by groups in North/South/Central America. Prefix hunters

should be interested in this event because of the special Brazilian prefixes that get used (such as PQ, PT, PX, ZV, ZW, ZW, ZX, ZY and ZZ). To read the rules and see the 2006 results for the MMAA DX Contest, please visit the following Web site: http://www.powerline.com.br/cwjf

OH2, FINLAND. Look for special event station OH2EURO to be active from May 11-13th. Activity is to celebrate the "Eurovision Song Contest" which wil be held in Helsinki on May 12th. Two YL operators (Anne/OH2YL and Annika/OH2HSJ) will be active on HF bands. They will use mostly SSB with some CW. QSL OH2HSJ via the bureau.

OOOPPPPSSS DEPARTMENT. Small error (typo) in OPDX.806 under "8Y/SI9, SWEDEN (Special Event)." Correct prefix is 8S/SI9.

OX, GREENLAND (Expedition to Greenland of Foundation & Academy "The World Encyclopedia of Travel"). Operators Valery/RW3GW, Andrey/RW3AH, Alexander/RA3MR and Artemiy/UA3MQM will be active as OX/NA1SA from Kangerlussuaq, May 4-10th. Activity will be on all HF bands, CW, SSB, RTTY and PSK31. Special attention will be given to the WARC and lower bands. QSL via NA1SA or the Foundation & Academy "The World Encyclopedia of Travel", P.O.Box 88, Moscow 101000, Russia. All the QSOs will be confirmed automatically via the bureau. ADDED NOTE: The team is also expected to be active as OZ/NA1SA on May 3rd and 11th from Copenhagen, Denmark. During the OX & OZ expedition, a special video (including Radio operation) will be produced!

PACIFIC ACTIVITY (KH2 and KH0). Toshi, JP1IOF, will be active as KH0WW from Saipan Island, Mariana Island between May 10-13th. He will also be active from Guam as WH7P/KH2, May 13-15th. Activity from both places will be on 160-6 meters, CW and SSB (with 500W). QSL via his home callsign, direct or by the bureau.

PJ2, NETHERLANDS ANTILLES (Update/Correction). Carsten/DL6LAU informs OPDX that Joachim/DL8OBQ (not DL8OBO), Jan/DJ8NK and himself will now be active as PJ2/homecall from the island of Curacao (SA-006, WLOTA LH-0942), July 9-16th. They plan to participate in the IARU HF Contest (July 14-15th) as PJ2HQ, and as a Multi-Multi entry. QSL via their home callsigns. QSL PJ2HQ via N9AG or LoTW.

QSL INFO AND NEWS.....
US Postal Service has announced all of the increased postal rates.
See: www.usps.com/cpim/ftp/bulletin/2007/pb22203a.pdf
In addition to an increase in U.S. Domestic First Class rates, international rates also increase and Surface Parcel Post service is being discontinued. It is believed that the loss of surface parcel post will probably effect the cost of forwarding cards via the ARRL Outgoing QSL Bureau (unless they are using m-bag service and even then those rates are increasing significantly).

	old	new
Domestic First Class	$0.39	$0.41 (1 ounce/28 gm)

Canada/Mexico $0.63 $0.69 (1 ounce/28 gm)
Rest of world $0.84 $0.90 (1 ounce/28 gm)

IRC $1.85 $2.00

New rates/prices/services effective May 14, 2007.

9M4SDX QSL STATUS. Tex, 9M2TO, informs OPDX that the direct 9M4SDX QSLs are starting to be answered. All NA DIRECT REQUESTS have been mailed as of April 27th. They are now processing EUs, then JAs and Asia.

CN3A and 5D5A QSL STATUS. As of April 26th, the CN3A direct QSL requests backlog has been cleared, and all the cards are in the mail. New requests for CN3A, from now on, will be answered once a week. The 5D5A direct QSL requests backlog will be processed starting from May 2nd.

Look for R7C/TF QSLs to start coming out in the middle of May. This info is via RW3GW/3.

QSL Manager Alan, VK4AAR, reports: "Due to the rapidly increasing strength of the Australian dollar (or perhaps the US dollar is weakening?) it is vital that DXers are aware that ONE U.S. DOLLAR will no longer buy a stamp to any part of the world from Australia. Lately I have been able to survive by using 'card only rate' postage ... but that is no longer possible. I have noticed that the EURO is more stable and €1.00 (one Euro) will be enough ... but do NOT send coins! Banks only accept and exchange paper money."

QSL Z29KM via EA7FTR.

QSLS RECEIVED IN THE MAIL: 3C0M, 3DX2Z, 3XM6JR, CE1/K7CA , EK8WA, HB9RDE, PJ2/N0KE, R1FJM, TG9NX, TI8II, V31JZ/p, V51AS, VP9/W6PH, XT2C, YI9KT, ZS4U and ZS9X

QSLS VIA THE LOTW: 3DA0ODX, 5B/G3SXW, BX5AA, CT2FUH, DL4MCF, EA1CUB, FP/G3SXW, HH4/K4QD, HV0A, HZ1SK, PJ4/W9NJY, V26B, T40C and V51/DL5XL

SPECIAL EVENT. Look for special event station EN62EN to be active on all bands from Ukraine, May 5-13th. Activity is to celebrate the 62th anniversary of the end of WWII. QSL via UR4EYN: Nick I. Golub, P.O. Box 548, Ordzhonikidze, 53300,Ukraine. Special E-mail address for this event is: en62en@ukr.net

SPECIAL EVENT. look for special event station DL16XXV to be active during 2007 on all bands and modes. Activity is by a local radio club, Duisburg-Huckingen (DOK L16), which celebrates its 25th anniversary (Roman Numerals in the suffix of the callsign). A special DARC local identifier, DOK 25L16, will used May 1st-August 31st. QSL via the bureau and eQSL; info "OK" on QRZ.com. For 20m/SSB skeds, E-mail Johannes, DK8JB at: dk8jb@darc.de

SPECIAL EVENT. Look for Jose, PY2ZA, to be active as ZY2P between May 1-3rd. Activity is to celebrate the visit of the Pope Benedict XVI at

Sao Paulo City, Brazil. QSL Manager is PY2AA.

SPECIAL EVENT. Look for two special event stations to be active to
celebrate the 100th anniversary of Fenerbahce Sports Club (Football
team) between May 1-31st. Operators Tevfik/TA1HZ and Bekir/TA2RX will
be operating as TC100FB from Istanbul mainly on 40/20 meters. Also,
look for operator Mehmet/TA1CM to be active as TA100FB between May
13-27th from Tekirdag. More details about the evnt are available at:
http://www.qrz.com/
Fenerbahce Sports Club Web page at: http://www.fenerbahce.org

VP6, PITCAIRN ISLAND. Tom, ZL2HGR, will be active from here as VP6TD
for about 4 months starting sometime in May. He will operate as his
work permits on PSK31 as the primary mode with some SSB and CW. Tom's
ETA is May 3rd on Pitcairn Island, but do not expect him on the air
immediately. QSL is direct only to his home callsign ZL2HGR. Please
include SAE with IRC or 2 USDs. No bureau please. Logs will be uploaded
to LoTW and eqsl.cc after he returns home.

<<<<<<The VOA is closing HF SW down and going to local "relay agreements"
like radio Sawa.>>>>>

>Do they broadcast via shortwave from any relay stations in the U.S.
>anymore?

Good question! Bethany,Ohio (actually Mason, north of Cincinnati) was torn
down several years ago. The only RF emitted from that site now is WLW 700
KHz.
Greenville is also off the air.
I don't know about Delano, or the other relay station in California.

The Broadcasting Board of Governors (The US government Board that controls
the VOA,RFE,etc) has been consistently cuuting back SW program hours and
abandoning HF SW Broadcasting, in favor of buying time on local AM and FM
stations overseas and the internet.
This is a very stupid thing to do.
It puts you at the mercy of local officials.
If the Local Supreme leader, or Imams, Gaulieter decides to not to relay
your programs on local radio, or to filter out your internet feed, you are
off the air NOW with no recourse or back-up program path

Many third world countries do not have high bandwidth internet connections,
and most third world people don't have any internet connectivity at all.
Basically the BBG is just abandoning large parts of their third world
audience.

HF SW has a large installed base compared to any other transmission means,
and it goes DIRECTLY TO THE PROGRAM RECIPIENT without any other agency
involved in its transmission.

Source record: 2487

Weird.

I got a PSE QSL card direct in the mail today from a JA station. On the back, it says "Please QSL for US county award. Thank you." - and hand-written in is "ILL WINNEBAGO Co.".

Had to go back and double-check. I've only ever operated from Winnebago County, Illinois from the mobile - but the QSO was on 20 meters where I might have worked a JA from the car. But the log shows a mere half-hour later, I worked two VE3s on 160 meters and then a bunch of DX on 80. I've never worked a DX station from the mobile on 80, nor have I ever had a 160-meter antenna for the mobile. My home station is 650km from Winnebago County, so obviously I didn't just go home & work them from the base station!

But the QSO *does* check with my log; I *did* work this JA at the time specified, on the band specified.

So where did he get the idea I was in Winnebago County?

Strange.

(I hope he'll still be happy. There's a lot fewer hams here in Cheatham Co., Tennessee than there are in Winnebago County, Illinois, though between myself and K4RO, Cheatham probably isn't any rarer!)

Maybe you were passed by an RV while you were talking
to the JA, and you said something about Winnebagos? :-)

After a couple of days of listening (and never hearing him) I finally heard
him on 30 meters but all he would work were JA's.

Nope.

Got them May 1, 0030Z on 20 CW and May 2, 0530 on 20 phone.

They had a so-so signal on 40 but no joy there except for JA.

Wes N7WS reporting from DM42, S. AZ

Good signals into WA on 30 this morning, but the pileup was huge, of course.

Only reasonable signals in Michigan on 20 meters from about 1130Z to 1400Z.
Can hear them on 10 MHz and even on 18 MHz, but much too weak to compete
with JA or EU.

Can hear them on 20 Meters most of the daylight hours, but they are too weak
to work. It may be that the big guns have worked BS7H and time will remain
for others. The first day, when things were not fully set up, the JAs were
thinned out somewhat, to the exclusion of others.

Circuit discipline has been poor. People were calling when they should not
do so. I did so a few times when QRM got things confused.

When reporting your experiences, do indicate at least generally where you
are located.

73, Mac N8TT

I have no antennas for those bands, so it was pointless to listen.

The first day they were on 20, I could hear them at ESP level almost
all day. Sometimes LP & SP were about the same.

Some of this is the fault of the DX op. It would be helpful for them
to announce listening freqs and what area they are listening for more
often. Also, calling for W's and answering a DS station causes real
problems.

The SSB op that I worked was excellent. He said he was looking for
W's from 14,204 to 14,210 and I worked him on 210. No need to clutter
50 KHz of the band.

I should add that if I get this card and VU7RG and any of the several
YU6's I worked ever QSL, I will qualify for DXCC Honor Roll. Only
took 49 years of casual DXing. [grin]

My comments re: DX ops where meant to be more generic than specific to
this operation. Considering that they are teetering on top of a rock
they are doing a fine job. I'm sure it is easy to forget that you've
been transmitting for an hour without giving any info when your feet
are wet.

Also, I think that DX ops these days (not specific to these guys)
think that everyone is connected to some damn cluster and is getting
all of their info from spots. Some of us aren't (don't).

>

Yep, especially if your station is modest as is mine. My HB
three-element 20m Yagi at 45' is the biggest antenna I've ever had. I
have wires for 40/80.

If ARRL would ever process my field-checked DXCC app from two months
ago I could submit another one with old QSLs and qualifiy for 5-band.

I'm thinking that my next antenna project will be a 2-meter EME
antenna. Maybe I can get DXCC there before I croak. The problem is,
everyone has gone digital mode and I'm not yet convinced that those
are "real" QSOs [g].

Dear Wes:

I avoided mentioning the role of the DX operator in keeping things orderly and productive. It is my observation that it takes a certain signal to noise+QRM ratio to start to be effective. I also note that many CW stations do not use break-in with the inevitable result of loosing track and transmitting when they should wait.

It took me more than 50 years to arrive at HR. Longevity is a significant asset in the DX game.

My noise level is so low today that I continue to be able to hear BS7H even without a hint of moving the S meter. They are working hard to thin out the pack.

73, Mac N8TT

P.S. I encourage you to work on an antenna for 10.1 MHz.

Agree a lot of it is the Op. I haven't been DX for 20 years But I still
remember being called a lot
of names because I ruled the pileups with an iron fist because if you didn't
it would get out of hand
quick. But if the rules were followed I could run them at a Fairly good
clip. My DX ops were 2 minor and
1 what I would consider major ... /EA7 80-82 in Rota .. would generate
small piles, KG4RS in Gitmo (1979) was my warm up for the biggie .. VQ9RS
(Sept-Dec 1980)... Man those piles were tremendous.

asked:

>Didn't you have an EME antenna 20 years (or more) ago?

Yes. A modest one...four Cushcraft "Boomers". (3.2 lambda boom)

A domestic upheaval in 1983 put me QRT and I've never rebuilt. The
antenna pieces are still around and the 8877 amp is still taking up
space in my tiny hamshack. All I need is ambition.

I did some single antenna tropo and MS from this QTH, enough for VUCC,
but my heart was never into chasing that award and I never even
applied since when it was initiated, they said all my prior QSOs were
no good.

Two-meter stats:

DX:18 States:39 WAC:Yes VUCC:100 sumpthin'

The strongest signals I heard in MI this week were between 8:00am and 9:30am on 20 meters. They are running simultaneously on both CW and phone. My observation is that the CW ops are running a tighter-ship, have fewer traffic cops assisting, and thus more QSOs than the phone guys. CW may be your best bet for the final day {especially a Saturday!}.

Good luck,

Absolute misery in CT. I've heard a few times on 20 CW, but the first time he was being jammed, and the few times the helpful frequency cops and other clutter made him virtually unreadable. My modest antenna (8 ele. log) usually does the job, but I'm not betting the farm on a contact this time around. Conditions just aren't there yet.

Dear Larse (no call sign):

I do not know where in Michigan (or the 8th call area) you are located. After all, Michigan is a very large state.

I am in the central part of the lower peninsula. Only on 20 meters have they had a strong signal. As others have said, CW provides the best chance of a contact. I have found that their signal gets good about 7:45 A.M. EDST (1145Z), peaks about 8:30 A.M. EDST, and becomes weak by something like 9:30 A.M. EDST.

This morning (May 4, 2007), on 20 SSB, the operator spent a lot of time on 3s, 2s, 1s, and then 0s. He called for 9s - almost immediately decided that signals were weak, and left to work EU. All the while, a useful signal was heard on 20 CW.

I suggest starting to listen tomorrow at about 7 A.M. EDST. My expectation is that the farther north you are, the shorter will be the opening.

73, Mac N8TT (my actual present call sign)

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

6W, SENEGAL. Giovanni, IZ2DPX, will be active as 6W/IZ2DPX from Somone City (GL IK14MM), May 12-22nd. Activity will be on 160/80/40/20/17/15/12/10/6 meters. He will use a Kenwood TS-870 and an Icom 706 MGIIs G into 3 elements monobands for 20/15/10 meters and a Titanex VE80 for 160/80/40/17/12 meters. Giovanni will also have a 5 elements Tonna for the 6 meters. There is a possibility he may also activate IOTA AF-045.

QSL Manager is IK2DUW. QSL direct (QRZ.com address) or by the bureau.

A5, BHUTAN. Steve, W7VOA, informs OPDX that he will be active as A52SW from Thimpu, May 17-22nd. Activity will be on 80-6 meters CW/SSB and possibly PSK, as well as 10-meter FM. Steve is a news correspondent based in India covering South Asia and says this will be the first of numerous trips he plans to make to Bhutan over the next several years as A52SW. QSL Manager for A52SW will be K2AU. ADDED NOTE: He is also licensed as 7J1AIL in Japan and 9N7VOA in Nepal.

BS7, SCARBOROUGH REEF. The BS7H DXpedition went QRT as scheduled at or about 0001z, May 6th. As this bulletin was being prepared, their Web page announced that the BS7H team made "NEARLY 45,000 QSOS". The team is probably very exhausted and glad to be out of heat and the salt water sea breezes. The reports throughout the week indicated that Scarborough Reef is an extremely hazardous location to operate from and team members were showing signs of it with fatigue and coral cuts. OPDX would like to thank the BS7H team for their hard work under the harsh conditions they had to endure over the past week, providing many in the DX community with a new DXCC entity which has put many on "Top of DXCC's #1 Honor Roll". QSL via KU9C. For updates, visit the BS7H Web Page at: http://www.bs7h.com
Don, N1DG, BS7H's Webmaster, stated on one of the DX mailing lists that online logs will be available around May 15th.
ADDED NOTE: Listen to an interesting interview with James Brooks, 9V1YC, made via sat phone from BS7H with Wolf Harranth,OE1WHC, at: http://www.dokufunk.org/upload/BS7H.MP3
It gives a good description of what the operators of BS7H had endured.

E51/S, SOUTH COOK ISLANDS (Update). Last week we mentioned that Gary, ZL2IFB (G4IFB), would be on a family holiday to Rarotonga this month. Gary has informed OPDX this past week that he will be there with his XYL from May 24-28th. He also states, "This is a holiday first and foremost, so I'll only be operating casually, mostly during WPX, using 5 or 100W (K2 or TS850 depends on weight allowance) to wires in the trees on the shore. Not exactly competitive! It's more of a chance to scout out the place for future trips, maybe. If/when I'm on, I'll be 100% CW, probably on 30 or 40m around E51 dawn & dusk. If there are any proper contest setups there who want some help, I'll try to slip across for a few hours instead of going it alone." QSL via ZL2IFB or LoTW.

HL7, SOUTH KOREA (Attention PFX Hunters!). Kim, DS5SWL, informs OPDX that the "HL7" is a new prefix being used now on the air for the first time in South Korea. Look for special event station HL7WR to be active to celebrate the 2007 World Rafting Championship held in Sangdong-Ri, Inje, South Korea. The event will be held from June 27th to July 2nd. The special event station has been active since March 30th and will be on the air for 95 days until July 2nd. Activity will be on 80-6 meters, SSB, CW, FM and the digital modes. QSNs show activity has been on 40 and 17 meters over the past weeks. QSL via the manager, DS2UAL, direct or by the bureau. For details on the 2007 World Rafting Championship,

visit: http://www.2007wrc.com

IOTA NEWS.....
AS-049. Operators JA1GLE, JA3BKM, JA4JBZ and JR8GZU will be active as homecall/6 from Taira Island (JIIA AS-049-011), Tokara Islands until May 8th. Activity will be on the HF bands and 6 meters. QSL via their home callsigns, direct or by the bureau.

AS-080. Rocky, HL1VAU, informs OPDX that due to operators personal reasons and transportation problems, the IOTA operation which was scheduled on Anmyon Island (KDN F26) this past weekend was cancelled. Look for the team to schedule other islands on the west coast of Korean peninsula during the summer season again. They apologize to all who were waiting for their activity from the island.

EU-025. Operators Davide/IW9GUR, Angelo/IW9HLM, Andrea/IW9HLM and Andrea/IT9RKR will be active as homecall/p from Scoglio delle Sirene (Sirena's Rock), May 19th. Activity will be on 40-10 meters, depending on the propagation, using one transmitter. QSL via IW9HLM (QRZ.com). This is a new one for the IIA Reference ME-040 (ITALIAN ISLAND AWARD). Visit the following for more details and logs, at: http://www.095dxteam.org

EU-032. Operators Jean-Philippe/F4EEK, Eric/F5LOW, Laurent/F5MNK, Fabrice/F5NBQ and Bertrand/F6HKA will be active as TM0A on Aix Island (DIFM AT023, DPLF PB036, DFCF17013) on the Atlantic French coast, May 12-19th. They plan to have three stations the on air (one FT840 and two IC706). Antennas are: Yagi TH3MK3, vertical on 40m, vertical DX88 (80-10m), delta-loop on 80m, Yagi 2 element on 40m and vertical on 80m. Activity will be on all bands (with priority on the lower bands), CW, SSB and the Digitals modes (RTTY, PSK). QSL via F5OIU; the bureau is OK. Info about Aix Island is available at: http://www.bernezac.com/Aix_uk.htm

EU-043. Operators Tomas/SM6XMY, Rolf/SM6IQD, Sten/SM6MIS, Janne/SM6YOF, Magnus/SM6WET, Rick/SM6U, Pierre/SA6AOA, Daniel/SA6ABU and Christer/SM7YLS will be active as 8S6KOS from Nord Koster Island, May 11-13th. They plan to have three stations on with amplifiers and good antennas. Their main activity will be on 80/40/20 meters SSB. If conditions permit, they will add one station and activate other bands between 80-10 meters (including all WARC bands). QSL via SM6YOU, by the Bureau (preffered) or LoTW/eQSL. Further information, along with an online log search, can be found at: http://sector7.nu/8s6kos/

EU-155. Operators Luigi/IZ4FTE, Michele/IZ4GWE, Davide/IK4UNH, Paolo/I4EWH and possibly others will be active as II4SDP

from Scanno di Piallazza Island (IIA FE-001, MIA MI-104),
May 18-20th. They will be active on 40m (vertical monoband),
20/15/10m (Spiderbeam) and 6m (3 element yagi), CW and SSB.
QSL via IZ4GWE. Further information can be found at:
http://www.iz4gwe.it/ii4sdp

EU-168. Operators Jeff/G4ELZ and Steve/G4EDG will be active from
Flatey Island (Iceland's Coastal Islands) from May 17-23rd.
Their callsigns will be TF4/G4ELZ/P and TF4/G4EDG/P. Look
for activity to be mainly CW on 80-17 meters with 100 watts
into wire antennas. QSL to G4ELZ direct only. Logs will be
uploaded to LoTW.

NA-091. John, VE7JZ, is currently active as VE7JZ/p from Minstrel
Island (BC-028 for the Canadian Islands Award) until August
1st. Activity will be on 40/20/15 meters, SSB and digital
modes. QSL via his home callsign.

NA-122. After 18 years of inactivity, look for Isla Cabras,
Dominican Republic, to be activated with the callsign
HI0C from June 9-17th. Activity will be on all bands and
modes. QSL via ON4IQ (address QRZ.com).

NA-138. Operators Ron/W9QGB, Wilson/W7GAM and possibly some other
St. Augustine ARS members will be active as N4AUG from
Talbot Island during the RSGB IOTA Contest (July 28-29th).
QSL via N4AUG.

OX, GREENLAND. Roland, HB9FMD, will be active as OX/HB9FMD from Hotel
Hvide Falk in Ilulissat, August 17-27th. Activity will mainly be CW
on the WARC bands. QSL via HB9FMD.

9M4SDX QSL STATUS. Tex, 9M2TO, informs OPDX that all the direct QSL
requests for 9M4SDX (1,200 QSLs) have been sent out via the Post
Office on May 5th. He states, "NO MORE QSL cards on my table. QSL
team are waiting for the next postal delivery."

NEED A QSL MANAGER? Buck, G0OYH, is offering his services as a QSL
Manager to any station that can use his help. He is currently the QSL
Manager for C33IU, G0BCO and G4KEE. Buck can communicate via HF,
Echolink, Skype, QSONet, E-mail or Snail mail. Also, he has an
excellent printer for QSL cards. If interested, contact Buck via
E-mail at: g0oyh@blueyonder.co.uk

OLD QSL COLLECTION. Jean Michel, F6AJA, wants to remind everyone to visit the Les Nouvelles DX (LNDX) Web page to see more than 4400 old QSLs in six different albums. This site contains:
- At least, one card, for each 58 deleted DXCC countries (more than 400 QSLs)
- Nearest the totality of current prefixes, disappeared now (more than 1900 QSLs)
- More than 600 QSLs from the Antarctic bases.
- Nearly 230 QSLs from the TAAF (Terres Australes and Antarctiques Fran&#65533;aises).
- More than 100 QSL for the rare French islands such as FK/C, FO/C, and FR/B/E/G/J/T
- More than 200 cards for the old timer with more than 100 countries before 1945.
- A card from the French Department before 1945.
The URL address for the Web site is : http://LesNouvellesDX.free.fr
Some cards are still needed for the collection, and your participation is welcome. Please visit their site and give them your comments by sending an E-mail to: LesNouvellesDX@free.fr

QSLS VIA LOTW: 4U1ITU, 5W0DP, CT1DJE, CY9SS, CY0AA, EA1CUB, EY8MM, FO/KM9D, FS/N0BSH, FY5KE, HS0ZEE, HV0A, JH8SLS, MJ/K8PT, OE2LCM, S79SO, V73NS, ZD8Z and ZL1BYZ

QSLS RECEIVED VIA MAIL: 3XD2Z, 9U9Z, A22/JA4ATV, A35AX, BP100S, CN2A, EK0B, EY8MM, EA9EU, GB4IPY, HZ1AN, J5UAR, JX9NOA, KE0A/KP2, KH8Q, LU1ZAB, LU4ARA/mm, R1FJT, S21XA, UA2FW, VP2MTC, VP2MVG, VP8DJU, XU7DXX, XU7MDY, YW0DX, ZK3RE and ZS9X

RV3, EUROPEAN RUSSIA. Dmitry, RV3ATS, is expected to activate some Russian disticts in the coming weeks as RV3ATS/p. He is also expected to participated the following contests: S.M. el Rey de Espana, Canada Day Contest, VHF Russia Championship, IARU HF Championship, HF Russia Championship and CQWW VHF Contest. Look for him to be active on 40/20/15/10/2 meters SSB from the following references:
GSq: KN-95, KN-84, LN-04, LN-03, LN-13
RDA: KR-43, KR-10,KR-58, AD-06, KB-10
RM: RM-03-51, RM-03-56, RM-03-01, RM-03-36, RM-03-52, RM-03-57, RM-03-50, RM-03-58, RM-03-59, RM-03-60, RM-03-64 and RM-03-53
QSL via RV3ATS, by the bureau (for standard QSL card) or direct (+3 USDs [no SSL, no IRC] to receive a full color 6 sided QSL card). Visit his Web page at: http://www.rv3ats.com
ADDED NOTE: Remember, Dmitry will be team up with RV3ATT and RU3AVF to activate 16 mountains and 3 area regions for the Russian Mountains Award (RMA) and the Russian District Award (RDA) between June 19th and July 21st. See OPDX.805.

SPECIAL EVENT. Various members of the Williamsburg Amateur Radio Club (WAARC) will be active as W4J between May 4-25th to celebrate the 400th anniversary of Jamestown, Virginia, the first permanent English settlement in the New World. On May 12th, a special event station will

operate from Jamestown Island (USIA-VA013R) using the W4J callsign. Contacts with W4J during May 4-25th, will count as a Jamestown Island contact towards the Historic Triangle Award (Jamestown, Williamsburg, and Yorktown) Certificate. QSL via KU4FP.

V6, MICRONESIA. Operator Shoji/JA7HMZ (V63DX) will make a regular trip to Pohnpei (OC-010) together with Takao/JA7AGO (V63GO) and Akio/JA7ZP (V63ZP). They will be active starting on May 21st through May 26th. Their activity will be on all bands and modes. QSL via their home callsigns.

VP2E, ANGUILLA. Jim, WB2REM, will be operating the special 4-letter suffix callsign VP2EREM from Anguilla, June 28th-July 8th. Operation is expected to be on 80-10 meters, CW and SSB. QSL via WB2REM.

YJ0, VANUATU. Hank, W0CZE, and possibly another operator will be active from here between July 13-21st. QSL via W0FF. More details and the callsign should be forthcoming.

Hi There,

The Bishop Druit College Radio Club
http://www.qsl.net/mm0axl/mncarg/bdc.html
situated at Coffs Harbour NSW Australia
is hoping to make IRLP contacts on Fridays
0315 - 0345 UTC. (Lunchbreak)

Perhaps areas with similar time zones in Asia,
like Malaysia, Hongkong, Vietnam, China,
Japan, Korea, and parts of Russia are of
interest to the students.

Contacts will be on IRLP node 6625.

Contacts with similar school electronic/radio
groups are of special interest.

If interested please email:
Gary VK2ZKT gryan@bdc.nsw.edu.au
or
Peter VK2EVB vk2evb@wia.org.au

Actually, this is sporadic-E. We're off to a pretty good start this season, I got two new ones in my FM BCB logs (which already contain 1,400 stations) and the season's still young.

10 meters was open for hours yesterday. And to be on topic(grin) TG9ANF was doing a land-office business. 28.470 if I recall properly.

These openings do occasionally extend to multihop, and trans-Atlantic DX is quite possible on 10, and even 6.

194. Info from Radio St. Helena via A-DX

Ohio/Penn DX Bulletin No. 809

The Ohio/Penn DX PacketCluster
DX Bulletin No. 809
BID: $OPDX.809
May 14, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, ARRL Letter, N1DG, NJ1Q, KF2TI, N2OO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5AC, WW5L, K8YSE, KU9C, ND9M, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, F5NOD, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, I2WIJ, M0OXO, PA7FM, RSGB IOTA, VA3RJ & ICPO and YB0ECT for the following DX information.

** SPECIAL NOTE FROM EDITOR (By KB8NW): There will not be a OPDX Bulletin next week. I will be attending the Dayton HamVention. "IF" I receive a major announcement, I may send something out late Sunday or Monday. However, PLEASE continue to send your DX information. You never know what I might do.... 73 de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 6th/May, through Sunday, 13th/May there were 211 countries active. Countries available: 3A, 3B8, 3C, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E3, E5/n, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J5, J6, J8, JA, JT, JW, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/n, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3X, GUINEA. QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M, is now here and active as 3XY5M. He will remain in Guinea until early June before returning back home. He is there working for the UN's World Food Programme (WFP), but will be active during his spare time between his work there. His callsign 3XY5M has been already approved for DXCC. Activity will be on all bands 160-6 meters (depending on his free time and propagation) using only wire antennas and 100W. Over the past week, Michael was heard on the following frquencies between 1815-1930z: 18155-18160, 14254 and 28435 kHz. QSL via PA7FM direct to: Dennis Robbemond, Loggerhof 11, 3181NS Rozenburg, The Netherland (Please, remember 1 USD does not cover postage anymore. Look for updates and an online log search at: http://www.pa7fm.nl

8Q, MALDIVES (AS-013). Andrew, G7COD, will be active again for the third time as 8Q7AK from the Island of Embudu, South Male Atoll, during the first half of October 2007. Exact dates of operation, frequencies, ...etc, will be announced (probably in September) closer to his activation. Duration of his operation will be approximately 2 weeks. For QSL information and further updates, check QRZ.com. ADDED NOTE FROM G7COD: He reports that all QSLs received from the last 2 activations of 8Q7AK in October 2006 and January/February 2007 have now been mailed direct if IRC or Green Stamps were included. If not included, they have been sent via the Bureau. All QSLs received via the Bureau will be returned the same way. All EQSLs have been responded to.

9U, BURUNDI. Vlad, UA4WHX, is now active as 9U0VB (as May 1st). As always, the length of his stay is unknown. Activity over the past weekend was on 30/20/17/12/10 meters CW/SSB. QSL via his home callsign, direct or by the bureau. It is recommend to send direct cards after his travels.

ANTARCTIC CHALLENGE UPDATE. Gil, F5NOD, informs OPDX that the Antarctic Challenge scores are up-to-date at: http://f6kdf.ath.cx/f5nod/index.htm

BS7, SCARBOROUGH REEF. Members of the BS7H team are reportedly all back home now. It seems that the team travelled from Scarborough Reef to Manila, The Philippines, and not Hong Kong as first thought. All the international operators were dropped off there, but the six Chinese operators continued on aboard the ship heading back to Hong Kong. This past week details of band statistics were released. Here are the QSOs per band: Band SSB CW RTTY

160m	0	54	0
80m	117	217	0
40m	509	3039	0
30m	0	3374	0
20m	10370	11434	54
17m	3277	3497	0
15m	3803	1986	268
12m	402	474	0
10m	841	724	0

Total 19319 24799 322

Don, N1DG, reported that there were NO QSOs made with NA on 160, 80 and 10 meters. Online logs and two batches of pictures also became available this week at the following Web pages:
Logs http://www.scarboroughreef.com/srlog.html
http://dx.qsl.net/logs/index.html
Photos http://www.scarboroughreef.com/srphotos.html
http://picasaweb.google.com/paul.pescitelli/K4UJScarboroughReef
PLEASE NOTE WHEN QSLING TO KU9C. Remember postage in the U.S. will be going up on May 14th (First Class Stamp will be 41 cents).
DXCC NEWS: Bill Moore, NC1L, ARRL DXCC Manager, announced that the "BS7H Scarborough Reef 2007 operation" has been approved for DXCC credit.

C4, CYPRUS. Marios, 5B4WN, will be active as C4W during the CQ WW WPX CW Contest (May 26-27th) as Single-Op/All-Band entry. QSL is via the LoTW. QSLs via the Bureau is also available via the "self-QSL" button on: http://www.5b4wn.com

DAYTON ACTIVITIES.....
FROM THE ARRL LETTER - "JARL operating award checking available at Hamvention": A representative of the Japan Amateur Radio League (JARL) will be available at Dayton Hamvention May 18-20th to check applications for JARL awards and to issue certificates for certain awards. Former JARL executive director and renowned DXer Masa Ebisawa, JA1DM, will be at Booth 483 in the Ballarena of Hara Arena, near ARRL EXPO 2007. Applications for other JARL awards can be checked at the JARL booth. Masa also will answer questions on JARL activities as well as reciprocal licensing in Japan.

DXCC Dayton Hamvention Card Checking (Just A Reminder!) - Bill Moore, NC1L, ARRL DXCC Manager, reports: "DXCC staff and approved card checkers will be checking cards at the Dayton Hamvention from May 18-20th. Checking will be done during all operating hours of the convention. Following these simple steps will help make processing go quick and easy:
There is a 120 card limit per applicant. Larger applications may be checked as time is available after all other applications are finished. (No larger applications will be checked on Sunday). If some cards cause the application to exceed 120 QSOs, this is OK.

Cards MUST be sorted first by band, then by mode. Cards with more than one QSO should be placed together at the end of the application. Do not sort cards alphanumerically. Applications not properly sorted may be returned for proper sorting.

Prepare all paperwork ahead of time. The record sheet is required when submitting cards at Dayton. Use the latest application form available at www.arrl.org/awards/dxcc. Fill in ALL fields on the record sheet.

Write clearly and concisely.

Do not use forms with fields other than those that appear on the standard ARRL form.

There are no restrictions on what can be checked. (Cards for 160 meters and deleted entities are OK.)

DXCC will not bring applications with cards back to ARRL HQ. All cards must be checked and claimed in Dayton.

For those submitting a hybrid application (LoTW and paper credits combined), the LoTW application must be in the LoTW system by 7:30 AM Monday morning, May 21st. If you do a hybrid application, you must note on the LoTW application that a paper application is being made. You must also note on your paper application that you will be submitting a LoTW application by checking the appropriate box.

Applications for other ARRL awards, such as WAS, VUCC, WAC, can be checked.

When you arrive at the booth, please take a number and stay near the booth. When your number is called go to the next available checker. Your cards will be checked while you wait and they will be immediately returned to you.

If you need a personal copy of the application and record sheets please handle this before you arrive. DXCC cannot make copies for you on site.

Please see rule 15 for the latest fees. Acceptable payment methods are: Major credit card, check (by USA bank only), money order (both USA and international), cash (US dollars only). DXCC cannot bill you.

Following these steps will allow us to process your application quickly and in minimal time. Contact Bill Moore, NC1L at dxcc@arrl.org with questions."

DX HOSPITALITY SUITE. The Northern Ohio DX Association (along with Janeen Hire, W8ZET) will once again sponsor a Hospitality Suite at this year's Dayton Hamvention. It will be in Suite 1011 on the 10th Club Floor of the Crowne Plaza Hotel (old Stouffers) on Thursday, Friday and Saturday evenings (Look for signs!). All DXers/Contesters are welcome. Munchies and refreshments will be avaialble. Come and meet the members and friends of NODXA.

DR5, GERMANY. Operators DK3QZ, DL1EKC, DL3QQ, DL3HAH and PA0R will be active as DR5L during the CQ WPX CW Contest (May 26-27th) as a Multi-2 entry. QSL via DK3QZ.

DR80, GERMANY. Look for operators DK3DM and DJ2QV to be active as DR80AMA during the CQ WPX CW Contest (May 26-27th) as a Multi-Single entry. Activity is to celebrate SES's 80 years of DL ham radio. QSL

via DK3DM by the Bureau.

E51/N, NORTH COOK ISLANDS. Sailing couples Mike/KM9D (E51QMA) and Jan/KF4TUG (E51TUG), are now active from Suwarrow Atoll (OC-080), Northern Cook Islands. Operator was heard saying they would be active until May 21st. Most of the activity seems to be on 20/17 meters. QSL via OM2SA.

EE8, CANARY ISLANDS (AF-004). Operators Girts/YL2KL, Oleg/YL3DW, Andy/YL2GQT and Tom/YL2PP will be active as EE8A during the CQ WW WPX CW Contest (May 26-27th) as a Multi-? entry. QSL via YL2KL.

GP3/GP8, GUERNSEY (EU-114). Chris, M0DOL, will be active from the Island of Guernsey (in and around the island) using the special callsigns GP8LED/P and GP3GWB starting on May 26th for one week. Operators Trevour/M3PNQ, Tom/2E0TSW and some members of the Northampton Radio Club will be joining him. Activity is expected to be mainly on 2, 4 and 6 meters.

HAM-COM DX DINNER BANQUET. In assocation with the Ham-Com Hamfest (see http://www.hamcom.org), the Lone Star DX Association DX dinner will be Friday, June 8th at 6:30 p.m., at the Southfork Hotel at 1600 North Central Expressway (U.S. Highway 75) in Plano, Texas. Their featured speaker will be Dr. Glen Johnson, W0GJ, who will present an Audio/Visual program on the VU7RG/VU7MY DXpedition to the Lakshadweep Islands earlier this year (http://www.vu7.in). Bharathi Prasad, VU2RBI, and her daughter, Ms. D.S. Mahathi, VU3DSM, who both operated from VU7MY, will be special guests at the dinner. The tickets are 36 USDs/person and are available online at www.hamcom.org or may be purchased by sending a check or money order to: Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. The chances of winning a major door prize are quite good because they have thousands of dollars worth of prizes from many vendors including Kenwood, Yaesu, ICOM, Alpha Power, Tennadyne, W2IHY Technologies, Heil Sound, Texas Towers, The Southfork Hotel, and many many others. Act now!!! Ticket sales end on June 1st.

HP2/3E2, PANAMA (IOTA Op?). Two members of the Uruguay DX Group, Bert/CX3AN and Mario/CX4CR, will be traveling to Panama, June 22-28th. Operators will sign as HP2/homecall (or possibly as 3E2/homecall) from San Blas Archipielago (NA-170). Activity will be on 80-6 meters CW/SSB using 500w into a vertical/wires antennas. They informed OPDX that this Caribbean DXpedition is to celebrate Bert becoming "DXCC NUMBER ONE" after working BS7H. This will be their 15th country from five different continents they activated over past 20 years.

IOTA NEWS.....
AS-043. Operators JA1UNS, JI1PLF, 7N1GMK, 7L4PVR and 7N4VPS will be active as homecall/1 from Hachijo Island (JIIA AS-043-004, WLOTA LH-0446), JA1 South Izu Group, May 25-28th. Activity will be on the HF bands, 6m, CW and SSB. QSL via their home callsigns, direct or by the bureau.

EU-060. Operators SV2FPU, SV2HNZ, SV2HOB, SV2HPP, SV2HPY, SV2HRT, SV2HSV and SV2GNQ will be active as SY8WT from Skyros Island between June 16-22nd. This is the 4th most wanted European island. QSL via SV2HPP, by the Bureau or direct.

EU-108. Operator Jim, MM0BQI, will be active as MM0BQI/p from the Isle of Lunga, Treshnish Isles (IOSA NH-17, SCOTIA DI-09), September 1-3rd. Activity will be on 80-15 meters, mainly SSB. QSL via his home callsign (QRZ.com).

EU-112. Operators Alan/G0RCI, Gordon/G3USR and possibly other members of the Grantham ARS will be active as GC0GRC/p and GS0GRC/p from Eilean an Tighe (House Island), Shiant Islands (IOSA OH-18, SCOTIA DI-24), July 10-13th. They plan to have 2 stations on the air on all bands 80-6 meters, SSB only. QSL is 100% via the bureau.

EU-120. Members of the Wakefield & District Radio Society will be activating Holy Island Lindisfarne from Saturday, July 21st to Sunday, July 22nd, 24 hours special dispensation from the National Trust only. The callsigns will be GB1HI and GB5HI. Contacts will also count for "Holy Island Guille Lighthouse" (Ref.no. ENG-224 and Admiralty number A2816.5). The Worked All Britain (WAB) reference is NU-23 Northumberland. The IARU Locator is IO95CQ. QSLs for ALL contacts are via Charles, M3ZYZ, direct (QRZ.com) or by the Bureau. E-mail Bureau requests are welcome (see QRZ.com).

EU-145. Francois, ON4LO, will be active from Faro Island (AL-006 for the Portuguese Islands Award), June 14-27th. Activity will be on 40/20/15/10 meters SSB and PSK. QSL via his home callsign, bureau preferred.

OC-177. Five members of the Organisasi Radio Amatir Republik Indonesia (ORARI) will be participating in 2007 CQWW WPX CW Contest (May 26-27th) from Ayer Island in the Jakarta Bay. Operators mentioned are: Pri/YB0ECT, Dudy/YB0DPO, Jo/YC0LOW, Andry/YB1TX and Ray/YD0NQW. Activity will be on 160/80/40 meters, 80m and 160m bands, as a Single-Operator category. This IOTA reference is very seldom activated for IOTA chasers. Look for RTTY and PSK31 activity on high bands. The operators will be signing with their home callsigns with a specific designator "/0", example: YB0ECT/0. Please send QSL cards to the Orari Bureau and/or direct.

LX, LUXEMBOURG. Operators Lars/DF1LON, Carsten/DL1EFD, Hein/DL2OBF, Jurgen/DL4SDW, Bernd/DL8SCG and Philippe/LX2A will be active as LX7I during the CQ WW WPX CW Contest (May 26-27th) as a Multi-2 entry. QSL via LX2A.

MX0, ENGLAND (CASHOTA Activity). Members of the Craven Radio Amateur Group (CRAG), from the Yorkshire Dales, UK, will be taking part in a CASHOTA (Castles and Stately Homes On the Air) activation on May 20th

between 0900-1600z. They will be operating from the prestigious Broughton Hall, near Skipton (Locator IO83WW, WAB Square SD95YSN), using the callsign MX0BCQ/P on HF and VHF. For QSL information, please check QRZ.com. Visit the CASHOTA Web page at: http://www.cashota.org/

OX, GREENLAND (6/2 meters, EME). Operators Ole/OZ7OX (OX3OX) and Bo/OZ1DJJ (OX3LX) are planning a combined work and vacation DXpedition to here and want to activate grids squares GP47TA and GP36DW. Activity will be on 6/2m EME. They plan to use their OX callsign or maybe OX2A or XP1AB. Activity is to take place in July (possibly July 7-25th). More details are forthcoming.

QSL INFO AND NEWS.....
3 STEVES QSL CARDS/CERTIFICATES STATUS. Steve, KF2TI, informs that the QSL cards and certificates for the "3 Steves" operation from St. Croix, USVI, last year are now starting to go out in the mail. The callsigns were N2IFA/KP2, KB2ENF/KP2 and KF2TI/KP2.

CN3A AND 5D5A QSL STATUS. Bob, I2WIJ, reports that as of May 11th, the backlog of all direct QSL requests for CN3A and 5D5A have been fully cleared. He states, "Thanks to my wife for her 'outstanding' help as secretary, with a major help in keeping everything clean and ordered.

VU7RG/VU7MY QSLS. Bob Schenck, N2OO, states, "...be patient folks. It'll probably be a few weeks or more yet." This is because the 3 QSL Managers for the VU7RG/VU7MY operation will still have to "process" the cards when they DO arrive from the printer.

QSLS VIA LOTW: 4X4PP, 4Z1JS, CT1DJE, DF2LH, DJ1YFK, DR1A, EA1CUB, EA1NE, FP/G3SXW, FY/F5IRO, G4DJJ, HK6PSG, JH8SLS, KP4SAT, MM0BSM, OH6NIO, PJ4/OE2VEL, TF4M, TO5A and UA3TCJ

QSLS RECEIVED VIA MAIL: 3B9/G3TXF, 5W0RE, 9M4SDX, BX5AA, C56NN, EF8M, HC8N, HH4/K4QD, HH7/N3BNA, J5UAR, JX9NOA, KH0/K3UY, PJ7/DL1VWR, PZ5ZY, S92FM, SV5/DJ7RJ, V63UA, VK9DNX, YK1BA, YL7X and ZK3RE

SPECIAL EVENT. Members of the Indianapolis Motor Speedway Amateur Radio Club will be signing W9IMS to celebrate the 91st running of the Indianapolis 500, between May 24-28th (1500-0300z). Activity will be on the following suggested frequencies: 21340, 14240, 7240 and 3840 kHz. A certificate and QSL are available. For information, please visit: http://www.w9ims.com

SPECIAL EVENT. Members of the Boeing Employees AR Operators North Society will be active using the special callsign W7FLY to celebrate the rollout of the Boeing 787 Dreamliner, July 8-9th. Activity will be on CW 7050 and 14050, and on SSB 7240 and 14240 kHz. QSL via KN7T: Mark McLauchlin, 2625 176th St SE, Bothell, WA 98012. More information can be found at: http://www.w0ma.org

TI6, COSTA RICA. Operators Orrin/K9KEJ and Bill/K5YG will once again be active from the east coast of Costa Rica as TI6/K9KEJ and TI6/K5YG.

Activity will be limited because they are there on a fishing trip. Activity will be on 40/20 meters SSB. QSL via their home callsigns.

UK SIX METRE GROUP CELEBRATES 25 YEARS. The UK Six Metre Group (UKSMG) is happy to announce its 25th birthday. It will be celebrated with a series of special callsigns in several different countries. It will start in the Netherlands with the special callsign PA25UKSMG between May 19th and June 3rd. Activity will be active on all bands from 160-2 meters, including an entry in the CQ WPX CW Contest (May 26-27th). Also, look for several special callsigns to be active during the UKSMG 6m Contest during the first weekend of June. Working them will give you extra bonus points during that contest. Furthermore there will be a special 25 years anniversary award. Also, look for TM6MG to be active starting June 1st for 2 weeks from France on several bands, but the focus will be on 6m. There will be a few other callsigns to be announced later, but they have not yet been confirmed. QSL all of these special callsigns to PA7FM. More information can be found on the UKSMG eb page at: http:/www.uksmg.org
Online logs for these operations will be available at the following Web page once they start: http://www.pa7fm.nl

VF0, CANADA (Zone 2 and IOTA Op). Operators Pete/VE3IKV and Bill/W4TAA will be activating the Belcher Islands (NA-196) in CQ Zone 2, VY0 Nunavut Territory, using the special callsign VF0X (authorized by Industry Canada) between June 29th and July 4th. Activity will be on the HF bands and 6 meters, CW and SSB. QSL via VE3IKV direct (quick) or by the bureau (slow).

VP9, BERMUDA (NA-005). Paul, G4BKI, will be active as VP9KF from Hamilton Parish, from May 15th to June 5th. Activity will be CW only, but will include the CQ WW WPX CW Contest (May 26-27th). QSL via W4/VP9KF: Paul Evans, 6809 River Road, Tampa, FL 33615. Visit his Web page at: http://vp9kf.com/

VQ97, CHAGOS ISLANDS (Attention PFX Hunters!). OPDX was informed by Jim, VQ9JC (ND9M), that he has received written permission to use the special callsign "VQ97JC" from May 23rd through June 5th. The special indicator "7" added to the prefix simply reflects the number seven in the year 2007. Jim was informed by Harmon (a.k.a. Dale), W4QM/VQ9QM, who was "Mr. VQ9" for 15 years, this is the first time a special prefix was authorized to be used there. Look for Jim to use this special prefix as much as possible during those two weeks. He states, "I am on a work assignment while at Diego Garcia, and as such I can only be on the air after work which normally means 1200-1730z. That said, I'm hoping to make the VQ97 prefix available at least 10 evenings during that period; with luck, there may be more. My work schedule includes weekends, so a pretty big bite is already taken out of the CQ WPX Contest timeframe. But I'm expecting to stay overnight at the shack both nights during the contest so that I can put in some time around the local sunrise (2300-0100Z) as well. I'll be SOAB during the contest." QSL via ND9M, direct or by the bureau. QSL cards will not be

printed at least until after his return home to Florida in August.

YCCC CELEBRATES 30th ANNIVERSARY. Members of the Yankee Clipper Contest Club (YCCC) will celebrate its 30th anniversary by signing their call-sign/30. Activity is a way to positively promote the YCCC on the air. A special certificate will be available after confirming contacts with at least 10 members. For more details, visit the YCCC Web page at: http://www.yccc.org/Articles/30th%20Anniversary/index.htm

Just checked the DX Watch cluster and they are still listed as QRV on
5-14-07 eight days after they were supposed to QRT. Are they still there?

Hi There,

The Bishop Druit College Radio Club
http://www.qsl.net/mm0axl/mncarg/bdc.html
situated in the Mid North Coast of NSW Australia at Coffs Harbour are
looking forward
to making Local or DX IRLP contacts on Fridays 0315 - 0345 UTC.

Contacts will be on IRLP node 6625 via local repeater VK2RDO on 146.650Mhz.

The young people in the club have been experimenting with building simple FM
radio recievers, and have been contemplating the design of plasma balls
using ordinary light
globes and car spark coils.

Contacts with interested parties or similar school electronic/radio groups
would be great but unfortunately the club only has limited time during the
local
lunchtime period.

If interested and can help arrange a contact please email:

Gary VK2ZKT gryan@bdc.nsw.edu.au

or

Peter VK2EVB vk2evb@wia.org.au

Ohio/Penn DX Bulletin No. 810

The Ohio/Penn DX PacketCluster
DX Bulletin No. 810
BID: $OPDX.810
May 28, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Web Page, K1XN & GoList, NJ1Q, K2DBK, W2VU, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, NN7A, K8YSE, KU9C, NA9N, Pete's-DX-Newsdesk, 9M2TO, DK8JB, DL7MAE & The DX News Letter, F4EUN, F5NQL & UFT, F6AJA & Les Nouvelles DX, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, JA7QVK, OK1DOT, ON7RU, RSGB IOTA, SP9MRO, SV0XAW, TA3YJ, VA3RJ & ICPO, VE3LYC, VE3ZIK and VE3ZZ for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQ WW WPX CW Contest announcements. For more details and the complete set of rules, visit the Web page:
http://www.cq-amateur-radio.com/WPXRULES2007v332407.pdf
Also, remember to visit Bill's, NG3K, CQWW WPX CW Contest listing of stations that are expected to be active at:
http://www.ng3k.com/Misc/wpxc2007.html

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 18th/May, through Friday, 25th/May there were 215 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5W, 5X, 5Z, 6W, 6Y, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/n, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V6, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, Z7,

ZA, ZB, ZD7, ZD8, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA ISLANDS (DXpedition Update). Team leader, Witek, SP9MRO, announced in a press release that the Polish DXpedition to Agalega Island, which was rescheduled to take place between June 6-18th, has received the new callsign 3B6DX for their operation. The DXpedition schedule has also been announced. Here are the details:
* The main group will start the trip at Okecie airport in Warsaw on Monday morning, May 28th at 8:30 AM.
* They will be landing in Mauritius on Tuesday morning at 6:10 AM, May 29th.
* Tuesday through Friday - The team will be busy in Mauritius.
* Early Saturday morning, the team will start their trip to Agalega Islands by boat.
* They are expecting to see Agalega's land on Tuesday, June 5th
* Just after their arrival on Agalega, they will start building their antennas.
* They expect to be active from 3B6 the morning of June 6th at the latest.
* They will start to head back to Mauritius on Monday, June 18th.
* The team will have a flight on Sunday evening back to Poland.
* The DXpedition team will be back at Okecie airport in Warsaw on Monday, June 25th at 14:15.

Witek, SP9MRO, states, "We would like to thank all of you who donated to us once again. All of those who would like to support the DXpedition are kindly asked for their generosity. Postponing the expedition let us solve 90% of the problems that aroused before, but we still have more problems ahead of us. That is why all, even the littlest, donations are very important for us, and we would like to thank you for all of them!" For more details and updated, visit: http://3b6.godx.eu/

3V, TUNISIA. Alex, GM0DHZ, informs that he will be here for a 5 week holiday starting November 19th. He will be active with operators from 3V8SS. This will be a holiday-style operation with activity on 80-10 meters and possibly 160m, CW and SSB. QSL via info on QRZ.com.

4L, GEORGIA. Vaho, 4L8A, will be active during the CQWW WPX CW Contest (May 26-27th) as a Single-Op/Single-Band (20m)/High-Power entry. QSL via DJ1CW, by the Bureau or direct.

4L, GEORGIA. Mamuka , 4L2M, will be active during the CQWW WPX CW Contest (May 26-27th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via EA7FTR.

4O, MONTENEGRO (ITU Assigns A Prefix). Montenegro became a new country (DXCC entity) last June, and has been waiting for the ITU to assign an Amateur Radio callsign block since then. The International Tele-

communications Union (ITU) did not want to give Montenegro an entirely new prefix, so it required the states of Montenegro and Serbia to agree upon one or two prefixes from the five existing prefixes (4N, 4O, YT, YU and YZ) assigned to the former Serbia-Montenegro. An agreement was reached on May 11th, and the prefix "4O" is now listed as Montenegro's prefix. Montenegro stations will be using the prefix block 4O0 through 4O9. Serbia stations will continue to use YT and YU prefixes, but the ITU has taken 4N and YZ prefixes for future reassignment. DXers are reminded to please update their logging programs.

5B, CYPRUS. Nick, G3RWF, will be active as 5B/G3RWF near Polis, June 2-30th. This will be a holiday operation, so he will operate SSB, RTTY and PSK during his spare time.

5D, MOROCCO. Operators Stefano/IK2QEI, Ahmed/CN8WK, Bacha/CN8WW and Andy/YO3JR will be active with the special callsign 5D5A during the CQ WW WPX CW Contest (March 26-27th) as a Multi-? entry. QSL via I2WIJ.

7X, ALGERIA. Look for 7X0RY to be active during the CQ WW WPX CW Contest,(May 26-27th) as Single-Op/Single-Band (80m) entry. QSL via the QRZ.com address.

9M2/9M4, WEST MALAYSIA (Special Event, Contest and IOTA Op). Tex, 9M2TO, informs OPDX that members of the Malaysian Amateur Radio Transmitter Society (MARTS) will use their special contest callsign 9M4DXX during the CQ WW WPX CW Contest (May 26-27th) as a Multi-Op/ Single-TX entry. The MARTS contest team will be active from Penang Island (AS-015). QSL via the 9M2 Bureau or direct to 9M2TO. Visit their Web page at: http://9m4dxx.marts.org.my

CQ PRESS RELEASE. The following is a NEWS RELEASE came from Richard Moseson, W2VU, Editor of CQ Amateur Radio:
EMBARGOED FOR RELEASE: Saturday, May 19, 2007
CQ Announces Hall of Fame Inductees for 2007 (Dayton, Ohio - May 19, 2007) - CQ Amateur Radio magazine today announced this year's inductees into the CQ Amateur Radio Hall of Fame and the CQ Contest and DX Halls of Fame. There are 15 inductees into the Amateur Radio Hall of Fame and three new members each of the DX Hall of Fame and the Contest Hall of Fame.

CQ Amateur Radio Hall of Fame
The CQ Amateur Radio Hall of Fame honors individuals who: 1) Whether licensed hams or not, who have made significant contributions to amateur radio; and/or 2) As licensed amateurs, have made significant contributions either to amateur radio, to their professional careers or to some other aspect of life on our planet. This year's inductees are, in alphabetical order:

Catona, Phillip W2JAV (SK) - RTTY pioneer, inventor of the modern-day terminal unit
Flaherty, Paul N9FZX (SK) - co-inventor of Alta Vista search engine
Geloso, John I1JGM, Italian amateur radio manufacturer

Griffin, Michael, NR3A - NASA Administrator
Hillier, James ex-VE3SH (SK) - co-inventor of scanning electron microscope; former head of RCA Labs
Johnson, Herb W6KQI (ex-W7GRA) - Founder of Swan Electronics
Lewallen, Roy W7EL - Developer of EZ-NEC antenna modeling software
Lindquist, Rick N1RL - As ARRL Senior News Editor, he has been responsible for the past decade for keeping the amateur community updated on new developments, via the ARRL Letter and the ARRLWeb news pages.
MacDonald, Copthorne VY2CM - Developer of slow-scan TV (SSTV), author, philosopher
McArthur, Bill KC5ACR - Astronaut who set various ham radio operating records from the International Space Station, including being the first person to complete WAS (Worked All States), WAC (Worked All Continents) and DXCC (DX Century Club) from orbit.
Miller, Don W9NTP - SSTV pioneer; developed (with KB9VAK) first high-definition digital SSTV protocol and program.
Tristao, Louis KG6VY (SK) - Inventor of crank-up tower
Tucker, Durward J., W5VU (SK) - Helped promote and popularize RTTY in the 1950s; oilman and Managing Director of WRR Radio, Dallas
Weiss, Adrian (Ade) W0RSP (ex-K8EEG) - leading proponent and promoter of QRP (low-power communications) in the 1970s and 80s
Winder, Farrell, W8ZCF - Transmitted first SSTV signals to MIR space station. Active with MAREX (MIR Amateur Radio EXperiment) and Suitsat-1 planning teams

CQ DX Hall of Fame
There are three new inductees this year into the CQ DX Hall of Fame:

Roger Western, G3SXW, and Nigel Cawthorne, G3TXF, were nominated together. Roger and Nigel are avid DXpeditioners and have activated many rare locations with their two-man, CW-only, expeditions. To date, Nigel has operated from 44 DX locations, while Roger has been on the air from 37. Nigel owns what may be the world's largest collection of QSL cards. In fact, he recently completed an addition to his home solely to house his QSL collection! In addition to his trips with Nigel, Roger is a founding member of the "Voodudes" contest DXpedition group, a member of the CQ Contest Hall of Fame, and an international adviser to the CQ World Wide DX Contest Committee. He has also authored two books, Up Two: Adventures of a DXpeditioner and Contesting in Africa: Multi-Multi on the Equator.

Mauro Pregliasco, I1JQJ, is co-editor (with his wife, Valeria, IK1ADH) of 425 DX News, the leading DX bulletin in Europe and one of the most popular in the world. The newsletter is published online in both Italian and English, with some 15,000 subscribers to the English version alone. Mauro is also a very active DXer, holding most of the

major DX awards, sits on the Radio Society of Great Britain's IOTA committee, and is Vice Secretary General and HF Award Manager for ARI, the Italian national amateur radio association.

CQ Contest Hall of Fame
The CQ Contest Hall of Fame inducts three new members this year as well:

Fred Capossela, K6SSS, is a past CQ World Wide DX Contest Director and, for the past 40 years, has maintained and annually updated the CQWW All-Time Records List. It was under Fred's direction that the CQWW became the world's most popular and most professionally-run amateur radio contest. The first contester to run the contest, Fred introduced the rigorous verification standards for contacts and multipliers, developed the All-Time Records List, set the current contest dates and introduced the Band-by-Band top scorers' matrix. It was Fred's dedication to running the contest in a fair, honest and professional manner that laid the foundation for the CQWW's current stature.

Phil Goetz, N6ZZ (SK), has the distinction of having operated the CQWW DX Contest from each of the world's 40 CQ zones - one of only two amateurs ever to accomplish this feat (Dick Norton, N6AA, is the other) - and missed operating in the CQWW only three times in the 47 years between 1960 and 2006. Phil was a member of the first ARRL Contest Advisory Committee and served three separate times on the CQWW Contest Committee. In addition, he was a judge at every World Radio Teamsport Championship (WRTC) event, except in 2002, when he was a contestant. Phil became a Silent Key earlier this year.

Tom Taormina, K5RC, has been contesting since 1959, when he entered the ARRL Sweepstakes and made a whopping 35 contacts. His scores improved dramatically since then, and he has held several records and won several national and divisional championships. He has also mentored a string of world-class contesters, who have themselves gone on to record-setting performances. Tom helped develop the Multi-Two category in the ARRL DX contests and helped create the North American QSO Party. He is also a past member of the CQ WW Contest Committee and a past Editor of the National Contest Journal. Tom is also active in DXing and public service communications.

DD4, GERMANY. Zik, VE3ZIK, a member of the "Contestgroup IONOSQUEEZERS" (OV Bonn) will be active as DD4B during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/Single-Band (possibly 20 or 15m) entry. QSL via DL3PS, by the DARC QSL bureau.

EA8, CANARY ISLANDS. Franky, ON7RU, will be active from the Gran Canaria (AF-004) as EA8/OQ7R, June 4-13th. Activity will be on all bands 80-10 meters, CW, SSB and RTTY. He will use a FT990 and wire antennas. QSL via ON7RU, by the bureau or direct. ADDED NOTE: Frank states that QSL cards from last year's SV8/OT0A operation are being processed.

ER0, MOLDOVA. Look for Serge, UR5FEO, to be active as ER0FEO during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/All-Band entry. QSL via UU0JM.

FO/C, CLIPPERTON ISLANDS. It was announced at the Dayton DX Dinner Banquet by Pete, N0FW, that a team lead by Bob Grimmick, N6OX, would be going to Clipperton Island sometime in early March 2008. More details will be forthcoming via John Kennon, N7CQQ.

G, ENGLAND (Possibly France). Jim, KR1S, will be in the UK for a few weeks, starting possibly this week. He hopes to do some portable QRP operating from Windermere and London, as well as Amsterdam and Paris.

HH, HAITI. Yannick, F6FYD, is now here on business for one year. He has received the callsign HH2FYD and hopes to be active during his free time. QSL via F6FYD.

HZ, SAUDI ARABIA. Thomas, PY2ZXU/SM0CXU, will be active as HZ1EX from HZ1GW East of Medina during the CQ WW WPX CW Contest (May 26-27th) as Single-Op/All-Band entry (80m not allowed!). QSL via SM0BYD.

IOTA NEWS.....
EU-001. Alex, GM0DHZ, will be active as SV5/GM0DHZ from KOS Island for 2 weeks starting June 7th. Activity will be on CW and SSB. This will be a holiday style operation.

EU-060. Members of the White Tower DX team will be active from Skyros Island between June 12-22nd. Operators mentioned are: SV0XAW, SV2FPU (WTDX Team Leader), SV2HNZ, SV2HOB, SV2HPP, SV2HPY, SV2HRT, SV2HSV and SV2GNQ. The DXpedition team will be using the special callsign SY8WT. Activity will be on 160-6 meters on CW, SSB, RTTY and PSK31. QSL via SV2HPP. For more details on this DXpedition, visit the White Tower DX Team Web page at: http://www.whitetowerdxt.com

EU-061. Operators Udo/DL1DWR, Lutz/DG4VX and Olaf/DG0CH will be active as LA/homecall from Tromoy Island between now and May 29th. Activity will be on 160-2 meters, mostly the digital modes, also CW, SSB and FM. QSL via their home callsigns.

EU-067. Operators Theodoros/SV1EJD, Manu/IZ8IYL and Ant/IZ8CCW will be active as J48MDC from Mikonos Island between June 13-18th. Do not expect too much activity from Ant and Manu because they are on a honeymoon trip. Pilot station will be IZ8BGY (iz8bgy@mdxc.org). More info about J48MDC can be found on: http://www.mdxc.org/j48mdc

EU-088. Members of the EDR Silkeborg will be active as OZ8MW/P from Anholt Island (DIA NK-001), July 25-30th. Activity will include an entry in the IOTA Contest (July 28-29th). The activity outside of the contest will be on 80-10 meters using CW and SSB.

EU-174. Laci, HA0HW, will be active as J48HW and SV8/homecall from Thassos Island, Greece (MIA: MG-124, Grid KN20hs), between May 27th and June 5th. Activity will be on the HF bands, mainly 40/30/20/17 meters and 6 meters. Operations will be mainly CW, with some SSB, RTTY and PSK31 as well. QSL via his home callsign, by the HA Bureau or direct.

NA-029. Operators Gregg/VE3ZZ and Noel/VE2BR will operate from Prince Edward Island in eastern Canada from July 25-30th using the VY2TT superstation (Grid Square FN76vs, CISA PE-001). During the July 28-29th IOTA Contest they will operate as VY2Z (QSL to VE3ZZ) and outside of the contest as VE3ZZ/VY2 and VE2BR/VY2 (QSL to their home callsigns direct via the QRZ.com address or via the Bureau).

NA-144. Terry, W6WTG, will be active as W6WTG/p from Anacapa Island (USI CA-002S, WLOTA LH-1300, WW Loc. DM04HA, Ventura County, California) during the RSGB IOTA Contest (July 28-29th). He will be running battery power with a IC-7000 and will be active on 20 meters. QSL via his home callsign.

OC-129. Kaoru, JA7QVK, is active as JA7QVK/DU7 Cebu Island in the Philippines. He has been on Cebu Island since August of 2005 and is there on business. Kaoru is expected to be here until this coming August. He informs OPDX that he will be active during his free time especially on the weekends on 40-6 meters mainly SSB. Equipment is an IC-706MK2G and ATAS-100 which is a mobile whip like a screw driver. QSL via his home callsign, direct w/SAE + 2 green stamps. He will answer after his return to Japan. ONLY JA stations can QSL via the JA Bureau. QSLs can be sent direct via the following Philippines address w/SAE + 1 green stamp: Kaoru Ono, Unit 1204, Park Tower 2 Cebu Business Park, Cebu City, Philippines 6000. SKED can be made via the following E-mail address: kaoru12506@globelines.com.ph
ADDED NOTE: Also, look for DU7/PA0HIP from Mactan Island (OC-129). He is also very active now.

OC-150. Hotang, YC0IEM, will be actived from Lombok Island as YC0IEM/9, June 8-10th. QSL via IZ8CCW, by the bureau or direct.

IS0, SARDINIA. Operator Martin, OL5Y, will be active as IS0N during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/All-Band/Low-Power entry. QSL via OK1MG.

IS0, SARDINIA. Mauro, IN3QBR, will be active as IS0/K7QB (perhaps IM0/K7QB) during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/ All-Band/Low-Power entry. QSL via IN3QBR.

J7, DOMINICA. Rod, NA9N, will be active as J79RM, June 28th-July 5th. He will mostly be operating HF and will try to work a number of digital modes. QSL to his home callsign, NA9N.

KL7/NL7, ALASKA (IOTA Op). Operators Marvin/KL1YY, Bob/NF7E and Art/NN7A will operate from Ushagat Island, Alaska (IOTA NA-206), from July 12-17th. They will have two stations using 100 watt transceivers with vertical, wire, and kite antennas. Operation will be CW by NN7A/NL7 and SSB by KL1YY and NF7E/KL7 on 160-10 meters with SSB on the 20m and 15m IOTA frequencies as conditions permit. No digital or VHF operations are planned. There are no existing facilities on Ushagat, so operation will be from a camp set up by the operators using battery and generator power. E-mail and log checking will not be possible during the operation. QSL by the bureau or direct to their home callsigns:
KL1YY: Marvin Baur, 4275 Kachemak Way, Homer, AK 99603 USA
NF7E : Bob Wertz, 6315 E. Townsend-Winona Rd, Flagstaff, AZ 86004 USA
NN7A : Art Phillips, P.O. Box 73, Eckert, CO 81418 USA

P4, ARUBA. John, KK9A, will be active as P40A during the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/Single-Band (40m) entry. QSL via WD9DZV.

BS7H QSO/QSL INQUIRIES! QSL Manager Steve, KU9C, sent out the following announcement: "Folks, I have received quite a number of QSO not in logs, I forgot my QSO detail, my dog/significant other/kid/etc trashed my log, etc questions in the last week, so let me help with some ground rules:

I'm not in a position to answer whether you are in or not in the log at the moment. Rather than ask via email, I'd ask you to kindly put the inquiry in a NOTE with your QSL to me. I'll research the log as I work your QSL request, and respond accordingly. If you are NOT IN THE WEB log, don't give up, put down EVERY QSO you believe you had, and I'll do the rest. If the web log shows 20SSB, put down EVERY qso you think you had on 20 SSB, not just the first. Don't be embarassed with dupes, rather, give me all the QSOs you've had, I'll see the dupes anyway, but if you are not in the log the first time, it will save me a lot of time researching. Remember, every researched call takes time from processing other cards. If it's a busted call, I'll use well-established judgement in issuing the card, and may ask you to help confirm that the person's whose call appears did NOT make a QSO.

If you DO NOT HAVE ANY detail besides what is in the web log online, it's impossible for me to give you credit for the card. I need to have SOME supporting detail on your QSO. Give me your best guess from memory, who you heard work BS7H just before or after. Chances are one of your friends was in the hunt at the same time, and can help. Remember, it will be a lot easier to remember it now than a month from now. And, I'm not in a position to issue a QSL to you

'just because' the web log says you're there. Not the way it works.

Don't fret the 39 cent stamp or the 84 cent stamp you sent before the postage increase. I'll cover it.

If I do not respond to your email, please don't take it personally. Please follow the guidelines here. I tend to not answer the emails when they ask the questions above, as each email is roughly equivalent to the time it takes to answer 2-3 QSLs...and I tend to choose to answer the cards first.

I'll let you know when the cards start going out via this forum.

As an aside, if you have a problem with how I do QSLs, how long it takes to get a card from me, etc, please take it up with me directly. I don't appreciate reading it third hand via a reflector, etc. Frankly, if you are kind enough to send me a note, I'll be glad to help research it. In many cases, I may be able to help you understand why the process take so long for your QSL, as I keep pretty good records of those calls that take time, and for what reasons that is the case..... 73 Steve KU9C

NEED A QSL MANAGER? Petr, OK1DOT, is willing to offer his services to a station in need. He will provide all the QSL printing and cards to stations he manages at no charge. Petr is currently QSL Manager to: 9V1GO, YB5AQB, ZS6CCY, YB1JZS, WP3F, XV9DT, 3W22S, XV1X, NL7G, TG9AKH, NH6P, 3W3W, HK1AR, YI9CC and 9K2/KY0C. For details, visit his Web page at: http://www.qrz.com/ok1dot
His address is:Petr Gustab, P.O. Box 52, CESKY BROD 282 01, Czech Republic.

Nilay, TA3YJ, sent out QSL cards for TA3J, TA3J/0 (AS115), TA3J/4 LH, TA3J/60, TA3YJ, TC2K4J, YM125ATA, YM125ATA/4 and YM3ATA to the QSL Bureaus of Spain (R) and Turkey direct on May 21, 2007.
(R: Registered Mail)

VP5/PY2XB QSL STATUS. Fred, PY2XB, informs that he is still receiving many QSL requests for his recent operation as VP5/PY2XB, despite the announcements in all DX Bulletins and DX lists that he has a QSL Manager. Fred will forward any requests received via direct to his QSL Manager PT7WA, but of course, it will delay the process of QSLing. For those sending bureau cards: Please be sure to write "VIA PT7WA!" so the Central Bureau will correctly send it to the PT7 Bureau instead of the PY2 bureau.

XT2C QSL STATUS. Bernard, F9IE, informs us that he has put in the mail all direct QSL request from DXers and SWLs received up to May 16th.

QSLS VIA LOTW: 4X4PP, 5H9PD, 5P5V, BD7KLO, DJ0QN, DL0TS, E21EIC, F4DZY, FY5KE, GM4WZL, HB9TSU, RA9AC, RN3QO, UR5MID, UV5U and VE3SY

QSLS RECEIVED VIA MAIL: 4O3T, 4O3ZZ, 4O6T, 4W6MM, 5N8NDP, 6W/DM2AYO, 8P1A, 9Q1EK, A71EM, BX5AA, C6AGN, C6DX, C91Z, CE1/K7CA, CM6CAC, DQ2006Y, EA9EU, ES1QD, FK/FO5RK, GM4KGK, H44MS, J5B, LZ13ARDF, LZ2TU, MD4K, MI0SRR, MN1SWL, T77C, TA3D, TM5CI, TT8HA, V31FG/P, VU7LD, VU7RG, XU7MDY, YS1JBL, ZA/DL3OCH and ZF2BI

SPECIAL EVENT. Look for special event station TM1VDM to be active until May 28th to celebrate the 100th anniversary of the birth of the writer Maxence Van der Meersch (1907-1951). QSL via F6KTN. Two other stations will also be active. Look for TV2VDM to be active from June 1-15th by the Radio Club F5KDB, and FV5VDM will be active from July 1-15th by the Radio Club F6KDM.

SPECIAL EVENT. Members of the REF83 will activate the special callsign TM2RHC during the Air show taking place at LE LUC ARMY AIR BASE from June 10-24th. Activity will be on 160-10 meters on all modes. QSL via F4EUN (see QRZ.com). For more info, visit the following Web pages at:
http://meeting-leluc.fr
http://www.ref83.free.fr

SPECIAL EVENT. Look for the Ukrainian special event station EO20R to be active between May 28th and June 3rd. Activity is to celebrate the 20th anniversary of Slavutych, the city built after the Chernobyl nuclear disaster to host the survivors who had to be relocated from the evacuation zone around the reactor. QSL via UY2RO.

SRT'S WORLD-WIDE DXPEDITION TROPHY. Oreste, IZ8EDJ, S.R.T. Founder and Team Coordinator, annnounced that the members of the Strange Radio Team (SRT) are once again taking their annual survey for DXpedition of the year. The SRT World-Wide DXpedition Trophy will go to the DXpedition that receives the most votes. This year's DXpedition list is: 1A4A, 3B7C, 3C0M, 4O3T, 5A7A, 9M4SDX, BS7H, DX0JP, J20RR & J20MM, KH8SI, N8S, OH10TA, VU7LD, VU7RG/VU7MY, XF4DL, XT2C, YU6AO, YW0DX and ZL8R. Cast your vote at: http://www.strangeradioteam.com/wwdxt/index.asp
ADDED NOTE: The SRT now has a SRT-DX mailing list. To subscribe and receive messages about DX News, IOTA Notices and other HamRadio information, go to: http://www.strangeradioteam.com/reflector.asp

TO3, MARTINIQUE (NA-117). Alex, VE3KF, will be active as TO3T between now and May 31st. Activity will include the CQ WPX CW Contest (May 25-26th). QSL via his home callsign, direct or by the bureau.

V2, ANTIGUA AND BARBUDA. Horward, WB4WXE, will be heading back here and will be active as V26HS between June 9-24th. He will be putting an emphasis on 6 meters but will also be active on 2 meter and HF.

VP5, TURKS AND CAICOS ISLANDS. Maciek, WQ7X, will be active as VP5/WQ7X, between now and June 5th. Activity will be on 80-10 meters CW and SSB. QSL via his home callsign.

VP6/D, DUCIE ISLAND. Eric/K3NA and Carsten/DL6LAU announced at the Dayton DX forum that a multi-national team of 13 operators will be going to Ducie Island in February 2008. The landing permissions and licenses are granted and a suitable charter vessel is secured. They

are planning to stay 13 days on the atoll. Current list of operators are: Carsten/DL6LAU (Team Leader), Eric/K3NA (Co-Leader), Dietmar/ DL3DXX, Andy/DL8LAS, Martti/OH2BH, Robin/WA6CDR and Krassimir/K1LZ. For more information, updates and details on how to help support this operation, please visit the VP6DX Web site at: http://www.vp6dx.com

YB, INDONESIA (Help Kadek!). It has been reported that Kadek, YB9BU, has lost all his radio equipment following a fire that destroyed his house in early April. A fund called "Help Kadek" has been set up to help Kadek rebuild his radio shack and bring him back on the air. If you would like to help, please visit the following Web page at: http://www.mdxc.org/yb9bu

YM3, TURKEY. Mill, LX1CC, will be vacationing in the city of Selcuk between June 7-21st. He will be using the special callsign YM3CC. His activity will be on 80-10 meters, WARC bands included, on SSB. QSL via his home callsign, direct, by the bureau or e-QSL.

YO, ROMANIA. Jean Michel, F6AJA, is currently active again for the 14th time as YO/F6AJA from Suceava (450 Km north of Bucarest) until May 26th. During his free time Jean Michel will visit his friend Silviu, YO8FZ.

ZF2, CAYMAN ISLANDS. David, K2DBK, will be operating from Grand Cayman (NA-016) from July 22-29th, as ZF2DK. This is a "vacation style" operation; operating during his spare time. David will be able to operate on all bands from 40-6 meters, but he expects to spend most of his time on 20m, conditions permitting. However, he will see what bands are open when he is there and operate accordingly. He does plan to try a little 6m if the band is open. David will primarily be operating SSB and he may operate a little PSK as well. Most likely, he will be hanging out around the IOTA frequencies. QSL either direct (SASE or SAE + 1 GS please) or via the bureau to his home callsign (K2DBK). He plans to upload the logs to LoTW. Updated information will be available at his Web site (http://k2dbk.com) or on QRZ.com.

E51 - SOUTH COOK ISLANDS, OC-013
Gary,ZL2IFB, is spending his holidays with his family on Rarotonga from where he intends to work as E51IFB. He also plans to take part in the upcoming WPX Contest (May 26/27) either in the QRP or the low power class. Gary will be QRV only in CW mainly on 40m/30m from May 24-28. He is also looking for a good QTH for future activities. Please send your QSLs direct to ZL2IFB or via LotW.

FM - MARTINIQUE, NA-107
We expect Alex,VE3KF, to show up as TO3T in SSB/CW from May 23-31 and also in the WPX Contest. QSLs direct or via bureau to his homecall.

GD - ISLE OF MAN, EU-116
The Isle of Man is known for its motorcycle race, the Tourist Trophy, held since 1907. Two members of the Wrexham ARS Colin,MW0JNI, and Mike,GW6NLP, will be active from Scarlett Point (EU-116, WLOTA LH 0449) signing GB100TT on all HF bands and GT4WXM/p on UHF between May 25 and Jun 5. QSL via MW0JNI.
Check also: http://www.qsl.net/wars and http://www.scarlettpoint.com

GU - GUERNSEY, EU-114
Chris,M0DOL, Trevour,M3PNQ, and Tom,2E0TSW, will activate two new prefixes from Guernsey (EU-114) using GP8LED/p and GP3GWB all HF bands plus 6m/4m/2m for one week starting on May 26.

HB0 - LIECHTENSTEIN
David,HB0/DL1GDS, Michael,HB0/DO1ARS, Eddy,HB0/DK4SFW, Klaus,HB0/DL5ZL, Reinhard,HB0/DL5ZA, and Karl,HB0/DM3BJ, will be active mainly in SSB/CW and digital modes on 160m-10m, 6m and 70cm from May 26-30.
QSLs via the operator's homecalls, via bureau or direct.
The website of the HB0 DX Team is: http://www.do1ars.de/hb0team.htm
An online log will be published there after the activity but skeds can be arranged also via packet radio.

HH - HAITI, NA-096
Yannick,F6FYD, is working in Haiti for one year and already hit the
airwaves as HH2FYD. QSLs via homecall.

PJ2 - NETHERLAND ANTILLES, CURACAO, SA-006
Jim,WI9WI, is QRV as PJ2T (QSL via N9AG) from the Signal Point Station
from May 21-29. He plans to participate in the WPX Contest in the
single op/allband/high power category.

VP5 - TURKS AND CAICOS ISLANDS
Maciek,WQ7X, is working in CW/SSB on 80-10m from May 24 until Jun 5.
QSL via homecall.

VQ9 - CHAGOS ARCHIPELAGO, AF-006
Jim,VQ9JC, is active on the air using the special prefix VQ97JC between
May 23 and Jun 5. This is a must for all WPX hunters because this
prefix has never been used before. Jim hits the airwaves after the end
of his daily work usually from 1200-1730 UTC. During the WPX Contest
(single OP/allband) he will stay in the shack over night.
QSLs via his homecall ND9M. He will answer all direct and bureau QSLs
after he returned home to Florida in August.

4W - EAST TIMOR, OC-148
Four members of the "Korea DX Club" Kim,6K5YPW, Lee,DS2BGV,Choi,HL5FUA,
and Yoon,6K2AVL, will hit the airwaves as 4W6AAV or with a two-digit
suffix from May 30 until Jun 4. The team will be QRV in CW/SSB/digital
modes on 10-160m from the capital Dili (OC-148) using two amplifiers,
verticals and beams. These frequencies were announced (in MHz):
band CW SSB digital

160m 1.822 -- --
(QSX 1.824)
80m 3.515 3.795 --
40m 7.015 7.095 --
30m 10.115 -- --
20m 14.015 14.195 14.082

YZA-YZZ ITU 15/05/2007

FRANCE, SPECIAL EVENT STATIONS
TM1VDM remembers the writer Maxence van der Meersch (1907-1951) on the
air until May 28. QSL via F6KTN. Two more stations celebrating this
100th birthday will be active as TV2VDM (QSL via F5KDB) from Jun 1-15
and as FV5VDM from Jul 1-15. These QSLs are managed by F6KDM.

USA, SPECIAL EVENT STATIONS
Several members of the "Indianapolis Motor Speedway Amateur Radio Club"
will be active from the 91th Indianapolis 500 Mile Race signing W9IMS
from May 24-28 on following QRGs: 21.340, 14.240, 7.240 and 3.840 MHz.
Find more information including also an award at: http://www.w9ims.com

LINKS: Tanja,DL2YOU, spent much time in finishing the official WAEDC and WAG
Contests result booklet which has been published on the DARC website:

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
AS-043, JA, South Izu Group, WLOTA LH-0446: JA1UNS/1, JI1PLF/1, 7N1GMK/1,
7L4PVR/1 and 7N4VPS/1 will be QRV in CW/SSB on all bands plus 6m from
May 25-28. QSLs via the operator's homecalls, direct or via bureau.

EU-031, I, Ischia, IIA NA-001: The Wave Master Team members Giovanni,IK1WEG,
Sergio,IW1FSQ, Veronica,IZ1KFF, Gianfranco,IT9SPB, Rosario,IC8FEM,
Marco,IZ1BWO, Jerry,IZ1DSH, Carlo,IZ1GCZ, and Marco,IS0KEB, will use
the callsign IC8TO in SSB/CW/RTTY on 15-160m and 2/6m from May 25-27.
QSL via bureau to IZ1GCZ. The homepage of the Wave Master Team can be
found at: http://www.wavemasterteam.com/IC8TO/ic8to.htm

EU-125, OZ, Island Romo, DIA NS-001: A German scout group plans to become
active in SSB/CW and perhaps also RTTY and PSK on 10-160m signing
OZ1RDP (http://www.oz1rdp.de) from May 26-29. QSL via DL9BCP.

EU-174, SV, Island Thassos, MIA MG-124: Laci,HA0HW, will show up either as
J48HW or SV8/HA0HW between May 27 and Jun 5. He is active on all bands
but prefers working in CW on 40/30/20/17m but also in SSB/RTTY/PSK31
and on 6m. QSLs via homecall, bureau or direct. Check out these pages:
http://ha0hw@pannondxc.hu or http://www.c3.hu/~ha0khw/ha0hw.html and

216. Cheapest prices for TEN METRE and CB Radios? www.fusionrf.co.uk and some other GOOD radio websites!. Is CB coming back to life in the UK???

Newsgroup: rec.radio.amateur.dx
Date: 2007-05-28 21:47:42 UTC
From: wirelessjames@yahoo.com
Message-ID: <1180388862.278086.255700@p77g2000hsh.googlegroups.com>
Source record: 2587

The prices are by far lower than any other dealers. I cant beleive the pricing! It looks too good to be true also with free delivery - has anyone used them? Are they any good?

The forums look interesting but not much traffic. Apparrently they have just redone the site? Anyone been to the shop?

I have no link to them - I found them as they advertise on another forum and another website www.cobraworxshopz.com and www.ukradiodx.com

Also a regular on the 19 was talking about www.fusionrf.co.uk www.cobraworxshopz.com and also www.ukradiodx.com. Ukradiodx.com is where you can listen to the 19 from London on the internet

Hopefully with these websites that are starting up - it will get the interest back again on CB?

Do you think it will ever get back to what it was? Probably not :(

DXNL 1521 - May 30, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

DU - PHILIPPINES, OC-129
Kaoru,JA7QVK/DU7, is staying on Cebu Island (OC-129) now for one year.
He is on a business trip and will stay there until August 2007. Kaoru
is working mainly in SSB on 40-6m and skeds can be arranged via e-mail:
kaoru12506@globelines.com.ph
Unfortunately QSLs only direct, when he is back in Japan.
This is his address: Kaoru Ono, Unit 1204, Park Tower 2,
Cebu Business Park, Cebu City, Philippines 6000.

EA8 - CANARY ISLANDS, AF-004
Franky,ON7RU, will be active as EA8/OQ7R in CW/SSB/RTTY on 80-10m using
a FT-990 and wires from Jun 4-13. QSL via ON7RU, bureau or direct.

FO/C - CLIPPERTON ISLAND, NA-011
During the "Dayton DX Dinner Banquet" an upcoming activation of
Clipperton was announced for March 2008. The team leader will be
Bob Grimmick,N6OX. More information will be released at a later date.

HI - DOMINICAN REPUBLIC, NA-096
IW2NEF/HI7 will be QRV from Bayahibe (NA-096) from Jun 3-9. He will
work on 40-10m and 6m using a Yaesu FT-857D with 100 watts and vertical
but only for one or two hours a day. QSLs via his homecall.

KH8/S - SWAINS ISLAND, OC-200
The first N8S QSLs of the Swains Island DXpedition will be sent on
Jun 5. Meanwhile more than 6.000 letters arrived directly at YT1AD.
The call N8S has been issued to Dale,K9TTT, in June 2006 and was used
by the "Michigan DX Association" before. Dale promised to forward all
errant QSLs to YT1AD.

TA - TURKEY
Mill,LX1CC, will spend his holidays in Turkey from Jun 7-21. His QTH
will be the city of Selcuk and he got the special callsign YM3CC.

Activities will take place in SSB on 80-10m (including the WARC bands).
QSL cards via bureau to his homecall, direct or via eQSL.

VP6/D - DUCIE ISLAND, OC-182
First information was released about an upcoming DXpedition to
Ducie Island (OC-182) lasting for two weeks around Feb 10, 2008.
Licence and landing permission have been guaranteed already. The
first top DXers joining the team were: Carsten,DL6LAU (team leader),
Eric,K3NA (co-leader), Dietmar,DL3DXX, Andy,DL8LAS, Martti,OH2BH,
Robin,WA6CDR, and Krassimir,K1LZ. More info will be released at:
http://www.vp6dx.com

3A - MONACO
The special event station 3A7JO will be QRV in all modes on all bands
from Jun 2-10. All QSOs will be confirmed via bureau automatically.
If you can't wait that long send your direct QSLs to:
ARM (Association des Radioamateurs de Monaco) QSL Bureau, B.P. 2,
MC 98001, Monaco Cedex.
More information can be found on the website: http://www.monaco2007.mc

3B6 - AGALEGA ISLAND, AF-001
3B6SP will be the callsign of the Polish DXpedition which will show up
for 12 days starting on Jun 6. For health reasons Wojtek,SP9PT, had to
leave the team which now consists of: SP9MRO (team leader), SP5BFX,
SP3MGM, SP6EQZ, SP3RBR, YL SP9SX and SP5XVY. Danuta,SP9SX, will take
care of the QSLs. The team left Poland for Mauritius on May 28 and
their flight back goes on Jun 18. These QRGs were announced for 3B6SP:
band CW SSB RTTY PSK (QRGs in MHz)
160m 1.821,5 1.845 - -
80m 3.521 3.780 3.590 -
40m 7.021 7.070 7.040 7.038
30m 10.121 - 10.140 10.142
20m 14.021 14.185 14.084 14.072
17m 18.081 18.136 18.104 18.102
15m 21.021 21.290 21.084 21.072
12m 24.901 24.930 24.924 24.922
10m 28.021 28.490 28.084 28.122
Updated information is released on their website: http://3b6.godx.eu

5B - CYPRUS, AS-004
5B/G3RWF will be QRV in SSB/RTTY/PSK during his holidays from Jun 2-30.

FRANCE, SPECIAL EVENT STATIONS
The "24 Hours of Le Mans" belong to the classics in motor racing and
will be held the 56th time this year. TM6ACO will be active in CW/SSB
on all bands from Jun 3-17. QSL via bureau to F6KFI. Please check also:
http://asso.proxiland.fr/aras72

TM5BBC will be QRV from Creully from Jun 1-15 remembering the BBC
correspondents who reported from there about the battle in the Normandy
in June/Jule 1944. QSL via F2UW.

POLAND, SPECIAL EVENT STATION
The special event callsign HF750C celebrates the 750th birthday of the city of Cracow on the air since May 14. This station will be active until Jun 30 (QSL via SP9BRP) supported by several SN0 calls until the end of 2007.

SPAIN, SPECIAL EVENT STATION
The 32nd America's Cup is the most prestigious event in sailing and this year it is carried out in Europe for the first time off the shore of Valencia. Pascual,EA5FKQ (AO5FKQ), and other OMs from this region will use the special prefix AO5 instead of EA5 until Jul 7.

UKRAINE, SPECIAL EVENT STATION
The town of Slavutych was founded to be the new home for those persons who had to be evacuated after the nuclear accident in Chernobyl back in 1986. The special event station EO20R is working during this small jubilee from May 28 until Jun 3. QSLs as usual via UY2RO.

CQ DX HALL OF FAME
Thirty years after Geoff Watts (BRS-3129, publisher of the legendary "The DX News Sheet") was elected into the CQ DX HALL OF FAME the first Italian HAMs received this honour as well. Mauro,I1JQJ, and his XYL Valeria,IK1ADH, publishers of the Italian "425 DX News" were both elected into the CQ DX HALL OF FAME this year. The other new entries are Roger Western,G3SXW, and Nigel Cawthorne,G3TXF, who are travelling together almost all the time. Nigel activated 44 DXCC entities and Roger 37 and both are founding members of the "Voodoo Contest Group". Congratulations!

SRT-DX MAILING LIST
The "Strangeradio DX Team" has a mailing list featuring DX- and IOTA-news or rumours from the DX community on their website:
http://www.strangeradioteam.com/reflector.asp

LINKS: Rob,PA3GVI, published several interviews with fellow HAMs at:
http://www.sitekreator.com/pa3gvi/ham_interview.html

Once again we want to point your interest to the interview with the BS7H DXpedition team member Christian Entsfellner,DL3MBG, and two new videos of BS7H on the homepage: http://dokufunk.org
---
Current SOTA activities are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Jun 2/3: IARU-Region 1 CW Fieldday

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-several, SV, TA: Tommy Horozakis,VK2IR, is on a roundtrip through Greece

at the moment including a visit to Mount Athos. He will activate about
15 to 18 different Greek and Turkish islands between May 27 and Aug 28.
He will work on HF not only in the usual modes but also in PSK/SSTV.
He will join the "SV DX Group" (SV1GE, SV1AAU, SV2DGH, SV1DPJ, SV2FWV,
SV2HNC, SV0XAD and DH9VA) to show up as SY8AN from Antiparos (EU-067)
working in SSB/CW/RTTY on all bands from Jun 9-17. See also:
http://www.sv2dgh.gr/sy8an

EU-001, SV5, Dodekanese: Harvey,SV5/OO5S, and Dan,SV5/OQ1C, are sepnding
their holidays there until Jun 1. QSL via ON4ON, direct/bureau.

EU-001, SV5, Kos: Alex,SV5/GM0DHZ, will be QRV in CW/SSB during his holiday
on Kos for two weeks starting on Jun 7.

EU-014, TK, Corsica: Marco,TK/IK1YED, is QRV mainly in SSB but also in digi
modes on 6-160m until Jun 1.

WLOTA

Lighthouse activities:
GU, Guernsey, EU-114, WLOTA 0013: To complete the information published in
the last DXNL we want to remember that the activity of Chris,M0DOL, and
Tom,2E0TSW, signing GP8LED and GP3GWB takes place from May 29 until
Jun 2. This counts for the Hanois Lighthouse (WLOTA 0013).

SV, Gavdos, EU-187, LH 1885 (Tripiti), ARLS CRE-007: Wolfgang,SV9/DL5MAE,
showed up from Gavdos on time and will stay there until the beginning
of June. QSL via homecall, direct/bureau.

222. DXCC Excel spreadsheet updated

Newsgroup: rec.radio.amateur.dx
Date: 2007-05-31 18:15:32 UTC
From: PG7V <noreply@pg7v.net>
Message-ID: <1l1g149pt12sa.e0zs9hedgwg1.dlg@40tude.net>
Source record: 2593

My free DXCC Excel spreadsheet is updated now with the latest changes:

Montenegro is now 4O

Serbia is now YT, YU

The prefixes 4N and YZ are given back to the ITU, but at the moment they are still in use. I guess it will take some time to re-organise the callsign-systems in both countries.

You can find the DXCC Excel spreadsheet in which you can keep record of your DXCC score for all HF bands and 6 meters on my website. There is also a WAS/WAZ spreadsheet available.

Take a look a www.pg7v.net

Ohio/Penn DX Bulletin No. 811

The Ohio/Penn DX PacketCluster
DX Bulletin No. 811
BID: $OPDX.811
June 3, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N2OO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N6MZ, N6PF, N7NG, K8CX, K8YSE, A.R.V.M., Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, EW2EO, F5NQL & UFT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, MM0DFV, PA4JJ, RSGB IOTA, SP9MRO, VE2EBK, VA3RJ & ICPO and VE3ZIK for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 27th/May, through Sunday, 3rd/June there were 219 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO (Special Event). Look for special event station 3A7JO to be active between now and June 10th to celebrate the XII edition of the "Games of the Small States of Europe" (see http://www.monaco2007.mc/). Activity will take place on all bands and modes. All QSOs will be confirmed automatically via the bureau. Direct requests should be sent

to the Association des Radioamateurs de Monaco (ARM) QSL Bureau, B.P. 2, MC 98001, Monaco Cedex.

3A, MONACO. Operators Luc/ON4LUC and Paul/ON6DP will be active as 3A/ON4LUC and 3A/OP0P from now until June 8th (possibly the 9th). They will be operating on RTTY, PSK and SSB with 100w and an "Inverted V" on 80/40/20 meters. QSLs via ON6DP, direct or by the bureau.

3A, MONACO. Eli, N6PF, will be celebrating his 60th birhday with a visit to 3A2MD's QTH. He will be operating as 3A/N6PF from June 25-30th. Bands and modes of activity were not provided. QSL via his home callsign.

3B6, AGALEGA ISLANDS (DXpedition Update). Team leader, Witek, SP9MRO, sent out a press release a day before leaving (June 1st) for Agalega Island. He indicated that the 3B6SP group had finished loading the equipment to the catamaran, and that they would be leaving in the morning. The group would be passing St. Brandon Island, which is very close to the catamaran route and only one day sailing from Mauritius. He expects a 4-5 day trip to Agalega because of high level of the ocean and activity from the volcano on Reunion Island. The team will try to work on the air during their trip under homecall/mm on all bands. If everything goes as planned, they will start radio activity from Agalega on Thursday, June 6th. Their suggested frequencies are:
CW - 1821.5, 3521, 7021, 10121, 14021, 18081, 21021, 24901 and 28021
SSB - 1845, 3780, 7063, 14185, 18136, 21290, 24930 and 28490
RTTY - 3590, 7040, 10140, 14084, 18104, 21084, 24924 and 28084
PSK - 7038, 10142, 18102, 21072, 24922 and 28122 kHz

QSL via SP9SX. For more details and updates, visit the 3B6SP Web page at: http://3b6.godx.eu/

5N, NIGERIA. Marek, SQ8JCA, will once agin be active as 5N2/SQ8JCA from Cogi during all of June. Activity is expected to be on 80-6 meters SSB. Look for him especially between 1000-1600z. QSL via his home callsign.

6W/IZ2DPX NOW QRT. Oreste, IZ8EDJ, reports that 6W/IZ2DPX is now QRT, and the log is available online at: http://ik2duw.altervista.org

7O1YGF OPERATION STATUS RESURFACED AGAIN. Since the International DX Convention in Visalia, as well as the Dayton HamVention, OPDX has been receiving questions about the status of the 7O1YGF German DXpedition to Yemen. It seems Dave Patton, NN1N, ARRL's Membership and Volunteer Programs Manager, has stated that the status of "7O1YGF is not closed". This would mean efforts continue to gain the right and necessary documentation.

A6, UNITED ARAB EMIRATES. Ghis, ON5NT/A61NT, is definitively back in Belgium as of May 24th.

AN8, CANARY ISLANDS (AF-004). As part of a campaign to get the Teide National Park (Tenerife, Canary Islands) to be included in the UNESCO World Patrimony List, a group of radio amateurs will air the special

callsign AN8TID, June 9-10th, by operating from La Rambleta (Teide volcano), at an altitude 3,555 meters. Activity will be on all HF, VHF and UHF bands, using CW, SSB and the digital modes. QSL via EA8NQ, either direct (see www.qrz.com/ea8nq/) or by the Bureau. For details and information, visit the Web page: http://www.ure.es/ea8arg/an8tid/

9A, CROATIA. Jan, PA4JJ, will be active as 9A/PA4JJ/p from June 16th to July 7th. He will be on a holiday at Porec Istria and will try to be active as much as possible on the WARC bands using RTTY and PSK modes. He states that the antenna he will use will be either a vertical or a ZS6BKW. QSL information can be found on his Web site at: http://www.pa4jj.nl
There is a possibility to request a special paper QSL card as well.

9A & T9, CROATIA AND BOSNIA-HERZEGOVINA. Zik, VE3ZIK (also DO7ZZ), will once again be active from Bilice (JN73WS), Croatia, as 9A/VE3ZIK between June 16th and September 5th. Look for him on all HF Bands, CW, SSB, RTTY, PSK31 and FM (around 29600 kHz if there is condx). He will also be active at least from one IOTA island, and active in the IOTA Contest. Visit Zik's Web page at: http://www.qslnet.de/ve3zik
Send E-mail QSL Bureau request via: zik@tiscali.de
Zik also has some plans to be active from Bosnia-Herzegovina as T9/VE3ZIK between June 20-27th and September 5-10th. This will be a holiday style operation with 100W and some wire antennas. QSL 9A/VE3ZIK and T9/VE3ZIK via DL3PS, by the DARC Bureau. No e-QSL or LotW.

AO5, SPAIN (Special Event). Look for Pascual, EA5FKQ/AO5FKQ, and other EA operators from the Valencia region to use the special prefix AO5 instead of EA5 until July 7th. This special activity is to celebrate the most prestigious 32nd America's Cup sailing event being held in Europe for the first time off the shore of Valencia.

BS7H PHOTOS AVAILABLE. More BS7H Scarborough Reef photos are now available for viewing at via the following Web page at: http://album.blog.yam.com/bv6gu&folder=2705675

CS2, PORTUGAL. Members of the ARVM (Associa��o de Radioamadores da Vila de Moscavide) will be active as CS2FD, June 16-17th, from Montemor Park near the city of Loures, to participate during their Field Day event.
Activity will be on all bands, CW, SSB, RTTY and TVA. For more details, visit their Web page at: http://www.arvm.org/index_fd2007.html

DL100, GERMANY (Special Event). Look for special activity during the month of June by members of the radio clubs of Norddeich (Z-65) and Hage (I-55) to celebrate the 100th anniversary of the well known coast station Norddeich Radio. Operations are planned for 160-10 meters on various modes. Also, look for 2 meters to be activated on SSB, CW, FSK441 and JT65. A special callsign, DL100DAN, and a special award, DAN100, will be available. More informations can be found on the Norddeich Web page at: http://norddeich-radio.de/
Also, visit the DL0DAN Web page at:

http://www.fdeiters.de/Termine/termine.html

EW905, BELARUS. Members of the Borisov Amateur Radio Club (BARC) will be active as EW905B between now and November 30th. Activity is to celebrate the 905th anniversary of Borisov City. QSL via EW2EO. For more details, visit: http://www.qsl.net/ew2ww

FO/C, CLIPPERTON ISLANDS (Update). Bob, N6OX, will be leading an international team to Clipperton Atoll (NA-011, DIFO FO-001) in early March 2008. To celebrate the Clipperton DX Club's (FO0XA-H) 30th anniversary, the DXpedition team's goal will be to make 100,000+ QSOs worldwide and to work as many European, Eastern Europe, Mediterranean and African stations where Clipperton is high on the most wanted list. Departure date is February 28th, 2008, and they are planning to operate 12-14 days depending on conditions. The list of operators are as follows: Alan/AD6E, *David/K4SV, Alan/K5AB, Steve/K6SGH, *Bob/N6OX, *Alan/K6SRZ, Joe/KO4RR, Bill/N2WB, Arnold/N6HC, Doug/N6TQS, John/N7CQQ, *Terry/AB5K, *Steve/VE7CT, Paul/W8AEF, Ann/WA1S, John-Peter/F5AHO, *Alain/F5LMJ, Alan/F6BFH and his XYL/Danielle, Joel/F5PAC, Mike/FM5CD, Jim/F5JY and his XYL/Mayse, and *David/VE7VR. [* Pending] Operators John/N7CQQ and David/K4SV will be handling the organization and management of this operation. For information on this DXpedition, visit their Web page at: http://clipperton2008.org/

FS & PJ7, ST. MARTIN AND ST. MAARTEN ISLANDS. Operators Marq/CT1BWW, John/EA3GHZ and Tomas/EA5YH will be active as FS/homecall and PJ7/homecall between July 15-25th. The trio (with their XYLs) will start their activity on the French side of the island but will make visits to the Dutch side throughout their stay. Activity will be on 80-6 meters, CW, SSB and the digital modes. Visit their very interesting Web page at: http://www.dxciting.com/index.htm
QSL via their home callsigns.

FY, FRENCH GUIANA. Operators Roger/G3SXW and Nigel/G3TXF will be active as FY/homecalls, June 8-10th. Activity will be on all bands, CW only. QSL via their home calls, direct or by the bureau.

GB1, SCOTLAND (Special Event). Look for special event station GB1EPC to be active from now until June 28th to celebrate of the European PSK Club's 1st anniversary. The station will be set up in Glasgow, and the activity will only be on the PSK modes. QSL via MM0DFV.

I2, ITALY. Look for Patrick, ON7ARQ, to be active from Lombardia (JN55) as I2/ON7ARQ between June 8-18th. Activity will be on HF SSB, 6 and 2 meters using a FT817 and TS50 into a mobile antenna + ATU. QSL via his home callsign.

IOTA NEWS.....
EU-017. Giovanni, IK5BCM, will be active as ID9/IK5BCM from Panarea Island (IIA ME-006, MIA MI-070) now through June 9th. No other details were provided. QSL via his home callsign.

EU-172. Operator Ulli, DO2ML, will be active as OZ/DO2ML from Aeroe Island (DIA FY-014, WLOTA LH-0973), June 4-7th. Activity will be on 80/40/20 meters SSB only. QSL via his home callsign, direct or by the bureau.

K8CX's 2007 DAYTON HAMVENTION PHOTO GALLERY. Tom's, K8CX, 2007 Dayton Photo Gallery is now up at: http://hamgallery.com/dayton2007/ This is Tom's 11th consecutive year for the gallery and it contains 259 photos. He states, "This was a very good year at Dayton with hams showing up from several different countries."

MDXC CONVENTION. The Mediterraneo DX Club has announced details of their 3rd upcoming "World Meeting" (convention) to be held at the San Leonardo Resort in the Vibo Valentia Province (a Italian Tourist Zone), Italy, on November 10-11th. The MDXC will also be celebrating their 10th anniversary during this event. The line-up of presentations expected include BS7H, 1A4A and several IOTA operations. For more information, please visit the MDXC Web page at: http://www.mdxc.org/meeting.asp

OD5, LEBANON. Jean-Marc, ON4JM, is in the southern part of Lebanon near the city of Tibnin and is expected to sign OD5/ON4JM between June 5th and mid-August. As part of the Belgian Army and there to assist the United Nations Forces, Jean-Marc activity will be limited to his spare time. He plans to be active on all bands 80-10 meters (possibly 160m), CW, SSB and the digital modes. Jean-Marc's will make a special effort to listen for low power stations. QSL via ON Bureau. For more details, visit his Web page at: http://www.on4jm.net/pages/bluerings_s5pag.html

OD5, LEBANON. Paulo, CT1EFS, is in Shama and is active as OD5/CT1EFS until the end of June. Activity will be on 20/17/15 meters, CW and SSB. Look for him starting around 1630z. QSL via CT1CJJ.

QSL INFO AND NEWS.....
QSL routes provided by Johannes, DK8JB:
3G1X via XQ1IDM (direct) SV5/OO5S via ON4ON
5P4VM via OZ4VM T88NN via JI0NNM
9A8ABG via DB3GF T91CFG via 9A2AJ
AO5GSW via EA5GSW UE4HKD via RU4HD
BG5DKK direct UW0L via UR4LWY
C92IO via ZS6HB YD0NWO direct
EV2A via EW2AA ZW2T via PY2TNT
PD5URK via PA0LEY

QSL EH4EI via EA4CT. This was a special event station aired from the Italian Embassy in Madrid to celebrate Italy's National Day. Look for them to be active again on October 12th during Spain's National Day.

QSL I0RI via IZ0GKN. Members of the SRT were active from the Roma Embassy using this special callsign to celebrate the anniversary of the Italian Republic.

KY6YL BUREAU QSLS. DXpeditioner Mike, N6MZ, who also sorts the "Y" segment for the ARRL 6th District QSL Bureau, regrets to inform DXers

around the world that KT6YL, who claims to be the QSL Manager for TF0GX, TF8GX, TF4RX, TF7GX, TF7RX, TF7X, TF8RX, TF3XEN, and TF3ZA, does NOT use the ARRL QSL bureau. Unfortunately, Mike has to shred many, many hundreds of your QSL cards every year because Mrs. Gehrke will not participate in the bureau system. Mike states, "Please don't waste your time and your QSL cards sending via the bureau to KT6YL. TNX & 73, Mike"

VU7RG/VU7MY QSL UPDATE. QSL Manager Bob Schenck, N2OO, reports: "I recently received my supply of VU7RG/VU7MY QSL cards from the QSL printer in Europe. My QSL team from the South Jersey DX Association will meet next week to process the "Region 2" cards. Most cards will go into the mail on the same day which is expected to be June 11th or 12th. The exception is for those who requested BOTH VU7RG and VU7MY (or perhaps any other call that I handle) in the same envelope. Those will be processed later since it involves a separate confirmation process here. As for the extra postage needed due to the recent increase, I have a good batch of 2 cent stamps here. I want to thank the couple of folks who mailed me some sheets of 2 cent stamps to add to my postage box! That was a very nice gesture. Thanks! See ya' in the Pileups! 73! Bob Schenck, N2OO"

QSLS VIA LOTW: DR1A, EA4TX, EC1CT, HA5UK, LA6FJA, M4A, OE2S, S53F, VE7ON and YT6A

QSLS RECEIVED VIA MAIL: 1A4A, 3B8/HA7TM, 6W/HA7TM, 9M4SDX, 9N7JO, A45WD, BP100S, EA9EU, ET3BN, FG5FI, HB0/IV3LZQ/p, IK1ZNN/p, J5UTM, KH0/K3UY, PJ2/N8LGP, ST2R, V63UA and VU2NXM

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL) will have a few special event station events active during the month of June. Look for the following:
GX4BJC/A - Herbie, G6XOU, ISWL QSL Bureau Manager, will operate from Walton on the Naze, in Essex.
GC4BJC/P - Herbie, G6XOU, will also used this callsign from Wales during the month.
MX1SWL/A - John, G8XTJ, ISWL President, will operate from Great Missenden, in Buckinghamshire.
All QSL info is available on http:/www.iswl.org.uk or via eQSL.cc (NO LOTW).

TM6, FRANCE (Special Event). Look for special event station TM6ACO to once agin be activated (for the 56th year) between June 3-17th for the "24 Hours of Le Mans 2007". Activity will be on all bands (HF-6m), CW and SSB. QSL via the bureau to F6KFI. For more details, visit the Web page at: http://asso.proxiland.fr/aras72/

YASME NEWS. Wayne Mills, N7NG, President of the Yasme Foundation, informs OPDX: "One of the more famous and long-lived post box numbers in DXing has changed. Effective immediately, all mail sent to the Yasme Foundation should go to: The Yasme Foundation, P.O. Box 20578, Castro Valley, CA, USA 94546. The current mailing address shown on the Yasme

Web site (Yasme.org) is now correct. Mail sent to the old box number, Box 2025, will be forwarded for approximately six months, so if you have sent mail recently, it will be delivered with no difficulty. For a period last summer, the USPO was not forwarding mail properly, and some mail was returned. This is no longer the case."

DXNL 1522 - Jun 6, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

EA8 - CANARY ISLANDS, AF-004
The Teide National Park (Tenerife, Canary Islands) shall be added to
the UNESCO World Patrimony List and this campaign is supported by a
group of radio amateurs who will activate the special callsign AN8TID
operating from the volcano La Rambleta (Pico del Teide, 3555m above sea
level). They will work in CW/SSB/digital on HF/VHF/UHF on June 9/10.
The QSL manager EA8NQ confirms direct and via the bureau. See also:
http://www.ure.es/ea8arg/an8tid.htm

FO/C - CLIPPERTON ISLAND, NA-011
The DXpedition announced in the last DXNL opened a website now at:
http://clipperton2008.org/ There you can find many useful information
like the 30th anniversary of the 1978 Clipperton DX Club's DXpedition.
Approximately 24 OPs plan to make 100.000 QSOs.

FY - FRENCH GUYANA
FY/G3SXW and FY/G3TXF announced to be active from Jun 8-10. As usual
the two fresh elected "DX Hall of Fame" members will work in CW only
on 80-17m. QSL cards are confirmed reliably via their homecalls, also
via the bureau.

OD - LEBANON
Jean-Marc,ON4JM, is working for the Belgian army and will be based at
a field hospital in South Lebanon from Jun 6 until the mid of August.
He will try to hit the airwaves in SSB/CW/digital modes on 10-160m
signing OD5/ON4JM during his very rare leisure time.
QSLs via homecall, via bureau preferred.

TA - TURKEY
TA1HZ and TA2RX are very active as TC800YOM mainly in SSB on 17/20/40m
until Jun 30. This activity shall remember the poet and theologian
Mevlanas who would celebrate his 800th birthday now.

TI9 - COCOS ISLAND, NA-012
"After the big success of TI9M we start again! The next DXpedition to TI9 will depart in February 2008! Become part of an exciting adventure! Write to: ti2hmg@qsl.net" This is the text on the website and you can even fill out an application form to become a team member of this DXpedition at: http://www.qsl.net/ti2hmg/cocos.htm

V2 - ANTIGUA AND BARBUDA, NA-100
V26HS will be the call of Howard,WB4WXE, on NA-100 from Jun 9-26. Howard prefers to work on 6m, with 350 watts and mainly on 50.125 MHz or 50.110 MHz. QSL via homecall.

3A - MONACO
Luc,ON4LUC, and Paul,ON6DP, can be found on the air signing 3A/ON4LUC and 3A/OP0P since Jun 3. They are working with 100 watts and inverted V in RTTY/PSK/SSB on 20/40/80m until Jun 8 or 9. QSLs via ON6DP.

3D2 - ROTUMA ISLAND, OC-060
Tony,3D2AG, writes that his trip to Rotuma has been delayed. He plans to stay on Rotuma for several months now starting in Nov or Dec 2007.

5N - NIGERIA
Marek,5N2/SQ8JCA, is working in Cogi during the whole month of June and will be QRV in SSB on 6-80m especially from 1000-1600 UTC. QSL via SQ8JCA.

GERMANY, SPECIAL EVENT STATIONS
DH150HZ (with the special DOK HZ1857) is a special event callsign to celebrate the 150th birthday of Heinrich Hertz. The QSL manager DL5KUA writes that the decision how many QSLs have to be printed is not made before this autumn and the shipment is going to start not much earlier than in the beginning of 2008. However all QSO information is uploaded to the LotW regularly. Other special event calls active from Germany are DK150HZ (Karlsruhe, DOK HZ1885), DR150HZ (Bonn, DOK HZ1894) and DB150HZ (Berlin, DOK HZ1878). The licences are valid until Jan 1, 2008.

PORTUGAL, SPECIAL EVENT STATION
CQ4IPY will be the call of Marq,CT1BWW, during the 4th International Polar Year in SSB/CW/PSK31/RTTY/SSTV on 80-10m from Jun 9-15 and once again from Sep 8-14. QSLs via his homecall.

HUNGARY, SPECIAL EVENT STATION
The "Danube River Day" is held in Hungary every year. HG7DANUBE can be found on the air from Jun 1-30. QSLs direct via HA2MN or as a eQSL. Check also his homepage at: http://ha2mn.dsgnet.hu
---
The 46th Firac Congress takes place in Hungary as well from Sep 13-17. For this reason Tibi,HA5BSW, will use the special call HG46FC between May 30 and Sep 30. QSL via HA5BSW, also via LotW. The Firac is the international radio club of HAMs related to railways.

SPAIN, SPECIAL EVENT CALLS
The URE and the Spanish commmunication authority DGTel have an agree-
ment which allows the URE to apply for all special callsigns of its

members at once. All Spanish HAMs interested in a special callsign from July 1 until Dec 31,2007, should send their request to the URE secretary until Jun 10. The prefixes ED, EE and EF are reserved for minor events completed with the suffix of the applicant's call. The prefixes AM and AN are reserved for major national events and the prefix AO for major international events. Three letters suffixes starting with UR, RC or RK may only applied for by radio clubs or amateur radio societies and suffixes with one letter are reserved for special contests but may be completed with any of these prefixes: ED, EE, EF, EG, EH, AM, AN,AO.
These contests are considered:
Jul 14/15: IARU HF Championship
Aug 11/12: WAEDC CW Contest
Sep 1/2: All Asian DX SSB Contest
Sep 8/9: WAEDC SSB Contest
Sep 29/30: CQ WW RTTY DX
Oct 27/28: CQ WW DX SSB Contest
Nov 24/25: CQ WW DX CW Contest
Dec 8/9: ARRL 10m Contest

DXCC: The approval of the 7O1YGF cards (activated in April 2000) is still refused by the DXCC. Rumours from the USA say that the "files" are not closed yet, so there is still some hope that this may change some time.

LINKS: VA3RJ published a very comprehensive list of special event calls at:
http://webhome.idirect.com/~va3rj/spevents_dx.html

Current SOTA activities are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Jun 9, 0000-2400 UTC: Portugal Day Contest
Jun 9, 1500 UTC till Jun 10, 1500 UTC: 2007 GACW WWSA CW DX Contest
You can find the rules at: http://gacw.no-ip.org/contestgerman.html

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-067, SV, Mykonos: The newly wed couple Manu,IZ8IYL, and Ant,IZ8CCW, and SV1EJD will spend their holidays here from Jun 13-18. Their callsign is J48MDC. See also: http://www.mdxc.org/j48mdc

EU-071, TF7, Vestmannaeyjar: TF7/SM5ELV will be QRV from Heimaey Island from Jun 10-13. QSL via homecall.

EU-096, OH, Turku province: OH1/DG5XJ is working from Houtskaer Island from Jun 7-13.

EU-172, OZ, Jylland East and Fyn Group: Ulli,OZ/DO2ML, is active from Aeroe Island (FY-014) from Jun 4-7.

NA-122, HI, Cabras: A group around HI3CCP plans to become QRV as HI0C in
all modes on all bands from Isla Cabras from Jun 11-17. QSL via ON4IQ.

OC-150, YB, Lombok: Hotang,YC0IEM/9, will be QRV from Jun 8-10.
QSL via IZ8CCW, direct/bureau.

In article <DFGxnF.Cr8.0.bloor@torfree.net>
bu765@torfree.net "Mike Corley" writes:

>>> ##: There were also a few other things said at the trial
>>> ##: relating to this which I won't repeat here; it was in the papers
>>> ##: at the time anyway. This quote and others said by and about this
>>> ##: witness were repeating things that had been said by and about
>>> ##: me at around that time.

When, where and by whom ? Let's have some details
that can be checked.

I'm not going to repeat them. They're hurtful to me because they contained abuse that was directed against me by someone else at the time and which got picked up and thrown again in the trial. It is a matter of record but I won't repeat it here.

>>> PM: >Who's character is being assassinated? It isn't clear from the post.
>>> PM: >Are we talking about Grenville Janner? I thought he was a spook
>>> PM: >himself? He's certainly able to hold his own on the issue you cite.

>>> ##: Mine, mainly. The reason for putting that episode at the top
>>> ##: of the posting is that they tried to kill two birds with one stone
>>> ##: at the Beck trial - they simultaneously put words into the mouth
>>> ##: of their invented "witness" to smear Janner, and repeated exactly,
>>> ##: word-for-word, stuff which had been said by and about me.

Why would "they" wish to assassinate your character?

Well, let's put it this way - just because this is the first time it's happened in this way,
from these people, on this scale, doesn't mean that it hasn't happened before, on a lesser scale. At university there were people who quite overtly hated me and would have wished something nasty to happen to me. Because of where I went making the wrong sort of enemies is pretty deadly.

"They" would wish to assassinate my character because it had all been done before, and because they knew I would not be able to react in any other way than I'd reacted previously.

>>> ##: They invaded my home with their bugs, they repeated what I
>>> ##: was saying in the privacy of my home, and they laughed that it
>>> ##: was "so funny", that I was impotent and could not even communicate
>>> ##: what was going on. Who did this? Our friends on BBC television,
>>> ##: our friends in ITN, last but not least our friends in Capital
>>> ##: Radio in London and on Radio 1.

Please give details of when, where and by whom these
comments were made, so that they can be checked.

This was four, five years ago... sorry, I don't remember. I can remember individual incidents,
words which were repeated by different people at different times in different locations.

Around the end of 1992 Private Eye rtan a front-cover with John and Norma Major, with the title "Major's support lowest ever" and John saying to Norma "Come back norma" on the front cover. What can you read in to that? Not a lot, seems like standard fare for PE. The first time I saw it I was in the pub with some people from work. One was expressing doubts
to the other (let's call the first one Simon, shall we? and the second one Phil?) about whether what was going on was right. Phil's answer was that if Private Eye was doing it then it must be ok, "they're usually right".

A few days later, again near work, there were some students laughing in the street, "Were you COMING BACK later? But I thought you said you were COMING BACK ha ha ha?" Play on words, you see. Not very nice, either. I had start medication soon afterwards. Clever people, these chaps who think up PE titles. Just slightly lacking in any sense of morality.

>>> ##: How did they do this? I'll give you an example. About a year ago,
>>> ##: I was listening to Chris Tarrant (Capital Radio DJ among other
>>> ##: pursuits) on his radio morning show, when he said, talking about
>>> ##: someone he didn't identify, "you know this bloke? he says we're
>>> ##: trying to kill him. We should be done for attempted manslaughter"
>>> ##: which mirrored something I had said a day or two before.
>>> ##: Now that got broadcast to the whole of London - if any recordings
>>> ##: are kept of the shows then it'll be there.

What was the date of the broadcast ?
Out of 2 million plus listeners, why should you be
the only one that Tarrant was allegedly referring to ?

Sometyime in spring 1994. I can't remember the date, I heard the broadcast in the car - I was going into the office from London that day and just happened to snap on the radio, and hey presto! Mr Tarrant gives us the benefit of his excellent understanding.

>>> ##: That's exactly what we did. We went to a competent, professional
>>> ##: detective agency in London, paid them over 400 quid to debug our house.
>>> ##: They found nothing.

What was the name of the detective agency and their
address ?

I don't see why I should tell you that, but they're in Yellow Pages; they're a well-established outfit.

>>> PM: >What? Spend a quarter mil. a year to amuse themselves? And why not
>>> PM: >change every now and again? Why keep watching you? (Unless you _are_
>>> PM: >doing something, and I don't think you are, though you may have some
>>> PM: >deep, dark secret in your past.)

>>>
>>> ##: See the above.

Is there a deep dark secret in your past ?

Apart from "it's all happened before in a different way", no.

>>> ##: In a couple of cases people have even known my name - when I was in
>>> ##: London over Easter somebody (no idea who they were, just some bloke with

>>> ##: his girlfriend) called me by name - quite clearly, and my name is
>>> ##: distinctive.

Is your name truly Mike Corley, or are you using it as
an alias ?

It's an alias. I'm not English by ethnic origin. If someone manages to pronounce
my name as well as that guy did then they must have been really trying.

>>> ##: There's a little story behind this. First of all, in 1992 I worked
>>> ##: for a company where the people made clear they knew what was going on,
>>> ##: first of all directly (the very first evening I was there I went out to
>>> ##: the pub with them and the Technical Director said to another guy,
>>> ##: "is this the bloke who's been on TV?" "yeah, I think so")

Have you appeared, or been reported by name on TV ?
When, where and by whom ?

No. Never. Not directly.

>>> ##: Also, in summer 1992 I went on a trip abroad to Europe by coach,

What was the name of the coach company and your date
of departure ?

It was a national express coach. At dover we boarded a ferry for Holland somewhere.
The company that organized the trip went out of business some time ago, so they won't
have records of passengers - so we can't get any corroboration from anyone else
that way. We tried all that last summer, ran into a brick wall.

The other thing is in summer 1992 I was visibly ill, so other people in the
party might remember that more than anyone getting at me on the coach trip.

>>> ##: >>Yes, this gets me. I think the answer is that I was set up by
>>> ##: >>someone. I was very aware when this started back in 1990 that I
>>> ##: >>was being painted as a "threat" to which people had to "react"

Why were you being painted as a "threat"; is this related
to a "deep,dark, secret" ?

Aaaarrrrgh. I think I should make clear that that's their created justification
rather than the real reason. They started harassing first and then came up with the
reasons for it.

>>>
>>> ##: I think I know who set me up.

Who ?

Someone who knew me some time ago. Someone who would have been able to talk this little campaign into existence.

>>> ##: The bloke can't even control his own mind without medicine.

Is this true ? What is the medication and dosage ?

Yes, I'm afraid so. Sulpiride, 200mg a day. It's designed to stop people coming up with the sort of ideas you've heard here for the last few weeks. Give him a higher dose!!

In the long term it causes tardive dyskinesia, tardive dementia and general nasty stuff to your brain. So it's three years of sulpiride talking to you here.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Monday, 4th/Junr, through Monday, 11th/June there were 210 countries active. Countries available: 3A, 3B7, 3B8, 3B9, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9X, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V6, V7, V8, VE, VK, VK9N, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A0, SOV. MIL. ORDER OF MALTA. Word came out this past week that a multinational team lead by Francesco, IK0FVC, will activate 1A0KM from the Sovereign Military Order of Malta between July 12-22nd. QSL via IK0FTA. There is talk that the logs might be uploaded to LoTW. More details are forthcoming.

3B7, ST. BRANDON ISLANDS (Not Agalega/DXpedition Update). Dxpedition leader, Witek, SP9MRO, and his team encountered problems with their catamaran on their way to Agalega Island (3B6) and had to head to St. Brandon Island (3B7) instead. It seems their catamaran "Josephina", had lost one of two engines and a sail which was torn due to high winds and bad seas. However, all are safe and the catamaran was towed by a fishing vessel called "Covadis" to the Island of Raphael (St. Brandon Island). OPDX was told that St. Raphael Island "is like a football play ground with two buildings, one for the Coast guards and the second, a 6 room bungalow for the Meteorological services, but with no water and light, only one generator and two wideband G5RV and lots and lots of birds, this place is more beautiful than Agalega." The team has received permission to operate as 3B7SP while their catamaran is being repaired. Activity will possibly last until June 19th. QSL via SP9SX. For more possible details and updates, visit the 3B6SP Web page at: http://3b6.godx.eu/

3D2, ROTUMA ISLAND (OC-060). It seems Tony, 3D2AG, has delayed his trip to Rotuma until possibly November or December 2007.

4U1U, UNITED NATIONS HQ. Operators Johnny/LA5IIA, Martti/OH2BH and Bernie/ W3UR were active this past Saturday, June 9th, from the UN HQ as 4U1UN. Remember to QSL via HB9BOU.

9A07, CROATIA (Special Event). Look for special event station 9A07P (Nine Alpha ZERO SEVEN Papa) to be active now through December 31st. Activity is to celebrate the city of Djurdjevac, and operations will be on all bands and modes. A special QSL card will be issued with a story on it. All QSOs will be confirmed automatically via the bureau.

9X, RWANDA. Vlad, UA4WHX, is now active as 9X0VB (as June 6th) from this rare DXCC entity. As always, the length of his stay is unknown. Activity over the past weekend was on 80/30/20/17/12/10 meters CW/SSB. QSL via his home callsign, direct or by the bureau. It is recommend to send direct cards after his travels.

A2, BOTSWANA (Update). Frosty, K5LBU/A25CF, informs that they have in hand their callsigns for the Botswana operation this July. Their activity will start around July 5th or 6th and last until the 20th. They plan to be active on all bands from 160-6 meters on CW and SSB, with operations also on 6/2 meters and 70cm EME. Hal, ZS6WB (A25HL), will do the Digi modes. They plan to have a M2 6 meter beam up on top of one of the towers which will be about 60 feet high using at least 300-400 watts or more. Hal, who does most of the EME, is a retired American that lives in South Africa. The whole team consists of: Dan/ZS6JR (A25DW), Frosty/K5LBU (A25CF), Wayne/W5KDJ (A25KDJ), Jay/W5SL (A25SL), John/GM3OOK (A25OOK), Lee/WA8QFE (A25LT), Jan/ZS6OB (A25OB), Hal/ZS6WB (A25HL) and Dick/ZS6BUN (A25BUN).

AL0/KL7, ALASKA (IOTA Op). Lanny, W5BOS, informs OPDX that he will operate from 2 islands in Alaska between August 2-7th. The first will be a new IOTA, Semidi Islands (NA-235/P) using the callsign W5BOS/KL7. All of the Semidi Islands and associated rocks are part of the National

Wilderness Preservation System, and as a designated Wilderness, it is closed to mechanical equipment such as generators. This operation will be battery power only. The second operation will be from Unavikshak Island (NA-238) using the callsign W5BOS/AL0. This island was activated last year, but conditions were very poor and Lanny wants to give the guys that missed it another chance. QSL both operations via N6AWD.

BS7H PRESS RELEASE #14 (June 9, 2007): LOTW upload for donors
"Today the BS7H team uploaded to the ARRL LOTW website a partial log containing QSOs for those DXers who supported BS7H with donations sent either via the website credit card procedure or thorough the mail in form off the website.
This was a special 'Thank You' to those who made the effort to support our operation. The cutoff date of this log is as of today's website donation listing.
The there will be additional periodic uploads of the log to LOTW as QSLing proceeds, and a full upload will be done as soon as the bulk of the direct QSLs are answered.

Direct cards are expected to start going out in early July.

The 2007 DXpedition to Scarborough Reef again wishes to thank those who helped make this happen. We could not have done it without your support." 73 -- The 2007 BS7H Team

CS6, PORTUGAL (Special Event). Operators Jose/CT1EHX, Toze/CT1GFK, Goncalo/CT1GPQ, Miguel/CT1IUA, Rui/CT2IHP, Jose/CT1DVG, Jose/CT1EPS, Arnaldo/CT2IOV and Antonio/CT2IOU will be active as CS26X betwen July 16-22nd. Activity will be on 160-6 meters including the WARC bands, CW, SSB and RTTY. The activation is to celebrate the local meeting of the 26th International Motard Meeting of Faro (organization Moto Clube Faro). QSL via CT1EHX, by the bureau or direct.

EA6, BALEARIC ISLANDS. Jorge, EA8TL, will be portable /EA6 from his mobile between July 31st to August 24th as he visits Ibiza and Formentera Islands this summer. Using an ICOM 706 MKIIG (100w HF and 50w VHF) Transceiver, look for Jorge to be active on 80, 40, 20, 17, 15, 12, 10 and 2 meters SSB. Antennas are: Eco Veicolare (mono-bands).

HB0, LIECHTENSTEIN. Look for six operators from the Flying Dutch DX Group to be active from Triesenberg as HB0/PA0ABM, June 15-22nd. Their activity will be on 160-10 meters CW, SSB and some digital modes with two stations. QSL via PA0ABM, direct or by the bureau. Logs will be uploaded to LoTW and available online at: http://www.logsearch.de/

I1, ITALY. Paolo, F8ENY, will be active as I1/F8ENY/p from the Piemont Province. He will be operating mainly CW as QRP with an Elecraft K1 and wires. QSL via F8ENY, by the Bureau or direct.

IOTA NEWS.....
AF-004. Wilko, PA3BWK, will be active as EA8/PA3BWK from the Island of Lanzarote (DIE S-007, Punta Pechiguera lighthouse FEA

D-2782, WLOTA LH-0099, WW Loc. IL38BU), June 10-16th. Activity will be on 40-10 meters, mainly CW, at 10 kHz up from the lower band edge. QSL via PA0ZE (QRZ.com).

AF-018. Operator Giuseppe, IT9BLB, will be active as IH9/IT9BLB from Pantelleria Island during the RSGB IOTA Contest (July 28-29th) as Single-Op/All-Band entry. QSL via his home callsign.

AF-019. Operators Isido/I1XOI, Piera/IK1AIF, Mario/IW1PZC, Giovanni/ IZ1DFG, Giorgio/IZ1HGP, Mauro/IW2KVT, Giuseppe/I2AZ and possibily Emanuele/IW2NOD will be active as IG9/homecall from Lampedusa Island (AG-001, MIA MI-126, WLOTA LH-2312) between now and June 19th. Activity will be on the HF bands plus 6 and 2 meters, CW and SSB. QSL via their home callsigns, direct or by the bureau.

AS-017. Operators JA1KJW, JJ1JGI, JK1EBA and 7N4AGB will be active from Okinawa Island (JIIA AS-017-033, WLOTA LH-0275) as homecall/JR6, June 15-18th. Activity will be on the HF bands and 6 meters CW and SSB. QSL via their home callsigns, direct or by the bureau.

AS-151. Zhang, BD3APX, will be active as BD3APX/2 from Juhua Island between June 29th-July 1st. Activity will be on 40-10 meters on CW, SSB and Digital modes. QSL via BD3APX.

EU-067. Members of the SV DX Group will be active as SY8AN from Antiparos Island (MIA MG-016) between now and June 17th. Activity will be active on all bands CW, SSB and RTTY. Operators mentioned are: SV1GE, SV1AAU, SV2DGH, SV1DPJ, SV2FWV, SV2HNC, SV0XAD and DH9VA. QSL SY8AN via SV2DGH. Information can be found at: http://www.sv2dgh.gr/sy8an

EU-071. Kent, SM5ELV, will be active from Heimaey Island [also known as Vestmannaeyjar] (also counts for WLOTA LH-0976) between now June 13th. Activity will be on most of the HF bands and modes, depending on conditions. He will use an IC-706 with 100 watts into a vertical and maybe a dipole. Kent will also possibly try 6 meters and some Digi modes as well. QSL via his home callsign.

NA-122. Herman, ON4QX and a group from the Dominican Republic will activate Cabras Island as HI0C between June 11-17th. Cabras has not been on the air for at least 18 years. They plan to have fours stations on the air: HF, 6m, 2m, SSB and RTTY. QSL via ON4IQ.

NA-231. Operators Cezar/VE3LYC and Ken/G3OCA are all set to go on schedule to activate East Pen Island between July 20-22nd. They will use the following callsigns: VE3LYC/VY0 (Cezar) and VY0/G3OCA (Ken). According to Canada/U.S. treaty, stations from either country that operate portable from any

region within the territory must use the identifier as
suffix (VE3LYC/VY0). All other stations have to use the
identifier as prefix (VY0/G3OCA). QSL via VE3LYC, direct or
by the bureau (G/GM/GW/GI stations can confirm via G3OCA).

OC-185. Operators Stuart/VK8NSB and Joe/VK8VTX are expected to
activate Elcho Island, in the Northern Territory (Arafura
Sea coast) East Group, between June 15-19th. The callsign
has not been announced yet. Activity is planned for 80-10
meters CW, SSB, PSK and RTTY, with two stations on the air
(1 digital and 1 CW/SSB). QSL via VK6NE (QRZ.com).

SA-089. Members of the 4M5DX Group will be active as YW1DX from Cayo
Sombrero during the next IOTA Contest (July 28-29th) as a
Multi-Op/Mixed-Mode/High-Power entry in the DXpedition cate-
gory. The team consists of: Alex/YV5SSB, Jose/YV5TX, Julio/
YV1RDX, Jesus/YV5MSG, Olli/YV5WW (OH0XX), Greg/YV5OHW and
Pasquale/YV5KAJ. They hope to be on the island Friday the
26th in order to set up and activate the island on WARC
bands before the contest starts. Activity during the contest
will be on 80/40/20/15/10 meters, CW, SSB and RTTY. After
the contest, they hope to be on 160-10 meters and the WARC
bands. Visit the group Web page at:
http://www.yw1dx.4m5dx.org
Online log will be at: http://logsearch.de
QSL Manager is IT9DAA: Corrado Ruscica, P.O. Box 1,
96018 Pachino 1 (SR), Italy.

KH3, JOHNSTON ISLAND. As this was being typed, Skipper of the USSV
Dharma, Susan Meckley, W7KFI, informed OPDX that she is enroute to
Johnston Island and should be there by the end of of week. Activity
will be on 80-10 meters on SSB and CW, usually at 036 above the bottom
of the band. Susan is expected to be here for about a week before
heading to Marshall Islands (3 weeks further south west). By the way,
Susan is a 70 year old grandmother who has been sailing all over the
Pacific. This amazing lady is an interesting story. It is highly
recommend to visit the following Web pages to see where she has been,
and there is a Real Audio recording of her radio interview with Art
Bell. Visit the Web pages at: http://ussvdharma.net
http://www.qrz.com/callsign/W7KFI
ADDED NOTE: Track her ship, the USSV Dharma, by putting in her callsign
W7KFI at the following Web page: http://www.shiptrak.org

KP3, PUERTO RICO (Special Event). If you heard and worked KP3RE this
past Saturday, June 9th, between 1300 and 1800 UTC, it was a special
event station that was active from the Jesus T. Pinero Museum in the
City of Canovanas, Puerto Rico. Jose, KP4VP, informs OPDX that Mr.
Jesus T. Pinero was the first Puerto Rican Governor appointed by the
President of the United States in 1948. In addition, he was one of the
first amateur radio operators in Puerto Rico (KP4 Land). The Museum is
actually his former residence, and the main focus at this time is to

highlight his life not only as a former Governor, but also his human side as a Amateur Radio Operator. Please refer to the following link which gives more details regarding this special event at: http://kp3re.tripod.com/eventojesustpinero.htm

LIGHTHOUSE ACTIVITIES.....
Look for Phil, F5OGG, to be active as F5OGG/p from the Noirmoutier Lighthouse (WLOTA 1224 and also EU-064) during the next WLOTA Contest (June 30th-July 1st) but only on June 30th. Activity will be on 20 meters CW/SSB. There will be no precontest activity. QSL via his home callsign. For more info on the WLOTA Contest, visit the WLOTA Web page at: http://www.wlota.com

Members of the F6KMB ARC will be active as F6KMB/P from Dunkerque West Pier Lighthouse (PB 201, for the French Onshore lighthouses Award - DPLF). Activity will be on all HF bands, SSB and CW.

Look for the special callsign PB6KNRM to be activate on June 30th from the Noordwijk Lighthouse (ARLHS NET-019), located in Zuid-Holland Province, on the North Sea coast. Also, on this day, the KNRM-lifesavingboat will be delivered at KNRM-post Noordwijk. QSL via PA7DA. Notes: Old records indicate that a light was in use at Noordwijk in 1444 to help fishermen. Other lights have succeeded it since then. The current lighthouse, built in 1921-22, was declared a national monument in 1980. It was reportedly under restoration in 2004. Nearest town or city: Noordwijk aan Zee, Netherlands.

Members of the Cofresi Radio Club will activate the "Los Morillos Lighthouse" (WLOTA 2802 and ARLHS PUR-002), also known as "Cabo Rojo Lighthouse", located in the city of Cabo Rojo, Puerto Rico, as WP4NRT during the next WLOTA Contest (June 30th-July 1st). Activity will be on 80-10 meters, SSB and the Digital modes. QSL via WP4NRX.

OX. GREENLAND (NA-018). Operators Jurgen/DJ5HD, Wolfgang/DJ5ZWS and Jan-Ole/DB8JO will be active as OX/homecall, June 15-24th. Activity will be on all bands and modes. QSL via their home callsigns.

NEVER GIVE UP! Gabe, KP4BJD, informs OPDX that he was pleasantly surprised this past week when he received a QSL card from WA6DDR/KM6 (Midway Island) for a QSO he made on the 29th of May in 1963 on 20

meters SSB. Gabe states, "The operator Mac soon after retired from the U.S, Navy... his callsign is now K4RBM. Mac went to the Dayton Hamvention for his first time this year, 'enjoyed it a lot' ..and it seems to sparked his interest all over again .. enough to catch up with old QSL cards he had not answered ... So, there's hope for those who wait, if they have 'enough' patience."

N8S QSL STATUS. Dragan, YZ1EW/RA4U, reported on June 8th that the first batch of 1000 N8S QSL cards were mailed. Other cards will be mailed in the next 30 days.

YW0DX (Wrap-up). OPDX was informed that the log is uploaded to LoTW. Conrad, IT9DAA, states, " This DXpedition (to Aves Island - NA-020) was a success although there was not much time to operate and we had fewer operators than expected. Hence we had to adjust our operating plan and concentrate on the low bands and RTTY. Unfortunately, the planned schedule of our Naval Army could not be altered, and therefore our length of stay on the island had to be cut short. Our on-the-air time was subject to numerous interruptions due to maintenance required to keep the local generators running. Aves Island was on the air from February 8-13th, 2007. Despite the difficulties involved, our final score reached 23,000 QSOs - quite good for just 70 hours of operating. Regrettably, propagation conditions on the high bands were not favorable. Anyway, heavy pileups on 160m and 80m proved an unforgettable experience. Logs, video, photos and QSL design from the DXpedition can be seen at: http://yw0dx.4m5dx.org/ "

QSLS VIA LOTW: BX5AA, CU3AL, HV0A, IZ0FKE, MJ/K8PT and RX3AGD

QSLS RECEIVED VIA MAIL: 1A4A, 9A2AJ, 9U0X, JW0HS, UK8DAN, UK9AA, V51AS and XF2K

SV/A, MOUNT ATHOS (Pirate Alert). Veronica, IK3ZAW/W6, writes to OPDX: "Hi - I am writing on behalf of Fr. Apollo, SV22ASP/A. Last month he has been quite active on SSB, CW, and RTTY (with over 1,500 QSOs in the log). HOWEVER some idiot who did not have anything better to do with his time, transmitted using his callsign on CW while Fr. Apollo was operating on phone! Fr. Apollo thus asked me to clarify that on 5/16/07 11:00pm-2:00am he was operating PHONE. CW CONTACTS AT THIS TIME ARE PIRATE. All other CW contacts should be ok. He has received a lot of cards for contacts that are not in his log (occurred at the time I indicated above), and he is feeling really bad for those who are writing him, wasting their time and money. He is really busy right now, as the Fathers are building three big cisterns for the monastery, so he does not forsee any further activity for awhile. I would really appreciate if you could spread this message through your respective bullettins. Thank you very much in advance.... 73s Veronica IK3ZAW/W6"

TA, TURKEY. Charlie, GI4FUE, will once again be active as TA4/GI4FUE from Marmaris, Turkey, June 12-24th. Activity will be holiday style and mostly on 30/20/17/15/12/10 meters CW. He hopes to be able to take a portable 6 meters antenna with him to activate KM46du. QSL via his home

callsign.

TI9, COCOS ISLAND. Henry, TI2HMG, states, "After the big success of TI9M we start again! The next DXpedition to TI9 will depart in February 2008! Become part of an exciting adventure! Write to: ti2hmg@qsl.net" Visit the following Web site, and you can even fill out an application form to become a team member of this DXpedition at: http://www.qsl.net/ti2hmg/cocos.htm

TO5, MARTINIQUE (NA-107). Alain, F5LMJ (ex-XT2C), will be active as TO5J from the city of the Francois between July-14-28th. Activity will be mainly on CW and the digital modes. QSL via his home callsign, but all QSOs will be confirmed automatically via the bureau and LoTW.

V3, BELIZE. Colin, KU5B, will be active as V31UB from July 12-17th. He will be operating mostly nights on both HF SSB and CW with a minimal plan to operate on 6m. Colin is also planning to operate in the IARU Contest (July 14-15th) that weekend with a category still yet to be decided. QSL via KU5B.

V60, MICRONESIA. Six members of the Japan Amateur Radio League (JARL) Kyoto Club, will be planning a DXpedition to the Federated States of Micronesia (FSM) this summer. This is one of the events celebrating the club's 60th anniversary. Activity will be from the South Park Hotel on Pohnpei Island (OC-010) between July 30th and August 5th. Operations will be on 160-6 meters CW/SSB/FM/RTTY/PSK31, depending on the band conditions. The team has been allowed to use the special, brand new V60 prefix to celebrate their club's 60th anniversary (thanks to Mark DeOrio, Frequency Manager at the FSM Department of Transportation, Communications & Infrastructure). Look for the following callsigns (w/QSL routes) to be used:

Callsign	Operator	QSL route	Callsign	Operator	QSL route
V60YAQ	Club Stn.	JI6DUE	V60KL	Kenji	JN3JBC
V60DU	Hidenori	JI6DUE	V60TI	Tetsuya	JA3UWB
V60IL	Masato	JF3PLF	V60TX	Shozo	JH3TXR
V63JJ	Kazuo	JA3ART			

All operators accept QSL card(s) via the bureau. Visit their Web page at: http://www.ja3yaq.ampr.org/v6/

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

HB0 - LIECHTENSTEIN
Six OPs of the "Flying Dutch DX Group" are going to Triesenberg in
Liechtenstein to hit the airwaves as HB0/PA0ABM from Jun 15-22. They
are working with two stations in CW/SSB/digital modes on 160-10m.
Online logs will be made available at: http://www.logsearch.de
QSL via PA0ABM, direct, via bureau or LotW.

HI - DOMINICAN REPUBLIC, NA-096
Dave,NA6DF/HI7, is going to spend his holidays in Punta Cana from
Jun 14-23. He will work with QRP in CW/SSB on 10-20m. QSL via NA6DF.

KH3 - JOHNSTON ATOLL, OC-023
Susan,W7KFI/mm, left Hawaii on her yacht "USSV Dharma" with destination
Johnston atoll this monday. She expects about six days of travel so be
aware that she might show up as KH3/W7KFI already this weekend. She
will be QRV for one week, prefers working in CW on following QRGs:
14.036, 14.236, 7.036 MHz etc. Susan is using a FT-847 for CW and an
IC-718 for SSB. Her QSL manager is K6FAF. She would also use the LotW
but never found out how to use it properly. Her next planned stops are
V7, T32 and then the Southern hemisphere.

KP4 - PUERTO RICO, NA-099
Pietro,IT9OPR, will spend his holidays on Puerto Rico (NA-099) from
Jun 15-28. He might show up as guest OP from the shack of Flavio,KP4AWX
or he might be underway with Pedro,WP4CCQ/m.

OX - GREENLAND, NA-018
Jan-Ole,OX/DB8JO (SSB), Juergen,OX/DJ5HD (CW), and Wolfgang,OX/DJ5ZWS
(RTTY and PSK31), announced to become QRV from Nuuk/Greenland (NA-018)
on 10-80m from Jun 14-25. QSLs via their homecalls.

T9 - BOSNIA-HERCEGOVINA, 9A - CROATIA
Zik,VE3ZIK (DO7ZZ), will stay in Bilice/Croatia between Jun 16 and

Sep 5 . He plans to activate at least one IOTA island as 9A/VE3ZIK during this time possibly also during the IOTA Contest. He will work with 100 watts and a wire for all bands in CW/SSB/RTTY/PSK31 and in FM on 29.600 MHz.
He also plans to show up as T9/VE3ZIK from Jun 20-27 and from Sep 5-10.
Zik's homepage can be found at: http://www.qslnet.de/ve3zik
Bureau QSLs may be requested via e-mail to zik@tiscali.de but all other QSLs should be sent via bureau to DL3PS.

TA - TURKEY
Charlie,TA4/GI4FUE, spends his holidays in Marmaris from Jun 12-24. Of course he will also indulge in his hobby and plans to show up mostly in CW on 30/20/17/15/12/10m. He hopes to find some space in his luggage for his 6m portable antenna as well.

TZ - MALI
Fredo,TZ/TU5GV, can be found on 10-80m until Jun 15.
Please send your QSLs direct or via bureau to F4DXW.

VP6 - PITCAIRN ISLAND, OC-044
VP6TD who will stay on Pitcairn until August 2008 showed up on the air already. He was spotted in PSK on 14.070 MHz from time to time.
See also DXNL 1517.

3B7 - ST BRANDON ISLANDS, AF-015
Due to an engine breakdown the 3B6SP team had to land on Raphael Island belonging to St. Brandon. The team obtained the permission to work as 3B7SP (instead of 3B6SP) while their catamaran "Josephina" is repaired there. More updates can be found at: http://3b6.godx.eu

9X - RUANDA
Vlad,UA4WHX, hit the airwaves as 9X0VB during the first week of June. He is travelling Africa and the Indian Ocean for several months now and still it is not known where he will go next and how long he will stay there. As usual he is working in SSB/CW on most of the HF bands. Vlad is the guest of Colonel Diogene Mudenge,9X1AA, a high ranking officer of the defense ministry in Ruanda. Rumours say 9X1AA plans to found a national amateur radio society in Ruanda.
QSLs for this and all other activities of UA4WHX will be managed by Vlad himself after his return home and nobody knows when this will be.

CROATIA, SPECIAL EVENT STATION
The special event station 9A07P is working in all modes on all bands from the city of Djurdjevac between Jun 1 and Dec 31.
QSLs will be sent automatically via the bureau.

BELARUS, SPECIAL EVENT STATION
Members of the Borisov Amateur Radio Clubs (BARC) can be found working on the air as EW905B until Nov 30. This call celebrates the 905th anniversary of the city of Borisov. QSL via EW2EO.
Check also their homepage at: http://www.qsl.net/ew2ww

PIRATE
Apollo,SV2ASP/A, was very active and made more than 1500 QSOs in CW,
SSB and RTTY during the past time. But Apollo writes also that his call
was abused in CW by a PIRATE on May 16/17 (2300-0200 UTC) while he was
working in SSB at the same time.

LINKS: Very interesting slide shows about the trips of Susan A Meckey,W7KFI,
can be found at: http://ussvdharma.net/photofolio/index.php

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Jun 16/17: JARL All Asian DX Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-034, ES0, Saaremaa County: Frank,DL1FT, will be QRV as ES0FTZ from Saare-
maa from Jul 11-21. More info via: http://www.funkexpedition.de/estland

EU-057, DL, Bock Island, GIA O 04: The island Bock will be activated for
the very first time on Jun 16 from 0700 UTC until the late afternoon.
DL5KVV/p and DL5CO/p will work on the usual IOTA frequencies.
QSLs via the DARC bureau to their homecalls.

EU-060, SV, Skyros: SV2FPU, SV2HNZ, SV2HOB, SV2HPP, SV2HPY, SV2HRT, SV2HSV
and SV2GNQ of the "White Tower DX Team" will use the call SY8WT on
Skyros (EU-060) from Jun 16-22. QSL via SV2HPP, via bureau or direct.
Their homepage is: http://whitetowerdxt.com/content/view/50/87/lang,en

EU-138, SM7, Blekinge County: Bernd,DL8AAV, will be on the air as SD1B/7
from Aspoe Island between Jun 18 and Jul 1.

EU-181, LZ, Bulgaria Group: LZ/G0SGB/p will be QRV from Sveti Ivan Island
on Jun 16/17. QSL direct via homecall.

OC-268, YB, Payung Payungan, Laut Kecil Islands: Fuadi,YC7IM, and friends
will show up as YE7M on 40/20/17/15/10m from Jun 22-24.
QSL via YC7IM (H.M. Fuadi Yatrin, P.O. Box 195, Banjarmasin 70000,
South Borneo, Indonesia).

GOOD TO KNOW...

The new IOTA Directory 2007 has been published lately and can be bought
at the RSGB booth on the HAM RADIO fair in Friedrichshafen or via DK1RV, not
earlier than Jun 15.

FM1HN (direct, NOT via K3PD anymore): Tijus Julien, Mayson No 132,
Rue Edouar-Jeanne, F-97200 Fort de France, Martinique

N8S QSL cards: Dragan,YZ1EW, writes that the first 1000 direct QSLs were
mailed on Jun 8 and the rest of the mail will be answered within the
next 30 days.

4U QSL cards at the HAM RADIO: Missing QSLs for contacts with 4U1UN, 4U60UN,
4U1ITU and 4U1WRC (since 1985) can be obtained at the booth of the
"SDXF" (Swiss DX Foundation) on the HAM RADIO fair in Friedrichshafen
on Friday (Jun 22) and Saturday (Jun 23). Please bring all your QSO
information along and watch out for the times printed at the booth.
The QSL manager can only confirm those 4U1ITU and 4U1WRC QSOs which can
be found in the online log: http://life.itu.ch/radioclub/4u1/index.php

Elvira,IV3FSG, can be found at the Croatian booth on the HAM RADIO writing
out QSLs for XT2SE and 5V7SE on Jun 22/23 from 1400-1600 and on Jun 24
from 1000-1200.

QSL via direct: V51AS

QSL via LotW: BS7H, but only for the sponsors. The rest of the log will
be uploaded as soon as all direct QSLs have been confirmed.

Many thanks for contributing to this issue of the DXNL are going to:
Carl Smith (QRZ DX), 425DXNews, OPDX Bulletin, DF6EX (fuer WIN-QSL), DJ5AV,
DK8JB, DL1SBF, DL3IE, DL5KVV, DL5MO, DL7VOA, F5NQL, HB9BOU, VE3ZIK, YZ1EW,
9A2JK and others.

Ohio/Penn DX Bulletin No. 813

The Ohio/Penn DX PacketCluster
DX Bulletin No. 813
BID: $OPDX.813
June 18, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, K3UK, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, KG6ZWD, W7KFI, K8YSE, N8DX, Pete's-DX-Newsdesk, 4X1VF, CX4CR, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, PY1NEZ, RSGB IOTA and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 10th/June, through Sunday, 17th/June there were 208 countries active. Countries available: 3A, 3B7, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4U1U, 4W, 4X, 5B, 5H, 5R, 5T, 5V, 5X, 5Z, 6W, 6Y, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9X, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD9, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON ISLANDS (DXpedition Update). DXpedition leader, Witek, SP9MRO, and his team continue to be very active from St. Brandon Island until June 20th. Meanwhile, online logs are now available on the Web site as well as a daily diary by Wojtek, SP5BFX. QSL via SP9SX. For more details and updates, visit the 3B6SP Web page at: http://3b6.godx.eu/

4X7, ISRAEL (IOTA Op). Members of the Holyland DX Group will be active as 4X7AZ from Akhziv Island (AS-100, MIA MIR-001) between 0700z July 28th and 1200z July 29th. Operators mentioned are: Mark/4Z4KX, Ros/4Z5LA, Yuli/4X6HP, Reuven/4Z5FI and Jan/4X1VF. Activity will be on 80-10 meters, CW and SSB. They plan to have two stations on the air. Look for 4X7AZ to participate in the IOTA Contest. QSL via 4Z5LA. For more information, including a log search, visit the following Web page at: http://www.4z5la.net/4x7az/

9U, BURUNDI. Sigi, DL7DF, will be leading a team of operators to East Africa to be active as 9U0A between late evening (local time) September 26th and October 9th (noon local time). Operators mentioned are: Manfred/DK1BT, Wolf/DL4WK, Sigi/DL7DF and XYL Sabine, Jan/DL7UFN, Frank/DL7UFR and Leszek/SP3DOI. Activity will be on on 160-6 meters on CW and SSB. One station will be exclusive on RTTY, PSK31 and SSTV. There will be a special emphasis on the lower bands and digital modes. Pilot station for this DXpedition is Bernd, DF3CB. The QSL route is via DL7DF, either by the German QSL Bureau (DARC) or direct to: Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany. More info, plus an online log as well as updates during the their DXpedition will be available via the Web page at: http://www.dl7df.com/9u/index.html

9X, RWANDA. Vladimir, UA4WHX, continues to be active as 9X0VB from Kigali and states he will probably be around there for a while.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, announced that the DXCC staff and approved card checkers will be checking cards in Germany for Ham Radio Friedrichshafen during all operating hours of the convention June 22, 23 and 24, 2007. There is a 120 card limit per applicant. Larger applications may be checked as time is available after all other applications are finished. PLEASE READ the important information listed on the DXCC Dialog Weblog page before attending at: http://www.arrl.org/blog/DXCC%20Dialog

HB0, LIECHTENSTEIN. On their way to Friedricshafen, operators Gerard/F2JD, Davy/F5JY, Alan/F6BFH and Robert/N6OX will be active from here as HB0/homecall from June 19-22nd. They will be on CW and SSB, and the HF bands plus possibly 6m.

HI, DOMINICAN REPUBLIC. Dave, NA6DF, is expected to be active as NA6DF/HI7 from Punta Cana until June 23rd. Activity will be holiday style and QRP with most of the operations on 20-10 meters, CW and SSB. QSL via his home callsign.

HP2, PANAMA (IOTA Op). Members of the Uruguay DX Group plan to activate Wichubwala Island in the San Blas Province Group (NA-170) between June 22-28th. The operators mentioned are: Mario/CX4CR, Bert/CX3AN and Gus/CX2AM. Look for them to sign HP2/homecall. Activity will be on 80-6 meters CW, SSB and the digital modes. QSL via CX2AM. For more info, please visit their Web page at: http://cx2an.servehttp.com/hp2

IOTA NEWS.....
EU-060. (Update) Members of the White Tower DX team will be active

from Skyros Island (MIA MG-115, WLOTA LH-2002) between now and June 22nd. Operators mentioned are: Peter/SV0XAW, Giannis/SV2FPU (WTDX Team Leader), Babis/SV2HNZ, Christos/ SV2HOB, Nikos/SV2HPP, Giannis/SV2HPY, Paul/SV2HRT and Dimitris/SV2HSV. The DXpedition team will be using the special callsign SY8WT. Activity will be on 160-6 meters on CW, SSB, RTTY and PSK31. QSL via SV2HPP. For more details on this DXpedition and a list of frequenncies, visit the White Tower DX Team Web page at: http://www.whitetowerdxt.com

EU-102. Operators Albert/UA1PBU and Mike/UA1QV will be active as UE1RFF/1 from an island in the Pechorskoye Sea Coast Centre Group, June 21-24th. QSL via UA1RJ, direct or by the bureau. This island is also in the Nenetskiy State Nature Reserve and counts for RFF-61 for the Russian Flora Fauna Award; information is available at: http://www.hamradio.ru/rrc/AWARDS/rffa_e.htm

EU-138. Bernd, DL8AAV, will be active as SD1B/7 from Aspo Island between June 18th and July 1st. Activity will be on all HF bands, but SSB only. QSL via his home callsign.

NA-128. Operators Igor/VE3ZF, Alex/VE3KF and Nick/VE3FJ will be active as VE2IDX from Orleans Island (QC-007 for the Canadian Islands Award) hopefully before sunset on June 29th. Activity will be for a couple of days, but their main goal is to participate in the RAC's 2007 Canada Day Contest (July 1st). For details on the rules for this contest, go to: http://www.rac.ca/downloads/2007CanadaDayContestRulesEnglish.pdf Activity will be on 80-2 meters, but their main frequencies are: 14260 kHz (daytime), and 3795 and 7260 kHz (during the night). QSL direct to VE3ZF: Igor Slakva, 105 La Rose Avenue, Apt. #803, Etobicoke, Ontario, M9P 1A9 Canada.

NA-140. Operators Steve/NY3A and John/N3DRA will be active from James Islands (Dorchester County, Maryland) as NY3A during the RSGB IOTA Contest (July 28-29th). With this activity they plan to qualify James Island (in the Chesapeake Bay) for the United States Island Award as reference number USI MD-011. Activity will be on 80-10 meters. QSL via NY3A.

SA-077. Brazilian operators Carl/PU1NEZ, Charles/PU1UZH, Tony/ PY1AAV, Vieira/PY1LVF, Flavio/PY1NDK, Lima/PY1NEZ and Rick/ PY1VOY will be active as PY1ERR/p and possibly as homecall/p from Santana Island (ARLHS BRA-062 and WLOTA-0714), July 12-15th. Operations will be on the usual DX, LH and IOTA frequencies, 80-10 meters, CW and SSB. Activity is in conjunction with the Cultural Center of Scout Movement of Brazil (CCME) in association with the Rio de Janeiro Branch of Brazilian Boy Scout Association (UEB - PY1ERR) as a Scouting Movement Centenary celebration event. QSL Manager is PY1NEZ; either direct or by the Bureau.

KD8, UNITED STATES (USI Op). Operators Dan/KD8DFD and Renice/KD8DWU will attempt to qualify Duck Island (USI MD-030, Washington County, Maryland) in the Potomac River for the first time on July 28th. Activity will be on 40 and 20 meters, mostly SSB, plus 2 meters. QSL via the USI eQSL or the callbook address.

KH3, JOHNSTON ISLAND (Delay and Update). Skipper of the USSV Dharma, Susan Meckley, W7KFI, informed OPDX that she had to return to Honolulu (while enroute to Johnston Island) because of a bad toothache. She stated that it was unbearable, but was glad that she was able to turn around and go back to Honolulu to visit an oral surgeon. Susan will again attempt her trip to Johnston Island in less than two weeks. It will take about a week to travel there. Susan likes to operate and prefer the CW mode (she states "I can get many more QSOs in"); usually 36 kHz up from the bottom of the band (14036, 7036, etc.). She will also operate SSB (ex. 14236 kHz), but can operate most anything upon request. Susan told OPDX that "I have been an active steady since 1952 and will only answer those stations using ENTIRE callsign....three letters are illegal. Might be old and old cranky sailor lady, however at almost 73 (ed. not 70 as first thought), I think I am allowed. Anyway, I am appalled at the lack of common courtesy on the bands anymore.....I don't have that many years left, but I will operate in the 1952 mode......Remember....Life is sexually transmitted." OPDX would like to wish Susan a speedy recovery. Also, once Susan starts traveling again and becomes active, she would like to hear from you as to where to go next in the area she is in. She would like to visit rare DX spots over next 3 years in the South Pacific.

KP4, PUERTO RICO (NA-099). Pietro, IT9OPR, will be active from here between now and June 28th. Activity will be holiday style from the QTH of Flavio, KP4AWX, as well as mobile operation with Pedro, WP4CCQ.

P4, ARUBA (SA-036). John, W2GD, will be active as P40W during the IARU HF World Championship Contest (July 14-15th), CQ World Wide DX SSB Contest (October 27-28th) and CQ World Wide DX CW Contest (November 24-25th). All will be Single-Op/All-Band entries. QSL all activities via N2MM. Logs will probably be loaded on LoTW upon his return to USA.

PC650, THE NETHERLANDS (Special Event). Look for special event station PC650EDAM to be active starting June 19th through July 1st. Activity will be by several operators to celebrate the town Edam's 650th anniversary. QSL via PD3BL. An award is available; see information on the Web page: http://www.veron.nl/afdeling/waterland/
[Click on "Laatste Nieuws"]

QSL INFO AND NEWS.....
QSL routes provided by Johannes, DK8JB:
2E0WHG via M3WHG 8S8TBS via SM0LQB
3Z100S via SP6ZDA 9H1SP direct
7S7Y via SM7VZJ A92FF direct

4U QSLs AVAILALBE AT HAMRADIO 2007 (in Friedrichshafen). QSLs for the 4U stations for QSOs made after 1985 will be available at the Swiss

DX Foundation (SDXF) booth at the "HAMRADIO 2007" in Friedrichshafen, on Friday/Saturday, June 22-23rd. Bring your QSO data with you and please observe the working hours of the QSL Manager which will be published/listed at the booth. The QSL Manager will confirm the 4U1ITU and 4U1WRC QSL cards only if your QSO is in the 4U1ITU online log at: http://life.itu.ch/radioclub/4u1/index.php
(Info HB9BOU-4U1UN, OM1AM-4U1ITU)

AH8DX BUREAU QSLS. OPDX has been advised that QSL cards that go to Craig, AH8DX, via the ARRL 8th District QSL Bureau are being thrown out. Jack, N8DX, who helps sort cards at the 8th area Bureau, reports that AH8DX no longer accepts cards via the W8 Bureau. This is from Geary, KG8DH, who handles the 8th area "D" segment for the QSL Bureau. About half of the cards in the "D" bins are for 8R1EA via AH8DX. So please don't waste your time and your QSL cards sending via the Bureau to AH8DX.

QSLS VIA LOTW: E51QMA, E51TUG, DJ2BW, OE2S, PY7RP, RN3QO, SP1NY, PY7RP and VP2ERV

QSLS RECEIVE VIA MAIL: 1A4A, 3D2TZ, 7O1YGF, 7Q7AM, 9Q1TB, 9U0X, A41LD, FP/K8MM, IA0IPY, JA7QVK/DU7, JJ8DEN/JD1, KH8/AI4VU, N8S, OX60AD, SV2ASP/A, TA2BK, TG9ANF, TL8QC, VU7RG, XT2C, ZK2PR, ZL7/KH0PR and ZM8CW

SV, GREECE. Art, KG6ZWD, will be active as SV1/KG6ZWD/P, July 11-15th and 24-25th from Nea Makri, Attica, Greece. He mentions that he will also be active as SV8/KG6ZWD/P from the Greek Aegean Island of Andros (IOTA EU-067), July 17-23. Activity will be limited because he is on vacation, but look for him on SSB and PSK31 on 40-10 meters. QSL via his home callsign, either direct, ARRL Bureau or eQSL.

WAS SPOTTING/SCHEDULING WEB PAGE. Andy, K3UK, has added an interesting Web site for individuals who are trying to earn their WAS. The Web site is called "The K3UK Worked All States Interactive Sked Page". The site is used for arranging QSOs for WAS . Andy states, "Feel free to post your operating frequency or the state you are looking for. Any modes, any bands."

I just built a new ham radio website that has ebay listings of ham
equipment, the latest ham radio news from all over the world, some
articles about the big three and more.
Come and visit and use the contact page to contact me and tell me what
you think, suggestions or comments would be appreciated.
http://www.amateurradios.info

Thanks,
Bill

DXNL 1524 - Jun 20, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

C5 - GAMBIA
Darren,G0TSM, is QRV as C52T mostly on 6m from Jun 19-29.QSL via G0TSM.

HB0 - LIECHTENSTEIN
On their way to the HAM RADIO in Friedrichshafen/Germany F2JD, F5JY,
F6BFH and N6OX will make a stopover in Liechtenstein. They will be
active as HB0/homecalls in CW/SSB on HF and 6m from Jun 19-22.

HP - PANAMA, NA-170
Bert,CX3AN, and Mario,CX4CR, are planning to activate an island in the
San Blas archipelago (NA-170) signing HP2/homecalls or 3E2/homecalls
from Jun 22-28. With this DXpedition Bert is going to celebrate his
"DXCC Full House" which he accomplished with his BS7H QSO. This is
already their 15th trip together after activating five continents over
the past 20 years.

J7 - DOMINICA, NA-101
J79RM will be the callsign of Rod,NA9N, in CW and digital modes on HF
between Jun 28 and Jul 5. QSLs via his homecall.

KH3 - JOHNSTON ISLAND, OC-023
Susan,KH3/W7KFI, should have appeared on the bands last weekend already
but strong toothache forced her to return to Honolulu only shortly
after leaving the port. She wrote this brings her a delay of two weeks
but you can expect her to show up from Johnston (OC-023) for one week
around Jun 30. Her preferred frequencies in CW are 36 kHz from the band
edge and in SSB 14.236. Her QSL manager is K6FAF.

KH6 - HAWAII, OC-019
Setsu,JL1UXH (KK2H), and his XYL Maki,7L4FSR, are working from Oahu
from Jun 19-22. The call of their "holiday style" DXpedition is
KK2H/KH6 and can be found mainly on the WARC bands (also in RTTY)
and on 6m. QSL via JL1UXH.

OZ - DENMARK
New prefixes have been issued in Denmark this March. Besides of OZ
following prefixes were assigned to amateur radio: OU, OV, 5P and 5Q.
The new call of Joergen,OZ8AE, will be OV3X. He has participated in
the WPX CW Contest as 5P1ER a few years ago and received many QSLs
for HP1ER afterwards.

3A - MONACO
Eli,N6PF, is celebrating his 60th birthday with a DX trip. He will be
guest OP of Laura,3A2MD, signing 3A/N6PF from Jun 25-30. QSLs via N6PF.

3V - TUNISIA
Matthias,DD9HK, will be guest OP at the clubstation 3V8SS from Jun 21
until Jul 5. QSLs ONLY for this operation of 3V8SS via DD9HK.

5B - CYPRUS, AS-004
Mike,G0HIO, will stay on Cyprus (AS-004) from Jun 23-30. He will work
with 100 watts and wires signing 5B/G0HIO in CW only. Skeds can be
arranged via e-mail to g0hio@tesco.net

FRANCE, SPECIAL EVENT STATION
TM0GP is working from the Formula 1 race course in Nevers Magny-Cours
between Jun 18 and Jul 1. QSLs will be sent via bureau automatically.

THE NETHERLANDS, SPECIAL EVENT STATION
The famous cheese city Edam is celebrating its 650th anniversary at
the moment and the special event station PC650EDAM (QSL via PD3BL)
is active until Jul 1. See also: http://www.veron.nl/afdeling/waterland

LINKS: Online logs of 3B7SP can be found at the following address:
http://3b6.godx.eu/index.php?option=com_searchlog&Itemid=68

Like every year there will be a DXCC checkpoint at the HAM RADIO in
Friedrichshafen. All information you need about that can be found at:
http://www.arrl.org/blog/DXCC%20Dialog

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Jun 23/24: King of Spain Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-050, IL7, Tremiti Islands: Antonello,IL7/IK2DUW, is working from the
island San Domino (IIA FG-001) until Jun 23. QSL via homecall (d/b).

EU-102, UA1, Pechorskoye Sea Coast Centre Group: UE1RFF/1 (QSL via UA1RJ)
activated by Albert,UA1PBU, and Mike,UA1QV, is QRV from Jun 21-24.

EU-121, EI, Irish Coastal Islands: EI/G3ZAY/p, EI/M0HSW/p and EI/M0TJH/p
will be QRV from Inishbofin Island from Jun 25-27. QSLs via homecalls.

Announced operations for the IOTA Contest 2007 (July 28/29):
Callsign Island IOTA

IH9/IT9BLB Pantelleria AF-018
4X7AZ Akhziv AS-100
F5OGG/p Noirmoutier EU-064
GM0B Isle of Bute EU-123
DR6IOTA Usedom EU-129
4M5DX Grp Cayo Sombrero SA-089

Oh sure, a "10 Meter Radios for the Professional driver" with "echo" and "talk back".

That's NOT a 10 meter radio with a 40 channel selector knob! That's a CB in disguise.

Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5LBU, W7KFI, K8YSE, N8DX, K9CS, Pete's-DX-Newsdesk, DK8JB, DL6KAC, DL7MAE & The DX News Letter, E21EIC, EA3GHZ, EA5RM, F5NQL & UFT, G0IAS, G0SFJ, I1JQJ/IK1ADH & 425 DX News, IK0REH, M0RNR, OE1WHC, RSGB IOTA, TA3YJ and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 17th/June, through Sunday, 24th/June there were 199 countries active. Countries available: 3A, 3B7, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6Y, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, CE, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2V, VP8, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Operator Slavo, SP2JMB, will be active as 3A2/SP2JMB between June 26-28th. Activity will be on 40m to 70cm on CW and SSB.

3B7, ST. BRANDON ISLANDS (DXpedition Update). DXpedition was expected to go QRT at/around 0600z, June 21st; QSL via SP9SX. For more details, updates and the log, visit the 3B6SP Web page at: http://3b6.godx.eu/

5X, UGANDA. Vladimir, UA4WHX, has left Rwanda and is once again active as 5X1VB. As always there is no indication on how long he will be there. He was heard this past weekend on 80/17/12 meters mostly CW. We were told by Allan, G0IAS, that Vlad wants to visit with Graham, 5X1GS, but it seems that Graham is in the UK at the present time. QSL via his home callsign, direct or by the bureau. It is recommend to send direct cards after his travels.

9X, RWANDA. Antonio, EA5RM, has announced that a multi-national team is planning to be on the air from Kigali this summer. Details will be announced later. Stay tuned!

A2, BOTSWANA (Update). Frosty, K5LBU/A25CF, announced this past week that his team operators will use the possible following SSB frequencies during their July 6-20th (possibly the 5th) operation:
Transmit Receive
1840 1845-1850
3790 3800-3810 also up at 3850-3860
7075 7185-7195
14220 14225-14230
14265 14270-14275
18145 18150-18155
21270 21275-21280
24935 24940-24945
28450 28455-28460
50110 50110
Frosty says that he has not received the CW frequencies from the CW operators on the team yet. He also mentioned that the team has been issued the callsign of A25HQ to use in the IARU Contest next month.

C5, THE GAMBIA. Andre, ON7YK, will once agin be active as C56YK from September 14-27th. Activity will be on 80-10 meters and also on 6 meter SSB. QSL via the info on QRZ.com.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports:
"The 2006 DXCC Yearbook - Jun 22, 2007 16:19 ET
The 2006 DXCC Yearbook is now at the printer and it is expected to 'hit the streets' in mid to late-July. While this is a little later than usual it is still within the DXCC timeframe for this publication.
In order to receive the free publication you must:
* Be current on the DXCC Honor Roll during the 2006 calendar year, or,

* Have made at least one submission to DXCC during the calendar year period of January 1 through December 31, 2006.

If you are not in the above categories, copies of this, and all editions back to the 1993 start, are available for $8.00 each (Includes postage). Contact DXCC for questions. 73 es DX!"

E2, THAILAND. Champ, E21EIC, informs OPDX this past week that he will be going to south Thailand on June 20th. He will operate as E21EIC/8 until June 30th. JA stations QSL via JR5XPG; all others via E21EIC.

FS & PJ7, ST. MARTIN AND ST. MAARTEN ISLANDS (Update/Survey). Operators Marq/CT1BWW, John/EA3GHZ and Tomas/EA5YH will be active as FS/homecall and PJ7/homecall between July 15-25th. The trio (with their XYLs) will start their activity on the French side of the island but will make visits to the Dutch side throughout their stay. Activity will be on 80-6 meters, CW, SSB and the digital modes. QSL via their home callsigns. Visit their very interesting Web page at:
http://www.dxciting.com/index.htm
They have also added to their Web page a survey to determine what bands and modes are needed the most for each entity. During their operation, visit the DXFUN Web page for updates, photos and logs. Their survey is also available on this Web page too.

HAMIGG (Ham Social Forum). Christian, DL6KAC, informs OPDX about a new project he has started last week called HAMigg (http://hamigg.de). It is a social bookmarking platform similar to digg.com (therefore HAMigg = Ham Radio + Digg). Christian states, "The big difference is HAMigg is limited to ham radio and technical topics only. In my opinion, Digg.com and all other platforms are heavily congested and it is really difficult to find the 'good stuff'. HAMigg is an effort to change this a bit. The idea is the following: Users can submit interesting stories or articles which they have found on the internet (DX news, websites, ham software [freeware], ham radio news in general etc.). Other users can vote on these stories via an interactive voting system. Submissions or articles which receive a lot of positive votes will rank high, others will rank lower, helping to sort the submitted articles. RSS feeds are available so that users can easily subscribe and stay updated once new submissions are online. In a nutshell it's all about content for hams by hams." Christian has compiled a more detailed write-up about the new project at:
http://ham-blog.de/radio-blog/2007/ham-radio-goes-diggcom-hamigg/

HB0, LIECHTENSTEIN. Pierre, HB9QQ, will be active as HB0/HB9QQ between June 29th and July 2nd and again between July 6-9th. Activity will be on the HF bands, 6 and 2 meters. QSL via his home callsign.

IOTA NEWS.....
AF-019. Giuseppe "Joe", I2AZ, is now active as IG9/I2AZ from Lampedusa Island (IIA AG-001). The length of his stay is unknown. I2AZ is only active on CW. QSL via the Bureau.

AF-104. (NEW ONE!) Operators Ivan/OM3CGN, Robert/OM1KW, Afif/7X2RO, Youcef/7X2HF, Sofiane/7X2GF, Faouzi/7X2FB, Frantise/7X0RY and Yves/7X0MT are expected to be active as 7U5CI from Cavallo Island in the Mediterranean Sea Coast East Group for the first time between June 23-28th. They plan to have three stations active with a spiderbeam and wire dipoles. Activity will be on 160-6 meters on all modes. This island is located between Bejaia and Jijel. QSL via OM3CGN.

AS-155. Operators Bill/BV8BC, Bob/BV8BQ, Cheng/BX8AAA, Chan/BX8AD, Max/BX8AE, and Ryan/BX8AG will be active as BV9G from Green

Island (also known as Lu Tao, WLOTA LH-0495) during the RSGB IOTA Contest (July 28-29th). QSL via BV8BC.

EU-008. Members of the Cockenzie and Port Seton Amateur Radio Club (CPSARC) will once again operate from the Isle of Tiree (IOSA NH04, WAB NM04), the most westernly part of Scotland's Inner Hebridean Islands, during the RSGB IOTA (Islands on the Air) Contest which runs from 1200z, July 28th to 1200z, July 29th, using the clubs special contest callsign GM2T. Pre-contest activity members will be signing as MM0CPS/P. CPSARC heavily supports newcomers to their wonderful hobby and has a large number of newly licensed members who are actively encouraged to participate in their contest effort, whether experienced or not. This way, not only does their hobby benefit from new operators, but contesting benefits as they invariably become bitten by the contest bug. This year's team consists of: Cambell/MM0DXC, Bob/GM4UYZ, John/ MM0JXI, Brian/M0RNR, John/MM0CCC, Landles/GM4XZZ, Willie/ MM0WZZ, Iain/MM1CPP, Gary/MM0FZV, Gareth/M3INO, Derek/ MM0WST, Colin/2M0CRR, Moe/MM0MRM, Geoff/MM5AHO, Ellis/GM4GZW and Innes/GM4VJV. QSL GM2T via the Bureau, or their QSL Manager GM4UYZ, by the Bureau or direct. Details are available at: http://www.qrz.com/gm2t
For details about CPSARC, visit their revamped Web site at: http://www.cpsarc.com

EU-031. Operators Luigi/IK8HCG, Salvatore/IK8UND, Mauro/IN3QBR, Walter/IZ8FDG, Walter/IN3XUG, Virgilio/IC8OZM and Paolo/ IC8DAK will be active as IC8R from Procida Island (IIA NA-002, MIA MI-080) during the RSGB IOTA Contest (July 28-29th). QSL via IC8OZM.

EU-042. Manfred, DF7FC, will be active as homecall/p from Langeness Island (N-19 for the German Islands Award) during the RSGB IOTA Contest (July 28-29th). His activity will be SSB only, with 100 watts. QSL via his home callsign; bureau is preferred.

EU-057. Joachim, DL5KUD, will be active from Ruegen Island (O-07 for the German Islands Award) during the RSGB IOTA Contest (July 28-29th). QSL via DL5KUD; bureau is preferred.

EU-115. Dez, G0DEZ, will be active as EI9JQ from Ireland during the RSGB IOTA Contest (July 28-29th). Activity will be on 80-10 meters, but low power. QSL via G0DEZ.

EU-123. Operators Colin/MM0NDX and Ian/GM1RIG will be active as homecall/p from Cramond Island during the RSGB IOTA Contest (July 28-29th). QSL via their home callsigns, direct only.

EU-127. Operator Jo, DL5AUA, will be active as homecall/p from Neuwerk Island (N-12 for the German Islands Award, ARLHS

FED-165, TWLHD WLH DL-019, WLOTA LH-2311) during the RSGB IOTA Contest (July 28-29th). QSL via his home callsign.

EU-128. Holger, DL5XAT, will be active as homecall/p from Fehmarn Island (O-01 for the German Islands Award) during the RSGB IOTA Contest (July 28-29th). QSL via his home callsign.

EU-129. Members of the club station "des OV Konigs Wusterhausen" (DL0KWH) will be active as DL0KWH/p from Usedom Island (0-13 for the German Islands Award) during the RSGB IOTA Contest (July 28-29th) as a Multi-Op CW and SSB entry. QSL via DL0KWH; bureau is preferred.

EU-129. A team of German operators will be active as DR6IOTA from Usedom Island (0-13 for the German Islands Award) during the RSGB IOTA Contest (July 28-29th). QSL via DM5DX.

EU-146. Operators Hans/PA1BX, Jochen/DH5HV, Joe/ON4JZ, Andre/ON4PH, Jim/ON5UM, Luc/ON6LUQ, Geert/ON7GF, Francis/ON4CFQ and possibly others will be active as PA1BX/p from Schouwen Duiveland during the RSGB IOTA Contest (July 28-29th). QSL via PA1BX.

EU-146. Operators Hans/ON4ASG, Dan/ON4ON, Harvey/ON5SY, Dries/ON6CX, Pat/ON7PQ and Jean-Marie/ON7XT will be active as PA/OQ1C/p from Schouwen Duiveland during the RSGB IOTA Contest (July 28-29th). QSL via ON4ON.

EU-170. Operators Miko/9A4ML, Ivica/9A2HW, and Igor/9A4CD will be active as 9A9Z/p from Pasman Island (IOCA CI-085, CIA-34, ACIA IC-348) during the RSGB IOTA Contest (July 28-29th). QSL via 9A1ADE; bureau is preferred.

EU-088. Ric, DL2VFR, will be active as OZ/DL2VFR from Laeso Island (NK-003 for the Danish Islands Award), and possibly Horn-fiskroen Island (NK-005 for the Danish Islands Award), from June 24th and July 1st. Activity will be on all HF bands, CW and SSB. QSL via his home callsign, direct or by the bureau.

EU-121. Look for operators G3ZAY, M0HSW and M0TJH to be active as EI/homecall/p from Inishbofin Island in the Irish Coastal Islands Group from June 25-27th. QSL via their home callsigns.

NA-046. Howie, K1VSJ, will be active as K1VSJ/p from Martha's Vine-yard (USI MA-005S, Dukes County, Massachusetts, WLOTA 2804), during the RSGB IOTA Contest (July 28-29th). QSL via his home callsign.

NA-196. Operators Pete/VE3IKV and Bill/W4TAA will be activating Belcher Islands in CQ Zone 2 (VY0 Nunavut Territory), using the special callsign authorized by Industry Canada, VF0X, between June 29th and July 4th. Activity will be on HF and

6 meters, CW and SSB. QSL is via VE3IKV, direct (quick) or
by the bureau (slow).

SA-027. Bone, PP5VX, will be active from Sao Francisco Island (DIB
08 for the Brazilian Islands Award) during the RSGB IOTA
Contest (July 28-29th). QSL via the address on QRZ.com.

KH3, JOHNSTON ISLAND (Delay and Update). Skipper of the USSV Dharma,
Susan Meckley, W7KFI, who got sidelined from her trip to KH3-land
because of her bad toothache, has informed OPDX that she had to have
jaw surgery. The almost 73 year old grandmother states, "boy does it
hurt today...anyway it was 1366.48 USDs....wow." Susan states it will
take her a week or so to recuperate, then she will be off for KH3 and
V7 again. She indicated that she wants to (has to) "leave Honolulu well
before August as the hurricanes start coming this far west in August."
She estimates to look for her to be active from KH3 on 14036 and 14236
kHz during the last week of July or the first week of August.

LZ, BULGARIA (Bird Op/Possibly YO). Andy, G0SFJ, hopes to operate as
LZ/G0SFJ/P again, this time from the Rhodopi Mountains south of
Kardjali between August 12-14th. He will be at the Astrocamp there.
His equipment will be a FT-51R (QRP) and a trusty Arrow on AO51 and
SO50. ADDED NOTE: Andy will be taking a train to Bucharest, Romania,
and he needs a partner/supporter in Bucharest to help him operate as
YO/G0SFJ/P in a public park in Bucharest on Saturday and Sunday,
August 18-19th. Andy states, "Without a partner in YO I will not feel
secure in operating there, and I might not take my equipment at all."
If you can help him, E-mail him at the following addresses to make
arrangements: andythomasmail AT yahoo.co.uk
andythomasmail AT gmail.com

OE16, AUSTRIA (Special Event). The Amateur Radio Section of ORF
(Austrian Broadcasting Corporation) and the Documentary Archives Radio
Communication/QSL Collection will activate the unique callsign OE16B
between August 31st and September 9th. This special event station is on
the air to celebrate the Papal visit of Bendedikt XVI to Austria. QSL
only direct via: ORF/OE16B, A-1136 Wien, Austria,. This is a charity
operation for the El Molo Mission and School in Kenya*. Therefore, the
special QSL will only be issued for a donation (at least 1 new IRC or
1 USD). All other reports will be answered with a plain QSL via the
Bureau. * http://www.ppoe.at/leiter/themen/hhh07/hhh07/hhh_infos.html

PACIFIC TRIP (IOTA Op). Karl, N1DL, who was active from various Carib-
bean locations last year, will be active from various French Polynesian
Islands as FO/N1DL and as E51ADL from Rarotonga (OC-013), South Cooks
Islands, this year between June 27th and July 11th. His activity will
be limited because he is on holiday, but look for operations to be on
most bands and all modes. QSL via his home callsign.

PJ2, NETHERLAND ANTILLIES. Operators Carsten/DL6LAU, Jan/DJ8NK and
Joachim/DL8OBQ will be active from Curacao Island (SA-006, WLOTA
LH-0942) as PJ2/homecall, July 9-16th. The trio will also participate

in the IARU HF Contest (July 14-15th) as PJ2HQ, a Multi-Multi entry. QSL via their home callsigns. QSL PJ2HQ via N9AG or LoTW.

QSL INFO AND NEWS.....
QSL routes provided by Johannes, DK8JB, and Tedd, KB8NW:
6M0W via HL5BMX IZ1LBG via IW1ARB
7J2YAF via JA1KSO KB1OVL via E21EIC
AO5JK via EA5JK W1/E21EIC via E21EIC
GM6NX via GM4UYE W3/E21EIC via E21EIC
GX5BK via G3SNN W4/E21EIC via E21EIC

Champ, E21EIC, informs OPDX that QSLs for XW1A, XW1LLR, XW1IC, E21EIC/P and E21EIC received between March and June 10th have all been answered.

3V8SS. Dan, IK0REH, was recently active as 3V8SS between June 5-17th. Activity was on the HF bands "CW ONLY". He made 1100 QSOs from Hammam Sousse (in the Sousse Province) at the Maison de Scout Tunisienne. QSL "this operation ONLY" via IK0REH and "DIRECT ONLY". Donations are welcome to help spread ham radio in Tunisia. Dan thanks Mustapha, DL1BDF, for his efforts and help in Tunisia.

QSLS VIA LOTW: 4U1ITU, 7Z1HL, DP9Z, E51TUG , EA7FIQ, FY/G3SXW, FY/G3TXF, GM4WZL, P40L, PY5EW, RA4LW, SM2CEW, T97C, TF/G4EDG/P, TF/G4ELZ/P, VP8LP and VR2PX

QSLS RECEIVE VIA MAIL: 3B9/G3TXF, 3C0M, 5H1Z, 5W0CK, C21HC, C98BWW, ER1DA, ER/RW3AH, GB5HQ, J20SA, JT1BV, KH7DX, KH8/K6SRZ, T20HC, V26B, VK9DNX, VU7MY, VU7RG, W1AW, XF4DL, XT2C, OY3QN, ZF1A and ZL2PR

SV9, CRETE (EU-015). Operator Theo, SV1EJD, will be active as SV9/SV1EJD, July 3-17th. Activity will be on 80-10 meters SSB and RTTY. QSL via IZ8CCW, direct or by the Bureau.

VP2E, ANGUILLA (Interesting Callsign). Look for Jim, WB2REM, to operate with a special four letter suffix callsign, VP2EREM, from here between June 28th and July 8th. Activity will be on 80-10 meters CW and SSB. QSL via his home callsign.

VP2M, MONTSERRAT. Operators Larry/K3VX, Greg/K4NO, Lee/K7NM, Howard/AK9F, Don/K9NR and Carl/K9CS (VP2MSC) plan to be active from here between November 20th and December 3rd. Activity will include entries in the CQWW DX CW Contest (November 24-25th) and ARRL 160 Contests (November 30th-December 2nd). Callsigns and other info will be forthcoming. QSL via K9CS.

VY2, CANADA. Tom, KV8Q, will be active as VY2/KV8Q from Prince Edward Island from July 11-16th. Activity will be mainly CW. He will also be in the IARU HF World Championship Contest (July 14-15th) as a Single-OP CW entry. QSL via KC8UR.

YM1907, TURKEY (Special Event/Prefix). To celebrate the 100th anniversary of Fenerbahce Sports Club, look for Berkin, TA3J, to be active

using the special callsign YM1907FB, which was authorized by the
Turkish Republic Telecommunication Department of Istanbul Site Management, between 1907z, July 19th and 1907z, August 2nd. Activity will be on 160/80/40/20/15/10/2 meters and the WARC bands on all modes. QSL via TA3YJ, direct or by the bureau. For direct QSLs, please send only SASE and 1 IRC (2006 version) with your QSL card, no green stamps please. SWL QSL cards are OK. No eQSL. Visit the Web page:
http://www.qsl.net/ta3j/ym1907fb

If these people are unable to pass the simple FCC tech test, (and use 10M legally) are they even smart enough to be allowed to drive a truck on the roads?

Last time I checked, they don't let the FCC issue licenses of any real
importance or consequence--that is up to the DMV of each state, isn't it?

JS

Wrong kind of license. Your thinking of drivers license and the
discussion is about a license to transmit on federally controlled
frequencies.

You can now go back into your hole and vegitate.

james

and that has what to do with FCC regulations? NOTHING!

laugh it off now. but when your bank account gets hit, you won't be
laughing.

oh yeah, unrelated newsgroups have been culled.

265. [DXNL] DXNL 1525 (Jun 27, 2007)

Newsgroup: rec.radio.amateur.dx
Date: 2007-06-28 01:32:32 UTC
From: Robert Busch - DL7VOA <dxnl@dxhf.darc.de>
Message-ID: <13-1486292726.20070628010925@dxhf.darc.de>
Source record: 2536
Cross-posted to: rec.radio.amateur.moderated,rec.radio.amateur.dx,rec.radio.info

DXNL 1525 - Jun 27, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

HB0 - LIECHTENSTEIN
Pierre,HB9QQ, will go on top of the Sareiserjoch in Malbun (2015m asl) from Jun 29 until Jul 2 and again from Jul 6-9. Pierre will be active as HB0/HB9QQ on HF, 6m, 2m and via meteor scatter. QSLs via HB9QQ.

HL7 - SOUTH KOREA
Since Mar 30 HL7WR is handing out the prefix HL7 for the first time on the bands (until Jul 2). This special event station has been put up for the "World Rafting Championships 2007" (http://www.2007wrc.com) which takes place in Sangdong-Ri/Inje from Jun 27 until Jul 2.
HL7WR is working in SSB/CW/FM/digital modes on 80-6m.
The QSL Manager DS2UAL confirms the QSLs direct or via the bureau.

HZ - SAUDI-ARABIA
After the deregulation of amateur radio there are about 100 licensed amateurs in Saudia-Arabia now. Class 1 licensees (HF and VHF) are using the prefixes HZ1 or 7Z1, HZ2 stations have licenses class 2 (VHF only). They are also allowed to work on HF when using the station of a license class 1 holder. Operation on 6m, 30m and 80m is not allowed in Saudi-Arabia. If you have worked 7Z1AB, HZ1AB, HZ1HZ or members of the royal family in former times you do not have to worry about your DXCC credit because these stations had a special permission until 2004. The same applies to 7Z5OO who was working as a private teacher for the royal family and had a special license as well. Only few HAMs are really active on the bands but most of them are foreign nationals. There is no amateur radio society or a QSL bureau in Saudi-Arabia.

KH3 - JOHNSTON ATOLL, OC-023
A second try of Susan,W7KFI, to leave Honolulu for the Johnston atoll had to be cancelled again. The lusty 73-year old yachtswoman had to return to the island again to attend a dentist. However she has to leave Honolulu before the hurricane season starts in August. Now Susan

thinks that she may show up as KH3/W7KFI during the last week of Juli
or the first week of August.Her preferred QRGs are 14036 and 14236 kHz.

OJ0 - MARKET REEF, EU-053
Three to four different OPs will be QRV in CW/SSB/digital modes on
160-2m. They will sign OJ0/homecall from Market Reef (EU-053) from
Jul 5-9. More information is not available yet.

R1F - FRANZ JOSEF LAND, EU-019
Victor,UA4RC, the QSL manager of R1FJT writes that a few scientists
will do some researches on Franz Joseph Land from Jul 15 until Aug 20.
Eugene,R1FJT, will give his complete log to a scientist. As soon as
Victor has the logs he will start sending out the QSLs. R1FJT is
operating a beacon on 24.898 and 28.012 MHz running in 15min intervals
every day from 1830 UTC.

SV9 - CRETE, EU-015
Theo,SV9/SV1EJD, announced to be QRV in SSB and RTTY on 80-10m from
Jul 3-17. His QSL manager is IZ8CCW, via bureau or direct.

VP2E - ANGUILLA, NA-022
Common trends are not for everyone. This applies also to Jim,WB2REM,
who is expected to show up in CW/SSB on 80-10m signing VP2EREM from
Anguilla (NA-022) between Jun 28 and Jul 8. QSL via homecall.

3A - MONACO
Slavo,3A/SP2JMB, is working in CW/SSB on 40m-70cm from Jun 26-28.

5X - UGANDA
Vladimir,UA4WHX, has left Ruanda and is now active from Uganda signing
5X1VB. Last weekend he appeared mostly in CW on 80/17/12m. The length
of his stay is unknown. QSLs via UA4WHX, direct or via bureau after his
return.

N1DL SOUTH PACIFIC TRIP
Karl,N1DL, is sailing with his yacht through the South Pacific between
Jun 27 and Jul 11. He starts working in CW/SSB as FO/N1DL from several
islands in French Polynesia and will hit the airwaves as E51ADL from
Rarotonga (OC-013, South Cook) later. QSLs via his homecall.

RUSSIA, SPECIAL EVENT STATION
Gerhard,DL6XK, will operate from a clubstation in Swerdlowsk signing
UE9CXK from Jul 1-15. QSLs via DL6XK (ONLY via bureau).

LINKS: If you are looking for more information about a specific call try
this site of collected callbooks: http://ac6v.com/callbooks.htm#DXCALL

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

July 1: RAC Canada DX RTTY Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
AF-104, 7X, Grand Cavallo Island/Mediterranean Sea Coast East Group: This new IOTA counter is activated by 7U5CI in all modes on 6-160m until Jun 28. The team of Ivan,OM3CGN, Robert,OM1KW, Afif,7X2RO, Yves,7X0MT, Youcef,7X2HF, Sofiane,7X2GF, Faouzi,7X2FB, and Frantise,7X0RY, is working with three stations, spider beams and wires. QSL via OM3CGN.

AS-100, 4X, Israel Group: The Holyland DX Group (4Z4KX, 4Z5LA, 4X6HP, 4Z5FI, 4X1VF) will be QRV as 4X7AZ from Akhziv Island on Jul 28/29 including participation in the IOTA Contest. QSL via 4Z5LA.
More information can be found on: http://www.4z5la.net/4x7az

AS-151, BY2, Liaoning Prov. W. Group: Zhang,BD3APX, will be QRV as BD3APX/2 from Juhua Island from Jun 29 until Jul 1. QSL via homecall.

EU-006, EI, Aran Islands: EI/G3ZAY/p, EI/M0HSW/p and EI/M0TJH/p are working from Inishmore Island from Jun 27-29. QSLs via homecalls.

NA-091, VE7, BC Prov. South Group: Heinz,VA7AQ, is very active from Quadra Island (BC-006) between Jul 26 and Aug 1. QSL via homecall.

John,VE7JZ, is working from Minstrel Island in SSB and digital modes on 20m/15m until Aug 1. QSL via VE7JZ.

NA-196, VY0, Nunavut Group: VE3IKV and W4TAA plan to hit the airwaves in CW/SSB on all bands signing VF0X from CQ zone 2 between Jun 29 and Jul 4. QSL via VE3IKV (d/b).

JIIA: If you want more information about the "JIIA Activity Year" lasting until the end of 2007 please ask Yuki,JI6KVR (ji6kvr@dance.ocn.ne.jp). This is to celebrate the 5th birthday of the "Japanese IOTA Islands Award" (JIIA). The JIIA diploma is awarded for at least ten contacts with Japanese islands.

Really? Check out http://www.arrl.org/FandES/field/org/oo.html . Illegal users of the ham bands get a nice letter from FCC asking them to stop and telling them where to mail the $10,000 fine. They prolly only catch one in ten, but it could be you!

WANTED: SCHURR Einhebel or other Single-Lever Paddle

I am looking for a Schurr model Einhebel or other single-lever paddle/
key. I am thinking in terms of the European type paddle with the heavy
metal base. It should be in good operating condition. I would also
consider a BUG.

Thanks,
Bill

July 2, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, N4GN, K8MR, K8YSE, Pete's-DX-Newsdesk, 5B4FL, 5B4MF, CX3CE, DH7SA, DJ7IK, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, GW0ANA, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, JA1BPA, JA1ELY, JI6KVR & IOTA JA NEWS, OK1FJD, RSGB IOTA, ST2NH, SV5DKL, UA4WHX, UT9FJ, VA3RJ & ICPO and Z35M for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 24th/June, through Sunday, 1st/July there were 200 countries active. Countries available: 3A, 3B8, 3V, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EZ, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OZ, PA, PJ2, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP8, VP9, VQ9, VR, VU, XE, XU, YA, YB, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD8,, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FIJI. Tomas, LY1DF, will be active as 3D2F between August 28th and September 4th. Activity will be on 80-17 meters, mostly CW. This will include an entry in the All Asia DX SSB Contest (September 1-2nd). His alternative callsign is 3D2TM. QSL via LY1DF (QRZ.com). Visit his Web page at: http://www.qrz.lt/ly1df/

3G100, CHILE (Special Event). Claudio, CE1VIL, will be active using the special Chilean callsign 3G100S between now and August 1st. Activity is to commemorate the 100th anniversary of Scouting movement. QSL via XQ1KY, direct or by the bureau. For more information, visit: http://www.ce1rkv.cl

4O, MONTENEGRO. Look for David, OK1FJD (OK6DJ), to be active as 4O6DJ on a small expedition between July 7-14th. Activity will be on HF including the WARC bands and 6 meters. His rig will be a FT857 into a vertical and dipoles. QSL via OK6DJ.

8N, JAPAN. Kazunori "Icko", JA1BPA, reports that for the 2007 IARU HF Championship, the JARL will establish 5 HQ stations in various regions of Japan (IOTA AS-007). Each station may be heard on other bands than specified below outside the Contest during the week of July 9th. All QSOs will be QSLed automatically via the bureau. Look for the following stations on the various bands and modes and loctions:

Callsign	Bands/Modes during the Contest	Location
8N1HQ	20 meters CW, 10 meters Phone	Kimitsu City, Chiba
8N1HQ	160 meters CW, 15 meters Phone	Minato Ku, Tokyo
8N3HQ	80 & 20 meters Phone, 15 meters CW	Nara City, Nara
8N3HQ	40 meters CW	Kobe City, Hyogo
8N4HQ	80 & 10 meters CW, 40 meters Phone	Okayama City, Okayama

8Q, MALDIVES. Operator Al, JA9APS, will be active as 8Q7NK between July 6-9th. This is a family vacation. Al hopes to operate on 40-6 meters, SSB, CW and RTTY, using a TS-570S and R8 vertical. QSL via his home callsign. Direct address is: Narumi Kawai, 1-10-14 Suwanokawara, Toyama, 930-0088 JAPAN.

B1, CHINA. Jacques, F6HMJ, will be one of the team members for station B1HQ for the IARU HF World Championships Contest (July 14-15th). He is expected to be on 20 meters CW. Outside the contest he will be signing BY1TX/F6HMJ during his free time.

CN, MOROCCO. Claude, F5OGE, will be traveling throughout Morocco between July 13-29th and is expected to be active as CN2GE or CN2GE/m. His trip begins in Tangiers, and after he will go through Rabbat, Marakech, Benni Mellal, Fes, Tetouane and then back to Tangiers again. Activity will be mainly on 40 and 20 meters CW/SSB. Look for him during his early morning and late evenings hours (Morrocan time). While traveling mobile during the daytime, Claude will sometimes sign as CN2GE/m. ADDED NOTE: While on his way to Morocco (July 10-11th), and when traveling back home (July 29-30th), look for Claude to sign as F5OGE/m and EA/F5OGE/m. QSL via F5OGE, either direct or by the bureau.

EA8, CANARY ISLANDS. Hans, ON6ZK, will be on a holiday operation from the Island of Tenerife (AF-004) between August 15-22nd. He states that he will operate from his hotel room with a FT897 with 25 watts only, mainly on 20 and 17 meters SSB. The antenna is a telescopic antenna (only about 1.5 meters in length). Look for him to sign EA8/ON6ZK from Arecas Tenerife. He will also try to activate the Teide mountain,

probably on August 18th on 20 meters SSB. QSL via the bureau to ON6ZK.

HP2, PANAMA (IOTA Op Extended). Members of the Uruguay DX Group who are currently active from Wichubwala Island in the San Blas Province Group (NA-170) have extended their operation until July 6th. Operators are: Mario/CX4CR, Bert/CX3AN and Gus/CX2AM. Look for them to sign HP2/homecall. Activity will be on 80-6 meters CW, SSB and the digital modes. QSL via CX2AM. For more info, please visit their Web page at: http://cx2an.servehttp.com/hp2

GB7, ENGLAND. Members of the RSGB will activate a special callsign for the upcoming IARU HF Championship. Look for the special callsign GB7HQ to be active between 1200z, July 14th and 1200z, July 15th, on 160-10 meters CW and SSB (contest bands). A list of the operators and host stations can be found at: http://www.gb7hq.com/2007/2007-Ops-List.html Also, a special awards program is availabe and details can be viewed at: http://www.gb7hq.com/Award-Info.html

IOTA NEWS.....
AF-004. Operator Andrew, G7COD, will be active as EA8/G7COD/A from Playa Del Cura on the Island of Gran Canaria (S-005 for the Spanish Islands Award, WLOTA LH-0969), between now and July 7th. Times of operation will be every day between 1130-1330z and 1600-1815z. Suggested frequencies to be used are as follows +/- 10 kHz to allow for QRM: 14233, 18133, 21253 and 24953 kHz SSB. He may use CW dependent upon propagation. QSL via G0OYH, by the bureau or direct.

AF-019. Giuseppe "Joe", IT9RBW, will be active as IT9RBW/IG9 from Lampedusa Island (IIA AG-001) during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band 10m entry.

AS-120. The Nicosia Amateur Radio Club (5B4NC) is planning to activate one of Cyprus Coastal Islands (possibly Agios Georgios) between July 27-29th. Callsign, QSL info and other details will be announced at a later date.

AS-193. Mohamad HZ1MD, was active from Frasan Island for four days this past week/weekend. QSL via PA2V.

EU-028. Simone, IZ4DYQ, will be active as IA5/IZ4DYQ from Elba Island (IIA LI-001, MIA MI-022, WLOTA LH-0609), July 2-13th. Activity will be mainly SSB on 20 and 40 meters. QSL via his home callsign, bureau is preferred.

EU-052. Andy, HA0IM, will be active as SV8/HA0IM and also J48IM from Zakynthos (Zante) Island, July 18-30th. Activity will be on 80-6 meters mainly on CW, but some PSK31 and RTTY are expected as well. He will use only 100 watts with monoband verticals on fishing poles. Andy will use the callsign J48IM during the CQWW VHF Contest (July 20-21st) on 6 meters only, and in the RSGB IOTA Contest (July 28-29th) as a Single-Op/

Low-Power/24-HR/CW only/DXpedition entry. QSL via his home callsign, by the HA QSL Bureau or direct to his QRZ.com address.

EU-086. Vasiliy, RW4NW, will be active as UE1RFF/1 from Dolgiy Island (RRA RR-03-07) and Bol'shoy Zelenets Island between July 2-21st. QSL via UA1RJ.

EU-123. Members from the Sheffield Amateur Radio Club will be active as GS3RCM from the Isle of Arran between July 26th and August 2nd. They will also participate in the IOTA Contest as MM3M. It is also possible that they may try to operate again from the Island of Pladda on the Friday morning between 0830-1300z. Depending on the weather and tides, they may stay later. Activity will be on HF/6m/4m/2m and 70cm. Skeds can be arranged, if need be, via E-mail to: Skeds@sheffield-live.co.uk

EU-124. Glyn, GW0ANA, will be leading a small team of operators from the Barry Amateur Radio Society (BARS) and 3 guest operators (DJ8NK, DJ6OI and G3RWL) to Flatholm Island for the RSGB IOTA Contest (July 28-29th). Look for activity before and after the contest using the callsign GB5FI. During the contest they will sign GW8K. QSL via GW0ANA.

EU-144. Oreste, IZ8EDJ, and possibly several other operators from the Strange Radio Team (SRT) will participate in the IOTA Contest (July 28-29th) as IC8DI from Dino Island (IIA CS-002). QSL via IK8WEJ.

EU-174. Laci, HA0NAR, will be active as SV8/HA0NAR and also J48NAR from Thassos Island, July 24-31st. Activity will be on 80-6 meters, SSB, CW, (maybe on 6m FM) with only 100 watts into monoband verticals on fishing and Spider poles. Look for J48NAR to be used during the RSGB IOTA Contest. QSL via HA0NAR, direct or by the HA Bureau.

EU-179. Operators Sam/UT9FJ, Alex/UR5FEL and Petro/UR5FCZ will be active on Berezan Island (UIA BS-02, ARLHS UKR-035) between July 25-30th. Look for them to sign homecall/P. They will also be active in the RSGB IOTA Contest. QSL via their home callsign.

EU-185. Victor, UA6AF, will be active as homecall/p from Sudzhuk Island (RRA RR-24-02), located in RDA District KR-07 (Centralny, Novorossisk District), Krasnodarsky Kraj (KR), July 27-30th. Activity will be on all bands 80-10 meters, with an emphasis on the RSGB IOTA Contest (July 28-29th). QSL via his home callsign.

OC-150. Adhi, YB3MM, will be active as YB3MM/9 from Lombok Island (WLOTA LH-2637) during the RSGB IOTA Contest (July 28-29th). Activity will only be on 15 meters CW/SSB. QSL via IZ8CCW,

direct or by the bureau. Logs will be uploaded to the LoTW.

ISWL ACTIVITIES. Pete Rayer, ISWL Life Vice President, reports the following stations will be active using special ISWL club callsigns:
July Operations:
GX4BJC/A - Geof, M0BAU, will operate from Great Sutton, in Cheshire, England (WAB Square = SJ37 CHS).
MX1SWL/A - Herbie, G6XOU, will operate from Walton on the Naze, Essex, England (WAB Square = TM22 ESX). Herbie will also operated MX1SWL/P from other locations during the month.
August Operations:
GX4BJC/A - Phil, G4DMS, will operate from Towcester, in North-amptonshire, England (WAB Square = SP65 NHM).
MX1SWL/A - Merv, G0UJD, will operate from Skegby, Nottinghamshire, England (WAB Square = SK56 NOT).

All QSL information is available on QRZ.com, eQSL.cc, (NO LoTW) or the ISWL Web site at: http://www.iswl.org.uk

J8, ST. VINCENT. Jim, W6JKV, will be active as J8/W6JKV until July 11th. Activity will only be on 6 meters.

KP1, NAVASSA ISLAND. As of this month, Navassa Island (the 5th "Most Wanted Country" according to "The DX Magazine" 2006 survey) became an American possession only 150 years ago. There is an interesting article online about Navassa Island that you may want to read. It talks about some interesting history and details about the island. Go to the New York Times Web page to read it at:
http://www.nytimes.com/2007/06/30/opinion/30widmer.html

MD0, ISLE OF MAN (EU-116). Lars, DF1LON, will be active as MD0LON between September 6-10th. Activity will be on all HF bands, CW and SSB. QSL via his home callsign.

NEW OFFICERS FOR 2007-2008. During a recent Southeastern DX Club (SEDXC) meeting, the following officers were elected for the 2007-2008 year:
President: Bob Allphin, K4UEE
Vice President: Bob Carroll, W2WG
Secretary: George Nicholson, N4GRN
Treasurer: Mike Weathers, ND4V
Activities Manager: Gary McConville, WB4SQ
Membership Chair: Bill Barr, N4NX
Bulletin Editor: Rick Glisson, N4XMX
Webmaster: Chaz Cone, W4GKF

ADDED NOTE: The coming year is a very important year for the SEDXC. First, SEDXC is putting together a "helping hand" program to interest and assist new HFers in the art of DXing. Second, the year 2008 will be the 50th anniversary of SEDXC. Celebrations and activities to com-memorate this important milestone are being planned now. Visit SEDXC's

Web site at: http://www.sedxc.org

OJ0, MARKET REEF (EU-053). Look for 3 to 4 Swedish operators to be active as OJ0/homecall from here between July 5-9th. Operators mentioned are: Peter/SM0BSO, Stellan/SM0LQB, Jan/SM5XGJ and Eric/SM1TDE. Also, Lars/OH0RJ is expected to join them. Activity will be on 160-2 meters, with 3-4 stations on CW, SSB and the digital modes. QSL via the operator's instructions.

P3, CYPRUS (AS-004/LH Op). Operators Manos/5B4AFQ, Kostas/5B4AIR, Andreas/5B8AP and Marios/5B8BE will activate Cape Akamas Lighthouse (ARLHS CYP001) as P3CA, July 7-8th. Activity will be on HF, 6m, 2m, CW, SSB, FM and APRS on 144.800 MHz. The team will take part in the Aegean VHF Contest. For the latest information on the operating frequencies or any other news, please visit their Web page at: http://www.5b4ms.org/p3ca.html
This DXpedition is sponsored by CARS Limassol Section-5B4MS.

PA, NETHERLANDS. Paolo, F8ENY, will be active possibly as PA/F8ENY from Amsterdam during July. Activity will be QRP on HF with Elecraft K1 and wire antennas. QSL via his home callsign, direct or by the bureau.

PJ2, NETHERLAND ANTILLES. Salvatore, DH7SA, reports he will be active as PJ2/DH7SA from Curacao Island (SA-006), July 9-16th. QSL via his home callsign.

QSL INFO AND NEWS.....
QSL routes provided by Johannes, DK8JB:
E0JWW via G0LKG EU940OR via UA3FDX
CN4P via EA5XX (direct) GC3SBL via G8VPR
ES7FQ eQSL.cc

5A7A QSL STATUS. Andy, DJ7IK, informs OPDX that Andi, DL9USA, their QSL manager for 5A7A has sent out more than 6800 cards directly and approx. 30,000 cards via the bureau. All 5A7A QSOs are now confirmed just only a half year after the DXpedition. Andy states, "If you like, you can vote for 5A7A as DXpedition of the year at: http://www.strangeradioteam.com/wwdxt/index1.asp?DXcall=5A7A&Submit+Form=VOTE%21

All QSLs for HB0/F2JD, HB0/F5JY, HB0/F6BFH and HB0/N6OX are via F6AJA. The logs are online at: http://lndx.free.fr/voirlogs.php
The card will be printed soon, and all QSL are 100% by the bureau or direct.

ADDRESS CHANGE FOR HS0ZCW. Charles, K4VUD/HS0ZCW, reports, "My dream of having a simple Thailand address, Box 1, etc, was dashed by extensive postal mail theft by the Nakhon Chaisi government postal workers. They first stole the "green stamps" from the incoming QSL card envelopes, and after my first complaint, began stealing the whole envelope and all contents and destroying everything. This began about June 5, 2007. Thus I have a new QSLing address: Charles Harpole, 86/1 Moo 4, Tambon Bankok, Amper Meung, Samut Sakhon 74000,

THAILAND. This is good for HS0ZCW, 9N7UD, A52UD, VU4AN/VU3CHE, and K4VUD, AC4TT, and the old call of KG4FPK. I have changed QRZ.com. Please pass the message that mail sent to me to arrive about June 5 and after will not be delivered. I filed a complaint with the Nakhon Chaisi government Police. This situation is not likely to change, however, there are also stories of stolen mail sent to Buddhist temples as donations.... how low can u go? By the way it is said to be against Thai law for non-approved Thai citizens to have foreign currency. Oh, well..... 73 Charles Harpole"

QSL OJ0VR via OH1VR. QSL OJ0/OH3RM via OH3RM. Operators Seppo/OH1VR and Markus/OH3RM will be active from Market Reef until July 3rd.

NEW QSL MANAGER. Mohammad, V8MQM, can now be QSLed via his new QSL Manager, Joe, W3HNK.

QSLS VIA LOTW: (NONE REPORTED THIS WEEK!)

QSLS RECEIVE VIA MAIL: 1B1AB, 3V8SF, 5H3EE, DN1MDG, EX2M, IA6IYP, IO8IAA, IU2ANT, J68WI, LZ04ANT, LZ07IPY, N8S, TI8II, TK5MH, UN3M, VP8KF, VP8LP, VU7LD, XF2K, XF3PAS and YT6A

SX5, DODECANESE (Special Event). A group of Rhodian Radio Amateurs will activate the special callsign SX5RHO between now and July 7th. Activity is to celebrate "2007 Island Games" on the Island of Rhodes (see the Web site - http://www.rhodes2007.info). Rhodes Island (EU-001) is very proud to host the "2007 Island Games", which will have the largest participation of island countries and athletes in the history of the institution. Activity of the special callsign will take place daily on all bands (HF160-10m, 6m, 2m) and on all modes (SSB, CW, RTTY, PSK31, possibly some SSTV and JT65). Anyone who contacts SX5RHO does not need to send them a QSL card. All contacts will be automatically confirmed via the bureau, and after the end of operations the logs will be uploaded into the LoTW.

UA4WHX IS NOW QRT FROM AFRICA. World traveller and DXpeditioner Vladimir Bykov, UA4WHX, has ended his African activities. An E-mail that Vlad sent to OPDX states the following (edited): "Hello everyone! You must have been wondering if it is true. And the answer is - it is. It is all history now. For now - no more being on the air from Africa (or P5 -which I never did). We leave almost 310,000 QSOs behind, 21 DXCC entities, almost 26 months of life, two radios gone and one finger missing. But we do have lots of people happy - that is what matters. Below I will list some of the instructions how I see QSLing done best: 1. I accept bureau via Russia Cental Club. I will also accept bureau shipment sent directly from societies or organizations to my P.O. Box 2040, Izhevsk, 426000, Russia (that may be a better idea). To keep track and make certain nothing is missing when a big batch is on the way, advise me, we will track and make sure it has been received.

2. I do recommend sending requests with a SASE directly rather than going via the bureau. We arrange cards by senders, and all cards are answered by senders as well, direct/bureau put together. If there is enough postage the bureau will join the direct requests. The address to be used is: Vladimir M. Bykov. P.O. Box 2040, Izhevsk, 426000, Russia. No cards to be sent to AC4LN address.

3. I do insist we use IRCs and not send cash in envelopes, no matter what amount. Not that my post office is not safe, but we must be conscious to limit temptation. Use common sense when sending IRCs, as per how many. Do not ask me - my answer will always be - at least one, as I can technically send 7 pieces of QSLs with one IRC.

4. For Clubs or more serious individuals, I can accept money electronically, provided you feel you can let me charge your Visa or Master Card. Any amount is fine. I will keep records of the transaction together with your QSL requests. The transaction is 100% secure and will be done electronically through Svezhy Veter Travel Agency.

5. Those who have made multiple QSOs, they can send QSOs listed on a piece of paper with at least one card attached to be personal.

6. All QSOs are on paper and not computer files.

7. I will have a few people to help me with the QSLing. Anyone is welcome to join the QSL team provided he/she is ready to do it from Izhevsk. I will let everyone know when the first cards are out.

73, See you in person or on the air,
Vladimir M. Bykov, UA4WHX etc."

ADDED NOTE: Vlad was active under the following callsigns if you want to look back in logs to see if you worked him: 3DA0VB, 4K0VB, 4L0B, 5H3VMB, 5H3VMB/3 (AF-075), 5H3VMB/5 (AF-074), 5R8VB, 5X1VB, 5Z4/UA4WHX, 5Z4/UA4WHX/P (AF-067), 5Z4BU, 7P8VB, 7Q7VB, 9J2VB, 9U0VB, 9X0VB, A25VB, C91VB, C91VB/4 (AF-103), C91VB/6 (AF-088), D20VB, D60VB, J20VB, OD5/UA4WHX, ST2KSS, ST2VB, V51VV, V51VV/P (AF-070) and Z2/UA4WHX.

UA9, ASIATIC RUSSIA. Operator Gerhard, DL6XK, will be active using the special station UE9CXK from Sverdlovsk, until July 15th. QSL via DL6XK, by the bureau.

V3, BELIZE. Dennis, K7BV, will operate from Caye Caulker off the Belize coast between July 7-17th. The focus of the trip is 6 meters, but there will be plenty of HF activity when 6 meters is not open. A full-time 6 meter station with power and a 7 element beam will CQ in breakable beacon mode 24/7 on 50.106 MHz. A second rig will be used on HF for 6 meter opening coordination and HF pileup fun. His callsign is not yet assigned. QSL via W1JJ. For more details, please visit the Web page at: http://www.qth.com/k7bv/v3

VP6/D, DUCIE ISLAND (Update). Carsten, DL6LAU, Teamleader, reports that the team has been very busy "behind the scene" for the last weeks and some things have changed or happened. To summarize, the team has agreed to extend the duration of the DXpedition (making them grab even deeper into their pockets). The team will depart from Gambier Island onboard Braveheart on Tuesday, February 5th, 2008, around 1500 local time. If there are normal weather conditions, the voyage to Pitcairn will take about 36 hours. They'll spend some hours on Pitcairn before they make another 36 hours trip to Ducie. They hope to arrive at Ducie at dawn on the 9th of February. If the weather is good, they hope to have all the equipment up and running in 24 hours. The plan is to be on the air for 19 days (until February 28th). Operators Pertti/OH2PM and Krassy/K1LZ can not make it this trip, but they have added some more operators since the announcement in Dayton. Operators as of today includes: DJ8NK, DL3DXX, DL6LAU, DL8LAS, K3NA, OH2BH, SP3DOI, SP5XVY, UA3AB and WA6CDR. Three more operators will be announced very soon. Carsten states, "But the operating team can only be as good as the guys doing a lot of things behind the scenes at home and we are very thankful to have JA1BK as our advisor in the team thank you so much Kan! DF6QV, DJ2YA and OH1JT form our Antenna Engineering Team, DL1MGB is our webmaster, GU4YOX is the Electrical Team Manager and VP6MW is the liaison on Pitcairn more to be announced very soon too." The team has decided to have seven stations up and running (all Elecraft K3 transceivers with ACOM amps). For 160m, they will have two phased verticals pointing towards Europe (and the U.S.), they will use one vertical for the other areas. On 80m, they will have two 4-Squares antennas. On 40/30m, they will also have 4-Squares, while 20-10m will have phased vertical dipoles. The team is still in need for donations since the budget for this operation is well over 200,000 USDs. For more details on how to donate and an unedited report by Carsten, please visit the VP6DX Web page at: http://www.vp6dx.com

VP9, BERMUDA (NA-005). Seppo, OH1VR, will be active as VP9/OH1VR from August 19-21st. Activity will be mainly on CW (no bands of activity were provided). QSL via OH1VR, by his CBA.

YA, AFGHANISTAN. Dejan, 9A4ZD, has been active as YA/9A4ZD over the past weekend on 20 meters SSB. Watch around 14300 kHz (+/- 10 kHz) at various times. He was also spotted on 18130 kHz after 1130z. QSL via his home callsign.

ZA/Z35M QRT. Vlado, ZA/Z35M, informs OPDX: "After 5 years of activity from Albania as ZA/Z35M today (27th June 2007) I finished my operation with exactly 113,000 QSOs made. My 1st QSO was on 3rd June 2002 with SK0TM on 14 MHz CW, and the last QSO was on 27th June 2007 with F2FP on 14 MHz CW. My station was in the apartment in the center of Tirana, using 100w and only one antenna: G5RV 30 above the ground. All contacts are on HF, CW and SSB (exept 300 QSOs on 6M).
During the period of 16-20th June 2007, I was QRV portable from the small place Ksamil (JM99XS) on the south-west corner of Albania, close to the border with Greece. A total of 1150 QSOs were made on 20m CW and

SSB using 100W and Inverted Vee dipole 9 m above the ground mounted on the balcony of the hotel.
1994 was my first radio activity from Albania, then working only for a few days as ZA/Z32KV. I was host operator at ZA1B, ZA1MH, ZA1AJ in 1994-95; ZA1A, ZA1UT, ZA/K7ZV in 2003; ZA/HA5NLI in 2004, ZA/SP5AEQ in 2006, and ZA/IW2JOP in 2007. QSL direct to: Vladimir Kovaceski, Box 10, Struga, 6330, Macedonia"

ZP0, PARAGUAY. Tom, ZP5AZL, plans to be active as ZP0R during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL via ZP5AZL. Visit Tom's Web page at: http://www.qsl.net/cx6vm/ZP5AZL/

DXNL 1526 - Jul 4, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A2 - BOTSWANA
Frosty,K5LBU, is the organizer of a DXpedition to Botswana which is going to hit the airwaves from Jul 6-20. His call will be A25CF, the other participants John,A25OOK (GM3OOK), Wayne,A25KDJ (W5KDJ), Jay,A25SL (W5SL), Lee,A25LT (WA8QFE), Dick,A25BUN (ZS6BUN), Dan,A25DW (ZS6JR), Jan,A25OB (ZS6OB), and Hal,A25HL (ZS6WB). During the IARU HF World Championship Contest (Jul 14/15) they will use the special call A25HQ. The QSL route for A25OOK is via M5AAV, all other QSLs should be sent to the appropriate homecalls. They will be QRV in in CW/SSB/digi modes on 6-160m and via EME on 2m/70cm, antennas include a 22m vertical for 80m/160m and a 4 square array for 40m.
More information can be found at: http://www.tdxs.net/A2.html
These operating frequencies have been announced (in MHz):
SSB/TX SSB/RX CW/TX
1.840 1.845-1.850 1.816-1.825
3.790 3.800-3.810 3.516
7.075 7.185-7.195 7.016
14.220 14.225-14.230 10.116
14.265 14.270-14.275 14.026
18.145 18.150-18.155 18.076
21.270 21.275-21.280 21.026
24.935 24.940-24.945 24.895-24.926
28.450 28.455-28.460 28.026
50.110 50.110 50.096
In CW they are going to listen 5-10 kHz up.

CE - CHILE
Claudio,CE1VIL, is very active as 3G100S until Aug 1 to celebrate the 100th anniversary of the scout movement in Chile.
QSL via bureau or direct to XQ1KY.

CN - MOROCCO
Claude,F5OGE, will be active as CN2GE/m making a roundtrip through
Morocco from Jul 13-29. His trip starts in Tangier and will lead him
to Rabat, Marrakech, Benni Mellal, Fes, Tetouane and back to Tangier.
Claude will be QRV mainly in CW/SSB on 7 and 14 MHz during the early
morning or late evening hours. QSLs direct or via bureau to F5OGE.

DU - PHILIPPINES
Chris,VK3FY/DU1, will be QRV from Luzon (OC-042) from Jul 5-9.
He might show up also as VK3FY/DU8 from Mindanao (OC-130) and maybe
also from OC-235 if he finds some transportation possibilities.

J8 - ST VINCENT, NA-109
J8/W6JKV is active on the air until Jul 11. This operation takes place
on the "magic band" (6m) only. QSL via homecall.

OJ0 - MARKET REEF, EU-053
While OJ0/OH3RM (QSL via homecall) and OJ0VR (QSL via OH1VR) should be
active until July 3, the calls of the next DXpedition to Market Reef
taking place from Jul 5-9 (see last DXNL) have been announced lately:
Peter,SM0BSO, Stellan,SM0LQB, Jan,SM5XGJ, Eric,SM1TDE, and Lars,OH0RJ,
will run 3-4 stations in CW/SSB/digital on 2-160m signing OJ0/homecall.

PJ2 - NETHERLAND ANTILLES, CURACAO, SA-006 (WLOTA LH 0942)
Jan,PJ2/DJ8NK, Carsten,PJ2/DL6LAU, and Joachim,PJ2/DL8OBQ, will be QRV
from Curacao Island (SA-006) from Jul 9-16. They will sign PJ2HQ during
the IARU HF World Championship on Jul 14/15.
QSLs via the operator's homecalls, PJ2HQ via N9AG or LotW.

Salvatore,PJ2/DH7SA, will show up on the bands also from Jul 9-16.
QSL via homecall.

SV5 - DODEKANES, EU-001
SX5RHO is a special event station during the "12th Island Games" active
in all modes on all bands until Jul 7. QSLs will be sent automatically
via the bureau and the manager SV5FRD will upload the logs to the LotW.

V2 - ANTIGUA AND BARBUDA, NA-100
Frank,K3TRM, is working in SSB/CW/RTTY on 80-6m signing V26RM from
Jul 4-10. Furthermore he was the first one to obtain a license for 60m.

YA - AFGHANISTAN
Dejan,YA/9A4ZD, is a new operator in Afghanistan. He has been spotted
on 20m (14.300 MHz) and 17m (18.130 MHz) already. QSLs via homecall.

4O - MONTENEGRO
David,OK1FJD, is going to be QRV as 4O6DJ on 6-160m from Jul 7-14.
QSL via OK6DJ.

5X - UGANDA / UA4WHX QRT
Uganda was the last stop of the trip of Vlad,UA4WHX. After logging
more than 310.000 QSOs from 21 African DXCC entities in 26 months
Vlad released his QSL guidelines now. Vlad held the following calls:
3DA0VB, 4K0VB, 4L0B, 5H3VMB, 5H3VMB/3 (AF-075), 5H3VMB/5 (AF-074),

5R8VB, 5X1VB, 5Z4/UA4WHX, 5Z4/UA4WHX/p (AF-067), 5Z4BU, 7P8VB, 7Q7VB,
9J2VB, 9U0VB, 9X0VB, A25VB, C91VB, C91VB/4 (AF-103), C91VB/6 (AF-088),
D20VB, D60VB, J20VB, OD5/UA4WHX, ST2KSS, ST2VB, V51VV, V51VV/p (AF-070)
and Z2/UA4WHX. These are his QSL guidelines:
1) Vlad accepts QSLs via the Russian QSL bureau, but also shipments
from national QSL bureaus to his private address (Vladimir M. Bykov,
PO Box 2040, Izhevsk, 426000, Russia).
2) However he prefers and recommends direct QSLs.
3) Please send no money bills, only IRCs. Vlad can send up to 7 QSLs
with one IRC.
4) The best choice for Vlad is a deduction via Visa or Mastercard.
Vlad states that this way of billing is 100% safe and is handled by
the "Svezhy Veter Travel Agency".
5) If you had more than one QSO with him, please send only one QSL and
list the other QSOs on an enclosed sheet of paper.
6) Vlad has no computer log. There are only paper logs and a few OMs
will assist him with confirming the QSLs. Vlad will make another
announcement as soon as the shipment of the QSLs has started.

8Q - MALEDIVES, AS-013
Al,JA9APS, will spend his family holidays on the Maldives from Jul 6-9.
Listen for 8Q7NK in SSB/CW/RTTY on 40-6m running a TS-570S into a R8
vertical. QSL via homecall, Narumi Kawai, 1-10-14 Suwanokawara, Toyama,
930-0088 Japan.

HONG KONG, SPECIAL EVENT CALLSIGN
Ten years after Hong Kong has been handed back to the People's Republic
of China all radio amateurs may use the prefix VR10 (instead of VR2)
between July 1,2007, and June 30,2008.

IRELAND, SPECIAL EVENT CALLSIGN
70 years ago the very first commercial transatlantic test flight with
passengers on board flew from Botwood/Newfoundland to Foynes/Ireland.
Members of the Limerick Radio Club (http://www.qsl.net/ei4lrc) will use
the special event call EI70FOY on 10-80m from Jul 6-8. QSL via EI8EM.
More information can be found at: http://www.transatlanticflightpby.com

BELARUS, SPECIAL EVENT CALLSIGN
The oldest town in Belarus is Orha which celebrates its 940th anniver-
sary this year. This is the reason for the activation of EU940OR until
Jul 26. QSL via UA3FDX.

LINKS: The New York Times published a very interesting article about Navassa
which belongs to the US for 150 years now. Please follow this link:
http://www.nytimes.com/2007/06/30/opinion/30widmer.html

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Jul 1: RAC Canada DX RTTY Contest
Jul 7/8: DL DX RTTY Contest, Original QRP Contest
Jul 8: DARC Digital Contest Corona

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-034, ES0, Saaremaa County Group: Frank,DL1FT, will show up as ES0FTZ
from Saaremaa Island from Jul 11-21. Please check also his website at:
http://www.funkexpedition.de/estland

NA-073, V3, Corozal/Belize District Group: Dennis,K7BV, will be active from
Caye Caulker from Jul 7-17. The callsign is not known. QSL via W1JJ.

SA-077, PY1, Rio de Janeiro State East Group: A team of seven PY operators
led by OM Lima,PY1NEZ, will be QRV from Santana Island signing PY1ERR/p
from Jul 12-15. QSLs via PY1NEZ, direct or via bureau.

Announced activities for the IOTA Contest 2007 (Jul 28/29):
Callsign Island IOTA

285. Improved Islands on the Air (IOTA) website

Newsgroup: rec.radio.amateur.dx
Date: 2007-07-05 22:31:31 UTC
From: The Shadow <Repose@Zilch.com>
Message-ID: <djeji.22233$oh3.9474@newsfe03.phx>
Source record: 2406

This new version of the RSGBIOTA.org website includes many new and improved features compared to the previous one. These include improved island searches, the ability to see your QSO records and integration with the DX Cluster. You will also shortly be able to use it to submit updates online and to claim credit for IOTA Contest QSOs without QSL cards.

http://www.rsgbiota.org/

Check the "System" font in start/run/charmap: ?
It's a basic font that should be available on most systems. If it doesn't
work with "System" font, I don't know what to tell you. (Notice there's no
ALT + # code for ?, even with System).

Ohio/Penn DX Bulletin No. 816

The Ohio/Penn DX PacketCluster
DX Bulletin No. 816
BID: $OPDX.816
July 9, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, K4VUD/HS0ZCW, N4AA & QRZ DX, K6RIM, K7BV, K8YSE, WB8YJF, WZ8C, Pete's-DX-Newsdesk, DK8JB, DL5YWM, DL7MAE & The DX News Letter, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JA1ELY, JI5RPT, LU8ADX, LX2A, M5AAV, RSGB IOTA, S50U, ST2M, SV1HER, TA1HZ, TA3YJ, VE1QD, VA3RJ & ICPO, VK4FEAT and ZL1CT/GM3WOJ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 1st/July, through Sunday, 8th/July there were 209 countries active. Countries available: 3A, 3B8, 3V, 3X, 4J, 4L, 4O, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5X, 5Z, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T7, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A0, SOV. MIL. ORDER OF MALTA (Update). A multinational team lead by Francesco, IK0FVC, will activate 1A0KM from the Sovereign Military Order of Malta between July 12-22nd. Operators mentioned are: Wolfgang/DL5MAE, Bernhard/DL6RAI, Rodger/G3SXW, Nigel/G3TXF, Luciano/I0JBL, Paolo/I2UIY, Massimo/I8NHJ, Marco/IK0DWN, Sergio/IK0FTA, Roberto/IK0PRG, Giocondo/IW0GIV, Alessandro/IW0GPN, Alan/K5AB, Joe/KO4RR,

Victoria/N4WV and Martti/OH2BH. Activity is planned for 160 meters through 23cm on all modes. There will be a possibility of some EME activity during the first weekend of operations. QSL via IK0FTA. Look for logs to be uploaded to the LoTW. An online blog is supposed to be available at: http://1a0km.splinder.com/

8Q, MALDIVES (AS-013). James, M1DST, will be active as 8Q7JP from July 9-16th. Activity will be on 80/40/20/15/10 meters SSB. He might attempt some slow CW too if he is brave enough. PLEASE NOTE that this will be a holiday style with operations. James says, "It is my honeymoon so I have to respect that. My other half is licenced too so she understands the fun". QSL via his home callsign.

8Q, MALDIVES (Correction/Update). Operator Al, JA9APS, will be active as 8Q7KN (not 8Q7NK) between July 6-9th. This is a family vacation. His XYL JR9GTD will also operate as 8Q7KN, and his two sons JE9AMG and JE9AMH will will operate as 8Q7KF. Al hopes to operate on 40-6 meters, SSB, CW and RTTY, using a TS-570S and R8 vertical. QSL via his home callsign. Direct address is: Narumi Kawai, 1-10-14 Suwanokawara, Toyama, 930-0088 JAPAN.

A2, BOTSWANA (Update). Frosty, K5LBU/A25CF, and his team of operators are now active until the 20th. Activity will be active on all bands from 160-6 meters on CW and SSB, with operations also on 6/2 meters and 70cm EME. Look for the following operators to be on the air: Dan/ZS6JR (A25DW), Frosty/K5LBU (A25CF), Wayne/W5KDJ (A25KDJ), Jay/W5SL (A25SL), John/GM3OOK (A25OOK), Lee/WA8QFE (A25LT), Jan/ZS6OB (A25OB), Hal/ZS6WB (A25HL) and Dick/ZS6BUN (A25BUN). The QSL route for A25OOK is via M5AAV; all other QSLs should be sent to the appropriate home callsigns.

AM, SPAIN. For Spain, look for the following URE HQ stations (Union de Radioaficionados Espanoles - Spanish HQ) to be active in the upcoming IARU HF World Championship Contest next weekend (July 14-15th):
AM1HQ 80m CW/SSB
AM2HQ 160m CW
AM3HQ 160m SSB
AM4HQ 15m CW/SSB and 40m SSB
AM5HQ 10m SSB, 20m CW/SSB and 40m CW
AM7HQ 10m CW

QSL all HQ stations via EA4URE.

C6 DXPEDITION VIDEO. Daniel, DL5YWM, informs OPDX that he has put a video online of their recent C6ARI Cay Sal Bank DXpedition (IOTA NA-219) on their Web site: http://www.qslnet.de/c6ari
The German operators were there in early January.

CARIBBEAN TOUR (V2 and VP2). Frank, K3TRM, is now active from Antigua as V26RM until July 10th. Activity will be on 80-6 meters CW, SSB and RTTY. Frank has received permission to operate on 60 meters (a first from Antigua). He was heard this past week very active on 60/20/17 meters. Look for Frank to go to Montserrat (VP2) next and be active

between July 11-14th. Activity will be on 80-6 meters, CW, SSB and RTTY. Frank is still waiting for the final confirmation on his callsign, but he is expecting to receive VP2MRM. QSL both operations via K3TRM.

CU2, AZORES. Pedro, EA1FCH, will be active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH, July 27th through August 5th. Activity will be on the lower bands and WARC bands, mainly CW and the Digital modes. QSL via EA1FCH, by the Bureau or direct.

FG, GUADELOUPE (NA-102). Members of the Guadeloupe Island Radio Club FG5KC will be active during the IARU Championship (July 14-15th), from the Alize au Moule Beach. Activity will be on SSB on the HF bands. QSL to: Radio Club FG5KC, BP126 Messagerie, F97110 - Pointe-A-Pitre Cedex, Guadeloupe, France.

HK0, SAN ANDRES. Operators Tom/K3WT, Vlad/N0STL, William/W0OR and Ron/N0AT will be active from here between November 19-27th. Activity will include the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. Contest callsign has not been announced yet.

HS0, THAILAND. Look for members of the Radio Amateur Society of Thailand (RAST), under the Royal Patronage of His Majesty the King, to be active as HS0AC during the IARU HF World Championship Contest, July 14-15th. Operators mentioned include HS0ZDY, HS1CKC, HS0ZCW, OZ1HET, E20EHQ and possibly one more. ADDED NOTE: Look for Champ, E21EIC, to do a Single-Op effort from ZONE 49 in this year's contest.

IOTA NEWS.....
AS-136. Look for Dale, BA4TB, to be active as BA4TB/4 from Chongming Island during the RSGB IOTA Contest (July 28-29th). QSL via BA4TB.

EU-020. Eric, SM1TDE, will be active as SA1A from the Gotland Island during the RSGB IOTA Contest (July 28-29th) as a CW entry only. Eric actually lives on the island. QSL via SM1TDE.

EU-034. Frank, DL1FT, will be active as ES0FTZ from Saaremaa Island between July 11-21st. Activity will be on 80/40/30/20/17/15 meters SSB. For more information and exact times, please visit his Web site at: http://www.funkexpedition.de/estland/

EU-047. Lars, DF1LON, will be active as DF1LON/p from Borkum Island during the RSGB IOTA Contest (July 28-29th). QSL via DF1LON.

EU-066. Members of the Student Radio Club "SPORADIK" (RW3WWW - from the Kursk State Technical University) will be active as RI1SI from the Solovetsky Islands (RRA RR-02-04), July 11-16th. The operators mentioned are: Cyril/RA3WUV, Aleksandr/RA3WOK, Anton/R3W-128, Valerie/RW3WW, Yuri/UA3WF, Vladimir/RA3WVG and Aleksandr/RA3WRE. Activity will be on 160-10 meters, using CW, SSB and the digital modes. QSL via RW3WWW.

EU-112. Operators Alan/G0RCI, Gordon/G3USR and possibly other members from the Grantham ARS will be active as GC0GRC/p and GS0GRC/p from Eilean an Tighe (House Island), Shiant Islands (IOSA OH-18, SCOTIA DI-24), July 10-13th. They plan to have 2 stations on the air on all bands 80-6 meters SSB only. QSL is 100% via the bureau.

EU-120. Operators Kevin/G6FOP, Avril/2E0KOP, Ray/G4FON, Colin/M0DDT, Richard/G3ZGC and Dave/G3KLH will be active as G7N from the Isle of Wight (WLOTA LH-2985) during the RSGB IOTA Contest (July 28-29th). QSL via G6FOP (Kevin Martin, 79 Lower Way Thatcham, RG19 3RS England), Eqsl preferred.

EU-127. Peter, DF6QC, will be active from Helgoland Island during the RSGB IOTA Contest (July 28-29th) as a Single-Op/SSB/12H entry. QSL via DF6QC by the Bureau.

EU-145. Members of the OM0C Contest Crew are pleased to announce another IOTA DXpedition to Isola di Ventotene. An international team of 8 operators will again active the Island of Ventotene (Ponzine Islands) from July 25-30th. Activity will be on 80-2 meters using the callsign IB0/homecall, and the callsign IB0/OM0C in the 2007 IOTA Contest (July 28-29th) as a Multi-Op/DXpedition entry. Look for updates on the list of operators, the QSL information and online log on the Web page at: http://www.om0c.com/ventotene/

EU-149. Operators ES1AN, ES1LS, ES1QV, ES2EZ, ES2DJ, ES2NJ and ES2QN will be active as ES2U from the Island of Rammu during the RSGB IOTA Contest (July 28-29th). QSL via the Bureau.

NA-041. Operators Mike/W7ASF and Richard/N7TCO will be active as W7ASF/KL7 from Prince of Wales Island (USI AK-001S, Southeastern County, Alaska) between July 22-30th. Their activity will include the RSGB IOTA Contest (July 28-29th). A special certificate is available for 2 USDs in addition to your QSL card. QSL via the Bureau or direct to: Mike Horvat, 107 E Burnett St. PO Box 741, Stayton, OR 97383 USA.

NA-027. Fred, ON6QR, will be active as VO/ON6QR from Newfoundland Island during the RSGB IOTA Contest (July 28-29th). He plans to run QRP using a small antenna. QSL via ON6QR by the Bureau.

NA-067. Jon, WB8YJF, is about ready to go on his yearly trip to Ocracoke Island (USI NC001S), NC, from July 22-29th. His activity will be on CW/SSB on 80-10 meters. Jon will also be in the RSGB IOTA Contest (July 28-29th). He has a nice full color QSL card of an arial view of the island. QSL direct for a FAST reply; Bureau QSLs are "OK" but a lot slower. His address is: Jon Severt/WB8YJF, 5586 Babbitt Rd., New Albany, OH 43054 USA.

NA-198. Operators VO1AU, VO1JNS, VO1KVT, VO1MX and VO1TA will be active as VO1J from Fogo Island during the RSGB IOTA Contest (July 28-29th). QSL via VO1AU.

OC-137. Operators Dave/VK4NDX, Andrew/VK4HMU and Darren/VK4FEAT will be active as VK4HAM/LGT from Cape Moreton Lighthouse (AUS-039) on Moreton Island for the International Light-house/Lightship Weekend (ILLW) between August 17-20th. Look for activity on 80/40/20/15/10 meters. QSL Manager is VK4FEAT (See QRZ.com). A special IOTA/LOTA QSL card is available.

J3, GRENADA. Operators Ann/WA1S, Bill/VE3EBN, Ulf/DL5AXX, George/N2GA, Diane/K2DO, Leo/S50R, Tim/K5AC, and Les/W2LK will be active as J3A from here during the CQWW DX CW Contest (November 24-25th) as a M/? entry. Outside the contest they will be using their own personal callsigns. QSL J3A via WA1S, all other callsign are via their home callsign.

KH0, MARIANA ISLANDS. Operators Kay/JH0MRP and Naoyuki/JK1FNL will be active as AC5TB/KH0 and NA8O/KH0, respectively, from Saipan (OC-086), between July 13-16th. Activity will mainly be on 30/17/12/6 meters, but they do plan to be in the IARU HF World Championship Contest next weekend (July 14-15th). QSL via their home callsigns.

KL7, ALASKA (IOTA Op). Operators Rich/N7TCO and Martin/W7ASF will be active as W7ASF/KL7 from Prince of Wales (NA-041) between July 22-30th. Their activity will include an entry in the RSGB IOTA Contest (July 28-29th). QSL via W7ASF.

KL7/NL7, ALASKA (IOTA Op). Just a reminder that operators Marvin/KL1YY, Bob/NF7E and Art/NN7A will operate from Ushagat Island, Alaska (IOTA NA-206), from July 12-17th. They will have two stations using 100 watt transceivers with vertical, wire, and kite antennas. Operation will be CW by NN7A/NL7 and SSB by KL1YY and NF7E/KL7 on 160-10 meters with SSB on the 20m and 15m IOTA frequencies as conditions permit. No digital or VHF operations are planned. There are no existing facilities on Ushagat, so operation will be from a camp set up by the operators using battery and generator power. E-mail and log checking will not be possible during the operation. QSL by the bureau or direct to their home callsigns:
KL1YY: Marvin Baur, 4275 Kachemak Way, Homer, AK 99603 USA
NF7E : Bob Wertz, 6315 E. Townsend-Winona Rd, Flagstaff, AZ 86004 USA
NN7A : Art Phillips, P.O. Box 73, Eckert, CO 81418 USA

LN2, NORWAY. Norway's IARU HQ Manager Stein, LA6FJA, reports that LN2HQ will be active in the IARU HF World Championship Contest (July 14-15th) from the Norwegian Radio Relay Liga (NRRL) HQ. Activity will be on all bands in contest. QSL via the Bureau ONLY! Visit the NRRL Web page at: http://www.nrrl.no/ln2hq

LR4, ARGENTINA. A large group of LU operators will be active as LR4A in the IARU HF World Championship Contest (July 14-15th) as a HQ entry. This will be the first time that the LU operators will take part in

the 2007 IARU HF World Championship Contest. The team consists of 9 stations, and will activate 6 bands on CW and SSB. There will be 28 operators on the team that consists of the following hams: LU1AEE, LU1ECZ, LU1DK, LU1FAM, LU1FKR, LU1HF, LU1NAF, LU1NDC, LU2DVI, LU2NI, LU3CT, LU3HY, LU4DX, LU4DJB, LU4FPZ, LU5HM, LU5HCI, LU6FAZ, LU7HE, LU7HF, LU7HN, LU7HO, LU8ADX, LU8NA, LU9DAG, LU9HS, LW7HW and LW9EOC. The QSL route is via LU4AA. Look for the following operators on the following bands and modes:

Contest
Call Band Mode Operators
----- ----- ---- ---------
LR4A 10m CW LU1HF, LU5HCI, LW7HW, LU6FAZ
LR4A 10m SSB LU1NDC, LU2NI, LU1NAF, LU8NA
LR4A 15m CW LW9EOC, LU3CT
LR4A 15m SSB LU5HM, LU9HS, LU3HY, LU7HE
LR4A 20m CW LU1FAM, LU1AEE, LU4FPZ
LR4A 20m SSB LU1DK, LU4DX, LU9DAG, LU4DJB
LR4A 40m CW LU7HN, LU7HF, LU7HO
LR4A 40m SSB LU8ADX, LU1FKR
LR4A 80m CW LU1FAM, LU1AEE, LU4FPZ
LR4A 80m SSB LU1ECZ
LR4A 160m CW LU7HN, LU7HF, LU7HO
LR4A 160m SSB LU2DVI

LX0, LUXEMBOURG. Look for LX0HQ to be active again from the Headquaters of the Luxembourg Amateur Radio Society (RL) during the IARU Contest (July 14-15th). They will have four stations active from 2 different locations in Luxembourg: Eschdorf (QTH of LX7I) and Esebuer(QTH of LX0RL). QSL via LX1KQ. Visit the RL Web page at: http://www.rlx.lu

MDF IN NOVA SCOTIA. Members of the Halifax Amateur Radio Club (HARC) invite all contesters, DXers and HF enthusiasts to the 4th Annual Maritime DX Forum (MDF). It will be held in Upper Tantallon, just outside Halifax, at the Head of St. Margaret's Bay. This is a full day event on Saturday, August 4th, begins at 8:30 am. The Program includes five excellent presentations:
1) Tom Harrell, N4XP, talking about the highly challenging 2007 Scarborough Reef DXpedition.
2) The second presentation will explore answers to the question: "Why do Mariners become Radio Amateurs? It features Jose Campione, VA3PCJ, a noted Ontario yachtsman and ham.
3) Scott Wood, VE1QD, will take you on a trip to the British Antarctic Territories, some of the rarest DX real estate on the planet.
4) Fred and Helen Archibald, VE1FA and VA1YL, will show you how to mount a real DXpedition in your own region at a moderate cost.

5) The DX Forum Dinner will feature a reception at 5:00 pm followed by dinner at 6:00 pm. In the day's final event, Don Trotter, VE1DTR, and his musical group Sunrise will entertain after dinner with a Bluegrass Concert: DX Breakdown.

The registration deadline is Wednesday, August 1st. The complete details about the MDF and a registration form can be downloaded from the HARC Web site at: http://www.halifax-arc.org
You can also contact Scott Wood, VE1QD at: velqd@rac.ca

NCDXF PRESS RELEASE. The following is from Al Burnham, K6RIM, Vice President of NCDXF: -- BS7H QSLs on LOTW For Active NCDXF Donors -- "BS7H confirmations have recently appeared on LOTW for those who have made a donation to NCDXF within the last eighteen months.

Thanks to KU9C for uploading and to the BS7H DXpedition for recognizing the financial support of NCDXF and its many regular contributors.

Information pertaining to the Northern California DX Foundation is available at <http://www.ncdxf.org>"

QSL INFO AND NEWS.....

VR10XMT direct
XE2WWW direct, SAE only (NO CONTRIBUTION), or LoTW
ZD8S direct
ZY5P via PP5BZ

ST2KSS QSL CORRECTION. Magdi, ST2M, informs OPDX that QSLs for ST2KSS are only via the QSL Manager ST2M. All QSOs in the log book are via the QSL info on QRZ.com; not via UA4WHX. QSL ST2KSS only via ST2M.

QSLS VIA LOTW: CN8LI, DH3RD, HV0A, RX3AGD, TZ6MF, VE3MS and XE2S

QSLS RECEIVED VIA MAIL: 5A7A, 5H3EE, 9U0X, 9Z4BM, BD7KLO, CX7TT, HH4/W3CMP, LY3UV, NP4A, V26HS and V73NS

S50, SLOVENIA. The Radio Amateur Association of Slovenia, Zveza Radioamaterjev Slovenije (ZRS), will be active as S50HQ in the IARU HF World Championship Contest as a Multi-Op/IARU HQ station entry. Look for the Multi-Op stations on the following bands and modes:

Contest
Call Band Mode Operators
----- ----- ---- ---------
S50HQ 10 SSB S53XX
S50HQ 10 CW S50U
S50HQ 15 SSB S50K
S50HQ 15 CW S53O, S52EZ
S50HQ 20 SSB S50G & team
S50HQ 20 CW S52OP & team
S50HQ 40 SSB S51ZO & team
S50HQ 40 CW S52AW, S53F, S57Z
S50HQ 80 SSB S50X, S54X
S50HQ 80 CW S53O, S52EZ
S50HQ 160 SSB S57M, S56P
S50HQ 160 CW S50XX, S52X

QSL all S50HQ via the S5 QSL Bureau.

SPECIAL EVENT (Scout Station). Look for special event station SX100VAR to be active until the end of the year. This is a Boy Scout station to celebrate the 100th anniversary of the International Scout Movement. It will be active from the Scout head office (KM18XF) in the Varnava area on all bands on SSB and RTTY. There will be an award available for radio amateurs and SWLs by making just one QSO with this special event station on any band and mode. More details, picture of the award and the QSL information is available on QRZ.com.

SPECIAL EVENT. Look for special event station K8KRG to be active between July 13-14th during "NOARSFEST" in Wellington, Ohio. A special QSL card will be available. Operator will be Andy, N8OFS, from grid square EN81VE on the following suggested 6 meter frequencies: 50.155, 50.162.5, 50.167.5 and 50.175 MHz.

SX5, DODECANESE (Update/EU-001). Operators Theodor/SV1GRM, Sotirios/ SV1HER, Nikiforos/SV1EEX, Daniel/SV1JCZ, Cliff/SV1JG, Spiros/SV1RC, George/SV1RP and Lykourgos/SW1GZL will be active as SX5AS from the complex of three (3) uninhabitant Rocky Islet of Astakida and the lighthouse (WLOTA LH-0393, WW Loc. KM35JV), July 17-23rd. All the above operators are members of the Radio Amateur Association of Greece (http://www.raag.org). It will be the first time that the islets are going to be activated for ham purposes as well as the lighthouse. The complex is located on the western side of Karpathos Island (at 18 NM) and on the Northern side of Kasos Island. Activity will be on all HF bands, 160m-23 Cm (HF-SHF). Main modes will be CW/SSB/PSK/RTTY/FSK441/ FM. They will also try to work amateur satellites with 2m-23cm FM transponders. QSL via SV1HER (QRZ.com).

T8, PALAU. Operators Hide/JM1LJS (T80W), Motoaki/JE1EKS (T88EK) and Koya/JI5RPT (T88PT) will be active from the IMPAC Palau Rental Shack, July 13-18th. Activity will be on 40-6 meters, CW/SSB and satellites. QSL via their home callsign. The Web pages for this operation are:
http://radio-dream.com/t80w/
http://www.ji5rpt.com/t88pt/

TC25, TURKEY (Special Event). Look for special event station TC25SG to be on the air between July 11-15th to celebrate the 25th anniversary of the foundation of Turkish Coast Guard Command (Sahil Guvenlik). Look for Leonardo/TA1FR, Tevfik/TA1HZ and Bekir/TA2RX to be the operators and to be active from some part of the Marmara Straits Area Command's Coast Guard vessels. They team plans to do an all day multi-band operation for the upcoming IARU HF Championship weekend. QSL direct via TA1HZ or via TA QSL Bureau.

V3, BELIZE (Update). By the time you read this, Dennis, K7BV, should be active from Caye Caulker (Grid EK57 - IOTA NA-073) off the coast of mainland Belize through July 16th. He informs OPDX that he will be using the callsign V31BV on all bands except 6 meters where he will use the special callsign V36M exclusively. The main purpose of this trip is to focus on 6 meters. He will have a 24/7 breakable beacon

on 50.106 MHz. Dennis does state, "There will be plenty of action on the other bands as well with a second rig." QSL via W1JJ. Visit his Web page at: http://www.qth.com/k7bv/v3
EDITOR'S NOTE: Please be aware that the callsign "V31BV" was used once before by Vladimir, UA4WHX, during his Caribbean and Central America tour in the year 2002.

V8, BRUNEI DARUSSALAM. Steve, 9M6DXX, will be operating as V8FEO from July 11-15th. Activity will be on 80-10 meters, SSB only, including a Single-Op/All-Band entry in the IARU HF Championship Contest (July 14-15th). Steve will be using 300 watts to an HF6 vertical and dipoles for 12, 17, 40 and 80m above the hotel roof, about 30 meters above the ground. QSL via Manager M5AAV, direct or by the RSGB QSL Bureau.

VP2V, BRITISH VIRGIN ISLANDS. Tune in Tortola! WorldRadio Magazine Editor and FISTS CW Club Coordinator Nancy Kott/WZ8C, along with Bob Mennell/WB5IUU, Cal White/WF5F, Paul Frantz/W5PF and Bill Frink/K5WAF from the Texas DX Society (TDXS) will be operating from the Island of Tortola July 11-18th. They will be participating in the FISTS CW Club Summer Sprint on Friday, July 13th from 8:00 PM to midnight EDT, and the IARU Contest the weekend of the 14th. Operations during the rest of the week will be on SSB, RTTY and CW with an emphasis on straight key operations. Here is an opportunity to get IOTA NA-023 in your log, as well as the VP2V prefix, which the operators will be using in front of their callsigns (VP2V/homecall). QSL via FISTS Bureau or W5PF.

VR10, HONG KONG (Special Event). To celebrate the 10th anniversary of Hong Kong being handed back to the People's Republic of China, look for VR radio amateurs to use the prefix VR10 (instead of VR2) between July 1st, 2007, and June 30th, 2008.

WP3, PUERTO RICO (NA-099). Alfredo, WP3C, will be active in the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK, direct preferred, but Bureau is OK.

YM1907, TURKEY (Change/Special Event/Prefix). To celebrate the 100th anniversary of Fenerbahce Sports Club, look for Berkin, TA3J, to be active using the special callsign YM1907FB, which was authorized by the Turkish Republic Telecommunication Department of Istanbul Site Manage ment, between 1907z, July 19th and 1907z, July 26th (not August 2nd as first announced). Activity will be on 160/80/40/20/15/10/2 meters and the WARC bands on all modes. QSL via TA3YJ, direct or by the bureau. For direct QSLs, please send only SASE and 1 IRC (2006 version) with your QSL card, no green stamps please. SWL QSL cards are OK. No eQSL. Visit the Web page: http://www.qsl.net/ta3j/ym1907fb

ZF, CAYMAN ISLANDS. Ed, N2EK, will be active as ZF2EK from Grand Cayman Island between July 13-20th. Activity will be limited because he is on holiday. Bands and modes of operations were not provided. QSL via N2EK.

ZL, NEW ZEALAND. Members of the Motueka Contest Club (ZL1V) will be
active as a Multi-Op/Multi-Mode station in next weekend's IARU contest,
from the Quartz Hill (ZL6QH) super-station. Operators mentioned are:
John/W2ID, Brian/ZL1AZE, Chris/ZL1CT and Frank/ZL2TTS. The team will
be activating ITU/IARU Zone 60. Please QSL via N3SL.

FM - MARTINIQUE, NA-107
Alain,F5LMJ, will be active from Martinique (NA-107) signing TO5J from Jul 14-28. No further information has been released but Alain prefers working mainly in CW and digital modes. Alain usually sends the QSLs automatically via bureau and his log will be uploaded to the LotW, too.

FS/PJ7 - ST MARTIN, NA-105
Marq,CT1BWW, John,EA3GHZ, and Tomas,EA5YH, and their XYLs will spend their holidays on St. Martin (NA-105) from Jul 15-25. They will be QRV as FS/homecall working with two stations simultaneously in CW/SSB and digital modes on 80-6m. They will also make a trip to the Dutch side of the island from where they may show up as PJ7/homecall. All QSL cards should be sent to the OP's homecall. More information can be found on: http://www.dxciting.com

KH0 - NORTHERN MARIANA ISLANDS, OC-086
Kay,JH0MRP (AC5TB) and Nao,JK1FNL (NA8O), will activate Saipan (OC-086) mainly on the WARC bands and 6m as AC5TB/KH0 (QSL via JH0MRP) and NA8O/KH0 (QSL via JK1FNL) from Jul 13-16. They intend to participate in the IARU HF Championship Contest (Jul 14/15) as well.

SV9 - CRETE, EU-015
Paolo,SV9/IK2MLS, will be QRV from his holidays working in SSB on HF, 6m and 2m from Jul 15-27. QSL via homecall.

T8 - PALAU, OC-009
Hide,T80W (JM1LJS), Motoaki,T88EK (JE1EKS), and Koya, T88PT (JI5RPT), will be active from the "IMPAC Palau Rental Shack" in SSB/CW on 40-6m and via satellite from Jul 13-18. QSLs via homecalls. The websites are: http://radio-dream.com/t80w and http://www.ji5rpt.com/t88pt
A view of the shack is here: http://palau.rental-shack.com/english

TA - TURKEY
Another special event station to celebrate the 100th birthday of the sports club Fenerbahce Istanbul will be YM1907FB from Jul 19-26. The call will be aired by Berkin,TA3J, on 2-160m. QSLs via bureau or direct to TA3YJ. If you send direct QSLs please enclose no money bills but IRCs. There will be no eQSLs and SWL reports are welcome. Feel free to check these two links: http://www.qsl.net/ta3j/ym1907fb and http://www.geocities.com/qslservice/ta3yj
---
TA1FR, TA1HZ and TA2RX are working as TC25SG (25 years coast guard) on all bands from Jul 11-15. QSL via TA1HZ, direct or via bureau!

V3 - BELIZE
V31BV is the call of Dennis,K7BV, who is active from Caye Caulker (NA-073) until Jul 16 as printed in the last DXNL. He is also using the special callsign V36M exclusively on 6m and you can watch the QRG 50106 kHz where he runs a beacon. Both QSLs are managed by W1JJ.

Colin,KU5B, announces his operation as V31UB from Jul 12-17. He is going to spend most of the nights at the radio in CW and SSB and also considers a participation in the IARU HF Championship. QSL via KU5B.

V8 - BRUNEI, OC-088
Steve,9M6DXX, is staying in Brunei (OC-088) from Jul 11-15. He is QRV as V8FEO (QSL via M5AAV) in SSB on 10-80m and will take part in the upcoming IARU HF World Championship as well.

VP2M - MONTSERRAT, NA-103
Frank,K3TRM, applied for the callsign VP2MRM which he plans to activate on the volcano island Montserrat (NA-103) in SSB/CW/RTTY on 80-6m from Jul 11-14.

VP2V - BRITISH VIRGIN ISLANDS, NA-023
Nancy,WZ8C, Bob,WB5IUU, Cal,WF5F, Paul,W5PF, and Bill,K5WAF, are going to stay on Tortola Island (NA-023) from Jul 11-18. They will hit the airwaves as VP2V/homecall in SSB/CW/RTTY and also during the contest. QSL cards for all calls should be sent via bureau to W5PF.

YJ - VANUATU
Hank,W0CZE, and possibly a second OP will shop up as YJ0CZE from Jul 13-21. The QSL manager for YJ0CZE is W0FF.
Operation will take place on following frequencies (in MHz):
band CW SSB
10m 28.020 28.495
12m 24.895 24.950
15m 21.025 21.295
17m 18.075 18.150
20m 14.020 14.190/14.250
30m 10.105 ---
40m 7.010 7.082
80m 3.505 3.795

ZF - CAYMAN ISLANDS, NA-016
Eddie,N2EK, will spend his holidays on Grand Cayman (NA-016) and
will use the callsign ZF2EK from Jul 13-20. QSL via N2EK.

1A0 - SOVEREIGN MILITARY ORDER OF MALTA
Francesco,IK0FVC, will be the leader of a multinational team (OH2BH,
DL5MAE, DL6RAI, G3SXW, G3TXF, K5AB, KO4RR, N4WV (YL), I2UIY, I8NHJ,
IK0DWN, IK0FTA, IK0PRG, IW0GIV, IW0GPN, I0JBL) activating 1A0KM from
Jul 12-22. They will work on all bands from 23cm-160m and also via EME
for the very first time. Their QSL manager will be IK0FTA.
The log will be uploaded to the LotW and an online log can be found at:
http://1a0km.splinder.com

8Q - MALEDIVES, AS-013
8Q7JP is the callsign of James,M1DST, from Jul 9-16. He is working in
SSB on 80/40/20/15/10m without any stress since this is his honeymoon
and his wife comes first! QSL via his homecall.

PORTUGAL, SPECIAL EVENT STATION
Josu,CT1EHX, Toze,CT1GFK, Goncalo,CT1GPQ, Miguel,CT1IUA, Rui,CT2IHP,
Josu,CT1DVG, Jose,CT1EPS, Arnaldo,CT2IOV, and Antonio,CT2IOU, will
activate the special event station CS26X in SSB/CW/RTTY on 6-80m from
the 26th International Motard Meeting of Faro on Jul 16-22.
QSL via CT1EHX, direct or via bureau.

IARU HF WORLD CHAMPIONSHIP, more announcements:

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 8th-July, through Sunday, 15th-July there were 211 countries active. Countries available: 1A, 3A, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5X, 5Z, 6W, 6Y, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9N, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, BV, BY, C2, C3, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J3, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, YA, YB, YJ, YL, YN, YO, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4K, AZERBAIJAN. Operator Leonid, 4K8F, will active during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op/Multi-Band entry. He will also be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Multi-Band/Low-Band entry. Most of

the activity will be on the lower bands. QSL both operations via 4K8F.

4O, MONTENEGRO (IOTA Op). Emir, 9A6AA, plans to be active as 4O6AA from Sveti Nikola Island (EU-163, LH-1097) between August 13-19th. Activity will be on the HF bands. More detailed info can be found at: http://www.inet.hr/9a6aa/4O6AA.htm

4O7AMD MONTENEGRO WEB SITE. Visit the 4O7AMD Montenegrin Amateur Radio Station's Web page at: http://www.montenegro-radio.net

5TH IDXC ANNOUNCEMENT. The 5th International DX Convention organized by the Strange Radio Team (SRT) which will be held April 12-13th, 2008. The City will be Paestum near Salerno (fantastic Archeological Area) and the airport is Napoli Capodichino. The hotels are:
Savoy Hotel -- http://www.hotelsavoybeach.it/
Esplanade Hotel -- http://www.hotelesplanade.com
More details are forthcoming or contact Oreste, IZ8EDJ/HB9EFS, at: iz8edj@strangeradioteam.com

6Y, JAMAICA (Early announcement, NA-097). Operator Mark, M0DXR, will be active as 6Y5/M0DXR, February 12-25th (2008). Activity will include the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/Low-Power entry. Outside the contest Mark will be active on all bands. QSL via his home callsign.

8J1, JAPAN (Special Event). Look for special event station 8J1ESP to be activated by Lenio/PY3DF, Tanaka/JA1FXZ and a group of International League of Esperantists Radioamateurs (ILERA) from the following areas in Japan:
July 31st-August 4th: From Nagano/Takato, Japan
August 4-12th : From the 92nd Esperanto World Conference in Yokohama
August 12-31st : From Tokyo

Station will operate from the following frequencies (+/-): 7066, 14266, 21266 and 28766 kHz. QSL via JA1YAR or JA1FXZ, by the bureau or direct.

8Q, MALDIVES (Update). Andrew, G7COD, will be active for the third time from Embudu Island, Maldives (AS-013), as 8Q7AK from September 30th to October 12th. Activity will be mainly SSB with possibility of a little CW on the 30/20/17/15/12 meters. Suggested frequencies are: 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz to allow for QRM). Times of operation will be every day from 0830-1030z and 1300-1515z. QSL either via the bureau or direct to G7COD. More detailed information is available under 8Q7AK on QRZ.com.

A5, BHUTAN. Steven, W7VOA, is currently in Thimpu and was active on 20 meters CW as A52SW for a short time around 1439z. He may also be active for a short on Monday and Tuesday (July 16-17th). Watch 20 and 17 meters. QSL via K2AU.

ARRL CONTEST & DXCC NEWS. The "ARRL Letter" reports: "The DXCC Honor Roll listing, which normally appears in the August issue, will be in the September 2007 issue of QST. In addition, the ARRL International DX Phone Contest Results that normally appear in the September issue will instead appear in October."

DXCC ONLINE LISTINGS (July 12, 2007, 10:51 ET): Bill Moore, NC1L, ARRL DXCC Manager, reports: "Due to database problems the live online listings on the DXCC web site are temporarily unavailable. We are working on restoring access to the listings as soon as possible. Thank you for your patience."

E2/8, THAILAND. Champ, E21EIC, will again be active as E21EIC/8 from Southern Thailand between July 19th and August 10th.

FG, GUADELOUPE (NA-102). David, F1JXQ, will be active as FG/F1JXQ between August 4-20th. He will operate SSB and likely to be found on 10, 6 and 2 meters between 1000-1600z. QSL direct or via eQSL. PLEASE NOTE: For the first time you will be able to follow a DXpedition on Twitter! See it at: http://twitter.com/fg_f1jxq
Subscribers and followers of the FG/F1JXQ Twitter will be notified by SMS or messenger when the station FG/F1JXQ will be active, up and ready for DX QSO. Follow FG/F1JXQ Twitter on the web: http://www.f1jxq.net/
Subscribe to FG/F1JXQ Twitter : http://twitter.com/fg_f1jxq
Subscribe by RSS: http://twitter.com/statuses/user_timeline/7460442.rss
Twitter is a free Web service that allows to send by SMS or messenger an update on what you are doing right now, to display the message on a Web site but also send it by SMS or Messenger to a group of friends.
More on: http://twitter.com

FG, GUADELOUPE (NA-102). Christian, F6HLC, will be active as FG5JK during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/TBD entry. QSL via F6HLC.

FS, ST. MARTIN. Operators Art/N3DXX and Steve/KN5H will be active as FS/N3DXX during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-2 entry. Activity will be from Morton's (FS5UQ) QTH. QSL via KN5H.

IOTA NEWS.....
AS-012. Operators JA6RGJ, JK6IIS and JO6RGZ will be active as homecall/6 from Kuro Island (JIIA AS-012-028), JA6 Nagasaki Prefecture, July 28-29th. Activity will be on the HF bands and 6 meters using CW and SSB. QSL to their home callsigns, direct or by the bureau.

AS-053. Cha, HS8KAY, will active from Phuket Island durin the RSGB IOTA Contest (July 28-29th) as a Single-Op/24-Hrs entry.

AS-060. Member of the Gwangju DX Club will be active as 6L0NJ/4 from Ch'ung Island unitl 0300z, July 17th. Activity will be on 160-6 meters CW, SSB and RTTY. QSL via HL4XM, direct or by the bureau.

AS-101. Champ, E21EIC, will be active as E21EIC/P from Samui Island during the RSGB IOTA Contest (July 28-29th) as a Single-Op/ 24 Hrs entry. He will be active on the island between July 27-29th. JA stations QSL via JR5XPG; all others via E21EIC.

AS-102. Look for station BO0K to be active from KinMen Island (Quemoy Island), July 26-30th. Activity will be on 80-10 meters (no WARCs) using CW and SSB. QSL via BV2KI.

AS-120. Members of the Nicosia Amateur Radio Club will be active as 5B4NC from Agios Georgios [aka Kakoskaliou] (MIA MCI-001) during the RSGB IOTA Contest (July 28-29th). No QSL information at this time.

EU-010. Members of the Workington and District Amateur Radio and IT Group will be active as MS0WRC from Crannag, NE Coast Isle of Barra (IOSA OH-11, SCOTIA HI-02, WAB NF70), Outer Hebrides, from October 6-12th. Operators mentioned are: Steve/G0MTD, Paul/M1PAF, Mark/M0WCR and Jim/G7GAG. The group also plans to travel to Vatersay (IOSA OH-07, SCOTIA HI-01) and Eriskay (IOSA OH-09, SCOTIA HI-05) during their trip and activate WAB Squares NF60, NF70, NF71, NF80, NF81, NL69 and NL79. QSL via MX0WRC. More information can be found at: http://members.aol.com/g0mtd/isle_of_barra_expedition_2007.htm

EU-038. Operators Jack/PD2J and JanJaap/PG7V will be active again with the special callsign PC6IOTA from Texel Island between July 24th and August 1st. Activity will be on all HF bands. Their main activity will be in the RSGB IOTA contest. ALL QSOs will be confirmed automatically via the bureau; for those who are in a hurry, direct QSLs are via PG7V. For more info, visit the Web page at: http://www.pc6iota.net

EU-038. Operators Henk/PA0HFT, Leo/PA0LMD, Ben/PA0IBF, Hans/PA0WYS, Lex/PA3CDM and Gert/PA5TS will be active as PA0HFT from Terschelling Island (WLOTA LH-0943) during the RSGB IOTA Contest (July 28-29th). QSL via PA0HFT, direct or by the Bureau.

EU-072. Operators Zdenek/OK1MBZ and Jindrich/OK1MKI will be active as SV8/homecall from Skopelos Island, September 10-20th. Activity will be on CW from 80-10 meters.

EU-092. Jim, MM0BQI, will be active from the Summer Isles (IOSA SC10) during the last week in July and the first in August. He plans to be in the RSGB IOTA Contest (July 28-29th) using the callsigng MM0Q and the special event callsign GB5SI outside of the contest. QSL to MM0BQI, bureau, direct or the LoTW.

EU-170. Laci/HA6NL, and his friends Gyuszi/HA2VR, Zsolti/HA6PS, Sanyi/HA7JJS, Laci/HA7PL will be active as 9A6NL and 9A/homecall from Pasman Island (JN73QW, CI-085), between July 21-31th. Activity will be on all HF bands and 6 meters

on CW and SSB, and possibly some digital modes are expected as well. All of them will work in the RSGB IOTA Contest with different callsigns, in different categories. QSL via their home callsigns (9A6NL via HA6NL) by the HA QSL Bureau or direct to the QRZ.com address.

NA-014. Dana, VE1VOX, will be active VE1OTA/VE9 from Grand Manan Island (C.I.S.A NB-003 and LH CAN-491), July 26-29th. Look for activity on 40/20/15 meters. QSL direct to VE1VOX.

NA-027. Fred, ON6QR, plans to be active as VO/ON6QR in the next RSGB IOTA Contest (July 28-29th) from Newfoundland. Activity will be mainly CW using a dipole, vertical and running QRP (5w). QSL via his home callsign.

NA-031. Page, WA3EOP, will be active as WA3EOP/p from Conanicut Island (USI RI-007S, Newport County, Rhode Island) and the Beavertail Lighthouse (ARLHS USA-048, WW Loc. FN41HK), July 18th. Most of the activity will take place during the afternoons and evenings. Suggested frequencies are: 14266, 14332, 7178 and 3902 kHz. Watch before and during the Century Club nets on 40 and 75 meters. The QSL will have a picture of the lighthouse on it. There will be an additional operator after 1900z, Al, KZ3AB.

SA-077. (POSTPONED) Brazilian operators that were going to activate Santana Island (ARLHS BRA-062 and WLOTA-0714) between July 12-15th had to cancel their operation due to Rick's (PY1VOY) serious health problem which occurred last Monday (abnormal blood pressure). OPDX was informed that they will try to put the SA-077 on the air as soon Rick gets out of the hospital in Rio de Janeiro. They apologize for the delay.

IS0, SARDINIA (EU-024). Operator Tano, IZ8GCB, will be active as IS0/IZ8GCB between August 1-19th. Activity will be on 40/20/15/10 meters CW/SSB. QSL via his home callsign, direct or by the Bureau. Visit his Web page at: http://www.iz8gcb.com

JD1/M, MINAMI TORISHIMA (OC-073). Operator Masafumi, JA6GXK, will be active as JA6GXK/JD1 between July 18th and August 2nd, and again from August 29th to September 30th. He seems to like PSK31 on 20 meters.

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, is expected to depart sometime this week for Johnston Island (OC-023, USI OI-006). Susan was told that she is the last official operation from KH3-land as the U.S. Air Force and the U.S. Fish and Wildlife Service has delcared it a closed island. It took Susan 7 months to get permission from the USAF to stop there. Susan is expected to use the callsign KH3/W7KFI and prefers the CW mode (she states "I can get many more QSOs in"). Watch the frequencies 7036, 10105, 14036, and 18170 kHz. She will also operate SSB (possibly 14236 kHz), but can operate most anything upon request. QRP fans are supposed to watch 10105 kHz.

QSL via her home callsign (QRZ.com).

LIGHTHOUSE ACTIVITY.....
Look for CE4T and CE4S to be active from Topocalma Lighthouse (CHI-076) during August 17-19th. They will also be active in the International Lighthouse/Lightship Weekend (ILLW - August 18-19th). Activity will be on 40/20/10 meters using SSB only. QSL CE4S and CE4T via EA5KB Jose in Spain.

Operators Ian/GW0VML and Jayne, Steve/G0SGB and Hugh/M1NTO will be participating in this year's International Lighthouse/Lightship Weekend (August 18-19th) as GB1SL from "The Skerries Lighthouse" (BARLS A-5168, RLHS WAL-030, TWLHD WLH GW-016, WW Loc. IO73QJ), in Wales. More details are forthcoming closer to the operation.

LIGHTHOUSE/IOTA ACTIVITY........
Members of the Greater Norwalk Amateur Radio Club will be active as N1EV from Sheffield Island (NA-136, USI CT-008S, Fairfield County, CT) and the lighthouse (ARLHS USA-753, TWLHD WLH K-150, WLOTA LH-2712), during the International Lighthouse/Lightship Weekend, August 18-19th. Activity will be on 80-10 meters. QSL direct to N1EV (QRZ.com).

Members of the Motorola Amateur Radio Club (Florida Chapter) will take part of International Lighthouse/Lightship Weekend
(http://illw.net/<http://illw.net/),
and activate the Cape Florida Lighthouse (ARLHS USA-118), on August 18th from 1300-2330z, using the special callsign K4L. This lighthouse is on Key Biscayne, part of the Florida State South East Group, IOTA NA-141. Activity is planned for CW, Digital, and SSB operations on the IOTA frequencies on 40 and 20 meters. QSL via W4MOT, direct or by the Bureau.

Members of the Englewood Amateur Radio Society (EARS) plan to be active as K8ONV from the Boca Grande Lighthouse (ARLHS USA-910, WW Loc. EL86UR) on Gasparilla Island (NA-069, USI FL-034S, Charlotte County, Florida), August 18-19th. They will participate in the International Lighthouse Day. QSL via K8ONV (QRZ.com).

MARITIME MOBILE. Michel, F6DWQ (ex-FB8ZP), will be /MM aboard the "M/V Grigoriy Mikkheev" vessel around Svalbard (JW) from July 15-24th. Look for Michel to be mostly on 20 meters with a TS-50 rig.

OH0, ALAND ISLAND. Juha, OH9MM, will be active as OH0Z during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op/All-Band entry. QSL via W0MM.

P2, PAPUA NEW GUINEA (New IOTAs To Be Activated). Look for operators Hans/SM6CVX, Derek/G3KHZ, Steve/G4EDG and Luis/CT1AGF to be active as P29VCX from Nukumanu Island (New IOTA OC-284) between September 23-29th. QSL via SM6CVX. The team will then go to Takuu Islands (New IOTA OC-283) and be active as P29NI from September 30th until October 5th. QSL via G3KHZ. It is also possible that the team may be active

from Tulun Island (OC-256) between October 6-9th. The callsign is yet to be decided as is the QSL route. The group plans to have 3 stations and 2 linears on the air. Activity will be on all bands and each night they expect to be on either 80 or 160 meters as well as all the other bands. They will use verticals and multiband dipoles.

PIRATE ALERT. Mamuka, 4L2M, President of the National Association Radioamateurs of Georgia (NARG), informs OPDX that 4L6VV is a pirate station. Operator states his name is Yuri and is in Tkvarcheli. Mamuka says this is not a Georgian license, and they believe the pirate is operating from Russia. Please do not QSL this operation.

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, John/K4BAI and Larry/K5OT will be active as PJ4/homecall from Bonaire (IOTA SA-006) between November 20-27th. Also look for them to be active as PJ4A during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. QSL all callsigns via K4BAI.

QSL INFO AND NEWS.....
QSL routes provided by Johannes/DK8JB and Tedd/KB8NW:
HS0AC via HS0ZFZ VR2VTN via JM1FYH
XW1A via E21EIC YL7X via YL2LY
VR10VTN via JM1FYH YU5C via 4N1GZ
VR10VVJ via VR2VVJ

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated list of QSL Managers for which I could not find a published E-mail address or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

INFO NEEDED. Has anyone received XU7ADB QSLs yet? OPDX has some individuals inquiring.

NOT THE QSL MANAGER. Bob, K8BL, informs OPDX that he is receiving QSLs for VP2EDH and IS NOT the QSL Manager. He is the QSL Manager for VP2EOH. QSL VP2EDH via W7XU.

Ed, KU4BP, QSL Manager for V26H in the 2007 ARRL DX SSB Contest, informs OPDX that the operators of V26H have informed Ed that QSL cards for V26H will be going to the printer in a few weeks. So Ed expects to have them by late August. He has confirmed all QSOs for the contest that he has received so far is 340+. Ed states, "My job is taking me out of town from mid July to mid November. When I return home I will start getting the cards out. Thank you all for your patience."

QSLS VIA LOTW: A25KDJ, CT6A, GM4WZL, HB0/HB9CVQ, LA6FJA, OJ0/OH3RM, OY/G3SXW, R1FJ and SJ2W

QSLS RECEIVED VIA MAIL: 4L3Y, 5H3EE, 9M2/PG5M, 9U0X, N8S, SV2ASP/A, SV9/SM2EKM, TG9ANF, TO3T, VE0MMA and XW1A

RAC DRAFTS A NEW HF BANDPLAN. The Radio Amateurs of Canada (RAC) has been involved in the study and drafting of or a new proposed HF bandplan, which is now posted:
http://www.rac.ca/service/RAC_Draft_HF_Band_PlanR1.pdf
This proposal is now going before the RAC memerbership then shortly to the Region 2 HFBP meeting.

TK, CORSICA (EU-014). Jack, HB9TL, will be active as TK/HB9TL, July 18-30th. Activity will be on 80-10 meters SSB. Other reference numbers: IIA TK-001, MIA MCO-001 and WLOTA LH-1390). QSL direct to HB9QR.

TO1, MARTINIQUE. Operators Franck/FM0IR, Thierry/FM0JR, Yvon/FM0JZ, Eric/FM1HM, Christian/FM1II, FM1KM and Tijus/FM1HN will be active using the special callsign TO1YR from July 29th to August 5th during the turn of the Round Skiffs of Martinique. Activity will be on 80-2 meters on SSB, RTTY and PSK.

VE2, CANADA (Special Event). Look for special event station VE2XPO to be active from the site of the former Korean Pavilion on Ile Ste-Helene in Montreal from July 13-29th. Activity is to celebrate the 40th anni-versary of the 1967 EXPO.

VK9L, LORD HOWE ISLAND. Haru, JA1XGI (W8XGI), informs OPDX that he will be active as VK9GLX between October 19-22nd (only 3.5 days!). Activity will be on 40/30/20 meters and possibly the lower bands. Modes will be CW, SSB and Digital (RTTY, SSTV). QSL via JA1XGI (Bureau or direct) or W8XGI (only direct).

WP3, PUERTO RICO (NA-099). Alfredo, WP3C, will be active in the CQWW DX RTTY Contest (September 29-30th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK, direct preferred, but Bureau is OK.

YJ, VANUATU (OC-035). Hank, W0CZE, is now active as YJ0CZE until July 21st. Activity will be on 80-10 meters CW/SSB. Suggested frequencies are: CW - 3505, 7010, 10105, 14020, 18075, 21025, 24895 and 28020
SSB - 3795, 7082, 14190/14250, 18150, 21295, 24950 and 28495 kHz
QSL via W0FF.

DXNL 1528 - Jul 18, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

CU - AZORES ISLANDS, EU-089
CT1EPV, CT1EGW, CT1GFK, CU2HJA, DJ2VO and HB9CRV/CT3FN will activate
Flores Island (EU-089) between Jul 21 and Aug 1. All WLOTA hunters
should be aware that they plan to put up their stations in the light-
house Farol do Albarnaz (WLOTA LH 0947). They will be on the air as
CU8/homecall in CW/SSB/RTTY/PSK on 6-80m including the beacon CU8/CT3FN
on 50.113 MHz and as CU8T (multi/single) during the IOTA Contest on
Jul 28/29. The QSL manager for CU8T is CT1GFK (via bureau), all other
QSLs should be sent to the operator's homecalls. Their homepage is:
http://www.to-mk.com/azores

JA - JAPAN
The special event station 8J7VENUS is very active in SSB and digital
modes on 80-6m from the "Sendai Tanabata Festival" until Aug 31.
QSL via JH7YES.

JD1 - MINAMI TORISHIMA, OC-073
Masafumi,JA6GXK/JD1, is working from Minami Torishima (OC-073) from
Jul 18 until Aug 2 and once again from Aug 29 until Sep 30. He prefers
working in PSK on 20m.

JW - SVALBARD, EU-026
Martin,JW/G3ZAY, and Michael,JW/G7VJR, are working from the clubstation
JW5E in Longyearbyen (EU-026) on all bands but mainly on 6m and the
WARC bands from Jul 15-22. QSLs via homecalls (bureau, direct, LoTW).

KH3 - JOHNSTON ATOLL, OC-023
Like announced previously in DXNL 1525 Susan,W7KFI, will become active
from the Johnston atoll (OC-023) during the end of July. She plans to
arrive already this week. KH3/W7KFI prefers working in CW on the QRGs
7036, 10105, 14036 and 18070 kHz and in SSB on 14236 kHz. Since the
atoll is now under administration of the "US Fish and Wildlife Service"
all future operations have to be organized under much more difficult

circumstances. However the environmental agency declared this the last official operation and the island for not accessible anymore.

KL7 - ALASKA, NA-041
Rich,N7TCO, and Martin,W7ASF, will use the callsign W7ASF/KL7 from the island Prince of Wales (NA-041) from Jul 22-30. They also intend to take part in the IOTA Contest on Jul 28/29. QSL via W7ASF.

SU - EGYPT
Giselher "Gisel",SU9GD (DJ2AVB), writes: "I am active from Mehalla El-Kubra for three years now, mostly in CW and Feldhell, THROB and other digital modes on 20m. You can find me on the bands during the Islamic weekend (friday/saturday) starting around 1400 UTC. I run about 50 watts in the digital modes and 100 watts in CW using a vertical on the roof. Please QSL via my homecall DJ2AVB."

SV5 - DODEKANES, EU-001
SX5AS is the callsign of a DXpedition to Dodekanes (Astakida Islands) with the team members Cliff,SV1JG, Nikiforos,SV1EEX, Theodoros,SV1GRM, Spiros,SV1RC, George,SV1RP, Lykoyrgos,SW1GZL, Sotirios,SV1HER, and Daniel,SV1JCZ. The Astakida Islands (EU-001) are three uninhabited rocks in the Carpathian Sea which recalls the pictures of the recent BS7H DXpedition. The team is working in SSB/CW/PSK/RTTY/FSK441/FM and via satellites on all bands from 160m-23cm activating also the lighthouse (WLOTA: LH 0393) for the very first time from Jul 17-23. Their QSL manager is SV1HER.

TK - CORSICA, EU-014
Jack,TK/HB9TL, can be found in SSB on 10-80m from Jul 18-30. Unfortunately QSLs only direct via his QSL manager HB9QR.

ZF - CAYMAN ISLANDS, NA-016
David,K2DBK, will stay on Grand Cayman (NA-016) from Jul 22-29. You may hear him as ZF2DK if he is not relaxing at the beach. David prefers working in SSB on 20m but has antennas for all bands from 6-40m with him. He may also try PSK but start listening on the IOTA frequencies. QSL cards will be handled by David himself, either direct or via bureau and all log data will be uploaded to the LotW as well. More information can be found at: http://k2dbk.com

GREECE, SPECIAL EVENT STATION
SX100VAR is a scout station celebrating 100 years of the international scout movement. The QTH is Varnava where the Greek scout headquarters is situated. Working/listening to SX100VAR qualifies yourself for a special award issued by the awards and QSL manager SV1VS for EUR 5. SX100VAR is working in SSB and RTTY on all bands until Dec 31, 2007.

ITALY, SPECIAL EVENT STATION
IA3GM is activated by Luigi,IV3LNQ, until Sep 30 to mark the 70th anniversary of the death of Guglielmo Marconi. QSLs via IV3LNQ.

JAPAN, SPECIAL EVENT STATION
8J1ESP is a special callsign of the International League of Esperantist

Radio Amateurs (ILERA) which will be put on the air by Lenio,PY3DF,
Tanaka,JA1FXZ, and other members of the league with following schedule:
Jul 31-Aug 04 from Nagano/Takato
Aug 04-12 from the 92nd Esperanto World Congress in Yokohama
Aug 12-31 from Tokyo.
The station will work on these frequencies (+/- QRM): 7.066, 14.266,
21.266 and 28.766 MHz. QSLs via bureau or direct to JA1YAR or JA1FXZ.

DXCC: The German "Financial Times Deutschland" wrote on July 10, 2007, that
the independence of Kosovo will be retarded not only because of the
resistance of Russia. Experts expect a decision about the future of
the Kosovo to be made not before the NATO summit in Bukarest which will
take place in April 2008. So we still have to wait for a new European
DXCC counter...

Due to a problem with the database it is momentarily not possible to
open any online DXCC lists on the DXCC homepage. They are already
working to fix the problem.

LINKS: The young Montenegrin amateur radio operator Nikola,4O7AMD, invites
you to visit his homepage at: http://www.montenegro-radio.net
---
VHF activities can be published on the website Make More Miles on VHF:
http://www.mmmonvhf.de or http://www.mmmonvhf.de/latest.php

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

PIRATE: Mamuka,4L2M, president of the "National Association Radioamateurs
of Georgia (NARG)" writes that the station 4L6VV is a pirate!
The OP calls himself Yuri and proclaims Tkvarcheli to be his QTH.
Mamuka states that this is not a valid Georgian licence and asks
everybody not to QSL. He thinks the pirate works from Russia.

UPCOMING CONTESTS

Jul 28/29: RSGB IOTA Contest and SWL IOTA Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-038, PA, Noord Holland: Jack,PD2J, and Jan-Jaap,PG7V, will be active as
PC6IOTA from Texel Island between Jul 24 and Aug 1. QSL via PG7V.

EU-170, 9A, Dalmatia North Group: A team of Hungarian OPs will show up as
9A6NL and/or 9A/homecalls from Pasman Island from Jul 21-31. They also
plan to participate in the upcoming IOTA Contest.
QSLs for 9A6NL via HA6NL, all others via homecalls.
You can also check their website at http://www.c3.hu/~ha0khw/ha0hw.html

EU-170, 9A, Dalmatia North Group: Claudio,IN3DEI/W1ADX, is going to activate
the islands Dugi Otok, Molat, Pasman and Ugljan signing 9A/W1ADX during
his holidays from Jul 19 until Aug 7. QSL via IN3DEI.

Hello Ham friends.

I worked HD8EX 27/28 - November 1988 and untill now still searching for the
qsl info.
Is there anyone who worked this station at that period and can help me out
on this one?

Many thanks !

Gerrit
de PA3DJY

July 23, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1OLO, NJ1Q, NG3K, WV2B, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, NE8Z/HC1MD, AA9RN, Pete's-DX-Newsdesk, 2E1EUB, 5B4MF, DK8JB, DL7MAE & The DX News Letter, EI5DI, I1JQJ/IK1ADH & 425 DX News, IZ1GJK, LZ1BJ, RN1CW, RSGB IOTA, UX0FF and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 15th/July, through Sunday, 22nd/July there were 204 countries active. Countries available: 1A, 3A, 3B8, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5X, 5Z, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9Q, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HM, HP, HR, HS, HZ, I, IS, J2, J6, J7, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9N, VP2V, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YJ, YL, YN, YO, YU, YV, Z2, Z3, Z7, ZB, ZC4, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M, SCOTLAND. Paul, 2E1EUB, will be active as 2M1EUB/p from from north-east Scotland (IO87RJ) beginning July 27th for 7 days. Activity will be mainly on the satellites (maybe some HF too). QSL via 2E1EUB.

CU2, AZORES. Ann, WA1S, is expected to be active as CU2/WA1S this week between July 27th and August 10th. Activity will be on 80-10 meters, except for 30 meters. QSL via her home callsign.

CY0, SABLE ISLAND. Duane, WV2B, has announced that a group is in the early stages of planning a DXpedition to Sable Island during 2009. Currently, there are four operators mentioned: Duane/WV2B (CW/SSB), Rich/AI5P (CW/SSB), Dick/VE1AI (CW/SSB) and Scott/KA3QLF (RTTY/SSB). The callsign to be used is CY0ZZ. Activity will be on 160-6 meters and they plan to have a minimum of 3 stations on the air. A dedicated 6 meter station is a possibility. QSL routes are: AI5P/CY0 via AI5P, CY0ZZ via KA3QLF or VK4AAR for VK, JA, etc.. stations. The team is looking for sponsors to help them cover the large cost of chartering the Britain Norman Islander aircraft which must be used to land on the beach at Sable Island. The cost of this charter alone will be nearly $10,000. Further information is available on their Web site at: http://www.sabledx.com

GB100, ENGLAND (Special Event). Look for special event station GB100J to be activated by an international group of Amateur Radio operators from the 21st World Scout Jamboree at Hylands Park, Chelmsford, in the United Kingdom between July 27th and August 7th. Operations will take place on all bands and all modes including PSK31. For more information, please visit: http://gb100j.radio-scouting.org.uk

GB4, ENGLAND (Special Event). David, M0XDF, suggests to listen on Wednesday, August 1st, for Scout stations to be active from all over the world to celebrate the 100th anniversary of Scouting. His Scout groups will have a special event station on that day. Look for GB4SBS (Second Bracknell Scouts) from a camp site near East Grinstead in England. Activity will be mainly SSB (no bands provided).

HC8, GALAPAGOS ISLANDS. Operators Manu/LX2LX and Norby/LX1NO are now active as HC8/homecall from Isabela Island (IOTA SA-004, WLOTA L-2957), the largest island within the Galapagos group, until July 31st. Their activity will be low profile (holiday style) mainly on CW with some SSB. QSL via LX1NO. An online log may be available at:
http://www.luxlog.info/hc.htm
Also check-out: http://www.qsl.net/lx1no/ham/awards.htm#hc8

IOTA NEWS.....
IOTA SPECIAL NOTES: The 15th IOTA (Islands On The Air) Contest will take place next weekend on July 28-29th. Rules for the contest are available at:
http://www.contesting.co.uk/hfcc/rules/riota.shtml
The SDI logging program by EI5DI uses custom Island/Prefix reference files and is recommended for Single-Op entrants under the rules. SDI runs on any Windows PC and is "FREE" from: http://www.ei5di.com/sd/sdisetup.exe

AS-120. (UPDATE) Members of the Nicosia Amateur Radio Club (CARS) will be active as C4MG from Agios Georgios [aka Kakoskaliou] (MIA MCI-001) during the RSGB IOTA Contest (July 28-29th). This coastal island of Cyprus (AS-004) has not been activ-ated (as far as they know) since the previous expedition of the CARS there in July 2001, so there should be quite a few island chasers that are in need of this one. The group

consists of George/5B4KH, Spyros/5B4MF, Paris/5B4XF, Nestoras/5B4AHZ, Andreas/5B8AP, Cliff/SV1JG and possibly also Marios/5B4WN and Stavros/5B4AFM. Cliff/SV1JG is participating in the expedition on behalf of the Radio Amateur Association of Greece (RAAG) of which he is the Vice President. The group hopes to land on the island on the morning of Friday, July 27th, and hopes to be on the air early in the afternoon. Operations will cease shortly after the end of the IOTA contest on Sunday, July 29th. There will be 2 stations active, one with a linear amplifier. Antennas include a 5-band Spiderbeam, a TA33Jr tribander and HF2V and R7000 verticals. Operation will take place with the 5B4NC/P callsign outside the contest and with the callsign C4MG during the IOTA contest - please update your contest logging software. The QSL Manager for both callsigns will be George/5B4KH. QSL via bureau or use the QRZ.com address for direct request.

AS-136. (UPDATE) Dale/BA4TB will be joined by Jiang/BG4TBC, Dai/BG4TBJ, Mi/BG4TQX and Yun/BG1LKK to be active as homecall/4 from Chongming Island, July 27-30th. Activity will include the RSGB IOTA Contest. They plan to operate on CW, SSB and RTTY, on 80-6 meters. QSL via their home callsigns.

EU-008. Operator Jon, M0OVL, will be active as MM0OVL/P from the Island of Mull in the Inner Hebrides, July 27-29th. Activity will be on 80-10 meters and as an entry in the 2007 IOTA Contest. QSL via M0OVL (QRZ.com). Visit it his Web page at: http://www.2e0ovl.com

EU-010. Dennis, M0LSB, will be active as MM0LSB/p from Great Bernera (IOSA OH-12, SCOTIA HI-27), Outer Hebrides, July 27-29th. Activity will be on 80-10 meters SSB, using low power, and will include the RSGB IOTA Contest. QSL via his home callsign.

EU-011. Members of the Cray Valley Radio Society team will once again (5th trip) activate St. Mary's Island in the Isles of Scilly as G3RCV/P during the IOTA Contest (July 28-29th). In the past the team has operated on the WARC bands, 2m and 6m prior to and after the contest using their callsigns as homecall/P.

EU-025. Operators Mallamo/IT9CQC, Sebastiano/IW9HBY, Giovanbattista/IT9HCS and Mario/IW9DCM will be active as IR9P from the Island of Sicily during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/? entry. QSL via IW9HMQ.

EU-036. Chris, OE9ICI, will be active as LA/OE9ICI from Hitra Island for the RSGB IOTA Contest (July 28-29th). Activity will be on 80/40/20 meters SSB with only 100 watts. QSL via his home callsign, direct or by the bureau.

EU-049. Operators George/SV1QN and Giannis/SV1GYG will be active as homecall/8 from Samos Island (MIA MG-099, WLOTA LH-4163), July 26th to August 4th. They will operate CW, SSB, RTTY and PSK31 on 160-10 meters, and will participate in the RSGB IOTA Contest. QSL via their home callsign.

EU-088. Operators Jan/OZ5JR, Klaus/OZ7KDJ and Erik/OZ9V will be active as homecall/p from Anholt Island (NK-001 for the Danish Islands Award), July 25-30th. Activity will include an entry in the RSGB IOTA Contest (July 28-29th), using the callsign OZ8MW/p and on 80-10 meters. QSL via their home callsigns.

EU-105. Operators Jean-Jacques/ON7EQ, Roland/ON5QK and Sebastien/ ON3EQ will be active as F/OT3T from the Ile-de-Batz (DIFM MA-018), July 26-29th. Activity will include the RSGB IOTA Contest (July 28-29th). Outside of the contest they will activate the Ile-de-Batz lighthouse (DPLF 094, ARLHS FRA-071, WLOTA LH-0680). Activity will be on all bands, SSB only. QSL via ON7EQ, direct or by the bureau.

EU-122. Operators Allan/GM3OZB, Barry/GM3YEH, Steve/GM4OSS, John/ GM0DJG and Gordon/MM0BIM will be active as GI3YS from Rathlin Island (WLOTA LH-0283) during the RSGB IOTA Contest. QSL via the bureau to MM0DHQ.

EU-123. Operators Colin/G3VCQ, Steve/M1ERS, Trevor/2E0TWS, Sharon/ M3VCQ and possibly others plan to be activate two islands in the Clyde Islands group between July 26th and August 2nd. They will start with the Island of Arran (IOSA CL-01,SCOTIA CS-14) using the callsign GS3RCM. They will also be an entry in the RSGB IOTA Contest (July 28-29th) using the callsign MM3M. The group also intends to activate the Island of Pladda (IOSA CL-07, SCOTIA CS-12), if possible. QSL both callsigns via G3VCQ, direct or by the bureau.

EU-127. Andy, DA0T, will be active as DA0T/p from Neuwerk Island (N-12 for the German Islands Award, WLOTA LH-2311), July 26-29th. Activity will include the RSGB IOTA Contest and will be on all HF bands. QSL via his home callsign to: Andreas Kuelper, Curslacker Deich 362, D-21039 Hamburg, Germany.

EU-133. A group of Russian operators will participate in the RSGB IOTA Contest (July 28-29th) as RI1AA from Bolshoy Berezovyy Island (RRA RR-01-02). Before the contest they will be active as UE1CBB. QSL both stations via UA1AIR, direct or by the bureau.

EU-136. Rafal, SQ5FWR, will be active as 9A/SQ5FWR from Losinj Island (ACIA IC-116, CIA-25, IOCA CI-048, MIA MC-204) during the RSGB IOTA Contest. QSL via home call, direct or by the bureau.

EU-158. A group of OM/YL German operators will active from Proti Island (MIA MG-092) between July 26-31st. Their activity will also include the upcoming RSGB IOTA Contest. Look for the OM operators Olaf/DJ7TO, Uwe/DK3WW, Frank/DK7AO, Michael/DL6MHW, Holger/DL7AU and Holger/DL7IO to be active as J48IO. They plan to run 2 stations simultaneously from 160-10 meters. Each station has its own generator and antenna setup for 160-10 meters. The YL operators are Katrin/DL1AXL, Andrea/DL3ABL and Birgit/DL7IQ, and they will be active as J48YL. Activity will also include the RSGB IOTA Contest on all bands and modes. QSL route for both callsigns is DK7AO. Bureau QSL cards are preferred. An E-mail bureau request is also OK via: dl7io-at-qsl.net

EU-170. Caudio, IN3DEI/W1ADX, will be active as 9A/W1ADX from a few Dalmatian Islands (Dugi Otok, Molat, Pasman, Ugljan) in this IOTA group from now through August 7th. Activity will be holiday style. QSL via IN3DEI.

EU-181. Boyan/LZ1BJ and friends will be active as LZ1BJ/P from Sveti Ivan Island between July 23-26th (weather permitting). QSL via LZ QSL Bureau.

EU-182. Operators Alexandr/UR5FAV, Oleg/US0ZZ, Slava/UT5ZC, Boris/ UT7UT, Nikolay/UX0FF, Vladislav/ER3DW, Anatoly/ER3DX, Alex/ ER3OO and Valery/ER3ZZ will be active as homecall/p from the Island of Ankudibov from July 27-30th. QSL via their home callsigns. Activity will also include an entry in the RSGB IOTA Contest (July 28-29th), and the team will sign EM5F. QSL via UX0FF, by the Bureau or direct to: Nikolay Lavreka, P.O. Box 320, Izmail, 68609, UKRAINE.

EU-185. Victor, UA6AF, will be active as homecall/p from Sudzhuk Island (RRA RR-24-02), located in RDA District KR-07 (Centralny, Novorossisk District), Krasnodarsky Kraj (KR), July 27-30th. Activity will be on all bands 80-10 meters, with an emphasis on the RSGB IOTA Contest (July 28-29th). QSL via his home callsign.

NA-044. Juergen, NF6J, will be active as VO2/NF6J from Battle Island (CISA NF-049, WW Loc. GO22CG), Newfoundland, September 6-13th. Look for activity around the usual IOTA frequencies. QSL via DL7RV, direct or by the bureau.

NA-092. Operators Matt/KM5VI and Bill/N5LYG will be active from North Padre Island (USI TX-006S), July 27-30th. They will be an entry in the RSGB IOTA Contest.

NA-128. Operators Claude/VE2FK and Jean-Pierre/VA2SG will be active as VE2FK from Ile-aux-Coudres (CISA QC-009), July 27-29th. Activity will be on 80/40/20 meters CW only and an entry in the RSGB IOTA Contest. If the propagation and weather is good, they might stay one more day to operate some RTTY. QSL

direct to VA2SG. North America stations: Send 1 SASE with 1 USD to VA2SG. All others: Send 1 SASE with 2 USDs to VA2SG. (See info at QRZ.com) More information can be found at: http://www.qsl.net/va2sg/_sgt/m1m2s3_1.htm

NA-144. Operator Terry, W6WTG, will be using the special callsign W6I from Anacapa Island (USI CA-002S, WLOTA LH-1300, WW Loc. DM04HA, Ventura County, California), July 27-29th. Activity will include the RSGB IOTA Contest. Operations will be battery power using an IC-7000 on 20 meters. QSL via his home callsign.

NA-160. Members of the Radio Club de Honduras will activate HQ3C from Chachahuate Island, Cochinos Cays, during the RSGB IOTA Contest (July 28-29th. The team will consist of Pedro/ HR2PAC, Henry/HR2H, Daniel/HR2DMR and Antonio/HR2DX. The QSL Manager will be HR2RCH. QSL via the bureau or direct to: DXpedition Cochinos Cays - Chachahuate Island, PO Box 273, San Pedro Sula, Honduras (w/SAE and IRC).

NA-231. (Operation ABORTED!) Cezar/VE3LYC reports, "Hi Guys, I am heartbroken to announce that our attempt to activate East Pen Island had to be aborted. Ken/G3OCA and I have arrived in Ft. Severn, northern Ontario, based on a long series of telephone and E-mail communications with the local community here, who at no point in time provided an indication that this operation should be cancelled. For the past four days we have been on a roller-coaster, with the local community going back and forth between being ready to provide assistance and withdrawing it. On Thursday, July 19th, after intense negotiations, a team of four experienced guides/ hunters was proposed and gathered by the local counsel. Although this increased substantially the cost of our ex- pedition, we agreed to it, having travelled so far. Late evening, however, two of the guides dropped out, which left no opportunity for other sufficiently skilled guides to take their place. It has to be said that numerous local people have reported recently an unusual number of polar bears on the shore for this time of the year - polar bears are supposed to come to short sometimes after mid-August. Last August aerial survey of East Pen Island reported 40 polar bears there. Locals belive that with such an intense recent activity their number is larger this year. Besides this danger, colonies of walruses have been reported both on the shore and on the island, these animals having cubs right now and therefore being extremely protective - constituting thus a serious danger in crossing to the island in a small boat. In view of the above, it was clearly impossible to continue with our attempt.... 73, Cezar (VE3LYC) and Ken (G3OCA)"

SA-051. Members of the Association of Radioamateurs of Venezuela are organizing an IOTA DXpedition to Las Aves de Sotavento Archipelago in August to celebrate 2007 Venezuelan Navy Day. Their activity will be on CW and SSB on HF and on VHF FM. QSL via DL3AMA.

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, who was expected to depart sometime last week for Johnston Island (OC-023, USI OI-006), has once again postponed her departure. Susan informs OPDX (as she apologizes to everyone) that it seems to look "like one hell of a hurricane season...." heading her way from the Mexican area. She states, "If there is a two week lull I will depart for KH3, but it looks like I am stuck in Honolulu till end of the season. In any event, propagation is much better in November than in July/August anyway. I guess the tooth ache that brought me back to Honolulu was good after all...." She also mentions that she does not want to get stuck on an island that has a 5 ft. elevation during a hurricane storm surge and everything goes underwater.

LIGHTHOUSE ACTIVITY. The Greater Norwalk Amatuer Radio Club (GNARC) will be sponsoring a DXpedition to activate Sheffield Island Lighthouse for International Lighthouse Weekend (ILLW), August 18-19th. Operation of N1EV will begin 1600z, August 18th and end around 1800z August 19th. Activity will be on 80-10 meters SSB/CW/FSK. Operations will take place in or around the IOTA calling frequencies. Plans are to run at least 2 stations for the entire event. QSL direct to N1EV. SASE for domestic QSLs; DX send green stamp or IRC. Sheffield Island reference numbers are: IOTA-NA-136, USI-CT-008 and ARLHS-USA-753.

NEW WAP WEB SITE. The "Worldwide Antarctic Program" (WAP) now has a new Web site online (old Web page: http://www.ddxc.net/wap). This Web page is dedicated to Antarctic Chasers. Take a look at: http://www.waponline.it

OH0, ALAND ISLAND.....
Ari, OH5DX, will be active as OH0Z during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (15m) entry. QSL via W0MM.

Juha, OH1JT, is planning to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (possibly 80m or 20m) entry. Callsign has not yet been decided.

An operator to be announced later will be active as OH0AW during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/ Single-Band (40m) entry. QSL via OH5DX.

Juha, OH9MM, will be active as OH0I during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m) entry. QSL via OH9MM.

P4, ARUBA. John, KK9A, will be active as P40A during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL via WD9DZV.

UPDATE on "Has anyone received XU7ADB QSLs yet?" Bruce. AA9RN, states he has received his QSL from EA4URE from the October 2000 operation.

QSLS VIA LOTW: DD5M, J5UTM, MD0CCE, ON4AEK, OT4A and P40A

QSLS RECEIVED VIA MAIL: 1A4A, 3C0M, 3DA0EI, 3XM6JR, 6W1SE, 6W/IZ2DPX, 7X2LS, 9M8PSB, 9U0X, A61AJ, CW6V, EA8AH, EP3HF, FM5BH, HH2FYD, IR2IPY, KL7CQ, KP4WW, LT1F, OJ0VR, P49V, PJ4/K4BAI, PS2ZT, R750M, SU1SK, TI5N, TM5TAF, UA0ZC, VP8KF, VU7RG/VU7MY, ZC4LI, ZP0R and ZV5A

SPECIAL EVENT. Members of the Associazione Radioamatori Marinai Italiani (ARMI) will activate the special callsign II1TS (Italy Italy ONE Tall Ships) during the 2007 Tall Ships Race, July 28-31st. This international naval event featuring the most beautiful sailing vessels of Europe (among which are AMERIGO VESPUCCI, the PALINURO and the ITALIA), in addition to many other ships which are specially equipped training vessels. For this event, the ARMI will be operational with a team from the Coast Guard Command stationed at the Old Port of Genoa. Activity will be on HF and on all modes (SSB/CW/FSK). A special award Diploma has been created and can be requested from Alberto/IT9MRM, the award manager, for a cost of 10 Euros. (The proceeds, less printing and postal expenses, will be attirbuted to the ISTITUTO ANDREA DORIA, a charity institution which cares for the orphaned children of Navy personnel deceased in the line of duty or in peace missions.) During the above-mentioned period, the ARMI operators will also be active on board one of the training vessels using the special callsign II1TS/MM; operations will be in QRP. The QSL is design by IW1QN. QSL via IZ1GJK, by the Bureau (BUREAU A.R.I. 1601) or direct with SASE (1 USD or IRC

or 1 Euro). For QSL Bureau requests via E-mail: ii1ts_team2007@yahoo.it
QSL via LoTW (at the end of operation). For more info, visit:
http://digilander.libero.it/assoradiomarinai/tallship/home.htm

TK, CORSICA (EU-014). Operators Tom/DL2RMC and Heiko/DL1RTL will be active as TK/homecall between July 30th and August 8th. Activity will be holiday style operations. Look for them on 160-6 meters on CW and the Digital modes. They will have vertical antennas for the low bands. QSL via their home callsigns. ADDED NOTE: They may make a trip to EU-164 for the IOTA Contest.

V3, BELIZE. John/W5JON and his wife Cathy/W5HAM will be on Ambergris Caye (NA-073) from October 25-31th. Look for John to be active as V31FB on 160-10 meters SSB. He also plans to be active in the CQWW DX SSB Contest (October 27-28th). Years ago his wife Cathy said that he could operate any contest from anywhere, "as long as it is warm and there is a beach". This will be their 5th year on Ambergris Caye operating in the contest. QSL via his home callsign.

ZD7, ST. HELENA. Tom, KC0W, will be moving to St. Helena Island in early September and is expected to be active as ZD7X. His activity will be on modes CW, SSB, RTTY and PSK. Look for his operations on 160-6 meters. Special attention will be given to 40, 75/80 and 160 meters. ZD7X will be active in all major contests. Tom has already announced that he will be active as a Single-Op/Low-Power entry in both the CQ World Wide DX SSB Contest (October 27-28th) and the CQ World Wide DX CW Contest (November 24-25th). When not contesting Tom will be DXing in general. His QSL Manager is W&#65533;MM.

Thanks for the help om Lamont.
Tried the Box DX that time but never had something in return.
I am looking for a call which i can email or get in contact with.

Anyway thanks for your contribution.

Gerrit

BY - CHINA, AS-136
Dale,BA4TB/4, Jiang,BG4TBC/4, Dai,BG4TBJ/4, Yun,BG1LKK/4, and
Mi,BG4TQX/4, will activate Chongming Island (AS-136) in CW/SSB/RTTY
on 80-6m from Jul 27-30 including the IOTA Contest on Jul 28/29.
QSLs via homecalls.

C6 - BAHAMAS, NA-113
Pete,W2GJ, Ed,K3IXD (C6AXD), and Randy,K4QO (C6AQO), will show up from
Crooked Island (NA-113) from Jul 27-30 including a participation in
the IOTA Contest as C6APR (QSL via K3IXD). C6AXD and C6AQO will be QRV
in CW/SSB/RTTY on 6m and the WARC bands before and after the contest.

CU - AZORES ISLANDS, EU-003
Pedro,CU2/EA1FCH, who prefers working in CW and digital modes on the
WARC and lowbands will stay on Sao Miguel Island (EU-003) from July 27
until Aug 5. QSL via EA1FCH, via bureau or direct.

Ann,CU2/WA1S, will visit Sao Miguel (LH 2016) as well between Jul 28
and Aug 9. QSL via bureau to WA1S.

EA6 - BALEARIC ISLANDS, EU-004
Jorge,EA8TL/EA6, is going to visit Ibiza and Formentera (EU-004) from
Jul 31 until Aug 24. He plans to operate in SSB on 80-2m (no 30m/6m)
using an IC-706 with 100 watts.

GJ - JERSEY, EU-013
Iain,M0PCB, and Chloe,2E1IDT, are working with QRP power signing
MJ0PCB and 2J1IDT from Jersey Island (EU-013) from Jul 24-31.
QSLs via homecalls.

HC8 - GALAPAGOS ISLANDS, SA-004
Manu,HC8/LX2LX, and Norby,HC8/LX1NO, are spending their holidays on
Isabela Island (IOTA SA-004, WLOTA LH 2957) from Jul 20-31. You can

expect them to show up in CW mostly. QSL via LX1NO.
See also http://www.luxlog.info/hc.htm

HS - THAILAND, AS-053
Between August 2007 and June 2008 Eric,SM1TDE, will work at a place where other people use to spend their holidays: on Phuket (AS-053). As soon as he gets his HS0Z license you will find him mainly in CW on 40m/20m/15m/10m. Bureau QSLs should be sent via SM1TDE, for direct requests Eric still needs to rent a postbox in Thailand.

IS0 - SARDINIA ISLAND, EU-024
Tano,IS0/IZ8GCB, will be active in CW/SSB on 40m/20m/15m/10m from Sardinia (EU-024) from Aug 1-19. QSLs direct or via bureau to IZ8GCB. His homepage can be found at: http://www.iz8gcb.com

KH3 - JOHNSTON ATOLL, OC-023
Once again Susan's,W7KFI, departure from Hawaii to Johnston has been delayed by a hurricane. This week she will decide if a safe trip to Johnston is possible at the moment. Else the departure would be delayed till November when the hurricane season is over and the condx to Europe are hopefully better. Susan will keep us informed.

LY - LITHUANIA
Rolf,DL6ZFG, is staing in Lithuania until Jul 31 and also intends to attend the LY-Hamfest near Kaunas from Jul 27-29. Rig: IC-706MK2G, verticals, all bands, preferably 20m up.

OX - GREENLAND, NA-018
Roland,OX/HB9FMD, will be QRV from the hotel Hvide Falk in Ilulissat from Aug 1-27.Operation will take place mainly in CW on the WARC bands. Roland will confirm the QSLs himself after his return.

TK - CORSICA, EU-014
TK/DL2RMC and TK/DL1RTL will spend their holidays on the island of Corsica (EU-014) between Jul 30 and Aug 8. They will use verticals in CW and digital modes on 6-160m and will tro to activate EU-164 as well. QSLs via homecalls. See also: http://www.qsl.net/dl2rmc
---
TK/IK5WOB is working in CW only from Algaiola from Jul 28 until Aug 11. QSL via homecall.

V6 - FEDERATED STATES OF MICRONESIA, OC-010
Six members of the JARL Kyoto Club (JA3YAQ) are going to celebrate the 60th anniversary of their club on the island of Pohnpei (OC-010). They promised activities in CW/SSB/FM/RTTY/PSK31 on 160-6m from the South Park Hotel between Jul 30 and Aug 6. The licensing authority was kind enough to issue special V60 callsigns. Following is a list of the calls and their corresponding homecalls (which are also their QSL routes). All OPs accept QSL cards via bureau as well.
V60YAQ clubstation, QSL via JI6DUE
V60KL Kenji, JN3JBC
V60DU Hidenori, JI6DUE

V60TI Tetsuya, JA3UWB
V60IL Masato, JF3PLF
V60TX Shozo, JH3TXR
V63JJ Kazuo, JA3ART
See also: http://www.ja3yaq.ampr.org/~v6

ENGLAND, SPECIAL EVENT STATION
GB100J will be QRV in all modes (including PSK31) on all bands from
the "21st World Scout Jamboree" from Jul 27 until Aug 7.
For more information please check: http://gb100j.radio-scouting.org.uk

MARTINIQUE, SPECIAL EVENT STATION
FM0IR, FM0JR, FM0JZ, FM1HM, FM1II, FM1KM and FM1HN will activate the
special event station TO1YR in SSB, RTTY and PSK on 2-80m between
Jul 29 and Aug 5.

UPCOMING CONTESTS

Jul 28/29: RSGB IOTA Contest and SWL IOTA Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
AS-012, JA6, Nagasaki Pref.: JA6RGJ/6, JK6IIS/6 and JO6RGZ/6 will be QRV
from Kuro Island on Jul 28/29. QSLs via homecalls (bureau/direct).

I noticed that K1RY was listed there -- maybe E-Mail him and see if he can
help

Use QRZ.com for his E-Mail address.

309. FYI: How To Enable Telnet on IE 7.0 and Vista

Newsgroup: rec.radio.amateur.dx
Date: 2007-07-29 00:21:09 UTC
From: The Shadow <Repose@Zilch.com>
Message-ID: <j0Rqi.48326$dI1.17300@newsfe08.phx>
Source record: 2430

Well I upgraded to Windows Internet Explorer 7.0 and subsequently could not access any of my usual Telnet DX Packet Clusters (;-)

But there is a patch from CiscoNET to make it work with IE and Vista

See URL:
http://www.cisconet.com/index.php?option=com_content&task=view&id=357&Itemid=72

FYI: Telnet and DX Packet Cluster info are at URL:
http://ac6v.com/dxcluster.htm

A browser usually isn't the best telnet client. A good one to use is puTTy.

Could be Bob. All I know is after the patch, I can now access any cluster
site at the NG3K site -- URL:
http://www.ng3k.com/Misc/cluster.html
Works well
Lamont

Very good Gerrit - glad to help
Pathfinder has helped me find a lot of QSL routes -- URL:
http://www.dxlabsuite.com/pathfinder/WebClient/

73 and Gd Dx which is a two fold endeavor
1. Scream and shout till you work em
2. Get the QSL card

Hopefully LOTW will eliminate a lot of number 2.
See ARRL LOTW Log Book Of The World at URL:
http://www.arrl.org/lotw/

That's good to know. I recall that the default Windows telnet is rather
broken. If you want to see a nice dedicated DX Cluster client, take a
look at http://www.ve7cc.net/

Bob, N7XY

I tried to install the ve7cc telnet program on a Win98SE machine and
it kept putting in a WS2_32.dll file in my C:\\Windows\System file
that screwed up the whole machine. I downloaded a new WS2_32.dll file
and installed it and all is OK. I tried it the second time and the

same thing happened. Anyone know of a fix or what I'm doing wrong?

It looks like a great program if you can get it to work.

Thanks

Henry WA0GOZ

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, W2IK, K3UOC/WH2D, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, K0BLT, Pete's-DX-Newsdesk, 4L2M, 9A6AA, 9M2TO, CT1END, DK8JB, DL7MAE & The DX News Letter, EC8AUA, F5PFP, G3XTT, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, LU9ESD, RSGB IOTA, SP2BIK, SP6NVK, VA3RJ & ICPO, VO1JNS and YT3W for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 22nd/July, through Sunday, 29th/July there were 204 countries active. Countries available: 1A, 3A, 3B8, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FW, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9L, VK9N, VP2M, VP2V, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7C, ST. BRANDON ISLAND. Don Field, G3XTT, FSDXA Publicity Officer, posted a press release (their 5th) on the 3B7C DXpedition Web page this past week. Excerpts from the release state that operations will take place from Isle du Sud, St.Brandon, between September 7-24th. Operators Neville/G3NUG and Don/G3BJ have taken a vacation in Mauritius and used the opportunity to confirm the various logistical arrangements for

their September operation. Don also visited Isle du Sud to make a detailed site survey. Everything is looking good, and the contracts are in place, both for the ship which will take them to the island and for accommodation and logistics on the island. It seems that they will have the island to themselves. A container full of gear has been shipped and will arrive in Mauritius on August 12th. Six large diesel generators have also been shipped. Good news for 6m enthusiasts. Eventhough 6m operations are not normally allowed from Mauritius and its outlying islands, they have been able to gain a short-term permit. It is limited to three fixed frequencies: 50090 (CW), 50102 (CW) and 50145 (USB). A new team member has been added. Bob, N6OX, has now joined the team. They are still looking for another operator (details are on the Web page). Their Web site continues to be updated on a regular basis. There are photographs of the island and of the container being loaded. Also, included are details about QSLing on the Web, site and you may wish to check this out before they fire up. They will, of course, be fully supportive of LoTW, for those who are looking for DXCC credits. Remember that if you are a sponsor, you will receive priority treatment for QSL cards. Also on the Web site you will find details of how to pre-order the DVD that they will be making of the 3B7C operation. For more details and the complete press release, please visit their Web page at: http://www.3b7c.com/

3D2, FIJI. Look for Tomas, VK2CCC (LY1F), to be active as 3D2MT between August 28th and September 4th. Activity will be on 80-17 meters, mainly CW and an entry in the All Asia DX Contest. QSL via the LoTW or via LY1F. Visit his Web page at: http://www.qrz.lt/ly1df

4TH STRANGE RADIO EVENT. The Italian's Strange Radio Event will take place this year between 0600z, October 19th and 2200z, October 21st. This year the "Strange Radio Team" (SRT) is trying to involve SRT members outside of Italy too. Many Italian stations will be using many special "SRT" callsigns (such as IS0SRT, II1SRT, IR8SRT, IO8SRT, IU7SRT, II0SRT etc ...) and the SRT group is hoping to hear many other SRT callsigns from many other countries. SRT plaques will be awarded for this event and Strange Radio Event certificates will be available for making QSOs with different SRT special callsign. The mode for this event is SSB only. For more details, please visit the SRT Web page at: http://www.strangeradioteam.com
If you need any additional info, send an E-mail to:
iz7dok@strangeradioteam.com

8J1, JAPAN (Special Events).....
Look for special event station 8J1A to be active between August 1-26th to celebrate the 2007 Amateur Radio Festival. QSL via the JARL Bureau.

Look for special event station 8J3ARDF to be active between August 1st through October 21st to celebrate the All Japan ARDF Athletic Meet. QSL via the JARL Bureau.

9Q, DEM. REPUBLIC OF CONGO. QSL Manager Osten, SM5DQC, informs that Georges, 9Q1EK, is now the only current active station from 9Q-land. Osten also states that Georges' log has been updated and is available at: http://www.logsearch.de
He also mentioned that there are BUSTED callsigns in the log, and if you do not find your QSO in the log to please E-mail him at: sm5dqc@areteadsl.se
He also states, "When QSLing (direct only) please check SM5DQC on QRZ.com and read what is written below the picture - we do NOT have Euro mail in Sweden! Cards are usually mailed the same day I receive your letters." SM5DQC's address is: Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden. ADDED NOTES: Phillipe, 9Q1TB, is on vacation until early August, and Osten has not yet received the latest log. Also, 9Q1D and 9Q1NT have gone QRT; 9Q1D is back in Sweden and 9Q1NT is in Belgium. QSL 9Q1D via SM5BFJ (direct only) and 9Q1NT via homecall ON5NT. The homecall of 9Q1D is SM5DIC.

AN, SPAIN (Special Event). Members and friends of Radio Club Henares (EA4RCH) will be active from September 1-16th with special callsigns during the EuroBasket 2007. Look for the following callsigns on all bands and modes: AN0EB, AN4EB, AN5EB, AN6EB and AN7EB. The callsign AN0EB will only be active on the days that the Royal HouseHold is present during any game. QSL via EA4RCH, direct or by the bureau. A different QSL will be printed for each callsign. A special "HAM EUROBASKET 2007 AWARD" will be available to all stations or SWLs that work 4 different stations. More details are available at: http://www.radioclubhenares.org

CE0Z, JUAN FERNANDEZ ISLANDS. Ulli, DL2AH, will be active as CE0Z/DL2AH from March 11-26th, 2008. Activity will be holiday style on 40-10 meters mainly on SSB and RTTY using a FT-897. QSL via DL2AH, direct or by the Bureau.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
9U X - Burundi; 2007 Operation
If you had cards rejected for this operation, please send an E-mail to dxcc@arrl.org and you will be placed on the list for update.

FM, MARTINIQUE (Special Event). Members of the FM Ham Radio Association (FM.HAM.R.A.) will be active as TO1YR between July 29th and August 5th. Activity is to celebrate their annual Tour des Yoles Rondes de la Martinique. Operations will be on 80/40/20/17/15/12/10/6/2 meters on SSB, RTTY and PSK31. QSL via FM1HN.

FW, WALLIS ISLANDS (OC-054). Mike/KM9D and Jan/KF4TUG are currently active as FW0MO and FW0YL, respectively, from Nukutapu. FW0YL was heard in the IOTA Contest this past weekend. Length of stay is not sure (no date set). QSL for both cllsigns via OM2SA and LoTW.

HAMATLAS (WITH WAZ) ON THE WEB (Update)! Darek, SP6NVK, informs OPDX that he has now added "WAZ Zones" with full information about all zones and precise maps, especially in "difficult" areas like borders between

Zones 2/4, 17/18 and 23/24. The WAZ Zone maps are available at:
http://www.waz.hamatlas.eu/
Darek has started this new ham atlas service on the Web after 4 years
of work on it. This service contains the complete information on all
337 DXCC Entities, over 3000 pictures and 1100 maps. He hopes everyone
will enjoy and be satisfied in using his service. The HamAtlas Web site
is available at: http://www.hamatlas.eu/

IOTA NEWS.....
EU-016. Giuseppe, IK5WWA, will be active as 9A/IK5WWA from Solta
Island (ACIA IC-656, CIA-51, IOCA CI-126, MIA MC-389) from
August 25th to September 1st. He will be on holiday there
and plans to activate some of islands west of Solta Island.
Activities will be on all HF bands (no 160m) with a dipole
and vertical antennas. QSL via his home callsign.

EU-136. Leonardo, IW0QO, will be active as 9A/IW0QO from Losinj
Island (CIA-25, ACIA IC-116, IOCA CI-058, MIA MC-204) from
August 1-10th. Activity will be holiday style on 80, 40, 20,
15 and 10 meters. QSL via his home callsign, by the Bureau
or direct to: c/o Sezione A.R.I. di Perugia, P.O. Box 113,
06100 Perugia - PG, Italy.

EU-167. A group of operators were active as CQ7P from Pessegueiro
Island (DIP BA-001, DCFP F-043) during the RSGB IOTA Contest
this past weekend. QSL CQ7P via CS1GDX (QRZ.com).

NA-137. Operators Cory/N1URA, Beckie/KB1IRZ, Bob/W1IF, Joe/W1SK and
Steven/W1ZW will be active as N1URA from Seguin Island (USI
"New One", Sagadahoc County, Maine) and lighthouse (ARLHS
USA-746, TWLHD WLH K-148, WLOTA LH-0719, WW Loc. FN53CQ),
August 11-12th. Activity will be QRP with CW stations at
5 watts and SSB stations at 10 watts. APRS callsign will be
N1URA-LH. QSL direct to N1URA with a SASE number 10 size
envelope to: Cory Golob, 63 Jordan Bridge Rd, Sabattus,
Maine 04280-4200. See QRZ.com for more details.

KH9, WAKE ISLAND. Reports indicate that Mark, W4CK, hopes to be active
from here for about two weeks beginning around August 19th. He has
obtained the special callsign K9W and plans to be active mainly CW
only. QSL via W4CK.

LIGHTHOUSE/LIGHTSHIP ACTIVITIES.....
A special radio station will be active as SN2NP during the ILLW
between August 17-19th. Activity will be from the lighthouse in
Gdansk Nowy Port. Operations will be on CW, PSK31, RTTY and SSB.
QSL via SP2BIK, direct or by the Bureau.

Members of the Bahia Blanca DX Group will transmit again from five
different lighthouses at the same time during the International
Lighthouse/Lightship Weekend (ILLW) which will be held on the third
weekend of August (August 17-19th). Look for the following light-

houses:

RINCON Lighthouse (ARG-036) -- Special Prefix/Callsign LR3DX will be used. Lat. 39° 23' S Long. 62° 01' W --- Grid Locator = FF80xo. Located in Verde Peninsula in Villarino County.

RECALADA Lighthouse (ARG-009) -- Each operator will use their own callsign plus /D because they are located in the Province of Buenos Aires. Lat. 39° 00° S Long. 61° 16° W. ---- Grid Locator = FF91ia. Located in Monte Hermoso. The tallest LH in South America and the sixth in the world.

BALIZA TRIPODE Lighthouse (ARG-1884), using the BBDXG callsign LU3DXG. Lat. 38° 53° S Long. 61° 58° W ---- Grid Locator = FF91ac Located at 30 Km. from the Puerto Belgrano Naval Base.

CABO BLANCO Lighthouse (ARG-001), using the official LH call LU6XA Lat. 47°12'S Long. 65°45'W --- Grid Locator = FE72dt Located in San Jorge Gulf, 60 Km. north from Puerto Deseado, Santa Cruz Province and 1420 Km. South from Bahia Blanca.

Activity will be on all bands and modes, including the Digi-modes (RTTY, PSK, SSTV..). Contacts with Recalada, Baliza Tripode and Rincon Lighthouses will be valid for the "Province of Buenos Aires Lighthouses Award" organized by Bahia Blanca DX Group. (more info from: lu9esd@yahoo.com). All QSLs are via LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. If you want to send only one envelope with all cards, it's "OK": Up to 2 QSL = 1 IRC. Up to 4 QSLs = 2 IRCs. Bahia Blanca DX Group Web site: http://www.grupodxbb.com.ar

P4, ARUBA. Scott, W4PA, is planning to be active as P40PA (callsign applied for, but subject to change) during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Band entry. QSL via W4PA.

PIRATE ALERT. Mamuka, 4L2M, President of "The National Association Radioamateurs of Georgia", informs OPDX that "Today (July 24th) I received information from Mr. Zaza Gonjilashvili, (Amateur radio section officer of the GNCC - Georgian National Communication Commision), about cancellation of the Radioamateur license of the station 4L5A, Al Teimurazov. Since, 4L5A already is a pirate station."

QSL INFO AND NEWS.....
QSL routes provided by Johannes/DK8JB:
DA9L/p via DO1BEN ER2KRT via ER2RM
DL0IL via DL9GR GJ6YB via G3SWH (direct)

9M4SDX NEW ADDRESS. Tex, 9M2TO, QSL Manager for the 9M2SDX operation, informs OPDX that he has a new mailing address: Tex Izumo, P.O. Box 125, GPO 10710, Penang, MALAYSIA.

BS7H QSL STATUS. The 2007 Scarborough Reef DXpedition is pleased to announce that the first QSLs were mailed. Steve, KU9C, has received over 10,000 envelopes, so they expect it will take approximately 2 months before every card is answered. Please do not send for a second card until they announce all cards have been answered. Steve will also upload QSOs to LoTW as he processes the cards, so if you utilize LoTW, you can expect your QSOs to show up roughly the same time you receive your card. This will allow you to avoid mailing in your physical QSL card for verification. A small number of QSL cards were received with either no SASE or a SASE with old style IRCs that are no longer valid. KU9C will attempt to contact you via E-mail, but if he cannot contact you, these will be returned by the bureau. Steve will also upload bureau card QSOs to LoTW as they are processed.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accum-alated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

N8S QSL STATUS: Dragan, YT3W, announced last week that they mailed 2500 QSL cards. All QSL cards received up to June 1st have been answered. There were a total of 14,500 direct QSL cards answered and 1000 sent via bureau. They still have 2500 QSL cards to answer since June 1st. All will be mailed within the next 15 days. News about the N8S QSL cards can be found at: http://www.yt1ad.info/n8s/news.html

VU7LD ON LOTW (Special Note). When uploading your VU7LD QSOs into the "Logbook of The World" (LoTW), ONLY used the callsign VU7LD and not VU7LD/VU2xxx callsign. If you do not do this, your QSO will not be found in the LoTW. The appended /VU2xxx to the callsign VU7LD was to indicate who the operator was. This was reportedly required by Indian authorities but the actual license was "VU7LD".

YU6AO QSL STATUS: Dragan, YT3W, announced last week that all QSL cards received between January 29th and July 25th were processed and mailed July 27th (about 500 letters).

QSLS VIA LOTW: 7Z1HL, CT3EE, GM4WZL, IZ5DKJ, J5UTM, MM0BSM, PY3CQ, RX3AGD, UA3AGW, VU7LD and XE1MM

QSLS RECEIVED VIA MAIL: 3B6RF, 3B7SP, 9Q1EK, A92GR, BS7H, CW6V, E21YDP, FS/AH8DX, FY5KE, HQ7F, J8/W6JKV, K9A/ANT, KH6ND/KH5, KL7J, LA8EJ, N5T/ANT, N8S, NP3U, OA4SS, P29SX, S57RR, ST2R, TO6T/p, V63KU, XT2C and ZD9BCB

SPECIAL EVENT. Look for special event station N0T (November-Zero-Tango) to be active between August 4-12th, during the Oregon/California Trail Association National Convention. Activity is planned for as many HF bands as possible depending on propagation. Operations on 30 and 20 meters CW will be hit hard! They will also pay attention to the General portion of the Phone and CW bands. They would like to work many DX stations to impress the the many folks who will be attending the convention, so please spread the word. QSL via K0BLT with an SASE for an attractive QSL.

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9:00 AM-11:00 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web site to see W2IK's entire story: http://hometown.aol.com/realhamradio/

T8, PALAU. Frank, I2DMI, and his wife Giovanna are planning a trip to Palau for the Christmas Holidays between December 25th and January 2nd (2008). He informs OPDX that he will be active as T88RY on the HF and WARC bands but only on RTTY. Activity will be limited because Frank states that this is a "DX HOLIDAY not a DXPEDITION because I am the only operator. I'll try to stay in the shack as long as possible, but I have to spend some time also with my wife visiting PALAU." More info will be available in September on QRZ.com (under T88RY). QSL via I2DMI: P.O.Box 55, 22063 CANTU', Italy.

V60, MICRONESIA (Just A Reminder!). Six members of the Japan Amateur Radio League (JARL) Kyoto Club, will be planning a DXpedition to the Federated States of Micronesia (FSM) this summer. This is one of the events celebrating the club's 60th anniversary. Activity will be from the South Park Hotel on Pohnpei Island (OC-010) between July 30th and August 5th. Operations will be on 160-6 meters CW/SSB/FM/RTTY/PSK31, depending on the band conditions. The team has been allowed to use the special, brand new V60 prefix to celebrate their club's 60th anniversary (thanks to Mark DeOrio, Frequency Manager at the FSM Department of Transportation, Communications & Infrastructure). Look for the following callsigns (w/QSL routes) to be used:

Callsign	Operator	QSL route	Callsign	Operator	QSL route
V60YAQ	Club Stn.	JI6DUE	V60KL	Kenji	JN3JBC
V60DU	Hidenori	JI6DUE	V60TI	Tetsuya	JA3UWB
V60IL	Masato	JF3PLF	V60TX	Shozo	JH3TXR

V63JJ Kazuo JA3ART

All operators accept QSL card(s) via the bureau. Visit their Web page at: http://www.ja3yaq.ampr.org/v6/

VK9C, COCOS-KEELING ISLAND (OC-003). Bernd, VK2IA, will be active as VK9AA during the CQWW DX CW Contest (November 24-25th). His operating class will be announced later. QSL via DL8YR (QRZ.com).

VK9L, LORD HOWE ISLAND. Tomas, VK2CCC (LY1DF), will be active from here between November 20-27th. His callsign is not yet confirmed, but it should be VK9L(something). Activity will be focused on the low bands, mainly CW and an entry in the CQWW DX CW Contest (November 24-25th). QSL via the LoTW or via LY1F. Visit his Web page at: http://www.qrz.lt/ly1df

VO1, CANADA (Special Event). Members of the Amateur Radio Club of Central Newfoundland will activate special event station VO1GAM until August 31st. Activity is to commemorate the 70th anniversary of the first transatlantic experimental commercial flight (on July 5, 1937) between Botwood, Newfound, and Foynes, Ireland. Activity will be on all bands. QSL is "OK" via the Bureau or direct to VO1MX. One of the main operators for this event is Jason, VO1JNS.

WH2, GUAM (OC-026). Mike, K3UOC, who was active this past weekend as WH2D during the IOTA Contest, took time out of the contest to inform OPDX that he (and his family) are now living and working in Guam. He suggests to read his current bio and operating information under WH2D on QRZ.com. There you will also see a nice photo of him and the kids from the school's radio club. Mike operates from the school's radio club (WH2D). He states that he works 90% CW and works whatever HF bands are open. Mike will also QSX for EU and NA when the bands open -- "which doesn't happen often". He also makes token appearances in most major and regional contests and always works transceive and never works split. Mike adds, "I attempt to work the deserving on all 9 HF bands.... which is a pretty lofty goal, but it's what keeps the pileups fun for me." Lastly, he informs, "I've been on the air for nearly a year now from WH2D (St. John's School ARC) running 100W to a Cuschcraft R-7000. The plan for this year is for a new hex beam, add some power, and boost my QSO total. Last school year, I made 6,000 contacts. This school year I hope to do 10,000 contacts. Work and family duties keep me away from the radio except mostly on weekends." QSL WH2D via K3UOC, direct or by the bureau. LAST MINUTE NOTE: Just before going to print, Mike E-mailed OPDX again and mentioned he wrote an article for their school's Web site about the club and the activity at WH2D. You may find this interesting. There are some CW sound bites there. Visit: http://www.stjohnsguam.com/main/index.php?option=com_content&task=view&id=269&Itemid=124

ZL7 & ZL9, CHATHAM AND AUCKLAND/CAMPBELL ISLANDS. It was announced this past weekend that Wilbert, ZL2BSJ, will take part in an oceanographic mission as technician near ZL7 and ZL9 on board of a research vessel

called "R/V Tangaroa" in January 2008. More details later.

CU - AZORES ISLANDS, EU-175
Jorge,CT1FMX, Mary,CT1YTS, and J. Vitor,CU3EQ, will use the call CU3F
from Terceira Island (EU-175) working in SSB/CW/RTTY/PSK31 on 80-6m
from Aug 2-9. QSL via CT1FMX, direct or via bureau.

CY0 - SABLE ISLAND, NA-063
The next operation from Sable Island is scheduled for 2009 and is
already announced now to attract more sponsors for this expensive
DXpedition. Operators are still wanted as well. Following OPs already
confirmed their participation: Duane,WV2B (CW/SSB), Rich,AI5P (CW/SSB),
Dick,VE1AI (CW/SSB), and Scott,KA3QLF (RTTY/SSB). CY0ZZ is projected
to hit the airwaves with at least three stations on all bands from
6-160m. The DXpedition website is: http://www.sabledx.com

FG - GUADELOUPE, NA-102
David,FG/F1JXQ, will be QRV from Guadeloupe (NA-102) working in SSB
on 10m/6m/2m from 1000-1600 UTC on Aug 4-20. QSLs direct or as eQSL.

FW - WALLIS AND FUTUNA, OC-054
Mike,KM9D, and Jan,KF4TUG, were travelling through the Pacific area
during the last years and now showed up from Nukutapu (OC-054) shortly
before the IOTA Contest last weekend. Their calls are FW0MO (Mike) and
FW0YL (Jan) and they plan to stay there for quite some time.
QSL cards direct via OM2SA or via LotW.

JD1/MT - MINAMI TORISHIMA, OC-073
Alrady announced as JA6GXK/JD1, Masafumi finally became active from
Minami Torishima (OC-073) as JD1BMM. He has already bee spotted on 20m
in RTTY on 14.075 MHz and in CW on 14.050 MHz. See also DXNL 1528.
QSLs via his homecall JA6GXK.

SV9 - CRETE, EU-015
Marc,ON7SS/OO9O, announced his activity as SV9/OO9O/p during his

holidays from Aug 7-17. QSLs via ON7SS, direct or via bureau.

VP6 - PITCAIRN ISLAND, OC-044
Tom,ZL2HGR, hit the airwaves as VP6TD like announced in DXNL 1517
and intends to stay there until the beginning of september.

VP6AL (OP and QSL route: ZL1UFB) is another call from Pitcairn (OC-044)
enrichening the airwaves for the next six weeks. His name is Al and
he has already been worked in SSB on 20m.

FRANCE, SPECIAL EVENT STATION
TM0FIL is active on the bands between Jul 30 and Aug 12. QSL via F6KPQ.
More information can be found at: http://www.festival-interceltique.com

JAPAN, SPECIAL EVENT STATIONS
8J1A will be a special event station at the Amateur Radio Festival 2007
and can be worked from Aug 1-26. QSLs via the JARL bureau.

The Japanese foxhunters will activate the special callsign 8J3ARDF
between Aug 1 and Oct 21. QSLs via the JARL bureau as well.

DXCC: QSLs for the 2007 activity of 9U0X are accepted for DXCC credit now.

LINKS: Photos and video clips of the latest Market Reef DXpedition by OH0RJ,
SM0BSO, SM0LQB, SM1TDE and SM0EPO can be downloaded from the internet
at: http://www.sm0lqb.se/OJ0

The QSL database of OZ7C can be found online at http://www.ddxg.dk/oz7c
Since March 2007 it has seen 3.787 new entries and 1.417 updates and
lists 403.974 different QSL routes now.

The HAMATLAS (http://www.waz.hamatlas.eu) of Darek,SP6NVK, introduced
at this place before, has been updated with new maps showing exact
borders of the CQ zones now.

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

SILENT KEY

Axel Rohrbeck,DL7PR, a very wellknown German DXer passed away on
July 25, at the age of 65. Axel hold his licence since 1969, worked
the 5-Band-DXCC (#86) only two years later, had a Full House DXCC in
SSB/mixed and missed only North Korea (P5) in CW.

UPCOMING CONTESTS

Aug 4: EU HF Championship
Aug 4/5: DARC VHF Summer Fieldday

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
NA-235(p), Semidi Islands, NA-238, and South Alaska Centre Group:
Lanny,W5BOS, plans two IOTA activities from Alaska from Aug 2-7.
The first activity as W5BOS/KL7 will take place from an island within
the Semidi Islands (NA-238). The second activity as W5BOS/ALO will take
place from Unavikshak Island. All QSLs via N6AWD.

EU-123, GM, Scottish Coastal Islands: Some members of the Ayr and Kilmarnock
Radio Club (GS0AYR) plan to hit the airwaves with two stations from the
island Ailsa Craig (SCOTIA DI01) on Aug 5. QSLs via GM7OKX.

EU-123, GM, Scottish Coastal Islands: Andre,GM3VLB, intends to activate
five different islands: Eilean Hoan, Rabbit Island, Eilean Nan Ron,
Stroma Island and Neave Island (EU-005) during the end of July and the
beginning of August. QSLs via homecall (direct).

(L) = Logbook of the World (LotW)

QSL via 9M2TO: Tex,9M2TO, has a new post office box in Penang:
Izumo, PO Box 125, GPO 10710, Penang, Malaysia. This address is valid
for all QSLs for 9M4SDX, 9M4DXX and 9M4SIX. QSLs for these stations are
also available via the 9M2 QSL bureau when sending via 9M2TO.
QSLs to his own call are still managed by JA0DMV, direct or via bureau.

QSL via IT9DAA: Corrado,IT9DAA, states that he is NOT the QSL manager for
YV1CTE, YV1RDX and YY1JGT anymore!
However he still handles the QSLs for 4M5DX, 4M5R, YV1FM, YV5MSG,
YV5SSB, YV5TX, YW0DX (NA-020, Feb 2007), YW1DX (SA-089, July 2007),
YW4C (SA-058, July 2005), YW5CQ, YX5IOTA (SA-044, Sep 26-Oct 1,2006)
and YY4RN. Corrado confirms all QSL cards via the bureau or direct.

QSLs arrived via bureau: C6ARI (via DL3OCH), CE9/HB9BXE, EA6/DL5MWR,

Got it on 7/29/2007 in the IOTA contest.

W7ASF/KL7 was on Prince of Wales Island - IOTA NA-41

Woooo Hoooooo.....

No.
Just lucked out that it was the IOTA contest and gotten a DX bulletin
that W7ASF was going to be in KL7 for it.
Mark

Ohio/Penn DX Bulletin No. 820

The Ohio/Penn DX PacketCluster
DX Bulletin No. 820
BID: $OPDX.820
August 6, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, N2OO, NG3K, W3BTX, W3UR & The Daily DX, N4AA & QRZ DX, W7KFI, K8YSE, AA9RN, W9ILY, ARVM, Pete's-DX-Newsdesk, 9A7K, CX3AL, DK8JB, DJ2MX, DL7MAE & The DX News Letter, G8ATE, I1JQJ/IK1ADH & 425 DX News, ON6DP, RSGB IOTA, T93Y, TA3YJ, VA3RJ & ICPO and Z35X for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 29th/July, through Sunday, 5th/August there were 201 countries active. Countries available: 3A, 3B8, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5R, 5W, 5Z, 6W, 6Y, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T32, T5, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TU, TY, UA, UA2, UA9, UK, UN, UR, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XX9, YB, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZC4, ZD8, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

6C60, SYRIA. Look for Syrian hams to use the special prefix 6C60 to celebrate the 60th anniversary of amateur radio in Syria during the period October 15th to November 15th on all HF bands.

AM/AN/AO/EG7, SPAIN. Members of the El Grupo RASE DX will be on the air between September 3-16th, to celebrate the centenary of the "I Centenario of the Royal Betis" football club in Spain. They are expected to use the

special prefix AM, AN and AO, and the special event station EG7CRB during this event. Activity will be on VHF and HF bands, CW, SSB and the Digital modes. A special diploma and QSL card is available. For more details about the event, visit the Web page: http:/www.rasedx.com

CE0Z, JUAN FERNANDEZ ISLANDS (Change). Ulli, DL2AH, will be active as CE0Z/DL2AH from March 18th to April 7th, 2008 (not March 11-26th as first announced; this is due to airlane flight problems). Activity will be holiday style on 40-10 meters mainly on SSB and RTTY using a FT-897. QSL via DL2AH, direct or by the Bureau.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
9U X - Burundi; 2007 Operation
BS7H - Scarborough Reef; 2007 Operation
J5UAR - Guinea-Bissau; 2007 Operation
If you had cards rejected for this operation, please send an E-mail to dxcc@arrl.org and you will be placed on the list for update.

FP, ST. PIERRE AND MIQUELON. Operators John/W9ILY and Bob/K9MDO will be going to Miquelon (NA-032) and be active as FP/W9ILY and FP/K9MDO. John informs OPDX that the operations will begin on Thursday, September 13th (or possibly the evening of Wednesday, September 12th) and continue through Tuesday, September 18th. Operations will be from the famous MAXOTEL that has been used by several previous DXpeditions. Activity is planned for all bands 80-10 meters. They will be concentrating on SSB (primarily FP/K9MDO) and RTTY/PSK (primarily FP/W9ILY). Their equipment will be two TS-570D(G) rigs, 100 watts and no amps, and they plan to use the antennas that were donated by previous DXpeditions. Due to the strict weight restrictions of Air St. Pierre, they believe that 100 watts with good verticals at the sea will provide good, workable signals. QSL routes are as follows:
FP/W9ILY - QSL direct or by the Bureau. Contacts will be uploaded to LoTW ASAP following the DXpedition.
FP/K9MDO - QSL via W9NJB direct or by the Bureau.
John states, "This will be a 'laid-back' type of DXpedition to give us and the DX community the maximum enjoyment. Thus, we do not envision a 24-hour operation, especially with only two operators."

GB, ENGLAND (Special Event). Robert, G8ATE, states, "A small group of satellite enthusiasts in the East Midlands of England are planning to operate a special event (GB) station to celebrate the forthcoming 50th anniversary of the world's first Earth orbiting satellite SPUTNIK ONE from October 3rd for one month." More details are forthcoming.

IOTA NEWS.....
AS-039. Operators Vlad/RV1CC, Yuri/RA0FU, Serge/ UA1ANA, Oleg/UR3IFD, Victor/RV2FW, Valery/UA0ZC, Serge/UA0ZAZ, Alex/UA0ZCC and Elena/RV3ACA will be active as RK1B/0 from Bering Island, August 9-14th. This is a rare RDA (Russian Districts Award). RRC reference is RR-12-07. QSL via RV1CC. Check their Web site for more details at: http://www.rv3aca.ru/as039/
For RDA info, see: http://rdaward.org/mw.htm

AS-066. Operators Igor/RW0LBM, Vlado/UA0LCZ, Alex/RU0LM and Andy/RW0LC will be active as UE0LAA from Chikhachev Island (RR-16-09, RDA PK-27) until August 7th. QSL via UA0LCZ, direct or by the bureau.

AS-151. Operators BY1TT, BD1PTA, BA3CE and possibly others will be active as homecall/2 from Juhua Island between August 10-12th. QSL via BD1PTA.

EU-003. Falko, DG1WIM, will activate the Island of Sao Miguel (AZ-002 for the Portuguese Islands Award, WLOTA LH-2016) as CU2/DG1WIM between now and August 14th. Operations will be holiday style. QSL via his home callsign, direct or by the bureau.

EU-025. Alberto, IT9MRM, will be active as IT9MRM/p from Isola delle Palme (IIA SR-010, MIA MI-266) between August 6-8th. Activity will be on the HF bands SSB. QSL direct or by the bureau.

EU-030. Jens, DL8WOW, will be active as OZ/DL8WOW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203) between now and August 17th. Activity will be on 40-10 meters, mainly CW, using a FT-897 with 100 watts. QSL via his home callsign.

EU-054. Operators Raffaello/IT9ATF, Gianni/IT9ORA, Renato/IT9NPR, Pippo/IT9PPG, Giuseppe/IT9RZU and Pino/IT9WDC will be active as IF9A from Favignana Island (IIA TP-011, MIA MI-025, WLOTA LH-1545), between October 26-28th, for the CQWW DX CW Contest. Activity will be on all bands and modes. QSL via IT9ATF.

EU-055. Operators Henk/PA3FMC and Ruud/PE1BTV will be active as LA/PA3FMC from the lighthouse (ARLHS NOR-264, WLOTA LH-2373, WW Loc. JP21GA), on Utvar Island, August 16-22nd. They will participate in the International Lighthouse/Lightship weekend. Activity will be on all HF bands using SSB and BPSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). Further information can be found at: http://la2007.dxpedition.nl/

EU-175. Operators Jorge/CT1FMX, Mary/CT1YTS and Jose/CU3EQ will be active as CU3F from Terceira Island (AZ-003 for the Portuguese Islands Award, WLOTA LH-0524, WW Loc. HM68KP), Azores, between now and August 9th. Activity will be on 80-6 meters CW, SSB, PSK31 and RTTY. QSL via CT1FMX, direct or by the bureau.

NA-041. Rick, K6VVA, will be active as K6VVA/KL7 from Revillagigedo Island (USI AK141S, WW Loc. CO45IP, 1st South Eastern County, Alaska), September 7-9th. Activity will be holiday style on 40/30/20/17 meters primarily on CW. He plans to operate in the CW Sprint Contest. QSL via N6AWD. More information is available at: http://www.k6vva.com/iota/na041/

NA-083. Operators Dave/W4SAR and Joe/K4SAR will be active as W4SAR/p from Chincoteague Island (USI VA002S, WW Loc. FM27HW, Accomack County, Virginia) from 0100z August 12th to 0100z August 24th. Special note: Look for sporadic activity on 6m SSB and on 20m

SSB and 20m PSK31. QSL direct to W4SAR (QRZ.com).

NA-140. Page, WA3EOP, will be operating mobile from Kent Island (USI MD004S, WW Loc. FM18UW, Queen Annes Couty, Maryland) on August 11th (1600-1800z). Activity will include the MDC QSO Party. He plans to use both 40 and 20 meters, perhaps both SSB and CW from the mobile. Suggested frequencies are: 7230, 7060, 14266 and 14060. Most activity will be SSB, and if there is any CW it will be slow speed. QSL via his home callsign.

OC-142. Steve, G0UIH, will be active as VK2IAY/4 from Great Keppel Island, December 16-22nd. As with previous DXpeditions the main operation will be centered around 14260 kHz, but with some possibility of 15/17 meters operations. His equipment will be an IC-706MK2G with homebrew wire dipoles. QSL either direct or by the bureau. Check out the website for further details at: http://www.percy.me.uk/

OC-160. Steve, G0UIH, will be active as VK2IAY/4 from South Molle Island, January 7-11th (2008). As with previous DXpeditions the main operation will be centered around 14260 kHz, but with some possibility of 15/17 meters operations. His equipment will be an IC-706MK2G with homebrew wire dipoles. QSL either direct or by the bureau. Check out the website for further details at: http://www.percy.me.uk/

IPY STATION. Look for Charles, M�OXO, to again activate the special event station GB4IPY between August 30th. Activity is to celebrate the "International Polar Year (IPY)". The International Polar Year Events run until 2009 and has been set up to raise awareness about the plights of our Polar Regions in respect of Global Warming and other matters of interest. The GB4IPY station is the only station active from the U.K. and for the World-Wide Antarctic Program it has a reference number of WAP-098 for the WAP chasers. The station will be active on the HF bands and 6m using SSB, CW and PSK31 modes several times each week. There is also a new award now available by the operator and can be claimed for working a combination of GB4IPY and GB0ANT stations on various bands and modes. Details about the GB4IPY/GB�ANT award can be found on M�OXO Web site at:
http://charlesm0oxo.piczo.com/
There are three levels ranging from a certificate to a trophy.

ISWL ACTIVITIES. Pete Rayer, ISWL Life Vice President, reports the following stations will be active using special ISWL club callsigns:
August Operations:
GX4BJC/A - Operated from Towcester, in Northamptonshire, by Phil, G4DMS (WAB Square = SP65 NHM). Phil will also be on the ISWL stand at the Wimborne Hamfest on August 12th. Group photographs will be taken around noon.

MX1SWL/A - Operated from Skegby, Nottinghamshire, by Merv, G0UJD. (WAB Square = SK56 NOT).

All QSL info is on www.iswl.org.uk or QRZ.com or via eQSL.cc. NO LOTW.

JD1/O, OGASAWARA (Real Early Announcement). Koya, JI5RPT (JD1BLY), and possibly others (using JD1 callsigns) will be active from Chichijima Island (AS-031) between February 13-28th. Activity will be on 160-6 meters on CW, SSB, Satellites and Digital modes. They will focus on 160 and 80 meters. QSL via their home callsigns. Meanwhile, Koya, JI5RPT, will be active as JD1BLY during the ARRL DX CW Contest (February 16-17th) as a Single-Op/ All-Band entry. QSL via JI5RPT. For more details and updates, visit the Web page at: http://www.ji5rpt.com/jd1/

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, who was expected to depart sometime last week for Johnston Island (OC-023, USI OI-006), has once again postponed her departure. Susan informs OPDX (as she apologizes to everyone) that it seems the hurricane weather coming from the Mexican area does not look good. Apparently, she started to head out and heard about hurricane Erik. The hurricane was heading her way and it was expected to pass to the south. Susan states, "I am heading into Honolulu for the hurricane season...it ends in Nov. If there is a break in the WX then I will schedule to KH3."

LIGHTHOUSE ACTIVITIES (ILLW is August 18-19th).....
Members of the "RADIO CLUB URUGUAYO" will activate "Faro Puerto del Buceo West Breakwater" (ARLHS URU-014, 34°54'35"S - 56°07'51"W, GF15wc), during the upcoming ILLW activity, August 18-19th. Activity will take place from Friday, August 17th, 2200z until Monday, 20th 0100z, on all bands from 160-10 meters on CW and SSB with at least two stations using the special callsign CV1AA. If possible, some digital modes and VHF 2 meter operation will also be active too. QSL for this activity only DIRECT to: Radio Club Uruguayo, P.O.Box 37,11000, Montevideo, URUGUAY, SOUTH AMERICA, with SASE and IRC or 2 green stamps.

Members of the Associacao de Radioamadores da Vila de Moscavide will be signing CT1RVM/p during ILLW 2007 from Cabo Raso Lighthouse - reference number ARLHS POR011. This activity will also be valid for the Portuguese Lighthouses Award (Reference number DFP FES04), and the Portuguese Castles and Fortresses Award (Reference number DCFP F141 - Forte de Sao Bras). Activity will be on 40, 20, 15 and 10 meters, SSB. Look for them near the World Lighthouse frequencies. Suggested SSB frequencies (+/- 20 khz) are: 7070, 14270, 21370, 28370 kHz. QSL will be sent 100% via the Bureau to confirm all contacts. For more info, visit: http://www.arvm.org/index_l2007.html

Members of the "Bittern DX'ers" will activate for the 5th time GB2BML "Blakeney Mariner's Light" for the ILLW 2007, on the weekend of August 18-19th. Reference number is #ENG-292 first issued in 2003. Activity will be on all bands and most modes. They have new QSL for this year! Visit the Bittern DX'ers Web page at: http://www.bittern-dxers.org.uk

Look for TC1LHW to once more be on the air from Karaburun Lighthouse (TUR-036) during the International Lighthouse/Lightship Weekend (ILLW). Operators will be Leonardo/TA1FR and Tevfik/TA1HZ. Detailed information is available at: http://tc1lhw.tripod.com/index.html

Also see: http://www.qrz.com

Look for TA2RX to activate the Taslik Gelidonya Lighthouse (TUR-049) for the first time during the ILLW. There is no electricity or generator there. Due to the hard conditions to reach the lighthouse - nearest road suitable for vehicle traffic is 2 kms away - the operator will be operating QRP, using a car battery (He has to carry all the equipment for 2 miles on foot). Operations will be only 20 and 40 meters. So watch out for this QRP DXpedition.

Station W2T will be activated by members of the Old Barney ARC from the Tucker's Island Lighthouse (ARLHS USA-911) on Saturday, August 18th, from about 1300z through 2100z. QSL via N2OO. Visit the following Web pages:
Old Barney ARC: http://www.obarc.org
Tucker's Island Lighthouse: http://www.tuckertonseaport.org

QSL INFO AND NEWS.....
3Y0X ON LOTW! QSL Manager Bob Schenck, N2OO, announced that the 3Y0X logs has been uploaded to LoTW as of August 3rd, 2007.

QSL AM1HQ, AM2HQ, AM3HQ, AM4HQ, AM5HQ, AM7HQ via EA4URE.
QSL AM3A via EA3FHP.

CORRECTION: In OPDX.818, under - UPDATE on "Has anyone received XU7ADB QSLs yet?" Bruce, AA9RN, stated that he has received his QSL from EA4URE from the October 2000 operation. Bruce now tells OPDX that he was wrong on the QSL info, and he is sorry for the false info.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accum-alated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

VK9DNX QSL STATUS. Mario, DJ2MX, reports: "I would like to inform you about the status of VK9DNX direct QSLs. On last Friday (July 27th) the last big batch with VK9DNX cards has been sent out. The next step will

be processing of all requests received via OQRS (Online QSL Request System) followed by answering the bureau cards. Please notice that 3 USDs or 1 IRC are sufficient for return postage to destinations outside of Europe. Once again the VK9DNX team wants to thank you very much for your support and donations. The planning of the next DXpedition just started.....73"

YI1BGD QSLS. Paul, ON6DP, received the following mail from YI1IRQ, from the Society I.A.R.S. (Baghdad, Iraq) stating that they "lost the logbook of YI1BGD for the last perioud after 2003". The location of their old club has been looted and all papers burned. No one was there "to keep the log safe at that time (it was war)." They still suggest to send QSLs to their QSL Bureau (P.O.Box 55072, Baghdad - 12001, Iraq) and they may be able to find a way to answer some of them (for YI1BGD). They will send the QSLs to people who visited their club station at that time before 2003. Operators like G0TLC and OM6TX who used that callsign sometime, and they may have a copy of the log.

Nilay, TA3YJ, reports that the YM1907FB online log has been updated at: http://dx.qsl.net/cgi-bin/logform.cgi?ym1907fb

CALLSIGN CHANGE! Chris informs OPDX, "After 14 years of being Z31GX, I have changed my callsign to Z35X as of August, 1st 2007. 73 and greetings from Macedonia de Chris, Z35X (ex. Z31GX)"

QSLS VIA LOTW: 1A0KM, 3Y0X, BS7H, E30NA, OH1MA, OJ0/SM0EPO, SK3GM and ZF1A

QSLS RECEIVED VIA MAIL: 1A4A, 5W0JT, 5W0RE, 5X1Z, 6V7F, A92GR, BS7H, FK8CP, N8S, TR8CA, VK9DNX, YA/LY1Y and ZK1VVV

P4, ARUBA (Special 911 Event). Earlier this year, Bob/W3BTX (P49T) and Roy/W3TEF (P4/W3TEF) requested a special prefix that could be used over the upcoming anniversary of the September 11, 2001, attack on the USA. On Saturday, August 4th, the government of Aruba issued their requested callsign P41USA for the period of September 1-15th, 2007. In addition, they also received permission to use several photos taken at NYC by the National Park Service for their special prefix QSL card. The QSL card will also mention that they are affiliated with the PVRC. Bob and Roy will be operating 160-6 meters (including the WARC Bands) at various times during this period using the special callsign. It's possible that several bands will be operating at the same time. All QSLs should go to Roy, W3TEF, (direct with SASE or via bureau).

ST2A QRT. Boris, T93Y, informs OPDX that after 40,660 QSOs logged as ST0RM and ST2A, operator Jovica's, T98A (ex. T94FC) assignment in the Sudan has come to an end. During the past two years spent in the Sudan, Jovica has made 35,012 QSOs on CW, 3386 on SSB, 2249 on RTTY and 13 on PSK31. He also provided many new ones working 843 QSOs on 160m, 3916 QSOs on 80m and 585 QSOs on 6m. Some of the pictures which illustrate living and working conditions in Sudanese desert environment are available at: http://www.t93y.com/st2a

Jovica's new assignment with UNHCR (United Nations High Commissioner for Refugees) is in Dakar, Senegal, and will start on September 1st. Details about his activities will be forthcoming once he has time to settle in at his new location. Being in the regional office of the UNHCR, Jovica's work area covers the whole western part of Africa and he hopes to activate most of countries in the region. Boris, T93Y, states, "Information about HAM activity from countries other than Senegal will be distributed accordingly. Jovica thanks DXers for the QSOs from Sudan and hopes to see you on the bands from Senegal."

SV9, CRETE (EU-015). Look for Marc, ON7SS/OO9O, to be active as SV9/OO9O/p from here during his holiday between August 7-17th. Bands and modes of activity were not provided. QSL via ON7SS, direct or by the bureau.

T31, CENTRAL KIRIBATI ISLAND (Possibly Also T33). Toshi, JA8BMK, plans to be active from Kanton Island (OC-043) as T31XX in late October. He plans to stay there for about a couple of weeks (minimum 1 week). Activity will be on 160-6 meters, CW, SSB and RTTY. He has started to prepare for activity and has sent necessary equipment like a generator, food, antennas, ...etc. to Tarawa, in Western Kiribati. Toshi is scheduled to leave Japan sometime in September and will head towards Western Kiribati (T30) via Fiji (3D2). He will leave T30-land for T31 in mid-October. It will take Toshi a week's sailing trip to reach Canton Island. If Toshi has some extra time, there is the possibility he will visit Banaba Island (OC-018) and operate as T33ZZ before or after the T31 operation. QSL via his home callsign.

W9DXCC APPROACHING. Start planning for the 55th W9DXCC DX Convention/Dinner Banquet. The event will take place on September 15th. Details are available at: http://www.w9dxcc.com/

Z360, MACEDONIA. Look for members of the well known contest Radio Club "Nikola Tesla", Z37M (ex.Z30M), to use the special callsign Z360M (Z-three sixty-M) from August 1st to the end of the year. Activity is to celebrate the 60th anniversary of the Radio Club Nikola Tesla in Stip, Macedonia.

2007 ARRL Great Lakes Division Convention
"Ham Radio Alive and Well in Northern Ohio"

Something special is taking place late September. For the first time (so they say) the American Radio Relay League (ARRL) will be holding their Great Lakes Division Convention (GLD) on September 22nd in Independence, Ohio. The GLD Convention is usually held every two years in different cities, so this year it is in the Cleveland area (the day before the Cleveland Hamfest). So, what goes on at a convention? Sponors, many informative Seminars, Hospitality Room, Award presentations, Dinner Banquet with a guest speaker, Prizes, Special Ceremonial of "The Royal Order of the Wouff Hong" and a great time with plently of camaraderie with other hams.

It all starts Friday evening (September 21st) at the Sheraton Independence Hotel with early registration and a Hospitality Room provided by the Cuyahoga Amateur Radio Society (CARS), Lake Erie Amateur Radio Association (LEARA) and the Northern Ohio DX Association (NODXA).

On Saturday morning there will be continued registration, sponsor tables, and the hospitality room will open at 9:00 a.m. The hospitality room will host card checking and free refreshments both Friday evening and Saturday morning.

Opening ceremonies begin at 11:30 a.m. The first seminar will start at noon with Bob Heil/K9EID and Chip Margelli/K7JA in a joined two room session. Bob's, K9EID, pioneering work in the Amateur Radio world has led to significant improvements in audio quality throughout the industry. His company, Heil Sound, is the leading manufacturer of microphones and boom-sets for the world of Ham Radio. Chip, K7JA, has been active in DXing for over 42 years. You may have seen him on the Tonight Show with Jan Leno competing with (and defeating) the U.S. Champion cell-phone text messenger in a message-completion speed contest.

The room wil then be divided into two rooms. One room will go into an intense DX session, and the other will cover 3 different amateur radio interests seminars.

1:00-1:10 P.M.: Tedd/KB8NW (NODXA President and Editor of the OPDX) will open and moderate DX seminars. Guest speakers will include (times may vary):

1:10-1:45 P.M.: Bernie McClenny/W3UR Editor of "The Daily DX and Weekly DX" and QST's "How's DX?" column. He will give a talk on the "History of DX from the beginning to today".

1:45-2:10 P.M.: Don Karvonen/K8MFO, Ohio's number one DXer who is in the top ten of the ARRL's DXCC Challenge, is expected to give talk about 6 meter DXing.

2:10-2:40 P.M.: John Papay/K8YSE, one of the KH8SI operators, will talk about activating Swains Islands as a brand new DXCC entity.

2:40-3:25 P.M.: Bob Allphin/K4UEE, recently appointed DXAC Chairman, will talk about the DXAC and his recent VU7RG activity.

3:30-3:55 P.M.: DX seminars will end with a question and answer panel consisting of KB8NW, K8YSE, K4UEE, K8MFO, K4ZLE, W3UR and possibility others.

Other seminars (second room) taking place:
1:00-1:55 P.M.: ARRL EmComm speaker from Headquarters will discuss emergency communications and the National Emergency Response Planning Report. Speaker will be newly appointed Dennis Dura, K2DCD. He is their new ARRL Emergency Preparedness & Response Manager. Visit the ARRL Web site and read more about Dennis, K2DCD, at: http://www.arrl.org/news/stories/2007/07/31/101/?nc=1
2:00-2:55 P.M.: ARDF by Bob Frey/WA6EZV and Dick Arnett/WB4SUV. Lots of great equipment will be demonstrated and on display. Photos and information from International Competitions will also be available.
3:00-3:55 P.M.: Jim Sanford/WB4GCS Amsat's Eagle Satellite Project Manager will discuss new developments and talk about what the new Eagle high orbit satellite will mean for everyone.

4:00 P.M.: Seminar rooms will once again be joined and will close with Tim Duffy/K3LR, an expert on Antennas/Contesting. He will talk about his K3LR Multi-Multi Contest Station. Many of you may have seen his station while traveling on I-80 when in Pennsylvania near the Ohio line.

6:00 P.M.: Great Lakes Division Director Jim Weaver/K8JE will present the Great Lakes Division Awards on the 2nd floor in the Independence Room. Please consider nominating a fellow ham for one of these awards by visiting: http://www.2007gldc.org

The banquet will start at 7:00 P.M. where the President of the ARRL, Joel Harrison/W5ZN will be the keynote speaker. Following the banquet the top secret Wouff Hong ceremony will begin for any interested ARRL Member.

Please support this great event by attending. Sponsors have helped make ticket prices lower than usual. Advanced sale tickets are available for purchase online at www.2007gldc.org along with complete

information and any late news or changes.

DARC-Referat fuer DX und HF-Funksport
Editor: Helmut Schlaffer, DL7MAE

(e-mail: dxmb@dxhf.darc.de)
(http://www.darcdxhf.de)

BY - Volksrepublik China: Vom 10. bis 12.August wird ein groesseres Team von der Insel Ju Hua (AS-151) erwartet. BY1TT/2, BD1PTA/2, BA3CE/2 und andere OPs sind mit dabei.
Der QSL-Manager fuer saemtliche Teilnehmer ist BD1PTA.

DU - Philippinen: Hans,DL5SDF, haelt sich vom 10. bis 28.August auf Mindanao (DU9) auf. Eine Lizenzzusage liegt bereits vor, nicht jedoch das Rufzeichen. Hans benutzt Drahtantennen, funkt mit 100 Watt und ausschliesslich in CW. QSLs (Buero bevorzugt) sind an DL5SDF zu senden.

IS0 - Sardinien: Gleich zwei Aktivitaeten beginnen in dieser Woche auf Sardinien: Stefano,IM0/IK5XCT, wird noch bis 13.August die Insel Maddalena (EU-041, IIA OT-008) aktivieren. Buero-QSLs ueber ihn koennen auch per E-Mail oder bei http://www.qsl.net/ik5xct angefordert werden.

Vom 8.-20.August sind Gerry,IS0/IZ1DSH, und Giovanni,IS0/IK1WEG, von EU-024 in SSB und CW von 6-40m in der Luft. Abstecher zu den Inseln Spargi (IIA OT-021, EU-041) und Caprera (IIA OT-012, EU-041) sind auch geplant. QSLs an die Heimatrufzeichen, Buero ist ok.

KH2 - Guam: Mike,K3UOC, arbeitet und lebt mit seiner Familie seit etwa einem Jahr in Guam (OC-026). Mike, der dort als Lehrer beschaeftigt ist, hat die Moeglichkeit, von der Schul-Clubstation WH2D zu funken. Er ist zu 90% in CW zu finden und kuendigt Aktivitaet auf allen neun Kurzwellen-baendern an, wann immer es seine Zeit und die Bedingungen erlauben. Auch an allen groesseren Contesten will er sich beteiligen. Nach 6.000 QSOs im vergangenen Schuljahr, hofft er diesmal mit zum Ziel gesetzten 10.000 QSOs noch erfolgreicher zu sein. Dazu will Mike demnaechst eine Endstufe betreiben und neben der vorhandenen Cuschcraft R-7000 noch einen Hex-Beam aufstellen. Mike sitzt meist an Wochenenden an seinem Radio und kuemmert sich auch um die QSL-Karten, die direkt oder ueber das Buero an K3UOC geschickt werden sollen. Auf der Webseite der Schule findet man einen Artikel, den Mike ueber seine Amateurfunkaktivitaeten auf Guam geschrieben hat, sowie mancherlei andere interessante Infos:
www.stjohnsguam.com/main/?option=com_content&task=view&id=269&Itemid=124

KH3 - Johnston: Susan,W7KFI, war mit ihrer Yacht bereits wieder auf dem Weg
nach Johnston, als Hurrikan Erik ihr einen Strich durch die Rechnung
machte. Sie segelte wieder zurueck nach Honolulu und wird erst im
November, nach der Hurrikan-Saison erneut einen Versuch unternehmen,
nach KH3 zu segeln.

OH0 - Aland-Inseln/JW - Svalbard: Vom 7.-12.August weilt Juergen,OH0/DJ3KR,
auf den Aland-Inseln und nimmt am 11./12.August auch am CW-Teil des
WAEDC-Contestes teil. Anschliessend reist er weiter nach Svalbard,
wo er als JW/DJ3KR vom 15.-26.August zu erreichen sein wird.
QSL-Karten gehen an sein Homecall.

ST - Sudan/6W - Senegal: Jovica,T98A (ex T98A), war zwei Jahre im Sudan
taetig und loggte in dieser Zeit als ST0RM und ST2A ueber 40.660 QSOs,
die Mehrzahl (35.012) davon in CW. Einige Fotos hat er auf seiner
Homepage online gestellt: http://www.t93y.com/st2a
Sein Job bei der UNHCR (die UN-Fluechtlingsorganisation) verschlaegt
ihn ab dem 1.September nach Dakar, in die senegalesische Hauptstadt.
Er wird aber nicht nur im Senegal zu tun haben, sondern im gesamten
westafrikanischen Raum. Man darf also auf Aktivitaet aus diversen
Laendern in der Region durch T98A hoffen.
Sein QSL-Manager T93Y bestaetigt QSL-Karten stets sehr zuverlaessig.

XX9 - Macao: Hide,JM1LJS, plant eine neuerliche Aktivitaet als XX9TJS,
voraussichtlich vom 10.August, 0900 UTC, bis 13.August, 1100 UTC.
Er macht CW und SSB von 10-80m und wuenscht QSLs direkt an JM1LJS.

Z3 - Mazedonien: Vierzehn Jahre lang war OM Chris mit seinem Call Z31GX in
der Luft gewesen. Seit dem 1.August hat er mit Z35X ein neues Call.
DJ0LZ, der QSL-Manager beider Rufzeichen, bestaetigt leider nur direkt.

Vom 1.August bis zum Jahresende benutzt der Radioclub "Nikola Tesla"
Z37M das Sonderrufzeichen Z360M. Grund hierfuer ist das 60-jaehrige
Bestehen des Radioclubs.

4O - Montenegro: Emir,9A6AA, plant als 4O6AA von der Insel Sveti Nikola
(EU-163, LH 1097) zwischen dem 13. und 19.August Betrieb zu machen.
QSL-Karten ï¿œleider nur direktï¿œ wuenscht Emir ueber sein Homecall.

9Q - Demokratische Republik Kongo: Nachdem 9Q1D zurueck in Schweden und
9Q1NT zurueck in Belgien ist, ist Georges,9Q1EK, momentan die einzige
aktive und DXCC-anerkannte Station im Kongo, so sein QSL-Manager
Osten,SM5DQC. Die 9Q1EL-Logs koennen auf http://www.logsearch.de
abgefragt werden. Noch waehrend des Monats August kommt Phillipe,9Q1TB,
wieder von seinem Heimaturlaub zurueck. SM5DQC ist auch der QSL-Manager
von Philippe und er weist darauf hin, dass er nur auf direktem Wege
QSL-Karten bestaetigt und dass er in Schweden mit dem EURO nichts
anfangen kann, da dieser in Schweden nicht eingefuehrt wurde. Karten
fuer 9Q1TB und 9Q1EK sollen an die folgende Adresse gesendet werden:
SM5DQC, Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Schweden.

Pazifik: Toshi,JA8BMK, macht sich im September auf den Weg nach 3D2, T30,
T31XX und evtl. noch T33ZZ und sucht dabei noch Mitstreiter, um die

Kosten niedriger halten zu koennen. Sollte jemand Interesse haben, kann
er sich mit ihm per e-mail (fuku-t20@amber.plala.or.jp) in Verbindung
setzen.Alle Rufzeichen wurden ihm bereits vor laengerer Zeit zugeteilt.
Spenden sind willkommen, mehr Einzelheiten erfahren Sie im DX-MB, kurz
bevor die DXpedition starten wird.

Frankreich, Sonderrufzeichen: Den 150.Geburtstag von Heinrich Rudolf Hertz
feiern franzoesische Amateurfunker mit der Sonderstation TM2HRH vom
6. bis 19.August. QSL-Karten gehen ueber das REF-Bureau an F6KTN.

Kanada, Sonderrufzeichen: Mitglieder des "Amateur Radio Club of Central
Newfoundland" benutzen noch bis 31.August das Call VO1GAM. Damit will
man an den 70.Jahrestag erinnern, an dem der erste kommerzielle Trans-
atlantikflug (5.Juli 1937) von Botwood (Neufundland) nach Foynes in
Irland stattgefunden hatte. Aktivitaet ist auf allen Baendern angekuen-
digt und QSL-Karten via Buero oder direkt sollen an den Manager VO1MX
gesendet werden.

Polen, Sonderrufzeichen: SN2NP ist vom 17.-19.August vom Danziger Leuchtturm
in CW/PSK31/RTTY/SSB in der Luft. QSL via SP2BIK, Buero oder direkt.

SP5VYI, SP5X, SP5IUK und SP5GRU sind noch bis 30.September OPs an der
Sonderstation 3Z90ZIM. Betrieben wird diese in Przasnysz, wo die oert-
lichen Pfadfinder ihr 90-jaehriges Gruendungsfest feiern.
QSL via SP5ZIM oder SP5X.

DXCC: QSL-Karten von J5UAR (Guinea-Bissau, Operation 2007) werden ab sofort
fuer das DXCC-Diplom anerkannt und koennen dem DXCC-Desk zur Pruefung
vorgelegt werden. Wurde die Karte frueher bereits zurueckgewiesen, soll
man den Sachverhalt per e-mail an dxcc@arrl.org der ARRL mitteilen.

LINKS: Aktuelle SOTA-Aktivitaeten (Berggipfel) finden Sie wie immer auf den
beiden Internetseiten http://sotawatch.sota.org.uk/spots.php sowie
http://sotawatch.sota.org.uk/activations.php

Auf http://dxinfo.ea3bhk.com/dxinforesult.php kann man ein Plugin
herunterladen, um im Firefox-Internetbrowser eine DX-Suchmaschine
einzubetten.

Aktuelle Conteste:

11./12.August: Telgrafie-Teil des "European DX Contest" (WAEDC).
Die Ausschreibungen finden Sie auf der Webseite http://www.darcdxhf.de
unter Conteste sowie mittels der Contesttermin-Tabelle in der
CQ DL 8/2007 auf Seite 591.

IOTA: Zusammengestellt von Fredy,DE0MST (e-Mayl: iota@dxhf.darc.de)

Insel Aktivitaeten:
AS-039, Bering Insel: Vlad,RV1CC, Yuri,RA0FU, Serge,UA1ANA, Oleg,UR3IFD,
Victor,RV2FW, Valery,UA0ZC, Serge,UA0ZAZ, Alex,UA0ZCC, und Elena,RV3ACA
funken vom 9. bis 14.August als RK1B/0. QSL via RV1CC.

Mehr dazu auf im Internet auf: http://www.rv3aca.ru/as039/ und
http://rdaward.org/mw.htm

EU-096, OH1, Lansi-Suomi Prov. Group: Jukka,OH3OJ, ist als OH3OJ/p vom
8.-10.8. von der Insel Kaurissalo QRV. QSL via HC.

NA-137, W1, ME State West Group: Eine Gruppe von US-OPs aktiviert als N1URA
am 11./12.8. die Insel Seguin (USI-neu). QSL direkt via N1URA.

SA-002, VP8, Falklandinseln: Mit dem Rufzeichen VP8LGT wird am 18./19.8. im
Rahmen des ILLWE 2007 der Leuchtturm Cape Pembroke auf East Falkland
aktiviert. QSL geht via VP8ON.

DXNL 1531 - Aug 8, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

BY - CHINA, AS-151
A large team with BY1TT/2, BD1PTA/2, BA3CE/2 and other OPs is going
to activate Ju Hua Island (AS-151) from Aug 10-12.
The QSL manager for all participants will be BD1PTA.

DU - PHILIPPINES, OC-130
Hans,DL5SDF, will stay on Mindanao (DU9, OC-130) from Aug 10-28.
He already has the confirmation to get a license but does not know
the callsign yet. Hans works only in CW with 100 watts and wires.
QSLs (preferably via bureau) via DL5SDF.

IS0 - SARDINIA, EU-041
Two activities from Sardinia will commence this week:
Stefano,IM0/IK5XCT, is active from Maddalena Island (EU-041,IIA OT-008)
until Aug 13. Bureau QSLs can be requested via e-mail to him or at his
website: http://www.qsl.net/ik5xct

Gerry,IS0/IZ1DSH, und Giovanni,IS0/IK1WEG, will be QRV from EU-024 in
SSB/CW on 6-40m from Aug 8-20. They also plan some trips to the islands
Spargi (IIA OT-021, EU-041) and Caprera (IIA OT-012, EU-041).
QSLs via homecalls, bureau ok.

KH2 - GUAM, OC-026
Mike,K3UOC, is living with his family on Guam (OC-026) for about one
year now. Mike, who is working as a teacher, has the possibility to use
the equipment of the school's club station WH2D. He usually works about
90% in CW and promises operation on all nine HF bands whenever the time
and conditions permit. He intends to take part in all major contests.
After logging 6.000 QSOs during the last school year, he hopes to reach
10.000 QSOs this year. Mike plans to acquire an amplifier and also a
Hex beam to support the Cushcraft R-7000 he already has. Mike can be
found on the bands mostly during the weekends and takes care of the

QSL cards which should be sent via bureau or direct to K3UOC.
A few lines written by Mike about his amateur radio activities on Guam
can be found on the website of his school:
www.stjohnsguam.com/main/?option=com_content&task=view&id=269&Itemid=124

KH3 - JOHNSTON ATOLL, OC-023
Susan,W7KFI, was underway to Johnston (OC-023) with her yacht when
hurricane Erik threw a spanner in her plans. She sailed back to
Honolulu and will wait till November when the hurricane season is over.

OH0 - ALAND ISLANDS, EU-002 / JW - SVALBARD, EU-026
Juergen,OH0/DJ3KR, is QRV from the Aland Islands (EU-002) from Aug 7-12
and plans to take part in the WAEDC CW Contest on Aug 11/12 as well.
He will then travel to Svalbard (EU-026) from where he will show up
as JW/DJ3KR from Aug 15-26. All QSLs via his homecall.

ST - SUDAN / 6W - SENEGAL
Jovica,T98A (ex T98A), has been working in Sudan for two years now and
logged 40.660 QSOs as ST0RM and ST2A, most of them in CW (35.012 QSOs).
He published a few photos on his homepage: http://www.t93y.com/st2a
On Sep 1 his job for the UNHCR (UN High Commissioner for Refugees)
takes him to Dakar, the capital of Senegal. However he will not only
work in Senegal but in the whole West-African region so chances are
there might be some activities from this area by T98A.
His QSL manager T93Y confirms all QSLs very reliably.

XX9 - MACAO
Hide,JM1LJS, plans another activity as XX9TJS, most likely from
Aug 10, 0900 UTC, until Aug 13, 1100 UTC. Hide works in CW/SSB on
10-80m and requests QSLs direct via JM1LJS.

Z3 - MACEDONIA
Chris,Z31GX, was using his old call for 14 years now and got
his new callsign Z35X on Aug 1.
Unfortunately DJ0LZ, QSL manager of both calls, confirms only direct.

The radio club "Nikola Tesla" (Z37M) can use the special event callsign
Z360M between Aug 1 and the end of the year to mark the 60th birthday
of their club.

4O - MONTENEGRO
Emir,9A6AA, plans to become active as 4O6AA from the island
Sveti Nikola (EU-163, LH 1097) from Aug 13-19.
Unfortunately QSLs only direct via his homecall 9A6AA.

9Q - DEMOCRATIC REPUBLIC OF CONGO
After 9Q1NT is back in Belgium and 9Q1D returned to Sweden, the
last active station in Congo (which is approved for DXCC credit) is
Georges,9Q1EK, as stated by his QSL manager Osten,SM5DQC.
The 9Q1EL logs can be searched within at: http://www.logsearch.de
Philippe,9Q1TB, will return from his trip home during the month of
August. SM5DQC who is also the QSL manager of 9Q1TB writes that he

confirms QSL cards only direct and the EURO is useless for him in
Sweden because they still have their Swedish currency.
QSL cards for 9Q1TB and 9Q1EK should be sent to following address:
SM5DQC, Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden.

PACIFIC TRIP
Toshi,JA8BMK, plans to activate 3D2, T30, T31XX and maybe also T33ZZ
during September or October and still looks for people to join him
to keep the costs down. If you are interested please contact him via
e-mail (fuku-t20@amber.plala.or.jp). All calls have been allocated to
him a long time ago. Donations are welcome, more information will be
published in the DX Newsletter as soon as the DXpedition starts.

FRANCE, SPECIAL EVENT STATION
The 150th birthday of Heinrich Rudolf Hertz is celebrated with the
French special event station TM2HRH from Aug 6-19. QSLs via F6KTN.

CANADA, SPECIAL EVENT STATION
Members of the "Amateur Radio Club of Central Newfoundland" are using
the special call VO1GAM until Aug 31. This marks the 70th anniversary
of the first commercial trans-atlantic flight (5 Jul 1937) between
Botwood (Newfoundland) and Foynes (Ireland). Activities take place on
all bands and the QSLs should be sent via bureau or direct to VO1MX.

POLAND, SPECIAL EVENT STATION
SN2NP will be active in CW/PSK31/RTTY/SSB from the lighthouse in Gdansk
from Aug 17-19. QSL via SP2BIK, via bureau or direct.

SP5VYI, SP5X, SP5IUK and SP5GRU are activating the special event
station 3Z90ZIM until Sep 30. QTH is Przasnysz where the local scouts
celebrate their 90th anniversary. QSL via SP5ZIM or SP5X.

DXCC: QSL cards of J5UAR (Guinea-Bissau, 2007) are accepted for DXCC credit
now. If you submitted your QSL earlier and got it rejected, please send
an explaining e-mail to dxcc@arrl.org

LINKS: EA3BHK has a Firefox plugin which adds a DX searching engine to your
internet browser at: http://dxinfo.ea3bhk.com/dxinforesult.php

Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Aug 11/12: European DX Contest, CW (WAEDC)
The official rules have been changed and can be viewed at the
website of the DARC Committee for DX and HF Contesting at:
http://www.darc.de/referate/dx/fedcw.htm

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:

AS-039, Bering Island: Vlad,RV1CC, Yuri,RA0FU, Serge,UA1ANA, Oleg,UR3IFD,
Victor,RV2FW, Valery,UA0ZC, Serge,UA0ZAZ, Alex,UA0ZCC, and Elena,RV3ACA
will be active as RK1B/0 from Aug 9-14. QSL via RV1CC.
You can find more information online at: http://www.rv3aca.ru/as039 and
http://rdaward.org/mw.htm

EU-096, OH1, Lansi-Suomi Prov. Group: Jukka,OH3OJ, will be QRV as OH3OJ/p
from Kaurissalo Island from Aug 8-10. QSL via homecall.

NA-137, W1, ME State West Group: Some American operators will activate
Seguin Island (USI-new) as N1URA on Aug 11/12. QSL direct via N1URA.

SA-002, VP8/F, Falkland Islands: Cape Pembroke Lighthouse on East Falkland
will be activated by VP8LGT during the ILLW on Aug 18/19.QSL via VP8ON.

August 13, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, AD1C, K1XN & GoList, NJ1Q, W1AI, K3IXD, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4GN/m, KB5YLG, AH6HY, WE7K, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, 9A7K, CT1EWA, CX3ZAN, DK8JB, DL7MAE & The DX News Letter, DL8AAM, EA5YN, G3URA, HL1VAU, I1JQJ/IK1ADH & 425 DX News, LZ1JZ, OH2BN, ON4BEN, ON5NT, ON9CDR, PG9W/9H3ON, RSGB IOTA, TF3AO, VA3RJ & ICPO and YV5EED for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/August, through Sunday, 12th/August there were 207 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FW, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S5, SM, SP, SU, SV, SV5, SV9, T5, T7, T8, TA, TF, TG, TI, TK, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2V, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XX9, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3C, EQUATORIAL GUINEA. Elmo, EA5BYP, announces that a DXpedition to the Republic of Equatorial Guinea (Bioko Island AF-010) will take place between October 5-14th. Operators will be Fred/KH7Y, Luis/EA5BRE, Vic/EA5YN and Elmo/EA5BYP. The team will operate with two stations and will sign 3C7Y for 10 days. Activity will be on all bands and modes SSB, CW and RTTY. QSL via EA5BYP.

4O & YT5, MONTENEGRO AND SERBIA. A team consisting of Pietro/I2MQP, Kan/JA1BK, Mike/K6MYC, Doug/N6TQS and Nikolai/UT5UT will be guest operators from stations in Montenegro and Serbia next month. They will first visit the QTH of Gojko/YU6AO in Montenegro between September 17-21st, and operate as 4O1AO and 4O1M. The group will then participate in the 2007 World HST Championship (Belgrade, Serbia), September 21-23rd. Their trip will end with a visit to Hrane's, YT1AD, station in Serbia and operate as YT5A until the 26th. Look for activity to be on all HF bands including 6 and 2 meters on CW, SSB, RTTY, PSK31, SSTV and EME.

5X, UGANDA. Nick, G3RWF, will be active as 5X1NH from November 21-30th. Activity will start from Kampala between November 21-26th. He also plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Low-Power entry. Outside of the contest, Nick will try to be active on the low bands and the WARC bands, if conditions allow. Modes will be CW, SSB, RTTY and PSK. Nick plans a short safari to the Mountains of the Moon after the contest to Western Uganda and will do some "spare time" portable work. QSL via G3RWF. Nick is happy to try some skeds; E-mail address is: nick@henwood.demon.co.uk

6O, SOMALIA. You only have a few more days to work Filip, ON4TA, as 6O0F. He is expected to leave on August 15th. His activity is limited. Most of his operations is around 14240-14250 kHz usually between 1230-1600z. QSL via his home callsign, the bureau is preferred.

7O, YEMEN. Steve, 9M6DXX, reports (edited), "Chris Lorek, G4HCL, has authorized me to inform everyone that he plans to be active from Sana, Yemen, once again as 7O/G4HCL from Monday, August 13th until early on Wednesday, August 15th. Chris has written permission and official authority to operate on all HF amateur bands under supervised conditions, but warns that it may or may not be possible to obtain the specific documentation that satisfies DXCC requirements. WFWL! This is NOT A DXpedition but a business trip, and operation will therefore only be when possible and is only likely to be for short periods at a time. Chris will be using 1kW to a professional biconical monopole communications antenna. Activity will be SSB only, and probably only on 20m (look between 14170 and 14260 kHz). QSL information for this operation is direct only to G4HCL, PO Box 400, Eastleigh SO53 4ZF, UK. If Chris is able to get on the air for extended periods, this should certainly liven up the bands a little as a prelude to our 3B7C operation! 73..."

8P, BARBADOS. Richard, G3RWL, will be active as 8P6DR between September 27th and October 14th. He plans to be active in the CQ WW RTTY DX Contest (September 29-30th). QSL via G3RWL.

8S, SWEDEN (Special Event). The Jemtland Radio Amateurs (SK3JR) will be hosting the "2007 Scandinavian Young Ladies Radio Amateurs" (SYLRA 2007) meeting, in Ostersund, Sweden, from August 23-26th. YLs and OMs from Scandinavian countries and countries all over the world are invited to join SYLRA 2007. The special callsign for the meeting is 8S3SYL. On Friday, August 24th, there will be a special activity by YL operators from SI9AM with two stations active simultaneously. For more details on this event, please visit: http://www.sylra.se/_sgg/f10000.htm

9H20, MALTA (Special Callsign). Wim, PG9W/9H3ON, President of the Dutch Amateur Radio Society, informs OPDX that a new callsign, 9H20 (NINE HOTEL TWENTY) will be used by their Dutch group to commemorate the 20th year of being in MALTA (EU-023, JM75). The callsign 9H20, with no suffix, has been issued to their group as of August 10th through November 10th. However, the Dutch group will not be active until September 8-9th through October 1st. Activity will be on all bands 80-6 meters. The Dutch operators have also been issued individual 9H3 callsigns during that month. QSL the individual 9H3 callsigns via the info on QRZ.com. QSL Manager for 9H20 (NINE HOTEL TWENTY) is PB9ZR/9H3ZR: Ruben van der Zwet, Barentzstraat 1, 2161 TJ LISSE, The Netherlands. PLEASE NOTE: All QSL cards send directly and reaching them before the end of December 2007, will be answerd direct as well. After December, all QSL cards will go via the bureau. PLEASE NO IRCs!

AM/AN/AO, SPAIN (SPECIAL COMMEMORATIVE AREA CODES). The Spanish Ministry of Industry, Tourism and Commerce has published a Resolution of the General Subdivision of Planning and Management of the radioelectric phantom, by which it grants the use of the area codes (prefixes) AO, AN and AM respectively for EA, EB and EC stations between September 3rd and December 9th of 2007, in the occasion of 75th anniversary of the "Plenipotentiary Conference of the International Telegraphic Union".

C6, BAHAMAS. Operators Peter/W2GJ (C6APR), Ed/K3IXD (C6AXD) and Randy/K4QO (C6AQO) will be active from Crooked Island (NA-113, ARLHS BAH-005), Bahamas, between October 26-29th. Activity will be on 160-6 meters including the WARC bands, CW, SSB, and RTTY. The trio plans to be active as C6APR during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. All QSLs go to K3IXD.

CN, MOROCCO. Operators Stefano/IK2QEI, Matteo/IK2SGC, Roberto/I2WIJ, Luca/IK2FFK and Spiros/SV8CS will be active as CN3A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via I2WIJ.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R starting around October 19th and plans to be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (160m) entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

E7, BOSNIA AND HERZEGOVINA (New Prefix Change). The ARRL Letter reports: The ITU has granted a request from the Ministry of Communications and Transport of Bosnia and Herzegovina to replace T9A-T9Z with E7A-E7Z. According to IARU Secretary David Sumner, K1ZZ, "While it probably will take some time for the BiH administration to implement this change, it should put to an end the use of call signs outside the ITU-allocated call sign block by stations in parts of BiH." The new prefix will be implemented "probably later this year," Sumner said.

HI, DOMINICAN REPUBLIC. Ted, HI3TEJ, will be active as HI3T during the CQ WW RTTY DX Contest (September 29-30th) as a Single-Op/Low-Power entry. QSL via ON4IQ.

IOTA NEWS.....
AF-004. George, GM0IIO, will be active as EA8/GM0IIO from Playa Blanca,

Island of Lanzarote (S-007 for the Spanish Islands Award, WLOTA LH-0099), August 10-16th. Activity will be holiday style, mainly on 20 meters CW and SSB. He will be using a FT-857 and fishing pole vertical antenna. QSL via his home callsign.

AS-080. Members of Anseong DX Club will be active as HL0LPM/3 from Taenanji Island (KDN F-17) between August 19-21st. Operators mentioned are Song/6K2BWA, Lee/DS2GWM, Kwon/DS2GXU, Cho/DS2LLD and Kim/HL2CFY. Activity will be on 160-6 meters CW/SSB/RTTY with various beam and amplifiers. QSL via 6K2BWA, by the Bureau or direct to: Song Jang Woon, 104-1004 Daewoo APT, Dangwang Dong, Anseong, Gyeonggi 456-705, South Korea.

EU-028. Fabio, IW1DFU, will be active as IA5/IW1DFU from Elba Island (IIA LI-001, MIA MI-022, WLOTA LH-0609), August 12-31st. Activity will be mainly CW on 20 and 30 meters, with some SSB opertaions on 20 and 40 meters. He will be running a 100 watts into a vertical and/or dipole antennas. QSL via his home callsign, direct or by the bureau.

EU-078. A group of 10 Spanish operators will activate Meda Gran Island (DIE E-001 for the Spanish Islands Award, MS-007 for the Mediterranean Islands Award and ARLHS SPA-161 [first activ-ation]), August 25-26th. This is a semi rare IOTA, but this island will become very difficult to obtain permissions to enter after 2008; the authorities will be closing the Park. The callsign will be EG3MED, and the team has permission to stay there for 2 complete days running with 2 complete stations. Activity will be on all bands, SSB and CW. The group will have 3 transceivers and a Yagi, dipoles and verticals. The team members are: EA2RC, EA3AGB, EA3CHZ, EA3ESZ, EA3FKX, EA3GHZ, EA3NM, EA5EOR, EB3GGU and EC7AKV. The QSL Manager is EA3GM, by the bureau or direct. A special QSL will be printed.

EU-127. Marcel, DJ5MS, will be active as homecall/p from Helgoland-Duene (N-14 for the German Islands Award, WLOTA LH-0518), August 27-29th. Activity will be SSB only, running 100w into a GP. QSL via his home callsign, direct or by the bureau.

EU-156. Members of the Granville ARC (West Normandy, Manche Department), will activate Tombelaine Island (MA-021 for the French Metro-politan Islands Award - DIFM), a rock located in front of the Mont Saint Michel, from 1800z, August 24th to around 1200z, August 26th. They will use the callsign F5KAQ/p on all HF bands, using CW, SSB and Digital modes, and VHF 2m, using SSB. WWG is: IN98fp. QSL via F5RJM, either by the French REF Bureau or direct (SAE + postage) to: Denis Villemin, 4 Le Flaquet, F50470 Tollevast, France.

EU-170. Marco, IK1ACX, will be active as 9A/IK1ACX from Pag Island (ACIA IC-188, CIA-32, IOCA CI-082), between now August 18th. QSL via his home callsign.

EU-172. Stefan, DF8HS, will activate Samso Island (JY-008 for the Danish Islands Award, WLOTA LH-0726), August 26th to September 8th. Activity is planned for all bands using SSB, PSK-31 and RTTY. QSL via his home callsign.

NA-083. Operators Dave/W4SAR and Joe/K4SAR will be active as W4SAR/p from Chincoteague Island (USI VA002S, WW Loc. FM27HW, Accomack County, Virginia), between 0100z, August 12th and 0100z, August 24th. Activity will be sporadic on 20 and 6 meters SSB, and 20 meters PSK31. QSL direct to W4SAR (QRZ.com).

NA-112. Jeff, AI4U, will be active as K4I from Sunset Beach (USI NC-012S, Brunswick County, North Carolina), between now and August 17th. Activity will be on 40-10 meters on the IOTA frequencies, CW and SSB, as time allows. QSL via his home callign.

NA-140. (CORRECTION) Last week we mentioned that Page, WA3EOP, will be operating mobile from Kent Island (USI MD004S, WW Loc. FM18UW, Queen Annes Couty, Maryland) on August 11th (1600-1800z). Thanks to several readers, OPDX learned that the RSGB no longer counts Kent Island for IOTA. Kent Island used to count for IOTA but was removed from the list some time ago. NA-140 specifically EXCLUDES the following islands: Asquith's, Kent, Tilghman, Upper Hooper and Wroten. Please see the RSGB IOTA official Web site if you have any further questions at: http://www.rsgbiota.org/info/search.php?q=na140&search=Search

OC-130. Hans, DL5SDF, is expected to be active from Mindanao Island until August 28th. As this was being written, his callsign was not yet known, but he does have a confirmed license. Hans will only be active on CW using 100 watts and wire antennas. QSL via DL5SDF; preferably via the bureau.

SA-051. The Association of Radioamateurs of Venezuela and the Grupo DX Caracas are pleased to announce the celebration of the Venezuelan Navy Day 2007 with an IOTA DXpedition to Las Aves Islands (Not Aves Island, DXCC YV0 and IOTA NA-20), as YW5AS on August 27-31st. Activity will be on HF (SSB, CW, Digital) and VHF (FM). They will also be activating Aves de Sotavento lighthouse (Admiralty Reference Numbers: J-6491 and WW Loc. FK62DB).QSL Manager is DL3AMA. Also, check the info at QRZ.com for YW5AS.

IS0, SARDINIA (EU-024). Operators Gerry/IZ1DSH and Giovanni/IK1WEG, will be active from here as IS0/homecall between now and August 20th. Activity will be on 40-6 meters CW/SSB. They also plan some trips to the Islands of Spargi (IIA OT-021, EU-041) and Caprera (IIA OT-012, EU-041). QSL via their home callsign, the bureau is "OK".

J49, CRETE. Dick, G3URA, will be active as J49XF in the Russian RTTY Contest, September 1-2nd. QSL via G3URA, direct or by the Bureau. ADDED NOTE: Dick will also be active (using the same callsign) in the CQ World

Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL route is the same as above.

LIGHTHOUSE ACTIVITIES (ILLW is August 18-19th).....
Members of "The World Light House Foundation", "ARC Koprivnica" and the "All Croatian Islands Award Group" will be active from many Croatian lighthouses and islands between August 17-23rd. During the ILLW between August 17-19th, look for activity from SUSAK lighthouse (Reference numbers: WLH 9A-016, ACIA IC-127, CIA-45, CLH-31, CI-108, ARLHS CRO-50 and EU-136). The callsigns will be 9A60K/p, 9A0LH and 9A7K. QSLs for ALL contacts are via 9A7K. All information about this activity is available on the Web page at: http://www.9a7k.com

Members of the Radio Club Ushuaia will be active as AY7X from the Baliza Escarpados Lighthouse (ARG-081) on Redonda Island (SA-049, WW Loc. FD55VE) between 0001z, August 18th and 2359z, August 19th. The Isla Redonda qualifies for "GACW Five Argentine Islands Award" with #ARXP6. Operations will be on CW, SSB and PSK on the following suggested frequencies:
CW - 3550, 7020, 14010, 21010 and 28050 kHz
SSB - 3680, 7020, 14200, 21200 and 28300 kHz
PSK - 3610, 7038, 14070, 21070 and 28120 kHz
QSL via WD9EWK, by the Bureau or direct to: Patrick Stoddard, 4031 E. Aster Drive, Phoenix AZ 85032-7417 USA.

Members of the Associacao de Radioamadores do Distrito de Leiria (ARAL) will be active as CQ5N from the Lighthouse of the Nazare/Forte S.Miguel Arcanjo, during the International Lighthouse/Lightship Weekend (ILLW) Contest. Activity will be on various modes and bands (HF/VHF/UHF/SHF). QSL only direct to CT6ARL (QRZ.com). The ARAL does not have access to the QSL service bureau.

Members of the "Radio Club Colonia" in Uruguay will activate Colonia City Lighthouse(UR007) next August 18th and 19th. Their callsign will be CV7FARO. Ten operators will be on the air with 3 stations operating on 80/40/20/15/10 meters plus UHF/VHF. QSL Manager is CX1FA (QRZ.com).

A group of about 10 German operators will be active as DF0WFB/LH from the lighthouse (#75 for the German Lighthouse Award - DLTD, ARLHS FED-174, TWLHD WLH DL-022, WLOTA LH-0712) on Oland Island (EU-042, N-20 for the German Islands Award), between August 17-20th for the ILLW. They will have three 100w stations on the air: two for HF and one VHF. QSL via DF0WFB, by the DARC Bureau or direct to: FH Wolfenbuettel, AFu-AG, Salzdahlumer Straße 46/48, 38302 Wolfenbuettel, GERMANY.

The Scarborough Special Events Group will be active as GB2SCA for the "International Lighthouse Weekend" (August 18-19th), from the lamp room in the Scarborough Lighthouse (ARLHS ENG-121). Look for HF activity to be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. QSL via the RSGB bureau.

Operators Henk/PA3FMC and Ruud/PE1BTV will be active as LA/PA3FMC from the lighthouse (ARLHS NOR-264, WLOTA LH-2373, WW Loc. JP21GA) on Utvar Island (EU-055), August 16-22nd. They will participate in the International Lighthouse/Lightship Weekend (ILLW). Activity will be on all HF bands, SSB and PSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). Further information can be found at: http://la2007.dxpedition.nl/

Icelandic Radio Amateurs will operate once again as TF1IRA during the ILLW, August 18-19th. As before, members will be at the Lighthouse of Knarraros; Ref No. ICE012.

OJ0, MARKET REEF. A press release from Jarmo, OH2BN, states: "The Nordic team of OH0RJ, OH2BH, OH2PM, SM0W and SM6U will try landing on Market Reef Saturday, August 11th, around 1600 UTC with two stations and may appear on the air on that night as OJ0B. They will do CW and SSB until Thursday, August 16th. QSL via OH2BH.
On August 16th, OH2HAN, OH2MZB and OH2LU will be swapping the operating duties, weather permitting, and will air OJ0MI focusing on RTTY but also the weekend's (August 18-19th) lighthouse activity. QSL via OH2HAN.
CW at .025 kHz and on SSB 3790, 7040, 14190, 18140, 21290 kHz. Over the lighthouse weekend 14250-14260 kHz will be used.
They will run the latest FT2000 radios and SteppIR antennas.
The Finnish Lighthouse Society has been active repairing the lighthouse for this summer, and you may wish to follow their activities which include daily reporting and interesting general details.
http://www.lighthousesociety.fi/eng/
If you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send SASE with 7 Euros (10 USDs) as your donation to the Finnish Lighthouse Society through respective QSL managers."
If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the 2005 OJ0B activity:
http://www.kolumbus.fi/oh2bn/pagemarket.htm
ADDITIONAL PRESS RELEASE (via Tim/N4GN). Teemu, OJ�/SM�W (on the OJ�B team) reports: "We have established the first Internet Service in history on Market Reef, this allows us to send you pictures from our OJ�B adventure. Follow the Market Reef Magic on http://www.sm0w.com. We have had one station making some QSOs during the night and expect to be fully operational by tonight with two stations. Stay tuned for more news on the webpage.....73"

ON, BELGIUM (Special Event). Marc, ON9CDR, reports that members of the "Radio Club de Binche" will activate the special callsign ON4WAR to pay a tribute to the Belgian Resistance during WW II, September 1-2nd. Old rigs such as "Paraset" and "TR6" will transmit on CW on the 7 MHz band from the dropping area of the "Refuge B40" in Waudrez (Binche). Some transmissions on SSB are also scheduled on the 7 MHz band. A special QSL card will be issued for this event. QSL information via ON7RY. More information is available on: http://www.on7ry.be

OX, GREENLAND (NA-018 and WLOTA LH-0072). Roland, HB9FMD, will be active as OX/HB9FMD from the Hotel Hvide Falk in Ilulissat, August 17-27th. Activity will be mainly CW on the WARC bands. QSL via his home callsign.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes, DK8JB:
SA25QW via SK6QW SF89IB via SM6CLU
SB250TT via SM6JSM SI89B via SM6CLU

QSLS FOR 5X4A AND 5X4B. Tom, DL8AAM (5Z4GD, ex OP 5Z4FU/A, 5X/DL8AAM etc.), informs OPDX that a great part of the original logs were lost in the "civil war" in Northern Uganda. The QTH of 5X4A and 5X4B was in Kitgum/Gulu, in Northern Uganda, near the Sudanese border. During the time of their activity and to date, this region has suffered from a cruel civil war between the central government and the LRA (Lord's Resistance Army). Tom mentions that he has a great box of "unanswered QSLs". He hopes that maybe later he will be able to return to the sites, and possibly find and collect the "lost" logbooks.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accum-alated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

QSL LZ/G4EDG via LZ1JZ: Tony Stefanov, P.O Box 43, HARMANLI - 6450, BULGARIA. Operators were Steve/G4EDG, Vasil/LZ1CL and Tony/LZ1JZ. Their four day activity (June 19-23rd) was from St. Ivan Island (EU-181) and they made 4500 QSOs. LZ1JZ is also QSL Manager for: TX1A, FK8DD, P29K, SV1/LZ1JZ, OA4SJ, OA4DKC, TF1VG, TF60VG, DU1LWQ, LZ1KSP and LZ7J.

NEW ADDRESS. Please send QSL cards for Frank, V51AS, to the following new address: Frank Steinhauser, Heinrich Heine Str. 35, D-72555 Metzingen, Germany.

QSLS VIA LOTW: BS7H and VK9DNX

QSLS RECEIVED VIA MAIL: 3B7SP, 5B4AIF, 5Z4/9A3A, BS7H, CO7PH/p, FK8GX, FW5ZL, HC7AE, HK1/AC8W, N8S, NE1RD/1, R1FJ, RK2FWA, YA/LY1Y, YL2KO and ZC4LI

SOUTHERN EUROPE TOUR (3A and SV9). Ghis, ON5NT, informs OPDX that he will be active as SV9/ON5NT between August 16-23rs, and 3A/ON5NT between September 24-28th. He states, "Both are holiday trips. So don't expect big signals and most likely no 80 and 160 from SV9." Both operations are QSLed via his home callsign.

SU, EGYPT. Gab, HA3JB, will be active as SU8BHI from Cairo between September 21st and November 30th. Activity will be on CW, RTTY, SSTV, PSK and some SSB. Bands were not provided. He also plans to be active in the CQ WW RTTY DX Contest (September 29-30th) and many of the other major upcoming contests. QSL via HA3JB. More information will be available at: http://www.qsl.net/ha3jb

USI ACTIVITY. Members of the Tri-County Amateur Radio Club (WC5C) will activate Pelican Island (USI TX050, WW Loc. EM12FV, Tarrant County, Eagle Mountain Lake, Texas) using the special callsign W5P, from 1400-2400z on August 25th.. Look for activity on the usual island frequencies (mostly around 14260 and 7260) and possibly other frequencies and various modes. QSL via WC5C (QRZ.com).

V4, ST.KITTS. Scott, NE1RD, is planning another "100 Pound DXpedition", this time to St. Kitts (NA-104). He is expected to be there between October 24-31st and will be active as V4/NE1RD. The main event during this period will be the CQ WW DX SSB Contest (October 27-28th) as a Single-Op/All-Band. QSL via NE1RD. Details, updates and online log for this DXpedition will be available on the following Web pages:
http://dxpedition-v4.com (DXpedition Web site)
http://100pounddxpedition.blogspot.com (NE1RD's blog)

VP2M, MONTSERRAT. Operators Larry/K3VX, Greg/K4NO, Lee/K7NM, Howard/AK9F, Don/K9NR and Carl/K9CS will be active from here between November 20th and December 3rd. The group is there for the ARRL 160 Meter Contest (November 30th-December 2nd). QSL via K9CS.

VP5, TURKS AND CAICOS ISLANDS. "J.C.", W1AI, will be active from Provo (NA-002) as VP5/W1AI, September 1-8th. Activity will be on 160-6 meters, CW and SSB. QSL via his home callsign.

WAS/WAC SPOTTING/SCHEDULING WEB PAGE (Update/Change). Andy, K3UK, continues to improve and update his interesting Web site for individuals who are trying to earn their WAC and WAS. The Web site is called "The K3UK Worked All States/Counties Interactive Sked Page". The site is used for arranging QSOs for WAS and WAC. Andy states, "Feel free to post your operating frequency or the state/county you are looking for. Any modes, any bands."
The Web site is: http://www.obriensweb.com/wac/wac.php

They are apparently QRV as of the last hour of the WAEDC contest, as they
answered my "CQ EU" on 20 meters!

DXNL 1532 - Aug 15, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A6 - UNITED ARAB EMIRATES
Don,N1DG, is staying in the Emirates from Aug 15-18 and is QRV as A61AD
mainly in RTTY and in CW. QSLs unfortunately only direct or via LotW.

EA8 - CANARY ISLANDS, AF-004
Hans,EA8/ON6ZK, is hitting the airwaves from Teneriffa (AF-004) with
only 25 watts mostly in SSB on 20m/17m from Aug 15-22.
QSL via bureau preferred to ON6ZK.

FG - GUADELOUPE, NA-102
David,F1JXQ, showed up as TO1USB (instead of FG/F1JXQ like announced
in DXNL 1530) on 14.195 MHz from Guadeloupe (NA-102). QSL via F1JXQ.

KH4 - MIDWAY ATOLL, OC-030
The Midway atoll is one of the most wanted DXCC entities (as seen from
Europe). Its scarcity value increased over the past few years after
Midway has been closed to the public in January 2002. Carolyn Bohan,
the regional head of the "National Wildlife Refuge Pacific Region
(US Fish and Wildlife Service)" gave her blessing to a visitor plan,
which could come into effect in November 2007 or January 2008. This
plan explicitly includes amateur radio activities but restrictions may
apply to the antennas. They must be designed in a way not to harm any
birds on Midway.

OJ0 - MARKET REEF, EU-053
OH0RJ, OH2BH, OH2PM, SM0W and SM6U intended to land on Market Reef on
Aug 11 and planned to show up as OJ0B (QSL via OH2BH) with two stations
the same day. OJ0B is working in CW/SSB until Aug 16.

They will be replaced by OH2HAN, OH2MZB and OH2LU as OJ0MI (via OH2HAN)
who will be active mainly in RTTY. During the upcoming International
Lighthouse Weekend (Aug 18/19) OJ0MI can be found between 14.250 and
14.260 MHz. They announced to be QRV on following frequencies:

CW: 25 kHz from the lower band edge
SSB: 3.790, 7.040, 14.190, 18.140, 21.290 MHz
They will use brand new FT-2000 radios and SteppIR antennas. If you are collecting stamps you may want to request your QSL card enclosed with 7 EUR (or 10 US$) from the QSL manager and get a special stamp from Market Reef. Reports and several pictures from the earlier DXpedition OJ0B (2005) can be found at http://www.kolumbus.fi/oh2bn/pagemarket.htm

OX - GREENLAND, NA-243
Johan,OX/PA3EXX/p, will activate the new IOTA island Rathbone (NA-243) from Aug 19-23. QSLs will be confirmed after his return direct or via bureau to PA3EXX.

SV9 - CRETE, EU-015
Ghis,SV9/ON5NT, is going to spend his holidays on Crete (EU-015) from Aug 16-23. QSLs via his homecall.

V5 - NAMIBIA
Alfons,DJ8VC, will stay in Namibia from Aug 23 until Sep 8 and plans to become QRV as V5/DJ8VC working in CW/SSB on 10-160m. On Sep 1/2 he will join other OMs from Namibia as V55V/p in the IARU Region 1 SSB Fieldday Contest. He is using the shack of Martin,V51W, and can has the choice between wires, a rhombic and several yagi antennas. He also plans to take part in the WAE SSB Contest at the end of his operation (Sep 8/9). QSL cards for V5/DJ8VC and V55V/p (only for THIS Fieldday) will be confirmed by Alfons after his return home.

VP9 - BERMUDA ISLANDS, NA-005
Seppo,VP9/OH1VR, announced to become QRV from Bermuda (NA-005) mainly in CW from Aug 19-21. QSLs via homecall.

7O - YEMEN
Chris Lorek,G4HCL, has the written permission to work under supervision signing 7O/G4HCL on all bands during his business trip from Aug 13-15. You should listen on 14.170 and 14.260 MHz and it is very likely that most of the operation will take place only in SSB on 20m. Chris already notes that the papers he has may not be good enough for an approval by the DXCC Desk.
QSLs only direct via G4HCL, PO Box 400, Eastleigh SO53 4ZF, England.

9X - RUANDA
Peter Stabusch,DL8YA (ex 5Z4SP and 9H1FV), writes that official amateur radio licenses are issued again in Ruanda since July 12. He was lucky enough to get his former callsign 9X5SP which he got allocated before back in April 1967. Peter is working for the "Deutsche Welle" in Kigali and helps to build up the "Rwanda Amateur Radio Union" (RARU). He is using an Atlas 210X with a dipole for 20m. QSLs for 9X5SP via DL8YR.

HUNGARY, SPECIAL EVENT STATION
The 5th International Congress for the New Evangelisation which will take place in Budapest on Sep 15-22. The special event call HG5MISSION is activated until Sep 30. QSL via bureau.

NEW PREFIXES FOR BOSNIA-HERCEGOVINA, E7
The ITU has allocated the prefix block E7A-E7Z to Bosnia-Hercegovina,
but changing all the callsigns may last until the end of the year.
Jahresende dauern, bis der Wechsel aller Rufzeichen abgeschlossen ist.

PUBLISHING LOGS AND LOSING DXCC CREDIT...
The magazine "CQ" published all logs of the last CQWW DX Contests at:
http://www.cqww.com/cwlogs.htm and http://www.cqww.com/ssblogs.htm
In the future DXers have to be aware that it is possible to lose DXCC
credit for QSOs made during those contests. Rule 5 in section III of
the DXCC rules writes that publishing logs "...creates a question as to
the integrity of the claimed QSOs ... and may be considered sufficient
reason to deny ARRL award credit for contacts with any station for
which such presentations have been made." Falk,DK7YY, who is a field-
checker of the ARRL sent a query to the DXCC Desk and the DXCC manager
Bill Moore,NC1L, answered that he cannot make any statement questioning
this rule. With other words: If a DXpedition submits its CQWW log, it
can be assumed that its DXCC approval is denied as well. Country and
band chasers will cease their contest participation and may focus on
chasing the DX before and after the contest weekends!

SILENT KEY: Dick Wolf,N6FF (ex KL7H), passed away on Aug 1 at the age of 68.
He took part in many DXpeditions, was a passionate lowband DXer and
QSL manager of many DX stations. Most of these logs have been uploaded
to the LoTW. See also the homepage: http://www.n6ff.net

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Aug 18/19: SARTG RTTY Contest and Keymen's Club of Japan Contest

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-017, ID9, Eolie (Lipari) Islands: Mauro,ID9/IK3SCB, will be active from
Lipari Island (ME-001) from Aug 18-24. QSL via homecall.

EU-055, LA, Fjordane/Hordaland/Rogaland: Henk,LA/PA3FMC, and Ruud,LA/PE1BTV,
will activate Utvaer Island from Aug 16-23. Check also:

I couldn't help but notice this one. What is the danger to birds from antennas? I've been around a number of different antennas, towers, etc, both temporary and permanent. I haven't seen any evidence of harm to wildlife.

I had heard of danger to birds at a very powerful shortwave site using open wire balanced line, (a macabre story) but that just wouldn't happen in any setup likely to be used today.

http://www.fws.gov/migratorybirds/issues/towers/agenda.html

Our tower (I work for a TV station) has been the site of an annual survey on this topic. (I hear our station's founder was an avid conservationist and was very concerned about these bird kills)

Best information I have is that we don't know *what* the danger is, but we do know that it exists.

That said, we're talking about much larger towers than would ever be involved in a ham DXpedition!

I suppose there's a risk to small rodents (mice, squirrels, etc.) because the tower makes an excellent perch for birds-of-prey!

Seriously, I suspect the concern isn't as much that the antennas themselves will harm wildlife, as that amateurs will disturb habitat as they erect those antennas.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, K3GV, NG3K, W3UR & The Daily DX, K4UJ, N4AA & QRZ DX, WA4AA, W4UFO, K8YSE, KG8DP, DX-IS News Site, Pete's-DX-Newsdesk, DH8WR, DK8JB, DL2VFR, DL7MAE & The DX News Letter, F5NQL & UFT, TA3YJ, I1HYW, I1JQJ/IK1ADH & 425 DX News, OH2BN, ON4BEN, RA4HT, RSGB IOTA, SM3CXS, TA1HZ, VA3QSL, VA3RJ & ICPO, YO2DFA and YV5EED for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/August, through Sunday, 19th/August there were 208 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7O, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EZ, F, FG, FK, FM, FO, FP, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S5, S7, SM, SP, SU, SV, SV9, T5, T7, T8, TA, TF, TG, TI, TK, TL, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V5, V7, V8, VE, VK, VK9L, VK9N, VP6, VP8, VP8/g, VQ9, VR, VU, XE, XU, XX9, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7O, YEMEN. Chris, G4HCL, was active on the air as 7O/G4HCL for a few days and hours. Apparently, Chris had written authorization from the Director of Communications at the government's run Sana&#65533;a International Airport (from where he was operating). Activity seemed only to happened on August 14th and 15th. Reports indicate that he was very weak in signal strength. Rumors state that he only worked one stateside station and a

few UK, but several 9M6 stations.

8Q, MALDIVES (Update). Andrew, G7COD, will be active for the third time from Embudu Island, Maldives (AS-013), as 8Q7AK from September 30th to October 12th. Activity will be mainly SSB with possibility of a little CW on the 30/20/17/15/12 meters. Suggested frequencies are: 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz to allow for QRM). Times of operation will be every day from 0830-1030z and 1300-1515z. QSL either via the bureau or direct to G7COD. More detailed information is available under 8Q7AK on QRZ.com.

9Y, TRINIDAD AND TOBAGO. Jim, N6TJ, will be active as 9Y4AA during the CQ World-Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via VE3HO.

C6, BAHAMAS. Operators Fredrick/KE7X and Tom/N6BT will be active from here between November 18-26th. Activity is planned for the CQ World Wide DX CW Contest (November 24-25th). Look for Fredrick to be active as C6AKX as a Single-Op/Single-Band (20m)/Low-Power entry, and Tom (callsign TBD) to be a Single-Op/Single-Band (160m) entry. QSL both via WA4WTG.

CASTLE ACTIVITY. Club members of the UBA section CRD (Radio Club Durnal) will be active as OT2B from "Terra Nova" on the citadel of Namur, September 8-9th. Activity will be on all HF bands, CW, SSB, Digital modes and possibly on the VHF bands. Reference number is NM-039 for the BCA (Belgian Castle Award). Visit the following link to get all information, photos and videos: http://www.roue-libre.be/article.php3?id_article=117
A special QSL card will be issued and will be sent only via the bureau for all contacts.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R starting around November 19th and plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m) entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

DXCC NEWS (Placing DXCC Plaque Orders). Bill Moore, NC1L, ARRL DXCC Manager, states: "Just a reminder to those who achieve a level in DXCC and you wish to order a wall plaque that you do not have to wait to be listed in order to place your order. When submitting an application if you are sure you will achieve a level for which there is a plaque, you can place your order at the time of your application. (Years ago there was a requirement that you had to be listed before a plaque could be purchased, this is no longer the case). If you've already made a submission and felt you needed to wait for your achievement to be posted before placing your order, you can contact DXCC and we can add your order to your current submission. Send an E-mail to dxcc@arrl.org or call (860)594-0234 or fax to (860)594-0346. Plaque order turnaround can take anywhere from 6-8 weeks, so if you plan to order a plaque for yourself, or, as a gift for a friend or Elmer, please get your order in early. The order form, along with current pricing, is located on the DXCC Web site at:
http://www.arrl.org/awards/dxcc
73 es DX!"

F, FRANCE (LH and IOTA Activity). Claude, F5MCC, is expected to be active from some onshore lighthouses (for the PB award program) and possibly some islands (for the IOTA, DIFM, WLOTA and PB awards programs) in French Brittany, between now and August 25th. Activity will be on the HF bands from 80-10 meters, mainly on CW, and a little SSB.

GM, SCOTLAND. Gyln, GW0ANA, is planning a "Micro-light" IOTA DXpedition to some Scottish Islands. He will be using a Kenwood TS50S into an inverted V with battery power from a solar panel. Activity will be SSB. He hopes to activate St. Kilda (EU-059) weather permitting, and also various islands in the Outer Hebrides Island Group (EU-010). Look for him to sign GM0ANA/p from August 18-28th. Gyln states, "I will be cruising these waters with friends on holiday and 'Ham Radio is secondary' but be sure I will try my hardest to activate as many as I can." QSL via GW0ANA.

IOTA NEWS.....
AS-138. Vange, BD7KLO, will be active from Pingtan Island, August 23-26th. Callsign is not known. QSL via his home callsign, direct or by the bureau.

EU-016. Look for Marco, IZ3GNG, to be active as 9A/IZ3GNG from Brac Island (ACIA IC-657, CIA-04, IOCA CI-010, MIA MC-042), August 20-23rd. Activity will be on 40-6 meters SSB. QSL via his home callsign.

EU-017. Mauro, IK3SCB, plans to be active as IK3SCB/ID9 from Lipari Island (IIA ME-001, MIA MI-053), now through August 24th. QSL via the bureau.

EU-052. Gianni, IZ7FLP, will be active as SV8/IZ7FLP from Zakynthos Island between now and August 25th. QSL via his home callsign. Further information will be available at: http://www.aritaranto.it

EU-088. Bernd, DL8AAV, will be active as OZ/DL8AAV/p from Laeso Island (NK-003 for the Danish Islands Award), September 17-29th. QSL via his home callsign, direct or by the bureau.

EU-125. Ric, DL2VFR, will be active as OZ/DL2VFR from Romo Island, August 26th through September 1st. Activity will be mostly on CW with Big IR - Vertical (40-10m) using high power. On 40 and 30 meters, he will especially look for Japan/Far East and N. America stations between 1900-2200z. QSL via the bureau.

EU-176. Operators Jorgen/SM3CXS, Classe/SM3GSK, Staffan/SM3JGG, Sten/SM3NXS and Anders/SM3XGV will activate Grimskar Island between 1700z, August 24th and 1200z, August 26th. Activity will be on 80-10 meters CW/SSB. Callsigns to be used are SD3N and SG3U. QSL via the bureau or direct.

NA-062. Mark, KG8DP, will activate Grassey Key from the White Sands Inn (www.whitesandsinn.com), October 11-14th. Activity will be on 40-6 meters using a TS-2000, Tarheel M-100, and a 600 watt amp stationary. Mark states that he may travel down to Key West

mobile. If 6 meters is open, Mark will do some 6 meters mobile. QSL KG8DP (or his club callsign NA8KD) via KG8DP. Address is OK via QRZ.com. Mark would appreciate stateside QSLs with SASE and outside of U.S. direct only. The Bureau cards will follow later.

NA-083/
NA-139. Jeff, VA3QSL, will be camping and be active on Chincoteague Island (NA-083, USI VA002S, WW Loc. FM27HW, Accomack County, Virginia), between August 27-31st. He will also activate Assateague Island (NA-139, USI VA024S, WW Loc. FM27HW, Accomack County, Virginia). Activity will be limited and vacation style on the usual IOTA frequencies. Look for him to sign VA3QSL/W4. QSL via his home callsign, direct or by the bureau.

NA-110. Sixteen members of the Tennessee Valley DX Association (TVDXA) will activate Folly Island, SC, using the callsign N4R. The island is part of the South Carolina State Group (SC-015s). N4R plans on being active about 2300z on Saturday, September 22nd and will go QRT sometime Saturday morning September 29th. The group will use 100 watt transceivers and plan to be active on 80-10 meters HF (SSB, CW and Digital) and 6 meters SSB and CW. Operators include: N4HL-Alan, WA4RMC-Barbarra, AD4F-Charlie, WA4NFO-Greg, W4KRY-Kathy, AB4GG-Kenny, WA4IVO-Larry, K0MAI-Lynn, K2NAN-Nancy, WA4AA-Paul, KB3PGU-Peter, K4VCM-Tom, W4FOA-Tony, and KI4MPK-Virginia, Others involved with this activation include Janet, XYL of N4HL and Janis, friend of KI4MPK. Please QSL via K4KWK direct (SASE) or via the Bureau. Additional information will be added to their Web site during and following the activation at: http://www.tvdxa.com

NA-243. Johan, PA3EXX, will be active as OX/PA3EXX/p from Ratbone Island, in Greenland's Coastal Islands North East Group, between now and August 23rd. QSL direct or by the VERON Bureau.

OC-138. Nobi, JA1JCF, will be active as VK4JCF from Horn Island in Queensland, Australia, August 31st to September 2nd. Activity may be limited because he is there to sightsee, but look for him on 30/20/17 meters CW, if active. QSL via the JARL Bureau or direct. PLEASE NOTE: Cards should not be sent to the VK Bureau.

KP2, U.S. VIRGIN ISLANDS. Craig, AH8DX, will be active as KP2/AH8DX during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op entry. QSL via AH8DX.

NEW DX RESOURCE WEB PAGE. Paul, K4UJ, has created a new Web page that is "Wiki based and intended to be for community collaboration." On this page is a listing of each DXCC Entity, each entity has its own page that contains several informational areas. Paul states, "I am soliciting the amateur community for assistance in filling in the information. I have provided an example to show how I would like for each to look. Within each

entry you will be able to understand its history, the current DXCC status, challenges with obtaining permission to activate, the IOTA reference, a list of all previous DXpeditions, links to other sites that contain pertinent information. For those of you that have used www.wikipedia.com, it is the same software they use and will have the same look and feel. Please do not post copyrighted material unless you have written permission to reproduce it and can provide it. Please include links to the external sites as well. In order to contribute all you have to do is click on the entity and click 'Edit' at the top of the page. It would be really nice if you registered on the site so that your edits are attached to a login. This will allow for us to send you an update if the information you provide is disputed or is changed." Take a look at the Web page at: http://www.dxreference.com

NEW WAP WEB PAGE. Gianni, I1HYW, wants to inform OPDX readers that the WAP's (Worldwide Antarctic Program) Web site has moved to: http://www.waponline.it
"There are a lot of features on this Antarctic Web site which is fully dedicated to Hams and Chasers. The WAP Antarctic QSL Gallery contains nearly 1000 QSLs including a special album of historical cards dated from 1945 to 1960 (before the Antarctic Treaty). The WAP Awards and a Gallery of the most important Antarctic Awards worldwide is waiting your visits. You will find a free download of the WAP Directory, a 40 pages book with the list of Bases huts and Antarctic sites, a useful tool for those wishing to play DX with this part of the world. The 5th Antarctic Activity Week (AAW) will be celebrated next February 18-24th, 2008. OMs wishing to join with their special callsigns are requested to check the list of the first ones already booked. Pay a visit and enjoy it,..... 73 Gianni I1HYW"

OJ0B - MARKET REEF DXPEDITION STUCK IN STORM (Thursday, August 16, 2007):
"The planned departure is delayed because the OJ0B gang cannot be picked off the reef. Please follow the team's progress via the sm0w blog at: http://www.sm0w.com
Some 11.000 QSOs are handed out so far, and the operators will continue until it is safe to collect the group from the reef. The transfer RTTY team is also waiting in Aland Islands, OH0.
Everything is OK and the team remains in good spirits. A lot of U.S. contacts were made on 80M last night, and we continue checking the low bands. One FT1000 got burnt due to close proximity of the low-band antenns..... Martti, OH2BH for the OJ9B team."

YM1907FB QSL STATUS. Nilay, TA3YJ, reports that the YM1907FB QSL cards have been sent direct on August 14th. A special postal stamps was added to commemorate 100th anniversary of the Fenerbahce Sports Club's, as well as information about the club, was sent with all direct QSL cards. You can find a sample of the stamp at:
http://www.ptt.gov.tr/tr/pul/show/html/07-3.html
The YM1907FB Web page is: http://www.qsl.net/ta3j/ym1907fb

QSLS VIA LOTW: 3XY7C, BS7H, HZ1SK, NA8O/AH0, PJ2/G3TXF, RZ0AF, V5/DJ4SO, V73RY and VP9I

QSLS RECEIVED VIA MAIL: 3B7SP, 5H3EE, 5Z4/IK4ALM, 9A2AA/p, 9J2BO, BS7H, IU0IPY, N8S, NJ4DU, OA4/DL5YWM, OY/PA3BAG, PZ5RA, TR8CA, VP2MFF and VP8/LZ1UQ

R100, EUROPEAN RUSSIA (Special Event). Look for special event stations R100AK and R100IF to be active until the end of the year. These special callsigns are to recognize the 100th anniversary of Alexander Kamalagin's, UA4IF, birthday. Alexander was HAM radio veteran since 1929; a famous contester, DXer and radio expert. QSL Manager for both callsigns is RW4HB. Bureau QSL is OK. For direct QSLs, send to: Serge Golobokov, OP.O.Box 37, Samara 443099, Russia. There is an Alexander Kamalagin, UA4IF, Memory Award; see the Web at: http://www.samaraham.ru/main.php?d=awards/ua4if_memory_eng

SILENT KEY. OPDX was informed that Henry Elwell, N4UH (N4 "Uncle Henry"), 88, of Cleveland, NC, became a Silent Key (SK) on August 4th of an apparent hear attack. Enjoying ham radio since the age of 14, he was member of ARRL (Life Member), QCWA, Rowan A.R.S., and Carolina DX Assn. His daughter, Barbara Elwell, may be contacted via E-mail at: thecatsandme@verizon.net
ADDITIONAL NOTE: By agreement with the family, W4UFO Nobby Mills (QRZ.com for direct or via bureau OK) has Uncle Henry's, N4UH, logs and QSL cards for those who need a QSO confirmed.

SV5, DODECANESE. Dean, G0RIF, will be active as SV5/G0RIF on the Island of Rhodes (EU-001) for the CQ World Wide DX SSB Contest (October 27-28th) as Low-Power entry. Activity outside of the contest will be holiday style 20 and 17 meters. QSL via G0RIF.

T8, PALAU. Esa, OH7WV, will be active as T88WV during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. Look for casual activity +/- one to two days before and after the contest. QSL via OH7WV, direct or by the bureau.

TC25, TURKEY (Special Event). Look for special event station TC25SG to be on the air again between August 27-30th, to celebrate the 25th anniversary of the foundation of Turkish Coast Guard Command (Sahil Guvenlik). Look for Leonardo/TA1FR, Tevfik/TA1HZ and Bekir/TA2RX to be the operators and to be active from some part of the Marmara Straits Area Command's Coast Guard vessels. Activity will be on 40/20/17 meters SSB. Detailed info is available on QRZ.com. QSL direct via TA1HZ or via TA QSL Bureau.

TI9, COCOS ISLAND (NA-012). Andy, DH8WR/EA2CRX, informs OPDX that he is still looking for operators for a DXpedition to Cocos Island to take place in February 2008 for 6 days. Details are available at: http://www.ti9.eu.com

TM0-TM9, FRANCE (Special Event). Look for several stations to be active between September 7th and October 20th to celebrate the World Rugby Association Championship in France and the U.K. Four different levels and awards will be available. Details about the awards are available at: http://www.ref-union.org
Look for the following callsigns during the dates listed for activation:
TM0RWC - September 7-8th, 13-14th, 20-21st and October 6-7th, 12-14th and 18-20th.
TM1RWC - September 8-10th and 18-20th, September 27th-October 1st and October 18-20th.
TM2RWC - September 8-10th, 14-16th and September 24th-October 1st.
TM3RWC - September 7-10th and 17-29th.
TM4RWC - September 7-20th.
TM5RWC - September 7-9th, 11-12th, 21-22nd, September 30th-October 2nd and October 5-9th.
TM6RWC - September 11-17th, 21-24th and September 30th-October 2nd.
TM7RWC - September 8-11th and 20-29th.
TM8RWC - September 8-12th and September 25th-October 3rd.
TM9RWC - September 11-17th and 23-29th.

UU7, UKRAINE. Operators Jim/UU1AZ, Serge/UT9NA, Alex/UR7EU, Ken/UR5NX, Andy/UU4JMG and Andi/UU0JM will be active as UU7J during the CQ WW DX RTTY Contest (September 29-30th) as a Multi/? entry. QSL via UU0JM.

V5, NAMIBIA. Alfons, DJ8VC, will be here between August 23rd and September 8th. He plans to be active as V5/DJ8VC. Activity will be on 160-10 meters on CW/SSB. Alfons will be using Martin's, V51W, radio shack and has the choice between wires, a rhombic and several yagi antennas. Look for him to join other V5 operators on September 1-2nd and be active as V55V/p in the IARU Region 1 SSB Field Day Contest. Alfons also plans to take part in the WAE SSB Contest (September 8-9th) at the end of his operation. QSL cards for V5/DJ8VC and V55V/p (ONLY for this Field Day) will be confirmed by Alfons after his return home.

VY2, PEI, CANADA. George, K3GV, will be active between September 2-15th as K3GV/VY2 from Prince Edward Island (IOTA NA-029, CIA PE-001). Activity will be on 15 and 20 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

WHAT IS LEFT? The witty Susan, W7KFI, 73 year old grandmother and Skipper of the USSV Dharma, waiting to sail to Johnston Island, informs OPDX this past week (on Thursday): "Well, I guess this is it. Hawaii has a huge fire, and in the last few days, earthquake, hurricane, and now the 7.5 earthquake in Peru gives us a Tsumani...it is supposed to arrive at 2:14AM. Only thing left is a strike by meteor. Although the seas are really daunting out there, the hurricane is directly south of us, I am putting out to sea, the only way to survive an Tsumani...if at 9pm they are still predicting it, I will go to sea...hope I survive, ... Bye all".

YO DX CONTEST. Contest Manager Ovidiu, YO2DFA, wants to remind everyone that the Romanian Amateur Radio Federation (FRR) invites radio amateurs world-wide to participate in the annual YO DX HF Contest. The 24 hour contest is scheduled on Saturday, August 25th, 1200z - Sunday, August 26th, 1200z. Rules can be found on the following Web page at:
http://www.radioamator.ro/contest/us/yodxhf2007rules.html
Results of 2006 edition can be found at:
http://www.radioamator.ro/contest/us/yodxhf2006/dx-results.pdf
All the participants who will fulfill the necessary requirements during the contest (worked 10 members) will receive free a WORKED YO DX CLUB MEMBERS Award. The complete list of YO DX CLUB members can be found at:
http://www.radioamator.ro/yodxclub/membri.php

YW6, VENEZUELA. Members of the Grupo DX Caracas are organizing the first ever DXpedition/Trek to Triple Point, Mount Roraima, Venezuela, frontier landmark between Venezuela, Guyana and Brasil. Look for special event station YW6R to be active thr 3rd and 4th week of December, on HF and VHF. The Grupo DX Caracas DXpedition is open to all the radio amateurs of Venezuela and abroad, their families and friends, who wish to share a different adventure to the marvelous world of Venezuelan nature at the Gran Sabana. It will a non-forgetable experience. Complete details are available on the Web at: http://gdxc.org
Those interested, please write to: gdxcaracas@gmail.com
yv5lmw@gdxc.org
yv5eed@gdxc.org

Has anyone been able to get a QSL for this station...QSL manager is
JA8IXM.....I've sent two separate "donations" to the manager but have not
gotten any response...

Any help?

73

DXNL 1533 - Aug 22, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

IS0 - SARDINIA, EU-024
Flaviano,IS0/I2MOV, is staying in his house in Dolianova about 20km north of the island's capital Cagliari since Jun 27. Dolianova is the birthplace of his XYL and Flaviano will stay there until November. He is using an IC-706 MKII G, a vertical for 7/10/14/18/21/24/28 MHz and a homebrew dipole for 6m. Flaviano prefers CW operation and requests QSLs via bureau to his homecall. Due to bad condx he only logged some 500 QSOs with 95 countries yet.

TI9 - COCOS ISLAND, NA-012
The DXpedition scheduled for February 2008 is still seeking members to join the team, especially experienced CW operators. Until now only four HAMs confirmed their participation: TI7WGI, DH8WR, DL2AWG and EA1DR. Right now they still try to figure out whether they take part in the WPX RTTY Contest or the ARRL CW Contest (opinions can be mailed to DH8WR@dh8wr.de). Since they can stay there for only ten days (including the way back and forth) only one serious contest participation can be planned during this time.
Further information can be obtained from: http://www.ti9.eu.com

3D2 - FIJI
3D2MT is the callsign of Tomas,LY1F, which he plans to activate between Aug 28 and Sep 4. Tomas promises to show up mainly in CW on 80-10m with emphasis put on 80/40/30m and a participation in the All Asian Contest. Since Tomas is working in Australia at the moment all direct QSLs should be sent to: VK2CCC, Dr. Tomas Magyla, 7 Churchill Avenue, Wahroonga NSW-2076, Australia. If you send your QSLs via the LY bureau or his address in Lithuania a longer processing time must be included.

7O - YEMEN
After conducting a business trip to the Yemen Chris Lorek,G4HCL, is back in England now. Like announced in DXNL 1532 he became active as

7O/G4HCL working in SSB on 20m. His license was issued by Walid Hamed, the "communications manager" of Sana'a International Airport, and not by the official telecommunications authority of the country. This license granted permission to operate the airport's HF station on the amateur radio bands. Chris already contacted the DXCC manager Bill Moore,NC1L, concerning the DXCC credit of this operation.

SWEDEN, SPECIAL EVENT STATION
The 2007 "Scandinavian Young Ladies Radio Amateurs" (SYLRA) meeting takes place in Oestersund, in the north of Sweden, from Aug 23-26,2007. The special event station 8S3SYL will be operated during the hamfest. The QSL manager SM3CVM prefers QSLs via the bureau.
The ladies will also visit the station SI9AM in Morokulia on Aug 24, these QSLs should be sent via SM3CVM. More information can be found at: http://www.sylra.se/_sgg/m1_1.htm

SPAIN, SPECIAL EVENT STATION
Members of the "El Grupo RASE DX" are celebrating the 100th anniversary of the Spanish major league soccer team "Real Betis Balompie" (also known as Betis Sevilla) with an activity from Sep 3-16. The DX club members will use the prefixes AM, AN and AO and activate the special event station EG7CRB in CW/SSB/digital on HF/VHF. A special award is issued as well, more information about award and the radio activities can be downloaded from: http://www.rasedx.com

TI8II QRT DUE TO LIGHTNING
Carlos,TI8II, is momentarily QRT because his equipment has been damaged by a lightning including an ICOM 756pro 2, his computer, printer, scanner, rotor, antenna tuner and an Ameritron amplifier (3 KW).
He has backed-up his log recently and lost only his last 15 QSOs.
Xavier,EA3BHK, offered his help to Carlos. If you have any donations you can make please send an e-mail to: ti8ii_cont@ea3bhk.com

WORLD RUGBY ASSOCIATION CHAMPIONSHIP AWARD
The Rugby World Championships will be carried out in Great Britain and France this year. Many special event stations will be put on the air and a special award can be obtained during that event. TM0RWC, TM1RWC, TM2RWC, TM3RWC, TM4RWC, TM5RWC, TM6RWC, TM7RWC, TM8RWC and TM9RWC will be QRV during several days in September and/or October. The awards manager is Jean-Claude, F5IL. The award rules and an operating schedule can be found at: http://arala.44.free.fr/cmr.php

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

K4UJ is building a DX reference WIKI with information about all DXCC entities at: http://dxreference.com
---
"The Arctic Challenge" is called the new awards program of the "French Polar Team". For the rules check out: http://f6kdf.ath.cx/f5nod

UPCOMING CONTESTS

Aug 25/26: SCC RTTY Championship
Aug 25/26: YO DX HF Contest
The rules for the 2007 YO DX HF Contest can be downloaded from:
http://www.radioamator.ro/contest/us/yodxhf2007rules.html
The 2006 results can be found on this website as well at:
http://www.radioamator.ro/contest/us/yodxhf2006/dx-results.pdf
Specialty: A special award free of charge will be issued to everybody
who works ten members of the "YO DX Club" during the contest. A member
list is online at: http://www.radioamator.ro/yodxclub/membri.php

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
AS-138, BY5, Fujian Prov. Group: Vanga,BD7KLO/BY5, will be active from
Pingtan Island (aka Haitan) from Aug 23-26. QSL via BD7KLO.

EU-016, 9A, Dalmatia South Group: Giuseppe,9A/IK5WWA, plans to become QRV
from Solta (CI-126) from Aug 25 until Sep 1. He also intends to put
other islands on the air during this time. QSLs via IK5WWA.

EU-017, ID9, Eolie (Lipari): Fabio,ID9/IK8HJC, plans to hit the airwaves
from Vulcano Island (ME-018) between Aug 25 and Sep 1. QSL via IK8HJC.

EU-078, EA3, Gerona Province Group: Ten Spanish OPs will activate the island
Meda Grande (E-001) signing EG3MED on Aug 25/26. QSLs via EA3GM.

EU-125, OZ, Jylland West Group: Ric,OZ/DL2VFR, is going to work mostly in CW
from Roemoe Island between Aug 26 and Sep 1. QSL via DL2VFR.

EU-127, DL, Schleswig-Holstein S.W. Group: Marcel,DJ5MS/p, will be QRV from
Helgoland-Duene (SSB only, 100 watts) from Aug 27-29. QSL via DJ5MS.

EU-156, F, Basse-Normandie Reg. Group: The Granville ARC plans to activate
the rock Tombelaine Island as F5KAQ/p from Aug 24-26. QSL via F5RJM.

EU-172, OZ, Jylland East & Fyn Group: Stefan,OZ/DF8HS, announced to be QRV
in SSB/RTTY/PSK31 on all bands from Aug 26 until Sep 8. QSL via DF8HS.

EU-176, SM3, Gavleborg County Group: Some Swedish OPs are going to activate
Grimskaer Island in CW/SSB on 80-10m signing SD3N and SG3U from
Aug 24-26. QSL via bureau or direct.

SA-051, YV,Las Aves de Sotavento: The island is situated within a restricted
military area and the organizers hope to get the help of the Venezolan
navy to activate YW5AS with several OPs in SSB/CW/digital modes from
Aug 27-31 or even a little longer.

Lighthouse activities (WLOTA/ARLHS)

(L) = Logbook of the World (LotW)

QSL via PY5EG, PY2OMS, ZW5B and PS2T: Mac,W3HC, was the QSL manager for
Oms,PY5EG, and all his special callsigns for the last ten years.
The NEW QSL manager is now Irv,K3IRV. His direct address is:
K3IRV, Irv McWherter, 11910 Coronada Pl, Kensington, MD 20895-2323, USA

QSL via TM7A: Laurent knew in advance that he will receive many QSL cards
for TM7A, a call which was reactivated during the last REF contest.
This call has been assigned to Laurent,F8BBL, already in 2003 and he
writes that French special callsigns may be re-issued several times.
Please do NOT send QSLs for the 2007 TM7A operation to him! The correct
QSL route for TM7A (2007) is via bureau to F5RPB or direct to F5PSC.

QSLs arrived via bureau: A45WD (via YO9HP), A52CDX (via F9DK),CQ0T (CT1ILT),
CS6T (CT1AES), CS9Z (CT3FJ), CT7T (CT1ILT),
DP1ANF (RK1PWA), EA6/DF1MM,EM15UARL (UT2UB),EO15EK,

HI !

Hereby I announce a new expedition:

From August 27 to 31 our Club (Grupo DX Caracas) will be QRV from "AVES DE SOTAVENTO".

Callsign: YW5AS
IOTA: SA-051
QSL: via DM4TI

Modes: CW and SSB on all HF-Bands if the bad conditions allow.

Aves de Sotavento is located about 45 miles east of Bonaire (Caribbean Sea).

Here a link to see our QTH by Google Earth:

Pelican Island in eagle Mountain Lake near the City of azle, texas,
will be QRV as station W5P for qualification and activation, 1400 -
2400 UTC Aug 25, 2007.

Especially look for SSB on or around 14.260, 7.260 and also PSK31
around 14.071

Website for details: http://www.wc5c.org/WC5CClub/Island/tabid/404/Default.aspx

I really wish that our American friends would reserve 1x1 calls for separate
DXCC-entities and not use them for any kind of "special" operation.

SB DX @ WW < KB8NW $OPDX.823
Ohio/Penn DX Bulletin No. 823

The Ohio/Penn DX PacketCluster
DX Bulletin No. 823
BID: $OPDX.823
August 27, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K2PF, AA3B, KA3UNQ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, 9A6AA, DK8JB, DL5ME, DL7MAE & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, HA0HW, I1HYW, I1JQJ/IK1ADH & 425 DX News, OZ1HPS, RSGB IOTA Web Site and VA3RJ & ICPO for the following DX information.

EDITOR'S SPECIAL NOTE (by KB8NW): There will "NOT" be an OPDX bulletin for September 3rd. I am taking my wife (OPDX's Chief Proof-Reader) for her birthday on Thursday to visit my daughter (Katie) and son-in-law in Murfreesboro, TN, and for the holiday weekend. Besides, I can really use the break! However, PLEASE continue to send your DX info to me. If something major happens, I will announce it.

DXCC COUNTRY/ENTITY REPORT:
According to the AR-Cluster Network for the week of Sunday, 19th/August, through Sunday, 26th/August there were 205 countries active. Countries available: 3A, 3B8, 3W, 4J, 4L, 4O, 4S, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, AP, BV, BY, C3, C5, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, D6, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FO, FP, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S7, SM, SP, SU, SV, SV5, SV9, T32, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Operators Donovan/ZS2DL, Rhy/ZS6DXB and Daniel/ZS6JR will be active as 3DA0WW during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via ZS6DXB. Look for more info on the Web site at: http://www.zs6dxb.bravehost.com

3D2, FIJI (Just A Reminder). Look for Tomas, VK2CCC (LY1F), to be active as 3D2MT between August 28th and September 4th. Activity will be on 80-17 meters, mainly CW and an entry in the All Asia DX Contest. QSL via the LoTW or via LY1F. Visit his Web page at: http://www.qrz.lt/ly1df

4U1U, UNITED NATIONS HQ. Yes, there was a small operation this past weekend by Paul/WQ2N and his father Gary/W2VQ between (about) 1645-1900z. Activity seemed to be on 20/12/6 meters. QSL via HB9BOU.

5Z, KENYA. Operator Chris, DL2MDU, will be active as 5Z4/DL2MDU between September 10-24th. Activity will be holiday style mainly on CW. Bands of operations were not provided. QSL via the bureau to his home callsign.

A3, TONGA (IOTA Op). Ron, ZL1AMO, plans to activate Lifuka (OC-169) between August 27th and September 16th. Activity will be holiday style, and he hopes to renew his old callsign A35EA.

AT60, INDIA (Special Event). Members of the National Institute of Amateur Radio (NIAR) in Hyderabad will activate the special event station AT60MY to celebrate the 60th anniversary of Indian's independence. Activity will last until November 17th. QSL via VU2NRO.

C5, THE GAMBIA (Update). Members of the "Mosquitos Contest Club" (known as OM0C Contest Crew) continue to prepare for their trip to The Gambia, that will take place between October 17-30th. The OM0C contest team will use the callsign C52C and C50C. Operators mentioned are: Rich/OM2TW, Bob/OM1KW, Joe/OM5AW, Roman/OM2RA, Norbert/OM5NM, Dano/OM1NW and Jan/OM2XW. Activity will be on all HF bands (160-10m) and 6m with an emphasis on the lower bands, especially 160m. During their DXpedition, the team will try to activate Bijol Island (AF-060). Currently, they still don't have permission for landing or the licence for the island. (KYFC and stay tuned for any news.) QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P.O. Box 6, Bratislava 28, 82008, Slovakia. The DXpedition will QSL all correct SWL reports. For updates, visit: http://www.om0c.com/gambia/index.html

EA8, CANARY ISLANDS. Heinz-Peter, DH1PS, will be active as EA8/DH1PS/p from Fuerteventura Island and its Lighthouse (WLOTA 0883) between August 25th and September 8th. Bands and modes of activity were not provided.

IOTA NEWS.....
EU-016. Alen, 9A4WW, plans to activate the Croatian Island/Lighthouse of Lastovo (CI-051, MC-196, LH-0815) between August 27th and September 3rd. Activity will be on 160, 80 and 40 meters SSB.

EU-016. Mladen, 9A2NA, will activate Korcula Island (CI-041, MC-163, WLOTA L-1315) from September 1-10th. Activity will be on SSB and the HF bands. Also, he plans to activate two new IOCA islands: Cerin and Prznjak Mali. He will use a FT-897 and

vertical/dipole antennas.

EU-017. Fabio, IK8HJC, will be active as ID9/IK8HJC from Vulcano Island (IIA ME-018, MIA MI-122, WLOTA LH-1001) between now and September 1st. QSL via his home callsign, direct or by the bureau.

EU-037. Operators Mario/DL5ME and Guenter/DG3HWO will be active as SD7ME from Oland Island, September 6-11th. Activity will be on the 40/30/20/17 meters on CW and SSB. They plan to use a Butternut and Spiderbeam. QSL via SD7ME (QRZ.com address).

EU-074. Bernardo, HB9ASZ, will be active as F/HB9ASZ/P from the Island of Brehat in Brittany, France, between September 1-22nd. Activity will be CW only with a very modest station (100w and a multiband-dipole). His operation will be mostly in the evenings since it is a family holiday trip and he reports that he favors 30m.

EU-110. Operators Ruda/OK1HWS, Honza/OK1JK, Jiri/OK1JST and Vlasta/OK1UXH will be active as 9A/homecall from Porer Island (ACIA IC-46, CIA-35, IOCA CI-090, MIA MC-313, WLOTA LH-0240), September 9-14th. Activity will be on 80/40/30/20/17/15/10 meters using CW, SSB, RTTY and PSK. QSL all calls via OK1JST.

EU-136. Francois, ON4LO, will be active as 9A/ON4LO from Losinj Island (ACIA IC-116, CIA-25, IOCA CI-058, MIA MC-204, WLOTA LH-4295), September 8-28th. Activity will mainly be on 10/15/20m SSB, VHF and 6m. QSL via his home callsign, direct or by the bureau.

EU-170. Lada, OK1LO, will be active as 9A5LO/p from Pasman Island (CIA-34, CI-085 and MIA MC-291), now through September 3rd. Activity will be on 80-10 meters including the WARC bands, and on CW, SSB, RTTY and PSK31. He will also activate the following Croatian islands: Osljak (CI-081), Ugljan (CI- 134) and Galovac (CI-604). QSL via his home callsign, direct or by the bureau.

EU-170. Niko, DD1MAT, will be active as 9A/DD1MAT from Dugi Otok Island (ACIA CI-367, CIA-10, IOCA CI-018, MIA MC-074, WLOTA LH-2375), September 1-15th. Look for activity around the usual IOTA and island frequencies. QSL via his home callsign, direct or by the bureau.

OC-022. Rich, PA0RRS, will be active as YB9/PA0RRS from Bali Island (LH-2589) from August 26th to September 24th. Most activity will be on 40-10 meters, but Rich will also give 80 and 6 meters a try. QSL via his home callsign. Rich reports that on April 4th he started processing and mailing out the cards from his recent activity as 9M2MRS.

J2, DJIBOUTI. Darko, T95A, is on assignment in Djibouti and expects to be there for at least a year. He plans on setting up a station in the near

future and will be operating as time permits. Darko has been assigned the callsign J28OO, and K2PF will handle his QSL cards.

J3, GRENADA. Look for Gerd, DL7VOG, to be active as J3/DL7VOG from the Island of Grenada (NA-024), August 27-31st. He will then move to Carriacou Island (NA-147), another island in the Grenada group and be active from there until September 16th. Activity will be on 160-6 meters, mostly CW and RTTY, with a little SSB. QSL via his home callsign, direct or the bureau using E-mail requests to: qsl@dl7vog.de

JD1/M, MINAMI TORISHIMA (OC-073). Operator Masafumi, JA6GXK, will be active from Marcus Island as JD1BMM between August 27th and September 18th. He seems to like PSK31 on 20 meters but plans to be active on 80-10 meters on CW, SSB, PSK, RTTY and SSTV.

JW, SVALBARD (EU-026). Operators Karl/LA8DW and Lars/OZ1HPS will be active as JW8DW and JW/OZ1HPS, respectively, between October 1-7th. Activity will be on CW and SSB (bands not provided). QSL via their home callsigns or by the bureau.

LIGHTHOUSE AND USI ACTIVATION: Look for special event station W3B to operate from the Blackistone Lighthouse (ARLHS USA-060(H)) on St. Clements Island (USI MD-028R) from 1400-2000z on September 15th. Activity will be on 40/20/17 meters CW/SSB and possibly PSK-31. QSL with S.A.S.E. to KA3UNQ (See and follow QSL instructions on QRZ.com.) You will receive a photo QSL with a certificate on request.

MM, SCOTLAND (Lighthouse/WAB Activity). Colin/MM0NDX and his XYL will be on holiday in the Highlands of Scotland between August 25th and September 1st. Colin's location will be WAB locator NN15. During his holiday, Colin intends to activate at least one lighthouse, definitely Corran Point Lighthouse (SCO-051) and possibly Ardnamurchan Lighthouse (SCO-005). He is also thinking about airing the rare locators of Rannoch Moor/Rannoch Moor(2) - WAB NN25 which is only a few miles from his holiday location. Look for him around 14257 kHz (+/- kHz).

QSL TU2/F5LDY via F1CGN, direct or by the Bureau. Operator Jean Luc, F5LDY, went QRT from the Ivory Coast on August 25th, after more than 20,000 QSOs. Online log is available at: http://f5kee.free.fr/

QSLS VIA LOTW: BS7H, EI/SP4Z, FW0MO, FW0YL, MD0CCE, TJ3FR, VP2V/DL4WK, VP2V/DL7DF, VU2NKS and VY2MT

QSLS RECEIVED VIA MAIL: 5W0NU, A25KDJ, AP2TN, BS7H, GS0GRC/P, GW8K, HL5FUA, HS0AC, HZ1AN, N2US/P, N8S, OT7C, P29ZAD, PJ2/W9VA, SU8DLH, V44KAI, XT2C, YB1A and ZL8R

SV/J4, GREECE. Geza, HA4XG, will once again return here for a family holiday. His first stop will be in Corfu (Kerkyra) Island (IOTA: EU-052, MIA: MG-055, JM99WR) between August 31st and September 6th. He will operate on the HF bands, and 6 and 2 meters as J48XG and SV8/HA4XG. Look for him to enter the IARU VHF Contest (September 1-2nd). Activity will be on Meteor Scatter transmitting (random) on 144.363 MHz. Geza will than move to Amaliapoli (KM19KE) in Thessalia, near Volos, September 7-14th. His callsigns will be J44XG and SV4/HA4XG, and he will be active on the HF bands, and 6 and 2 meters. He will again be active on 2 meters using Meteor Scatter. Look for him during his morning and evening hours on CW. His rig is an IC-746 into DunaX verticals, preamp on 2 meters, and 10 element DK7ZB Yagi. QSL via the Hungarian QSL Bureau or direct to his QRZ.com address.

V2, ANTIGUA. Bud, AA3B, will be active as V26K between November 21-26th. Activity will include the CQ World-Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. This will be an all CW operation on the contest HF bands only. Please QSL via AA3B.

V8, BRUNEI DARUSSALAM. Operators Ronald/PA3EWP, Flo/F5CWU and Tom/GM4FDM are planning a DXpedition to here between November 4-18th. Callsigns are as follows: Operator V8 Callsign QSL Route
-------- ----------- ---------
PA3EWP V8FWP QSL via PA7FM
F5CWU V8FWU QSL via F5CWU
GM4FDM V8FDM QSL via GM4FDM
Activity will be on all bands from 160-10 meters, conditions permitting. Modes of operations will be on CW, SSB and RTTY. Special attention will be given to the lower bands (160-30m). Also, special attention will be given to Western Europe and the USA. They plan to use at least one beam antenna along with verticals and dipoles. All operators have plenty of experience

during DXpedition operation. Depending on InterNet availability, they shall try to maintain online logs at a Web site yet to be established. The Web master will be Dennis, PA7FM, - http://www.pa7fm.nl/

VK9W, WILLIS ISLAND. Operators Tomi/HA7RY and George/AA7JV are expected to leave Cairns on September 22nd on the Motor Vessell Varzin (with George skippering), and hope to commence an operation on Willis on September 25th. Their callsign will VK9WWI. They plan to stay (depart) on October 5th. Please note that these dates are strongly WX dependent. With the Varzin only being a 60 foot motor vessel, operators may delay their departure and wait for favorable weather. Their intent is to set up on the North Cay, but may land on Middle Cay instead due to some recent advice they received. They plan to play it by ear because navigating between coral heads is a scary thing, so the ability to get close to the cay and a good anchorage will decide where they end up. Tomi, HA7RY, will be working the high bands during the day (while George is diving). Then George will work 160 and 80 meters at night. They plan on using 500 watts into two vertical antenna systems. They have chosen the Spiderbeam Telescoping 60 foot mast for the 60 foot inverted L on 160 and 80 meters, as well as the 40 foot Spiderbeam Telescopic mast for 40/30/20 meters. George advises that they have not selected operating frequencies but are open for ideas. STAY TUNED.

VP5, TURKS AND CAICOS ISLANDS. Operators Frank/WA2VYA, Tony/W2WAS, Ken/K2WB and John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October 27-28th) as a Multi/Multi/Dxpedition entry. QSL via N2VW or LoTW. Their activity will be from Providenciales (NA-003), October 23-30th. Look for CW and operations on the WARC bands before and after the contest. Operators will sign using VP5/homecall. QSL to their home callsigns. No eQSLS. SWL QSLs are OK.

VP8, FALKLAND ISLANDS. Chris, GM0TQJ, will be active from East Falkland (SA-002) as VP8CXV during his spare time between September 8th and January 15th (2008). Activity will be mainly SSB but with some RTTY and PSK31. QSL via his home callsign.

350. [DXNL] DXNL 1534 (Aug29, 2007)

Newsgroup: rec.radio.amateur.dx
Date: 2007-09-01 15:23:53 UTC
From: Michael Oerter <dj5av@onlinehome.de>
Message-ID: <001c01c7e994$99cb0800$15b2a8c0@TOPEDO>
Source record: 2371
Cross-posted to: rec.radio.amateur.moderated,rec.radio.amateur.dx,rec.radio.info

DXNL 1534 - Aug 29, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Mike, DJ5AV
(e-mail: dj5av@darc.de)

A3 - Tonga, OC-169
Ron, ZL1AMO, will be on vacation August 27th through September
16th on Lifuka (OC-169). He renewed his licence as A35EA for this
activation.

EA8 - Canary Islands, AF-004
Heinz-Peter, EA8/DH1PS, is visiting Fuerteventura (WLOTA 0883) August
25th through September 8th for vacations mainly and will use his
IC-706 MKIIG and a wire vertical (1/2 lambda for 20 m resp. 5/8 lambda
on 17 m) on SSB. He might also activate a lighthouse e. g. CAI-040,
Punta de Jandia. QSL via bureau to his home call DH1PS.

HB0 - Liechtenstein
Giovanni, HB0/IZ2DPX, and Flavio, HB0/IW2NEF, will be in Malbun 1st
through 3rd September on 2.600 m ASL using shortwave, 2 m and 70 cm.
They will try to get a HB0-call. QSLs via direct or also via bureau
via home call.

J2 - Djibouti
Darko, T95A, is on a work assingment in Djibouti for one year at least.
he will set up his station soon and be active as J28OO. QSL via K2PF,
also sure via bureau.

J3 - Grenada, NA-024, NA-147
Gerd, J3/DL7VOG, will be in Grenada/NA-024 August 27th through 31st.
Then he will change to Carriacou (NA-147) in The Grenadines through
September 16th. Gerd prefers CW and RTTY on 6 to 160 m but will switch
to SSB on request. QSLs via homecall, bureau preferred, and also by
e-mail-request to qsl@dl7vog.de for a bureau card.

JD1 - Minami Torishima, OC-073
August 27th through September 18th Masafumi, JA6GXK, will be running
JD1BMM from OC-073 again on 10 through 80 m with CW, SSB, PSK, RTTY

and SSTV.

P4 - Aruba, SA-036
Bob, W3BTX (P49T), and Roy, W3TEF (P4/W3TEF), will be active on
160 through 6 m, WARC incl, Sep 1st through 15th as P41USA for
the anniversary of the events in New York on 11th September 2001.
QSLs direct or via bureau to W3TEF.

SV9 - Crete, EU-015
Dick, SV9/G3URA, will be on the air August 27th through September 4th
mostly on CW, but also in the Russian RTTY-Contest as J49XF.

VP5 - Turks & Caicos, NA-002
"J.C." VP5/W1AI will be on Providenciales (NA-002) with CW and SSB on
all bands 160 through 6 m September 1st through 8th. QSL via homecall.

VU - India
Members of the "National Institute of Amateur Radio" (NIAR) in
Hyderabad are using the special call AT60MY through November 17th
for the 60th anniversary of India's independence. QSL via VU2NRO.

YB - Indonesia, OC-022
Rich, YB9/PA0RRS, is on Bali (OC-022, LH 2589) August 26th through
September 24th on 80 through 10 m. QSL via homecall, also via bureau.

ZD9 - Tristan da Cunha & Gough, AF-030
Brian, ZD9BCB, is leaving the weatherstation on Gough Septmber 14,
some weeks later than planned. You find Brian this Sunday at 1730 UTC
on 14.315 MHz. QSL via SQ8AQD, direct only.

9X - Ruanda
Correct QSL route for 9X5SP is via DL8YA, NOT DL8YR (DXNL 1532).
Operator Peter A. Stabusch manages the Deutschen Welle in Ruanda.
Since he started with his work for DW Kigali one year ago he tried
for a restart of ham radio with the administration in Ruanda. The
necessary laws existed already since some time but they lacked any
means of official monitoring. During an official meeting of DW with
the local authorities monitoring became a task of the HAMs in Ruanda
and Peter A. Stabusch was asked to cooperate and to be president of
"Rwanda Amateur Radio Union" by the "RURA" Administratiom.

Pacific: As announced in DXNL #1531 Toshi, JA8BMK, will start for a Pacific
tour in September. He will leave Japan for Fiji and continue to Tarawa,
West-Kiribati (T30). In mid October he will go from Tarawa for Central-
Kiribati as T31XX for at least 1 week and also the CQWW SSB-Contest.
Toshi will use 160 through 6 m on CW, SSB and RTTY. Containers with
his equipment were already shipped to Tarawa in late July. There may
be activity from Rarawa (T33ZZ) befor or after operation from Canton.

Malaysia, special call
Aziz, 9M2AU, will use 9M50MB August 31st for 50 years of independence
of Malaysia.

Austria, special call
August 31st through September 9th OE16B will be active for the Pope's visit. You get a special QSL if you contribute for El Molo Mission and School in Kenia with your QSL at least 1 IRC or 1 US $ to: ORF/OE16B, A-1136 Wien, Austria. There will also be QSLing via OEVSV-Bureau.

Russia, special calls
Alexander Kamalagin, UA4IF, was born 100 years ago. He became a ham in 1929, was a radio pioneer for Russia, well known Contester and DXer. For the anniversary special stations R100AK and R100IF are active until the end of this year. QSL via RW4HB, bureau ok. There is also an "Alexander Kamalagin Memory Award" to be found in the Web: http://www.samaraham.ru/main.php?d=awards/ua4if_memory_eng .

Spain, special calls
During the European Basketball-Championship 2007, "EURO-Basket 2007", taking place in Spain in Sept members of "Radio Club Henares" (EA4RCH) will use the special calls AN0EB, AN4EB, AN5EB, AN6EB and AN7EB, Sept 1st through 16th - AN0EB only while members of the Royal Family are visiting a game. QSLs for all calls via EA4RCH, direct or via bureau. Get the "HAM EUROBASKET 2007 AWARD" for QSOs/SWL-reports about four different of their special stations. Read more on http://www.radioclubhenares.org .

Silent Key: Only two weeks ago we received informations for DXNL from Sigi Kleine, DL3AMA. Now we learned that he died unexpectedly on August 14th at the age of 66 years. RIP.
QSL managing for YW5AS (SA-051) was taken over by DM4TI.

Upcoming Contests
---
1. September: AGCW-DL Straight Key Party 40 m; www.agcw.de
1./2. September: JARL All-Asian DX-Contest, SSB;
1./2. September: IARU Region 1-Fieldday, SSB.

IOTA: collected by Fredy, DE0MST (e-mail: iota@dxhf.darc.de)

Island activities

EU-016, 9A, Dalmatia South Grp.: Mladen, 9A2NA, will be on the island of Korcula (CI-041) 01.-10.09. and intends to activate Cerin and Prznjak Mali (both IOCA-new).

EU-099, GJ, MJ, Les Minquiers Islands: A group of OPs of the Cambridge Wireless Society will activate Les Minquiers Islands 03.-07.09. as GH6UW/p. QSL via M0BLF (B/d).

EU-108, GM/MM, Treshnish Islands: Jim, MM0BQI/p will mainly use SSB (80-15m) 01.-03.09. from Lunga Island. QSL via HC (QRZ.com).

EU-110, 9A, Istra Group.: 9A/OK1JK, 9A/OK1UXH, and 9A/OK1JST, will be on Porer Island (CI-090) 24.08. through 02.09. QSL via OK1JST.

EU-170, 9A, Dalmatia North Grp.: OM Niko, 9A/DD1MAT, will activate Dugi Otok Island (CI-018) 01.-15.09, also in the WAE-Contest. QSL via HC.

EU-170, 9A, Dalmatia North Grp.: Lada, 9A5LO, (aka OK1LO) will stay on Pasman Island (CI-085) 03.09..

NA-029, VY2, Prince Edward Island: George, VY2/K3GV, will visit CIA PE-001 02. through 15.09., QSL via HC (B/d).

OC-138, VK4, QLD State (Torres Strait) Grp.: Nobi, JA1JCF, will be on Horn Island 31.08. - 02. 09. as VK4JCF. QSL via JARL (B/d).

Lighthouse activities (WLOTA/ARLHS):

9A/IK5WWA LH 2833 CRO-087 through 02.09.
ID9/IK8HJC LH 1001 through 01.09.

DXNL 1535 - Sep 5, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Mike, DJ5AV
(e-mail: dj5av@darc.de)

GD - Isle of Man, EU-116
Lars, DF1LON, intends to be active from the Isle of Man September 6th through 10 as MD0LON on 80 through 10 m, possibly 6 m also, using SSB, CW and RTTY. QSL via home call, also via bureau. For the WAE-Contest (Sep 8/9th) he will be GD6IA (QSL for this call via CBA) or MD0LON.

SP - Poland
During an exhibition in the town of Kielce special call 3Z0MSPO is active September 3rd through 6th. QSL via SP7PKI, direct or via bureau.

VP8 - Falkland-Ilands, SA-002
Chris, GM0TQJ, will be on East Falkland Insel using the call VP8CXV September 8th through Januar 15th, 2008. He prefers SSB but will do also some RTTY and PSK31. QSLs will be answered after his return home.

VQ9 - Chagos-Archipel, AF-006
Jim, ND9M, finished his activity as VQ9JC with the end of August. He will be back on Diego Garcia in December 2007 after his leave for another 4 months.

VU - India
August 31st through September 30th, 2007 there is again a temporary authorization to use 30m band for Indian hams. NIAR special call AT60MY will be active on 10.106 MHz in this time frame.

YB - Indonesia, OC-022
Hans, PA0HOP, will be YB9AGH on Bali in September and October using CW, PSK31 and RTTY. QSL via PA0HOP, direct or via bureau.

ZD7 - St. Helena, AF-022
Tom, KC0W, went to St Helena September 5th for quite a time and is hoping to have is aerials erected by September 15th to start his radio adventure as ZD7X. Tom will take part in all great contests using SSB,

CW, RTTY and PSK on all bands 160 through 6 m. Favorite bands will be 30 m, 80 and 160 m. W0MM was selected to be his QSL manager, he will confirm direct as well es via bureau.

3B7 - St. Brandon, AF-015
Nearly 6 months ago we spread information on the DXpedition to St. Brandon (Isle du Sud, AF-015) by "FSDXA" in DXNL #1511. Now here the details about 3B7C: G3USR, GM3POI, N6HC, K3NA, G4TSH, G3XTT, G3SVL, G3NHL, G3IZD, G3BJ, G0OPB, EI5DI, DL7AKC, DK7YY, 9M6DXX, SM5GMZ, MD0CCE, G3NUG, as well as N6OX will be active September 7th (0000 UTC) through September 24th with twelve stations simultaneously. There will be monobanders for 30 through 6 m and verticals for the lowbands. August 12th the container arrived on Mauritius with six big (5 kVA) Diesel generators.
They also looked for a special authorization for 6 m, usually not available on Mauritius. Three fixed frequencies are authorised for them: 50.090 (CW), 50.102 (CW), and 50.145 MHz (USB).
After uploading of the logs on their web side www.3b7c.com a software will show those 30 top DXers with the biggest amount of bandpoints (= QSOs in CW, RTTY, PSK, SSB and FM per band).
Feedback messages can be sent by e-mail to 3b7c@g3wgv.com and will be made available to the team on a daily basis.
QSL via Neville, G3NUG, direct or via bureau or by LoTW. There will be an online QSL request on their web page too.
SWLs will have BRS32525 for a seperate QSL manager. They will use split frequence for nearly all QSOs on these frequencies:
MHz CW SSB RTTY FM PSK
1.8 1.822 1.842 - - -
3.5 3.502 3.795 3.570 - 3.580
7 7.002 7.052 7.035 - 7.037
10.1 10.102 - 10.137 - 10.140
14 14.022 14.145 14.085 - 14.071
18 18.072 18.145 18.100 - 18.100
21 21.022 21.295 21.085 - 21.071
24.9 24.892 24.945 24.920 - 24.920
28 28.022 28.495 28.075 29.580 28.071
50 50.102 50.145 - - -
50 MHz beacon transmitting on 50.090 MHz
They will produce a video about this DXpedition, you may order the DVD on the 3B7C homepage.

5H - Tansania: Scott, AC3A, will work in Tansania September 7th through 17th for "ORBIS International" (a humanitary organisation, protecting people from blindness). In his evening hours Scott intends to be active as 5H3EYE. QSL via AC3A.

5Z - Kenia: Chris, 5Z4/DL2MDU, is on vacation in Kenia September 10th through 24th and intends to be mainly active on CW "holiday style" with 100 wtts from an FT-897 with wire antennas for 10 through 80 m, prefering 17 m, 30 m and 40/80m. Chris prefers QSLing via DARC-Bureau.

9H - Malta, EU-023
A team from the Netherlands will have the 20th visit to Malta
September 8th through October 1st and will present the call 9H20
(nine hotel two zero) on 10 through 80 m. Team members will also be
on the air with their individual 9H3 calls. QSL for 9H20 via
PB9ZR/9H3ZR: Ruben van der Zwet, Barentzstraat 1, 2161 TJ Lisse,
The Netherlands. They do not like IRCs but will confirm automatically
via bureau for all QSOs without direct request until December 2007.

Finland, special call
Finland got its indepence December 6th 90 years ago. Due to this event
Finish stations may use the prefix OF instead of OH Sep 1st through
December 31st, 2007.

France, special call
This year's CDDXC-Conventio will be held by "Clipperton DX Club"
September 22nd in Puyloubier, Southern France. Special station TM8CDX
(QSL via F5CQ) will demonstrate this event September 8th through 22nd.

USA, special call
Robert, W2IK, will use special call W2IK/WTC911 September 11th 13:00Z
through 0300 UTC September 12th on 40, 20 and 15 m on SSB in memory of
the people that lost their lives in the attack to the World Trade
Center. QSL to W2IK, P.O. Box 6731, San Antonio, TX 78209, USA. More
information by http://hometown.aol.com/realhamradio/ .

Are you suitable to hold a license from the FCC?
Just a question. I tend to think whoever answers that correctly will be
above my pay grade.....and WELL above yours!

very likely

>......and WELL above yours!
not likely that such a descision would be made by someone above my
equivlent pay grade

362. Why Many Hate Porn?

Newsgroup: rec.radio.amateur.dx
Date: 2007-09-06 10:17:32 UTC
From: prejudiceexterminator@yahoo.com
Message-ID: <1189073852.048118.193080@19g2000hsx.googlegroups.com>
Source record: 2383

Human natures are fine tuned for gene pool survival.

The way we evolve in the gene pool is that when we're not at war, we're in a race.

Peace and freedom means competition. Some people are uncompetitive. So they don't want to compete. Those people demand slavery.More...

Those who demand slavery are not necessarily poorer or richer, superior or inferior. Those are people that somehow do not like competition.

The farm owning farmers in southern US, for example, do not want to compete with the higher salary the industrial north has, so they demand slavery. This happens despite the fact that the landlords are already way richer than their slaves.

Uncompetitive businesses also do not want customers to be free to choose the best products. They demand enslavements of consumers by restricting consumers choice to choose better products.

As time goes by and consensual productive means to aquire wealth become available, those who oppose competition tends to be the one inferior.

When we're not at war, we're in a race. So in a sense, some part of life is a zero-sum game. The happiness of some superior competitors correlate with gene pool survival of such people. This correlate with the extinction of inferior people and this make inferior people unhappy....page...

For example, women prefer rich smart males and normal males prefer as many females as possible. Actually poor males prefer more money rather than more women, but that's later.

If rich smart males get more females, then rich smart alpha males will survive better in the gene pool. That means, the other males do not get any. Hence, the lesser males will not be happy. They will then come up with monogamy to ration females in equal share for everyone.

Those who are uncompetitive are not going to say honestly that they are disgruntled competitors. They're going to come up with some religious unscientific fairy tales to come up with pretext that freedom, such as free sex is wrong.

In short, whenever someone is happy, whenever something gives pleasure, happiness, and money, you can count that someone, somewhere, somehow, will come up with some fairy tales of who knows what that

somehow it's wrong, bad, and should be prohibited.

The preference to snuff of happiness earned by others are called envy. In a sense, those who want to be happy are meant to kill each other with those who are envious.

Unless those who run the fastest also hit the hardest, success is simply a bridge to a gas chamber. Deviation from free fair competition turns life into some form of gun fight.

Not everyone can be appeased in a gun fight. Envy is simply unappeasable. The way to keep pursuing our happiness and still be alive is either to kill, or threaten to kill, those who are envious of us that it's not to their best interests to kill or prosecute us....page...

That's why I strongly support death penalty. Without it, all succesful people will be slaughtered by bigots that don't mind going to jail for it.

It's also the same reason why many ugly women oppose porn. That's because those women are envy bigots.

Think of it this way. Pretty women can just show some skin and make millions of dollars. Ugly women has to sexually serve poor males and get knocked up for much less money.

If this keeps going, pretty women can pick the best males with the best genes and provide their sons with better education, opportunity, and more initial start up capital.

The pretty genes will survive better in the gene pool and the ugly will be outcompeted, like in Europe or Japan. All thanks to porn.

Obviously, pretty porn stars are way better of then ugly wife. Becoming a porn star or prostitute is then one of the best job ever in this world.

However, out of envy, ugly women will want to prevent that. What's their justification? By saying that all the good jobs are so bad that it can't possibly consensual, and hence has to be prohibited.

They said that porn should be prohibited to protect women. Which women? Not the consenting one of course. How in the earth people get protected from consensual offers anyway. It's there to protect disgruntled envy competitors.

Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K2FF, AC3A, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5YG, K8YSE, W9ILY, DX-IS News Site, Pete's-DX-Newsdesk, 9M2TO, DF6ZY, DK8JB, DL2VFR, DL7MAE & The DX News Letter, F4RPW, F5NQL & UFT, F6FQK, I1JQJ/IK1ADH & 425 DX News, IS0XDA, GM3YOR, LU6EF, OK1DOT, OH9MM, RSGB IOTA Web Site, SM5DQC and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 2nd-September, through Sunday, 9th-September there were 214 countries active. Countries available: 3A, 3B6, 3B8, 3B9, 3C, 3D2, 3DA, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T2, T32, T7, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9N, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON. The 3B7C team is now active from Isle du Sud, St. Brandon (AF-015). It seems the team arrived on the island on September 5th, apparently the boat trip wasn't very pleasant due to high seas, but activity did not start until around 2000z, September 7th. Here are the following suggested frequencies:

CW - 1822, 3502, 7002, 10102, 14022, 18072, 21022, 24892 and 28022
SSB - 1842, 3795, 7052, 14145, 18145, 21295, 24945 and 28495
RTTY - 3570, 7035, 10137, 14085, 18100, 21085, 24920 and 28075
PSK - 3580, 7037, 10140, 14071, 18100, 21071, 24920 and 28071
FM - 29580
6m - CW/50102, SSB/50145 and Beacon/50090
The 3B7C team plans to have 12 stations on the air. There will be a station on every band from 160-6 meters with second stations on 80 and 20 meters so they can operate on CW and SSB at the same time. This should be a fun and easy operation to work anywhere. Activity is expected to last until September 24th. The 3B7C Web page is available at: http://www.3b7c.com
Update-to-date news is at: http://www.3b7c.com/news.htm
Daily log updates are at: http://www.3b7c.com/logsearch/search.php
Pilot station for the operation is John, G3WGV, and his E-mail address is: 3b7c@g3wgv.com
QSL via G3NUG, direct (Neville Cheadle, Lower Withers Barns, Middleton on the Hill, Leominster, HR6 0HY, England) or by the Bureau (Bureau cards can be requested via the 3B7C Web page). The QSL Manager for SWLs is Bob Treacher, 93 Elibank Road, Eltham, London SE9 1QJ, ENGLAND.

3B8, MAURITIUS (AF-049). Ronnie, SM7DKF, will be active as 3B8/SM7DKF between November 8-24th. This will be a holiday style operation, with activity on the usual IOTA frequencies mostly SSB and perhaps also digital modes. QSL direct to his home callsign (see QRZ.com). For more details, visit: http://www.sm7dkf.se/index-info.htm

4O, MONTENEGRO. To celebrate the admission of the Republic of Montenegro to the Council of Europe, members of the radio club of the Council of Europe have organized an expedition in collaboration with Ranko/4O3A, to air the special event callsign 4O0CE between October 17-21st. QSL via F5LGF. Logs will be available at: http://ewwa.free.fr/

4U1I, ITU HQ. A group of WRC delegates will activate the callsign 4U1WRC during the CQ World-Wide DX SSB Contest (October 27-28th) as a Multi-Op/? entry from the I.T.U. Geneva station 4U1ITU. QSL via 4U1ITU.

5H, TANZANIA. Scott, AC3A, is in Dar es Salaam until September 17 as part of project ORBIS. The goal of ORBIS (http://www.orbis.org/) is to help eliminate preventable blindness in the world. Scott will be signing 5H3EYE and hopes to be active during the evenings. QSL via his home callsign.

6E/XF4, REVILLAGIGEDO. Carlos, XE1YK, the President of Mexico's FMRE, has announced the dates for a Revillagigedo expedition to celebrate the 75th anniversary of FMRE. The operation will be a full month and take between November 15th and December 15th. Paperwork for the permission will be initiated this week requesting the callsigns 6E4LM and XF4YK. The operators will focus on 160 and 6 meters, where they feel XF4 is most needed, but they will be on the other HF bands as well with a goal of 25,000 QSOs. They plan to use simple antennas and 100 watt radios. More details should be forthcoming.

6W, SENEGAL. Al, F5VHJ, will be active as 6W1RY during the CQ World-Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via F5VHJ.

8Q, MALDIVES. Chris, M0AJT, is now active as 8Q7CT from Dhonveli Island (AS-013) until September 14th. This will be a holiday style operation, so activity will be limited, mainly on CW with some SSB. He will use a FT900 with 100w into G-Whip vertical about 3 meters above sea level on a railing on his water bungalow. QSL via his home callsign.

A5, BHUTAN. Torben, OZ1TL, is expected to be active as A52TL during his stay in May of 2008. He will leave Copenhagen in mid-April to Nepal (Kathmandu) and go from there to Bhutan arriving on May 2nd, 2008. Torben will be attending some of the inauguration ceremonies of the new King of Bhutan. Activity will be mainly on CW (almost exclusively) on most bands including 160/80/40 meters. QSL via his home callsign. He also plans to use the LoTW.

AO8, CANARY ISLANDS. Edu, EA8AUW, will be active as AO8X during the CQ World-Wide RTTY DX Contest (September 29-30th) as a Single-Op/All-Band/ High-Power entry. Activity will be from the URE Las Palmas section radio club station EA8URL. QSL via EA8AUW.

ASIAN TOUR. Ed, N1UR, is expected to be active from Bhutan as A52UR between September 28th and October 2nd. Activity will be on all bands CW/SSB. QSL via K2RET. He is also planning to be active from the Hillview Gardens ARC station in East Malaysia as 9M6A. Specific dates were not provided, but he plans to be active in the CQ World-Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via N2OO. He also plans to be active from the Spratly Islands (9M0) between March 22-30th. A callsign has not yet been assigned, but activity will be on CW/SSB on 160-10 meters. QSL via K2RET.

C5, THE GAMBIA. Just a reminder that Andre, ON7YK, will once agin be active as C56YK from September 14-27th. Activity will be on 80-10 meters and also on 6 meter SSB. QSL via the info on QRZ.com.

C9, MOZAMBIQUE. Wayne, W5KDJ (TF2WJN, SV0WWW, 3DA0KDJ and A25KDJ), will be active from 50 km north of Maputo as C91KDJ between November 29th and December 10th. Activity will be mainly CW, possibly RTTY, and he is making 160/80 meters a priority. He plans to use a 72 ft. vertical with 50 or more radials under it. Wayne states it "worked great in Botswana in July". He likes operating split (about 15 kHz up) and listens on the outer edges most of the time. Visit his Web page at: http://www.tdxs.net/c91kdj.html

D4, CAPE VERDE. Operators Girts/YL2KL and Vilnis/YL2KF will be active as D4C during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. For latest information, check the Web page at: http://www.d4c.cc

DXCC NEWS.....
ARRL Outgoing QSL Service Changes (Bill Moore, NC1L): "Effective September 6th, 2007, the ARRL Outgoing QSL Service will no longer accept QSL cards for shipment to HH (Haiti) and 9L (Sierra Leone)."

The ARRL Incoming QSL Service and 1X1 Callsigns (Bill Moore, NC1L):
"When sending cards to confirm 1X1 callsigns, the ARRL QSL Service
requests you note somewhere on the card the person who 'requesitioned'
the callsign. This will expedite routing to the proper station and may
result in quicker processing of cards handled through the ARRL US
Incoming Bureaus. To locate the person responsible for a 1X1 callsign,
please visit this site: http://www.ncvec.org/1x1.php
Enter the 1X1 callsign. When the screen appears, select the 1X1 callsign
based on the event you worked. Click 'Details' on the right-side of the
page to determine the person responsible for the operation.
'See Requesitioned by'
Remember, callsigns may be issued more than once, so following the above
procedure will allow the QSL Service to direct it to the proper person.
Direct any questions to qsl@arrl.org"

EA8/ED8, CANARY ISLANDS. Operators DK3QZ, DL1EKC, DL1EMH, DL3HAH, DL3QQ,
DL5XX and PA0R will be active as ED8A during the CQ World-Wide DX CW
Contest (November 24-25th) as a Multi/? entry. Operators will be active
outside of the contest as EA8/homecall. No QSL routes were mentioned, so
listen to operator's instructions.

FH1, MAYOTTE (AF-027). Alain, F4RPW, informs OPDX that he is now a resident
of Mayotte, and has received the callsign FH1LE. He has just arrived on the
island about 3 weeks ago. Alain is gradually getting all his equipment
sorted and is planning to install his station soon (possibly this week).
He will use a vertical antenna to begin with (a 4BTV) and will be using
a FT-897 (100w). Alain plans to operate on SSB, maybe CW if he can find
the time to practice a little more. He also plans to operate digital modes
(PSK31, RTTY) with a Microham interface. Alain also brought with him a beam
antenna, a KT-34 upgraded with the latest kit, but he needs more things
arranged to get it erected (He states, "I'm not sure the garden is large
enough".).

HR2, HONDURAS. Gus, LU1DY, will be active as HR2/LT0E during the CQ
World-Wide DX RTTY Contest (September 29-30th) as a Single-Op/All-Band
entry. QSL via HQ2LAS.

IOTA NEWS.....
EU-110. Operators Ruda/OK1HWS, Honza/OK1JK, Jiri/OK1JST and Vlasta/
OK1UXH will be active ast 9A/homecall from Porer Island (ACIA
IC-46, CIA-35, IOCA CI-090, MIA MC-313, WLOTA LH-0240) between
now and September 14th. Activity will be on 80/40/30/20/17/15/10
meters, using CW, SSB, RTTY and PSK. QSL all callsigns via
OK1JST.

EU-137. A group of Swedish and German operators will be active from
Ven Island from October 6-13th. Activity will be on CW, SSB
and RTTY. The team plans on using high power for this operation.
At the moment, the team consists of:
Name/Homecall EU-137 Callsign QSL Route
------------- -------------- ---------
Fred/SM7DAY SM7DAY/7 QSL via homecall
Frank/DL2SWW SD7W QSL via DL2SWW

Tom/DL2RTK SE7TK QSL via DL2RTK
Ric/DL2VFR SD7V QSL via DL2VFR

QSL all via the Bureau (preferred) or if really necessary
via direct (they can only accept new IRC; be aware please
that 2 USDs barely cover the postage to outside EU).

EU-165. Members of the Associazione Radioamatoriale Sardinia QRP Club
(IQ0QP) will be active September 16th between 1000-1600z from
Quirra Island (IIA CA-009, MIA MIS-026), using the callsign
IM0/IQ0QP. QSL via direct to: P.O.Box 81, 09047 Selargius (CA),
Sardinia Island - Italy.

OC-164. Operators Wally/VK6YS and Bruce/KD6WW will be active as VK6YS/p
from Rottnest Island (WLOTA LH-2197), between 1100z, October
15th to 0300z, October 17th. This will be a short mid-week stay
with activity on 40/30/20 meters CW/SSB. QSL direct to VK4AAR:
Alan Roocroft, 376 Old Toowoomba Road, Placid Hills,
QLD 4343 Australia).

OC-193. Operators Wally/VK6YS and Bruce/KD6WW, with the assistance of
Nigel/VK6KHD and Karl/VK6FAAD, will be active from Cheyne Island
starting on Friday afternoon October 12th through to Monday
morning October 15th. The callsign was not provided. Activity
will be on 40-15 meters as bands permit. More details should
be forthcoming.

KP2, U.S. VIRGIN ISLANDS. Craig, AH8DX, will be active as KP2/AH8DX during
the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op entry.
QSL via AH8DX.

LU, ARGENTINA (Special Event). As part of GACW 30th anniversary, a team
of operators will go to operate from the City of Morse (Buenos Aires
Province), from October 12-15th. The callsigns to be used are: LU1DZ/E,
LU5FZ/D, LU6UO/D, LU7BTO/D, LW1EXU/D and LW2DX/D. They will have two
complete stations with high power and wire/vertical antennas. They will
be active on all band/modes from 160-10 meters, with emphasis on CW.
Morse is located in the NW region of Buenos Aires Province. The nearest
major cities is Junin, which is 26 KM from Morse.

NH0, MARIANA ISLANDS. Koji, JL3RDC, gave early notice that he will be
active as NH0DX during the CQ WW WPX SSB Contest (March 29-30th). His
operating class was not provided. QSL via JL3RDC.

OH0Z PIRATE ALERT. Juha, OH9MM, sent out the following press release:
"Since 27 June 2007 there has been a lot of pirate activity. Most of the
pirate activity has been on 10MHZ cw. Primetime for pirate has been so far
around 17Z.
Luckily the pirate has been very rude (operating quite long periods). It
has been relatively easy to trace. Most of the signals have been sent from
the same area. However, we need some more data to contact the telecommuni-
cation authorities. Only groups of voluntary people across Europe have

identified the antenna directions so far. Even at this point OH0Z &#65533;team would like to thank them for good co-operation! In the future: if the pirate keeps on going, please also inform the antenna direction in the spot. Just a reminder, our station is located in square locator JP90&#65533;
We have also built an automatic system to monitor the use of OH0Z call. Practically we are receiving OH0Z spots directly to our mobile phones. We can also turn this system off, please no kidding with cluster spots!
Untill further information OH0Z is now totally QRT on 10MHZ. All the future activations on 10MHZ can now be claimed as pirate activations.
OH0Z has been active on 10MHZ only two times this year:
26 &#65533; 27. May 2007 operated by OH3BHL
24 &#65533; 26. Jun 2007 operated by OH9MM
Before sending any qsl please check log search at our page www.oh0z.net. It contains all 10mhz contacts. We were on the island last weekend preparing new antennas for the upcoming contest season (1-2 September). Few qso&#65533;s were made on 80m, 20m and 17m (log seach will be updated soon). No activity on 10Mhz&#65533;
Normally we are active during contests. Some &#65533;warm up&#65533; qso&#65533;s before and after the tests. Holiday style operations may occur, but they are very rare! In normal situations we are not active during the week. We are also trying to publish our activities in advance in major bulletins as much as possible!
Please notice that we are also renting the OH0Z place with certain terms. There is no need to operate with our call sign in your home.
On behalf of RadioSporting Team (OH0Z).... Juha Valimaki, OH9MM"
ADDED NOTE: OH0Z will be on for both modes of the SAC Scandinavian Contest, September 15-16th (CW) and September 22-23rd (SSB), 80-10M. OH1JT will be the operator, SOAB in CW, and OH1RX + OH9MM (maybe also others) M/S in SSB. QSL via W0MM. Special prefix may also be used.

P29, PAPUA NEW GUINEA (New IOTAs). Operators Luis/CT1AGF, Derek/G3KHZ, Steve/G4EDG and Hans/SM6CVX together with two non-ham friends will make the journey by chartered boat from Buka Island on September 22nd to Nukumanu Island (OC-284p). They should be active as P29VCX from Nukumanu for about 6 days beginning September 23rd. The plan is then to sail to Takuu Island (OC-283p) and operate using the callsign P29NI from there for 6 days starting about September 30th. Finally, if time permits, they will sail to Kilinalau Island (OC-256, aka Tulun Islands) and operate from there for a few days, possibly as P29VLR, between October 6-9th before returning to Buka. The dates may vary a little depending on the local weather. They expect to operate on all bands, including 160 and 80 meters, with possibly 3-4 stations, two amplifiers, verticals and a multiband dipole. Their plan is to run 4 stations simultaneously from 2 sites on each island. This should allow simultaneous operation from two stations on the same band using different modes. Two stations will use 500w linears and two stations will use 100w. QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via SM6CVX. The group is looking for support from the ham community. More details and updates are available on their Web page at: http://www.rep.pt/P29-PapuaNewGuinea/

P40, ARUBA. Ken, K6TA, will be active from here as P40TA from November 27th to December 18th. He plans to be active in the ARRL 160 Meter Contest (November 30th-December 2nd) as a Single-Op/High-Power entry. QSL via WM6A and LotW.

John, W9ILY, informs OPDX that his logs for W9ILY/0 from North Dakota in the July RTTY NAQP have been uploaded to LoTW.

PLEASE NOTE: The new QSL route for YW5AS for the August 2007 operation from IOTA SA-051 is DM4TI. The previous QSL Manager mentioned in past bulletins was Sigi, DL3AMA, who recently became a "Silent Key" (SK) on August 14th, 2007. QSL YW5AS via DM4TI.

QSLS VIA LOTW: 3Y0X, 7Z1HL, 9Q1TB, 9Q1EK, A61AD, BS7H, CT1BOL, EA1DR, HA5VZ, HI3TEJ, HK4KDO, LA/F4BKV/P, R750M, RU2FM, RU2FM/QRP, RX3AGD, T30CW, UA2/DL4MCF, VP2V/DL7DF, ZK1FR, ZL2CV and ZL4PW

QSLS RECEIVED VIA MAIL: 1A4A, 3B7SP, 3XD2Z, 3W22S, 4A3IH, 4W6AAV, 5W0NU, A22AA, A25SL, BS7H, C21/ZL1AMO, C9RJJ, E51QMA, FK8GX, FS/DL7DF, GU3HFN, IS0/IK1WEG, J20MM, JT1CO, KC4/K2ARB, KH8SI, KV4FZ, MM0SJH, N8S, OY/PA0VHA, PY0FF, R1FJT, R1ANF/P, T30CW, T32MO, TF/SM5ELV, TX9C, VP2V/DL7DF, VP2MNS, VQ9LA, VR2XLN, VR6BB, WP3R, XT2C, XW2A, YN4SU and ZK1QMA

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9:00 AM-11:00 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web site to see W2IK's entire story: http://hometown.aol.com/realhamradio/

SV5, DODECANESE. Look for Alberto, IW1RLF, to be active as SV5/IW1RLF from the Island of Rhodes (EU-001, MIA MGD-028, WLOTA LH-0045), September 10-17th. QSL via his home callsign, direct or by the bureau.

SV5, DODECANESE. Operators Luk/ON4BB and Bill/ON5JE will be active as SV5/homecall from the Island of Rhodes (EU-001, MIA MGD-028, WLOTA LH-0045), September 11-25th. This will be a holiday style operation. QSL via their home callsign, the bureau is preferred.

SV5, DODECANESE. Drew, GM3YOR, will be on holiday from September 16-29th on the Island of Symi, Dodecanese Islands, and intends to operate CW only as SV5/GM3YOR over that period using TS50 and wire antennas.

SV9, CRETE (EU-015). Steve, G0SGB, will be active as SV9/G0SGB/p, September 12-25th. He will also activate various lighthouses during his travels. QSL via his home callsign.

SV9, CRETE (EU-015). Ben, DL6FBL, will be active as SV9CVY during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via SV9CVY.

TK, CORSICA (EU-014). Heinz, DF6ZY, will be active as TK/DF6ZY, September 16-28th. Activity will be on 80-10 meters, mostly on RTTY, but he will switch to SSB or SSTV on request. QSLs via the bureau to DF6ZY or direct.

VP5, TURKS AND CAICOS ISLANDS (Correction). Operators Frank/WA2VYA, Tony/W2WAS, Ken/K2WB and John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October 27-28th) as a Multi/Multi/Dxpedition entry. QSL via N2VW or LoTW. Their activity will be from Providenciales (NA-002, not NA-003 as mentioned earlier), October 23-30th. Look for CW and operations on the WARC bands before and after the contest. Operators will sign using VP5/homecall. QSL to their home callsigns. No eQSLS. SWL QSLs are OK.

VP9, BERMUDA (NA-005). Operators Ted/W3TB and Blair/K3YD will be active as VP9I during the CQ WW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via N1HRA.

ZD7, ST. HELENA. Just a reminder. Tom, KC0W, who recently moved to St. Helena Island, and is expected to be active as ZD7X possibly by September 15th. His activity will be on modes CW, SSB, RTTY and PSK. Look for his operations on 160-6 meters. Special attention will be given to 40, 75/80 and 160 meters. ZD7X will be active in all major contests. Tom has already announced that he will be active as a Single-Op/Low-Power entry in both the CQ World Wide DX SSB Contest (October 27-28th) and the CQ World Wide DX CW Contest (November 24-25th). When not contesting Tom will be DXing in general. His QSL Manager is W&#65533;MM.

ZONE 2 (IOTA Op). Three members of the Magnolia DX Association (MDXA) and one other operator will activate Orleans Island (NA-128/QC-007) as VE2IDX for 2007 W/VE Islands QSO Party and Zone 2 (Sept-Iles) as VE2Z for CQ World-Wide DX SSB Contest (October 27-28th). Operators mentioned are: Igor/VE3ZF/VE2IDX (MDXA - Team Leader), Ken/VE3FDX, Travis/K5GED (MDXA) and Bill/K5YG (MDXA). This is an all-out, high power operation, with an extensive array of antennas. Their goal is to "Set World Record" for the QSO Party and "Set the Record" for Zone 2 for the CQWW Contest. More details should be forthcoming.

DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

C5 - GAMBIA
Andre,ON7YK, plans to hit the bands once again as C56YK from Sep 14-27.
He announces SSB operation on 10-80m running 100 watts into a FD4.
QSL cards should be sent to his homecall.
An online QSL exchange is possible via http://www.eQSL.cc

FH - MAYOTTE, AF-027
Alain,F4RPW, moved to Mayotte (AF-027) and is now licensed as FH1LE.
He intends to show up in SSB/CW/PSK/RTTY with 100 watts, vertical and
a KT-34 yagi antenna.

FP - ST PIERRE ET MIQUELON, NA-032
John,FP/W9ILY, and Bob,FP/K9MDO are working from NA-032 from Sep 12-18.
While Bob prefers working primarily in SSB John takes care of the
digital modes RTTY and PSK. They are QRV on all bands from 10-80m using
two TS-570D radios and verticals which they stored at the hotel since
their last DXpedition. The QSL manager for FP/K9MDO is W9NJB.
W9ILY handles his QSLs himself. QSL via bureau is ok for both calls and
the logs of FP/W9ILY will be uploaded to the LotW after the operation.

OH0 - ALAND ISLANDS, EU-002
OH0Z will take part in both parts of the Scandinavian Activity Contest.
OH1JT will be the OP during the SAC Contest in CW on Sep 15/16.
The SSB part one week later will be operated by OH1RX, OH9MM and maybe
also other OPs. QSL via W0MM.

OJ0 - MARKET REEF, EU-053
OJ0B logged some 13.000 QSOs during August and the team members were
very busy mounting newer and better antennas on the lighthouse. The
second activity will be operated by OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA
and OH8NC from Sep 15-24. They plan to work with up to three stations
during both SAC Contests (CW/SSB). Outside of the contest check here:
CW: 3.523, 7.023, 10.113, 14.033, 18.083, 21.033, 24.903, 28.033 MHz;

SSB: 3.775, 7.075, 14.175, 18.135, 21.275, 24.960 and 28.475 MHz.
Martti,OH2BH, will be the QSL manager again. Stamp collectors may get
special stamps from the market reef for 7 EUR or 10 US-$.

TK - CORSICA, EU-014
Heinz,TK/DF6ZY, will be active from Corsica (EU-014) from Sep 15-28.
His preferred mode is RTTY on 80-10m but he works also in SSB or SSTV
upon request. QSLs via DARC bureau or direct to his homecall.

4O - MONTENEGRO
K6MYC, N6TQS, I2MQP, JA1BK and UT5UT are going to visit Gojko,YU6AO,
from Sep 17-21. They will use his shack signing 4O1AO and 4O1M in CW/
SSB/RTTY/PSK31/SSTV/EME on 2-160m. All together will go to the
World High Speed Telegraphy Championship (HST) which takes place in
Belgrad (http://www.hst2007.org) from Sep 21-23. Last not least they
are also planning a side trip to the station of Hrane,YT1AD, from where
they will be QRV as YT5A until Sep 26.

8Q - MALEDIVES, AS-013
Chris,M0AJT, is working as 8Q7CT mostly in CW and only little SSB from
Dhonveli Island (AS-013) from Sep 7-14. His holiday equipment includes
a FT-900 with 100 watts and a G-Whip vertical.

ENGLAND, SPECIAL EVENT STATIONS
The "Scarborough Special Events Group" will be active as GB2QE on
Sep 15/16 to celebrate the 40th birthday of the ocean liner
"Queen Elizabeth 2". All QSOs will be confirmed via buro automatically.
Direct cards should be sent to G4SSH.

SPAIN, SPECIAL EVENT STATIONS
The ITU was founded as the "International Telegraph Union" in Paris in
1865. The modern name "International Telecommunication Union" has been
determined at a conference in Madrid in 1932. To mark the 75th anniver-
sary of this date all stations in Spain may use special prefixes
(AO for EA, AN for EB, AM for EC) between Sep 3 and Dec 9.

SILENT KEY
Gilles Simeon,F5PVF, who passed away on September 7 was one of the
active members of the "Radio Club de Provins" (F6KOP). He was also
involved in the planning of the DXpeditions 5V7C, 5H1C, TO7C and XT2C.

PIRATE: The call OH0Z was heavily misused by a pirate especially on 10.1 MHz
during the past time. Before you send a QSL to OH0Z please use their
online logsearch at: http://www.oh0z.net

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Sep 15/16: Scandinavian Activity Contest (SAC) in CW

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-001, SV5, Dodekanes: Drew,GM3YOR, is going to spend his holiday on
Symi Island (Simi) from Sep 16-29. QSL via homecall.

EU-072, SV8, Thessalia Region Grp: Zdenek,9A/OK1MBZ, and Jindrich,9A/OK1MKI,
are activating Skopelos Island in CW from Sep 10-20.QSLs via homecalls.

EU-165, IS0, Sardinia's Coastal Islands: A team of the Sardinia QRP Club
will activate Quirra Island (IIA CA-009) signing IM0/IQ0QP on Sep 16
from 1000-1600 UTC.
QSL direct via PO Box 81, 09047 Selargius (CA), Sardinia, Italy.

NA-010, VE1, NS Province Group: Andre,VE1/GM3VLB, is working from the island
Cape Breton from Sep 12-17 and from Isle Madame on Sep 17/18.
He was already active as VY2/GM3VLB from Prince Edward Island (NA-029)
from Sep 9-12. QSLs via homecall (direct).

Lighthouse activities (WLOTA/ARLHS)

The Ohio/Penn DX PacketCluster
DX Bulletin No. 825
BID: $OPDX.825
September 17, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1M, K1XN & GoList, W1AL, NG3K, NP3D, W3UR & The Daily DX, N4AA & QRZ DX, W4JO, KM6HB, NN7A, K8YSE, KU9C, W0YR, DX-IS News Site, Pete's-DX-Newsdesk, DJ7IK, DK6XR, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, G0IAS, G8ATE, I1JQJ/IK1ADH & 425 DX News, JA8CDG, JI6KVR & IOTA-JA News, OH2BH, OH2BN, PA4JJ, RSGB IOTA Web Site, SV1IW, VA3RJ & ICPO and ZL2AL for the following DX information.

EDITOR'S SPECIAL NOTE (by KB8NW): There will "NOT" be an OPDX bulletin for September 24th. I will be involved in and moderating the DX seminars during the 2007 Great Lakes Division Convention (http://www.2007gldc.org/) next weekend. Also, I will also be attending the Cleveland Hamfest. I hope to see you there at both events. However, PLEASE continue to send your DX info to me. If something major happens, I will send out an announcement.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 9th/September, through Sunday, 16th/September there were 211 countries active. Countries available: 3A, 3B6, 3B8, 3B9, 3C, 3D2, 3DA, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7O, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, F, FG, FK, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP8, VP8/h, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

1A, S.M.O.M. It was announced this past week that an international team of operators will be active from the Sovereign Military Order of Malta (SMOM) for the first time ever during the CQ World Wide SSB DX Contest (October 27-28th). The callsign 1A3A will be used during the CQWW SSB Contest. This callsign, 1A3A, is a new prefix, and it will be used for the first time from the Sovereign Military Order of Malta. QSL via IZ4DPV. For all activity prior to and after the contest, operators will use the callsign 1A4A. There will be both SSB and CW activity on the WARC bands using the 1A4A callsign during the noncontest period. For updated information, please visit: http://www.1a4a.org/

3B7, ST. BRANDON. The 3B7C team continues to be active from Isle du Sud, St. Brandon (AF-015)until September 24th. As this was being typed Sunday morning, the 3B7C log states as of 2359z, September 15th, there are a total of 72077 QSOs in the database. First QSO was at 2000z, September 7th. Break-down by bands and modes:
10m - 3232 30m - 7039 Phone: 28002
12m - 4488 40m - 10054 CW: 43599
15m - 9880 80m - 7266 RTTY: 476
17m - 10131 160m - 1739
20m - 18248

Currently, the team is reporting that their Web site has been running very slowly, probably due to the high volume of traffic. The on-line log section is particularly badly affected. They also mention that they are still having trouble with the on-line log server. It seems to be related to the "large number of entity/zone leaderboard requests", so for the time being they have disabled that facility. They will continue to work on a solution, and suggest to please bear with them. Remember, the 3B7C Web page is available at: http://www.3b7c.com
Update-to-date news is at: http://www.3b7c.com/news.htm
Daily log updates are at: http://www.3b7c.com/logsearch/search.php
Pilot station for the operation is John, G3WGV, and his E-mail address is: 3b7c@g3wgv.com
QSL via G3NUG, direct (Neville Cheadle, Lower Withers Barns, Middleton on the Hill, Leominster, HR6 0HY, England) or by the Bureau (Bureau cards can be requested via the 3B7C Web page). The QSL Manager for SWLs is Bob Treacher, 93 Elibank Road, Eltham, London SE9 1QJ, ENGLAND.

5J0/HK0, SAN ANDRES (NA-033). Operators Tom/K3WT, Vlad/N0STL, Bill/W0OR and Ron/N0AT will be active as HK0/homecall from November 19-27th. The team will also participate in the CQWW DX CW Contest (November 24-25th) as 5J0A and as a Multi-Single entry. QSL 5J0A via W0JAR. QSL all others via their home callsigns, direct or by the W0 QSL Bureau.

5R, MADAGASCAR. Willi, DJ7RJ, will be leaving for Nosy (AF-057), on September 25th. He will be active as 5R8RJ from September 26 through October 26th. Activity will be on 160-10 meters, CW and SSB. QSL via the CBA.

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that Harry, 7Q7HB (G0JMU), is once again in Malawi. He is expected to be there for about 2 months. Allan states, "SORRY Guys and Gals, NO Top Band Scheds this time, maybe when he goes back in January. QSL is via DIRECT ONLY to G0IAS. Cards are normally sent via return post, I sched Harry every day. He may just have some interesting new modes...Regards Allan."

8R, GUYANA. Operators Holger/DK6XR and Martin/DK8XT will be active as 8R1XR and 8R1XT, respectively, from Georgetown starting September 30th through October 13th. Activity will be on the usual frequencies on SSB, CW and RTTY. QSL via their home callsigns.

8R, GUYANA. Operators Anderson/PY2TNT and Alex/PY2WAS will be active as 8R1PY from Georgetown, November 1-4th. Peter Denny, 8R1WD, may also be joining them. They plan to be active full time (24h) if propagation permits, on 80/60/40/30/20/17/15/12/10/2 meters SSB and CW. Their QSL Manager will be PY4KL, the official station of CWJF (both operators are members of CWJF). QSLs may be sent via the bureau or direct.

AM3, SPAIN. Ramon/EA3EJI and a group of operators will activate the Montserrat Monastery as AM3MM during next weekend, September 22-24th. Activity will be on all bands and modes. QSL via EA3MM, by the bureau or direct.

C5, THE GAMBIA. Jan, PA4JJ, will once agin be active as C56JJ between November 30th and December 7th. This will be a holiday style operation. Jan informs OPDX that he will only use 100 Watts (FT-897) and the antenna will be a vertical and a ZS6BKW. There may be some topband and 6 meter activity. QSL via PA4JJ. He states that there is a possibility of an online log this time on the Web site: http://c56jj.pa4jj.nl

CCF AND SRAL'S SAC. Even though the 49th Scandinavian Activity Contest (CW) was this past weekend, Jussi-Pekka, OH6RX, President of Contest Club Finland, wants to remind everyone that the SSB side will be this coming weekend between 1200z September 22nd and 1200z, September 23rd. The Contest Club Finland and SRAL invite all amateur radio operators to participate in their 49th Scandinavian Activity Contest 2007. Official rules are available at: http://www.sk3bg.se/contest/sacnsc.htm

DX MAGAZINE'S MOST WANTED SURVEY. It is that time again to participate in the "DX Magazine's" annual "Most Wanted Survey". This survey will be conducted between now and October 15th. To participate in the survey, the form is available at: http://www.dxpub.com/dx_survey2007.html

EA8, CANARY ISLANDS. Operators Michael/DL3FCG, Alfred/DL8MG, Carola/DL5FEX, Reiner/DL4ZF, Klaus/DK1EG, Tanja/DO6TPG, Lars/DL6FCB, Martin/DG6FDV and Irmgard/DL6FAE will be active as EA8/DL3FCG from La Orotava, Tenerife Island (AF-004, S-012 for the Spanish Islands Award, WLOTA LH-1276), October 9-17th. Activity will be on all HF and the WARC bands (no 160m) using CW, SSB and digitals. QSL via DL3FCG, bureau preferred. All QSOs will also be confirmed via LoTW and eQSL.

FO, FRENCH POLYNESIA. Freddy, F5IRO (aka TO4E, FK/F5IRO, FR/F5IRO, FY/F5IRO and TO7R) has received his 4 months assignment to Papeete,

Tahiti (IOTA OC-046, DIFO FO-002). He is expected to be there until mid-January 2008. By the time you read this, Freddy may be active as FO5RU, or possibly FO/F5IRO until he picks up his new licence. Freddy will be active during his spare time on all HF bands, CW, SSB and RTTY. He may activate some other IOTAs during his stay. QSL via Rafik, F5CQ, either direct (SASE + Postage) or via the French REF-Union bureau (please only this bureau). Other information and online log can be found on Rafi's Web page at: http://www.f5cq.net/dxp/2007-FO5RU/fo5ru-fr.htm

HB0, LIECHTENSTEIN. Operators Ekkehard/DF4OR, Tilman/DJ5BX, Peter/DL1FX and Rainer/DL1ZBO will be active as HB0/DF4OR during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. QSL via the home callsign.

HC1, ECUADOR. Marcos, EA1APV, will be active as HC1/EA1APV from Cotacachi between September 21st and October 20th. He will operate during his spare time because he is working on a project for an international cooperation. QSL via his home callsign.

IOTA NEWS.....
AS-186. A team of 9 Greek operators, all members of the Radio Amateur Association of Greece (RAAG), are planning to activate the Syrian Island of Arwad for the first time for the IOTA program for 10 days between November 1-15th. The callsign will be YK9SV. Operators mentioned are: SV1GE, SV1IW, SV1JG, SV1RC, SV1RP, SV1QN, SV1ACK, SV1GYG and SV8CS. A special emphasis will be given to the lower bands and modes of SSB, CW, RTTY and PSK31. Also, 6 meters activity is expected if propagation permits. QSL YK9SV via SV1JG. This DXpedition is considered to be very expensive due to the special agreements needed for licensing, transportation, operation costs and support of the local Ham Radio Association. The group is looking for your help and assistance in order to carry out their goal which is a success-ful operation. They primarily need amateur gear like radios, amplifiers, antennas, coaxial and/or financial support. More information will be available on their Web page at: http://www.raag.org/arwad

EU-172. Operators Lutz/DL3ARK, Peter/DL4AMK and possibly one other will be active as OZ/homecall from Langeland Island (FY-019 for the Danish Islands Award) and Hov lighthouse (ARLHS DEN-035, WLOTA LH-0590 (New!), WW Loc. JO55LD), September 22-29th. Look for activity around the usual IOTA and Lighthouse frequencies. QSL via his home callsign.

OC-139. Masanori, VK1ANU, will be active from Kangaroo Island between the evening on September 28th and early morning October 1st. Activity will be on CW on 80/40/20/17/15 meters using 100w and wire antennas. QSL via JO2SLZ.

KP2/NP2/WP2, U.S. VIRGIN ISLANDS. Operators Andrei/NP3D, Palmer/K4FO and Dmytro/AK2P will be active from St. Croix Island between September 23-30th.

They plan to be active in the CQ WW RTTY DX Contest (September 29-30th) as KP2/NP3D and as a Multi-Op entry. QSL via W3HNK or via LoTW (LoTW logs will be uploaded ASAP). Operator will be active before the Contest on all bands, RTTY, CW and SSB as: NP2/K4FO - QSL via home callsign.
WP2/AK2P - QSL via home callsign.
KP2/NP3D - QSL via LoTW and via W3HNK,
no bureau QSL, please.

LIGHTHOUSE ACTIVITY. Members of the Island Hunters Amateur Radio Club will activate K1AN/p from Pomham Rocks Lighthouse (ARLHS USA-643) and Sabin Point Lighthouse (ARLHS-715) in Rhode Island on October 6th, between 1500-1900z on 14040-14060 kHz, QRP and CW only. A full-colored QSL is available via W1AL.

OJ0, MARKET REEF (OJ0B - Challenging the Rough Seas Once Again!). The following is a press release by Jarmo, OH2BN: "The August 2007 outing to Market Reef, OJ0B, was designed to decorate the lighthouse with powerful antennas that can only be hoisted in good weather conditions. The group was successful, and in addition to making more than 13,000 QSOs, a SteppIR beam plus an assortment of wire antennas were mounted at the light.
The newly composed group of OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA and OH8NC are at it again and they plan to be operational from September 15 until September 24, including both Scandinavian Activity Contests, with three stations. Now they have more flexibility since they have a resident helicopter at their disposal.
Outside of the contest their frequencies are as follows:
CW: 3523, 7023, 10113, 14033, 18083, 21033, 24903 and 28033 kHz
SSB: 3775, 7075, 14175, 18135, 21275, 24960 and 28475 KHz

Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USDs) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.
If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities:
http://sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm
The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details."
http://www.lighthousesociety.fi/eng/
See the report from Market Reef as of September 4, 2007:
http://www.lighthousesociety.fi/eng/market/market_diary/diary_040907/

PACIFIC TOUR UPDATE (T30/T31). Toshi, JA8BMK, will depart from Sapporo, Japan, on September 23rd for Fiji before departing to Tarawa, West Kiribati (T30), on September 25th. He plans to operate for 10 days as T30XX before taking a 5-6 day voyage to Canton Island, Central Kiribati (T31). Toshi will be active as T31XX for about 1-2 weeks starting between October 10th and 15th. He will also operate from Christmas Island, Eastern Kiribati (T32), for about two weeks and sign T32YY. Toshi may also be active from Banaba as T33ZZ. Due to transportation by boat, his schedule may change.

Activity from all locations will be on 160-6 meters using CW/SSB and possibly RTTY and PSK31. Reports indicate that his two Honda 900W generators, foods, equipment and antennas have already reached Tawara. His equipment list includes: IC-7000, TS-480HX, 650W output Liner, 4 element HB9CV dipoles for the lower bands, 160m vertical, 6m 4 element HB9CV (100W), 80/75/40m Dipole and vertical, 20/15/10m 4 element HB9CV and a 30/17/12m rotary dipole. No online logs will be available. QSL to JA8UWT, direct only. Donations are welcome.

PJ5, ST. EUSTATIUS (NA-145). Jim, K1NA, will once again be active as PJ5NA during the CQ World Wide CW DX Contest (November 24-25th) as a Single-Op/All-Band entry. Look for activity before and after the contest. QSL via K1NA.

QSL INFO AND NEWS.....
BS7H QSL STATUS. QSL Manager Steve, KU9C, reports: "I've been sending QSL cards out for BS7H for a bit over 40 days now, and am starting to get the question 'my buddy has his, where is mine' or 'are they all out yet'. So, here's the status.... I'm about 75% of the way thru the pile, and well on the way to being more-or-less current with the incoming mail, which is still coming in at a healthy pace. Just to help folks understand the sheer volume, in the first week after the operation, I received nearly 7000 envelopes; to date I've received nearly 14,000 envelopes relative to BS7H. Each card has to be checked against the log, as I'm not pre-printing labels by call with each QSO listed, I'm only issuing QSO's claimed. I expect to be current, and have all QSOs in hand answered, more or less, by the end of September. One way to see if your QSL has been processed is to check the LOTW file. Within a few days of printing your label, your confirmed QSOs will show up there."

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

Art, NN7A, informs OPDX that all direct QSLs received for NN7A/NL7 (NA-206, July 2007) are in the mail as of September 14th. Additional cards will be answered as they arrive. QSLs from NF7E/KL7 and KL1YY should be sent out shortly. They made about 1000 QSOs during the five day operation, including 700 on CW and 300 SSB. Please QSL each operator via their home callsign, direct or by the bureau. Direct addresses are okay on QRZ.com.

QSLS VIA LOTW: A25HQ, BS7H, C56T, E21EIC, J39BS, MM0EAX, OX/PA3EXX/P, OY4TN, WP3GW and UA2FF

QSLS RECEIVED VIA MAIL: 3B7SP, 3B8CF, 4U1ITU, 5B4AGC, 5N9SJA, 6H1AY, 6W1SE, 7P8DX, 8Q7DD, 9M6BAA, AH2L, BS7H, DP0GVN, FR5MV, GB4IPY, GS0GRC/p, HF0POL, LA1CI, LU8DSC/mm, N8S, OJ0VR, R1ANF/p, R1FJT, SV2ASP/A, TF/G4ELZ/p, UK8GK, VK9LT, W5BOS/AL0, YZ7AA, YA/LY1Y and ZP0R

SILENT KEYS.....
OPDX and its readers would like to send out our deepest sympathy to the families and friends of the following Silent Keys:

Well-known QSL Manager and DXer Osten Magnusson, SM5DQC, became a Silent Key unexpectedly on September 6th. He was 67. Osten was the QSL Manager for 9Q1TB and 9Q1EK.

Laimonis Stepans, YL2PQ, became a Silent Key on September 8th, at the age of 63. Many know Laimon from being very active on Topband and in many major contests.

SPECIAL EVENT. Listen for special event station "K6O" (Kilo Six Oscar) to be active as K6O/CIA until the end of the month. This special event station, operating in commemoration of the CIA's 60th anniversary, will be located on the Agency's Headquarters compound and will be operated by the Agency's employees who are hams. K6O/CIA will be operating CW only, most likely on 80/40/30/20/17 meters and in the lower 35 khz of each band.

SPECIAL EVENT. The Anaheim Police ARC will operate special event station K6P in remembrance of POW-MIA recognition day, September 19-22nd. Suggested operating frequencies are: 21350, 18150, 14253, 7250 SSB and 14071.5 PSK. Receive a pictured QSL card via KM6HB: Mark McMullen, P.O.Box 27271, Santa Ana, California 92799. (S.A.S.E please, No Certificate)

SPECIAL EVENT. Operators John/G7HIA and Robert/G8ATE will be using the special callsign GB5OSO starting on October 4th for one month. Activity is to celebrate the 50th anniversary of the launch of the first earth orbiting satellite "SPUTNIK ONE" on October 4, 1957, by the former USSR. It is anticipated that all of the available analogue satellites will be used. A special QSL card will be available after the event, so shake the dust off your satellite gear and join in the fun!

TF, ICELAND. Operators Roger/G3SXW and John/G4IRN will spend a weekend in Reykjavik, and be active as TF/homecall, September 21-23rd. Activity will be on 40-12 meters, CW only. QSL via their home callsign and LoTW.

TX5, CLIPPERTON ATOLL (Update). According to the TX5C DXpedition Web page, scientific studies will be conducted during the March 2008 DXpedition. The Web page states, "An important goal of the DXpedition is furthering our knowledge about Clipperton Atoll and its ecosystem. As part of our application for our landing permit, certain scientific studies would be performed during our stay on the atoll. This program was elaborated in collaboration with Professor Christian JOST, Director of the Geopraphical Research Center of Paul Verlaine University in Metz and specialist of the atoll." The program of the observation and scientific activities include:
1) Setting up of a weather station (WS3600).
2) Study of the propagation of radio waves.
3) State of the herbaceous plant coverage on the ring.
4) Observation of the birds living on the atoll.
5) Observation to detect any human presence or occupation.
6) Checking of the preservation state of the geodesic marker.
7) Tides timetable.
For complete details, please visit the TX5C Web page at:
http://www.clipperton2008.org/

VK9W, WILLIS ISLAND (Update). Operators Tomi/HA7RY and George/AA7JV are still a go for Willis Island. George mentions that he was leaving for Australia on September 11th, and states, "We are in a decent shape: our gear has made it and the boat is on its way north (from the Gold Coast). Due to logistics issues and problems with one of the boat's engines, we will be staging out of Airlie Beach, instead of Cairns. We still expect to arrive at Willis on September 24th and be on the air by September 25th." George has indicated that the dates are weather dependent and may slip. Stay tuned for further updates.

ZF, CAYMAN ISLANDS. Operators Don/W4YCH (ZF2DF), Bob/W6BO (ZF2BO), Janet/ W6JND (ZF2JD), Larry/W6OMF (ZF2LH), Sue/K6SUE (ZF2MH) and Jim/W4JO (ZF2JO) will be active as ZF2DF during the CQWW RTTY Contest (September 29-30th) as a Multi-2 entry. Activity is to celebrate Don's/W4YCH making top of the Honor Roll this year. Prior to the contest, the group will get in some operating time on 160-6 meters, including the YL ops. QSL each station via their home callsign. The group will be there from September 24th to October 1st.

ZM2, NEW ZEALAND. Members of the East Coast Contesters Club will be operating again this year in the SO2R all band section of the CQWW DX SSB Contest (October 27-28th). The team will be ZL2AL, ZL2ST, ZL2LF, ZL2CC, ZL2QM and ZL2FAR. QSL direct or by the Bureau via ZL2AL. Address is available at QRZ.com.

368. Seeking New FAQ/Intro Maintainers for rec.radio.amateur.*

Newsgroup: rec.radio.amateur.dx
Date: 2007-09-16 21:52:57 UTC
From: rram@panix.com
Message-ID: <fck8h8$44j$1@reader1.panix.com>
Source record: 2389
Cross-posted to:
rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.info

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

(e-mail: dl7voa@darc.de)

FO - FRENCH POLYNESIA, OC-046
Freddy,F5IRO, has left Paris on Sep 12 and arrived in Papeete (OC-046)
meanwhile from where he is going to hit the airwaves as FO5RU until
Jan 15, 2008. If he does not get is licence instantly, he will be QRV
as FO/F5IRO temporarily. Activity takes place in CW/SSB/RTTY on all
bands. He may also make a short trip to a nearby IOTA Island.
His QSL manager Rafik,F5CQ, confirms QSOs either direct or via bureau.
An online log can be accessed at:
http://www.f5cq.net/dxp/2007-FO5RU/fo5ru-en.htm

HC - ECUADOR
The city of Cotacachi will be the QTH of Marcos,HC1/EA1APV, between
Sep 21 and Oct 20. Marcos is working there so the radio hobby occupies
only very little of his spare time. QSL via homecall.

HR - HONDURAS
A team of the Radio Club Honduras will be QRV from Swan Island (NA-035)
signing HQ8R from Sep 23-28. Swan was an own DXCC counter (KS4) until
Aug 31,1972, and was last activated in 2001. The team members HR2J,
K2BB, KB2PDW, K8LEE and W8GEX will work with three stations and two
amplifiers. QSL via the operator's address in the USA.

HS - THAILAND, AS-053
Eric,SM1TDE, is now living on the Thai resort island Phuket (AS-053)
and already applied for the callsign HS0ZHR.
Eric prefers the QSLs to be sent via the bureau to SM1TDE,
all mail to his address in Shweden (PO Box 94, S-62321 Ljugarn, Sweden)
will be forwarded to Thailand by Eric's father so expect some delays.

KP2 - AMERICAN VIRGIN ISLANDS, NA-106
Andrei,NP3D, Palmer,K4FO, and Dmytro,AK2P, will stay on the island of
St. Croix (NA-106) from Sep 23-30. They will sign KP2/NP3D in the
multi OP category of the CQWW RTTY Contest on Sep 29/30.

QSLs for KP2/NP3D via W3HNK (direct or LoTW).
NP2/K4FO (QSL via K4FO) and WP2/AK2P (QSL via AK2P) are working in CW/SSB/RTTY on all bands before the CQWW RTTY contest weekend.

P29 - PAPUA-NEW GUINEA
Hans,SM6CVX, Derek,G3KHZ, Steve,G4EDG, and Luis,CT1AGF, are visiting several islands belonging to Papua-New Guinea. The first activities will take place on Sep 22 from Buka Island which will also be the last stop of their trip. They can use four stations with two amplifiers, verticals and multi-band dipoles. Emphasis will be put especially on 80m and 160m during the nights but all other bands will be served as well. They are not sure if they have time for a trip to Kilinalau and which call they may use. More information about this DXpedition can be found at: http://www.rep.pt/P29-PapuaNewGuinea
This is their travelling schedule as of today:
Date Call Island /IOTA QSL via
Sep 24-29 P29VCX Nukumanu /OC-284 SM6CVX
Oct 2-6 P29NI Takuu /OC-283 G3KHZ
Oct 8-10 P29VLR Kilinalau/OC-256 SM6CVX

SU - EGYPT
SU8BHI will be the callsign of Gab,HA3JB, between Sep 21 and Nov 30. He plans to work in CW/RTTY/SSTV/PSK (only little SSB) on all bands and also during the CQWW RTTY and CW Contests.
Unfortunately QSLs only direct via HA3JB.
Please check out his homepage at: http://www.qsl.net/ha3jb

TF - ICELAND, EU-021
TF/G3SXW and TF/G4IRN will stay in Icelands (EU-021) capital city Reykjavik over the weekend. They will be QRV only in CW on 40-12m from Sep 21-23. QSLs via their homecalls or paperless via LoTW.

VK9W - WILLIS ISLAND, OC-007
Tomi,HA7RY, and George,AA7JV, will conduct a mini DXpedition with 500 watts and verticals signing VK9WWI from Willis (OC-007) between Sep 25 and Oct 5. George will go diving while Tomi spends the time on the high bands during the day and then AA7JV will shorten the nights on 80m/160m.

3A - MONACO
Ghis,ON5NT, is going to spend his holidays in Monaco from Sep 24-28. All activities as 3A/ON5NT (QSLs via homecall) will be sporadically.

5R - MADAGASCAR, AF-057
Manfred,DJ7RJ, will show up again as 5R8RJ from Sep 26 until Oct 26. Manfred will work in CW/SSB on 10-160m from Nosy Be Island (AF-057) using a K2 transceiver and a small amplifier with 500 watts output. His antenna will be an inverted L (15m vertically, 19m horizontally) with elevated radials and emphasis will be put on the lowbands.
QSL cards via bureau to DJ7RJ.

7Q - MALAWI
Harry,7Q7HB (G0JMU), is back again in Malawi and will stay there
for the next two months.
QSLs via his QSL manager G0IAS, unfortunately only direct.
Another stay is planned for January 2008 including operation on 160m.

9U - BURUNDI
When Sigi,DL7DF, and his DX experienced team are going on tour this
means not only a guaranteed QSL card but also a DX operation at its
best on all bands. Their next trip leads them to Burundi from where
they will be active as 9U0A from Sep 26 until Oct 9. They will work
in all modes (including SSTV) on all bands (160-6m) emphasizing the
lowbands and digital modes. They also have an extra station exclusively
for the digital modes because they expect the highest demand there.
Their equipment consists of four radios, three amplifiers, a Titanex
V80E Lowband vertical, another 18m high vertical, two 4-square-arrays
for 40m and 30m, two Hexbeams for 20-10m, a 5ele yagi for 6m and
beverages for receiving. The operators will be DK1BT (Manfred),
DL4WK (Wolf), DL7DF (Sigi) and his XYL Sabine, DL7UFN (Jan),
DL7UFR (Frank) and SP3DOI (Leszek). They will try to provide an online
log during the DXpedition on the website: http://www.dl7df.com
QSLs should be sent to DL7DF either direct or via bureau. His address:
DL7DF, Sigi Presch, Wilhelmsmuehlenweg 123, 12621 Berlin, Germany.
One US $ is not sufficient return postage for a letter outside Europe.

SOUTH PACIFIC - T30/T31 (update to DXNL 1534)
Toshi,JA8BMK, will leave Sapporo on Sep 23 stopping only one day on
Fiji and is expected to arrive in Western Kiribati (T30) on Sep 25.
He plans to hit the airwaves as T30XX for at least ten days from there.
His ship to Central Kiribati (T31) will leave on Oct 4 and is scheduled
to arrive five or six days later. Toshi intends to work as T31XX for
about two weeks and plans to work also in RTTY and PSK (besides the
usual modes CW and SSB). Not mentioned in his last press bulletin was
an eventual operation as T33ZZ. This is a list of his equipment:
IC-7000, TS-480HX, 650 W output, 4ele HB9CV, dipole for the lowbands,
a 160m vertical, 6m: 4ele HB9CV (100 W), 80/40m: dipole and vertical,
20/15/10m: 4ele HB9CV, 30/17/12m: rotary dipole. There will be no
online logs and your QSLs should be sent ("direct only") to JA8UWT.

SPAIN, SPECIAL EVENT STATION
Ramon,EA3EJI, and other OMs are going to put up a station in the famous
monastery Montserrat and will be QRV as AM3MM in all modes on all bands
from Sep 22-24. QSL via EA3MM, direct or via bureau.

SILENT KEYS
Very surprisingly Osten,SM5DQC, passed away on Sep 6 at the age of 66.
He was one of the most active Swedish DXers and the QSL manager of
9Q1EK and 9Q1TB. Osten phoned with 9Q1TB only one day earlier telling
him about his plans to maintain his antennas.

Laimonis Stepans,YL2PQ, was also a very active DXer and contester from
Latvia and passed away on Sep 8 at the age of 63.

LINKS: Pictures and an online log of 7U5CI on Grand Cavallo Island (AF-104)
can be found on the homepage: http://www.om1kw.com/7u5ci

Once again the "DX MAGAZINE" started a survey to find out the "Most
Wanted" DXCC entities. DXers from all over the world are encouraged
to vote until Oct 15 on: http://www.dxpub.com/dx_survey2007.html
---
Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

September 22/23: Scandinavian Activity Contest (SAC) in SSB

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
EU-088, OZ, Kattegat Group: Bernd,OZ/DL8AAV, is working from the island
Laesoe (DIA NK-003) from Sep 17-29. QSL via homecall, bureau ok.

EU-172, OZ, Jylland East & Fyn Group: Lutz,OZ/DL3ARK, and Peter,OZ/DL4AMK,
will activate Langeland Island (DIA FY-019) from Sep 22-29.
QSLs via homecalls.

NA-110, W4, SC State Group: Several US HAMs will show up as N4R from
Folly Island (USI SC-015S) from Sep 22-29. QSL via K4KWK (B/d).

NA-128, VE2, QC Province Group: Igor,VE3ZF, and other HAMs from Canada and
the US will be QRV as VE2IDX Oerleans Island (CIsA QC-007) during the
ucoming W/VE Islands QSO Party. QSL via VE3ZF (B/d).

OC-019, KH6/7, Hawaiian Islands: Hans,KH6/SM3TLG, will be QRV from Maui
from Sep 19-22. QSL via homecall (B).

SA-044, YV5, La Tortuga Island: The 4M5DX crew with 14 operators will be
active as YX5IOTA from Tortuga Island (Cayo Herradura) from Sep 24-30.
QSL geht via IT9DAA (B/d).

Lighthouse activities (WLOTA/ARLHS):

FO5RU LH 0885 until Jan/2008

373. [DXNL] DXNL 1538 (Sep 26, 2007)

Newsgroup: rec.radio.amateur.dx
Date: 2007-09-26 21:32:52 UTC
From: Robert Busch - DL7VOA <dxnl@dxhf.darc.de>
Message-ID: <123568048150.20070926232743@dxhf.darc.de>
Source record: 2394
Cross-posted to: rec.radio.amateur.moderated,rec.radio.amateur.dx,rec.radio.info

DXNL 1538 - Sep 26, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A5 - BHUTAN
OM Ed,N1UR, will be QRV from the Kingdom Bhutan signing A52UR in CW/SSB
on all bands between Sep 28 and Oct 2. QSL via buro or direct to K2RET.

C9 - MOZAMBIQUE
Rodrigo,CT1BXT, hit the airwaves as C91R and will stay in Mozambique
until August 2008. Rodrigo's favourite mode is RTTY but in the moment
he is only working on 20m with 100 watts and a dipole. He plans to put
up a beam for 10/12/15/17/20m soon. QSLs via his homecall.

EL - LIBERIA
"DAGOE" stands for "Dutch Amateurs Going On Expedition". The club
members Arie Kleingeld,PA3A (EL2AK), Ad van Ginneken,PA8AD (EL2AG),
Arie Noordzij,PA3AN (EL2AN), and Henk van Oosterhout,PA3AWW (EL2AO),
are planning a major activity from Liberia from Oct 3-24. The operation
on 80m/160m shall start on Oct 7 at latest. Due to the high demand they
decided to work in RTTY as well. Liberia's infrastructure was totally
destroyed during the civil war (1989-2003) and shall be supported with
this DXpedition financially. You may request your QSLs with a donation
after the DXpedition at: http://www.liberia2007.com/qslpolicy.php
The DAGOE members have three main goals:
1) Activate Liberia in a major style operation
2) The charity project with a call for donations
3) Supporting the "Liberia Radio Amateur Association" (LRAA) with
equipment
The DXpedition will use two radios with amp's having the aim to log at
least 25000 QSOs mainly in CW and SSB. Following antennas will be used:
160m/80m: vertical (80 radials)
40m: vertical (30 radials)
WARC: triband vertical
20/15/10m: 2ele tribander and a 3ele tribander.
QSL cards may be requested online at the address printed above. This

applies only to direct QSLs and a donation for the charity project is mandatory for that. If you send your QSLs direct you should enclose at least 2 US$ and send them to PA3AWW, Meelbeshof 8, 3355 BD Papendrecht, Netherlands. If you prefer QSLs via bureau please send them also via PA3AWW. There will be no eQSLs.

HB0 - LIECHTENSTEIN
Ekki,HB0/DF4OR, Tilman,HB0/DJ5BX, Thomas,HB0/DK9FEC, Peter,HB0/DL1FX, and Rainer,HB0/DL1ZBO, will activate the Principality of Liechtenstein again working in CW/SSB/RTTY on 80-10m from Sep 26 until Oct 1.
The crew will also take part in the CQWW RTTY Contest signing HB0/DF4OR on the weekend of Sep 29/30. All QSLs via homecalls.

HP - PANAMA
Jay Mills,HP3/K1YJ, was already active this year. He moved to Panama now and should receive his HP3 callsign soon.
QSLs for all his activities should be sent to his new QSL manager W4JS.

J6 - ST LUCIA, NA-108
Babs,J6/DL7AFS, Lot,J6/DJ7ZG, and Ju,J6/DL2ZAE, have flown to St. Lucia (NA-108) on Sep 23 and are working on 6-160m until Oct 11. They plan to operate with up to three stations simultaneously. Ju is a high speed CW OP and takes intensive care of this mode so that Babs and Lot may turn towards SSB and RTTY.
QSL cards for all calls should be sent to DL7AFS. More information can be found on their website: http://www.qsl.net/dl7afs

JW - SVALBARD, EU-026
Karl,LA8DW, and Lars,OZ1HPS, announced to become active in CW/SSB signing JW8DW and JW/OZ1HPS from Svalbard (EU-026) from Oct 1-7.
QSLs via bureau to their homecalls.

SV9 - CRETE, EU-015
Uli,DJ9XB, flew to Crete (EU-015) on monday. Main purpose of this trip is the participation in the CQWW RTTY Contest as J49XB (only) on 15m. All other bands (including 160m if he has enough space for an antenna) will be activated before and after the contest.Uli is QRV only in RTTY.

TI - COSTA RICA
Jean-Pierre,TI2/F6FQX, is working mainly in CW on HF until Oct 3.

TK - CORSICA, EU-014
The team "Equipo de DX4DX" consists of the OPs Pere,EA3CUU, Paco,EA4BT, Emilio,EA7AAW, Julio,EA7JB, Jose,EA7LS, and Ramon,EB4EPJ, and will put Corsica (EU-014) on the air between Sep 28 and Oct 5. Their call will be TK9Z in SSB/CW/RTTY/PSK on 160-10m. QSL via EA4BT, direct or bureau. More information can be found at: http://www.dx4dx.com

ZF - CAYMAN ISLANDS, NA-016
Don,W4YCH (ZF2DF), Janet,W6JND (ZF2JD), Larry,W6OMF (ZF2LH), Bob,W6BO (ZF2BO), Sue,K6SUE (ZF2MH), and Jim,W4JO (ZF2JO), will take part in the Multi/2 category of the CQWW RTTY Contest signing ZF2DF. They already hit the airwaves 6-160m using their individual calls since

Sep 24. The operation ends on Oct 1. All QSLs via homecalls.

8P - BARBADOS, NA-021
Richard,G3RWL, will be QRV again as 8P6DR from Barbados (NA-021) from Sep 28 until Oct 13. Richard is working in CW and digital modes on 10-80m running 100 watts into a G5RV antenna and also plans to take part in the upcoming CQWW RTTY Contest. He confirms the QSLs via bureau or direct via his homecall G3RWL. However QSLs may be requested as well via e-mail (g3rwl@amsat.org), there will be no eQSLs and if he finds you as a dupe in his log your chances to get a QSL are gone.

8Q - MALEDIVES, AS-013
Andrew,G7COD, is expected to hit the airwaves as 8Q7AK from the island Embudu (AS-013) between Sep 30 and Oct 12. He will work mainly in SSB but plans to operate also some CW on 30/20/17/15/12m. His preferred frequencies are 10.123, 14.147, 18.133, 21.253, 24.953 MHz (+/-10 kHz). He will try to be active from 0830-1030 UTC and from 1300-1515 UTC every day. QSLs direct or via bureau via his homecall.
Andrew states that all QSLs from previous 8Q7AK activities should be confirmed by now.

8R - GUYANA
8R1XR (DK6XR) and 8R1XT (DK8XT) will be QRV from Georgetown working in SSB/CW/RTTY on the usual DX frequencies between Sep 30 and Oct 13. QSLs via homecalls.

SOUTH PACIFIC TRIP
Ulli,DL2AH, is travelling the South Pacific planning activities from Niue (ZK2), Chatham (ZL7) and Norfolk (VK9ANH) on 40-10m between the end of September and mid-November. Ulli is working in SSB/RTTY using a FT-897 and loop antennas. The call for Niue is not known yet but he will show up as ZL7/DL2AH from Chatham. And this is his schedule:
ZK2 Sep 29-Oct 12
ZL7/DL2AH Oct 17-Oct 30 and after that
VK9ANH for about two weeks.
QSL cards via DL2AH, direct or via the bureau.

SILENT KEYS
Once again some wellknown DXers passed away last week.
W Denzil Evans,GW3CDP, passed away after a short illness at the age of 81 on Sep 15. Being one of the most active Welsh DXers he was #1 on the DXCC Honor Roll.

Abdule Rashid,S21AR, passed away on Sep 10. He was one of the persons who made the S21U DXpedition in 1990 becoming a success.

Alessio Ortona,I1BYH, was a former president of the Italian amateur radio league ARI. He passed away at the age of 79 on Sep 17.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 826
BID: $OPDX.826
October 1, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, NA5U, AC8G, K8YC, K8YSE, W9DX, DX-IS News Site, Pete's-DX-Newsdesk, DJ7ZG, DK8JB, DL2VFR, DL5CW, DL7MAE & The DX News Letter, F5NQL & UFT, G3WGV, G3XTT, HR2DMR, I1JQJ/IK1ADH & 425 DX News, IN3VZE, JA1BK, JI6KVR & IOTA-JA News, JT1CD, LU5FF, RSGB IOTA Web Site, S50XX, SM6CVX, VA3RJ & ICPO, VK4FW and Z35M for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX RTTY Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX RTTY Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 22nd/September, through Saturday, 29th/September there were 217 countries active. Countries available: 1A, 3A, 3B6, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PY, PZ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T30, T5, T7, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9L, VK9N, VK9W, VP2V, VP8, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YJ, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON. The 3B7C team went QRT on September 25th around 0331z. The operation netted 135,500 QSOs. The QSO total makes this expedition 3rd only to D68C and 3B9C. From the latest press release, the breakdown by bands and modes are as follows:
10m - 7958 30m - 13460 Phone: 51754
12m - 8851 40m - 19906 CW: 79217
15m - 18887 80m - 13267 RTTY: 6549
17m - 21052 160m - 2922
20m - 31577

To read the complete press release with interesting comments about each band and other details, click on the news link listed below. Remember, the 3B7C Web page is available at: http://www.3b7c.com
Update-to-date news is at: http://www.3b7c.com/news.htm
Daily log updates are at: http://www.3b7c.com/logsearch/search.php
QSL via G3NUG, direct (Neville Cheadle, Lower Withers Barns, Middleton on the Hill, Leominster, HR6 0HY, England) or by the Bureau (Bureau cards can be requested via the 3B7C Web page). The QSL Manager for SWLs is Bob Treacher, 93 Elibank Road, Eltham, London SE9 1QJ, ENGLAND.

3C, EQUATORIAL GUINEA. Elmo, EA5BYP, announces that a DXpedition to the Republic of Equatorial Guinea (Bioko Island AF-010) will take place between October 5-14th. Operators will be Fred/KH7Y, Luis/EA5BRE, Vic/EA5YN and Elmo/EA5BYP. The team will operate with two stations and will sign 3C7Y for 10 days. Activity will be on all bands and modes SSB, CW and RTTY. QSL via EA5BYP. Visit the team's Web page at:
http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

3D2/R, ROTUMA (OC-060). Tony, FO5RK, reports that his planned DXpedition to Rotuma as 3D2AG/P is on schedule. His operation will take place between December 2007 and January 2008. Actual dates will be announced later. Tony will be managing his own QSL requests upon his return home. QSL only direct and please include either 2 USDs or 1 IRC with a SAE for your QSL card. The QSL cards are being printed by UX5UO and the DXpedition is being sponsored by SPIDERBEAM. Upon Tony's return home, he will have his log available online at: http://www.3d2ag.fr.tc/
QSL requests should be mailed direct to Tony at his QRZ.com address.

4L, GEORGIA. Operator Gia, 4L4WW, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (80m)/ High-Power entry. He expects to use a 3 element Yagi and inverted V during the contest. QSL via EA7FTR.

4O, MONTENEGRO. Look for Montenegro to be active during the CQ World Wide RTTY DX Contest on September 29th and 30th as 4O3A. Ranko Boca will air 4O3A from his Montenegrin Premium Contest Resort. He'll be hosting a young team of operators from Slovenia and Italy who will be operating in the Multi-Multi category with multiple stacks and testing a new radio room layout before the SSB and CW versions of the CQ WW. Operators include S50XX, S50YL, S52X, S55O, S57MM, IV3YWT, IV3TMV, 4O3NET, 4O4A, 4O3A, 4O3Z, YU1YV and possibly S51TA. The station now has two new rotary towers as well as a two element yagi on 80 meters. This is just one of many contest activities being organized by Ranko and the SKY Contest Club. The RTTY

contest will focus on supporting young contesters and giving opportunities to local youngsters to learn and feel what contesting is all about. Ranko is in the process of fully automating the station and is planning to organize a contest school for youngsters all over the world. Pictures from last year's operation can be found in the Gallery section: http://www.yt6a.com/
For all who need QSL cards from 4O3A - good news. QSLs from past contest operations from 2007 will be sent via the bureau this month and logs will be uploaded on LoTW. In the future all QSL cards will be sent via the bureau twice a year as well as being uploaded to LoTW.

4X, ISRAEL. Operators Paul/4X6UU and Isaac/4Z4TL will be active as 4X2Z during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. QSL via 4X6UU. Activity will be from the Mikve Israel Agricultural School club station.

6Y, JAMAICA. John, W2GB, will be active as 6Y0B from October 23-30th. He will also be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op entry. QSL via W2GB.

7Q, MALAWI. Ely, IN3VZE, informs OPDX that he will be active "Holiday Style" from the southwest shore of Lake Malawi between October 4-25th. His callsign will be 7Q7CE, and he will be on all bands. QSL card is "OK" via the bureau or direct to his home callsign IN3VZE: Ely Camin, Corso 3 Novembre 136/2, 38100 Trento, Italy.

8P, BARBADOS. Dean, 8P6SH, will be active as 8P2K during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op/Single-Band (20m) entry. QSL via KU9C.

9K, KUWAIT. Jon, KL2A, will be active as 9K2A during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL direct or by the bureau to 9K2HN.

9M6, EAST MALAYSIA. Operators Seiichiro, JF1SQC, will be active as 9M6LSC during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL via JF1SQC.

9U, BURUNDI. By the time you read this, Sigi, DL7DF, and his team of operators should be active as 9U0A. Operators mentioned are: Manfred/DK1BT, Wolf/DL4WK, Sigi/DL7DF and XYL Sabine, Jan/DL7UFN, Frank/DL7UFR and Leszek/SP3DOI. Activity should last until October 9th. Operations will be on 160-6 meters on CW and SSB. One station will be exclusive on RTTY, PSK31 and SSTV. There will be a special emphasis on the lower bands and digital modes. Pilot station for this DXpedition is Bernd, DF3CB (bernd@df3cb.com). The QSL route is via DL7DF, either by the German QSL Bureau (DARC) or direct to: Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany. More info, plus an online log as well as updates during the their DXpedition will be available via the Web page at: http://www.dl7df.com/9u/index.html

A5, BHUTAN. Ed, N1UR, is expected to be active from Bhutan as A52UR between September 28th and October 2nd. Activity will be on all bands CW/SSB. QSL

via K2RET.

AH6, HAWAII. Members of the new formed "Coconut Wireless Contest Club" will be active as AH6XX in CQ's World Wide DX SSB and CW Contests this October and November. Operators for the phone contest will be John/K1ER, Rich/K2WR, Tetsuo/AH7C and Kan/JA1BK (KH6BK). Operators for the CW Contest will be Tetsuo/AH7C and Kan/JA1BK (KH6BK).

C9, MOZAMBIQUE (Update/Date Change). Wayne, W5KDJ, will be going back to Africa in November. He will be active as C91KDJ, November 15-28th. Wayne will concentrate on CW and possibly some RTTY. His plans are to be active in the CQWW DX CW Contest. His QTH will be about 50 kilometers north of Maputo. Grid Square: KG64ik. Antennas include a 72 foot vertical for 160/80m, 4 Square 40m, dipole for 30m, and a 2 & 3 element yagis at 60 ft for 20-10m. QSL via W5KDJ. Visit Wayne's Web page at: http://www.tdxs.net/c91kdj.html

CU2, AZORES. Operator Toni, OH2UA, will be active as CU2A during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH.

EA6, BALEARIC ISLANDS. Javi, LU5FF, will be active as EA6/LU5FF from Can Picafort, Mallorca (EU-004), between now and November 16th. Activity will be on 30/20/17/15/12/10 meters using CW and SSB.

EY8, TAJIKISTAN. Nodir, EY8MM, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (possibly 160m or 80m)/High-Power entry, and the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/High-Power entry. QSL both activities via K1BV. See Nodir's Web page for skeds before the contest: http://ey8mm.codan.ru

FM, MARTINIQUE (NA-107). Philippe (ex-F8EFU) has received a work assignment to Martinique (DIFO FM-001) and has been issued the callsign FM5LD. It is not clear on the length of his stay, but he operates mainly CW on 30m with a barefoot 50w rig into a wire which is expected to be replaced as soon as possible by a new antenna suitable for DX. Read the QSL information on QRZ.Com or the Online REF-Union callbook.

H40, TEMOTU PROVINCE. "The Daily DX" reports that operators Mike/KM9D and Jan/KF4TUG are now heading to Tikopia Island (OC-178) and plan to be active as H40MY (possibly in the next few days). Details on their estimated time of arrival, length of stay and operating plans are unknown at this time.

HR, HONDURAS. Dan, HR2DMR, is expected to be active in the CQ WW RTTY Contest (September 29-30th) as a Single-Op/Single-Band (20m)/Low-Power entry.

HR, HONDURAS. Alex, K2BB, will be active as HR2/K2BB during the CQWW DX RTTY Contest (September 29-30th). QSL via home call.

HV50/HV6SP, VATICAN. Look for two new callsigns to be activated soon from the Vatican. The first one is scheduled to hit the airwaves on September

27th. The callsign HV50VR (Vatican Radio) will be activated to mark the 50th anniversary of the opening of the Vatican's Santa Maria di Galeria broadcasting site. HV50VR will also be participating in upcoming contests. QSL direct via IW0GPN. There is a possibility of LoTW uploads. IK0FVC has been authorized to use this callsign. Also, look out for HV6SP. Further details are to follow for this, but QSL via IK0FVC.

INDEXA ELECTIONS. The International DX Association (INDEXA) has announced
the results of its 2007-2008 elections:
President: Gary Dixon, K4MQG
Vice President: John Scott, K8YC
Secretary-Treasurer: Bill Jennings, W4UNP
Directors: Nellie De Lazard, XE1CI Franz Langner, DJ9ZB
Bob Allphin, K4UEE Carl Smith, N4AA
Lynn Lamb, W4NL Richard Grant, W9RG
For more details, please visit INDEXA's Web page at: http://www.indexa.org

IOTA NEWS.....
AS-047. Look for JH0IEW/6 to be active from Daito Island between
September 28th and October 9th. He will activate two different
islands.
Sept. 28th-Oct 2nd - Minami-Daito Island (JIIA AS-047-002)
Oct. 2-9th - Kita-Daito Island (JIIA AS-047-001)
QSL to the home callsign, direct or by the bureau.

EU-045. Members of the ARI Velletri will be active as IB0/IQ0VL from
Ventotene Island (IIA LT-011, MIA MI-118, WLOTA LH-1403) between
now and October 1st. Activity will be on 40-10 meters, CW, SSB,
PSK31 and FM, as well as on the VHF and UHF bands. Operators
mentioned are IK0ADY, IK0JBF, IK0OXK, IK0UUM, IK0WHN and IZ0ENB.
QSL via IK0WHN, direct or by IQ0VL via the bureau.

EU-137. (UPDATE) A group of Swedish and German operators will be active
from Ven Island from October 7-13th. Activity will be on CW, SSB
and RTTY. The team plans on using high power for this operation.
They will be close to the Hakens Fyr Lighthouse (ARLHS SWE-168).
At the moment the team consists of:
Name/Homecall EU-137 Callsign QSL Route
-------------- --------------- ---------
Fred/SM7DAY SM7DAY/7 QSL via homecall
Frank/DL2SWW SD7W QSL via DL2SWW
Tom/DL2RTK SE7T QSL via DL2RTK
Ric/DL2VFR SD7V QSL via DL2VFR

QSL all via the Bureau (preferred) or if really necessary
via direct (they can only accept new IRCs; be aware please
that 2 USDs barely cover the postage to outside EU).

J3, GRENADA. A team of stateside operators will activate Grenada from
late October 24th to October 31st. The contest station J3A (QSL via WA1S)
will be active as a Multi-Multi entry in the CQ WW DX SSB Contest (October
27-28th). Team members are WC4D, N7AZ, KI4QCS, K1EP, KA7KUZ, K0RH, W8CAA,

WA8LOW, N0RB, W8KKF, W8GEX and AC8G. For outside the contest, with the exception of W8GEX and AC8G, the team members have been assigned HOMECALL/J3. W8GEX will be J3K and AC8G will be J37K. QSL each to their home callsign or as announced. Expect various other modes outside the contest and operations on the 30/17/12m bands as well as 60 and 6 meters. The team has arranged for antenna and power improvements especially on 80 and 160 previously weak links.

J4, CRETE. Uli, DJ9XB, will be active as J49XB in the CQWW RTTY Contest (September 29-30th) as a Single-Op/Single-Band (15m) entry. He states, "Before and after the contest, I will try to be on 160m in RTTY."

J5, GUINEA BISSAU. The "F6KOP TEAM" is planning a DXpedition to Guinea Bissau (possibly to Bubaque Island - AF-020) between January 10-21st (2008). Their callsign will be J5C. Operators mentioned are: F4AJQ (leader), F6AML (Logistic), F5JSD, F5VHQ, F5TVG, F5PED, F4TTR, F8BUI, F8BJI, F2JD, F2VX, F9IE, N2WB, N6OX and OE8KDK. Activity will be on 160-10 meters, SSB, CW, Digital modes, SSTV and FM. They plan to have 5 stations on the air around the clock. They will use IC7000, FT480 and TS857D, with 4 Spiderbeam, 2 verticals and 3 dipoles. They will also have 4 ACOM 1010 amps. QSL via F5TVG, direct or by the bureau.

J6, ST. LUCIA. Operators Babs/DL7AFS and Lot/DJ7ZG will be active as J6/DL7AFS between now and October 11th. They will later be joined by a 3rd operator, Ju/DL2ZAE. They plan to have three stations active simultaneously on 160-10 meters on CW, SSB, RTTY and PSK. Visit their Web page at: http://www.qsdl.net/dl7afs
QSL via DL7AFS, direct or by the bureau.

JT, MONGOLIA. Members of Mongolian Amateur Radio Society will particate in the CQ WW RTTY Contest (September 29-30th). Look for JT1BE, JT1DN, JT1CO, JT1BV and JT1F.

K0, UNITED STATES. Bob, K0RC, will be active in the CQWW DX RTTY Contest (September 29-30th) using the special event callsign K0D. The special event is to commemorate the 100th anniversary of the immigration by Johann Czudek to the United State of America. More details are available on QRZ.com. Bob will be operating from his home QTH in Chisago County, Minnesota.

NP2, U.S. VIRGIN ISLANDS. Operators John/NP2B, Bruce/W4OV, Julio/WD4R, Esteban/W4DTA, Frederick/K9VV and Lisa/W4LIS will be active as NP2B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-? entry.

OF, FINLAND. Members of the SES will be active as OF2AG during the CQ WW RTTY DX Contest (September 29-30th) as a Multi-Op entry. Operators mentioned are OH2GI, OH2LU, OH2MZB and OH6XY. Activity is to celebrate the 90th anniversary of their country. All contacts will be confirmed automatically by the bureau.

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ World Wide DX SSB Contest (October 27-28th) as Single-Op/Single-

Band (??) entry. QSL via W0MM.

P29, PAPUA NEW GUINEA (Updates/New IOTAs). Operators Luis/CT1AGF, Derek/
G3KHZ, Steve/G4EDG and Hans/SM6CVX together with two non-ham friends
made it to Nukumanu Island (OC-284p). They are active as P29VCX from
Nukumanu. The plan is then to sail to Takuu Island (OC-283p) and operate
using the callsign P29NI for 6 days starting about September 30th. Finally,
if time permits, they will sail to Kilinalau Island (OC-256, aka Tulun
Islands) and operate from there for a few days, possibly as P29VLR,
between October 6-9th before returning to Buka. The dates may vary a
little depending on the local weather. They expect to operate on all
bands, including 160 and 80 meters with possibly 3-4 stations, two
amplifiers, verticals and a multiband dipole. Their plan is to run 4
stations simultaneously from 2 sites on each island. This should allow
simultaneous operation from two stations on the same band using different
modes. Two stations will use 500w linears and two stations will use 100w.
QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via
SM6CVX. The group is looking for support from the ham community. More
details and updates are available on their Web page at:
http://www.rep.pt/P29-PapuaNewGuinea/
PLEASE NOTE: QSL Manager SM6CVX wants to remind everyone that postage
from Sweden is 11 SEK to any place outside Sweden. Even to Europe and
Scandinavia. This is the same as 2 USDs. So for a direct reply from
P29VCX and P29VLR please send 1 IRC or 2 USDs.

NEW QSL MANAGER FOR 9Q1TB AND 9Q1EK. It was announced that John, SM5DJZ,
has replaced the late SM5DQC as QSL Manager for both 9Q1TB and 9Q1EK.
Please send direct cards to: Jan Hallenberg, Vassunda Andersberg,
SE-741 91 Knivsta, Sweden. Logs are expected to be uploaded to LoTW
and available on: http://www.logsearch.de

D88S QSLS. Mehdi, F5PFP, reports: "Good news for those who are waiting
in vain for D88S QSL cards since 2003 like me. New QSL cards will be
printed soon, with maybe a new QSL address. Information received from
our friend Sang Hun Lee, DS4NMJ (ex-DT8A)."

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList
informs: "During my QSL Manager confirmation process, I have accum-
alated a list of QSL Managers for which I could not find a published
E-mail address, or the E-mail address that I found is not valid and
bounces mail. Listed below are some of those QSL Managers that I am

having problems with. I hope that maybe they will read this message
and take the time to update their E-mail address on QRZ.com or send
them to me direct at: golist@gmail.com "

SPECIAL EVENT. The W5-National Wildlife Refuge ARC will operate from the
Hagerman National Wildlife Refuge, October 12-14th. Visit the following
Web page: http://www.fws.gov/southwest/refuges/texas/hagerman/index.html
This operation coincides with the National Wildlife Refuge Week and is
in support of the KP1-5 Project and our national wildlife refuge system.
The callsign for the operation will be W5NWR, W5-National Wildlife Refuge.
Look for W5NWR on SSB, CW, RTTY and PSK on frequencies of opportunity.
Those making contact can receive a QSL highlighting facts and pictures
about the Hagerman National Wildlife Refuge. QSL requests should be sent
to NA5U. Other stations will be operating from wildlife refuges across
the nation. Look for additional information about this operation and
other stations on: http://www.pilgrimriver.com/nwr2007/

T6, AFGHANISTAN. Ross, ex-VK1UN/VK8UN, 4W6UN and EX1UN, has been active
as T61AA from Faizabad. The length of his stay is unknown. He usually
can be found after 1200z on 20 meters but has also been on 17 meters
after 0500z or 1330z. He is using an IC-7000, with a Tokyo Hi-Power
HL-1.5KFx amp, Palstar AT-AUTO tuner into a Cushcraft R6000 vertical.
He also has a Double Extended Zepp. Ross hopes to have a 2 element 20m
Moxon on an 8 element 6m beam shortly. The old YA prefix is no longer in
use, so T6 is now the official prefix of Afghanistan. His operations are
good for DXCC. QSL via T61AA: Ross Ballantyne, PO Box 99, World Trade
Centre, Victoria 8005, Australia.

T6, AFGHANISTAN. John, KE6GFF, will once again operate as T6EE from Kabul between October 18th and November 12th. It is suggested to look for him on SSB on or about 14210 kHz. QSL via his home callsign: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651.

T7, SAN MARIO. John, T77CD, will be active in the CQ WW RTTY Contest (September 29-30th). QSL via I0MWI, direct ONLY.

TX5, CLIPPERTON ATOLL (Update). "The Clipperton 2008 team received their Clipperton Landing Permit from the French Polynesia authorities last week", reports N7CQQ, John Kennon. The team is now in "Full Steam Ahead" mode and is excited about the trip. They thank team member F6BFH for all his hard work! For complete details, please visit the TX5C Web page at: http://www.clipperton2008.org/

V2, ANTIGUA AND BARBUDA. Operators Jim/WX3B, Brian/N3OC, Tom/NI1N and Robert/W2BZR will be active as V26B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. Listen for QSL details.

VK9W, WILLIS ISLAND. Operators Tomi/HA7RY and George/AA7JV are now active as VK9WWI. They plan to stay (depart) on October 5th. QSL via HA7RY.

VP2E, ANGUILLA. Operators Andy/DL5CW and Marina/DM5YL will be active from Anguilla (IOTA NA-022) between November 8-26th. Activity will include the CQ WW DX CW Contest. Callsigns probably will be VP2EDL and VP2EDM. Their prefered modes are: CW (DL5CW) and RTTY/PSK31 (DM5YL) on the HF bands. QSL via their home callsign, by the bureau or the address on QRZ.com.

VP8, FALKLAND ISLANDS. Ulli, DL2AH, has added another island to his DXpedition activities. After his Niue Island (ZK2) and Chatham Island (ZL7) operations, look for him to be active from Pebble Island between February 26th and March 13th. He will be active mainly on SSB (with some RTTY) using a FT897 into Windom 40-10m antenna. QSL via DL2AH, direct or by the bureau. ADDED NOTE: Remember, Ulli will also be active from Juan Fernandez (CE0Z) between March 18th and April 7th.

YW3, VENEZUELA. Members of the Radio Club Venezolano announce they will be active as YW3AJ from Portuguesa State from October 11-14th. Activity will be on 160-6 meters, VHF/UHF and all modes. Four stations will be on the air around the clock. GRID FJ59mp. QSL via YV5AJ using QRZ.com address or by the bureau. Operation is good for the D.E.V. (Venezuelan States Award). For more info, visit the Web page at: http://www.radioclubvenezolano.org/concurso.htm

ZK2, NUIE (Op Cancelled). Bill, VK4FW, informs OPDX that the upcoming major operation scheduled for Nuie (ZK2) has been cancelled until further notice. He deeply regrets to inform all of you that his loving wife has been very ill for a long time now, and she is suffering with lymphoma cancer. Bill states, "We have a long hard road ahead. I would realize that many of you will be bitterly dissappointed, but rest assured, we will eventually make the journey." OPDX and its readers would like to send out our best and prayers to Bill's wife, and hope that she can fight this battle and recover.

The following stations are expected to be active in the
CQ World Wide DX RTTY Contest (September 29-30th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers wih the following
consolidated listing of the participants in the 2007 CQWW RTTY Contest. For
a more detailed listing (and up-to-date changes/corrections) in HTML
format, please visit Bill's Web page at:
http://www.ng3k.com/Misc/cqr2007.html

DXNL 1539 - Oct 3, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A5 - BHUTAN
Kunio Saito,A52VE (JA8VE), had to leave Bhutan on Sep 3 due to health problems. He intended to stay until March 2009.

FM - MARTINIQUE, NA-107
Philippe (ex F8EFU) will live on Martinique (NA-107, DIFO FM-001) for a longer period of time. After hurricane "Dean" he has no telephone or internet at the moment but his radio is working and he is active as FM5LD mostly in CW on 30m. He is running 50 watts into a dipole and plans to put up more wires in the near future. Please send your QSLs via the FM bureau or direct to Philippe Schlegel, Caserne Redoute, BP 616, 97261 Fort de France, Martinique, via France.

FO - CLIPPERTON ISLAND, NA-011
TX5C will be the callsign of the DXpedition to Clipperton scheduled for March 2008. The radio amateurs will be accompanied by a scientific team which is going to study the ecosystem of Clipperton.
The latest information is published at: http://www.clipperton2008.org

H40 - TEMOTU ISLANDS, OC-178
Mike,KM9D, and Jan,KF4TUG, have left Wallis and Futuna and are now on their way to Tikopia Island (OC-178) in the Temotu province. Their call will be H40MY but is not known how long they are ging to stay there. Their QSL manager is OM2SA.

HV - VATICAN CITY
IK0FVC has got the permission to use the callsign HV50VR, "VR" stands for Vatican Radio. Vatican Radio celebrates its 50th anniversary at the moment and the callsign was first aired on Sep 27. Activities can be expected in the upcoming major contests. Unfortunately the QSL manager IW0GPN confirms only direct, but the logs will be uploaded to the LoTW. IK0FVC has also put a new station on the air with HV6SP.
QSL also via IK0FVC, only direct and not very reliably so some rumours

say he collects bucks instead of stamps.

T6 - AFGHANISTAN
Ross (ex VK1UN, VK8UN, 4W6UN, EX1UN) is now active as T61AA from the city of Faizabad. The length of his stay is not known but he was heard on 20m after 1200 UTC and on 17m after 0500 and 1330 UTC.
T6 is the new official prefix for Afghanistan, YA calls are not issued anymore. The QSL route for T61AA is via Ross Ballantyne, PO Box 99, World Trade Centre, Victoria 8005, Australia.

TK - CORSICA, EU-014
Mike,TK/DL3VTA, and Wolfgang,TK/DL1DVP, will be active from Corsica (EU-014) in SSB/CW/RTTY/PSK31/63 from Oct 7-14.
QSLs direct or via bureau to their homecalls.

VK9/L - LORD HOWE ISLAND, OC-004; VK9/N - NORFOLK ISLAND, OC-005
Jack,HB9TL/VK6CTL, will be QRV from Lord Howe Island (OC-004) signing VK9CLF in SSB on 80-10m from Oct 8-18.
After that he will activate Norfolk Island (OC-005) as VK9CNF from Oct 19-25. QSL cards should be sent direct via HB9QR.

ZL7 - CHATHAM ISLANDS, OC-038
Jacek,ZL7/SP5EAQ, Wojciech,ZL7/SP9PT, Marek,ZL7/SP9BQJ, and Jozef,SP9-31029, will be active in SSB, CW and RTTY from Oct 5-18.
QSLs via homecalls.

3B7 - ST BRANDON ISLANDS, AF-015
3B7C went QRT on Sep 25 at 0331 UTC. After loggging 135.500 QSOs 3B7C is ranking third after D68C and 3B9C in the list of the DXpeditions with the most QSOs. Here is the band and mode breakdown:
10m - 7.958 30m - 13.460 Phone: 51.754
12m - 8.851 40m - 19.906 CW: 79.217
15m - 18.887 80m - 13.267 RTTY: 6.549
17m - 21.052 160m - 2.922
20m - 31.577
All details about 3B7C can be found online at: http://www.3B7C.com

3C - EQUATORIAL-GUINEA, AF-010
Fred,KH7Y, Vic,EA5YN, Luis,EA5BRE, and Elmo,EA5BYP, will show up as 3C7Y from Equatorial-Guinea from Oct 5-14 and the team states this is the first activity since five years. The team will be active in CW/SSB/RTTY on all bands from Bioko Island (AF-010) and one station per mode shall be active all around the clock. They have beams for 6/10/15/20m, a rotary dipole for 40m and normal dipoles for the other bands.
QSLs via EA5BYP. Further information can be obtained from their website http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

5H - TANZANIA
Pat,W8FV, is going to put up his expedition tent on the southern lake-front of Lake Victoria from where he will be QRV as 5H9PD from Oct 6-9.
QSLs via W8FV.

7Q - MALAWI
Ely,IN3VZE, is spending his holidays on the southwestern lakefront of
Lake Malawi. Listen for 7Q7CE on all bands from Oct 4-25.
QSL via bureau to IN3VZE or direct to:
IN3VZE, Ely Camin, Corso 3 Novembre 136/2, 38100 Trento, Italy.

9Q - DEMOCRATIC REPUBLIC OF CONGO
John,SM5DJZ, is the new QSL manager of 9Q1TB and 9Q1EK, after their
last manager SM5DQC passed away. Direct QSLs should be sent to:
Jan Hallenberg, Vassunda Andersberg, SE-741 91 Knivsta, Sweden.
The logs will still be uploaded to the LotW and online logs are still
available at: http://www.logsearch.de

FRANCE, SPECIAL EVENT STATIONS
TM0VDM will be QRV from Oct 6-19 to celebrate the 100th birthday of
the poet Maxence Van der Meersch (1907-1951). QSL via F5KEB.

SWITZERLAND, SPECIAL EVENT STATIONS
HB9SPACE will be active during the World Space Week from Oct 4-10.
To celebrate the 50th anniversary of astronautics there will be special
activity by the Swiss astronaut Claude Nicollier,HB9CN, from the museum
of military aviation "Clin d'Ailes" in Payerne on Oct 6.
QSL via bureau to HB4FR.
His operating schedule and details can be found at: http://www.hb4fr.ch

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

UPCOMING CONTESTS

Oct 1-7: CW activity week of the German DTC e.V.
Oct 2-4: YLRL Anniversary Party
Oct 3: German Telegraphy Contest (DTC)
Oct 6: European Sprint Contest and DARC Hell Contest 80m
Oct 6/7: Oceania DX Contest and IARU-Region-1 UHF/SHF Contest
Oct 7: RSGB 21/28 MHz Contest and DARC Hell Contest 40m

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
AS-146, BY4, Shandong Prov. N.E. Grp.: BY1TK/4 and BY1TT/4 are working from
Chang Dao Island from Oct 1-6. QSL BY1TK/4 via EA7FTR, BY1TT/4 via HC.

EU-001, SV5, Dodekanes: Andy,DL4OK (NX1S), plans to show up as SV5/NX1S in
QRP on 20m during his holidays on Kos Island between Sep 29 and Oct 13.
If possible he will also activate the old lighthouse Akra Ayios Foukas
(LH 1730, DOD 063). QSLs via bureau or direct to DL4OK.

EU-010, GM/MM, Outer Hebrides: The Workington & District ARC plans to become
active from Barra Island signing MS0WRC from Oct 6-12. They also intend

to make short trip to the islands Vatersay and Eriskay.
QSLs via MX0WRC or G0MTD.

OC-142/VK4/QLD State Centre Group; OC-160/VK4/QLD State North Group,
OC-171/VK4/QLD State South Group: Chris,DK2CRN (VK2AMB/4), and
Georg,DL1ECG (VK2ALU/4), will visit following islands from Oct 16-26:
Fraser Isl./OC-142 (WLOTA LH 2976), Heron Isl./OC-142, Dunk Isl./OC-171
and Hamilton Isl./OC-160. They will run 100 watts into a double Zepp
and an Outbacker. This is a holiday activity and no DXpedition!
QSLs via homecalls (direct/bureau).

Archive-name: radio/ham-radio/recruitment
Revision: 1.1 2007/09/29 18:42:47
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.
```

October 8, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, KL2A, W2GB, KA3UNQ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4JKC, K8YSE, W9ILY, N0NJY, DX-IS News Site, Pete's-DX-Newsdesk, CT1END, DK8JB, DL7MAE & The DX News Letter, EA5ON, EA5RD, F5NQL & UFT, G1VDP, G0IAS, I1JQJ/IK1ADH & 425 DX News, IT9DAA, IZ7AUH, JI6KVR & IOTA-JA News, OZ5AAH, RSGB IOTA Web Site, VA3RJ & ICPO, VE3ZZ, YV5GRB and YT1HA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 30th/September, through Sunday, 7th/October there were 197 countries active. Countries available: 3A, 3B6, 3B8, 3C, 3D2, 3DA, 3V, 3X, 4J, 4L, 4O, 4S, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EY, F, FG, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JD/o, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PY, PY0F, R1FJ, S5, SM, SP, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V5, V7, V8, VE, VK, VK9N, VP8, VQ9, VR, VU, XE, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZD7, ZD9, ZK2, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3C, EQUATORIAL GUINEA. Operators Fred/KH7Y, Luis/EA5BRE, Vic/EA5YN and Elmo/EA5BYP are now active as 3C7Y from Bioko Island (AF-010) until October 14th. Activity will be on all bands and modes SSB, CW and RTTY. QSL via EA5BYP. Visit the team's Web page at: http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

3D2/R, ROTUMA (Update). Tony, FO5RK, who is planning a DXpedition to Rotuma (OC-060), is expected to be active as 3D2AG/P starting on December 15th, and lasting until January 20th or so, depending on transportation schedules. Antoine will leave for Rotuma from Suva, Fiji, via an inter-island shipping vessel which takes 48 hours to reach the isolated island some 500 km to the northwest. There is no main electricity or adequate supplies of fuel or any other commodities on the island, so all necessary items will need to be taken by boat. Tony will be managing his own QSL requests upon his return home. QSL only direct and please include either 2 USDs or 1 IRC with a SAE for your QSL card. The QSL cards are being printed by UX5UO and the DXpedition is being sponsored by SPIDERBEAM. Upon Tony's return home, he will have his log available online at: http://www.3d2ag.fr.tc/
QSL requests should be mailed direct to Tony at his QRZ.com address.

4U50, UNITED NATIONS HQ (Special Event). Look for 4U50SPACE to be active at various times from the United Nations HQ (4U1UN) through October 10th. Activity is to celebrate the 50th anniversary of the launch of Sputnik. QSL via HB9BOU.

5Z4, KENYA. Miki, YT1CS, is once again in Africa and is active as 5Z4/YT1CS as of October 6th. He is expected to be in the Coast Province South Group (AF-067) until the end of the month. Look for him to be active in the CQ World Wide DX SSB Contest (October 27-28th). He will be active mainly on SSB using a TS-450S into a vertical antenna for 40-10m, and a dipole for 80m. QSL direct to his home address.

6W, SENEGAL. Jacques, F6BEE, will be active as 6W1RW starting November 19th. He plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via F6BEE, by the bureau or direct.

6Y, JAMAICA (Update/Correction). John, W2GB, will be active as 6Y0B from October 23-30th. He states that he will be active before and after the CQ World Wide DX SSB Contest (October 27-28th). QSL via W2GB.

6Y, JAMAICA. Rick/N0NJY and JoAnne/KB0IRW will be active as homecall/6Y5 from Runaway Bay, October 12-14th. Activity is to celebrate their 30th wedding anniversary and 18 years as hams together! QSL via N0NJY. Rick informs operating times will APPROXIMATELY between 1700-2100z on Friday and Saturday, and 1700-2000 on Sunday. It will be a split frequency operation during operations hours on 14190 +/-10 kHz (Listening 14200-14230 +/- 10 kHz). Equipment will be an ICOM IC-735, Alinco Power Supply, and a homebrew antenna. Visit their Blog site for more information, comments, pictures, and QSL information at: http://jamaicadxpedition2007.blogspot.com/

9K, KUWAIT (Correction/Update). Jon, KL2A, will be active as 9K2HN (not 9K2A) during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL direct or by the bureau to 9K2HN. More information will be available at: http://www.kl2a.com

A5, BHUTAN. Kunio, JA8VE (A52VE), had to leave Bhutan on September 3rd due to health problems. He intended to stay until March 2009.

AH0, MARIANA ISLANDS. Members of the Aquarius Beach Tower Contest Club will be active as AH0BT from Saipan during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. QSL via 7L1FPU.

BX5, TAIWAN. Jimmy, BX5AA, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. Jimmy states that BX5 is a rare prefix for Taiwan (CQ 24). QSL via BX5AA.

CE2, Chile (Pacific Coast). Roberto, YV5IAL, will be active as CE2/YV5IAL between October 15-21st. This will be a QRP, portable, holiday style operation using a Yaesu FT-817 ND (5 watts QRP Rig) into a Buddistick (portable/vertical antenna). Activity will be on PSK31 digital mode on 4070.15 kHz everyday from 2200-0000z and occasionally on 40/15/10 meters (No 30/17/12m). QSL via the bureau or direct to his home callsign (see QRZ.com).

CN, MOROCCO. M'hamed, CN8NK, will be active as CN4P during the CQ World Wide DX SSB Contest (October 27-28th). Operating class was not provided. QSL via EA5XX.

DXCC NEWS (DXCC 'Applications Received' Web Link). Bill Moore, NC1L, ARRL DXCC Manager, states, "Ever wonder when DXCC received your application? Well, there is a feature on the DXCC Web site that allows you to verify that it has been received, and when! To determine this, visit the DXCC Web site at: http://www.arrl.org/awards/dxcc
Near mid-page there is a link titled "List of DXCC Applications Received" After clicking this link the callsigns and date logged into the DXCC computer will appear here. Callsigns are listed alpha-numerically. (note, this is not the date received from the post office, it is the date your application was logged into the DXCC system. This date could be several days after receipt from the post office).
At the top of the page is a date. This date is always the Friday of the current estimated period DXCC is mailing applications. (Note: It may or may not be the exact date). Due to the sheer volume of applications that pass through DXCC, applications before and even after this period may be in progress.
Can the approximate turnaround time be determined by this? While not exact, yes, the turnaround time can be estimated:
Using the current date look at the mailing date. The difference between these two dates is the approximate turnaround time. (eg: If today's date is September 10, 2007 and the date shown on the web page is June 22, 2007, the estimated turnaround time can be determined to be approximately 2.5 months. Again, this is only an estimate.)"

EA6, BALEARIC ISLANDS. Duncan, EA5ON, will be operating as EA5ON/6 for the CQ World Wide DX SSB Contest (October 27-28th), possibly as a Single-Op/Single-Band (80m - although yet to be determined). He "may" also operate as EA6/GM7CXM during his off time.

GW/MW, WALES. Members of the Wythall Radio Club and Contest Group, along with some friends, will be on the air from a group member's farm on the Pembrokeshire coast in West Wales during the CQ World Wide DX SSB Contest (October 27-28th). The group will be using the club's callsign MW5W and enter the contest as a Multi-Multi entry with three stations. The team will consist of: Chris/G1VDP, Tim/M3SDE, Charles/M0OXO, Oliver/M3SDO, Ant/MW0JZE, Villiam/OM0AAO, Ian/M0KCM, Neil/M3POV (Novice Op, First Contest), Daz/MW5HOC and Rob/MW0RLJ (the Host and Farm owner). Some of the operators will be on the air before the contest signing their own callsign. For example, G1VDP will become GW1VDP, from the Farm. G1VDP will also be operating some CW and DATA from the location in the days before the contest. The group will also have the option of adding 3 additional stations if they choose. The reference numbers are: Loc: IO71LX, WAB: SM83 PEM (Pembrokeshire), Lat: 05:04:53 W and Long: 51:59:41 N. QSLs for this operation will be available via the QSL Manager M3SDE (see QRZ.com).

H40, TEMOTU PROVINCE. Reports indicate that operators Mike/KM9D and Jan/KF4TUG have anchored their boat off the shore of Tikopia Island (OC-178). They are expected to be active as H40MY very soon (probably by the time you read this).

IOTA NEWS.....
EU-031. Helmut, OE1MHL, will be active as IC8/OE1MHL from the Island of Ischia (IIA NA-001, MIA MI-042, WLOTA LH-0689), October 7-12th. Activity will be holiday style on all bands from 0500-0900z and from 1700-2000z. QSL via his home callsign.

NA-088. Tom, W4JKC, will be working at a biological field station on the Isla Colon in the Bocas del Toro Province Group from October 12th to November 2nd. Activity will be limited as time permits. Look for him on 40/20/18/15/10 meters CW and SSB. QSL via W4JKC.

OC-193. Operators Wally/VK6YS, Nigel/VK6KHD and Bruce/KD6WW will be active as VK6CHI from Cheyne Island from about 0900z, October 12th to about 2400z, October 15th. Activity will mainly be on 40/30/20 meters, CW and SSB. QSL direct to VK4AAR:
Alan Roocroft, 376 Old Toowoomba Road, Placid Hills, QLD 4343 Australia. ADDED NOTE: Remember, Wally/VK6YS and Bruce/KD6WW will also be active as VK6YS/p from Rottnest Island (OC-164, WLOTA LH-2197), possibly between 1100z, October 15th to 0300z, October 17th.

SA-090. Look for a second YL DXpedition organized by the 4M5DX group to take place from Chimana Grande Island (DIV-008 for the Venezuela Islands Award), December 12-16th. YL operators will sign YW6YL, and the team of operators include Andreina/YY4AND, Carolina/YY4CVI, Laura/YY4LCG, Maika/YY5ALO and Ydorca/YY5EVA. QSL via IT9DAA, direct preferred but the bureau is OK. More information can be found at: http://www.yw6yl.4m5dx.org/

IQ, ITALY. Look for the Strange Radio Team HQ Station, IQ8OM, to be active during the CQ World Wide DX SSB Contest (October 27-28th). Operator mentioned will be Oreste, IZ8EDJ. He states that a special QSL card will

be printed. QSL via IZ8EDJ, by the bureau.

LIGHTHOUSE & US-I ACTIVATION. Special Event Station W3B will make a second attempt to operate from the site of the Blackistone Lighthouse, ARLHS USA-060(H), on St. Clements Island, Maryland (US-I MD-028R) from approximately 1400z to 2000z on Saturday, October 13th. Two operators will be on the air utilizing 40/20/17 meters SSB only. QSL is via SASE to KA3UNQ. (See complete instructions on QRZ.com.)

NH2, GUAM. Koji, JL3RDC, will be active as NH0DX/NH2 during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via JL3RDC.

OH0, ALAND ISLAND (UPDATE). Operator Ari, OH5DX, informs OPDX that there will be three Single-Band entries from the Radio Sporting Team site (OH0Z) during the CQ WW CW Contest (November24-25th). Please look for OH0M (by OH1JT) on 160m, OH0Z (by OH5DX) on 15m and OG0Z (by OH1RX) on 10m. QSL OH0M via OH1MM, OG0Z and OH0Z via W0MM.

P29, PAPUA NEW GUINEA (Updates/New IOTAs). Operators Luis/CT1AGF, Derek/G3KHZ, Steve/G4EDG and Hans/SM6CVX have finished up their operation on Takuu Island (OC-283) on Saturday, and as this was being written, the team should be on their way to Kilinalau Island (OC-256, aka Tulun Islands). It will be an 18 hours trip to OC-256, and they hope to be active for two days. They will try to be on the air the same day they arrive. The report from Carlos, CT1END, by the team states, "We have 4 rigs, one for each of us. Everyone operates for as long as he can, but eventually fatigue takes over and we are sorry for some mistakes we make when we start falling asleep while operating!" Look for them to possibly sign as P29VLR before returning to Buka. QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via SM6CVX. The group is looking for support from the ham community. More details and updates are available on their Web page at: http://www.rep.pt/P29-PapuaNewGuinea/
PLEASE NOTE: QSL Manager SM6CVX wants to remind everyone that postage from Sweden is 11 SEK to any place outside Sweden, even to Europe and Scandinavia. This is the same as 2 USDs. So for a direct reply from P29VCX and P29VLR, please send 1 IRC or 2 USDs.

P3, CYPRUS. Operators Bob/5B4AGN, George/5B4AGC, Stephen/G3VMW, David/G3NKC, Peter/G4MJS, Martin/G4XUM, Phil/GJ4CBQ and Andy/ZC4VJ/G3AB will be active as P3F during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. PLEASE NOTE: QSL via G3NKC "ONLY" for this operation.

PZ, SURINAME. The 4M5DX Group is organizing a DXpedition to here to take place in the first half of January 2008. A multi-national team of skilled and experienced operators is being put together, and their plans are to have three stations active for 10 days. They will operate as PZ5YV on all bands (160-6 meters) CW, SSB and RTTY. Team members mentioned are: Olli/OH0XX, Spiros/SV8CS, Pedro/HK1X, Alex/YV5SSB, Ramon/XE1KK, Jose/YV5TX, Diego/LU8ATX, Pasquale/YV5KAJ and Ramon/PZ5RA. They are currently looking for financial assistance to help offset the costs. For more information, please visit: http://pz5yv.4m5dx.org/

For a full colored QSL card, please QSL via IT9DAA (direct or by the bureau).

5W0RE QSL STATUS. OPDX has had a request to find out the status of the 5W0RE QSL cards. Last report we saw was at the end of July. Has anyone received a card after this?

John, W9ILY, informs OPDX that QSLs for his recent FP/W9ILY operation are now available on LoTW.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accum-alated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

QSLS RECEIVED VIA MAIL: 1A0KM, 3B7SP, 7U5CI, 9M6XRO, BS7H, CN2BC, EP3HF, F6DWQ/mm, FO/N6JA, FW0MO, HD2A, HI0C, HP/CX4CR, HR1LW, J5UAP, KH6QR, R0UPOL, S21RC, V63JJ, VR10XMT and VR2C

SILENT KEY. Allan, G0IAS, informs OPDX that Jock Perrett, ZS1ZI, on Thursday, September 13th, became a Silent Key. He would have been 90 years old in Novemeber. Allan, states, "LOTS of people worked old man Jock... with all his callsigns from Africa... BRILLIANT CW op of the old school..." OPDX and its readers would like to send out our deepest sympathy to the families and friends of Jock.

SRT'S WWDXT WINNER. The Strange Radio Team has announced the results of their "World Wide DXpedition Trophy" (WWDXT). The SRT's WWDXT will be awarded to the N8S DXpedition. For complete results, visit the SRT's Web site at: http://www.strangeradioteam.com/wwdxt
The award will be given to the winner in April 2008 during the next SRT DX Convention in Paestum.

SU, EGYPT (Update). Gab, HA3JB, is now active as SU8BHI from Cairo until November 30th. Activity will be on CW, RTTY, SSTV, PSK and some SSB. He was heard this past week on 80/40/20 meters. He was also heard in the CQ WW RTTY DX Contest (September 29-30th). Look for him to be active in the CQ WW DX SSB Contest (October 27-28th). QSL via HA3JB. More information will be available at: http://www.qsl.net/ha3jb

T4, CUBA. Operators CO8DM, CO8KA, CO8MA, CO7RR, CO7GG and CO8ZZ will be active as T48K from their radio club station in Las Tunas during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Op/All-Band entry. QSL via DK1WI.

T6, AFGHANISTAN (Update to OPDX.826). John, KE6GFF, will once again operate as T6EE from Kabul between October 18th and November 13th. It is suggested to look for him on SSB on or about 14210 kHz. Activity will have an emphasis on North and South America, and the CQ DX World Wide DX SSB Contest. QSL via his home callsign: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651.

TK, CORSICA. Operators Wolfgang/DL1DVP and Mike/DL3VTA will be active as TK/DL1DVP and TK/DL3VTA from Corsica (EU-014, DIFM TK-001, WLOTA LH-1390), October 7-14th. They plan to operate CW, SSB, RTTY and PSK31/63. QSL via their home callsigns, direct or by the bureau.

TX5, CLIPPERTON ATOLL (Special Commemorative Envelope). In commemoration of the 30th anniversary of FO0XA-H, a special French postal envelope has been issued. See Web page at: http://www.clipperton2008.org/Special.htm To receive both special commemorative envelopes, send 15 USDs and 2 USDs or 1 IRC with a SAE to: Danielle DUCHAUCHOY, 21 rue de la Republique, 76420 Bihorel, FRANCE. They are available in English as well. Be sure to designate which version on your request. Paypal is accepted to: f6bfh@f6bfh.net

UT, UKRAINE. Ben, OZ5AAH/OZ5IPA will be active as UT/OZ5IPA from Kiev Borispol, Ukraine, from October 30th to November 7th. Activity will be on CW and SSB using a wire antenna (if nothing better turns up). He will, as usual, particitate in "The International Police Association's Contest (November 3-4th). This will be a new country for all the IPA awards. QSL via his homecall direct: Ben Jakobsen, Gjethusparken 25, DK-3300 Frederiksvaerk, Denmark.

VC2, CANADA. Operators Noel/VE2BR and Gregg/VE3ZZ will be active in the CQ World Wide DX SSB Contest (October 27-28th) from Mercier, Quebec (Zone 5, Grid Loc FN35dh), using the special call VC2Z. QSL via VE2BR.

VK, AUSTRALIA (Also IOTA Ops). Operators Christoph/DK2CRN and George/DL1ECG will be active as VK2AMB and VK2ALU, respectively, October 9-27th. They also plan to activate Fraser Island (OC-142, WLOTA LH-2976), Heron Island (OC-142), Hamilton Island (OC-160) and Dunk Island (OC-171) between October 16-26th. Their activity will be mainly holiday style. QSL via their home callsigns, direct or by the bureau.

VK9L & VK9N, LORD HOWE and NORFOLK ISLAND. Jack, HB9TL, is expected to be active this week from Lord Howe Island (OC-004) as VK9CLF from October

8-18th. He also expected to be active from Norfolk Island (OC-005) from October 19-25th. Activity from both islands will be on 80-10 meters mainly on SSB. QSL direct via HB9QR.

VP6D, DUCIE ISLAND. According to a press release by Carsten, DL6LAU, Team leader, the VP6DX team is still very busy preparing the equipment for a shipment in November. There have been some changes since the last report. He states, "Unfortunately Jan, DJ8NK, and Martti, OH2BH, had to withdraw but we were fortunate to complete the team with some very skilled operators. These are Ben - DL6FBL, Tonno • ES5TV, Harry • RA3AUU and Cliff • SV1JG. So here is the list of people who will head out to Ducie in February 2008 and give you this rare one: DL3DXX, DL6FBL, DL6LAU, DL8LAS, ES5TV, K3NA, N5IA, RA3AUU, SP3DOI, SP5XVY, SV1JG, UA3AB and WA6CDR." Carsten also states that they are "eagerly waiting to give the Elecraft K3s the real test on Ducie. ACOM amps are already packed, microHAM micro Keyer II for all stations should arrive soon and will be used between the radios and the PCs. The new YT6A high-power band pass filters after each amplifier should help to reduce interference between stations even more."
On donations, Carsten states, "Donations prior to our departure are very important for us because basically all of the expenses (Braveheart charter and container shipment) have to be paid way before we actually depart, and the team members already paid what I would call a more than adequate share. Each of them put in 6,200 USDs,- and will pay the own transportation by air to Mangareva (FO). We are deeply grateful to the NCDXF, who contributed 20,000 USDs, - towards the costs. Without NCDXF it would be hardly possible to run a expedition like VP6DX. Please consider joining NCDXF and become a contributor to NCDXF in its 35th year as a premier sponsor of expeditions and the Beacon system. A big thank you also goes to the individuals who already sent in a donation. Even with the generous donations received so far and the contribution of the team members, we are still lacking about 50,000 USDs, - as of September 21st. We again would kindly ask you to check if you could help too. Details on how you can help can be found in the •How To Help• section."
Visit the VP6DX Web page at: http://www.vp6dx.com
Carsten states, "We are putting more content to these pages in regular intervals. If you are interested to receive a newsletter from us automatically, just visit the News section and leave your e-mail there. During the next weeks we will be busy to build the remaining antennas and prepare the container shipment with radios, amplifiers, antennas, generators and the like..... 73sss in behalf of the VP6DX team
Carsten, DL6LAU • Teamleader"

ZL7, CHATHAM ISLANDS. Polish operators Jacek/SP5EAQ, Wojtek/SP9PT, Marek/SP9BQJ are now active as ZL7/homecall until October 18th. The team is also accompanied by Jozef, SP9-31029. Activity is on all HF bands using CW, SSB and RTTY. QSL to their home callsigns.

C5 - GAMBIA
After their successful DXpedition to Mauritius Island last year
Rich,OM2TW (team leader), Bob,OM1KW (CW/SSB OP), Joe,OM5AW (CW/SSB),
Roman,OM2RA (CW/SSB), Noro,OM6NM (CW/SSB), and Dano,OM1NW (digi/SSB)
of the "Mosquitos Contest Club" (OM0C) will show up from Gambia from
Oct 17-30 this year. Activities will take place as C52C with up to
four stations running simultaneously on 6-160m focussing on the
Top band 160m. Their plans include a participation in the upcoming
CQWW SSB Contest signing C50C and also a short trip to the island
Bijol (AF-060). The QSL manager is OM2FY, he confirms direct or via
the bureau. More information can be found online at:
http://www.om0c.com/gambia

CE - CHILE
Roberto,CE2/YV5IAL, will be QRV with from the Pacific coast using his
QRP equipment (5 watts) on 10/15/20/40m from Oct 15-21. He will try
to<work in PSK31 on 14070.15 kHz every day from 2200-0000 UTC.
QSLs via bureau to YV5IAL.

VK - AUSTRALIA
It is only little known that Australia issues also suffixes with four
letters. These are novice licenses and more of 1.000 of them have been
issued so far. The suffix always starts with a "F". Raj,VK4FRAJ, the
12 year old son of VK4AN is the only one known to work also in CW and
sometimes it is not very easy for him to explain that in CW. Raj works
with only 3 watts, a vertical and a logperiodic and is momentarily
working on his DXCC award. He is awaiting every QSL arriving via the
VK4 bureau or via the direct address of his father VK4AN:
Eddie, 17-19 Ross St, Maryborough, QLD 4650, Australia.

YK - SYRIA
Amateur radio is officially allowed in Syria for 60 years now. HAMs are

allowed to use the prefix 6C60 instead of YK between Oct 15 and Nov 11.

LU - ARGENTINA
The Grupo Argentino de CW (http://gacw.no-ip.org) celebrates its 30th anniversary this year and the festivities take place in "Morse" in the province Buenos Aires. LU1DZ/E, LU5FZ/D, LU6UO/D, LU7BTO/D, LW1EXU/D and LW2DX/D will be QRV from there with two stations on 160-10m from Oct 12-15.

T31 - CENTRAL KIRIBATI
Toshi,JA8BMK, destroyed his amplifier as T30XX on Tarawa and therefore cancelled his activity as T31XX. On his way back home to Japan he hit the airwaves as 3D2WW shortly.

YV - VENEZUELA
The Radio Club Venezolano organizes an activity from Portuguesa using the call YW3AJ in all modes on all bands.The operation takes place from Oct 11-14 and counts for the Venezuelan States Award. QSL via YV5AJ. Their website is: http://www.radioclubvenezolano.org/concurso.htm

4N - MONTENEGRO
Toby,DD5FZ, is going to hit the airwaves as 4N6FZ from Oct 15-27. He may be also a guest op at the station of YT6A and plans to take part in the CQWW SSB and the WAG Contest. QSL via DD5FZ, via bureau is ok.

5Z - KENYA, AF-067
5Z4/YT1CS showed up from AF-067 on Oct 6 and will stay there until the end of the month. OM Miki is using a TS-450S, a vertical for 40-10m and a dipole for 80m, works mostly in SSB and plans to take part in the CQWW SSB Contest. QSLs direct via his homecall.

6Y - JAMAICA, NA-097
Rick and JoAnne Donaldson are celebrating their 30th wedding anniversary and 18th year on air from Oct 12-14. Listen for N0NJY/6Y5 (Rick) and KB0IRW/6Y5 around 14190 kHz. QSLs via homecalls.

SOUTH PACIFIC
Larry,N0UU, and his XYL Jo Ann are travelling through the South Pacific and Larry plans to activate following DXCC entities and IOTA Islands:
Oct 15: FO/N0UU Makatea
Oct 16: FO/N0UU Fakarava
Oct 17: FO/N0UU Raroia
Oct 19: FO/N0UU Pukara
Oct 23: VP6UU Henderson Island (OC-056)
Oct 24: VP6UU Ducie Island (OC-182)
Oct 27: CE0/N0UU SA-001
Larry's preferred frequencies are 21.290 and 14.215 MHz but he has been spotted also in SSB on 17m. He confirms all QSOs also via bureau and invites everybody to visit his homepage at: http://www.tri.net/n0uu

4TH STRANGE RADIO EVENT
Once again the Italian "Strange Radio Team" (SRT) organizes an event which lasts from Oct 19, 0600 UTC, until Oct 21, 2200 UTC. Following

stations from all over the world will activate a special event call:
call QSL route
AO8SRT IZ8EDJ
CQ7SRT CT1BWW
DZ1SRT DU1IVT
HP1SRT HP1WW
L30BST IZ8EDJ
V55SRT IZ8EDJ
W1SRT W3IZ
YT07SRT YT3W
II0SRT IZ0BTV
IS0SRT IS0LFZ
IR2SRT I2JJR
II5SRT IZ5BTC
II6SRT IZ6FZS
IR7SRT IZ7CRW
All stations are working in SSB, more information about an award or
a plaque can be found at: http://www.strangeradioteam.com

IRELAND, SPECIAL EVENT STATION
Guglielmo Marconi sent the first commercial radio message from an
Irish place called Clifden on Oct 17, 1907. Members of the Galway Radio
Experimenters Club will activate the callsign EI100MFT from Oct 13-17.

KAZAKHSTAN, SPECIAL EVENT STATION
Sputnik 1 started the era of modern spaceflight 50 years ago. The OPs
UN7SW, UA9LAK/UN, UN7FW, EU1FC, RV3AR, RN3ADS and RU3AWD are activating
the special event station UP50SAT from the spaceport Baikonur during
the month of October. QSL via bureau to RV3AR.

THE NETHERLANDS, SPECIAL EVENT STATION
PA50JOTA from Nieuweroord is celebrating the golden jubilee of the
"Jamboree On The Air" from Oct 17-31 (http//www.scoutnet.nl/~jota).
QSL via PA3EFR.

SILENT KEYS
Dimitar,LZ5AZ, one of the founding members of the World Wide Young
Contesters, passed away at the age of 23 on Oct 2. The DX community
bemoans also the loss of the wellknown Ukrainian DXer Alexsandr
Kuznetsov,UY5EG, and the Spanish EME enthusiast Jose Maria Prat,EA3DXU.

I've been trying to get a 160 QSL from HA8FM...sent two envelopes with
$enclosures but haven't gotten any return...

Anyone have any information on this station...or email address...

Thanks!

73

Lou N2TU

:oï¿œ :oï¿œ
Hello I have also send qsl to JT1CO for 80 meter qso but nothing get
back
so also send several Emails to him but notany sign of him
Have amyone some idea of Cadrabaal is maybye on a long vacacion or
something ??
mayby have someone just receive a qsl from him ??
tnx
Rien, PA7RA

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, W2CG, K3GV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N5FG, N7OU, W7KFI, K8YSE, W8XGI, WX8C, N0HJZ, DX-IS News Site, Pete's-DX-Newsdesk, 2E1EUB, DK8JB, DL2VFR, DL7MAE & The DX News Letter, EA4ATI, F5NQL & UFT, GM4FDM, HA0HW, HP1AC, I1JQJ/IK1ADH & 425 DX News, IZ5FSA, JI6KVR & IOTA-JA News, RSGB IOTA Web Site, SU1SK, T93Y, VA3RJ & ICPO, VE7UQ and VK4FW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 7th/October, through Sunday, 14th/October there were 227 countries active. Countries available: 3A, 3B8, 3C, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, H4, H40, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V5, V7, V8, VE, VK, VK9L, VK9N, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK2, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M, SCOTLAND. Paul, 2E1EUB, will be active from northern Scotland between now and October 20th. Activity will be mainly on the satellites using the callsign 2M1EUB/P. QSL via his home callsign 2E1EUB.

3V8, TUNISIA (JOTA Activity). Look for special event stations 3V8CB and 3V8ST to be active October 19-21st. Activity is to celebrate the 10th anniversary of the Tunisia Scouts Amateur Radio Club. Activity will be on all bands, mainly CW and SSB. QSL only via the bureau. "NO DIRECT QSLs" with money/SAE please.

3Z50, POLAND (SPUTNIK Special Event). On October 4, 1957, at 07:28PM GMT, the Soviet Union successfully launched SPUTNIK I. The world's first man-made artificial satellite. Sputnik I was about the size of a basket-ball, weighed only 84 kilogram, and was a sphere about 0.6 meters in diameter. It took about 98 minutes to orbit the Earth on its elliptical path. When Sputnik entered orbit, it opened the Space Age. To commemorate this fact, a special event station 3Z50SPU was established by Roman, SQ2RH. The station will be on the air until the end of October. A special QSL card will be available after the event for all HAMS and SWL who made QSOs/SWLs with a special event station 3Z50SPU. QSL via SQ2RH.

4N6, MONTENEGRO. Toby, DD5FZ, will be active as 4N6FZ from October 15-27th. He will be a guest operator at the YT6A station and plans to take part in the CQWW DX SSB and the WAG Contests. QSL via DD5FZ, direct or by the bureau is "OK".

6C60, SYRIA (Reminder). Look for Syrian hams to use the special prefix 6C60 to celebrate the 60th anniversary of amateur radio in Syria during the period October 15th to November 15th on all HF bands.

6W, SENEGAL. Boris, T93Y, reports, "After successfully passing the HAM exam in Senegal, Jovica, T98A (ex.9K2/T94FC, ST0RM, ST2A, T94FC), has received his 6W1SJ license today. As during previous activities, you can expect most of his activities to be on CW, with some SSB and digital modes." Jovica will stay in Senegal for at least two years with great possibilities to activate other West Africa countries. QSL via T93Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina. Bureau and E-mail requests are OK (t93y@lol.ba or boris@t93y.com).

6Y, JAMAICA. Operators David/KY1V, Filipe/CT1ILT, John/W2GB, Robert/W5AJ Manu/LU9ESD and Gerald/W1VE will be active as 6Y1V between October 23-30th. QSL via OH3RB.

9U0A QRT. The 9U0A team went QRT Tuesday, October 9th at 0400z after making some 33,500 QSOs. The team is now back in Germany. They report that the pileups were huge until the end. They also regret that the team couldn't be more active on 160m (and 80m). The team experienced thunder-storms almost every day and this was the worst QRN they have ever heard on any of their DXpeditions which made reception almost impossible. They hope that the operation was able to provide you with a new one.
9U0A Band/Mode Breakdown is as follows:
CW SSB RTTY PSK31 SSTV WSJT Band
160m 127 0 0 0 0 0 127
80m 1721 0 0 0 0 0 1721
40m 2546 0 0 0 0 0 2546
30m 2781 0 660 0 0 0 3441
20m 4586 3464 970 149 0 0 9169

17m 4777 2471 741 200 50 0 8239
15m 4161 1081 925 0 0 0 6167
12m 1435 117 0 0 0 0 1552
10m 475 62 0 0 0 0 537
6m 0 0 0 0 0 5 5
Mode 22609 7195 3296 349 50 5 33504

The QSL route is via DL7DF, either by the German QSL Bureau (DARC) or direct to: Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany. More info, plus an online log as well as updates on their DXpedition will be available via the Web page at: http://www.dl7df.com/9u/index.html

A SPECIAL THANKS (Update on VK4FW XYL). Bill Horn, VK4FW, states, "Firstly let me say that we have been overwhelmed with messages regarding my wife so we would like to say a big thanks to all of you. Cheryl has started CHEMO and it has knocked her around which is the NORM from what we gather. She has expressed that I pass on her thanks for all the support received from the greater ham community..... regards to all...."
Bill Horner (VK4FW), Horner Transport Services, PO Box 612, Childers, 4660, Australia.

C5, THE GAMBIA (Reminder/Update). Members of the "Mosquitos Contest Club" (known as OM0C Contest Crew) are expected to be active from here between October 17-30th. The OM0C contest team will use the callsign C52C and C50C. The operators mentioned are: Rich/OM2TW, Bob/OM1KW, Joe/OM5AW, Roman/OM2RA, Norbert/OM5NM, Dano/OM1NW and Jan/OM2XW. Activity will be on all HF bands (160-10m) and 6m with an emphasis on the lower bands especially 160m. During their DXpedition the team will try to activate Bijol Island (AF-060). Currently, they already have a licence for Island, but still don't have permission for landing. It must be done personally in Banjul. (KYFC and stay tuned for any news.) QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P.O. Box 6, Bratislava 28, 82008, Slovakia. The DXpedition will QSL all correct SWL reports. For updates, visit: http://www.om0c.com/gambia/index.html

C6, BAHAMAS. Alan, WQ5W, announces his upcoming DXpedition to Treasure Cay, Abaco, Bahamas (IOTA NA-080, Grid Square FL16iq), October 25-31st. The Bahamas Public Utilities Commission has issued him the callsign C6AQW. The primary purpose of this trip is to operate as a 40m Single-Band/ Low-Power entry in the CQWW DX SSB Contest. Alan currently holds the 40m North American record in CQWW DX CW Contest as ZF2TG in 1992 and hopes to break the existing North American 40m Low-Power CQWW DX SSB Contest record during this operation. Outside the contest Alan will concentrate mainly on 160/80/30/17/12 meters CW/SSB plus RTTY on all bands. Alan says "I realize that C6 is not high on anybody's most-wanted list, but I hope to be able to help DXers out with needed band/mode countries to fill in C6 for their DXCC single band or mode or DXCC Challenge Awards." This DXpedition will be fully compatible with the ARRL Logbook of The World. Logs will be uploaded to LoTW throughout the DXpedition and immediately following its conclusion. Paper QSLs will

also be available via WQ5W direct with SASE or Greenstamp and via the bureau. Alan has set up a blog with complete details at:
http://wq5w.blogspot.com
Pictures and news from the trip will be updated before, during and after the DXpedition.

CN, MOROCCO. Anro, RV1AW, will be operating from the CN2R station as CN2AW during the CQ World Wide CW DX Contest (November 24-25th) as a Single-Op/Single-Band (20m) entry. QSL via RV1AW.

CT7, PORTUGAL (JOTA Activity). Operator Arlindo, CT1EGW, will be active with the special callsign CT7EPO, October 19-21st. Activity is to celebrate the Gold Jubilee of the JOTA Scout event (EPO stands for Escoteiros de Portugal). QSL via his home callsign, direct or by the bureau.

E5, SOUTH COOK ISLANDS. OPDX received an E-mail late Friday from Bill, N7OU, who is now active as E51NOU, stating (edited): "Arrived here on Rarotonga on Monday, October 8th, and have logged about 2300 QSOs--all on CW, of course. I've made most QSOs on 20 and 17m, with many grayline openings to Europe. The 'Grinder' jamming signal takes out 40m early in the evening, and condx on 30m have been marginal so far. For antennas, I'm using an autotuner at the base of a 29 ft. wire supported by a 10m pole, about 5m from the ocean. It won't load up on 80m, but performs great on 40-10m. The other antenna is the 20m 2 element vertical Moxon that Jim, E51JD, and I put up on Wed. It gives 2 S-units gain on 20m, which is enough to pull in weaker stations I can't even hear on the other antenna. It's no help on morning long path though..... My volunteer service here begins tomorrow, but I'll have lots of spare time for radio in the early morning and in the evening..... 73 de Bill N7OU/E51NOU"

EA8, CANARY ISLANDS (AF-004). Operators Jean/ON5JV and Georgette/ON6AK will be active as EA8/homecall from Tijoco Bajo, Tenerife Island (S-012 for the Spanish Islands Award, WLOTA LH-1276), between December 1st and January 31st (2008). Activity will be mainly on 20 and 40 meters during their evenings. QSL via their home callsigns, bureau is preferred.

EK0, ARMENIA. Polish operators Leszek/SP9LJD and Kazimierz/SP6AXW will be active as EK0B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. QSL via SP9ERV, by the bureau or direct.

HI, DOMINICAN REPUBLIC. Dani, EA4ATI, informs OPDX that he has moved from Senegal (6W) to the Dominican Republic (HI), where he has been for the past few months. He has received the callsign HI5/EA4ATI and his location is Pedernales, the last city on the southwest end of Dominican Republic on the border with Haiti (HH). QSL is via his home callsign. For the time being, Dani has only a dipole antenna and 100 watts, but he will make some noise during the next CQ Wide World DX SSB Contest with the HI3CCP team. They will use the callsign HI3C from this location: http://www.lomadeltoro.com/

HI, DOMINICAN REPUBLIC. Michele, IK5ZUI, is active as HI9/IK5ZUI from Las Terrenas. The length of his stay is unknown at the moment. Currently

he is using a long wire antenna and only 50 watts. More details are forthcoming.

HL9, SOUTH KOREA (JOTA Activity). In commemoration of the 50th anniversary of Scouting Jamboree on the Air, HL9BSA (Yongsan Army Post, Seoul, Korea) will be activated on Saturday, October 20th. QSL to WX8C.

HP, PANAMA (JOTA Activity). Members of the Radio Club de Panama will be using the special event station callsign HP1RCP during the 2007 JOTA Weekend from the Panama City National Scout Center, October 20-21st. A special QSL will be used. QSL via HP1RCP.

HZ, SAUDI ARABIA. Thomas, HZ1EX, will be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. He will operate at HZ1GW's QTH as HZ1GW or his own callsign. PLEASE NOTE: 80m is not available in HZ-land! QSL HZ1GW via GW0RHC or HZ1EX via SM0BYD.

IOTA NEWS.....
EU-008. (Early Announcement) Colin, MM0NDX, states that he will activate IOTA EU-008 for sure during the 2008 IOTA Contest (July 26-27th). He will use the callsign MM0NDX/p but has not yet decided which island he will activate:
Gigha Island (EU-008, IOSA NH-24, SCOTIA CS-23)
Kerrera Island (EU-008, IOSA FL-02, SCOTIA CN-02)
Colin will update the information in the coming year. QSL direct only to his home callsign.

EU-137. Ric, DL2VFR, informed OPDX that the team closed the operation down on October 13th with 6825 contacts from Ven Island. Please note thei QSL routes: SD7T via DL2RTK
SD7V via DL2VFR
SD7W via DL2SWW
QSL via the bureau (or direct if absolutely necessary). Do not send a QSL to the SM-QSL-Bureau. They will not be answered. SM7DAY/p of course confirms via the SM-QSL-bureau.

NA-128. (Update/Zone 2 Op). Three members of the Magnolia DX Association (MDXA) and two other operators will activate Orleans Island (QC-007)as VE3ZF/2 (CW and SSB) and W5GED/VE2 (RTTY and PSK) between October 18-21st. Also. look for them to be in the 2007 W/VE Islands QSO Party (October 20-21st) as VE2IDX. The group will then head to Zone 2 (Port Cartier) and be active as VE2Z for CQ World-Wide DX SSB Contest (October 27-28th). Operators mentioned are: Igor/VE3ZF/VE2IDX (MDXA - Team Leader), Ken/ VE3FDX, Travis/W5GED (MDXA), Bill/K5YG (MDXA) and Eugene/N2AA. QSLs for VE2IDX and VE2Z are via VE3ZF, by the Bureau or direct to: Igor Slakva, 105 La Rose Avenue, PH # 1410, Etobicoke, Ontario, M9P 1A9, CANADA. QSL all others callsigns via their home callsign. Their Web site has more information about their operation, including a log search and details on frequencies and modes at: http://www.ve2z.com

J48/SV8, GREECE (IOTA Op). A Hungarian team will be active using J48 and SV8/homecall callsigns from Thassos Island (EU-174), between October 24th and November 8th. They will operate on 80-10 meters plus 6 and 2 meters, using CW, SSB, BPSK31, MS and JT6M modes. Operators mentioned are: Gyuszi/HA2VR, Laci/HA6NL (J48NL), Zsolt/HA6PS (J48PS), Tibor/HA6ZV, Al/HA7JJS (J48JJ) and Laci/HA7PL (J48PL). They will also take part in the CQ World Wide DX SSB Contest (October 27-28th) as Multi-Single using the J48RT callsign. Also, look for them to take part in the HA QRP Contest (November 1-7th) and try to work in the Ukraine Contest too. For the first time this year the group will make a trip to the Ypsario mountain, and will be operating on 2 meters in the VHF Contest on November 2-4th. The QTH will be Kazaviti, and the QRA locator is KN20HR. QSL via the HA QSL Bureau or direct to the operator's own address (via QRZ.com). QSL J48RT via HA6NL.

KH3, JOHNSTON ISLAND. OPDX readers have been looking for an update on Susan's, W7KFI, trip and activity from Johnston Island. Well here it is. Susan informed OPDX this past weekend "It appears that the hurricane season's strength was greatly overestimated....as Mark would say. So if it stays down and no more come this way, I am planning on trying to get out of here just after November 1st during first week of November. Should be good weather then...trade winds should be in full force for a nice down wind ride." If you do not know about Susan, she is a 73 years old grandmother, Skipper of the USSV Dharma, and has been sailing all over the Pacific. This amazing lady is an interesting story. It is highly recommend to visit the following Web pages to see where she has been, and there is a Real Audio recording of her radio interview with Art Bell. Visit the Web pages at: http://ussvdharma.net
http://www.qrz.com/callsign/W7KFI

LX, LUXEMBOURG. Philippe, LX2A, will be active as LX7I during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL is OK via LX2A, by the Bureau, direct and LoTW (no EQSL). His Web page is: http://www.lx2a.com

NEW OFFICERS. At their October meeting, the members of the National Capitol DX Association (NCDXA) elected the following officers to serve in 2008:
Dick Mayott/W2YE - President Brian Bayus/N1KC - Treasurer
John Kanode/N4MM - Vice President George Vincent/K3GV - Secretary
Visit the NCDXA's Web page at: http://www.qsl.net/ncdxa

ON50, BELGIUM (JOTA Activity). Members of the UBA section GDV will activate the special event callsign ON50JOTA October 19-21st. Activity is to celebrate 50th anniversary (Golden Jubilee) of the Jamboree On The Air (JOTA). Operations will be on HF/VHF/UHF on the usual scouting frequencies. Skeds may be arranged via E-mail at: on50jota-at-mail.be

ON9, BELGIUM. Rich, N0HJZ, will be active as ON9CMV (semi-rare prefix) between October 24-30th. His activity will include an effort in the CQ World Wide DX SSB Contest (October 27-28th). Rich tells OPDX, "I'll have full power and large antennas for the effort." QSL direct to his home callsign or via LoTW.

P4, ARUBA. Marty, W2CG, will be vacationing here between December 17-31st and will be active as P40CG. He tells OPDX that "This time with a working antenna. Operating time will be limited to early mornings/late evenings (gotta keep XYL happy too)." His activity will be on 80-10 meters CW/SSB. QSL via his home callsign or LoTW.

PA20, NETHERLANDS (Special Event). Look for members of the Netherlands Airforce Radio Amateur Society (NAFRAS - PI4NAF) to be active as PA20NARAS between November 3-19th. Activity will be on HF and VHF. This activity is to celebrate the 20th anniversary of the Society.

PA50, NETHERLANDS (JOTA Activity). Look for special event station PA50JOTA to be active from Nieuweroord to celebrate the Golden Jubilee of the Jamboree On The Air between October 17-31st. QSL via PA3EFR. Visit their Web page at: http://www.scoutnet.nl/~jota

QSL INFO AND NEWS.....

8Q7WA via NN1N
AO0UIT via EA4RCT
AT0MWG via VU2SWS

FR/F5TNI QSLS. Laurent, F1JKJ, reports that a few stations asked him for help in the last months to get a confirmation from FR/F5TNI. He states that he called Didier, F5TNI on the phone and was told that he has lost the log in a hard-drive failure. Laurent says, "So no need to try again, no confirmation seems possible."

V8NOM AND HS0/G3NOM QSLS. Tom, GM4FDM, reports: "As you may know I have been Ray's QSL Manager for a number of years. Ray is extremely unwell and unlikely to recover from a severe stroke/heart attack. Over the past couple of years I have been able to respond to QSL requests to the above callsigns, but now I am running out of cards for HS0/G3NOM and have no cards for V8NOM. Before taking ill, Ray discussed the use of LOTW. I have taken the liberty of uploading QSOs for both the above calls to LoTW. I still have a few cards left so I am able to respond to a few more requests for HS0/G3NOM. You may also be aware that the use of 160 and 80m was restricted in Thailand, so please do not ask me about QSOs that are not in Ray's Log. I am unable to help. If it is NOT in LoTW then it's simply not there. I cannot put it there. I still have all Ray's other logs and plenty of blank cards. As the cards run out, I will upload further logs to LoTW.... 73 de Tom GM4FDM"

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accum-alated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

Effective immediately, the Incoming QSL Manager for VA5/VE5 is:
Joe Musgrave, VA5JM/VE5CEM, 729 - Fifth Street NE, Weyburn, SK,
Canada, S4H 1A4.

After 19 years of service, Dennis Livesey, VE7DK, has retired as BC
Incoming QSL manager. Taking over is Ken Clarke, VE7UQ. The new address
for the Bureau is: VE7-VA7 Incoming QSL Bureau, Ken Clarke, VE7UQ,
12441 - 58A Avenue, Surrey, BC, Canada, V3X 1X6.

QSLS VIA LOTW: 5W0FN, A35FN, BS7H, FW5FN,HS0/G3NOM, R1FJT and V8NOM

QSLS RECEIVED VIA MAIL: 1A0KM, 4A3IH, 7U5CI, A71EM, BG6IQD/4, BS7H,
CU2/WA1S, EA8NY, FO/N6JA, HV0A, OX/PA3EXX/P, UK9AA, VE7EDZ, VP2ERD
and YN2N

S7, SEYCHELLES. Operators Leo/IZ5FSA (S79LL), Stefano/IW5DPF (S79SO) and
Luca/I5IHE (S79LC) will be active from Praslin Island (AF-024), October
14-19th. Only Luca/I5IHE (S79LC) will stay there until October 27th,
mainly for low band DXing. QSL direct only via IW5CWA. For updates and
online logs, visit the following Web page at: http://yact.altervista.org

SU50, EGYPT. Look for special event (Golden Jubilee) station SU50JOTA
to be active during the Scout Jamboree On The Air (JOTA), October 20-21st.
The event is expected to have more than 500,000 people from over 100
countries participating in this year's JOTA. The SU50JOTA station will
be operational from the Cairo International Scout Centre. Activity will
be on 80/40/20/17/15 meters, CW and SSB. The SU50JOTA team members include
Greiss/SU1GS, Sayed/SU1SA, Mohamed/SU1AO, Mohammed/SU1KM, Karim/SU1KA,
Tom/SU9NC and Said/SU1SK. Look for more updated info on the Web page at:
http://www.qsl.net/su50jota
QSL via SU1SK: Said Kamel, P.O. Box 190, New Ramsis Center, Cairo 11797,
EGYPT.

SU0, EGYPT. Mustapha, DL1BDF, will be attending a conference in Cairo
organized by a local ITU section. The subject of the conference will be
"How Amateur Radio can help handicapped persons to live". During his
stay in Cairo, Mustapha will be active during his spare time from the
SU0ARA ARC station between November 10-18th.

T6, AFGHANISTAN. Remember to look for John, KE6GFF, to be active as T6EE
from Kabul this week between October 18th and November 12th. It is
suggested to look for him on SSB on or about 14210 kHz. QSL via his home
callsign: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651.

TA3/TC3, TURKEY. Nikolay, LZ1NK, will be active as TA3/LZ1NK between November 21-26th. He is also planning to be active as TC3A during the CQ World Wide CW DX Contest (November 24-25th) as Single-Op/Single-Band (40m)/Low-Power entry. Activity will be from the Asian region in Bursa, Turkey. Skeds are "OK" before the contest at: casdkar@rozabg.com QSL via his home callsign.

TX5, CLIPPERTON ATOLL (Update). The Clipperton 2008 team has added two more operators to their team. Operators Jay/K4ZLE and Wayne/K8LEE have joined TX5C team. For complete details, please visit the TX5C Web page at: http://www.clipperton2008.org/

VK9L, LORD HOWE ISLAND (OC-004). Remember to look for Haru, JA1XGI/W8XGI, to be active as VK9GLX between October 19-22nd (only 3.5 days!). Activity will be on 40/30/20 meters and possibly the lower bands. Modes will be CW, SSB and Digital (RTTY, SSTV). QSL via JA1XGI (Bureau or direct) or W8XGI (only direct).

VK9N, NORFOLK ISLAND (OC-005). Operator Jack, HB9TL/VK6CTL, will be active as VK9CNF this week from October 19-25th. Activity will be mainly SSB on 80-10 meters. QSL direct to HB9QR.

VP2M, MONTSERRAT. Operators George/K2DM, Peter/K3ZM and Glen/W4GKA will be active as VP2MDG, VP2MZM and VP2MKA, respectively, from October 24-30th. The group will also be active as VP2MDG during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. Also, look for VP2MDG on 6m SSB and VP2MZM on 160m CW outside the contest. QSL to their home callsigns.

VP8, SOUTH GEORGIA ISLAND. Lars, MM0DWF, will be active from Husvik (an old whaling station) located on South Georgia Island (AN-007) as VP8DIF from January 27th to February 28th, 2008. Activity will be on all bands, depending on his work schedule. QSL via DJ9ZB, direct or by the bureau. Further information can be found at: http://www.lars-boehme.de/vp8dif/index.html

VP9, BERMUDA. Seppo, OH1VR, will once again be active as OH1VR/VP9 between November 24-27th. He plans to be active in the CQ World Wide CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via his home callsign.

VP9, BERMUDA. John, OH3SR, will be active as VP9/OH3SR between November 23-27th. Activity will be on all bands CW, SSB and RTTY. This will be a holiday style operation. John will also be active during the CQ World Wide CW Contest (November 24-25th). He states, "I will try to give out multi-pliers if needed. But I can work other modes also during the contest."

XW, LAOS. Larry, XW1A, will be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m) entry. QSL via E21EIC.

ZL7, CHATHAM ISLAND. Ulli, DL2AH, continues with his Pacific Island tour this week and is expected to be active from Chatham Island as ZL7/DL2AH between October 16/17-30th. Using his FT-897 with a loop antenna, look for him to be on 40-10 meters SSB only. Ulli's last stop on his Pacific

tour will be Norfolk Island. Look for him to use the callsign VK9ANH
between November 1-15th. QSL all of his Pacific operations via DL2AH.

DXNL 1541 - Oct 17, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

BV - TAIWAN, AS-020
Juergen,BX3/DJ3KR, will stay in Taiwan between Oct 18 and Nov 5 and
plans to hit the airwaves in all modes on all bands. QSL via homecall.

CT3 - MADEIRA, AF-014
A German group (DJ6QT, DJ7JC, DK8NC, DL8OBF) stays on Madeira (AF-014)
from Oct 16-30 and plans to show up as CT3/homecalls on all bands.
They will sign CT9L during the upcoming WAG and CQWW SSB Contests.
QSLs for CT9L via DJ6QT, all other QSLs via the operator's homecalls.

HI - DOMINICAN REPUBLIC, NA-096
After being in Senegal for a while Dani,EA4ATI, has been staying in
the Dominican Republic for a few months now and finally received his
license (HI5/EA4ATI). He is working with 100 watt and dipole.
QSLs via homecall.

HS - THAILAND
HS0ZHR (OP SM1TDE) has returned to Sweden. He had to leave Thailand
much earlier than expected.

SP - POLAND
The special event station HF100SK marks the 100th anniversary of the
scouts in Poland. It is working from Skierniewice till the end of 2007.
QSL via SP7ZIA.

SU - EGYPT
SU50JOTA remembers 50 years of JOTA and will be QRV in CW/SSB on 15/17/
20/40/80m from the "International Scout Centre" in Kairo on Oct 20/21.
The team members are SU1GS, SU1SA, SU1AO, SU1KM, SU1KA, SU9NC, SU1SK.
The QSL manager is SU1SK.

T6 - AFGHANISTAN
John,KE6GFF, will be QRV again from Kabul signing T6EE between Oct 18

and Nov 13. His preferred frequency is 14.210 MHz and he plans to take part in the upcoming CQWW SSB Contest as well. QSL via home address: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651, USA.

V3 - BELIZE, NA-073
John,W5JON, and his XYL Cathy,W5HAM, will be active from the island Ambergris Caye (NA-073) from Oct 25-31. Listen for V31FB in SSB on 10-160m (also in the CQWW SSB Contest) but he also likes to make skeds for 160m. Cathy prefers the beach holiday. It was many years ago when she promised her husband he may go anywhere for contesting as long as there is also a beach! Now they are going to visit Belize for the fifth time. John will use an IC-7000 plus a 400 watts amplifier and has a free sight to Europe.

V4 - ST KITTS AND NEVIS, NA-104
Scott Andersen,V4/NE1RD, is going to the airwaves from Oct 24-31. He hopes to set a new record in the QRP category of the WWDX from the island of St. Kitts (NA-104). You can get eQSLs, LoTW confirmations and also regular paper QSLs via bureau or direct. SWL reports are welcome.

VK9/L - LORD HOWE ISLAND, OC-004
Haru,JA1XGI, will be active as VK9GLX in CW/SSB/RTTY/SSTV on 20/30/40m and possibly also on the lowbands from Oct 19-22.
QSLs via bureau or direct to JA1XGI or direct only via W8XGI.

VP5 - TURKS AND CAICOS ISLANDS, NA-002
VP5/WA2VYA, VP5/K2WB, VP5/W2WAS and VP5/N2VW will be QRV in CW/SSB especially on the WARC bands from Providenciales (NA-002) on Oct 23-30. They will use the call VP5T during the CQWW SSB Contest (QSL via N2VW). All other QSLs should be sent via buro to the OPs homecall or via LoTW.

XU - CAMBODIA
A Finnish/Belgian team consisting of Wim,XU7TZG, Reijo,OH4MDY (XU7MDY), Anni,OH4JGE (XU7JGE), and Jack,ON4AJV (XU7AJV), was announced to become active from Oct 20 until Nov 5. Following QRGs have been published: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz, but the lowbands will be emphasized.Listen for XU7MDY in a single band category of the CQWW SSB Contest. Unfortunately QSLs only direct.

3V - TUNISIA
The "Gold Jubilee of the JOTA" will take place from Oct 19-21 and the "Tunisia Scouts Amateur Radio Club" celebrates its 10th birthday during the same time. Listen for 3V8CB and 3V8ST QRV sein, mainly in CW/SSB. QSL cards only via bureau, NOT direct!

4O - MONTENEGRO
The radioclub of the "Council of Europe" and Ranko,4O3A, are going to activate the new DXCC counter Montenegro using the call 4O0CE from Oct 17-21. Reason for that is that Montenegro has joined the Council of Europe last May. QSL via F5LGF.
Online logs will be available at: http://ewwa.free.fr

6W - SENEGAL
Jovica,T98A (ex-ST2A), has passed the Senegalese license exam now and promised to be very active as 6W1SJ for the next two years. Jovica preferably works in CW, but also some SSB and digital modes. There are good chances he might activate also other African countries from there. QSL via T93Y: Boris Knezovic, Box 59, 71000 Sarajevo,Bosnia-Hercegovina QSL via bureau or e-mail requests (t93y@lol.ba) are possible as well.

6Y - JAMAICA, NA-097
John,W2GB, will be QRV as 6Y0B from Oct 23-30, including the participation in a single OP category of the CQWW Contest. QSL via W2GB.

A3, 5W, KH8, ZL - SOUTH PACIFIC TRIP
Willy,ON5AX, and his XYL Magda,ON3AX, are travelling the South Pacific Ocean between Oct 17 and Dec 14. They will be QRV in CW/SSB/PSK on 40m/30m/20m and they also intend to participate in the CQWW SSB Contest while staying on American Samoa. This is their travelling schedule:
5W0AX Samoa (OC-097) Oct 17-22
KH8/ON5AX US-Samoa Oct 24-29
A35AX Tonga Nov 2-14
ZL/ON5AX Neuseeland Nov 16-Dec 14

INDIA, SPECIAL EVENT STATION
The special event station AT0MWG is working in CW/SSB/RTTY/PSK from the "4th Military World Games" (http://www.mwg2007.org) which are held in Mumbai until Oct 21. QSL via VU2SWS.

TURKEY, SPECIAL EVENT STATION
The Republic of Turkey is celebrating its 84th anniversary this year. For this reason TA2IJ is working as TC84IJ in CW/SSB until Oct 21. QSLs via TA2IJ.

GOLDEN JUBILEE OF THE JOTA
Following stations were announced to hit the bands during the upcoming JOTA event next weekend:
CT7EPO QSL via CTEGW
HL9BSA QSL via WX8C
HP1RCP QSL via HP bureau
ON50JOTA QSL via ON4GDV
PA50JOTA QSL via PA3EFR

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or

If you want to hear your QSOs mit CN2R with an audio clip you can perform a special logbook search at:
http://cn2r.net/cn2r/cn2log_interface/QSOs/Logbook.asp

UPCOMING CONTESTS

Oct 19-21: JOTA (http://www.scout.org/jota)
Oct 20/21: JARTS WW RTTY Contest

Oct 20/21: WAG Contest CW/SSB:
Please avoid the special contest free areas within the WAG Contest to
eliminate any collisions with JOTA stations.

IOTA collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:
NA-088, HP4, Bocas del Toro Prov. Group: Tom,HP4/W4JKC, is a scientist and
stays on Colon Island from Oct 12 until Nov 2. QSL via W4JKC.

NA-128, VE2, QC Province Group: A team of American and Canadian OPs will be
active as VE3ZF/2 (CW/SSB) and W5GED/VE2 (RTTY/PSK) from Orleans Island
from Oct 18-21.They will sign VE2IDX during the W/VE Islands QSO Party.
QSL for VE2IDX via VE3ZF, all others via homecalls.

OC-005, VK9/N, Norfolk Island: Jack,HB9TL (VK6CTL), will be QRV as VK9CNF
from Norfolk Island from Oct 19-25. QSL direct via HB9QR.

OC-164, VK6, Western Australia State South Group: Wally,VK6YS, and
Bruce,KD6WW, are working as VK6YS/p from Rottnest Island until Oct 17.
QSL via VK4AAR (d).

OC-several: Larry,N0UU, will NOT travel through the South Pacific like
stated in the last DX Newsletter. Unfortunately this was a mistake.

Lighthouse activities (WLOTA/ARLHS)

YW6YL LH 2062 VEN-030 Dec 12-16
CU8AS LH 0947 AZO-015/016 resident
VK6YS/p LH 2197 until Oct 17

Hello Hans,

I will try it to send it direct to JT1CO
tnx for info Hans
Rien, PA7RA
:D

En dat heb ik gelijk gedaan : direct QSL met een paar dollar en natuurlijk
een SASE.
Toen ik hem werkte was het alleen maar direct en niet via buro.

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K1XM, NC1L, KA2AEV, NG3K, W3UR & The Daily DX, K4VUD/HS0ZCW, N4AA & QRZ DX, K8YSE, K9NW, N0VD, DX-IS News Site, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, E21EIC, F5NQL & UFT, F5PFP, F6AJA & Les Nouvelles DX, F6FVY, I1JQJ/IK1ADH & 425 DX News, JI6KVR & IOTA-JA News, OH2BH, RSGB IOTA Web Site, SP6DVP, TG9AAJ, TG9AJR, UA1AKE, VE2QV, VA3RJ & ICPO, and VE3ZIK for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 14th-October, through Sunday, 21st-October there were 230 countries active. Countries available: 3A, 3B8, 3C, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE0A, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H40, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S2, S5, S7, SM, SP, ST, SU, SV, SV9, T5, T7, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2V, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XZ, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1, ITU HQ (Special Activity). Look for the special callsign 4U1WRC to be used between October 22nd and November 16th. Activity is taking place from the International Amateur Radio Club station 4U1ITU in Geneva during

the 2007 World Radiocommunication Conference (WRC). It was mentioned that 4U1WRC is also expected to be active during the upcoming CQ World Wide DX SSB Contest (October 27-28th).

4X, ISRAEL. Operators Hal/W8HC, Jerry/K8OQL, Slava/4Z5MU, Azar/4X6MI, Mark/4Z4KX, Ruben/4Z5FI and Paul/4X6UU will be active as 4X0C during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via W8HC, direct or by the bureau. Logs will be uploaded to LoTW.

6V, SENEGAL. Operator Javier, EA1FDI, will be active as 6V7G during the CQ World Wide DX SSB Contest (October 27-28th). Operating class is unknown. QSL via EA1FDI.

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX SSB Contest (October 27-28th) as Single-Op/All-Band entry. QSL via NN1N.

8Q, MALDIVES. Claudio, HB9OAU, will be active as 8Q7AU from Dhonveli Island (AS-013), October 29th-November 10th. Activity will be holiday style.

9K, KUWAIT. Operators Hamad/9K2HN, Marko/N5ZO, Faisal/9K2RR, Yaser/9k2YM, Ahmad/9K2LT and Hamad/9K2RT will be active as 9K2HN during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via 9K2HN (QRZ.com address).

9M2, WESTERN MALAYSIA. Operator Rich, G4ZFE, will be active as 9M2CNC during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/ Single-Band (20m??) entry. QSL via G4ZFE, LoTW, by the Bureau or direct.

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQWW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via JH7QXJ. Operators mentioned are: Kuzamasa/JG3RPL, Toshinobu/JI3ERV, Sato/JH7QXJ, Mikawa/JR7OMD and Masaki/JO1DFG. They suggest to "Please listen to 7075-7100 carefully." DO NOT SEND QSLS to the KH2 address or the Bureau, ONLY to the JARL Manager (via JARL ACCEPTED).

AO5, SPAIN (Polar Ship). A group of Spainish (EA5s) operators have obtained permission to operate on board the polar research ship "Hesperides" in Cartagena. The operation will take place from November 3-4th using the callsign AO5URD. This activity will be valid for the Antarctic Challenge as a polar ship.

AO8, CANARY ISLANDS. Operators EA8AH, EA8CAC, EA8ZS, ES2RR, OH5XT, OH6XX and OH9MM will be active as AO8A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via EA8AH.

ARCTIC STATION. Operator Mikhail Fokin, RW1AI, is now active as R35NP from the "North Pole 35" drifting station in the Arctic. He will remain there until the summer of 2008. Current position is about 82N 101E in ITU Zone 75. Mike is running only 100 watts on 20, 30 and 40m both CW/SSB. QSL via RW1AI, either by the bureau or direct to: Mikhail N.Fokin, P.O.Box 13, St.Petersburg, 193312 RUSSIA. Logs (including his Antarctic operations as R1AND, R1ANP, R1ANT, RW1AI/ANT) are available at:

http://www.qsl.net/ua1ake/logs/index.html

ANTARCTIC CRUISE/DXPEDITION. Mehdi, F5PFP, is organizing an Antarctic cruise/DXpedition of 4 weeks with an appropriate and safe sailing boat for January 2009. The trip will start in Ushuaia. Here are some the islands that are scheduled to be visited:
1 - KING GEORGE Island: Macchu Picchu base, Station G (traces), Rep del Ecuador, Comdt Ferraz, and Lenie field station.
2 - NELSON Island: Gurruchaga refuge
3 - GREENWICH Island: Maldonado refuge, Bahia Yankee refuge
4 - LIVINGSTON Island: Juan Carlos base, Shireff station
5 - DECEPCION Island: Station B (traces), Gabriel de Castrilla station.
6 - Probably 1 or 2 more islands depending on sailing conditions then back to Ushuaia
At this stage Mehdi is searching for 5 passengers (amateur radio op or not). If you are interested and for more details, send him an E-mail at: f5pfp@aliceadsl.fr

B1, CHINA. A Chinese team which includes Fan/BA1RB, Yongjian/BA1AJ, BG1AC, Mok/BD1ES, BG1AI, Hongxiang/BD1LBE, Yue/BD1LBF and foreign operators James/9V1YC, Richard/K5SF and Doc/VE2QV will be active as B1Z during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Multi entry. Activity will be on all bands including 160 meters.

CARIBBEAN TOUR (Update to OPDX.828). Alan, WQ5W, will be operating as C6AQW from Treasure Cay, Abaco Island (NA-080), in the Bahamas from October 25-31st, from Dominica as J75W, November 21-28th and from Antigua as V25W, November 30th-December 2nd. During his tour Alan will be active in a couple of contests. As we mentioned in last week's bulletin, look for him (as C6AQW) to be in the CQ World Wide DX SSB Contest (October 27-28th) while on Abaco Island as a Single-Op/Single-Band (40m)/Low-Power entry. From Antigua (IOTA NA-100, Grid square FK97), Alan has reserved the special callsign V25W and will be operating from the V26B superstation in the northern part of the island. The primary purpose of this trip is to operate in the ARRL 160M Contest (November 30th-December 2nd) as a High-Power entry. Alan anticipates very little if any operation outside of the contest on this trip. Alan says "This is a purely contest operation and I hope to put the V2 multiplier in lots of logs during the contest." From Dominica (IOTA NA-101, Grid Square FK95), Alan will use the specially issued callsign J75W for this and future DXpeditions to the beautiful isle. The primary purpose of this trip is to operate as a Single-Op/ Single-Band (40m) entry in the CQ World Wide DX CW Contest (November 24-25th). Alan currently holds the 40m North American record in CQWW CW as ZF2TG in 1992 and hopes to break his own record during this operation. His QTH will be on top of a cliff overlooking the Caribbean on the northeast side of the island with a clear shot to EU, NA and Asia.
Alan says "When I was a teenager in the late 80's I always wanted to go to J7 to operate because it was a lot rarer then than it is now and looked so beautiful. This trip will mark the realization of that dream and the chance to beat my own NA 40M record in CQWW CW." Outside of the contest

on C6 and J7, look for activity on all bands, especially on 160/80/30/17/12 meters, CW, SSB and RTTY. QSL all operations via WQ5W and LoTW. Logs will be uploaded to LoTW throughout the expeditions and immediately following its conclusion. Paper QSLs will also be available via WQ5W direct with SASE or Greenstamp and via the bureau. Also, visit Alan's Blog at: http://wq5w.blogspot.com/

CE0, EASTER ISLAND (SA-001). Operators Slaven/9A4X and Zdenko/9A5RR will be active from here betweem October 23-31st. They are expected to be active as CE0Y/9A4X on all bands. They will also sign as CC0Y during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (15m) entry. QSL via 9A2AA.

CN, MOROCCO. Members of the UA2 Contest Club will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band entry.
Andy/UA2FB - Active as CN2FB on 80 meters. QSL via CN2FB.
Vladimir/UA2FF - Active as CN2FF on 160 meters. QSL via CN2FF.
Victor/UA2FW - Active as CN2KT on 10 meters. QSL via CN2KT.

CQ9, MADEIRA ISLANDS. Operators CT3BD, CT3DL, CT3DZ, CT3EE, CT3EN, CT3HK, CT3IA, CT3KU, CT3KY, CT3MD, CT1BOH, N6AA, W6NV, OH2KI, W6XD and AB6BH will be active as CQ9K during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-? entry. QSL via CQ9K.

CT3, MADEIRA ISLANDS. Jose, CT1BOH, will be active as CT3NT during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via CT1BOH, direct or LoTW. Visit his Web page at: http://www.qsl.net/ct1boh/ct3nt.htm

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:
3V8SS - Tunisia; 2007 operation
If you had cards rejected for this operation, please send an E-mail to dxcc@arrl.org and you will be placed on the list for an update.

E2/HS, THAILAND (RAST - WARC bands authorized in new Amateur Radio Act). The RAST announced this past week the following: "Thailand's Intermediate and Advanced class radio amateurs are now permitted to operate on the so-called WARC bands (10-, 18- and 24-MHz) as well as in windows in the CW portion of the 80-metre (3.5-MHz) and 160-metre (1.8-MHz) bands on a permanent basis. The authorization, granted in a new Act governing amateur radio in Thailand by the National Telecommunications Commission (NTC), follows years of lobbying by the Radio Amateur Society of Thailand (RAST). The details were published in the Royal Gazette on October 11, 2007, becoming effective the following day." Thai stations can now use the following frequencies: 160m - 1.800-1.825 MHz
80m - 3.500-3.540 MHz
30m - 10.100-10.150 MHz
17m - 18.068-18.168 MHz
12m - 24.890-24.990 MHz
No changes were made to the VHF bands, where 6-meters (50-54 MHz) and

1240 MHz are still off-limits and 430 MHz (70-cm) is authorized for monitoring only, such as to listen to satellite downlinks. Two meters (144-MHz) is channelized and minor amendments were made to repeater allocations. The full 37-page announcement of the NTC's Amateur Radio Act of 2007 is published in the Thai-language on the web at: http://www.ratchakitcha.soc.go.th/DATA/PDF/2550/E/152/10.PDF
The Radio Amateur Society of Thailand, which is under the Royal Patronage of His Majesty the King, will make an unofficial translation available soon as well as explaining some of the points in more detail at its website: http://www.qsl.net/rast

FM, MARTINIQUE. Mike, K9NW, will be active as FM/K9NW in the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. He will be active on the island between October 24-29th. QSL via K9NW.

FRACAP CONVENTION. Jorge, TG9AAJ, CRAG President (Club de Radio Aficionados de Guatemala), announces that the next FRACAP (Federacion de Radio Aficionados de Centro America y Panama) Convention will be hosted once again in the beautiful city of Antigua in Guatemala from November 23-25th. For details please visit the Web page at: http://www.fracap.org/
Also, if interested in attending the convention, please contact Jorge via E-mail at: tg9aaj@gmail.com

FS, ST. MARTIN. Paul, K1XM, will be active as FS/K1XM during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. Look for him to be active a few days before the contest (probably Tuesday or Wednesday), possibly on all bands. QSL via KQ1F.

FY, FRENCH GUIANA. Operators F1HAR, F5HRY, F5MZN, F6FGZ, F6FVY and FY5FY will be active as FY5KE during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via FY5KE.

HR, HONDURAS. Dan, HR2DMR, is expected to be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. He will be using monobander antennas. QSL via HR2DMR.

HS35, THAILAND. The 35th SEANET Convention will take place in Thailand's fourth-largest city, the northern town of Lampang, from November 8-11th. Activity includes a traditional wedding ceremony on elephant-back, visits to hot springs, a tour of a power-generating plant, sight-seeing tours and a northern Thai feast along with a welcome dinner. Then there will be the grand gala dinner on Saturday evening and the technical session on Sunday morning featuring, among other things, an account of the 3B7C St Brandon DXpedition. Also, look for special event station HS35SEA to be on the air from the Wienglakor Hotel during the event. Complete details can be found at: http://www.sabah.net.my/seanet/seanet_2007.htm

IOTA NEWS.....
AS-040. Look for JA6QIN/6 to be active from four different islands in the Goto Island Group between November 5-7th. Islands mentioned are: Arifuku, Wakamatsu, Zuga and Nakadori (all in the JA6 Nagasaki Pref). Activity will be on the HF bands.

QSL to his home callsign, direct or by the bureau.

NA-041. Rick, K6VVA, will once again activate Revillagigedo Island (USI AK141S, WW Loc. CO45IP, 1st South Eastern County, Alaska). Activity will take place during the ARRL 160m Contest (November 30th-December 2nd). He will be operating as KL8C, and he also hopes to be active on the other bands as K6VVA/KL7 again as during his September (2007) operation (QSLs are being printed - QSL via N6AWD). Rick mentions that the operating QTH has a great over-salt-water path to the U.S. and much of Europe, although his conditions in September were not good for EU. There is a big hill in the direction of JA, so Rick may try to operate from the other side of the Island with a clear shot to JA for a while during the daytime/non-160m hours (if not this trip, then the next time).

NA-069. Look for Bren, G4DYO, (ex-editor for the DX News Sheet) to be active as W4/G4DYO from Captiva Island for few hours on November 16th. Activity will be on 20 meters.

OH0, ALAND ISLANDS. Operator Przemek, SP7VC, will be active as OH0/SP7VC during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/ All-Band entry. QSL via SP7VC.

P3, CYPRUS. Russian operators Alexey/RA1AIP, Sandy/RW4WR, Tony/RX9TL, Jack/RW3QC, Igor/UA2FZ and Harry/RA3AUU will be active as P33W during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via RA3AUU.

PJ4, NETHERLAND ANTILLES. By the time you read this, Kelly, N0VD, should be active as PJ4/N0VD. Kelly will be on Bonaire (SA-006) from October 18-30th, and will participate as part of the PJ4E team as a Multi/2 effort during the CQ World Wide DX SSB Contest (October 27-28th). QSL to N0VD for all PJ4/N0VD QSOs. For PJ4E QSOs, please QSL direct only to WA4PGM.

OJ0B QSLS. OPDX was asked to find out about the OJ0B QSL status, so we contacted Martti, OH2BH, and here is what he said: "Yes, here we come....OJ0B was activated twice this past summer, August and again in September, with some 27,000 QSOs. Both operations were combined together after the September outing and the number of cards needed was determined. All our cards are printed in Poland, and they will be shipped to us at the end of this coming week. We should be able to get all direct cards out by November 15th. We have noticed that many envelopes from U.S. stations have been submitted with one U.S. dollar bill. This matter in now under consideration. If we mail them directly we would subsidize each envelope from our own pocket although we know that sending those cards via bureau network would not make anyone happy. In the meantime, we had just last week released 170 pounds (83 kg) of DX QSL cards, mainly to U.S., Canada and Japan (ed. Bureaus) for variety of our operations over the past two years with the hopes that this investment would still be worth while. We see lot of cards returned with the note 'this person is not accepting QSL cards' and/or is 'not member of national society' thus the rational for confirming each QSO through the bureau is in doubt.... Best Regards, Martti, OH2BH"

QSL MANAGER CHANGE. QSL Manager Franz, DL3PS, will be leaving Germany, so as of November 1st, all QSL cards for VE3ZIK, 9A/VE3ZIK, T9/VE3ZIK, XM3ZIK and 4N1DX will be via DO7ZZ. The German Bureau is OK.

QSLS VIA LOTW: (None reported this week!)

QSLS RECEIVED VIA MAIL: 3B7SP, 3D2ER, A45WD, AP2TN, CO2OJ, KG4IZ, KG4MO, PZ5RA, R1FJT, T30ONM, T77C, T77NM, VP8ROT, VQ9LA, VR10UW, XX9TTR and ZA/DL1RTL

SO6, POLAND. KRIS, SP6DVP (ex-3Z6V), will be active as SO6V during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via SP6DVP, by the Bureau or direct (QRZ.com SP6DVP and 3Z6V).

V2, ANTIGUA. Team Antigua will once again be active from the warm Caribbean sunshine as V26B during the 2007 CQ World Wide DX SSB Contest (October 27-28th) competition. The operators will be mostly preparing the station starting on or about October 22nd, and will probably be active through October 30th, using their own callsigns as assigned by the Antiguian Licensing Authority. This year Team Antigua welcomes two new operators to their family. They are: Tom/NI1N and Kam/N3KS. They currently do not have any V2 callsigns assigned to them, but when they do their QSL routes will be via their own home callsigns (w/SASE). Please look for the following operators (w/QSL routes - please SASEs) to be active outside of the contest: V26B via KA2AEV V26CW via KM9M
V26BA via WA3RHW V26JN via WX3B
V26BZR via W2BZR V26OC via N3OC

V8, BRUNEI. Mohammad, V8AQM, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via W3HNK.

VU, INDIA. Operator Prasad, VU2PTT, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via VU2PTT.

XU, CAMBODIA. A group of Belgian and Finnish operators will be active from here between October 20th and November 5th. Activity will be on the following suggested frequencies: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz. An emphasis will be on the lower bands. The team is expected to sign XU7MDY during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Band (not mentioned) entry. ALL QSLS are direct ONLY. Look for the following operators (w/QSL routes) outside the contest: XU7MDY via OH4MDY XU7AJV via ON4AJV
XU7JGE via OH4JGE XU7TZG via ON7PP

XW. LAOS. The 425 DX Bulletin reports that Alex, RK3DT, will once again be active as XW3DT between October 25th and November 6th. QSL via:
Alex Sinchukov, P.O. Box 11, GPO, Hong Kong.

YM, TURKEY. Operator Ozer, TA2RC, will be active as YM0T during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (160m)/Low-Power entry. QSL via the TA Bureau or direct to TA2RC.

YO, ROMANIA. Jean-Michel, F6AJA, will once again be active as YO/F6AJA from Bucarest between October 27th and November 2nd. Activity will be limited to his free time. Operations will be from the YO3KPA club station.

++++++++++

In this situation, it would seem to make sense, at least with respect
to USA/Canada cards, to send all of the made out cards in their
envelopes in a bulk package to a USA manager, who could then put 41
cent stamps on them and send them as domestic mail. I once did this
for an unnamed DX station in a country that did not accept IRCs. He
sent me a big bulk envelope and a bunch of IRCs, and I re mailed them
for him. I actually came out ahead a little.

The lesson of this is that with the US Dollar dropping like a stone in
value, a dollar just does not go as far as it used to. I usually
enclose $2 and lately, sometimes $3. Yes, maybe I send too much, but
there are a lot of expenses of sending out a QSL card beyond the
postage.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, W2SC, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4VQ, K8ME, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, CO2WF, DK8JB, DL7MAE & The DX News Letter, EA1FDI, F5NQL & UFT, G3SXW, I1JQJ/IK1ADH & 425 DX News, IK1QBT, JI6KVR & IOTA-JA News, OH2BH, OH2HAN, RSGB IOTA Web Site, VA3RJ & ICPO and VE5ZX for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 19th-October, through Friday, 26th-October there were 230 countries active. Countries available: 1A, 3A, 3B8, 3C, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A0,SOVEREIGN MILITARY ORDER OF MALTA. Just a reminder that an international team of operators will be active as 1A3A during the CQ World Wide DX SSB Contest (October 27-28th). QSL via IZ4DPV.

3DA, SWAIZILAND. Operators Rhy/ZS6DXB, Donovan/ZS2DL and Daniel/ZS6JR will be active as 3DA0WW in the CQWW DX SSB Contest (October 27-28th) as a Multi-2 entry. Dave, ZS6AVM, will be accompanying them and will be active as 3DA0VM on 17 and 12 meters while the other 3 operators are busy in the contest.

3V8, TUNISIA. Operator Achraf (SWL 3V4-002) will be active from the scout radio club station 3V8SS in Sousse during the CQ World Wide DX SSB Contest (October 27-28th). Activity will mainly be on 20 meters. QSL via the Bureau.

3X, GUINEA. Members of the VooDoo Contest Group have announced that its project for CQ World Wide DX CW Contest (November 24-25th) will be in 3X-land. This will be the group's 14th straight year operating from a different country in West Africa as a Multi-Multi category in the contest. Roger, G3SXW, in a press release states, "We will mount seven 1KW stations with monoband antennas for all six bands right beside the Atlantic Ocean in Conakry, the capital of Guinea. The callsign we have been allocated is 3XY5D. We still hope to secure a shorter call but this is now the most likely to be used in the contest. We also have a VHF licence for 2mtr EME: 3XT1 (3X tango one with no suffix). QSL 3XY5D via G3SXW." The team will also be active a few days before and after the contest. Operators mentioned are: Roger/G3SXW, Fred/G4BWP, John/G4IRN, Robbie/GM3YTS, Bob/K4UEE, Vince/K5VT and Ned/AA7A. All logs will be uploaded to LoTW soon after their return home. Roger, G3SXW, states, "This is one of our more daring DX-peditions. We face the possible risk of civil unrest, washed-out roads and banditry, not to mention zero sunspots! We hope to C U in the contest!" For more details, visit: http://www.voodoocontestgroup.com

5Z4, KENYA. Miki, YT1CS, will be active as 5Z4/YT1CS from Lamu Island (AF-040, Zone 37) during the CQ World Wide DX SSB Contest (October 27-28th). QSL direct to his home address.

6V, SENEGAL (Update). Operator Javier, EA1FDI, will be active as 6V7G until October 29th. As we mentioned last week, look for him during the CQ World Wide DX SSB Contest (October 27-28th). Operating class is unknown. Outside of the contest look for him to be on in the afternoons and nights (local time). Activity will be on 160-10 meters (no 30/17/12m) and on SSB only. QSL via EA1FDI.

8N0, JAPAN (Special Event). Look for special event station 8N0M100A/3 to be active between October 26-28th. Activity is to celebrate the 100th anniversary of the Matsumoto City station in the city of Himeji on the Ie-shima Island (AS-117). Look for them on the HF bands. QSL via the JARL Bureau. Visit the Web page at: http://www.jarl-nagano.org/index.php?html_id=00000036

8P, BARBADOS (Update). Tom, W2SC, will be active as 8P5A between October 23-29th. As we mentioned last week, look for him during the CQWW DX SSB

Contest (October 27-28th) as Single-Op/All-Band entry. Outside of the contest his activity will be on the lower bands. QSL via NN1N.

9M4, WEST MALAYSIA. Operator Yoshiaki, JA1OCZ, a member of 9M4SDX team, will be active as 9M4DXX from Penang, November 7-12th. Activity will be on 80-10 meters, CW, SSB and FM. Yoshiaki will be trying to make an effort in the JIDX Contest. QSL via JA1OCZ, by the bureau or direct to: Yoshiaki Kobayashi, 2-24-16-208 Minami Magome, Ohta-ku, Tokyo, 143-0025, Japan.

9N, NEPAL. Stig, LA7JO, will be active as 9N7JO during the CQ World Wide DX SSB Contest (October 27-28th). Operating class is unknown. QSL via info on QRZ.com.

AH0/KH0, MARIANA ISLANDS. Operators Koya/JI5RPT and Toru/JI5USJ will be active as AH0V and KH0/JI5USJ, January 10-14th (2008). Activity will be on 80-6 meters, also 60m, the satellites, CW and SSB. QSL AH0V via JI5RPT and KH0/JI5USJ via JI5USJ. ADDED NOTE: Visit JI5RPT Web Blog at: http://blog.livedoor.jp/ji5rpt

C4, CYPRUS. Look for Andy, LZ2HM, and possibly others to be active as C4I during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/? entry. QSL via LZ2HM.

C6, BAHAMAS. Ray, ND6S, will be active as C6AGY from Treasure Cay (NA-080), from November 18th to December 1st. His activity will include the CQ World Wide DX CW Contest (November 24-25th), as a Single-Op/All-Band or Single-Op/Single-Band (15m) entry. QSL via ND6S.

D9, REPUBLIC OF KOREA. Members of the Korea Contest Club will be active as D9K (Delta Nine Kilo) during the CQ World Wide DX SSB Contest (October 27-28th) possibly as a Multi-Op/Two-Transmitter (M2) entry. Operators mentioned are: HL1AHQ, HL3AMO, HL1VAU, DS4NYE, DS2NSC, DS3MLG, 6K2ABX and possibly a few more guests. QSL for this operation via DS4NYE.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operations are approved for DXCC credit:
3V8SS - Tunisia; 2007 Operation
9U0A - Burundi; 2007 Operation
D2DX - Angola; 2007 Operation

If you had cards rejected for any of these operations, please send an E-mail to dxcc@arrl.org and you will be placed on a list for updates.

EA8, CANARY ISLANDS. Heijo, DJ1OJ, will be active as EA8OM during the ARRL DX CW Contest (February 16-17th) as Single-Op/All-Band/Low-Power entry. QSL via DJ1OJ.

FM, MARTINIQUE. Saty, JE1JKL, will be active as FM5BH (from FM5BH QTH) during the CQ World Wide DX SSB Contest (October 27-28th) as Single-Op/ All-Band/High-Power entry. QSL via W3HNK.

IOTA NEWS.....
NA-035. Reports indicate that Javier, HR2J, and a group of operators

will activate Swan Island for 6 days between March 16-23rd
(2008). The callsign will be HQ8R. The last planned operation
(this year) was cancelled due transportation problems. The
Honduran Navy is willing to take the team to the island for
one week in March if they pay for the diesel for the boat.
Javier is currently looking for 5 or 6 U.S. amateurs to join
him and help with the cost of the transportation. Also,
members of the Radio Club of Honduras (RCH) are now expected
to participate in this special DXpedition. Cost of ship is
4500 USDs. Read about Javier on QRZ.com at:
http://www.qrz.com/hq8r
Also see some pictures from IOTA NA-035 taken by Javier last
week at: http://picasaweb.google.com/cisnephotos/swanhonduras

I, ITALY (Rare Province). OPDX was informed that there will be an operation
from the rare Matera Province of Italy on November 10-11th using the
callsign I7ALE/7 or IK8SHL/7. Operations will be on CW with some SSB
possible. Activity will be good for the WAIP award.

IQ9, ITALY. Members of the Radio Gruppo Etna Team and possibly others
will be active as IQ9BF from Sicily during the CQ World Wide SSB DX
Contest (October 27-28th) as a Multi-Single entry. QSL via the bureau.

IT9, ITALY. Operator Giuseppe, IT9BLB, will be active from Sicily
during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/
Single-Band (160m)/High-Power entry. QSL via IT9BLB.

JD1, OGASAWARA. Koya, JI5RPT, will once again be active as JD1BLY,
February 13-28th (2008). Activity will probably be 160-6 meters on CW,
SSB and the satellites. QSL via JI5RPT.

JT, MONGOLIA. Enkhbayar, JT1DA, will be active during the CQ World Wide
DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power
entry. QSL via info on QRZ.com.

KH2, GUAM. Joel, KG6DX, will be active as KG6DX in the CQ World Wide DX
SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry.
USA East Coast is suggested to PLEASE look LP on 15 meters between
1200-1300z. QSL via KG6DX, CBA or QRZ.com address.

OH0, ALAND ISLAND. Martti, OH2BH, sent out the following press release:
"ALAND ISLANDS FOR YOUR BAND POINT AND MULTIPLIER PLEASURE -
Old war-horses, Pertti, OH2PM and Martti, OH2BH, will be taking a boat
to reach Alands and provide you a good shot at OH0-multiplier on 80M and
20M during the CQWW SSB Contest this coming weekend.
Martti will sign OH0B (80M) and Pertti will be OH0R (20M).
They wil test their new Creative Design (Japanese) 80M beam along with
other things. You may find them there as early as on Thursday.
OH0B via OH2BH and OH0R via OH2PM."

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:
3DA0WW via LZ3HI 9H3NDM via 9H1SF

6C60A via N5FF AO7HMK via EA7HMK
6C60O via YK1AO

The complete 3C7Y log is now available online. If your contact is not in the log, send an E-mail to: ea5byp@telefonica.net
The 3C7Y log can be found at:
http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

OJ0MI QSL STATUS. Simo, OH2HAN, the QSL Manager for the Market Reef August 16-20th operation, informs OPDX that the QSL cards have been received from the printer, and the first batch of direct requests have been mailed on October 24th. Further direct requests will be honored by December 31st, and then the remaining confirmations will be distributed via the bureau system early January 2008. See the QRZ.com for QSLing details.

QSLS VIA LOTW: 4O3A, 8P9NX and XT2C

QSLS RECEIVED VIA MAIL: EA8AH, T30RY and XW3DT

S2, BANGLADESH. Stig, LA7JO, will be active as S21JO during the CQ World Wide DX CW Contest (November 24-25th). Operating class unknown. QSL via the infor on QRZ.com.

SPECIAL EVENT. Look for special event station IY1EY to be active between November 3-11th. Activity is to celebrate Marconi's radio eletric experiments on the Elettra Ship from 1919 to 1936 in the Ligurian Sea. Look for operations to be on all modes (CW/SSB/RTTY) and bands. Also, IY1EY qualifies for the "Loano Elettra Award". To receive a special QSL card reproducing Marconi's legendary boat "Elettra", QSL via IK1QBT.

T4, CUBA. Operators Osmany/CM2OY, Bob/CM2KL, Oscar/CO2OJ, George/CO2II and Winston/CO2WF will be active as T49C during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Op/Single/High-Power entry. Activity will be on 40-10 meters from a place east of Habana City, Boca Ciega Beach.

TS6A, TUNISIA. Operators YT1AD, YU1AU, YU1DW, YU1KX, YZ1BX, YU1EW, YT3W, K1LZ and N2OW will be active from the club station 3V8BB during the CQ World Wide DX SSB Contest (October 27-28th) using the special callsign TS6A as a Multi-2 entry. QSL via YT1AD.

V4, ST.KITTS AND NEVIS. Mark, K0EJ, will be active as V49A during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/Low-Power entry. Look for activity outside of the contest (signing V44/K0EJ). QSL via V44NK.

V8, BRUNEI DARUSSALAM. Just a reminder that operators Ronald/PA3EWP, Flo/F5CWU and Tom/GM4FDM will be active from here next weekend between November 4-18th. Callsigns are as follows:
Operator V8 Callsign QSL Route
-------- ----------- ---------
PA3EWP V8FWP QSL via PA7FM

F5CWU V8FWU QSL via F5CWU
GM4FDM V8FDM QSL via GM4FDM
Activity will be on all bands from 160-10 meters, conditions permitting. Modes of operations will be on CW, SSB and RTTY. Special attention will be given to the lower bands (160-30m). Also, special attention will be given to Western Europe and the USA. They plan to use at least one beam antenna along with verticals and dipoles. All operators have plenty of experience during DXpedition operations. Depending on InterNet availability, they shall try to maintain online logs at a Web site yet to be established. The Web master will be Dennis, PA7FM, - http://www.pa7fm.nl/

VK, AUSTRALIA. Bernie, VK4EJ, in Brisbane, QLD, announced that he will be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via VK4EJ, by the Bureau or direct (QRZ.com).

VP5, TURKS AND CAICOS ISLANDS. Operators Rodger/W7VV, Ralph/VE7XF, Harry/K7LAZ and Jim/K7WA will be active as VP5W during the CQWW DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via W7TSQ. The team will be there between November 18-30th and is expected to be active before and after the contest signing VP5/homecall.

YB0, INDONESIA. Operators YB0AZ, YB0JS, YB0ECT, YB0NDT, YB0MZI, YB0YAD, YD0LDT and YD0NWO will be active as YB0ZZ during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-?? entry. QSL via YB0ZZ, by the Bureau or direct to: Box 8000, Jakarta 11000, Indonesia.

ZB2, GILBRALTAR. Jorma, OH2KI, will be active as ZB2X during the CQ World Wide DX CW Contest (November 24-25th) possibly as a Single-Op/ Single-Band or Single-Op/All-Band entry. QSL via OH2KI.

ZM4, NEW ZEALAND. Operators Ken/ZL4NR and Chris/ZL1CT will be active as ZM4A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via ZL4AA.

ZONEPROP (Interesting Web Page for the CQ World Wide Contest). Zone to Zone Propagation information will be available for the CQWW SSB from Radio Sport Canada at: http://www.radiosport.ca/zoneprop/
ZoneProp uses an widely accepted propagation engine to determine the band on which a contestant in one CQ DX zone is likely to be able to contact a contestant in another CQ DX zone taking into account the current geomagnetic activity. ZoneProp produces a 40 zone by 40 zone matrix that is updated hourly at approximately 20 minutes past the hour. The intersection between a row and column gives the band on which a contestant in the zone represented by the row is mostly likely able to contact an contestant in the zone represented by the column. The zone numbers in the left hand column are clickable. Once clicked the information for that zone is displayed in isolation above a map of CQ DX zones. The pages are refreshed every 10 minutes in order to capture hourly updates of the matrix. For technical details see:
http://www.radiosport.ca/zoneprop/manual.php
ZoneProp is designed for high speed Internet access using IE 6/7 or a

recent release of FireFox. It has not been tested in other browsers or
on slow speed (e.g. dialup) Internet access.

The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 27-28th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers with the following
consolidated listing of the participants in the 2007 CQWW SSB Contest. For
a more detailed listing (and up-to-date changes/corrections) in HTML
format, please visit Bill's Web page at:

399. This would never have happened ten years ago...

Newsgroup: rec.radio.amateur.dx
Date: 2007-10-29 05:03:40 UTC
From: Doug Smith W9WI <w9wi@invalid.nospam>
Message-ID: <pan.2007.10.29.05.03.38.901771@invalid.nospam>
Source record: 2320

Saturday afternoon, checked the mail & found my copy of CQ Magazine, with the article about ham radio in China.

And ironically, tucked inside...

a PSE QSL card *from* China. BG1QUI, to be specific, for a QSO just a week earlier. (I remember when it took longer than that to get a QSL from *Chicago*, let alone Beijing...)

China is a tough path from here. I still get excited about working the country period, let alone having someone there answer my CQ, (this QSO was the first time I've ever had a Chinese station answer a CQ) let alone have *them* ask *me* for a QSL.

Just when you think you had DX figured out, it finds a way to surprise you.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KP2HC, NG3K, W3UR & The Daily DX, K4ZLE, N4AA & QRZ DX, W4OI, KH6BZF, K7WA, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, DJ8NK, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, F5PFP, G4EDG, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, JI5RPT, JI6KVR & IOTA-JA News, OH2YY, RSGB IOTA Web Site, VE3EXY, VA3RJ & ICPO and YT1HA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 28th-October, through Sunday, 4th-November there were 227 countries active. Countries available: 1A, 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK2, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (AF-049). Remember to look for Ronnie, SM7DKF, to be active this week as 3B8/SM7DKF between November 8-24th. This will be a holiday style operation with activity on the usual IOTA frequencies, mostly SSB and perhaps digital modes. QSL direct to his home callsign (see QRZ.com).

For more details, visit: http://www.sm7dkf.se/index-info.htm

6E, REVILLAGIGEDO. Members of the radio club "Federacion Mexicana de Radio Experimentadores" (FMRE) will activate Socorro Island (NA-030, WLOTA LH-2941, WW Loc. DK48MS) in the Revillagigedo (XF4) Island group, between November 15th and December 17th. They will use the callsign 6E4LM. Their activity is to celebrate the 75th anniversary of FMRE. Team members will include Carlos/XE1YK, Manuel/XE1VVD, Eduardo/XE2YW and Daniel/XE3RBA. Look for activity to be on 160-10 meters plus 6 and 2 meters, and 70cm, with operations on CW, SSB, digital modes and the satellites. The operators will focus on 160m and 6m, where they feel XF4 is mostly needed. QSL direct to XE2K: Jose Hector Garcia M., P. O. Box 73, El Centro, CA., 92244-0073, USA. Logs will be uploaded to LoTW after all direct QSLs have been sent. More information can be found at: http://www.6e4lm.xedx.org

6Y, JAMAICA (Ops Needed!). Operators Dave/KY1V, Tony/W4OI and possibly others will be active as 6Y1V during the CQ World Wide DX CW Contest (November 24-25th) possibly as a Multi-Single or Multi-2 entry. Tony states that they are looking for one or two good experienced CW ops to join them. QSL via OH3RB. For more details, E-mail Dave, KY1V, at: david.kopacz@aspwebhosting.com

7W53, ALGERIA. Members of the Bou Saada ARC (7X5VRK) of Bou Saada will activate 7W53N during the month of November to commemorate the 53th anniversary of the beginning of the National Algerian Revolution. QSL via 7X5VRK.

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX CW Contest (November 24-25th) as Single-Op/All-Band/High-Power entry. QSL via NN1N.

9M6 & 9M0, EAST MALAYSIA ANDSPRATLY ISLANDS (Asian Tour Update). Ed, N1UR, who was recently active from Bhutan as A52UR, will be active as 9M6AAC from the Hillview Gardens ARC station in East Malaysia for the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via N2OO. He also plans to be active from the Spratly Islands (9M0) between March 22-30th. A callsign has not yet been assigned, but activity will be on CW/SSB on 160-10 meters. QSL via K2RET. Ed now has a Web site set up for his Spratly operation at: http://www.n1urspratly.com/ Activity will be from Layang Layang Island Resort on Spratly Islands. Ed states, "This Spratly DXpedition will be a serious one, but with a small crew and light equipment. It will focus on the most needed bands in North America and Europe and will be an opportunity for many to work Spratly for the first time."

A7, QATAR. Bill, NM7H (aka G0MKT and YI9WF), is expected to be active as A7/G0MKT, possibly by the time you read this, and he will be here until January 5th (2008). Activity will be primarily CW with some PSK and some SSB on 40-10 meters. He may even be on 6 meters if the band opens up. QSL via NM7H, direct or by the bureau.

AH0/KH0, MARIANA ISLANDS (Update). Operators Koya/JI5RPT and Toru/JI5USJ will be active as AH0V and KH0/JI5USJ from Saipan, January 10-14th (2008). Activity will be on 80-6 meters, also 60m for USA, the satellites, CW, SSB and Digital modes. Operations will be from Saipan Rental Shack. Koya states, "I'll try to operate on 60m. If you want a SKED on 60m band, please E-mail me." His E-mail address is: ji5rpt@jarl.com
QSL AH0V via JI5RPT and KH0/JI5USJ via JI5USJ. ADDED NOTE: Visit JI5RPT's Web Blog at: http://blog.livedoor.jp/ji5rpt
Also his Web page at: http://www.ji5rpt.com/ah0v/

AO5, SPAIN (Polar Ship Update). A group of Spainish (EA5s) operators who were scheduled to operate on board the polar research ship "Hesperides" this past weekend had to postpone their activity until this coming weekend (November 10-11th). The ship is now in a dry dock for technical checking. The operation will use the callsign AO5URD. This activity will be valid for the Antarctic Challenge as a polar ship.

E5/S, SOUTH COOK ISLANDS. Operators George/K5KG and Ron/KK9K will be active as E51MMM and E51NNN, respectively, from Rarotonga Island (OC-013) in the South Cook Islands group, November 12th through December 1st. They plan to concentrate heavily on 160/80 meters. All QSL requests should go to K5KG.

EA8, CANARY ISLANDS (AF-004). Operator Slavo, SP2JMB, will be active as EA8/SP2JMB from November 7-12th. Activity will be on 80-10 meters, CW and SSB. QSL via SP2JMB, direct or by the Bureau.

EF8, CANARY ISLANDS (AF-004). Operators Valery/RD3AF, Alex/RZ3AZ, Yuri/RA9JR and Yuri/UA9AM will be active as EF8M during the CQ World Wide DX CW Contest (November 24-25th), as a Multi-2 entry. QSL via RX3DU (QRZ.com).

FR, REUNION ISLAND (Also Mauritius). Pekka, OH2YY, will be active as FR/OH2YY from Reunion Island between November 12-15th. He will also be active from Mauritius as 3B8/OH2YY between November 16-22nd. Pekka tells OPDX that he will be operating on 40-10 meters SSB using 100 watts into vertical/dipole antennas. QSL via his home callsign, by the bureau or direct to his home address.

HB0, LIECHTENSTEIN. Look for the "Hungarian Traveling Amateur Radio Team" to be active from here again between November 6-14th. Operators will be Laci/HA0HW, Tomi/HA4DX and Geza/HA4XG. They will operate from Masescha (JN47SD, 1350 m ASL) as HB0/homecall. Activity will be on the HF bands, CW, SSB, maybe some digital modes plus 2m on tropo and MS. Their main focus will be on 160 and 80 meters using an Inverted-L antennas and amplifiers. On other bands they will use DunaX gps. QSL via HA Bureau is "OK" or direct via the operator's QRZ.com address.

IOTA NEWS.....
EU-171. Klaus, DK9LO, will be active as OZ/DK9LO from Vendsyssel-Thy/Nordjylland (NJ-001 for the Danish Islands Award), November 3-16th. Look for activity around the usual IOTA frequencies.
QSL via his home callsign, direct, by the bureau or e-QSL.

OC-203. Steve, G4EDG, will be active from Stewart Island as ZL4/G4EDG (or possibly his own ZL callsign by the time the operation starts), November 5-7th. Activity will be on 40-17 meters CW only. QSL direct only to his home callsign. Logs will be uploaded to LoTW ASAP.

OC-144. Operator Hotang, YC0IEM, will be active from Bangka Island between November 18th and December 5th. No info on bands/modes was provided. QSL via IZ8CCW.

OC-186. OP CANCELLED! Adhi, YB3MM, who was scheduled to be active from Karimunjawa Island during the weekend of the CQ WW DX SSB Contest, had to cancel due to a transceiver problem. Look for him to try it again during the CQ WW DX CW Contest (November 24-25th). He will sign as YB3MM/2. QSL via IZ8CCW.

J5, GUINEA BISSAU (Update). The "F6KOP TEAM" is planning a DXpedition to Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January 11-21st (2008). Their callsign will be J5C. This is the same group that was active as XT2C from Burkina Faso. They hope to be able to use all their skills and experiences gained from the past XT2C operation as well as being active on as many bands as possible simultaneously. Activity will be on 160-10 meters, but the team will focus on the lower bands 160-40m). There will be no 6 meters because this band is not allowed in J5-land. Modes will be mainly CW, SSB, RTTY, PSK31, PSK63 and MFSK16. As usual, they will try to make contacts on SSTV at the end of the DXpedition. Among their goals is to accomplish the first ever QSO between Japan (JA) and Guinea Bissau (J5) on 160m. The group will also dedicate this J5C DXpedition in memory of their beloved friend Gilles Simeon, F5PVF, past President of F6KOP ARC, who became a Silent Key in September (2007). The J5C team consists of: Frank/F4AJQ (Team leader), Gerard/F2JD, Gerard/F2VX, Pascal/F5JSD, Mathieu/F5PED, Frank/F5TVG, John/F5VHQ, Serge/F6AML, Jean-Paul/F8BJI, Romain/F8BUI, Benoit/F8PDR, Michel/FM5CD, Bernard/F9IE, Dieter/OE8KDK, Bill/N2WB and Bob/N6OX. The QSL route are via Franck, F5TVG (address correct in all of the major International and French Callbooks). The "F6KOP TEAM" is looking for sponsors and donations for this DXpedition. More details about this operation is available on the J5C Web site at: http://www.j5c.eu/

J7, DOMINICA (NA-101). Operators Harald/DL5HAQ, Manfred/DK6HA and Siegfried/DL3HBZ will be active as J75/DK0RZ, November 4-17th. Activity will be on all bands and modes. QSL via DK0RZ (QRZ.com).

KP2, U.S. VIRGIN ISLANDS. Operators Ann/KP2YL and Brian/KP2HC, who have relocated from St. Croix to California, will visit the island November 15-23rd. Expect to hear them throughout the week on HF SSB and CW. Brian will monitor 6m and take full advantage of any openings on that band. Ann will take part in a Multi-op effort for ARRL November Sweepstakes Phone with Bill/W2UDT and John/NP2B from the NP2B contest station. For those who have wondered, Brian advises that Ann has recovered nicely from her back surgery, and she is very excited about returning to the air from KP2. QSL both Ann and Brian direct only via their California address. QSL the NP2B contest operation via NP2B.

LN3, NORWAY. Members of the Vestfold Contest Club (LA3Z) of Stavern will be active as LN3Z during the CQ World Wide DX CW Contest (November 24-25th), as a Milti-Single entry. Operators mentioned are Harald/LA5UF, Paul/LA6YEA, Jon/LA8HGA and Tom/LA9GX. QSL via LA9VDA, direct or by the bureau. Bureau QSL cards can also be requested by E-mail to: la9vda2003-at-yahoo.no

MD, ISLE OF MAN (EU-116). Operators Rosel/DL3KWR and Hardy/DL3KWF will be on holiday here between November 17-30th. Look for them to sign MD/homecall and be active "after Tea Time" mainly on CW and the WARC bands. Hardy plans to work on RTTY and PSK31. Also, look for activity during the CQWW DX CW Contest. QSLs via their home callsigns. QSLs may also be requested via E-mail to: dl3kwr@darc.de -or- dl3kwf@darc.de Also, check their Web page at: http://www.mydarc.de/dl3kwr

PA20, NETHERLANDS (Special Event). Remember to look for members of the Netherlands Airforce Radio Amateur Society (NAFRAS - PI4NAF) to be active as PA20NARAS between now and November 19th. Activity will be on HF and VHF. This activity is to celebrate the 20th anniversary of the Society.

PJ2, NETHERLANDS ANTILLES. Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall, November 20-26th. Operators mentioned are Geoff/W0CG, Jeff/K8ND, Jim/W0NB, Jim/W8WTS, Gerry/G0RTN and possibly others. Their main goal is the CQ World Wide DX CW Contest (November 24-25th), as a Multi-2 entry using the callsign PJ2T. QSL PJ2T via N9AG. QSL all others via their home callsigns. ADDED NOTE: Operators Jeff/K8ND and Jim/W8WTS will stay on until December 3rd. They will also be active in the ARRL 160 Meter Contest (November 30th-December 2nd) as a Multi-? entry using the callsign PJ2T. Also QSL PJ2T via N9AG.

PJ2, NETHERLANDS ANTILLES. Jerry, WB9Z, will be active as PJ2/WB9Z from Signal Point, Curacao (SA-006, WLOTA LH-0942), December 12-25th. Activity will be holiday style on all bands. QSL via his home callsign.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:
TM3OSV via F5JEG UZ1H via UZ1HZ
UE9WFJ via RX9WN YU3A via YT7TY
UR4Z via UY0ZG

QSL CORRECTION. In last week's CQWW DX SSB Contest listing the QSL info for 5Z4/YT1CS was incorrect. The QSL route should be "via YT1CS direct only to his address on QRZ.com" (not YT1HA).

QSL AH6XX via the QSL Manager K2WR: Richard (Rich) Gelber, 205 West End Avenue, Apt 17E, NYC, NY, 10023.

Nenad, VE3EXY, QSL Manager for C31LJ, states he has the log for last week's CQWW SSB Contest. He has cards and is waiting to receive yours.

Mike, KA2AEV, has announced this past week that the log for the recent V26B CQWW SSB operation has been uploaded to the LOTW system.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

TI9, COCOS ISLAND. A international group of operators will activate Isla del Coco (NA-012) between February 5th or 6-15th. They will use the callsign TI9K. They plan to have 3-4 stations on 160-6 meters (plus 60m). Modes will be CW, SSB, RTTY and possibly PSK31. Organizer is Gunter/TI7WGI. Operators mentioned are: Oscar/EA1DR, Carlos/EA1IR, Andy/DH8WR/EA2CRX (co-organizer), Baldur/DJ6SI, Norbert/DJ7JC, Guenter/DL2AWG, San/K5YY, Carlos/TI2KAC and Anthony/W4OI/HK1AR. QSL via EA2CRX, direct or by the bureau. For more information, visit the Web page at: http://www.ti9.eu.com

TX5, CLIPPERTON ISLAND (Update/Press Release). The following is a press release from Jay, K4ZLE: "Clipperton 2008 -- This press release formally announces the 2008 DXpedition to Clipperton Island. The DXpedition will be led by N6OX with N7CQQ and K4SV as the management team. The goal is to make 100,000+ contacts, including working as many European, Mediterranean and African stations where Clipperton is high on the most wanted list. Departure date is February 28, 2008, arriving on Clipperton on March 4+-.

The team plans to operate 12 to 14 days, depending on conditions, using the call TX5C.
Currently Clipperton is ranked 35th on the most needed countries list worldwide. The team of 22 or so amateur operators look forward to meeting or exceeding the performance expectations of modern DXpeditions. In addition to the ham activities, there will be a series of scientific studies done by the team.
*Clipperton Island (French: Île de Clipperton and as the real French name Île de la Passion) is a nine-square-kilometer coral atoll in the North Pacific Ocean, southwest of Mexico and west of Costa Rica, at 10°18?N, 109°13?W. It has no permanent inhabitants. It is an overseas possession of France administered by the Minister of Overseas France.

*More information about this expedition, including details of the scientific studies, ways you can help support this expedition financially, bios on the operators, a sponsor list and history of this DXCC entity can be found at the team's web site:
http://www.clipperton2008.org
While checking out the web site, be sure to visit the TX5C STORE."

V3, BELIZE. Dave, WJ2O, will be active as V31DF during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via WJ2O.

VK4, AUSTRALIA. Operators JA1OZK, JA1CGC, JA1OHP, JF1TAB, JH1FUD, JL1LOW, JQ2IQW and JK1DRM will be active as VK4AHY during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-? entry. Operators will be there between November 23-28th and plan to be active outside of the contest using their personal home callsign. QSL via the operators home callsign. QSL VK4AHY via JA1OZK.

VK9, NORFOLK ISLAND (OC-005). Ulli, DL2AH, is now active as VK9ANH until November 15th. Activity has been mainly on 20 meters SSB. He is expected to be on 40-10 meters, SSB and RTTY. QSL via his home callsign.

VK9, COCOS-KEELING ISLANDS. Operators Bernd/VK2IA and Jan/DJ8NK will be active as VK9AA and VK9CCC, respectively, between November 18-26th. Activity will be on 160-10 meters, CW, SSB and RTTY. Look for VK9AA in the CQ World Wide DX CW Contest (November 24-25th). QSL VK9AA via DL8YR and VK9CCC via DJ8NK.

VP5, TURKS AND CAICOS ISLANDS (FISTS Op). Jim, K7WA, one of the members of the VP5W contest team for the CQ World Wide DX CW Contest, states he will be in VP5-land between November 17-30th. Before and after the contest the contest group will be active as VP5/homecall. Jim will be active on the FISTS frequencies looking for contacts with other members. QSL via the FISTS Bureau or his home QTH.

XU, CAMBODIA. Jack, F6BUM, will be active as XU7BUM from November 22nd to December 12th. Activity will be limited to his spare time and on CW only. QSL via F6CXJ.

XW, LAOS. Larry, XW1A, will be active during the CQ World Wide DX CW
Contest (November 24-25th) as a Single-Op entry. QSL via E21EIC.

URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to

drive a car to Seattle. "No difficulty at all, at all," said
the man with the Irish brogue. "I am looking for a good
driver to take a Lincoln there. Drive me round, let's see
how you shape." As I drove him round he told me of
various useful matters. He seemed to have taken quite a
liking to me, then he said, "I recognized your voice, you
were an Announcer." This I confirmed. He said, "I have
a short-wave radio which I use to keep in touch with the
0ld Country. Something wrong with it, it won't get the
short waves any more. The local men do not understand
this type of radio, do you?"
I assured him that I would have a look at it and he
invited me to his home that evening, even lending me a
car with which to get there. His Irish wife was exception-
ally pleasant, and they left within me a love for Ireland
which became intensified when I went there to live.
The radio was a very famous English model, an excep-

The bond completed, we soared upwards, up into the
night sky; I, ever inquisitive, looked down. Beneath us,
streaming beneath us, were our Silver Cords, those endless
cords which join the physical and the astral bodies during
life. We flew on and on, upwards. The Earth receded.
We could see the corona of the sun peering across the far
ridge of the Earth in what must have been the Western
world, the Western world into which we had so extensively
traveled in the astral. Higher we went and then we could
see the outlines of the oceans and continents in the sunlit
part of the world. From our height the world now looked
like a crescent moon, but with the Aurora Borealis, or
Northern Lights, flashing across the poles.
We moved on and on, faster and faster, until we out-
stripped the speed of light for we were disembodied spirits,
soaring ever onwards, approaching almost the speed of
thought. As I looked ahead of me I saw a planet, huge and

think that a man traveling alone is a freak, someone of
whom you must be suspicious. I am a tourist, I am seeing
the sights. I can see women anywhere."
He looked at me with some understanding in his eyes,
and I said, "I will tell you a story which I know is true. It
is another version of the Garden of Eden."
"Throughout history in all the great religious works of
the world there have been stories which some have believed,
but which others, with perhaps greater insight, have re-
garded as legends, as legends designed to conceal certain
knowledge which should not fall before any chance person
because such knowledge can be dangerous in such hands.
"Such is the story or legend of Adam and Eve in the
Garden of Eden, wherein Eve was tempted by a serpent
and in which she ate the fruit from the Tree of Knowledge,
and having been tempted by the serpent, and having eaten
of the Tree of Knowledge, they gazed upon each other and
saw that they were naked. Having obtained this forbidden

knowledge, they were no longer allowed to remain in the Garden of Eden.

91

"The Garden of Eden, of course, is that blissful land of ignorance in which one fears nothing because one understands nothing, in which one is, to all intents and purposes, a cabbage. But here, then, is the more esoteric version of the story.
"Man and woman are not just merely a mass of protoplasm, of flesh stuck upon a bony framework. Man is, or can be, a much greater thing than that.

Foxy's Showtime on Capital FM 25/11/98 7.35pm

Certainty level: 100%

This one, I can say with absolute certainty, is about me. It was recorded on my Sony Recording Walkman on the evening of Wednesday 25 November 1998. It doesn't mention me by name, so the objective observer might have trouble understanding why I'm so sure it's about me. I'm sure, because the harassment had restarted over the period when this piece was broadcast, and what Capital transmitted would have been in context with events at the time. (Sorry if that explanation is somewhat opaque, but I don't really want to embarrass myself by giving an explanation in detail, and an intelligent reader should be able to work it out for him/her self.)

This isn't the first time Capital have "got at" me; they were doing so right at the very beginning in summer 1990, when they said, "if he listens to Capital then he can't be all bad"; and Tarrant made remarks about me in his breakfast show in spring 1994, when he said, "you know this bloke? he says we're trying to kill him. We should be done for attempted manslaughter."

Unfortunately I didn't record those previous, much more conclusive instances of harassment by Capital DJs, and Capital Radio tells me they only keep recordings for three months. But lately I've been recording everything, and here is one product of that recording.

Neil Fox was introducing some petite Swedish songstress, sounded like Amelia, when he said something about her petite-ness ;

"she's a big big girl, actually she's really about tiny, she's this big, would you say what less than....."

then one of his studio staff shouted, "six inches"

then Fox laughed and said, "less than a meter tall, definitely"

What I think the "six inches" referred to should be obvious. I think it's sexual abuse directed at me.

Also there were a lot of words like "crazy", "mad" etc on this programme, which reinforced my belief that this was on purpose directed at myself.

I think Fox may be something of an unwilling participant in this abuse, he doesn't want to be an abuser but the persecutors are using his show and his staff to get at me. This is not the first time this sort of thing has happened from his show; and my guess is that it won't be the last

Jackie King from the Flying Eye 14/3/99

Certainty level: 40%

In early March 1999, Capital Radio alleged they had received some emails, one of which was forwarded to me. It contained the words, "you know this bloke, he says we're trying to kill him, we should be done for attempted manslaughter!" which Chris Tarrant had said in 1994.

Following these emails there was an explosion in abuse activity, both from Capital Radio, and from MI5 themselves. MI5 followed me around and hurled abuse at me. The following audio file contains what may be abuse from the radio station.

Jackie King from the Flying Eye made these remarks on Sunday (14/3/99) lunchtime 12.24pm; "gas main work being, er, HANDLED if you like (laughs, embarrassed) outside Madame Tussauds, Euston Road obviously feeling the backlash of that".

The key word is "handled", which she sounds embarrassed to be saying; to me it looks like an attempt at a sexual slander. Capital Radio aren't even pretending not to get at me any more. I asked Chris Tarrant several times about his remark from 1994, and he has consistently avoided answering.

Virgin Radio-Johnny Boy (21/August/1998)

Certainty level: 60%

On Saturday 15 August 1998 I attended a gathering of contributors to newsgroup uk.misc at London's Victoria railway station. Also present was Simon G, who had previously given this description of what he would be wearing;

At 06:36 AM 13/8/98 GMT, Simon wrote:
>further clarification to aid recognition, i'll be wearing
>a t shirt, a brown suede waistcoat, a brown suede miniskirt,
>& a pair of patchwork leggings (& may have a widebrimmed straw
>hat, too).

It is my belief that my persecutors, who monitor my home telephone line (and consequently read all modem communications including email), were aware of this meeting, and may even have observed the "meat" taking place.

Following the "meat" it seemed to me that one or two attempts were made by my persecutors to portray me as "gay", on the basis of Simon's suede miniskirt, which in their inventiveness my persecutors attributed to me, not Simon. (Just for the record, Simon is hetero, and has agreed to the above email extract being published.) The following item from Johnny Boy's Wheels of Steel (between 7pm-11pm, Friday 21/8/98) is one such attempt.

(conversation) (J=Johnny-Boy, H=Hipster)

J: Texas of course part of V98 this weekend enjoy it if you're going. Keep your eyes out on Sunday in Chelmsford for Hipster, because he's going to be there. What are you going to be wearing?

H: I'll be wearing my, er, my suede shorts.
(sycophantic laughter)

J: and believe me he ain't joking, he ain't joking. OK coming next at Virgin on the Wheels of Steel...

Why do I think Hipster's "suede shorts" refers to Simon's mini-skirt? Because "suede" in both cases (obvious!); because "suede shorts" indicates "gay" which they were trying to pin on me; because "shorts" = something short, such as a "mini"-skirt; and because the two DJs both laughed as soon as Hipster said "suede shorts", they knew what the joke was, they knew that they were meant (and probably paid) to find it funny.

Virgin Radio-Johnny Boy (19/June/1999)

Certainty level: 30%

I'm not quite sure about this one, so I've given it a one in three chance of being about me. First the background.... from mid-March 1999 for some three or four months, every weekend, I bombarded Westminster MPs with faxes about the terrible, all-encompassing MI5 Persecution. (Jesting aside, it really is terrible and all-encompassing, in the UK anyway.) Of course each week some MPs replied; but in June 1999, after I'd been at it some three months, I started getting "covert" feedback from Virgin Radio.

The first feedback I got was from Danny Baker, on Sunday 13th June. That weekend I was sending an article which contained biting criticism of the police inaction in this case. Danny Baker on his Virgin radio show started an angry rant that "he knows it's rubbish", ie. he was rubbishing what I'd said in that weekend's faxed article. Unfortunately I wasn't recording this programme.

The next possible Virgin-Radio feedback was a week later on 19th June 1999. This is contained in the audio file above, in which Johnny Boy on his "Wheels of Steel" programme says;

"and if you would like to put a triple play together, ahhh.... because quite frankly Hipster and me are running out of ideas...."

He goes on to counter Hipster's "how dare you" with a protestation that he is "only joking".

What I reckon is that my article faxed to MPs that weekend was forwarded by one of the recipients to Virgin Radio. My article had included the words;

"I am beginning to run out of both new topics and energy to write these articles."

So what I reckon is that Johnny Boy read the article.... and rephrased the above line "run out of ... new topics" to "running out of ideas". I recognise that this is a pretty tenuous inference to make.... but do listen to the audio file, from the "ahhh...." pause in JB's speech you can guess he is about to say something "risky" and at someone's expense. Anyway, I listen to the Wheels of Steel regularly and will continue to do so, recording it as I always do - so any future funny remarks will get immortalised on these pages!

Brighton Day Trip - 24/Sept/1998

Certainty level: 5%

On a day trip to Brighton, carrying a minidisc recorder, I managed to collect several indistinct instances of what I think were people swearing at me. Between the 0.5 and 1.5 second marks of the above recording is something that sounds like "nutter". I recorded at least three other much more obscene sexual words on the same day.

I don't honestly think the "nutter" recorded here is part of the conspiracy against me. I've been called similar things elsewhere, where it's been blindingly clear that the insult does form part of the conspiracy - but not in this case. This illustrates quite a worrying point - as a result of the many years of abuse "in public", I now sometimes simply don't know whether somebody is insulting me because they think I look like a dweeb, or whether the conspiracy is in action. Sometimes, due to background noise and people talking quietly relative to ambient noise, I can't be sure of what's being said, even after listening to it again on my minidisc. Or put another way, I now have a mild form of what I recognise to be occasional auditory delusions - but these are fuelled by the many years of actual verbal abuse.

POSK Cafe - 2/Feb/1998

Here are two independent segments, both of which occurred in London on
the same day, the first at a Polish cafe, the second on the Tube.

Certainty level: 100%

POSK is the Polish Social-Cultural Centre in Hammersmith, London. It has
quite a nice cafe which does pierogi, golabki etc. I went there with my
mother early in 1998. Seated at the window table were three Polish men
talking amongst themselves. One of them let rip with a sexual obscenity
which was clearly directed at me (it's the same one that's been heard
again and again since about November 1995), and which was recorded on my
minidisc walkman. I have not included it in the above excerpt, which shows
the reaction of another of the trio to the first man's swearing - namely,
"jestes swinia jednak" which in English is "nevertheless you're a swine".

Certainty level: 20%

Somewhere on the London Underground. "Psycho" (I think - a little unclear).

414. MI5 Persecution: Leicester Square 9/2/98 (13523)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-11 10:36:17 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07101114324618@4ax.com>
Source record: 2335
Cross-posted to: no.fritid.slektsforsking.it,uk.politics.parliament,gay-net.kontakte,rec.radio.amateur.dx,sci.space.shuttle

Leicester Square - 9/Feb/1998

In February 1998 I spent some time in Leicester Square, in the West End of London. This is a very busy area of London, and one which can be relied on to produce "contacts". Capital Radio's offices and their cafe are located here, the Trocadero is nearby, and the place is full of cinemas and entertainment venues.

Certainty level: 100%

A young girl is heard to say, "Alright I'm going to talk to myself" to her friends, followed by all of them laughing together, as I passed by.

Believe me, I do not look mad in real life, these young people would not have directed their comments and laughter at me unless they had already been told by others that I was ill. I am absolutely certain that their behaviour was directed at me, and this audio file is particularly clear.

Certainty level: 60%

This one was recorded in a cafe in Green Park. Two women are talking to each other, one of them says to the other, "something wrong with him", with an emphasis on the "wrong".

The words "something wrong with him" have been repeated at me dozens of times, at my former workplace in Canada, in England, etc. The words are quite deliberately chosen to have two meanings; they obviously imply that I am ill, without forcing the abusers to demean themselves by using more pejorative terms, although they have shown that they have no compunction in that area; and secondly, the words "wrong ... him" make me at fault, and place the guilt for the abusers' wrongdoing on my shoulders.

Certainty level: 30%

Recorded on a Victoria line tube train leaving Green Park station.
If you listen carefully you can pick up the word "hunchback". The speaker had emitted a swear word immediately before this excerpt; both the swear word, and the "hunchback", were (I believe) directed at me.

BA984 LHR->TXL 13/June/1998

Certainty level: 100%

In June 1998 I travelled on the above British Airways flight to Berlin with my mother, to visit her family. There were two women in seats 30D/E, about 4/5 rows behind us. It was quite obvious from the torrent of abuse during these flight that these women had been instructed to harass me and attempt to obtain a reaction.

I did manage to record much of the flight, but unfortunately much of the recording is unclear because of high background noise on the aircraft. The following three excerpts from the recording are the best I can do.

The segment at position 11:34 minutes on my recording contains a fairly quiet word "paranoid", followed immediately by a much louder "yeah, he's paranoid, yeah". During the flight the abuse was not sexual, as it so often is elsewhere, but attacking my mental health.

One of the women in seats 30D/E said "paranoid" very clearly towards the end of the flight, but unfortunately I had run out of minidisc space and stopped recording by then. There is absolutely no doubt in my mind that these women were directed to harass me. This harassment happens without fail on British Airways flights; I've been on something like three or four BA flights in the last 5 years and it's happened each time. Presumably this is because of international law which says incidents on aircraft during flight are actionable in the airline's country of origin - so my persecutors want a reaction from me, and they want to see me "done" in the UK where they can influence the justice system.

These incidents never happen on foreign-domiciled carriers.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 832
BID: $OPDX.832
November 12, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3IXD, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4JF, K8YSE, K9CS, KU9C, DX-IS News Site, Pete's-DX-Newsdesk, 9K2HN, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, G3SWH, HI8RV, I1JQJ/IK1ADH & 425 DX News, I2YSB, IZ8DDL, JA1NLX, JG7PSJ, JI6KVR & IOTA-JA News, RA3AUU, RSGB IOTA Web Site, SU1SK, VA3RJ & ICPO and XE1GRR for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th-November, through Sunday, 11th-November there were 220 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, J8, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T8, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Marko, N5ZO/OH6DO, will be active as 3DA0ZO during the CQ World Wide DX CW Contest (November 24-25th), as a Single-Op/All-Band entry. QSL via OH0XX, by the bureau or direct to his Panama address: Olli Rissanen, Apartado 0860-00432, Villa Lucre, Panama.

6E, REVILLAGIGEDO (Update). Members of the radio club "Federacion Mexicana de Radio Experimentadores" (FMRE) will activate Socorro Island (NA-030, WLOTA LH-2941, WW Loc. DK48MS) in the Revillagigedo (XF4) Island group, between mid-November and mid-December. The team will depart Manzanillo on a Navy ship on the 15th or 16th of November. They expect to be active possibly November 17th or 18th, and be on the air for about 30 days. They will use the callsign 6E4LM. Their activity is to celebrate the 75th anniversary of FMRE. Team members will include Carlos/XE1YK (team leader and FMRE President), Manuel/XE1VVD, Eduardo/XE2YW and Daniel/XE3RBA. Look for activity to be on 160-10 meters plus 6 and 2 meters with operations on CW, SSB, digital modes and the satellites.
ADDED NOTES: They may use the callsigns XF4YK (QSL via XE1YK) and XF4YW (QSL via XE2YW). The group has also planned to possibly stop (on their way back to the mainland) to operate for 3-4 hours from Clarion Island (IOTA NA-115) on 20/17/15 meters, December 18th or 19th, if the Mexican Navy and weather permit. QSL direct to XE2K: Jose Hector Garcia M., P. O. Box 73, El Centro, CA., 92244-0073, USA. Logs will be uploaded to LoTW after all direct QSLs have been sent. More information can be found at: http://www.6e4lm.xedx.org
The pilot stations for the DXpedition will be XE1J and XE1GRR.

6H, MEXICO. Ismael, XE1AY, will be active as 6H1AY from Manzanillo during the CQ World Wide DX CW Contest (November 24-25th). No operating category was provided. QSL via XE1AY: P.O. Box 440, 28200 Manzanillo, Colima, Mexico.

6Y, JAMAICA (NA-097). Operator Dave, KY1V, will be active as 6Y1V from Hopewell (WLOTA LH-0214) for the ARRL 10 Meters Contest (December 8-9th) as a Single-Op/High-Power/CW entry. QSL only to OH3RB, direct preferred but bureau ok.

8R, GUYANA. Operators Phil/G3SWH and Jim/G3RTE will be active from Georgetown between February 22-29th (2008). Phil states, "The 2003 'Most Wanted' survey by 425 DX News shows Guyana at #168." The license has already been issued and the callsign will be 8R1PW. As there have been two recent operations from Guyana in 2007 which used mainly SSB, their activity will be on CW only on all bands 160-10 meters concentrating on the LF and the 30/17/12 meter bands. 160 meters operation is possible dependant upon QRN and site conditions. Propagation permitting, they plan to have two stations on the air for as many hours every day as is possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's Web site <www.g3swh.org.uk/form.html> for a bureau reply or via the bureau. There will not be an online log (during their operation), but the logs will be uploaded to the following Web site as soon as possible after their return and to LoTW about one year later. For more information visit: http://www.g3swh.org.uk/8r1pw.html

9G, GHANA. Alan, G3XAQ, will be active as 9G5XA from Accra, November 12-26th. Activity will be CW only. He is also expected to be in the CQ Workd Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band

(possible 15m) entry. Alan will concentrate on 30 and 17 meters outside of the contest. QSL via G3SWH.

C9, MOZAMBIQUE (Update/Reminder). Remember Wayne, W5KDJ, will be going here this week and be active as C91KDJ, November 15-28th. Wayne will concentrate on CW and possibly some RTTY with an emphasis on 160 and 80 meters. His plans are to be active in the CQ World Wide DX CW Contest (November 24-25th). His QTH will be about 50 kilometers north of Maputo. Grid Square: KG64ik. Antennas include a 72 foot vertical for 160/80m, 4 Square 40m, dipole for 30m, and a 2 & 3 element yagis at 60 ft for 20-10m. QSL via W5KDJ. Look for an online log to be available after the DXpedition. Logs will be uploaded to ARRL LoTW. Visit Wayne's Web page at: http://www.tdxs.net/c91kdj.html

CU2, AZORES. Toni, OH2UA, will be active as CU2A during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH. Visit the CU2A Web page at: http://www.cu2a.com

CY0, SABLE ISLAND (6m Op!). A 6 meter DXpediton is planned for 2008 between June 25th - July 5th. Look for Sable Island (NA-063, CISA NS-004) to be activated by Pete/VE3IKV, Dick/K5AND, Chris/W3CMP, and Bill/W4TAA. Activity will be on CW and SSB. The fixed 6m station in FN93 will have 800 watts into a 7 element beam up 40 ft. A portabele 6m station in GN03 will have 100 watts into a 5 element beam up 30 ft. The callsign and frequencies will be announced later. Other references are: Sable Island - East Lighthouse (ARLHS SAB-001, TWLHD WLH CY0-001, WLOTA:0758, WW Loc. GN03CX) and Sable Island - West Lighthouse (ARLHS SAB-002, TWLHD WLH CY0-002, WW Loc. FN93XW).

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that all operations on Vlad, UA4WHX's, last trip are now OK for DXCC credit. These include but may not be limited to:
5X1VB - Uganda 9X0VB - Rwanda D60VB - Comoros
9U0VB - Burundi D20VB - Angola J20VB - Djibouti

Other operations include:
3DA0VB - Swaziland C91VB - Mozambique V51VV - Namibia
5R8VB - Madagascar OD5/UA4WHX - Lebanon Z2/UA4WHX - Zimbabwe
A25VB - Botswana ST2VB - Sudan

EARA AWARD CHANGES. Said, SU1SK, informs OPDX that there have been changes in the Egyptian Amateur Radio Assembly (EARA) Award. Please note the following changes in the rules required for obtaining the EARA Award. To qualify for the EARA Award, it requires accumulating 10 points as follows:
1 - Any QSO with an Egyptian amateur radio station on any single band counts as 1 point.
2 - Any QSO with an Egyptian IOTA, JOTA, on any single band counts as 3 points.
3 - Amateurs who already accumulated 10 points or more are kindly asked to send QSL card copies accompanied by 5 green stamps or 5 â,¬ ONLY by registered mail to this address: GREISS SOBHI, P.O.Box 18 Agouza, GIZA 12654, EGYPT.

To see a picture of the award, please visit the following Web site at:
http://www.qrz.com/callsign/SU0AWARD

EF8, CANARY ISLANDS (AF-004). Operator Valery, RD3AF, will be active as EF8M during the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op entry. QSL via RX3DU (QRZ.com).

FS & PJ7, St. MARTIN AND SINT MAARTEN. Operators Jorn/DG5XJ, Bernd/DH1ND and Jurgen/DJ5HD will be active as PJ7/homecalls from Sint Maarten (NA-105), November 15-28th. They will also be active as FS/homecall from St. Martin (NA-105, WLOTA LH-0383). Their activity will be on all bands and modes. QSL via their home callsigns, direct or by the bureau. More info is available at: http://www.dg5xj.de/dg5xjpj7.htm

HV, VATICAN. Members of the COTA Association (Carabinieri on the Air) will activate HV5PUL between November 19-21st from the amateur radio station at the Pontifical Lateran University in the Vatican City. Activity is to celebrate the recurrence of the proclamation of Saint Maria "Virgo Fidelis", patron saint of the Carabinieri, Italian military police. Their operations will be on all bands and modes on HF and 6 meters.

HZ, SAUDI ARABIA. Thomas, HZ1EX, will be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. He will operate at HZ1GW's QTH as HZ1GW or his own callsign. PLEASE NOTE: 80m is not available in HZ-land! QSL HZ1GW via GW0RHC or HZ1EX via SM0BYD.

HZ, SAUDI ARABIA. Ahmed, HZ1AN, from Jeddah, can sometimes be found on CW on 40/20/15 meters usually between 1230 and 1600z. He can also be heard sometimes on the Arabian Net on 14252 kHz after 0700z. QSL via DJ9ZB.

IOTA NEWS.....
AS-023. Hiro, JA6WFM, will be active as JF6YME/6 from Yoron Island (Yoron Shima - JIIA AS-023-013, WLOTA LH-0287), JA6 Amami Island Group, November 21-24th. Activity will be on the HF bands using CW, SSB and RTTY. QSL via the JARL bureau.

NA-029. Art, N3DXX, will be active as VY2/N3DXX from Prince Edward Island (CISA PE-001) in the CQ 160-Meters Contest (January 26-27th), as a Single-Op entry. QSL via his home callsign.

NA-058. Operator Rick, N8OIL, will be active as N8OIL/4 from St. Simons Island between now and November 23rd. QSL via his home callsign, direct or by the bureau.

NA-213. Dennis, WA2USA, will be active as WA2USA/4 from Dauphin Island (USI AL-002S, Mobile County, Alabama), November 14-20th. His activity will include an entry in the ARRL Sweepstakes Phone Contest (November 18-19th). Look for activity around the usual island and IOTA frequencies. QSL via his home callsign, by the bureau or direct to: Dennis Martin, 5577 Victoria Ct., Newburgh, IN 47630 USA.

J8, ST. VINCENT. Dave, G3TBK, will once again be active from here and will sign J88DR between November 21-29th. Activity will be on all HF bands, especially 30/17/12 meters, but mostly on CW. He will also be in the CQ World Wide DX CW Contest as a Single-Op/All-Band entry. QSL via G3TBK, direct or by the RSGB Bureau.

JD1, OGASAWARA. Harry, JG7PSJ, informs OPDX that he will be active as JD1BMH from Chichi-Jima (AS-031, JIIA AS-031-003, WW Loc. QL17CC), in the Ogasawara Island group, from 1000z, December 29th to 2200z, January 4th. Activity will be on 160-10 meters, CW, SSB and RTTY. QSL via JG7PSJ, by the bureau or direct to: Hiroyuki Kawanobe, 1-4-1,Mikamine, Taihaku, Sendai, Miyagi 982-0826 JAPAN. Look for more details and a log search at: http://sapphire.ganko.tohoku.ac.jp:8080/jd1bmh/

LU8, ARGENTINA. Members of the Radio Club de los Andes will be active as LU8YE during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Op entry. The GACW representatives LW1EXU, LW2DX and LU1DZ will drive more than 1,700 km from Buenos Aires to San Martin de los Andes to participate with the local operators.

PJ4, NETHERLANDS ANTILLES (Update/More Details). Operators Jeff/KU8E, John/K4BAI and Larry/K5OT will be active as PJ4/homecall from Bonaire (IOTA SA-006) between November 20-27th. Also look for them to be active as PJ4A during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. Jeff states, " I will be doing a lot of operating on 160 meters as PJ4/KU8E before and after the contest like I did back in Feburary when we were there for the ARRL DX CW Contest. In addition to a beverage towards the NW (USA) we will have one toward EU as well. I will be making an effort to work Asia every morning. If 160 is not good, check 80 (3505) or 40 meters (7005). The sunrise in Bonaire is 6:00AM local or 1000z. The antenna will be an inverted L - about 80 ft vertical and a KW (AL-1200)." QSL all callsigns via K4BAI.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:

Hamad, 9K2HN, has informed everyone that he uploaded his whole log (193,000 QSOs) into the LoTW server.

BS7H QSLS. Steve, KU9C, informs OPDX - "Guys, I'm pretty current with BS7H QSLs. I've set up a unique login to help with BS7H inquiries, that is bs7h2007@yahoo.com. If anyone has status questions, this will be the E-mail address to use to ask. Tnx, 73 Steve KU9C"

QSL information for FK/JA1NLX during the November 5-9th operation is as follows: QSL for all QSOs will be sent via Bureau. If you need a quick QSL then you may send SASE to the following address. Akira will send a QSL as soon as he receives your SASE. LoTW log may be uploaded in a few weeks. Direct SASE should be sent to:
Akira Yoshida, 1238-23, Kogasaka, Machida-city, Tokyo, Japan 194-0014

Rafael "Chikin", HI8RV, informs OPDX that he will have a new callsign starting December 1st, 2007. The new callsign is HI8A. If someone needs a HI8RV QSL card, this callsign will be active until November 30th, 2007.

Silvano, I2YSB, is the QSL Manager for the following stations: 5U1A, 5U2K, 5U3T, 5U4R, 5U5A, 5U6W, 5U7B, 5U7DW, 5U7JK, 5U7JW, 5U7RW, 5U8B, 5U9C, 5U0T, 5W0SB, 6O0CW, 6O0N, J20MM, J20RR, FO/I2YSB, TX4PG, ZK1GNW and ZK3SB. He also informs that due to the low exchange rate with the Euro, 1 USD is not enough to cover the mail expenses in Italy; therefore, he kindly asks to enclose 2 USDs or 1 IRC for direct QSL request.

QSLS VIA LOTW: 9K2HN

QSLS RECEIVED VIA MAIL: 3B7C, 4K9W, 9U0A, 9M6XRO, HK6P, HL8KSJ, IA2IPY, IE9/IK4RUX, II1ANT, JX9NOA, PD2HR, RA9LI/FJL, T30XX, VA3ANTA, XE1L and YB9/PA0RRS

S7, SEYCHELLES. Operators Andy/UA3AB and Harry/RA3AUU will be active as S79AB and S79UU, November 19-28th. Activity will be on 160-10 meters and include the CQ World Wide DX CW Contest (November 24-25th). QSL via UA3DX. Outside of the contest, low bands is their priority.

SOUTH AMERICAN TOUR. Operators Andrea/IK1PMR and Claudia/IZ1GLO/K2LEO are currently touring South America. The duo is presently in Uruguay (CX). During their stay in the following countries, they plan to be active on the weekdays on CW/RTTY on 30/17/12m and the low bands as well as taking part in the major CW/RTTY contests on the weekend. They will be in CX-land until November 15th signing K2LEO/CX & IK1PMR/CX. Next stop will be Argentina (LU), between November 17-18th possibly signing IK1PMR/LU and K2LEO/LU. They will move onto Paraguay (ZP) and will be active as ZP0R (op IK1PMR) during the CQ World-Wide DX CW Contest (November 24-25th) and ZP6/IZ1GLO on RTTY operations. Activity will also include the ARRL 160m Contest (December 1-2nd) as ZP0R (op IK1PMR) and TARA RTTY Contest as ZP6/IZ1GLO. They then head back to Uruguay and be active in the ARRL 10m Contest (December 8-9th) and sign CW2C (Multi-Op) or IK1PMR/CX and K2LEO/CX. Updates will be posted on the following Web page: http://www.ik1pmr.com

T8, PALAU. Operator Osamu, JR8VSE, will be active as T88SE between November 18-21st. Activity will be on CW, SSB, RTTY, PSK31 and SSTV. QSL via JR8VSE.

T9, BOSNIA AND HERZEGOVINA. Operators T90R, T90T, T93J, T96C and T98U will be active as T93J during the CQ Wolrd Wide DX CW Contest (November 24-25th) as a Multi-2 entry.

TL, CENTRAL AFRICA. Dave, W1DV, will be active as TL8DV starting the last week of March (2008) or the first week of April (2008), for about 8 or 9 weeks. Activity will be mainly CW with some Phone. For more information, watch W1DV on QRZ.com.

TU0, COTE D' IVOIRE. Members of the Association Des Radio-Amateurs Ivoiriens (ARAI) will activate the callsign TU0PAX on November 15th during their yearly Ivorian Peace Fest. Activity is to celebrate the "Peace Day Commemorative in Cote d'Ivoire (Ivory Coast)." Look for operations on all HF bands, SSB, CW, RTTY and PSK31. QSL TU0PAX via TU2CI: ARAI, P.O.Box 2946, Abidjan 01, Cote d' Ivoire (Ivory Coast).

V4, ST. KITTS (NA-104). Andy, N2NT, will be active as V47NT from the QTH of V47KP during the CQ Wolrd Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via W2RQ.

VP2M, MONTSERRAT (Update). Operators Larry/K3VX (VP2MVX), Will/K9FO (VP2MFO), Don/K9NR (VP2MNR), Carl/K9CS (VP2MSC), plus Greg/WR9L (callsign pending) and Paul/W2EP (callsign pending) will be active from here between November 20th and December 3rd. Activity will include entries in the CQWW DX CW Contest (November 24-25th) and ARRL 160 Contests (November 30th-December 2nd). Activity outside the contests will be on 160-10 meters, mostly CW but some SSB, RTTY and PSK. QSL all callsigns via K9CS.

VP8, ANTARCTICA. Alan, VK6CQ (aka VK0LD, VP8PJ anf 9V1DX), will be active again soon from the Patriot Hills Base, Ellsworth Land, but this time for only a short stay (7-10 days). Specific dates were not provided. Look for him to sign VP8PJ during his limited spare time. Activity will be mostly CW on 40/30/20 meters. QSL via DL5EBE.

VP9, BERMUDA. Kyle, WA4PGM, will be active as VP9I in the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/Low-Power entry. QSL via N1HRA, by the bureau or direct to: William R Champagne, 105 Main St., Ashaway, RI 02804, USA).

XT, BURKINA FASO. Michael, F1IQH, will be active as XT2WC from Bobo Dioulasso starting early December (the 6th was mentioned) through early January. QSL via F1IQH.

ZF, CAYMAN ISLANDS. Ed, K3IXD, will be active as ZF2XD in CQ WW WPX RTTY Contest, February 9-10th (2008), as a Single-Op/All-Bands/Low-Power entry. The IOTA is NA-016, the grid locater is EK99. Outside the contest look for ZF2XD from February 6-11th (2008), on 80-10 meters on SSB and the digital modes. QSL to K3IXD.

======================
== 60 metres ,hence freq is 5 MHz ?
== Fixed frequency ?
== What is desired operating range ?
== What area is available to accommodate an antenna?

If for a limited range I would put up a single tubular (guyed) mast
with
a non-metal top end and fit an inverted V shape dipole with a suitable

length of twin feeder and a current balun/choke near the transmitter
,assuming the transmitter needs to see a 50 Ohms resistive load.
The dipole would be 2 times 15 metres long with the twin feeder length
30 meters or a multiple thereof .

Alternatively an inverted V dipole ,length 2 times 30 metres with the
twin feeder length 15 metres or an odd multiple thereof.

Your question is too broad , please specify purpose and operating
freq/range of the transmitter.

Frank GM0CSZ / KN6WH

That's sort of a 'broad' question. Depends a lot on where the
antenna is to be situated and the state of your bank account versus
your building abilities.
An antenna's environment determines much of it's electrical
characteristics, so that can be an important part of the 'selecting'
process. An antenna's mechanical characteristics also are part of
that 'selecting' process. There are gobs of antenna 'styles'/types so
those mechanical 'problems' can usually be sorted out easily, sort of.
Can't give you a particular address for that antenna, but would
suggest doing lots of 'shopping' before buying. Making one to fill
your need isn't unreasonable at all and can certainly be cheaper
(important consideration if you're as 'cheap' as I am!).
Good luck.

Does anyone have their HR20 hooked up using the HDMI connection? The technician hooked us up using components and I never even gave it a thought at first. Is there any noticeable difference in the picture with the HDMI connection? The picture we are getting with the component hook up is very good. but I'm wondering if it can be even better. If we do change to HDMI how would the connections go? Right now everything is run through the Yamaha receiver.

FWIW, yes, you should use the HDMI connection. Better definition, fewer
artifacts.

Everybody who uses usenet has done that a time or two. :-) No biggie.

> That's ok. I saw it in the other group also.

You're not the Bob Nielsen i used to work with at that university founded
by a tobacco baron, are you? Bell Bldg, MSRB ..?

To keep this on topic: I sure haven't done any DXing in a long time.
Though the last time I was home, i found a QSL from VP8, for a PSK31 QSO.

BA984 LHR->TXL 13/June/1998

Certainty level: 100%

In June 1998 I travelled on the above British Airways flight to Berlin with my mother, to visit her family. There were two women in seats 30D/E, about 4/5 rows behind us. It was quite obvious from the torrent of abuse during these flight that these women had been instructed to harass me and attempt to obtain a reaction.

I did manage to record much of the flight, but unfortunately much of the recording is unclear because of high background noise on the aircraft. The following three excerpts from the recording are the best I can do.

The segment at position 11:34 minutes on my recording contains a fairly quiet word "paranoid", followed immediately by a much louder "yeah, he's paranoid, yeah". During the flight the abuse was not sexual, as it so often is elsewhere, but attacking my mental health.

One of the women in seats 30D/E said "paranoid" very clearly towards the end of the flight, but unfortunately I had run out of minidisc space and stopped recording by then. There is absolutely no doubt in my mind that these women were directed to harass me. This harassment happens without fail on British Airways flights; I've been on something like three or four BA flights in the last 5 years and it's happened each time. Presumably this is because of international law which says incidents on aircraft during flight are actionable in the airline's country of origin - so my persecutors want a reaction from me, and they want to see me "done" in the UK where they can influence the justice system.

These incidents never happen on foreign-domiciled carriers.

Evil old bat in BHS 18/12/98

Certainty level: 40%

Not quite sure how sure I am about this one. I went down to Croydon (Surrey) with my mother to buy her a beret. After doing the shopping, we went to the BHS store restaurant to lunch on fish and chips.

You can guess the rest. Auditory hallucinations my shrink calls them, faithfully recorded on Sony minidisc. Some old cow going on about "see that chap, the one over there, something's wrong with him".

It is quite tiring being attacked by random idiots in the street, or as in this case, by some random, evil old bat in a restaurant. Fortunately it is only a sporadic occurrence. My enemies seem of late reluctant to waste resources in my direction. Should I take this as an insult? Am I not worth the millions of taxpayers money which has been wasted on me? Are the obsessives of MI5 themselves the "nutters" and "really mad" which they accuse me of being? Interestingly this suggestion as to the psychological profiles of Security Service personnel has been made by others... it does lead one to wonder, doesn't it?

Ravenscourt Park 20/3/99

Certainty level: 70%

On Saturday I went to Hammersmith, specifically Ravenscourt Park. There had recently been a resurgence of persecution activity, following the Capital spams. I went to the cafe in the park and had a cup of coffee outside, with my mother. As I went inside the cafe to return the cups, a woman shouted a sexual obscenity (not present on this audio file - don't ask), and she said loudly "something's wrong with him". You can just about hear it in the audio file; listen very carefully, several times; it is distinguishable.

Much less subtle is the male voice shouting "take care he's a nutter" immediately after the woman's voice. As on the other recordings there's a lot of noise, but what the people say can be clearly heard.

Given that I take medication and look and behave quite sanely, and that there had been increased abuse over the last couple of weeks, it seems pretty unlikely that this incident was just spontaneous.... of course, you couldn't prove otherwise, but then that's the way MI5 mean their abuse to look.

Battersea Library 29/3/99

Certainty level: 60%

This one is quite dull. During the month of March 1999, MI5 made another determined attempt to "get" me, substantially through radio programmes, through Jon Snow on Channel Four News, and through abuse in public, of which this is one example.

Recorded on my minidisc-walkman on Monday 29 March 1999, this audio file consists of two girls talking. One says to the other, "he's got something wrong with him." The usual words. How many millions a year do the Security Service waste on this? But they've denied it - how silly of me to forget. And they're not liars either, are they?

Royal Festival Hall 15/4/99

Certainty level: 100%

Another "day in the life of", this one. January and February were quiet; in March it all started again; by the middle of April the resurgence of abuse had been going on for over a month. And this, with 100% certainty, is one manifestation of the abuse.

On Thursday 15 April 1999, 1pm lunchtime, I was at the booking office at the Royal Festival Hall near Waterloo Station in London, buying a ticket for a friend. A woman was at the counter next to me. She said;

"it would kill it, you know, it would just be overkill...
.. they can't stop can they"

It was obvious to everyone, the ticket agents included, that her comments were directed at me, and that "they" (ie. MI5) were "killing" me.

I've heard similar things said at various other times, but rarely have their intentions been expressed as clearly as this. The woman also expressed the obsessive nature of MI5's preoccupation with me, by saying, "they can't stop can they".

Balham - LT bus (8/July/1999)

Certainty level: 90%

I am very sure about this one. I got back from holidays on Wednesday. There were two incidents, both on the tube, on the way back from the airport. There was a further incident the following day, Thursday, on the bus (the 155 I think) in Balham, where two girls started spouting abuse about "crazy", etc. Naturally I had my minidisc with me and was able to record their words.

The cynical reader might think my demeanour or behaviour had given rise to the taunts of "crazy" recorded above. But I assure you my behaviour on the bus would not have made anyone think I was ill; and the taunts the previous day were the same sexual words as previously; so I'm quite sure that these incidents are either deliberately staged, or indicative of an overall high level of awareness among the London public, particularly in the part of London where I live.

Clapham South (17/Feb/2000)

Certainty level: 100%

In February 2000, MI5's hate campaign against me was in full swing. They sent people into the road where I live in south London, to swear at me and abuse me as I was leaving or returning home. One such instance is recorded on the above audio file.

On Thursday 17 February 2000, I had just left my home, en route for Croydon, when two youths approached, going in the other direction. One of them said with a smile on his face something which I didn't recognize, and still don't understand despite it being on this audio clip. His demeanour made it clear his statement was directed at me. I coughed, and in response to that, he continued his insult, calling me a "wanker", which is very clearly recorded on this audio clip.

Two days later, in the very early morning of Sunday 20 February 2000, MI5 inflicted another insult against me just outside my house, when, returning from Croydon, two youths approached (MI5 agents always go in packs of at least two - they're too cowardly to go anywhere on their own) and one of them said quietly and bitterly to the other that "he's shitty, very shitty".

It is still comparatively rare for MI5 to send people to my house, or to my road, to harass me. Usually they know where I'm going to, since they have bugs on my phone and in each room of my house; and they send people to that location, or on the train or tube getting there.

Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Clapham Junction (6/May/2000)

Certainty level: 60%

On Saturday 6 May 2000, I was in Clapham Junction, shopping and visiting the library. At precisely 12:29pm, the above audio clip was recorded, in front of Arding and Hobbs department store. One girl was saying to her friend,

"He's a homosexual, they can say whatever they want."

There are several reasons why I think this comment might be about me. Firstly, temporal proximity to other such incidents. The persecution had restarted about two to three days before this clip was recorded. Cause of restart unknown. Personally I think it's because I was going on holiday to France the following Monday - MI5 do like to take holidays abroad at the taxpayer's expense, and inventing reasons to resurrect their hate campaign just before I go on holiday is something they've done before.

Secondly, although I am not gay, they have used such references against me before. At Oxford Computer Group in 1994, manager Steve Mitchell simultaneously abused me and another employee but saying we were "of a similar bent". Such insults show latent or quite overt homosexuality on the part of the abuser.

Thirdly, the sort of people who abuse on the basis of mental illness are the same people who abuse others on the basis of sexuality, race, religion, etc. If they can abuse a disabled man, then they will surely do so based on the other criteria mentioned.

There is still some room for doubt, though, which is why I have assigned this recording a certainty level of only slightly above evens. But "they can say whatever they want" is what gives the game away; they just choose a differentiating feature on which to base their abuse; and if one such feature gets too boring ("we've called him a nutter for the last ten years so now we'll call him something else") then they invent a different lie to throw at me.

Balham High Road (3/Nov/2000)

Certainty level: 60%

On 3 November 2000, I had just got off the bus in Balham High Road,
when I heard a group of schoolgirls shouting and laughing. One of them yelled;

"He's an idiot you know."

You can hear this on the above clip; it is followed by laughter. I am
not quite sure this is about me, which is why I have only given it
a two in three probability. I have been attacked many times with the
word "idiot", which seems to be a favourite with intellectual lightweights
who want to bring down bigger game. (Back in 1992 I was so worried by the
attacks on my intelligence that I took the test and joined Mensa......
does that make me a *clever* idiot? Never mind.)

Crescent Grove, Clapham Common (2/Dec/2000)

Certainty level: 100%

This is one of those clips where I am absolutely, 100% certain it's inflicted by MI5 on me, because of background, context. On Saturday 2 December 2000, I was walking from my home to a pub on Clapham Common, and on the way was in proximity to a group of three English youths who were walking the other way. They turned from the main road into a private estate called Crescent Grove. Here is what they said;

(first youth) "He masturbates!"
(his mate responds) "Yeah, he masturbates!"
(and again) "Thief!"

There is a lot of context associated with this incident, which I will now relate.

Firstly, the verbal sexual abuse is a popular one with MI5, and as a statement about me is currently mostly in their imaginations. The accusation has to be seen relative to MI5's persecutory actions in late November and early December 2000, and in fact for some months leading up to this. Their relevant activities in June 2000 are documented in a message in this evidence item; following from that, they sent someone to simulate an act in front of my window, which was captured on film.

It is the publication of the video of their agent performing the act on himself which caused MI5 to restart this thread of harassment in the first few days of December 2000. But there are some subtleties; I uploaded the digitised video to this website on 26/November/2000; but I did not announce its existence on the newsgroups until Sunday 3/December/2000. These youths' slur was made the previous day, on Saturday 2/Dec. That tells us quite a lot. According to my website logs, there were no accesses to the video file before Sunday 3/Dec. So why did MI5 restart this particular thread of abuse, before their agent's activities were published on the newsgroup? The conclusion we reach is that they were watching my internet connection, either decoding the telephone line, or at the ISP; and/or they may be able to physically see what is on my notebook computer's screen, from RF transmissions from its VGA circuitry. I do not know whether the latter is technically feasible, but the former certainly is, and I have known for years that MI5 bugs my internet activities and phone calls. It is from their observation of my internet connection that they were able to tell, without accessing the video file over the net, that it was of their agent in a compromising position; and it was from that observation that their shouted slur on 2/Dec emanates.

The second accusation, "Thief!", is even more interesting. It relates to occurrences from June of 2000, some six months before these youths threw the word at me. It shows just how wide in reach geographically and temporally the MI5 persecution is; they react to something which happened half a year previously.

In the first half of 2000, MI5 made a determined assault on my friendships. In one particular case, that of A. whom I had known for virtually all my life, they partly succeeded. This person made pointed references to me which made it clear he knew what was happening; at one point he started asking "do you know anything about the FBI and the CIA". In June 2000, we went to see a film in the West End. I paid for both of us, and then asked him to return what I had paid for his ticket, some £7.50. He was reluctant to do so. Eventually he returned £5, settling for the lesser gain of £2.50.

I did not call him a thief to his face, but I may have spoken the word while I was at home, either conscious or in my sleep. MI5 have very tight control over everything I do and say in my home through their bugs; if I say anything against someone in "their" camp, they turn round the accusation against me. So, from the fact that A. tried to garner a few pounds at my expense, MI5 create the accusation, six months later..... "thief!".

Virgin Radio-Jon Holmes (4-5/Jan/2002)

Here are two segments from Virgin FM, one on Friday, the other on Saturday,
both from the Jon Holmes evening show.

Certainty level: 80%

In early January 2002 I listened for the first time in some months to Virgin Radio,
specifically to the Jon Holmes evening show on Friday 4 January 2002. They promptly
attacked me verbally. Again, context is relevant. There are three instances in the
space of two minutes on this extract;

00:18 "are you lying?"
00:22 "it's not fair"
01:24 "everyone at the amateur c+ turbo programmers club found it hilarious"

The first phrase is a straight slander. MI5 were trying to portray me as a liar at
around this time; I have other audio with the same accusation. "are you lying?";
unsophisticated.

It's closely followed by the words "it's not fair". Note carefully the way he says it,
quickly, as if to deny what he says. The phrase "not fair" was first created by OCTS MD
H S.-W. in Nov/1992, and picked up on my first visit to hospital soon after
"they should have paid your fare").
Again, unsophisticated parrotting of a key phrase.

The third phrase is explicable through contemporaneous context. That morning I had
phoned about a C++ course. "c+ turbo programmers club"... again, somewhat brazen
we're-listening-to-what-he-says-on-the-phone, and he-can't-prove-it. Something got lost
in translation from MI5's watchers to Virgin, because "c+ turbo" means nothing.... there
is no C+ turbo language, only C++, of which Turbo C++ is one implementation.

Certainty level: 80%

I wasn't entirely convinced from Friday's programme, but the following evening's
show confirmed it. It contained a number of references to my condition, of which the
following excerpt is one such;

00:09 "I'm not well, and no-one cares"
00:24 "my voice sounds all funny"
01:01 "do you mean people that aren't mad"
01:05 "medical problem is it"

"I'm not well" doesn't mean he has a cold; it means he is being sarcastic about my
mental illness. "my voice sounds all funny" refers to the change in nature of my
voice when acute illness hits. "do you mean people that aren't mad" is obvious.
"medical problem is it"..... rubbing salt into the wound.

Balham Hill Post Office (14/Nov/2002)

Certainty level: 80%

By mid-November 2002 the persecution had again dwindled, as happens sometimes, when along came this item.
I spent most of my time at home, going occasionally to the shops in Clapham South, or into town to meet people. On this particular
Thursday I only left the house once, for less than fifteen minutes to post a letter (special delivery, because my ordinary and
recorded delivery letters had been disappearing en route for some time - not that anyone would accuse MI5 of such petty harassment).
At the post office counter there was an Asian guy talking into his mobile phone and grinning away. There is a probability that
his comments were directed at me, as I will explain further. The second segment of audio closely follows the first segment.

"you'll do it today? let's meet about 3 o'clock and have some lunch. I got stuff to do and I'll go to the bank,
get this sh.. fucking moving yeah. Even just a little bit do something. He doesn't understand, you know what it is,
I don't want to tell him again cause then he might, he thinks we're having a go at him, I'm not having a go at him,
I'm explain to him"

Explanation: The guy is talking about some bloke who is unnamed, however it might be interpreted as being in code about me.
"I'll go to the bank"... variously interpretable, either literally, or as sounds-like "wank" which has been a consistent
theme in MI5's abuse. "get this shit fucking moving"... abuse... could be interpreted as MI5's criticism of my inertness.
The state spends hundreds of thousands of pounds a year - they want to see some result, not just neutrality and ordinariness.
"he doesn't understand"... MI5 claim I'm stupid... but the numbers and bits of paper prove otherwise, so perhaps what that
is really about is their agents' subconscious perception of themselves.

"having a go at him"... sounds like they're having a go at me, doesn't it? You might take the audio at face value and assume
it's about some other guy, but it's normal MI5 procedure to pretend to be talking about someone else, and make the content of
the message very relevant to me, or their perception of me.

"for some reason it doesn't get into his head, I don't know why... he's lost it completely, hasn't he"

What reason is there for it not getting into his (my) head? Stupidity is implied. Also implied is that it does get into his head;
we're intentionally causing him damage. He's lost it completely... for some time I have suffered from OCD... lost it completely
is the persecutors' observation of my illness, which they see through the surveillance on my home, which they caused.

Eclipse pub in Balham (20/Dec/2002)

Certainty level: 70%

On Friday 20/December/2002 I went to Balham to do some shopping and eating. When I went into the Eclipse pub for a meal
there were two girls already at the bar being server, I ordered and sat down near the window. They sat down at the opposite
window seat, out of sight. After a few minutes they started screaming repetitively "section, section". They were reading
something and were trying to pretend that they were just repeating from what they were reading, but in reality it was quite
obvious they were talking about me, specifically to confinement under mental health.

As you can guess the behaviour of these unwise young things shows them to be from the underprivileged category which due to
the natural laws of society is seldom seen in the better classes of restaurant - the McDonald's next door is their more
usual habitat. My guess is that these two females were deliberately placed in the Eclipse with orders to be offensive to
me personally. The alternative would be that no-one had ordered them and they were just being rude on their own account,
but that is improbable, for two reasons; first, I was out of sight of them and one does not usually "pick on" a person
one cannot see; secondly, there had that afternoon in Balham been other, less distinct incidents immediately preceding this,
and it is inferable that MI5 were making quite a serious effort to create a physical incident, as they have done on
numerous occasions previously. I give my interpretation a two in three chance of validity.

Barbican Library - 6/Feb/2003

Certainty level: 100%

Here's an item from early February 2003, at which time Security Service were re-igniting hostilities against me, a direct result of my appeal
for a legal hearing against their organisation. On Thursday 6/Feb/2003 I went to the Barbican in central London with my mother to visit the library
and have a meal. Security Service naturally knew about it because it had been mentioned the previous day in our house which is under constant
surveillance on grounds of "National Security", so they may have been able to inform staff there to say something to me, as has been done elsewhere.
Two of the people at the Enquiries desk in the library obviously knew of my circumstances, I spoke to one of them who was very polite, and while
I was waiting I heard the other speaking with a little less politeness, as recorded on this audio file. He said, "I spy", to start a game of
guess what "I spy"; unsubtle, MI5 Spy. Then, at the 34 second mark on this clip he said;

"So obvious you couldn't even get that. I shall have to kill you. ha, ha, ha"

The words "I shall have to kill you" are interesting because such overt expression is rarely heard. Security Service wish me extinct.
Some years ago they were openly shouting "suicide" at me, so that is established. But there is an element of doublethink in their attitude;
they use people's natural prejudice against mentally ill, who are popularly painted by media as being aggressive, to try to tinge the group's
view of me and MI5's actions against me. The Security Service religion is that the country's enemies are deadly, and must therefore be
extinguished. Hence, we must seize eagerly upon the disabled schizophrenic from Clapham, and throttle him, because who knows what'll happen if we don't.

There may be a subtle agenda of population control in what the Security Service have been doing in this country since 1990. In the current issue
of 2600 Magazine (the Hacker quarterly, which I read from time to time) there is a quote from Hermann Goering on page 2; "the people can always
be brought to the bidding of the leaders. All you have to do is tell them they are being attacked. It works the same in any country".
2600 printed the quote as a comment on the projected war against Iraq, which does not appear to pose any threat to the territory of
those countries which wish to invade it. However the quote is somewhat relevant to my case, which is widely known about within Britain;
the security service instructs all right thinking citizens to do MI5's bidding and band together against a common enemy, while at the same time
there is a suggestion of "look what'll happen to you if you don't obey us".

438. MI5 Persecution: Bernard Levin - The Times (30932)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-18 07:35:41 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07101811320994@4ax.com>
Source record: 2209
Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Fanatic's Fare for the Common Man

Certainty level: 90%

The article reproduced below was penned by Bernard Levin
for the Features section of the Times on 21 September 1991. To my mind, it
described the situation at the time and in particular a recent meeting with
a friend, during which I for the first time admitted to someone other than
my GP that I had been subjected to a conspiracy of harassment over the
previous year and a half.

There is a madman running loose about London, called David Campbell; I have
no reason to believe that he is violent, but he should certainly be
approached with caution. You may know him by the curious glitter in his
eyes and a persistent trembling of his hands; if that does not suffice, you
will find him attempting to thrust no fewer than 48 books into your arms,
all hardbacks, with a promise that, if you should return to the same
meeting-place next year, he will heave another 80 at you.

If, by now, the police have arrived and are keeping a close watch on him,
you may feel sufficiently emboldened to examine the books. The jackets are
a model of uncluttered typography, elegantly and simply laid out; there is
an unobtrusive colophon of a rising sun, probably not picked at random.
Gaining confidence - the lunatic is smiling by now, and the policemen, who
know about such things, have significantly removed their helmets - you
could do worse than take the jacket off the first book in the pile. The
only word possible to describe the binding is sumptuous; real cloth in a
glorious shade of dark green, with the title and author in black and gold
on the spine.

Look at it more closely; your eyes do not deceive you - it truly does have
real top-bands and tail-bands, in yellow, and, for good measure, a silk
marker ribbon in a lighter green. The paper is cream-wove and acid-free,
and the book is sewn, not glued.

Throughout the encounter, I should have mentioned, our loony has been
chattering away, although what he is trying to say is almost impossible to
understand; after a time, however, he becomes sufficiently coherent to make
clear that he is trying to sell the books to you. Well, now, such quality
in bookmaking today can only be for collectors' limited editions at a
fearsome price - £30, £40, £50?

No, no, he says, the glitter more powerful than ever and the trembling of
his hands rapidly spreading throughout his entire body; no, no - the books
are priced variously at £7, £8 or £9, with the top price £12.

At this, the policemen understandably put their helmets back on; one of them draws his truncheon and the other can be heard summoning reinforcements on his walkie-talkie. The madman bursts into tears, and swears it is all true.

And it is.

David Campbell has acquired the entire rights to the whole of the Everyman's Library, which died a lingering and shameful death a decade or so ago, and he proposes to start it all over again - 48 volumes this September and 80 more next year, in editions I have described, at the prices specified. He proposes to launch his amazing venture simultaneously in Britain and the United States, with the massive firepower of Random Century at his back in this country, and the dashing cavalry of Knopf across the water, and no one who loves literature and courage will forbear to cheer.

At the time this article was written I had believed for some time that columnists in the Times and other journalists had been making references to my situation. Nothing unusual about this you may think, plenty of people have the same sort of ideas and obviously the papers aren't writing about them, so why should my beliefs not be as false as those of others?

What makes this article so extraordinary is that three or four days immediately preceding its publication, I had a meeting with a friend, during the course of which we discussed the media persecution, and in particular that by Times columnists. It seemed to me, reading the article by Levin in Saturday's paper, that he was describing in some detail his "artist's impression" of that meeting. Most telling are the final sentences, when he writes, "The madman bursts into tears, and swears it is all true. And it is." Although I did not "burst into tears" (he seems to be using a bit of poetic licence and exaggerating) I did try hard to convince my friend that it was all true; and I am able to concur with Mr Levin, because, of course, it is.

At the beginning of the piece Levin reveals a fear of being attacked by the "irrational" subject of his story, saying "I have no reason to believe that he is violent, but he should certainly be approached with caution". This goes back to the xenophobic propaganda of "defence" against a "threat" which was seen at the very beginning of the harassment. The impression of a "madman running loose" who needs to be controlled through an agency which assigns to itself the mantle of the "police" is also one which had been expressed elsewhere.

In the final paragraph of this extract, his reference to Everyman's Library as having "died a lingering and shameful death a decade or so ago" shows clearly what sort of conclusion they wish to their campaign. They want a permanent solution, and as they are prevented from achieving that solution directly, they waste significant resources on methods which have been repeatedly shown to be ineffective for such a purpose.

Private Eye, 23 Oct 1992

Certainty level: 25%

I'm not really sure whether this cover was intended to get at me,
or whether it was re-interpreted after publication to be about me.
This issue of Private Eye came out in October 1992, by which time I had
been under severe continuous pressure at work and from the general
population in Oxford for many months. It had John Major saying to his
wife, "Come back, Norma!" under the title "Major's support lowest ever".

There's a story behind this. In late October I was in the local pub
(the Rose and Crown, nice traditional name eh) with two people from
work, Simon and Phil. Phil had with him a copy of the current Private
Eye. These are both "nice people" and on my side, I hasten to add.
Simon pointed out the message on the magazine's cover to Phil, and asked
"what do you think about that". Phil answered, "Well usually they
[Private Eye] get it right". This exchange happened in front of me.
Although I was ill at the time (this was before I'd started taking
medicines) I hadn't read anything into the Eye cover until these guys
pointed it out to me.

Sometime later, again in the same road, a student shouted to
one of his friends, "so when are you COMING BACK?", again in front
of me.

What I realised Phil thought it meant was a double-entendre, the
"coming" referring to the act of ejaculation, the "back" referring
to the human back-side. So in a play on words you get a person who
is referred to as a back-side ejaculating. Charming.

Of course, Phil could have been wrong. Perhaps there was no such meaning
intended by Private Eye. Perhaps he saw meaning which wasn't there.
Perhaps the moon is made from green cheese. Who knows?

Victor Lewis-Smith

Certainty level: 10%

Victor Lewis-Smith has issued a denial through his webmaster
John Hayward-Warburton regarding this article; he says quite categorically
it's not written about me. I kind-of sort-of believe him, but I think
the conspiracy is so wide that the phrase "Eventually, I had to leave
because they were all trying to kill me" could have been intended to be
as if from any paranoid person, but could have been influenced by my
case in the particular. So the influence could have been sort-of
subconscious.

This article is from the Evening Standard of Thursday May 8, 1997.
It is titled "Goon, and best forgotten" and may be found on page 31.

I think VLS has written/produced stuff specifically about me in the past,
both in his Evening Standard column, one of which is reproduced below
(in another case, he was talking about computer hacking, and I think that
was directed at me), and a television programme in around late 1993
when he has a taxi driver who says "they're all trying to kill me guv"
and VLS responds "you're supposed to be quite intelligent aren't you".

However, his webmaster has issued a formal denial on his behalf, so it
is not for me to oppose what he has stated categorically.

441. MI5 Persecution: Introduction to Sent Faxes (482)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-18 12:28:58 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07101816252526@4ax.com>
Source record: 2212
Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Introduction to the Sent Faxes webpages

Between 1998 and April/2000 I sent some thirty articles on the subject of the MI5 Persecution to
British politicians, media, legal and diplomatic entities in the UK. Of those articles 24 are reproduced
on this part of the website. They were originally composed as Microsoft Word documents, and saved to HTML
form for publication here. A few of them were slightly edited in format for readability.

You will see that these articles cover quite comprehensively what has been going on since 1990, there being
quite a lot of material to cover, since it is a rare week that goes by without MI5 making some harassing
or threatening action against me. "How could it be True?"... they use the mental illness which they induced
in me as a ready explanation for my complaints. Who started it, why did it start, why it continues...
these faxed articles provide examination in more depth of the treatment in the Frequently Asked Questions webpages.
The sheer meaninglessness of the Secret Police actions is highlighted; their operatives make their livelihoods
by cynically exploiting the taxpayers, when in a more responsible country they would be looking at the inside of
prison cells.

The validity of this observation is proven by their reaction to my several suggestions in the articles that I
would cease sending faxes if MI5's agents (and it's always the same people doing the persecution) desisted from
continually harassing me. A number of times, you will see in the faxed articles, I have suggested that
we come to a "peace of mind agreement" where I cease complaining and they cease harassing. On one occasion,
I wrote to Hugh S.-W., the director of OCTS where I was employed in 1992-94 and who is aware of the
circumstances, asking that he intercede to bring this matter to a close, by initiating a meeting between
myself and the persecutors to mutually settle our differences; he didn't reply, but MI5 did soon after - they said "This is what you wanted, wasn't it?, some sort of confrontation?". The reality is the people stalking me are not interested in any settlement; for them crime pays, and
pays handsomely; moreover it is State-approved crime; the Police will never investigate or take action;

it is corruption on an incredible level and scale, and it has gone on for over a decade.

You will see that the articles contain three elements; firstly, there are original written articles,
many in the first half of 1999 when I was writing new articles every week and sending them by email and
fax during the weekend; then there are "MI5 Persecution Update" articles, which list happenings recent to
a particular transmission; and finally there is the "old faithful" Frequently Asked Questions article
which was sent on a few occasions during the three year period. These articles generated a number of
interesting responses from politicians and other recipients, many of which are documented in the
"received faxes" area of these webpages.

I hope you enjoy reading these articles. I'm not as angry as these articles necessarily make out,
only sometimes, usually soon after the persecutors have said something unpleasant at me; the purpose
of putting lots of fire and ire into the mix is to try to chuck it into the public domain which might
lead to MI5 being forced to curb their actions. Unfortunately that aim was not achieved, despite
many, many thousands of faxes being sent. Also, if any policemen are reading this, then I'm (a bit) sorry
about the rude things I said about "the Bill" in one or two of the articles; the police have never done me
any harm (yet) by commission, only by omission of doing anything to investigate my complaints or treat
them seriously.

442. MI5 Persecution: Faxes Sent to Diplomatic/Legal (2657)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-18 13:34:25 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07101817305285@4ax.com>
Source record: 2213
Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Faxes Sent to British Diplomatic/Legal logs

During the 1998-2000 period my records indicate that I sent at least 3,642 faxes to diplomatic and legal offices
located in the British isles, of which 3,345 went via TPC's email-to-fax service and 297 were sent via fax-modem
direct from my computer. The actual figure is somewhat higher since, for most of this period, whenever a recipient
asked to be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than
wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a
recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes
was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

Faxes Sent to British Media logs

During the 1998-2000 period my records indicate that I sent at least 6,137 faxes to the British media,
of which 5,775 went via TPC's email-to-fax service and 362 were sent via fax-modem direct from my computer.
The actual figure is obviously higher since, for most of this period, whenever a recipient asked to be deleted
from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than
wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a
recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes
was to keep more accurate and complete records, but the intention was thwarted by the police complaint.
Also in April 2000, I added some further fax numbers to my media mailing list and records, which is why some of the
faxnumbers below have only a single entry, and some indeed have none.

Faxes Sent to British Parliament logs

During the 1998-2000 period my records indicate that I sent at least 14,480 faxes to the British Parliament
in Westminster, of which 9,138 went via TPC's email-to-fax service and 5,342 were sent via fax-modem direct from
my computer. The actual figure is obviously much higher since, for most of this period, whenever a recipient asked to
be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than
wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a
recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes
was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

November 19, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3LR, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, K9NW, DX-IS News Site, Pete's-DX-Newsdesk, CO2WF, CO8TW, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JA1BK, JA1ELY, JA1NLX, JI6KVR & IOTA-JA News, JQ2GYU, MM0NDX, OH9MM, OK1MG, PA4JJ, RSGB IOTA Web Site, RX3RC, VA3RJ & ICPO, XE1GRR and XW1B for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th-November, through Sunday, 18th-November there were 222 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9X, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FW, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J7, JA, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2008 DAYTON CONTEST UNIVERSITY (CTU). Well-known contester guru Tim Duffy, K3LR, announced the following: "The 2008 Dayton Contest University will be held all day on May 15th, 2008, in Dayton, Ohio, at the Crowne Plaza Hotel in downtown Dayton. The Contest University Web site will be updated soon. Registration will open in December (about 4 weeks from now). There

will be separate tracks (classes) for first year (did not attend in 2007) and second year (attended in 2007) students." Stay tuned to this reflector (Contest Reflector) and to the Contest University Web site for up to the minute details at: http://contestuniversity.com

5J0/HK0, SAN ANDRES (Update). Operators Tom/K3WT, Vlad/N0STL, Bill/W0OR and Ron/N0AT will be active as HK0/homecall from November 20-26th. The team will also participate in the CQWW DX CW Contest (November 24-25th) as 5J0A and as a Multi-Single entry. QSL 5J0A via W0JAR. QSL all others via their home callsigns, direct or by the W0 QSL Bureau. Visit their Web page at: http://frontiernet.net/~5j0a/

5T, MAURITANIA. Andreas, DL7ZZ, informs OPDX that a German team is planning a DXpedition to Nouakchott, Mauritania, between March 16-30th (2008). The current team of operators are: Rich/DK8YY, Rene/DL2JRM, Ralf/DL3JJ, Ingolf/DL4JS, Dan/DL5SE and Andreas/DL7ZZ. All team members are well-known for their DXpeditions and contesting, and they would like to provide 5T as a new one to those who need it. Operating location will be nearby the Atlantic Sea, so there will be enough space for their antenna systems especially for the low bands. The team is expecting their license very soon. They plan to have 3 stations on the air; 2 with amplifiers. For operations on the low bands 2 verticals (V160 and V80) will be errected, and on 40m they will use 2 phased verticals. For 30-10 meters, they will set up 2 beams, and for the digital station there will be another ground-plane. They will try to have an online log available that will be updated daily via I-net or pactor. A Web page will be updated with all informations about the DXpedition at: http://www.5t2008.de
QSL via DH7WW, by the bureau or direct. The team is looking for sponsors and donations.

6E, REVILLAGIGEDO (Update). As this bulletin was being written, OPDX was informed by Tony, XE1GRR, Pilot Station for 6E4LM DXpedition, that on November 17th at 0200z, the team was leaving the port of Manzanillo, on board the ship "Manzanillo" and was heading towards Clarion Island (IOTA NA-115). From Tony's press release, the team expects to arrive on Tuesday, November 20th at 1400z and expects to start passing out 6E4LM QSOs around 1500-1600z. They will remain on Clarion Island approximately 24 hours. While operating, the ship will continue on to Socorro Island to drop off food and fuel before returning to Clarion on Wednesday, November 21st. They will leave Clarion Island around 1400z and expect to arrive on Socorro Island on Thursday, November 22nd (approx. at 1400-1500z). The team will remain on Socorro Island for approx. 30 days, airing the callsigns 6E4LM, XF4YK and XF4YW. To read unedited updates and news, visit the DXpeditions Web page at: http://www.6e4lm.xedx.org

6W, SENEGAL (Update). Jovica, T98A (ex.9K2/T94FC, ST0RM, ST2A, T94FC), who received his 6W1SJ license, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via T93Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina. Bureau and E-mail requests are OK (t93y@lol.ba or boris@t93y.com). Jovica will stay in Senegal for at least two years with

great possibilities to activate other West Africa countries. Outside of the contest, look for him to be active on CW with some SSB and digital modes.

A3, TONGA. Dr. Tomas, VK2CCC, will be active as A35MT between November 20-26th. His main activity will be on the low bands (mostly CW) and the CQ World Wide DX CW Contest (November 24-25th) as Single-Op entry. His primary QTH will be on the Tongatapu Island Group (OC-049). He is planning to take verticals or a combined trap vertical for 160/80/40 meters, a separate dipole for 160m and a pile of wire antennas for the other bands. Tomas states, "A35 licence allows only 100w on 160m, so if you are in Europe, you'll need GOOD receiving antennas to hear anything at all. And a lot of patience." QSL (the best) via eQSL and the LotW, or direct to: Dr. Tomas Magyla, 26 Simon Place, Hornsby Heights NSW-2077, Australia. He also states that he is "very slow" with QLSing (direct cards) as usual. For more (updated) details, visit: http://www.qrz.com/callsign/a35mt

AFRICA AND SOUTHWESTERN TOUR. Well-known DXer Kan, JA1BK, will be visiting Southwestern Europe and Africa between December 4-13th. He might be showing up on the air time permitting in his busy schedule. Look for him as F/JA1BK from the Bordeaux area, EA3/KH6BK from Barcelona, side visit to Gibraltar (activity unlikely), then EA7/KH6BK. Paul, F6EXV, plans to join him and both will attend the Spanish URE DX Convention in San Fernando. On December 10th and 11th, Kan, along with Paul, will be visiting Juan, EA9IE, and might take the mike and/or the key, signing EA9/KH6BK and EA9/F6EXV. QSL respectively to their home callsign (JA1BK and F6EXV).

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Kazunori/JK3GAD, Osamu/JR8VSE and Nozomu/JE8KKX. QSL via JH7QXJ.

C5, THE GAMBIA (Update). Jan, PA4JJ, will once agin be active as C56JJ between November 30th and December 11th (not December 7th as first announced). This will be a holiday style operation. Jan informs OPDX that he will only use 100 Watts (FT-897) and the antenna will be a vertical and a ZS6BKW. There may be some topband and 6 meter activity. QSL via PA4JJ. PLEASE NOTE: Jan states, "... for direct QSLs OUTSIDE EU, I need at least 2 USDs, but if you want to spend some money for the school project (see http://www,gabiahulp.nl/blz_4a.html) please send a little more." He also states that there is a possibility of an online log this time on the Web site: http://c56jj.pa4jj.nl

C6, BAHAMAS (Update). Operators Fredrick/KE7X and Tom/N6BT will be active from Eleuthera Island (NA-001) between November 18-26th. Activity is planned for the CQ World Wide DX CW Contest (November 24-25th). Look for Fredrick to be active as C6AKX as a Single-Op/Single-Band (20m)/Low-Power entry, and Tom (callsign TBD) to be a Single-Op/Single-Band (160m) entry. QSL both via WA4WTG.

C6, BAHAMAS. Remember Kenny, K2KW, will be active as C6ATA between November 18-26th. Activity will include participation in the CQWW DX CW Contest

(November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. Outside of the contest he will be active on 160-30 meters, mostly CW. QSL via WA4WTG.

CN, MOROCCO. Operators Stefano, IK2QEI, will be active as CN3A during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via I2WIJ.

CO, CUBA. Winton, CO2WF, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via N1KI.

CO, CUBA. Luis, CO6LP, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (80m)/Low-Power entry. He states that he will be using a FT-80C with 100w into a dipole antenna at 10 meters above the ground. He will be listening for Europe between 3580-3590 and for Asia between 3505-3520 kHz. QSL via CO6LP "DIRECT ONLY".

CO, CUBA. Juan, CO8TW, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via HB9SVT. The log will be online after the contest at: http://www.qsl.net/co8tw/

CT9, MADEIRA ISLANDS. Operators Lars/DF1LON, Adam/DJ0IF, Diethelm/DJ2YE, Falk/DK7YY and Stewart/GM4AFF will be active as CT9L during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-? entry. QSL via DJ6QT.

E2, THAILAND. Dej, E21YDP, will be active during the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band entry. QSL via E21YDP.

FY, FRENCH GUIANA. Operator Didier, FY5FY, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/QRP entry. QSL via FY5FY.

GJ/MJ, JERSEY (EU-013). Operators Rich/K2WR, Dick/GU4CHY and possibly others will be active as MJ0AWR and GJ4CHY, respectively, before the CQ World Wide DX CW Contest (November 24-25th). For activity during the contest, look for them to use the callsign GJ2A and be a Multi-Single or Multi-2 entry. QSL GJ2A via K2WR or GJ3DVC. QSL MJ0AWR via K2WR and GJ4CHY via GU4CHY.

H7, NICARAGUA. Mike, K9NW, will be active here between November 21-28th. He plans to be active as H7/K9NW during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op/All-Band/(possibly as a) Low-Power entry. QSL via K9NW.

HR, HONDURAS. Dan, HR2DMR, is expected to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/Low-Power entry. QSL via HR2DMR.

HS0, THAILAND. Operator Fred, K3ZO, will be active as HS0ZAR during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via K3ZO.

IOTA NEWS.....
AS-053. Operator Cha, HS8KAY, will be active from Phuket Island (WLOTA LH-0701), Thailand, during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via info on QRZ.com.

EU-146. Operator Ulf, DK5TX, will be active as PA/DK5TX from Goeree Overflakkee, February 11-17th. Activity will be on 80-10 meters (SSB/slow-CW/RTTY), 6 meters (SSB/slow-CW) and 2 meters (SSB/slow-CW). QSL via his home callsign, by the bureau (preferred) or direct (QRZ.com). E-mail requests for a bureau card can be obtained via: dk5tx@gmx.net

EU-171. Operators Rudi/DF8AE, Burkhard/DF8XC, Georg/DK5QN, Dirk/DL1YDI and Pete/DL1YAW will be active from Vendsyssel-Thy/Nordjylland (NJ-001 for the Danish Islands Award), November 20-27th. They plan to use the callsign 5P3WW and have 3 stations operating CW, SSB and the Digital modes. They also will be in the CQ World Wide DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via DL1YAW, direct (CBA) or by the bureau.

IS0, SARDINIA. Operator Martin, OK1FUA, will be active as IS0N during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Sinlge-Band (40m or possibly 80m)/Low-Power entry. QSL via OK1MG, direct or by the Bureau.

IS0, SARDINIA. Mauro, IN3QBR, will be active as IS0/K7QB during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via IN3QBR, by the Bureau.

KH4, MIDWAY ISLAND. Pete Leary, KC0END, who has a Tech-Plus license and is on the island with no equipment, states, "...plans in the works to get a ham group out here next summer or fall if it gets approved." However, Pete also mentions, "....since this is a national monument and wildlife refuge, a compatibility study has to be done to determine the effect on birds (they'll fly into the antennas)." For the complete story, visit the "DX World of Ham Radio" Web page at: http://hamspirit.wordpress.com/2007/11/18/kh4-midway-island-summerautumn-2008-possibility/

KP2, U.S. VIRGIN ISLANDS (NA-106). Operators John/K3TEJ and Ted/K3VA will be active as KP2/homecall between November 20-27th. Activity will include participation in the CQ World Wide DX CW Contest (November 24-25th) as KP2M and as a Multi-2 entry. QSL KP2/K3TEJ and KP2/K3VA via their home callsigns. QSL KP2M via AI4U.

KP4, PUERTO RICO. Felipe, NP4Z, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via WC4E.

LX, LUXEMBOURG. Operators Tom/DL1QW, Juergen/DL4SDW, Bernd/DL8SCG, Philippe/LX2A and possibly others will be active as LX7I during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via LX2A.

MZ, SCOTLAND. Operator Ian, G3WVG, will be active as MZ5B from the Shetland Island Group during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op entry. QSL via G3TXF.

P4, ARUBA (SA-036). Andy, AE6Y, will be active as P49Y during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/ High (or Low)-Power entry. QSL via AE6Y.

P4, ARUBA. John, KK9A, will be active as P40A during the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL via WD9DZV.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:
TM8CRI automatically XW1B via E21EIC
TM8IRC automatically YO4NA direct
UE3MKD via RD3MA

Online log for the FK/JA1NLX operation is now available at:
http://logsearch.de/index.php?option=com_wrapper&Itemid=30

NEW QSL MANAGER: The new QSL Manager for YC5OUB is RX3RC. QSL via direct only. RX3RC's address is: Roman A.Novikov, P.O.Box 21, 392000 Tambov, Russia.

QSLS VIA LOTW: 4U1WRC, 5B4AGC, 9K2HN, C91KDJ, CQ3T, DJ0QN, HV50VR, J39BS, JW/G3SXW, JW/G3TXF, KH7T, MD0CCE, PJ4E, R1FJT, UA4HBW, UY5ZZ, VP5DX, VR2C and VY0ICE

QSLS RECEIVED VIA MAIL: 3A/F5RBB, 3G0Y, 4L4WW, 9J2BO, 9M6XRO, A25KDJ, A25OOK, A92HB, C5DXC, CO8LY, E30NA, EL2DX, FO5JV, FP/W9ILY, FR5HA, HB0/HB9AON, J3/DL7VOG, JA1HQT, JT1CO, PJ7/CT1BWW, TA3D/TC3D, TY5ZR and ZL7/SP9PT

RK9, ASIATIC RUSSIA. Operators RZ9AR, RZ9AW and RA9AA will be active as RK9AWN during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry.

RL3, EUROPEAN RUSSIA. Operators RA3ATX, RK3AW, RK3FT, RL3FT, RU3RQ, RU4PL, RV3BA, RV3FF, RW3FO, RX3APM, RX3DCX and UA3ASZ will be active as RL3A during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. QSL via W3HNK.

SANTA CLAUS LAND TO BE ON THE AIR! Juha, OH9MM, informs OPDX readers: "As we all know the real Santa Claus comes from Finland! Santa Claus Land (OH9SCL) will be again active during this December from the Artic circle. Activity will be on 160-10 meters on CW, SSB and the Digital modes." Among others, Santa's helpers will include: OH3BHL, OH9KL, OH9MDV, OH9MM and OH9RJ. QSL via OH9UV.

T8, PALAU. Yoshi, JK2VOC, will be active as T88IW from Koror (OC-009) between November 23-26th. Activity will include the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry using the callsign T88FY. Operations before and after the contest will be on the 30/17/12 meters and also the satellites (VO-52, FO-29, AO-7, AO-51, AO-27). QSL T88IW via JF2IWW and QSL T88FY via JK2VOC.

T8, PALAU. Operator Fukuda, JJ1RJR, will be active as T88RJ between November 22-26th. Activity will include the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/High-Power entry. QSL via his home callsign direct.

T8, PALAU. Look for Koki, JE1PGS, a 13 year old junior high school student, will activate T88GS from here with his father, Yutaka, T88YU/JQ2GYU, and his mother Mihoko, T88LY/JJ2VLY, between December 17-22nd. Expect activity on 80-6 meters, CW and SSB, during their mornings and evenings. QSL via their home callsigns, direct or by the bureau.

TA, TURKEY. Ozer, TA2RC, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/Low-Power entry. QSL via TA2RC, direct or by the Bureau.

TZ, MALI. Mac, TZ6JA, will once again return here for a work assignment between November 22nd and December 14th and plans to be active. Between December 1-12th, Mac will move to a small village 150km east of capital of Bamako because of his work. There is no electricity in this area, so there will be fewer noises on the bands. He will bring a 1.5kWH generator to operate a 500w amplifier. He will put up a two 2 element phased vertical for 75m and 40m, and a 7 element Log-Periodic antenna for 20/17/15 meters. QSL direct only to: Makoto Obara, P.O.Box 59, Tama, Tokyo, 206-8691 JAPAN

V5, NAMIBIA. Klaus, DJ4SO, will be active from the Matunda Guestfarm in northern Namibia as V5/DJ4SO between now and December 3rd. Activity will be on 160-6 meters, CW, RTTY, PSK31 and some SSB. He will also be in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op entry.

VP5, TURKS AND CAICOS ISLANDS. OCARC Member Bob/K0OK and Dale/KB7UB will be active as VP5/K0OK and VP5/KB7UB, respectively, from Providenciales (NA-002), December 6-11th. Activity will be on 160-6 meters CW and SSB. They will also be operating in the ARRL 10 Meter Contest as VP5E (K0OK) and VP5UB (KB7UB). QSL via their home callsigns. Online logs will be available at: http://www.dxer.com/dxlogs
All QSOs will be uploaded to LoTW.

VP8, FALKLAND ISLANDS (SA-002). Ulli, DL2AH, will be active as VP8/DL2AH from Pebble Island between February 26th and March 13th. Activity will be holiday style on 40-10 meters, mainly SSB with some RTTY, using a FT-897 and Windom antenna. QSL via DL2AH, direct (QRZ.com) or by the bureau.

VU, INDIA. Operator Prasad, VU2PTT, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via VU2PTT, by the Bureau, Direct or LoTW.

XU, CAMBODIA. Tony, KM0O, will be active as XU7MWA between November 22-26th. Activity will include the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/High-Power entry. QSL via his home callsign.

XW, LAOS. Bruce, AA4XR (HS0ZCY, XU7ADF), informs OPDX that he recently shut down operations from Florida (AA4XR) and moved to Laos. He states, "I have been issued the XW1B and plan on being active on all bands/modes

with an emphasis on low band CW/RTTY." Bruce was very active this past week on 80/40/20/17/15 meters CW and 20 meters SSB. QSL via E21EIC.

YB, INDONESIA. Operator Pri, YB0ECT, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/ Low-Power entry. QSL via K3AIR only.

YI, IRAQ. It was announced this past week that the government of Iraq will reopen the amateur radio service on November 20th. Scott, AD7MI, states that he will be active as YI9MI from November 20th to May 15th (2008) from the U.S. Army Camp in Taji. Activity will be on 80-10 meters, CW, SSB, PSK-31 and RTTY. QSL via AD7MI, by the bureau or direct to: MAJ Scott Hedberg 3 BN, 2 BDE, 9 DIV MiTT, TAJI, IRAQ, APO, AE 09378, USA.

ZF, CAYMAN ISLANDS (NA-016). Operators John/K6AM, George/K5PI and Stephen/ AC6T will be signing ZF1A from Grand Cayman Island (WLOTA LH-1042) during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via W5ASP, direct or by the bureau or LoTW.

ZL, NEW ZEALAND. Operator Steve, G4EDG, will be active as ZL4LW (if the licence arrives in time) or ZL/G4EDG during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m) entry. QSL via G4EDG.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX CW Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX CW Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 16th-November, through Friday, 23rd-November there were 227 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T7, T8, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

13th CCF/OHDXF CONTEST/DX MEETING. The 13th International Contest/DX Meeting will take place on January 18-20th (2008). Join their traditional round-trip cruise on the Baltic Sea crossing 3 DXCC countries: From Helsinki (OH) via Aland Islands (OH0) to Stockholm (SM), and back to Helsinki. On their preliminary agenda :
* CN2R station design and evolution
* 4O3A station automation
* From D4B to D4C - Contesting from Cape Verde
* A troublesome DXpedition 3B6SP --> 3B7SP
* VP6DX Ducie DXpedition (Feb 2008) update
* FO/M Marquesas Islands DXpedition - Direct report from the Pacific
* RTTY Competing on high level
* ... etc.

For the avec's: Possibility to visit Stockholm (SM) on Saturday, 19th January between 10:00-16:00 (local time). For more detailed info on cruise packages, daytime visits (Saturday/Stockholm), time schedule, airline offers, how to register etc., go to --> http://www.contestclubfinland.com PLEASE NOTE: Many airline special offers from Europe to Helsinki (HEL) and Tampere (TMP) are available right now for January 2008! Some offers are available *just this week* by Thursday, 22nd November! (Tampere --> Helsinki by train takes 1:30-1:45 hours, avg 26€/person.) Early birds get the best cabins! Register ASAP (by 28th-December-2007 at the latest!) on their Web form:
http://area.etapahtuma.fi/Default.aspx?tabid=2839 (Accesscode CCF08 + Login)
Interested in hosting a Contest/DX/Club suite on board? --> Contact OH6UM/OH2IW (callsign@SRAL.FI)

3X, GUINEA. Members of the VooDoo Contest Group have announced that they have changed the callsign for their DXpedition. They will now sign 3X5A (not 3XY5D as first announced). Look for them in the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Multi category in the contest. QSL 3X5A via G3SXW. For more details, visit: http://www.voodoocontestgroup.com

4X, ISRAEL. Operators 4Z4DX, 4Z4KX, 4Z5ML, 4Z5LA, 4X6ZK and 4X6HP will be active using the special callsign 4X6O during the CQ World Wide DX CW Contest (November 24-25th) as Multi-Sinlge entry. Operations will be from the Mikve Israel School Holon. This activity will be dedicated to the 60th anniversary of the state of ISRAEL and IARC! QSL via Global QSL.

5B, CYPRUS. Operator Jack, RW3QC, will be active as 5B4AII during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/ High-Power entry. QSL via RW3RN.

5H, TANZANIA. Hans, DL7CM, will once again be active as 5H1CM from Uroa White Villa, Zanzibar Island (AF-032, Grid KI93, WLOTA LH-1080), January 13-24th (2008). He will be here on holiday with his wife, so activity may be limited. Activity will be on 160-6 meters (mainly on the low bands), CW, SSB and RTTY. QSL via DL7CM. For more info, visit his Web page at: http://www.qsl.net/dl7cm/5H1.htm

AM, SPAIN. Operators EA5AFP, EA5FX, EA5AER and EA5KM will be active as AM5R during the CQ World Wide DX CW Contest (November 24-25th) as Multi-2

entry. QSL via EA4RCH.

AU/AT, INDIA (Special Event). Nilanjan Majumdar, VU2HFR, Secretary of the Bengal Amateur Radio Society, informs OPDX readers to look for special event stations using special callsign prefix blocks to celebrate the 149th birthday anniversary of the greatest Indian Scientist and Inventor, Acharya Jagadish Chandra Bose. He states, "Few Indians have been ornamented with the title of 'Acharya' which in Sanskrit means 'Guru' or 'Spiritual Master' or a person possessing great knowledge and wisdom and is a tribute to Sir J. C. Bose whose devotion and dedication to science was solely for the love of science, and who spread his knowledge to entire mankind for the good of the human race without thinking of any personal benefit. He never aspired for money nor fame and thus has not being given due recognition for his scientific endeavors which led to the discovery and advancement of radio communication as we know today. The man was far ahead of his times and even today his work on millimetric waves is being utilised in radio telescopes. Special permission of the Ministry of Communications and Information Technology, Department of Communications, Government of India, has been accorded vide letter no. L-14011/640/2007-AMT dated 19.09.2007, to the following group of Amateur Radio Operator's licenses to use special callsigns (as mentioned below against each participant) to operate during the Birth Anniversary of India's great scientist and inventor Shri. Jagadish Chandra Bose, (which falls on November 30th 2007) from 25th November 2007 to 2nd December 2007, from their existing licenced location mentioned in the Radio Amateur Licenses.
1. VU2SMN AU7JCB
2. VU2DCT AT0JCB
3. VU2DSI AU2JCB
4. VU2SDF AU8JCB
5. VU2HFR AU4JCB
6. VU2UR AU1JCB
7. VU2SMS AU9JCB
In addition, some more applications are under process for the special callsigns, all of which have common suffix 'JCB' with varying prefixes from AT1 to AT0, and AU1 to AU0. This is the invitation to all amateurs world wide, who are Prefix Hunters, Special QSL Hunters, etc, to avail the finest opportunity, to work and get QSOs, and later on QSLs from the very special prefix series AU1 to AU0.
The stations will be QRV on the following frequencies:

SSB: CW:
40M: 7.030 MHz 40M: 7.007 MHz & 7.017 MHz
20M: 14.155 MHz, 14.190 MHz - 14.240 MHz 20M: 14.030 MHz & 14.035 MHz
18M: 18.105 MHz - 18.150 MHz 18M: 18.080 MHz & 18.085 MHz
15M: 21.180 MHz - 21.240 MHz & 21.310 MHz 15M: 21.030 MHz & 21.035 MHz
12M: 24.935 MHz - 24.975 MHz 12M: 24.895 MHz & 24.900 MHz
10M: 28.485 MHz - 28.535 MHz 10M: 28.030 MHz & 28.035 MHz

These frequencies are subject to QRM suffered, and there could be a variation of +/- 5 KHz. All DX stations are requested to send 'QSL via VU2SMN direct only' and, with 2 IRCs of the latest version only which

expires on 31.12.2009. All VU stations are likewise requested to QSL with SASE for QSLs. No QSLs are handled via any bureau. For more information on the operation please visit the web page http://au9jcb.angelfire.com/ and for detailed information on Sir. J. C. Bose and his work, please visit the following wonderful links:
http://www.tuc.nrao.edu/~demerson/bose/bose.html
http://www.qsl.net/vu2msy/JCBOSE.htm
This operation is in preparation of the 150th birth anniversary of this great scientist and inventor when a large scale operation is planned.
73..... Nilanjan Majumdar, VU2HFR"

AY7, ARGENTINA. Members of the Radio Club Ushuaia (LU8XW)(with a yearning to activate different geographic points of the Isla Grande, Tierra del Fuego [according to their connected Awards]), will be active from "MOAT" (Destacamento de la Prefectura Naval Argentina - Grid Square FD65PA) starting at 1501z on November 30th through 1800z of December 2nd, using the callsign AY7X. Activity will be on SSB, CW, PSK and RTTY, around the following suggested frequencies (+/-):
CW - 28050, 21010, 14010, 7020 and 3550
SSB - 28300, 21200, 14200, 7080 and 3680
PSK - 28120, 21070, 14070, 7035 and 3610
RTTY - 28130, 21080, 14080, 7040 and 3620 kHz

QSL via WD9EWK: Patrick STODDARD, 4031 E. Aster Drive, PHOENIX, AZ 85032-7417, U.S.A. (QSL info - http://qsl.wd9ewk.net/
PLEASE NOTE: Contacts with Tierra del Fuego qualifies, for WAP Awards (ARG-023) or IOTA (SA-008 - Tierra del Fuego islands). For any additional questions, feel free to write them via their E-mail address:
lu8xw@uolsinectis.com.ar
Visit the Radio Club Ushuaia (LU8XW) Web site at: http://www.lu8xw.net

C5, THE GAMBIA. Two Belgium operators will be here next year. Andre, ON7YK, will once again be active as C56YK from February 11th through March 6th. Activity will be on 160-6 meters SSB. He will use a 80/40m FD4 antenna and spiderbeam for all the other bands. QSL C56YK via the info on QRZ.com. QSL Manager: Bourbon Andre, Route de Xhoffraix 30, B-4970 Hockai-Stavelot, Belgium. Also, look for Jose, ON4LAC, to be active as C56JC, between February 12th ando March 5th. He will focus on the PSK and RTTY modes with some SSB. Listen for QSL info.

C6, BAHAMAS. Eric, K9GY, will once again be active as C6AYM from Nassau, New Providence Island (NA-001, WLOTA LH-1115, Grid FL15) between May 21-26th. Activity will be on 80-6 meters, CW and SSB. Also look for him during the CQ WW WPX CW Contest (May 24-25th) as a Single-Op/All-Band/ Low-Power entry. QSL via K9GY, direct or by the Bureau.

D2, ANGOLA. Koji, JM1CAX (ex. JY9NX), will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band (40-10m)/ Low-Power entry. QSL via JH7FQK.

E4, PALESTINE. This DXCC entity has not been on the air for about eight years. However, after about a year's worth of working with the Palestinian

Authorities, operators Mike/OM2DX, Steve/OM3JW, Rudi/OM3PC and Miro/OM5RW have received permission and will be active as E4/OM2DX, December 14-22nd. Activity will be on 160-10 meters on CW/SSB/RTTY with two stations. QSL via OM3JW. Look for more info, updates and an online log at: http://www.om2dx.com

E5/S, SOUTH COOK ISLANDS (Update/Change). Operators George/K5KG and Ron/KK9K are currently active as E51MMM and E51NNN, respectively, from Rarotonga Island (OC-013) in the South Cook Islands group until December 1st. They plan to concentrate heavily on 160/80 meters. OPDX was informed just before going to press that George will be active during the CQ WW DX CW Contest as E51A, not E51MMM. All QSL requests should go to K5KG.

ER, MOLDOVA. Serge, UT5UDX, will be active as ER0WW during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via UT3UA.

HQ9, HONDURAS. Ray, WQ7R, will be active as HQ9R during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via K5WW.

HS80, THAILAND (Special Activity). Charles, K4VUD/HS0ZCW, informs that the Thailand's National Telecommunications Commission (NTC) will be sponsoring a special celebration and activity for His Magesty the King of Thailand's 80th birthday. The King is a ham, HS1A, and has been active as such over the years. Look for the special callsign HS80A (HS8 zero A) to be used from the NTC celebration site on December 1st all day local Thai time (+7 hrs UTC). No frequencies have yet been determined. Watch/Check the RAST Web site.

IOTA NEWS.....
AF-018. Members of the Tikirriki Contest Club will be active from Pantelleria Island (African Italy - CQ Zone: 33, IIA: TP-01, WAIP: TP, WLOTA: LH-0041) in the CQWW DX CW Contest (November 24-25th). Look for Art/IK7JWY to be active as IR9M as a Single-Op/Single-Band (80m) entry. QSL via IK7JWY. Look for Claudio/I1NVU to be active as IR9U as a Single-Op/Single-Band (15m) entry. QSL via I1NVU. Look for Emilio/IZ1GAR to be active as IR9R as a Single-Op/Single-Band (40m) entry. QSL via IZ1GAR. Visit the Tikirriki Contest Club Web page at: http://www.ih9p.com

OC-186. Adhi, YB3MM, who was scheduled to be active from Karimunjawa Island during the weekend of the CQ WW DX SSB Contest but had to cancel due to a transceiver problem, is now expected to be active during the CQ WW DX CW Contest (November 24-25th). He will probably sign as YB3MM/2. QSL via IZ8CCW.

SA-076/
SA-098. Operators Jorge/OA4BHY, Daniel/DL5YWM, Rene/DL2JRM and Bodo/DL3OCH will be active as OC1I from Isla Lobos de Tierra (SA-076, ARLHS PER-053, WLOTA-1521), January 2-7th. Activity will be on CW/SSB on 160-10 meters with 2 stations on the air simulta-

neously. Dates can vary depending on the weather and the sea. Before going to SA-076, the team will put Isla Blanca (SA-098) on the air starting (planned) December 28th for at least 2 days. The callsign OC6I will be used for this island. Once the team is done island hopping, they will rest in Lima and possibly be active as OA4/homecall until January 12th. Bodo/DL3OCH is planning to do some 23cm EME (JT65) during that time. Peru has never been activated on 23cm before. QSLs for OC1I and OC6I go only via Jeff/DL5WM. All the others via their home callsigns. Due to the high value of the Euro - please take note that the postage from Germany to overseas is nearly simliar to 2.60 USDs (1.70 EURO). Letters from Germany to Europe are 0.70 EURO which is simliar to 1.10 USDs. For more information on how to get an EME-Sked, please check the Web sites at: http://www.qslnet.de/oc1i -or- http://www.qslnet.de/oc6i

KH2, GUAM. Jean, JL3SIK, will be active as KH2/K2JA between now and November 25th. Activity will be on HF, all bands using CW and SSB. QSL to his home callsign (OK via FISTS BUREAU).

KH2, GUAM. Kirk, WE8A, will be active as WE8A/KH2 between April 4-5th (2008). Activity will be on 80-12 meters SSB with some CW. QSL only direct to his JA address: Kirk Itaya, 5-1-35, Daikaidori, KOBE, 652-0803, JAPAN.

OE, AUSTRIA. A team of Austrian operators will be active as OE2S during the CQ World Wide DX CW Contest (November 24-25th) as Multi-Multi entry. QSL via the LoTW or by OE2GEN.

OF, FINLAND. A contest team will be active as OF6M during the CQ World Wide DX CW Contest (November 24-25th) as Multi-Single entry. QSL via OH6AH.

OL, CZECH REPUBLIC. Members of the Jelinek Vladimir Radioklub (OK2KJU) of Prerov will be active as OL7T during the CQ World Wide DX CW Contest (November 24-25th) as Multi-Single entry. Operators mentioned are: OK2BXU, OK2BXE, OK2CVH and OK2QX.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:
UN7RBX via RW6HS (direct) YE2IPY via YB2TJV (direct)
V8APJ direct ZW1AFR via PY1DIN
W4CDX direct

5H3MK QSL ROUTE. Pedro, HK3JJH, informs OPDX that 5K3MK QSLs can be sent to the address: P.O. Box 02-5242, Miami FL 33102 USA. All cards will be answered.

The BS7H team is happy to announce all BS7H logs have been uploaded to the LoTW. Any questions about a missing QSO should be addressed to to KU9C at: BS7H2007@yahoo.com

J20MM/J20RR QSL STATUS. Silvano, I2YSB, informs OPDX that all of the E-mail QSL requests (as of the end of October - more 1200 QSLs) for the J20MM/J20RR Djibouti DXpedition have been sent out via the Italian outgoing QSL Bureau. All direct QSL requests received as of November 15th have been mailed. For any information, please visit: http://www.i2ysb.com

QSLS VIA LOTW: 4U1WRC, AN1A, C91KDJ, CQ3T, DH3RD, HV50BR, PJ2T, R1FJT, VK7AC, VP5DX, XE1MW, ZL4BR and ZS4U

QSLS RECEIVED VIA MAIL: 1A0KM, 3A2MD, 3B7C, 5U5U, 7Q7C, 9U0A, A52AM, D88S, EA6NB, EA6/I1RSA, EY1ZA, EG3MED, FO5PS, FW0MO, IR8DX, J3/DL7VOG, J6/DL7AFS, J88DR, R1AND, SD7ME, V31FB, VK6CHI, VK6YS/p, VK8CHI, VP8NO, VR10XLN, ZF2AH, ZL7/SP6PT and ZS1JX

SOUTH-EAST ASIA TOUR. Pete, SM5GMZ, informs OPDX that he will be traveling through South-East Asia starting in January 2008. He states, "Unless something odd happens, I will stay in the region until April and - when not working - try to operate as much as possible." His schedule is as follows:
January - Activity as HS0ZFI from Thailand (all bands and all modes), concentrating on 30/17/12 meters and the low bands.
January/February - Activity as XU7ADI from Cambodia (all bands and all modes).
March - Activity as 9M6/SM5GMZ from East Malaysia. He will also be active in the WPX Contest from Sarawak as 9M8Z. Also, activity from Brunei (V8).
April - Still open. Maybe some surprises!

All QSLs are via SM5GMZ. Hopefully more up-to-date details will be forthcoming before the new year. Stay tuned!

TX3, NEW CALEDONIA. Operator Sam, FK8DD, will be active as TX3SAM during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via LZ1JZ.

VE2, CANADA (Zone 2). Operator Yuri, VE3DZ, will be active as VE2IM from Sept-Iles during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via VE3DZ.

VI, AUSTRALIA (Special Event). Tim, VK2XTT, President of the BMARC, informs OPDX that a special callsign to commemorate the 50th birthday of The Blue Mountains Amateur Radio Club (BMARC) has been issued by the Australian Communications and Media Authority (ACMA). The callsign is VI2BMARC50 and will only be valid for 10 days from January 18-28th (2008). Members will use the special callsign over the 10 days. QSL cards are to be sent via the bureau. Please look for them on all common bands and modes including PSK31, RTTY, SSTV and CW. A larger, very attractive card, serial numbered and signed by the current executive will also be available. However, there is a cost on this card of 5.00 AUDs posted. So please give VI2BMARC50 a call and help them celebrate this milestone in their club's history. Visit the club's website for updated information at: http://www.bmarc.org/

YV0, AVES ISLAND. If you have not heard, Aves Island was almost washed way by Hurricane Dean on August 17th. Take a look at the unbelieveable before and after photos of Aves Island at:
http://www.yv0.info/dean/dean1.html

Z3, MACEDONIA. Members of the Radio Club "Nikola Tesla" (Z37M), and Christian/DL1MGB, Thomas/DL5LYM and Anja/DO2WW will be active as Z37M during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via Z37M (info on QRZ.com).

ZS, SOUTH AFRICA. Operators Fred/ZS1FZ, Allan/ZS1AAX, Martin/ZS1SM, Deon/ZS1ZL and Sigi/DL6QW will be active as ZS1FZ during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry from Cape Town. QSL via DL6QW, by the bureau or direct.

The following stations are expected to be active in the
CQ World Wide DX CW Contest (November 24-25th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers with the following consolidated listing of the participants in the 2007 CQWW DX CW Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

449. Re: YV0 Aves Island almost washed away by hurricane

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-24 06:04:09 UTC
From: Joe O'Connell <w7kqu@comcast.net>
Message-ID: <wf2dnXwtUsB7I9ranZ2dnUVZ_s6mnZ2d@giganews.com>
Source record: 2220

Thanks for those shots Ray.
It was a hard one to work for me,finally got it in 2004.Also worked the last group there.No doubt,after many years going to sea,the currents will rebuild what they took away.Thanks to the YVs for all their efforts in the past!

Faxes Sent to British Parliament logs

During the 1998-2000 period my records indicate that I sent at least 14,480 faxes to the British Parliament
in Westminster, of which 9,138 went via TPC's email-to-fax service and 5,342 were sent via fax-modem direct from
my computer. The actual figure is obviously much higher since, for most of this period, whenever a recipient asked to
be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than
wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a
recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes
was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

453. MI5 Persecution: How Could It Be True? (4832)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-24 07:39:56 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07102407394320@4ax.com>

MI5 Persecution: How Could It Be True?

If you have the patience to read these articles you will be struck by how apparently fantastic the claims being put forward are. You may ask yourself why such seemingly nonsensical assertions are made. This matter has been discussed on the Internets UK-local newsgroups for three years now, and the denizens of the uk.misc newsgroup (the so-called "miscreants") have come up with a number of theories to explain these posts; it has been variously suggested that they are a troll (an artificial creation for the amusement of its author), that they are made by MI5 themselves with the purpose of discrediting other conspiracy theories, and that the poster is mentally ill and the articles are symptomatic of the illness (the view held by most miscreants).

Are these claims the product of mental illness, or is that just a cover?

The most obvious explanation, that the claims made result from the admitted mental illness of the author, is the one which the persecutors intend be the one accepted without consideration being given to the possibility of the claims being true. The persecutors have actually been very clever about this, both in selecting as their target someone who was known from school or university as being borderline schizophrenic, and in ensuring the nature of their persecution corresponds to what often features in the delusions of a schizophrenic.

The very first incident of the persecution occurred in June 1990, when I was still a student at university in London. It consisted of a reaction (giggling) from the newsreader, Sue Carpenter of ITN, to what she saw happening in my living-room at my parents home where I was living. Before your imagination gets the better of you I should make clear that what the newsreader was reacting to was not too embarrassing in nature; my mother had brought an apple for me into the the room, and Sue Carpenter found this amusing.

I recognized that Carpenter had reacted to what she had seen in my living-room, yet this idea still seemed completely fantastic to me. My reaction was to continue watching television, particularly the news, to see if this incident would be repeated. It was, many times, both on BBC and ITV. An intelligent person would have thought to obtain a video recorder and capture some of these incidents in order to try to explain to an observer what he saw in these broadcasts. Unfortunately, I failed this test of intelligence, since I did not record these programmes. I have recently attempted to obtain from ITN tapes of their news programmes dating back to summer 1990, but, unhappily, they have advised me that they do not have complete programmes including newsreaders comments dating back

to that period.

From the outset, the persecutors structured their actions to ensure that any complaint would be met with disbelief, and dismissed as delusional. This is why they chose as their target someone who was known at school and university to be borderline mentally ill; and it is why they fired the first shots of their campaign through the broadcast media. Schizophrenics commonly believe the media harass them; it would be exceptional for "full-duplex television" to exist in reality. Those with schizophrenia also commonly believe people are talking about them; again, the persecutors have shown themselves very rarely, but act through intermediaries, both in the workplace, and in public and during travel.

Mental illness is not the cause of these claims, but the simulation of its symptoms is a cover used by the persecutors to deny their victim the ability to have his compaints believed.

What evidence exists to support these claims of "interactive television/radio";?

Quite frankly, I have very little evidence to support my claims. You may examine the "Evidence" area of my website to see such evidence as I have been able to gather. None of it is remotely conclusive. The "smoking guns" all date back to 1990/91, and it is really rather late now to start trying to look for material dating back seven or eight years. In 1997 I started tape-recording every programme I watched or listened to. I also started carrying with me a high-fidelity minidisc-recorder with good quality microphone to catch incidents of public harassment, but this also has not been as successful or conclusive as I had hoped.

Perhaps the best item in the "Evidence" section is the audio file "Life is so hard" (it is labelled with Garfield the cartoon character on the site), which I have given a certainty level of 100%. This item relates to harassment at my workplace in Canada in 1996. A co-worker called Mark was coming up with phrases and expressions which were repeating things being said at my Canadian residence, consequently leading me to believe that my apartment and home phone were bugged, and that the persecutors were passing their gathered information on to Mark. On one particular evening I said in my apartment, "life is so hard, and then you die". The following day I was able to record Mark saying exactly the same phrase at work.

Unfortunately when "they" know you are recording them, they simply dont say things which would unambiguously show harassment. When Mark the co-worker knew he was being recorded, he only made his remarks out of range of the recorder, for example outside the building. When the TV newscasters or radio disc jockeys know they are being taped, they limit themselves to saying things which are ambiguous, which even in my mind may or may not be personally directed against me.

Who knows about this persecution?

Surprisingly many people know. People in the media, such as BBC and ITN newscasters including Martyn Lewis and Michael Buerk, and radio disc

jockeys such as Chris Tarrant of Capital Radio, know what is going on, and take part in it. Some co-workers at my former workplaces in England and Canada have known about the harassment. Quite a few people in the general public are also included. I believe the police are aware of the persecution, but, unfortunately, have chosen not to take any action to stop it. I have complained at my local police station in London several years ago, and I have stated on the internet newsgroups that I have done so, hence the police will be well aware of my wish to see the matter resolved. I believe their inaction denotes a dereliction of duty, but without good evidence, I am powerless to compel them to take steps to prevent further harassment, or deal with what has already taken place.

What is the purpose of sending these faxes?

These faxes are being sent to three distinct groups of people, namely Members of Parliament, the media, and diplomats & legal people. As you will have observed I am making use of the email-to-fax gateway at Demon Internet to send these faxes. I am forced to use this gateway since I currently live in North America, and cannot afford the high cost of direct phone calls to the UK.

My purpose in publicising my claims is firstly to discourage the persecutors from continuing their campaign, and also to attempt to bring their campaign out into the open, and thus perhaps identify the persecutors. Neither aim has been achieved yet, but I hope that with sufficient stimulation these aims may yet be accomplished.

The problem with the second aim is that those who read this article will fall into two groups, those who dont know anything about the persecution and consequently will disbelieve my claims as delusional, and those who do know about the harassment and may have some idea of who is behind it, but realise that if the harassers are exposed and the truth brought out into the open, then powerful British institutions will substantially lose prestige, and be exposed to ridicule.

It would give me hope to believe that these faxes will create a third group of people, those who find out that I am telling the truth, and who follow their consciences in standing up and seeing justice done. Only time will tell if this hope will be realized.

454. MI5 Persecution: Why do you think MI5 are responsible? (7007)

Newsgroup: rec.radio.amateur.dx
Date: 2007-11-24 08:09:40 UTC
From: MI5Victim@mi5.gov.uk
Message-ID: <m07102408092685@4ax.com>
Source record: 2225
Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Why do you think MI5 are responsible?

The question of who is ultimately responsible for this eight-year harassment is one which is very difficult to answer, as the persecutors have never clearly made their identities known to the persecutee. However, I believe I am correct in attributing the continuing victimisation to elements of the British Security Service MI5, and in this article, I will try to explain the reasons for this belief.

The British internet magazine ".net" featured my website on page 17 of their March 1998 issue (number 42). Their review kindly describes it as an "excellent site" and gives some details of what the net surfer will find there. Should you wish to reply to this article you can do so;

"When did you first suspect MI5 were responsible?"

Over Easter 1995 I went to see a local solicitor in London with a view to talking to the police about the harassment. Soon afterwards I did go to my local police station in Clapham and spoke to an officer there. The solicitor made a comment which suggested to me that the persecution I had been experiencing may have been organised by an intelligence service.

Up to this point, I did not have any clear idea as to who was behind the harassment. Only their agents were visible, in the media, on television news programmes, and on the radio; in the workplace, where things said at my home were repeated verbatim; and in some cases abuse in public and during travel, for example on the trip to Poland in June 1992 which I have already described.

Both from the fact that widely disparate individuals and organisations were employed as agents in the campaign against me, and from the fact that an entity would be required to marshal their resources in the areas of spying on my home and giving gathered information to their agents, it was clear to me that a single entity was responsible for carrying out the campaign. Yet from June 1990 until Easter 1995 I did not have a clear idea of who might be responsible. I guessed that perhaps some private individual or group of persons who saw themselves as my enemies had perhaps paid private detectives to organise the harassment. Alternatively, since the campaign had started in the media, I made a far-fetched supposition that perhaps it was an ad-hoc group of media people who had set themselves up in opposition to me. After Easter 1995 I saw that these guesses were wrong, and I made an I believe much more accurate estimate as to who my enemies really are.

"Why couldn't a private group be behind the persecution?"

There are several reasons why a private individual or group would not be behind this campaign.

Quantity of resources / Money. Here is what one Usenet (internet newsgroup) participant had to say (several years ago) on the topic of how much money it would cost just to keep the surveillance going.

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more
like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that
makes
PM: >it worth the while of the state to spend over one and a quarter
million
PM: >on you?

A private individual or group would not spend over a million pounds to verbally torture a victim without some financial motive or gain. Private industry is driven by the profit motive, and there is no financial profit to be had from carrying out a campaign in this way. If a private enterprise were behind it then they would have taken direct physical action a long time ago.

State enterprises, on the other hand, can afford to be wasteful, since they are funded by the taxpayer. They do not have to show a money profit. The employees or contractors employed by a state organisation such as MI5 are driven by their own personal profit motives, to make the most money out of their employers for the longest period of time. MI5 is funded to the tune of #150M p.a.; even a few hundred thousand a year would to them be affordable if their managers could convince themselves of the necessity of what they were doing.

Quality of resources / Technical resources - electronic and other surveillance. In summer 1994 a reputable and competent private detective agency was employed to conduct a counter-surveillance sweep of my home in London. They charged us over #400 for this, conducted a thorough search for radio transmitting devices, hard-wired "probe" microphones and also tested the telephone line. They found nothing. This was not altogether surprising, since it had been made very clear to me that there were bugs in my home; the "buggers" would not have made this clear unless they had felt their bugs were of sufficient sophistication as to be safe from

detection.

But there is another lesson to be gained from the failure of the private detectives to find anything. The agency employed was one of the most reputable in London. They were employed on the principle of "setting a thief to catch a thief", for if the harassment were being carried out by private detectives, as I then believed, then surely another set of private detectives would be able to find the bugs that they had planted. That these "private eyes" were unable to find anything, and that the harassers were confident that they would not be able to find any bugs, points to the harassers being an order of sophistication above a private agency, and leads me again to believe that a state intelligence service is responsible for the surveillance and harassment.

Quality of resources / Technical resources - Interception of Postal service. In summer 1994 when I emigrated to Canada to try to escape the harassment, I wrote letters home to my family and friends in London. Quite soon after my arrival in Canada, the harassers were able to find precisely where I was staying. The only way I can see of "their" being able to find out my new address was by interception of my letters to the UK.

Later in 1994, I conducted an experiment to see if my letters home were indeed being read. In a letter home I wrote of being depressed and talked in vague terms of suicide. I deliberately chose this topic, since I believed it was the outcome my harassers were trying to achieve, and that if they read the letter, they would "echo" its contents. Sure enough, soon afterwards there were two incidents of people shouting "suicide" at me in public places in Canada.

It is inconceivable for a private agency to have the ability to intercept postal mail. The state security service on the other hand is well known to engage in these activities.

Quality of resources / Access to Media. One of the strangest aspects of this case is the access "they" have to the broadcast and print media. I still do not understand what could persuade newscasters such as Martyn Lewis and Michael Buerk, who consider themselves "gentlemen", to behave in an almost voyeuristic way by "peeking" into the living room of one of their viewers. A year ago I wrote to the BBC asking if these newscasters would confirm or deny the accusations made against them. The BBC replied that their newscasters had denied the accusations, but refused to do so in writing.

It is well known that MI5 have the ability to plant stories in certain newspapers, but convincing television newscasters to "watch" a viewer while they read the news would surely be very difficult for them to accomplish, unless they presented themselves to these journalists as being, for example, a group in the media who were seeing to it that I got my "deserved" treatment. MI5 has a history of manipulating the media, so it might not be too difficult for them to accomplish such a trick, whereas a private group would not have this ability.

"Have they ever denied that they are the Security Service?"

No. Never. This is in fact the main reason why I believe "they" are MI5 and not a privately funded group. If my guess had been wrong then I am sure that "they" would have crowed over my mistake, but they have never admitted nor denied that they are employees of MI5.

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly.

"If MI5 were behind it, why would they wish to mask their involvement?"

I have heard a number of times a belief from people in the media that it is they, the media people, who are behind the abuse. In spring 1994 Chris Tarrant the Capital Radio D.J. said sarcastically on his breakfast show, "You know this bloke? he says were trying to kill him. We should be done for attempted manslaughter". We, we, we. Tarrant thought it was a media conspiracy.

Returning to the question of "interactive watching" by television newscasters, it would again be much easier for them to take part in that sort of activity if they convinced themselves that the surveillance and abuse were organised by "their own", by media people. It must be second nature to MI5 to mask their involvement in the matters they deal with; in this case, they pretend the campaign is organised by a group in the media, and any journalists who suspect otherwise keep their silence.

Conclusion

Over the last three years I have stated with some force my belief that MI5 are responsible for my misfortunes. I have done so on Internet newsgroups, in letters and faxes to people in politics and the media in the UK, and in 1997 I made a formal complaint to MI5 regarding their activities; the Security Service Tribunal replied in June 1997 that "no determination in your favour has been made on your complaint". (I believe the statement by the Security Service Tribunal can be disregarded, as they have never, ever made a ruling in favour of a complainant.) In three years of naming MI5 as my oppressor "they" have never denied the charge. To me, their silence on this point indicates that my guess was accurate. I believe my persecutors stand identified. The question of why they should carry out this campaign is one I will try to answer in a future article.

MI5 Persecution Update: Friday 15 May, 1998

The persecution has been quite severe for the last week. It appears that my enemies are reacting to the steady stream of faxes making their way over the Atlantic to the fax machines of Westminster politicians and the media. Here is whats happened in the last few days;

The week started off with an incident in the cafeteria at a local shopping centre where I habitually drink my morning coffee. My enemies have concentrated since winter 1995/96 on throwing a particularly horrible sexual slander against me. They "put people up" to repeat this slander against me, and this is what happened again here.

On Thursday morning (yesterday), instead of going to the usual cafeteria I went to a nearby convenience store for coffee. The same horrible sexual slander was shouted at me very loudly by a member of staff as I walked into the store. This was the first time I had ever bought morning coffee in that shop. The other staff obviously knew what was going on, one of them said, "they screwed up my life".

The fax gateway I use to send these faxes to the UK has been working hard these last few days to shut down my access by barring the accounts I use to send these faxes.

I have received an anonymous threat from fax number 0171-219-6101 (the machine gave its name as "ETRA-HoC") which said, "Stop sending to this fax no 0171-219-6101 or else" (the consequences of continued transmission were unspecified). I invited the sender to apologise for his threat, but received no response.

This all adds up to quite a severe reaction to my faxes of the last few weeks. I actually find this quite heartening since it shows that my faxes are finding the mark and there may yet be a breakthrough in my efforts to expose the Security Service conpiracy of abuse against me which has now been going on for eight years.

MI5 Persecution: "Why would they be doing this to you, sir?"

This article will concentrate on the difficult question of "Why". The question which forms the title of this piece was asked of me by the police officer I spoke to in Easter 1995, when I went to make my complaint.

There are really two sides to this question. Firstly, why should MI5 be harassing anybody in this fashion? Secondly, if they choose to behave in this way, why should they have selected me in particular, and not somebody else? Alternatively, why did the persecution start, and why is it

continuing?

I do not have definite answers to either side of this question, since my persecutors have usually kept themselves hidden and only acted through other parties. To know "why", one would have to know who the persecutors are, and something of their personalities, since their abuse is almost certainly symptomatic of a personality disorder of the abusers. Certain things however can be deduced about the abusers from the nature of their behaviour, and I will talk about this later in the article.

Why did it start?

It is clear that the persecution must have been initiated by someone who knew me personally, either at school, or at university, or socially, and knew that I was borderline mentally ill, since this is what makes me a target for the persecutors. Unfortunately, the originators have never been identified, and there are several possible candidates. Neither has the link from the originators of the persecution, to the persecutors themselves, ever been made clear. So who are the originators?

University Staff

The identity of the originators may lie in the timing of the persecution. It started in June 1990, while I was finishing a course at Imperial College in London, and a year after I graduated from Cambridge, where I received a degree in computer science. At Cambridge I had achieved some notoriety in the computer lab from various nefarious exploits. Roger Needham attacked me by saying that "there were great hopes for it, but it failed terribly". When I started at Imperial I found that my reputation had preceded me; Cambridge computer lab had spoken to I.C. lecturers about me. I.C. lecturer Frank McCabe summed up commenting about "setting up a straw man so you can tear him down". (Despite being "torn down" by the Cambridge computer labs lecturers, I still achieved a good first degree and a Masters degree at Imperial.)

Other students at university

So, the originators may have been university staff who knew me from my student days. But there are other possibilities. I had other enemies at university, including some fellow students. At my Cambridge college it was common knowledge that my mental health was dubious, and it was known that I talked to myself in my sleep - the floor and walls were quite permeable to noise, so other students heard. I was given the nickname "gibber" because of this habit. Sometime later, I managed to catch myself talking in my sleep when I woke up in the middle of the night.

Here is a quote from a participant in the internet newsgroup where I have been posting for the last three years;

>One thing which has been missing from this discussion is this simple
>prognosis: that maybe he is right and that, despite his admitted
>mental condition, there really is a campaign against him organised by
>now-influential ex-students of his university.

People I knew socially

I had yet other enemies in 1990 (I am a man of many enemies!). In January 1990 I broke up with some people I had been going out with socially. One of them, by the name of Andy Turner, wrote a letter to Alan Freeman, who at the time was a Radio 1 DJ. Freeman read part of the letter out on his Rock Show, about the "one who wore out his welcome with random precision", saying "thats a hell of a letter you wrote there Andy", and "with a schizophrenic youre never alone".

It is my belief that Andy Turner and his friends were trying to make trouble for me, and Turner wrote to Freeman with this in mind. Freeman may have discussed the letter with others, and things may have snowballed from there. This is, of course, pure supposition. The fact is that I do not know who the originators are, and can only guess.

Once it started, why is it continuing?

The answer to this question is obvious. It is unacceptable to the "powers that be" in the UK to have somebody running around who knows he has been targeted by the Security Service and media organizations, and who is in a position to embarrass British institutions. This has become particularly evident in the last week; as I send more faxes to UK politicians and media, so the pressure on me grows, and the volume of abuse increases.

Part of the reason the persecution continues is in the personalities of the abusers, and it is this subject to which I will turn to next, since the key to understanding the persecution lies in understanding those who carry it out, as much as we can.

The Security Service operatives, the persecutors, are they psychopaths?

Let us first examine the definition of the term "psychopath". DSM-IV defines "anti-social personality disorder" as a "pattern of disregard for and violation of the rights of others ... deceitfulness, irritability and aggressiveness ... consistent irresponsibility and lack of remorse". The Harvard Mental Health Letter of Sept 1995 describes these people as using "charm, manipulation, intimidation and violence to control others and satisfy their own needs. Lacking in conscience and in feelings for others, they cold-bloodedly take what they want and do as they please", having "no guilt or regret".

I must say, reading this description of the condition, that it fits the persecutors perfectly. The persecutors have never shown the slightest remorse or guilt. Even when I was severely ill, they continued to abuse me. They have repeatedly blamed their actions on me, which is another trait common amongst psychopaths. They have no respect for my legal or personal rights, and they use intimidation and verbal violence.

If the MI5 operatives are psychopaths then it would explain both why the persecution started, and the degree of verbal violence. Psychopaths by definition damage other people; here, the MI5 operatives find an outlet for their personality disorder, through "cripple-kicking".

Xenophobia on the basis of mental illness, and race

My enemies have made clear many times that one of the reasons they are persecuting me is because of my admitted mental illness. However, it is my belief that they are also persecuting me because I am not of ethnic English origin, and the fact that there have been several incidents of an overtly racist nature reinforces this view.

In one case, two youths on a tube train in London made openly racist references to me as a "soft toy, not up to British Standards". Another person near my home made remarks about "Polish people". In yet another incident in Croydon, a youth made comments about "foreigners".

But the main thrust of their xenophobia is because of my mental illness. I should make clear that I do not look ill; if you met me, you would not know that I had the illness. I take a relatively low dose of medication, and feel quite well. But the persecutors have repeatedly harped on about my supposed serious mental illness; they have called me a "nutter", a "schizophrenic", etc. They have also persuaded other people to use these terms of abuse. They are able to get away with this because abusing the mentally ill is still something which is mostly acceptable in Britain; the media do it, "nutter" is not taboo in the way that "nigger" is.

Conclusion

There are several groups of people who might have wished to cause me trouble, and I still do not know who originated the persecution. Nor do I know how the originators came to be in contact with the (presumed) Security Service operatives who have been carrying out the campaign. To know conclusively why it started, we would have to know who started it, and this information is not available.

However, we can infer some things about the personalities of the persecutors from their methods, and from the degree of verbal violence they employ. It is clear that a main reason for the continuing harassment is the psychopathic disorder of the MI5 agents who carry it out. That they have never been "brought to book" for their misdeeds reinforces their belief that they do no wrong; and, unhappily, until they are brought to book, their persecution campaign looks set to continue.

MI5 Persecution: .net Magazine Applauds my Website

The March 1998 issue (number 42) of .net Magazine reviews the MI5
Persecution website describing it as an "excellent site". The webpages
describe in detail the nature of my persecution since 1990 by what are
believed to be elements of the UK security service.

(snip image)

You are encouraged to read the web pages which include

o a FAQ section outlining the nature of the persecutors, their methods
of harassment through the media, people at work and among the general public
o an evidence section, which carries audio and video clips of media and
workplace harassment, rated according to how directly I think they refer to me
o factual descriptions of the state security agencies involved
o scanned texts of the complaints I have made to media and state security agencies involved
o posts which have been made to netnews over the last three years on this topic

MI5 Persecution Update: Friday 13 November, 1998

If You Intend To Reply, Please Read This

If you have any questions or observations you would like to share with me, then you are very welcome to reply to my fax number 0171-681-1190. But please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. I do not know if he had anything intelligent to say in his 20-page fax because I applied judicious use of the "Delete" key on my computer. Faxes over a page or two will be deleted without being read.

MI5 Resume Hostilities in Response to these Faxes

When I wrote last weeks "MI5 Persecution Update" I remarked how quiet my life had become. No longer! MI5 have restarted hostilities with a vengeance the past week, in response I believe to the faxes I have been sending to members of the House of Commons.

On Saturday 7 November I went to Clapham Picture House cinema to see the film "Antz" (a very enjoyable film). At the cinema, I was verbally assaulted by a group of teenagers with the words "still crazy", repeated about ten times. There was a film with that name showing at the cinema, but it was clear their abuse was directed at me. I do not look ill, so why would they pick on me? answer, the incident was set-up by the persecutors. One of the teenagers also said to another, "I don't know what we're laughing at".

The following day, Sunday 8/11/98, I was on my way to play squash when I was verbally assaulted by a youth who said "it was so funny", without the slightest trace of humour. What he meant by this phrase was that was funny, and they were trying to humiliate me. I have heard this phrase "it was so funny" used at me before many, many times over the last eight and half years.

Please Encourage Keith Hill MP to Help Me

I live in a bugged house, bugged both for audio and video. My movements are monitored by MI5. The Security Service have followed me to Canada, to Poland and the Continent, to the States. I cannot work anywhere, not in England, not in Canada, because MI5 will destroy whatever employment I am able to obtain. I have asked Keith Hill MP to help me, and he has refused.

The situation is intolerable. It is Mr Hills job to help me out of this mess. So, please, as I said in the last fax a week ago: Do not waste your time returning multiple copies of my faxes to my fax mailbox, as some of

you have done. Instead;

Please encourage Keith Hill M.P. to help me.

I am sorry to be using this device to encourage Mr Hill to help, but I think eight and half years are quite enough and it is time something was done to bring this matter to a close.

MI5 Persecution : BBC Newscasters Spying on my Home

This week's topic is the quite extraordinary claim that BBC newscasters such as Martyn Lewis and Michael Buerk have spied on my living room while they read the news. I currently have an advert running for the next six months in Private Eye's "Eye Say" column (at a cost of over ₱200) which says,"MI5 Persecution - BBC Newscasters Spying on my Home"; the story of my campaign in the Eye is on my Website at; http://www.pair.com/spook/evidence/plaint/priveye.htm

BBCs staff magazine Ariel also ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm

Beginnings

The very first incident in the "MI5/BBC Persecution" occurred in June of 1990, when a newsreader reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

Most of the "TV watching" has occurred on the news, and most of it in summer 1990, although some as late as autumn 1993. My website has a few extracts of what might be politicians "getting at" me, in particular John Major and interviewer Dimbleby sharing a joke about the "Knutsford Guardian" which is almost certainly about me.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

Examples of Media Harassment

Here are a few examples which I can still remember of media harassment;

In early 1992 I was watching the BBC news with Martyn Lewis on a small black-and-white portable television at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

Victor Lewis Smith in his TV (BBC2?) program at the end of 1993, had a taxi-driver saying, "theyre all out to get me", to which VLS replied, "but you're quite intelligent aren't you?" (what a nice chap VLS is, compliments no less!)

Paul Daniels the TV magician, sometime in 1990-92 (sorry I can't be more precise but it was so long ago), made a "crying face" and put his face in his hands, which was his way of expressing that I was frequently crying in 1990-92, and that he and other media people found my crying funny.

Kenny Everett (deceased) on some talk show, compared me to a "huge ape" who "scratches himself"; he made some other remarks about what the "ape" got up to which unfortunately I cant remember. (I remember that Everetts comments were quite sympathetic and human, but were obviously about me.)

Stephen Fry on another talkshow (Wogan I think) talking about "masturbatory fantasies", he then referred to me with the words "you prat"; I wonder if the studio audience knew what he was talking about and to whom his comments were directed?

Griff Rhys Jones on Clive James' TV show, made a "lunatic face" (wide fixed grin) to which I said to the TV that he had a "face like a horse's arse", to which Clive James said to GRJ "did you hear that?"

Crimestoppers summer 1990, remarks by a Midlands police officer on the programme, while Nick Ross was presenter (as far as I can remember). The officer talked about "in car entertainment". Nick Ross said to officer, "why don't you stop doing it?" to which he replied, "we can't while he's like this".

BBC2 Newsnight in autumn 1993 had a piece on football hooliganism. A black interviewee said apparently of the hooligans, but in fact of me; "they're just idiots, carry on with the surveillance".

There was an incident with Jonathan Ross which I remember clearly; he was on both BBC and ITV television at the same time, one (ITV I think) was recorded, the other channel was live. Ross has a speech impediment which causes him to pronounce his "r"s as "w". I sarcastically said something about "Mr Woss" to the recorded channel, then turned over to where he was live, and he repeated "Woss" with heavy emphasis and sarcasm.

On the radio, in spring 1994, Chris Tarrant made a sarcastic remark in his morning show, saying "he says were trying to kill him, we should be done for attempted manslaughter", to which another of the studio staff said, "oh no, dont say that". His comment was in reply to a comparison Id made the previous evening between my persecutors and the Polish secret police who murdered dissidents.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "interactive watching". They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

I can understand that they might think that if they were to make written denials to me, then many other people with my condition might write to them with similar questions. But Ive asked a couple of journalists if theyve been writing about me, theyve made written denials, Ive believed them, and I have not put their denials on my website because, since I believe their denials, it would not be relevant to publish them.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

One of the strangest aspects of "TV watching" is that Buerk and Lewis have convinced themselves that their "interactive spying" is reasonable behaviour. Martyn Lewis thinks of himself as a "gentleman". He expressed in 1992 that he was "on my side". If this matter ever comes out into the open, I wonder what these newscasters will have to say for themselves, and what the British public will make of their behaviour?

Media Persecution Evidence on my Website

You may directly access the Evidence section on my website at URL;

The category currently contains four video segments, a number of audio files and three published articles. The first video of ITN's John Suchet is unfortunately a mistake - after looking at it again it is obviously not about me. The two Ken Clarke excerpts may or may not be about me; it is funny that he should keep on harping about "paranoia" and "madness", but I have given these ratings of only 30% certainty, as it is more likely that they are not about me in particular, and Clarke is simply displaying the normal prejudices against the mentally ill found in much of society.

The piece I find most interesting is the Dimbleby/John Major interview from April 1997. I have assigned this a 90% rating. Dimbleby starts by emphasising a report from the "Knutsford Guardian". Major recognizes what's going on and joins in with a falsely apologetic "heaven forfend". The emphasis is on the first syllable pronounced "nuts" in "Knutsford", which is repeated three times. Of course this is hardly anywhere near convincing evidence; the really clear items were all in 1990-92, and they are basically unobtainable now.

If you're reading the website, have a look at the two files from David Hepworth's programme on GLR radio. The first one from 21/Feb/1997 has him

talking about an "embarassment" of prizes and "absolute obscene", in reference I believe to the verbal sexual abuse that was being used against me at the time (and which unfortunately is still current). In the second file dated 9/May/1997 he again talks about "absolute embarrassment" of prizes, followed by laughter. To my mind he knows I am listening to his programme, and deliberately makes these remarks for my benefit, with very little attempt to disguise their purpose.

Bernard Levin - "Fanatic's Fare for the Common Man"

On 21 September 1991 this article by Bernard Levin appeared in The Times. It is reproduced in the Evidence section of the website, or may be accessed directly at URL;

To my mind, Levin's article described the situation at the time and in particular a recent meeting with a friend, during which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of harassment over the previous year and a half.

Levin writes about a "madman running loose about London" who "bursts into tears, and swears it is all true. And it is." I am pleased to agree with his assertion that "it is all true" because the truth is what I presented to my friend in September 1991 and it is what is being presented to the readership of these articles now.

Conclusion

The harassment, in particular media persecution, was at its strongest in 1990-92. Today, I am recording everything I watch, read and listen, and the media have pretty much given up. It is now incidents "in public" which make up what there is of MI5s persecution. But much of the material from 1990-92 still exists in archives, although the organisations which have those archives generally wont make the material available to the public, for copyright and other reasons.

MI5 can no longer employ the media to persecute me, partly because journalists now know who is behind the persecution, and also because I would publish any instances. My mistake during 1990-92 was to not record instances as they happened; Ive learned from that mistake, and know better now.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, K4MQG, N4AA & QRZ DX, K6RIM, K8YSE, WO0Z, DX-IS News Site, Pete's-DX-Newsdesk, CT3EE, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, G7COD, GU0SUP, I1JQJ/IK1ADH & 425 DX News, IZ2DPX, JI6KVR & IOTA-JA News, OH5DX, PA7FM, RSGB IOTA Web Site, T93Y, VA3RJ & ICPO and YU1AA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 25th-November, through Sunday, 2nd-December there were 232 countries active. Countries available: 3A, 3B8, 3DA, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4U1I, 4U1U, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9C, VK9L, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XF4, XT, XU, XW, XX9, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA. Just a reminder. By the time you read this, Tony, FO5RK, is expected to be here until possibly the end of January. He will be active as 3D2AG/P. Activity will be limited during the first two weeks because of his work. Full-time operations are expected to start around

December 15th. Look for him to be on 80-10 meters CW/SSB and 6 meters. For updates and online log, visit: http://www.3d2ag.fr.tc/

5R, MADAGASCAR. Remco, PG0A, has once again returned here and will be active as 5R8NL until December 7th. His first operation was back in 2005. Activity will be a "holiday style" operation. He will be using a FT-857 with an amplifier using verticals and some wire antennas. Remco was heard this past week only on CW and on 40/20/17/15/10 meters at various times throughout the day; earlier as 0830z and as late as 2030z. OPDX was informed by Dennis, PA7FM, that Remco is not into QSLing at all, and effective immediately, PA7FM has taken over Remco's QSL job for this operation as well as the earlier operations. Dennis states, "There's a small backlog of direct QSL request that will be cleared after this operation as soon as possible. Apologies for that to those awaiting an answer." He also mentions that a small Web site will become available online with the possibility of online logs and more photos when the internet connection is good enough. Please remember this is a holiday style operation with just one operator, so no 24 hour around the clock operation.

CE0Z, JUAN FERNANDEZ ISLAND. Svein, LA6IKA, has been on a three month vaction in South America since the beginning of November. He has operated from Chile (CE/LA6IKA) and Argentina (LU/LA6IKA) on 20 meters CW and PSK. In late January he is expected to operate as CE0Z/LA6IKA from Juan Fernandez Island (SA-005). Svein will use an ICOM 703 with only 10 watts and small antennas. QSL via his home callsign. ADDED NOTES: He will also try to get a licence for Easter Islands (CE0Y/LA6IKA). Svein has a blog which keeps you up-to-date on his activities at: http://la6ika.blogg.no/

CT9, MADEIRA ISLAND. Luis, CT3EE, will activate CT9EPC, a special callsign for the EPC (European PSK Club) members on Madeira Island, between December 3-8th and again during December 22-28th. Activity will be mainly on 40/20 meters because of propagation. The callsign CT9EPC is used only on the Digital modes, and the main objective is to have more activity on these modes. QSL direct to CT3EE (see QRZ.com) and not to the Bureau (he is not a member of the Portuguese National QSL Bureau). Please visit the EPC Web page at: http://eu.srars.org/index.php?option=com_weblinks&catid=29&Itemid=144

EA8, CANARY ISLANDS (AF-004). Giovanni, IZ2DPX, will be active as EA8/IZ2DPX from the Island of Fuerteventura between December 30th and January 6th. Activity will be on 40/20/17/15/12/10 meters using a Kenwood TS-50 with a MFJ Tuner into a Spar I1UJX multiband vertical antenna. QSL direct to IK2DUW or by the Bureau.

INDEXA (Helping Make DX Happen). Gary Dixon, K4MQG, INDEXA President, wants to alert fellow DXers that the recently revised INDEXA Web site now has additional features and functions. The INDEXA Web site can be viewed at: http://www.indexa.org/
Gary states, "INDEXA is all about providing financial support for DXpeditions considered to be on the 'most wanted list', so hope the pending DXpeditions we are supporting will be a new DXCC entity or at least provide you with a few new band countries. Anyone interested in

supporting INDEXA and its goals (including membership or donations) can
get information from the Web site."

IOTA NEWS.....
NA-035. (Update) Operators Ray/WQ7R/HR9, Lane/KC4CD/HR2, Antonio/HR2DX,
Daniel/HR2DMR, Ramon/HR7REA, Javier/HR2J, Pedro/HR2PAC and
possibly more will activate Swan Island as HQ8R between March
15-23rd. They plan to be active on 160-10 meters with two
stations on phone, one on CW and one on the Digital modes
(RTTY and PSK31). They plan to have four stations with ten
operators. QSL via HR2RCH: Radio Club de Honduras, PO Box 273,
San Pedro Sula, Cortes, HONDURAS (Information from QRZ.com).
Visit their Web site at: http://www.hondurasdx.com

J5, GUINEA BISSAU (Update). The "F6KOP TEAM" is planning a DXpedition to
Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January
11-21st (2008). Their callsign will be J5C. This past week the team
announced that Serge, F6AML, had to cancel his participation for some
personal reasons. Jean-Marc, F8IXZ, (ex-6W1/F8IXZ, 6W4/F8IXZ, TM0GAY,
F8IXZ/D44AC, 5H1C), a CW operator, will join the F6KOP team and will go
in place of Serge. For up-to-date info, visit their Web pages at:
http://www.j5c.eu

KH0, MARIANA ISLANDS (OC-086). Operators Hiro/W1VX, Toshi/N3YS and
Hide/AB2WE will be active from Saipan, December 7-10th. Look for them
to sign as KH0/homecall and KH0D. Activity will be on 80-10 meters, CW,
SSB, RTTY and FM. QSL W1VX and KH0D via JF1OCQ, N3YS via JE1SYN, AB2WE
via JI1JPJ.

NCDXF PRESS RELEASE. At its Board of Directors meeting on November 28,
2007, in Albany, CA, the Northern California DX Foundation re-elected
the following officers and directors:
President Len Geraldi K6ANP
Vice President Al Burnham K6RIM
Secretary Tom McShane NW6P
Treasurer Bruce Butler W6OSP
Director Rusty Epps W6OAT
Director Dave Pugatch KI6WF
Director Chuck Ternes N6OJ
Director Glenn Vinson W6OTC
Director Steve Merchant K6AW
Director Ken Anderson K6TA
Director Tim Totten N4GN

Information pertaining to the Northern California DX Foundation is
available at: http://www.ncdxf.org

NETHERLANDS ANTILLES TO NET NEW DXCC ENTITIES FOR 2008! Over the past
year much discussion has been made about the possibility of new DXCC
entities happening once the break-up/disbanding of the Netherlands
Antilles takes effect on December 15th, 2008. This past week, the President
of European DX Foundation (EUDXF), Hans, PB2T, who visited ARRL HQ in

July and had a discussion about the DXCC status of Netherlands Antilles, feels after December 15th, 2008, it looks like four new entities will be added to the DXCC list in the future (Curacao, Sint Maarten, Saba, Sint Eustatius and Bonaire).

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ 160-Meter CW Contest (January 26-27th, 2008) as a Multi-Op entry. QSL via W0MM.

OH0, ALAND ISLAND. Operator Juha, OH9MM, will be active as OH0Z during the CQ WW RTTY WPX Contest (February 9-10th, 2008) as a Single-Op/All-Band entry. QSL via W0MM.

PIRATE ALERTS.....
FR7BB - Marcel, F6EKB (ex-FR7BB), doesn't know anything about this callsign being reissued. It was recently heard on the air. Marcel left Reunion Island in 1976 and was 3X0HNU until 1993. By the way, he still has his logs.

MU0A - Phil, GU0SUP, reports that during the CQWW CW Contest, the callsign MU0A was very active and was spotted numerous times, and made many S&P contacts. He states, "Sadly, this call has never been issued, a fact which has been confirmed by Ofcom, the licencing authority in the UK, and therefore the operation was a pirate."

PJ4, NETHERLANDS ANTILLES. Larry, Wo0Z, will be active as PJ4/Wo0Z from Bonaire (SA-006) from December 8-15th. He will be active on CW, SSB and possibly RTTY on whatever bands are open in this holiday-style DXpedition. QSL via Wo0Z (PLEASE NOTE: "Whiskey Oscar zero Zulu").

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB and Tedd/KB8NW:
SY1942G via SV2KBB or eQSL or direct
W4AVM via W4REX
XE2GG via N6AN
YB4IPY via YB4IR (direct, 2 USDs)
YB4IR (direct, 2 USDs)
VP2MNR via K9CS (NOT via YU1NR)

6W1SJ QSLS IN THE MAIL. Boris, T93Y, informs OPDX that all 6W1SJ direct QSL requests received by November 27th, are in the mail. He recommands to allow the B/H postal system sometime to deliver airmail letters (up to 4 weeks) before you start asking questions about your QSL cards at: 6w1sj@t93y.com

NEW QSL MANAGER. Andrew, G7COD, reports that due to the sad passing of Buck, G0OYH, he now has a new QSL Manager effective immediately for his EA8/G7COD/A operation and QSLs can be sent either by the bureau or direct to G4KEE. To ensure that you receive a reply, even if you have already sent one to his previous manager, please resend another one to G4KEE.

QSLS VIA LOTW: 8R1EA, GI4NKB, HC8N, JT1T, LU6FEH, ST0RY, TZ6DX and ZS6WN

QSLS RECEIVED VIA MAIL: 3B7C, 3DA0VM, 4O3A, 4S7HIG, 5H3VMB, 5H3VMB/3, 5H3VMB/5, 5N8NDP, 5R8RJ, 5X1VB, 5Z4/UA4WHX, 7P8JF, 7Q7VB, 9U0A, 9X0VB, A52AM, AO9IB, BD7KLO/7, C98BWW, CN8KD, D20VB, D88S, EK3GM, F5KAQ/p, FP/K9MDO, FS/CT1BWW, KD3CQ/p, KL7HBK, P29NI, R1AND, T77C, T93J, TA4HZ, TC0DX, TK1CX, UK8OM, UT7QF, V51VV, VO1J, VY0/KH0PR, W4USI, WW2SUB, XX9TJS, YW5AS, Z2/UA4WHX, ZL7/SP5EAQ and ZL7/SP9PT

SILENT KEYS.....
OPDX and its readers would like to send out our deepest sympathy to the families and friends of the following Silent Keys:
Wolf Baron, TI2BY, was a well-known ham who started his hobby shortly after WWII and remained active until the present day. In Costa Rica and Latin America, he pioneered digital modes, especially packet. But overall Wolf Baron was known as one of the great teachers of amateur radio in Central and South America.

Dan Umberger, W8ZCQ, became a Silent Key (SK) on November 30th. He was a serious DXER and had 378 countries to his credit. An online obituary is available with a online guestbook at:
http://www.legacy.com/Dispatch/Obituaries.asp?Page=Lifestory&PersonId=98872947

TR, GABON. Roland, F8EN, will once again be active as TR8CR (possibly with a special callsign) from Libreville from December 7th to January 12th. Activity will be mostly on 20 meters (14005, 14125/200 kHz). There is a possibility that Roland may make a short operation from an island in the AF-043 IOTA group. QSL via F6AJA or F8EN.

YB, INDONESIA. Juergen, DJ3KR, is now active as YB1AQB until December 15th. He will be active on all bands using an IC-7000 into a vertical that is 10m in height. Activity has been mainly on 40/30/17 meters CW between 1100-1700z. QSL via his home callsign.

YJ0, VANUATU. Three members of the VK Contest Club will be active from here as YJ0AX during the CQ WW WPX SSB Contest (March 29-30th, 2008) as a Multi-2 entry. Operators mentioned are Trent/VK4TI, Tony/VK3TZ and Laurie/VK4VCC. QSL routes will be announced later for NA and Europe.
A Google group for discussion - YJ0AX2008, has been set up for interest and is open to all operators of contest calibre.

Archive-name: radio/ham-radio/recruitment
Revision: 1.1 2007/09/29 18:42:47
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 836
BID: $OPDX.836
December 10, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL DX Bulletin, AA1M, K1XN & GoList, NC1L,NJ1Q, NG3K, W3UR & The Daily DX, K4ZLE, N4AA & QRZ DX, K5DX, K8BL, K8YSE, K9EL, ND9M, DX-IS News Site, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, DL7ZZ, EA1FCH, F5NQL & UFT, F5PFP, F8DVD, I1JQJ/IK1ADH & 425 DX News, OZ7AEI, RSGB IOTA Web Site, VA3RJ & ICPO, YB0AZ and YO3JW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 2nd-December, through Sunday, 9th-December there were 216 countries active. Countries available: 3A, 3B8, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V4, V5, V6, V7, V8, VE, VK, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XF4, XT, XU, XW, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5K, COLOMBIA. Operator Siso, HK3W, will be using the special callsign 5K3W during the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low-Power entry. He will be using only a dipole and 100w. QSL only direct to his home callsign.

5T, MAURITANIA (Update). Andreas, DL7ZZ, provides OPDX with another update on the German team's planned DXpedition to Nouakchott, Mauritania, to take place between March 16-30th (2008). He states that their team is now complete. They have added Oliver, DL2ARD, the 10m-SSB operator of DA0HQ. For more information on the operators and their equipment, please visit the Web page at: http://www.5t2008.de
He also mentions that the first foundations who donated funds and are supporting their DXpedition are now listed on their Web site. The team is looking for sponsors and donations. QSL via DH7WW, by the bureau or direct.

A4, OMAN. To commemorate the 35th anniversary of the Royal Omani Amateur Radio Society (ROARS), look for all Omani stations to sign homecall/35 from December 12-14th. Also, look for the ROARS HQ station, A47RS, to be active A47RS/35. QSL HQ station via the bureau.

ANTARCTIC CRUISE/DXPEDITION (Update). Mehdi, F5PFP, organizer of an upcoming Antarctic Cruise/DXpedition for 4 weeks in 2008-2009, states he is still looking for a good CW operator. The Antarctic Cruise/DXpedition program will take you to: Videla station, Almirante Brown station, Yelcho station, Port Lockroy base, Macchu Picchu station, Republica del Ecuador refuge, Gurruchaga refuge, Maldonado station, Juan Carlos station, Station B, and Risopatron station. The trip will start in Ushuaia. If you are interested and for more details, send him an E-mail at: f5pfp@aliceadsl.fr

CN, MOROCCO. Jim, W7EJ, will be active as CN2R during the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/High-Power entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

CQ MAGAZINE 2007 DX MARATHON. John, K9EL, CQ's Program Manager for the CQ DX Marathon, reports: "Just a few weeks left to the end of the second annual CQ Magazine DX Marathon! Each year from January 1st to December 31st, CQ Magazine sponsors a challenge to work as many countries and zones as possible in the calendar year. This year's edition ends soon, but there is still time to fill in some missing countries and zones. Remember that for 2007, the WARC bands are permitted. For complete rules and submission information, please see our Web site at: http://www.dxmarathon.com
Good luck and see you on the bands! 73, John, K9EL"

CU2, AZORES. Pedro, EA1FCH, who was active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH during the summer, informs OPDX that he will again return during the summer of 2008. Meanwhile, he also reports that he has begun to confirm QSOs from his 2007 operation. Pedro states that he did not make very QSOs (about 600) because of problems with his antenna. His CU2/EA2FCH log is avaialble at:
QSL via EA1FCH, by the Bureau or direct.

DXCC NEWS (DXCC Applications Received Page Information). Bill Moore, NC1L, ARRL DXCC Manager, reports: "Recently, I inadvertently noted a mailing date of September 14th in the block on this page. This was, in fact, the date DXCC was entering applications for and not the mailing date. The actual current mailing period in DXCC as noted on the page is the week of August 31st, but this also includes all remaining August applications.

All pending August applications should be finished in the next 1-2 weeks.
DXCC is currently entering applications received during the 3rd week
of September.

DXCC is currently mailing the remaining applications for August.

The current backlog is estimated to be: 15 Weeks.

This reporting is fluid because applications before and after this
date may be in progress for both mailing and entering. The above figures
represent the average period.
Also, please remember it is currently the Christmas season, and in
addition to DXCC mail delays, additional delays may occur in the next
few weeks due to USPS overload.....73 es DX!"

EY8, TAJIKISTAN. Nodir, EY8MM, will be active in the CQ 160-Meter CW
Contest (January 26-27th) as a Single-Op/High-Power/Assisted entry.
QSL via K1BV. Priority will be given to NA QSOs and New ones. See Nodir's
Web page at: http://www.ey8mm.com
LAST ADDITION: Nodir, EY8MM, will also be active during the ARRL DX CW
Contest (February 16-17th) as a Single-Op/Single-Band (80m)/High-Power
entry. He also mentions he needs KS, LA, ND, NE and WY.

GB0, ENGLAND (Satellite News). Operators John/G7HIA and Robert/G8ATE will
be using the special callsign GB0OO (Golf Bravo 0 (Zero) Oscar One) between
December 12-16th. The 12th of December is an unofficial "OSCAR DAY" to
celebrate the launch of Amateur radio's first satellite "Oscar-1". They
will be operating "ONLY" on analogue satellites. Further information can
be found at: http://www.turlington.supanet.com/

HI, DOMINICAN REPUBLIC (NA-096). Costantino, HI3CCP, will be active as
HI3C from Loma del Toro (WLOTA L-2274) during the CQ 160-Meter SSB Contest
(February 23-24th) as a Single-Op/Low-Power entry. QSL via ON4IQ.

IOTA NEWS.....
AF-018. Operator Raffaele, IH9YMC, will be active from Pantelleria
Island (IIA TP-001, MIA MI-124, WW Loc. JM56XT), African Italy,
in the CQ 160-Meter SSB Contest (February 23-24th) as a Single-
Op/Low-Power entry. QSL direct only.

EU-070. Christian, F8HJV, will be active from the Levant Island (DIFM
ME-012 and WLOTA 1083) near the Napoleon Fort until December
22nd. Activity will be mainly on the HF bands on SSB. He was
heard this past weekend on 40 meters. This operation will
count for the French Forts and Castles Award (Reference DFCF
83117). QSL via his home callsign.

SA-090. Remember to look for a second YL DXpedition organized by the
4M5DX group this week to take place from Chimana Grande Island
(DIV-008 for the Venezuela Islands Award), between December
12-16th. YL operators will sign YW6YL, and the team of operators
include Andreina/YY4AND, Carolina/YY4CVI, Laura/YY4LCG, Maika/
YY5ALO and Ydorca/YY5EVA. QSL via IT9DAA, direct preferred but

the bureau is OK. More information can be found on their new
Web site at: http://www.yw6yl.4m5dx.info

JW, SVALBARD. Unni, LA6RHA, will be making her 16th trip to Svalbard
and plans to be active as JW6RHA between January 18-24th. Watch 14248 kHz
+/- QRM. QSL via LA6RHA. Visit her interesting Web page at:
http://home.online.no/~la6rha/index.htm

LIGHTHOUSE ACTIVITIES.....
Members of the Texas Lighthouse Radio Society will activate several
lighthouses along the Texas Gulf Coast using the callsign W5TLH between
December 22-29th and during the "ARLHS Lighthouse Christmas Lights QSO
Party". Lighthouses expected to be activated:
Texas Maritime Museum (ARLHS USA-1247)
Corpus Christi (ARLHS USA-1137)
Lydia Ann Channel (ARLHS USA-018, IOTA NA-092, USI TX-001S)
Port Isabel (ARLHS USA-649, USi TX-038S)
Brazos Santiago [New] (ARLHS USA-080)
Brazos Santiago [Old] (ARLHS USA-081, IOTA NA-092, USI TX-007S)
Brazos Santiago Depot (ARLHS USA-1393)
Activity will be mainly SSB on the following suggested frequencies
on/near 14260 and 7260 kHz. QSL direct (w/SASE) to W5TLH, c/o Jim Martin,
637 Newberry Dr., Richardson, TX 75080-5622. For a QSL card use a #10
business size return envelope (SASE). For a QSL card and an unfolded
certificate send a 9" x 12" return envelope (SASE). Further information
can be found at: http://www.w5azn.com

Operator Jakob, OZ7AEI and others plan to activate 4 lighthouses of
Aggertange (DEN-081, DEN-082, DEN-190 and DEN-191), Saturday, December
15th, all on Vensyssel/Thy Island (EU-171 and DIA NJ-001). They plan on
possibly having 2 stations on the air (20m and 40m). More details will
be available (December 14th) on the time/schedule of each LH and the
callsign to be used on Jakob's Web page at: http://oz7aei.qrz.dk
All QSLs are via the home callsign, by the Bureau or Direct. See OZ7AEI's
new adress on QRZ.com.

NEW OFFICIERS FOR 2008. The Texas DX Society (TDXS) is pleased to announce
its officers and board members for 2008:
President - Steve Smothers, W9DX
VP Programs - Cal White, WF5W
VP Membership - Paul Frantz, W5PF
Secretary/Treasurer- Bill Frink, K5WAF
Contest Chairman - Don Daze, N5DD
Repeater Chairman - Glenn Anderson, WB5TUF
Visit TDXS Web site at: http://www.tdxs.net

OH0, ALAND ISLAND (Ops Update). Operators Ari/OH5DX, Juha/OH1JT, Pasi/
OH1MM, Timo/OH1TM, Mika/OH2JA, and Tomi/OH6EI will be active as OH0Z
during the CQ 160-Meter CW Contest (January 26-27th, 2008) as a Multi-Op
entry. QSL via W0MM.

OJ1, ANTARCTICA. Mika, OH2FFP, is a team leader on an expedition from Finland to the Antarctica with 11 members heading to the Aboa Scientific Base located on Queen Maud land (73°03'S, 13°25'W) near the Swedish, Norwegian and German bases. By the time you read this, the team should be there, and Mika could be active on the air using the very rare callsign OJ1ABOA. Mika will answer QSLs when they return in three months. The base has several transceivers. Mika plans to use 1 KW to a twin dipole for 40 and 20 meters on a 15 meter tall tower. By the way, Mika is fairly new to amateur radio and has no experience with operating or certainly with pileups, but he is an expert on survival in extreme conditions - which may help on the air! He has written two books on extreme conditions survival.

PJ2, NETHERLANDS ANTILLES. Just a reminder that Jerry, WB9Z, will be active this week as PJ2/WB9Z from Signal Point, Curacao (SA-006, WLOTA LH-0942), between December 12-25th. Activity will be holiday style on all bands. QSL via his home callsign.

QSL INFO AND NEWS.....
QSL ROUTES by Johannes/DK8JB:
8J7AKARI automaticaly HS80A via HS1CHB
BA4DZ via BA4EG IW3SIP direct
DQ0A via DJ5BWD

It was reported that Gerd, DL7VOG, stated in his returned QSL: "Thank you for the QSO/s and your QSL. The postage in Germany is very expensive. I have to pay 1.70 Euros for an overseas letter. Your two USDs is only 1.40 Euros (today's exchange). I don't want to get rich with my hobby but neither poor ;o)) Please remember next time. Most of the US guys insert 2 USD. They probably don't know about this. I have found a cheaper way, but it takes more time!! 73 and GL de Gerd / DL7VOG" The QSL card he sent came from the Czech Republic.

QSLS VIA LOTW: H40MY, HS0ZEE, C6AKQ, ST0RY and OH8L

QSLS RECEIVED VIA MAIL: 3B7C, 3D2WW, AH0BT, C91KDJ, H40MY, JW/G3TXF, P29NI, P29VLR, YN2N, YW5AS, ZL7/SP5EAQ and ZL7/SP9PT

SATELLITE DX REPORT (by John, K8YSE).....
AO-51 continues to be the most active/popular FM satellite and can be worked with a VHF/UHF HT with a hand-held Arrow antenna. DX heard from Ohio in the last week includes TG9GIG, WP4CNU, VA7MG, VE3OSC, VE3TEP, XE1HON, XE1NW, XE1SVT, XE2YWB, YV4DYJ, YV5DSL, YV6BFE. TG9GIG was also worked on VO52 on SSB.

AO7, a satellite launched in 1974 which came back to life in 2002 after not being heard from since 1981, provides the best opportunity for longer range contacts. Western Europe is in view of the Eastern U.S. on some passes with G1WPR, PA1TNO, OH8MBN, F6HRO and LA2QAA being logged on the AO7 Web site: http://www.planetemily.com/ao7/main.php
The AO7 online log shows that there is a lot of opportunity to work DX on this bird. AO7 alternates (on its own) between Mode A (2 meters up/10 meters down) and Mode B (432 up/2 meters down). This is an FM/SSB satellite. Check the Web site for an idea of what mode it might be in.

.... 73, John K8YSE

T9, BOSNIA AND HERZEGOVINA. A team of operators will activate T93J during the CQ 160-Meter CW Contest (January 26-27th) as a Multi-Op entry. QSL via T98U or OE1EMS.

TN, CONGO. Operators Baldur/DJ6SI and Franz/DJ9ZB are now active as TN6X (CW) and TN9Z (SSB), repsectively, until December 13th. Activity has been on 40/30/20/17/15 meters. QSL via their home callsigns.

TO5, MARTINIQUE. Al, F5VHJ, will be active as TO5A from the Island of Martinique (NA-107, DIFO FM-001, WLOTA L-1041) during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/High-Power entry. Al will also be active as TO5A during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/High-Power entry. QSL both operations via F5VHJ, LoTW, or the REF Bureau.

TX5C CLIPPERTON ISLAND (Press Release). Jay, K4ZLE, member of the Clipperton 2008 team, sent out the following press release:
"Time is drawing close for the Clipperton 2008 DXpedition. The team has been recruited. Plans and preparations are underway. Equipment is being staged, and your Clipperton 2008 team is chomping at the bit to make it a reality.
Information on the planned operation can be found at the web site:
http://www.clipperton2008.org
Included on the web site is information on how you can support these activities, including providing financial support. As in most operations of this type, each individual has made a sizable up front financial commitment. Also, as in most operations of this type, there are other expenses.
Our antenna plans are quite extensive and it takes a LOT of coax to feed those antennas. If you have good quality 9913 or 213 coax sitting around, we can use it. You may ship your surplus coax to us and accomplish at least two objectives:
1) You become part of the support team. As such, in addition to the personal satisfaction that should give you, you will be listed on the official web page.
2) In addition, as a contributor your donation will we tax deductible to the full extent of current tax regulations. We will provide an appropriate receipt for your contribution.

Prior to shipping to us, please contact Steve Hammer, K6SGH, at:
k6sgh <at> clipperton2008 <dot> org
He will coordinate this effort. The countdown is underway. The radios and operators are ready to play. So what do you say; contribute your surplus coax today."

V4, ST. KITTS. Operators Mike/W1USN, Bob/AA1M and Scott/W1SSR will be operating as V4/homecall starting February 28th until March 2008. They will be using CW, SSB and PSK on 160m to 10m. QSL via CBA.

VP5, TURKS AND CAICOS ISLANDS. OCARC Member Bob/K0OK and Dale/KB7UB are still active as VP5/K0OK and VP5/KB7UB, respectively, from Providenciales (NA-002), until December 11th. Activity will be on 160-6 meters CW and SSB. They were active in last week's ARRL 10 Meter Contest as VP5E (K0OK) and VP5UB (KB7UB). QSL via their home callsigns. Online logs will be available at: http://www.dxer.com/dxlogs
All QSOs will be uploaded to LoTW.

VP5, TURKS AND CAICOS ISLANDS. Operator Jim, W9VNE, will once again be active from Jodi's, VP5JM, "Hamlet" as VP5/homecall on Providenciales Island (NA-002), February 1-6th. Activity is mainly to participate in the FOC Marathon (a members only event - February 2-4th) on CW. Prefix hunters are welcome to exchange reports with him. QSL via W9VNE to: Jim Danehy, Box 54482, Cincinnati, Ohio 45254 USA.

VP5, TURKS AND CAICOS ISLANDS. Operator Dave, WJ2O, will be active as VP5/WJ2O from Jodi's, VP5JM, "Hamlet" on Providenciales Island (NA-002), February 15-22nd. His activity will include the ARRL DX CW Contest (February 16-17th) as a Single-Op entry. QSL via his home callsign.

VQ9, CHAGOS ISLANDS. Jim, ND9M, informs OPDX that he will be returning to Diego Garcia this week (ETA 12th December) for another four month tour and will resume operating as VQ9JC. Jim states, "My ship will be leaving the island in a few weeks, so I don't know yet how much of my four months will be spent there; hopefully we will return in August or September 2008. But there's a possibility that the ship will be reassigned to another port; if that happens, this would likely be my final chance to put out VQ9. If I'm still there in late March, I will try to get another special prefix callsign issued for temporary use around the CQ WPX SSB Contest. The local licensing authority was very receptive to my request in 2007 and were kind enough to issue me VQ97JC for a two-week period; with luck, they will do it again. Operating time tends to run about 85% CW, 10% SSB, and 5% digital and is mainly on 10-80 meters. I must take a boat from my ship (where I am one of the few remaining Radio Officers) to the island where the ham shack is located and usually cannot be QRV before 1200Z. (Local time is GMT +6 all year.) In order to be on the boat back to the ship, I must QRT by 1630Z on Sundays through Thursday, and by 1730Z on Fridays and Saturdays, although I will occasionally stay overnight to work early morning DX. Even if I do stay overnight, I have to QRT by about 0050Z to make the boat in time to be at my job by 0200Z. (Ops should keep in mind that I'm there on a work assignment; it's not a vacation holiday!)" QSL via ND9M (ex-WB9IHH); either by the bureau or direct is OK. Jim's XYL will forward direct requests to him every three weeks or so, but mail typically takes about two weeks to get to the island once she mails it.

YE9, INDONESIA (Special Event). Look for special event station YE9FCCC to be active from Bali until December 14th on the HF and VHF bands. Activity is to promote the United Nations Climate Change Conference through the world via Amateur Radio Frequencies. Most of the activity this past week was on 40/20 meters CW, with some QSNs on 17 meters. QSL Manager is YB1GJS, and QSL card should be mailed via P.O. Box 1096, Jakarta 10010, Indonesia.

YO, ROMANIA. Pit, YO3JW, informs OPDX that starting December 6th (2007) YO stations can use frequencies 7.100 to 7.200 MHz.

ZD7, ST. HELENA ISLAND (AF-022). Operator Tom, KC0W, will be active as ZD7X during the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low Power entry. QSL via W0MM (QRZ.com).

467. MI5-Persecution: How Could It Be True? (488)

Newsgroup: rec.radio.amateur.dx
Date: 2007-12-16 10:43:10 UTC
From: MI5-Victim@mi5.gov.uk
Message-ID: <m07111610430711@4ax.com>

Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

MI5 Persecution: How Could It Be True?

If you have the patience to read these articles you will be struck by how apparently fantastic the claims being put forward are. You may ask yourself why such seemingly nonsensical assertions are made. This matter has been discussed on the Internets UK-local newsgroups for three years now, and the denizens of the uk.misc newsgroup (the so-called "miscreants") have come up with a number of theories to explain these posts; it has been variously suggested that they are a troll (an artificial creation for the amusement of its author), that they are made by MI5 themselves with the purpose of discrediting other conspiracy theories, and that the poster is mentally ill and the articles are symptomatic of the illness (the view held by most miscreants).

Are these claims the product of mental illness, or is that just a cover?

The most obvious explanation, that the claims made result from the admitted mental illness of the author, is the one which the persecutors intend be the one accepted without consideration being given to the possibility of the claims being true. The persecutors have actually been very clever about this, both in selecting as their target someone who was known from school or university as being borderline schizophrenic, and in ensuring the nature of their persecution corresponds to what often features in the delusions of a schizophrenic.

The very first incident of the persecution occurred in June 1990, when I was still a student at university in London. It consisted of a reaction (giggling) from the newsreader, Sue Carpenter of ITN, to what she saw happening in my living-room at my parents home where I was living. Before your imagination gets the better of you I should make clear that what the newsreader was reacting to was not too embarrassing in nature; my mother had brought an apple for me into the the room, and Sue Carpenter found this amusing.

I recognized that Carpenter had reacted to what she had seen in my living-room, yet this idea still seemed completely fantastic to me. My reaction was to continue watching television, particularly the news, to see if this incident would be repeated. It was, many times, both on BBC and ITV. An intelligent person would have thought to obtain a video recorder and capture some of these incidents in order to try to explain to an observer what he saw in these broadcasts. Unfortunately, I failed this test of intelligence, since I did not record these programmes. I have recently attempted to obtain from ITN tapes of their news programmes dating back to summer 1990, but, unhappily, they have advised me that they do not have complete programmes including newsreaders comments dating back

to that period.

From the outset, the persecutors structured their actions to ensure that any complaint would be met with disbelief, and dismissed as delusional. This is why they chose as their target someone who was known at school and university to be borderline mentally ill; and it is why they fired the first shots of their campaign through the broadcast media. Schizophrenics commonly believe the media harass them; it would be exceptional for "full-duplex television" to exist in reality. Those with schizophrenia also commonly believe people are talking about them; again, the persecutors have shown themselves very rarely, but act through intermediaries, both in the workplace, and in public and during travel.

Mental illness is not the cause of these claims, but the simulation of its symptoms is a cover used by the persecutors to deny their victim the ability to have his compaints believed.

What evidence exists to support these claims of "interactive television/radio";?

Quite frankly, I have very little evidence to support my claims. You may examine the "Evidence" area of my website to see such evidence as I have been able to gather. None of it is remotely conclusive. The "smoking guns" all date back to 1990/91, and it is really rather late now to start trying to look for material dating back seven or eight years. In 1997 I started tape-recording every programme I watched or listened to. I also started carrying with me a high-fidelity minidisc-recorder with good quality microphone to catch incidents of public harassment, but this also has not been as successful or conclusive as I had hoped.

Perhaps the best item in the "Evidence" section is the audio file "Life is so hard" (it is labelled with Garfield the cartoon character on the site), which I have given a certainty level of 100%. This item relates to harassment at my workplace in Canada in 1996. A co-worker called Mark was coming up with phrases and expressions which were repeating things being said at my Canadian residence, consequently leading me to believe that my apartment and home phone were bugged, and that the persecutors were passing their gathered information on to Mark. On one particular evening I said in my apartment, "life is so hard, and then you die". The following day I was able to record Mark saying exactly the same phrase at work.

Unfortunately when "they" know you are recording them, they simply dont say things which would unambiguously show harassment. When Mark the co-worker knew he was being recorded, he only made his remarks out of range of the recorder, for example outside the building. When the TV newscasters or radio disc jockeys know they are being taped, they limit themselves to saying things which are ambiguous, which even in my mind may or may not be personally directed against me.

Who knows about this persecution?

Surprisingly many people know. People in the media, such as BBC and ITN newscasters including Martyn Lewis and Michael Buerk, and radio disc

jockeys such as Chris Tarrant of Capital Radio, know what is going on, and take part in it. Some co-workers at my former workplaces in England and Canada have known about the harassment. Quite a few people in the general public are also included. I believe the police are aware of the persecution, but, unfortunately, have chosen not to take any action to stop it. I have complained at my local police station in London several years ago, and I have stated on the internet newsgroups that I have done so, hence the police will be well aware of my wish to see the matter resolved. I believe their inaction denotes a dereliction of duty, but without good evidence, I am powerless to compel them to take steps to prevent further harassment, or deal with what has already taken place.

What is the purpose of sending these faxes?

These faxes are being sent to three distinct groups of people, namely Members of Parliament, the media, and diplomats & legal people. As you will have observed I am making use of the email-to-fax gateway at Demon Internet to send these faxes. I am forced to use this gateway since I currently live in North America, and cannot afford the high cost of direct phone calls to the UK.

My purpose in publicising my claims is firstly to discourage the persecutors from continuing their campaign, and also to attempt to bring their campaign out into the open, and thus perhaps identify the persecutors. Neither aim has been achieved yet, but I hope that with sufficient stimulation these aims may yet be accomplished.

The problem with the second aim is that those who read this article will fall into two groups, those who dont know anything about the persecution and consequently will disbelieve my claims as delusional, and those who do know about the harassment and may have some idea of who is behind it, but realise that if the harassers are exposed and the truth brought out into the open, then powerful British institutions will substantially lose prestige, and be exposed to ridicule.

It would give me hope to believe that these faxes will create a third group of people, those who find out that I am telling the truth, and who follow their consciences in standing up and seeing justice done. Only time will tell if this hope will be realized.

468. MI5-Persecution: Why do you think MI5 are responsible? (2671)

Newsgroup: rec.radio.amateur.dx
Date: 2007-12-16 11:42:12 UTC
From: MI5-Victim@mi5.gov.uk
Message-ID: <m07111611420982@4ax.com>
Source record: 2239
Cross-posted to: rec.radio.amateur.dx,sci.space.shuttle,alt.internet.search-engines,alt.sex.algore.lick.the.wet.toad,alt.sex.boys

Why do you think MI5 are responsible?

The question of who is ultimately responsible for this eight-year harassment is one which is very difficult to answer, as the persecutors have never clearly made their identities known to the persecutee. However, I believe I am correct in attributing the continuing victimisation to elements of the British Security Service MI5, and in this article, I will try to explain the reasons for this belief.

The British internet magazine ".net" featured my website on page 17 of their March 1998 issue (number 42). Their review kindly describes it as an "excellent site" and gives some details of what the net surfer will find there. Should you wish to reply to this article you can do so;

"When did you first suspect MI5 were responsible?"

Over Easter 1995 I went to see a local solicitor in London with a view to talking to the police about the harassment. Soon afterwards I did go to my local police station in Clapham and spoke to an officer there. The solicitor made a comment which suggested to me that the persecution I had been experiencing may have been organised by an intelligence service.

Up to this point, I did not have any clear idea as to who was behind the harassment. Only their agents were visible, in the media, on television news programmes, and on the radio; in the workplace, where things said at my home were repeated verbatim; and in some cases abuse in public and during travel, for example on the trip to Poland in June 1992 which I have already described.

Both from the fact that widely disparate individuals and organisations were employed as agents in the campaign against me, and from the fact that an entity would be required to marshal their resources in the areas of spying on my home and giving gathered information to their agents, it was clear to me that a single entity was responsible for carrying out the campaign. Yet from June 1990 until Easter 1995 I did not have a clear idea of who might be responsible. I guessed that perhaps some private individual or group of persons who saw themselves as my enemies had perhaps paid private detectives to organise the harassment. Alternatively, since the campaign had started in the media, I made a far-fetched supposition that perhaps it was an ad-hoc group of media people who had set themselves up in opposition to me. After Easter 1995 I saw that these guesses were wrong, and I made an I believe much more accurate estimate as to who my enemies really are.

"Why couldn't a private group be behind the persecution?"

There are several reasons why a private individual or group would not be behind this campaign.

Quantity of resources / Money. Here is what one Usenet (internet newsgroup) participant had to say (several years ago) on the topic of how much money it would cost just to keep the surveillance going.

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more
like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that
makes
PM: >it worth the while of the state to spend over one and a quarter
million
PM: >on you?

A private individual or group would not spend over a million pounds to verbally torture a victim without some financial motive or gain. Private industry is driven by the profit motive, and there is no financial profit to be had from carrying out a campaign in this way. If a private enterprise were behind it then they would have taken direct physical action a long time ago.

State enterprises, on the other hand, can afford to be wasteful, since they are funded by the taxpayer. They do not have to show a money profit. The employees or contractors employed by a state organisation such as MI5 are driven by their own personal profit motives, to make the most money out of their employers for the longest period of time. MI5 is funded to the tune of #150M p.a.; even a few hundred thousand a year would to them be affordable if their managers could convince themselves of the necessity of what they were doing.

Quality of resources / Technical resources - electronic and other surveillance. In summer 1994 a reputable and competent private detective agency was employed to conduct a counter-surveillance sweep of my home in London. They charged us over #400 for this, conducted a thorough search for radio transmitting devices, hard-wired "probe" microphones and also tested the telephone line. They found nothing. This was not altogether surprising, since it had been made very clear to me that there were bugs in my home; the "buggers" would not have made this clear unless they had felt their bugs were of sufficient sophistication as to be safe from

detection.

But there is another lesson to be gained from the failure of the private detectives to find anything. The agency employed was one of the most reputable in London. They were employed on the principle of "setting a thief to catch a thief", for if the harassment were being carried out by private detectives, as I then believed, then surely another set of private detectives would be able to find the bugs that they had planted. That these "private eyes" were unable to find anything, and that the harassers were confident that they would not be able to find any bugs, points to the harassers being an order of sophistication above a private agency, and leads me again to believe that a state intelligence service is responsible for the surveillance and harassment.

Quality of resources / Technical resources - Interception of Postal service. In summer 1994 when I emigrated to Canada to try to escape the harassment, I wrote letters home to my family and friends in London. Quite soon after my arrival in Canada, the harassers were able to find precisely where I was staying. The only way I can see of "their" being able to find out my new address was by interception of my letters to the UK.

Later in 1994, I conducted an experiment to see if my letters home were indeed being read. In a letter home I wrote of being depressed and talked in vague terms of suicide. I deliberately chose this topic, since I believed it was the outcome my harassers were trying to achieve, and that if they read the letter, they would "echo" its contents. Sure enough, soon afterwards there were two incidents of people shouting "suicide" at me in public places in Canada.

It is inconceivable for a private agency to have the ability to intercept postal mail. The state security service on the other hand is well known to engage in these activities.

Quality of resources / Access to Media. One of the strangest aspects of this case is the access "they" have to the broadcast and print media. I still do not understand what could persuade newscasters such as Martyn Lewis and Michael Buerk, who consider themselves "gentlemen", to behave in an almost voyeuristic way by "peeking" into the living room of one of their viewers. A year ago I wrote to the BBC asking if these newscasters would confirm or deny the accusations made against them. The BBC replied that their newscasters had denied the accusations, but refused to do so in writing.

It is well known that MI5 have the ability to plant stories in certain newspapers, but convincing television newscasters to "watch" a viewer while they read the news would surely be very difficult for them to accomplish, unless they presented themselves to these journalists as being, for example, a group in the media who were seeing to it that I got my "deserved" treatment. MI5 has a history of manipulating the media, so it might not be too difficult for them to accomplish such a trick, whereas a private group would not have this ability.

"Have they ever denied that they are the Security Service?"

No. Never. This is in fact the main reason why I believe "they" are MI5 and not a privately funded group. If my guess had been wrong then I am sure that "they" would have crowed over my mistake, but they have never admitted nor denied that they are employees of MI5.

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly.

"If MI5 were behind it, why would they wish to mask their involvement?"

I have heard a number of times a belief from people in the media that it is they, the media people, who are behind the abuse. In spring 1994 Chris Tarrant the Capital Radio D.J. said sarcastically on his breakfast show, "You know this bloke? he says were trying to kill him. We should be done for attempted manslaughter". We, we, we. Tarrant thought it was a media conspiracy.

Returning to the question of "interactive watching" by television newscasters, it would again be much easier for them to take part in that sort of activity if they convinced themselves that the surveillance and abuse were organised by "their own", by media people. It must be second nature to MI5 to mask their involvement in the matters they deal with; in this case, they pretend the campaign is organised by a group in the media, and any journalists who suspect otherwise keep their silence.

Conclusion

Over the last three years I have stated with some force my belief that MI5 are responsible for my misfortunes. I have done so on Internet newsgroups, in letters and faxes to people in politics and the media in the UK, and in 1997 I made a formal complaint to MI5 regarding their activities; the Security Service Tribunal replied in June 1997 that "no determination in your favour has been made on your complaint". (I believe the statement by the Security Service Tribunal can be disregarded, as they have never, ever made a ruling in favour of a complainant.) In three years of naming MI5 as my oppressor "they" have never denied the charge. To me, their silence on this point indicates that my guess was accurate. I believe my persecutors stand identified. The question of why they should carry out this campaign is one I will try to answer in a future article.

MI5 Persecution Update: Friday 15 May, 1998

The persecution has been quite severe for the last week. It appears that my enemies are reacting to the steady stream of faxes making their way over the Atlantic to the fax machines of Westminster politicians and the media. Here is whats happened in the last few days;

The week started off with an incident in the cafeteria at a local shopping centre where I habitually drink my morning coffee. My enemies have concentrated since winter 1995/96 on throwing a particularly horrible sexual slander against me. They "put people up" to repeat this slander against me, and this is what happened again here.

On Thursday morning (yesterday), instead of going to the usual cafeteria I went to a nearby convenience store for coffee. The same horrible sexual slander was shouted at me very loudly by a member of staff as I walked into the store. This was the first time I had ever bought morning coffee in that shop. The other staff obviously knew what was going on, one of them said, "they screwed up my life".

The fax gateway I use to send these faxes to the UK has been working hard these last few days to shut down my access by barring the accounts I use to send these faxes.

I have received an anonymous threat from fax number 0171-219-6101 (the machine gave its name as "ETRA-HoC") which said, "Stop sending to this fax no 0171-219-6101 or else" (the consequences of continued transmission were unspecified). I invited the sender to apologise for his threat, but received no response.

This all adds up to quite a severe reaction to my faxes of the last few weeks. I actually find this quite heartening since it shows that my faxes are finding the mark and there may yet be a breakthrough in my efforts to expose the Security Service conpiracy of abuse against me which has now been going on for eight years.

MI5 Persecution: "Why would they be doing this to you, sir?"

This article will concentrate on the difficult question of "Why". The question which forms the title of this piece was asked of me by the police officer I spoke to in Easter 1995, when I went to make my complaint.

There are really two sides to this question. Firstly, why should MI5 be harassing anybody in this fashion? Secondly, if they choose to behave in this way, why should they have selected me in particular, and not somebody else? Alternatively, why did the persecution start, and why is it

continuing?

I do not have definite answers to either side of this question, since my persecutors have usually kept themselves hidden and only acted through other parties. To know "why", one would have to know who the persecutors are, and something of their personalities, since their abuse is almost certainly symptomatic of a personality disorder of the abusers. Certain things however can be deduced about the abusers from the nature of their behaviour, and I will talk about this later in the article.

Why did it start?

It is clear that the persecution must have been initiated by someone who knew me personally, either at school, or at university, or socially, and knew that I was borderline mentally ill, since this is what makes me a target for the persecutors. Unfortunately, the originators have never been identified, and there are several possible candidates. Neither has the link from the originators of the persecution, to the persecutors themselves, ever been made clear. So who are the originators?

University Staff

The identity of the originators may lie in the timing of the persecution. It started in June 1990, while I was finishing a course at Imperial College in London, and a year after I graduated from Cambridge, where I received a degree in computer science. At Cambridge I had achieved some notoriety in the computer lab from various nefarious exploits. Roger Needham attacked me by saying that "there were great hopes for it, but it failed terribly". When I started at Imperial I found that my reputation had preceded me; Cambridge computer lab had spoken to I.C. lecturers about me. I.C. lecturer Frank McCabe summed up commenting about "setting up a straw man so you can tear him down". (Despite being "torn down" by the Cambridge computer labs lecturers, I still achieved a good first degree and a Masters degree at Imperial.)

Other students at university

So, the originators may have been university staff who knew me from my student days. But there are other possibilities. I had other enemies at university, including some fellow students. At my Cambridge college it was common knowledge that my mental health was dubious, and it was known that I talked to myself in my sleep - the floor and walls were quite permeable to noise, so other students heard. I was given the nickname "gibber" because of this habit. Sometime later, I managed to catch myself talking in my sleep when I woke up in the middle of the night.

Here is a quote from a participant in the internet newsgroup where I have been posting for the last three years;

>One thing which has been missing from this discussion is this simple
>prognosis: that maybe he is right and that, despite his admitted
>mental condition, there really is a campaign against him organised by
>now-influential ex-students of his university.

People I knew socially

I had yet other enemies in 1990 (I am a man of many enemies!). In January 1990 I broke up with some people I had been going out with socially. One of them, by the name of Andy Turner, wrote a letter to Alan Freeman, who at the time was a Radio 1 DJ. Freeman read part of the letter out on his Rock Show, about the "one who wore out his welcome with random precision", saying "thats a hell of a letter you wrote there Andy", and "with a schizophrenic youre never alone".

It is my belief that Andy Turner and his friends were trying to make trouble for me, and Turner wrote to Freeman with this in mind. Freeman may have discussed the letter with others, and things may have snowballed from there. This is, of course, pure supposition. The fact is that I do not know who the originators are, and can only guess.

Once it started, why is it continuing?

The answer to this question is obvious. It is unacceptable to the "powers that be" in the UK to have somebody running around who knows he has been targeted by the Security Service and media organizations, and who is in a position to embarrass British institutions. This has become particularly evident in the last week; as I send more faxes to UK politicians and media, so the pressure on me grows, and the volume of abuse increases.

Part of the reason the persecution continues is in the personalities of the abusers, and it is this subject to which I will turn to next, since the key to understanding the persecution lies in understanding those who carry it out, as much as we can.

The Security Service operatives, the persecutors, are they psychopaths?

Let us first examine the definition of the term "psychopath". DSM-IV defines "anti-social personality disorder" as a "pattern of disregard for and violation of the rights of others ... deceitfulness, irritability and aggressiveness ... consistent irresponsibility and lack of remorse". The Harvard Mental Health Letter of Sept 1995 describes these people as using "charm, manipulation, intimidation and violence to control others and satisfy their own needs. Lacking in conscience and in feelings for others, they cold-bloodedly take what they want and do as they please", having "no guilt or regret".

I must say, reading this description of the condition, that it fits the persecutors perfectly. The persecutors have never shown the slightest remorse or guilt. Even when I was severely ill, they continued to abuse me. They have repeatedly blamed their actions on me, which is another trait common amongst psychopaths. They have no respect for my legal or personal rights, and they use intimidation and verbal violence.

If the MI5 operatives are psychopaths then it would explain both why the persecution started, and the degree of verbal violence. Psychopaths by definition damage other people; here, the MI5 operatives find an outlet for their personality disorder, through "cripple-kicking".

Xenophobia on the basis of mental illness, and race

My enemies have made clear many times that one of the reasons they are persecuting me is because of my admitted mental illness. However, it is my belief that they are also persecuting me because I am not of ethnic English origin, and the fact that there have been several incidents of an overtly racist nature reinforces this view.

In one case, two youths on a tube train in London made openly racist references to me as a "soft toy, not up to British Standards". Another person near my home made remarks about "Polish people". In yet another incident in Croydon, a youth made comments about "foreigners".

But the main thrust of their xenophobia is because of my mental illness. I should make clear that I do not look ill; if you met me, you would not know that I had the illness. I take a relatively low dose of medication, and feel quite well. But the persecutors have repeatedly harped on about my supposed serious mental illness; they have called me a "nutter", a "schizophrenic", etc. They have also persuaded other people to use these terms of abuse. They are able to get away with this because abusing the mentally ill is still something which is mostly acceptable in Britain; the media do it, "nutter" is not taboo in the way that "nigger" is.

Conclusion

There are several groups of people who might have wished to cause me trouble, and I still do not know who originated the persecution. Nor do I know how the originators came to be in contact with the (presumed) Security Service operatives who have been carrying out the campaign. To know conclusively why it started, we would have to know who started it, and this information is not available.

However, we can infer some things about the personalities of the persecutors from their methods, and from the degree of verbal violence they employ. It is clear that a main reason for the continuing harassment is the psychopathic disorder of the MI5 agents who carry it out. That they have never been "brought to book" for their misdeeds reinforces their belief that they do no wrong; and, unhappily, until they are brought to book, their persecution campaign looks set to continue.

MI5 Persecution: .net Magazine Applauds my Website

The March 1998 issue (number 42) of .net Magazine reviews the MI5
Persecution website describing it as an "excellent site". The webpages
describe in detail the nature of my persecution since 1990 by what are
believed to be elements of the UK security service.

(snip image)

You are encouraged to read the web pages which include

o a FAQ section outlining the nature of the persecutors, their methods
of harassment through the media, people at work and among the general public
o an evidence section, which carries audio and video clips of media and
workplace harassment, rated according to how directly I think they refer to me
o factual descriptions of the state security agencies involved
o scanned texts of the complaints I have made to media and state security agencies involved
o posts which have been made to netnews over the last three years on this topic

MI5 Persecution Update: Friday 13 November, 1998

If You Intend To Reply, Please Read This

If you have any questions or observations you would like to share with me, then you are very welcome to reply to my fax number 0171-681-1190. But please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. I do not know if he had anything intelligent to say in his 20-page fax because I applied judicious use of the "Delete" key on my computer. Faxes over a page or two will be deleted without being read.

MI5 Resume Hostilities in Response to these Faxes

When I wrote last weeks "MI5 Persecution Update" I remarked how quiet my life had become. No longer! MI5 have restarted hostilities with a vengeance the past week, in response I believe to the faxes I have been sending to members of the House of Commons.

On Saturday 7 November I went to Clapham Picture House cinema to see the film "Antz" (a very enjoyable film). At the cinema, I was verbally assaulted by a group of teenagers with the words "still crazy", repeated about ten times. There was a film with that name showing at the cinema, but it was clear their abuse was directed at me. I do not look ill, so why would they pick on me? answer, the incident was set-up by the persecutors. One of the teenagers also said to another, "I don't know what we're laughing at".

The following day, Sunday 8/11/98, I was on my way to play squash when I was verbally assaulted by a youth who said "it was so funny", without the slightest trace of humour. What he meant by this phrase was that was funny, and they were trying to humiliate me. I have heard this phrase "it was so funny" used at me before many, many times over the last eight and half years.

Please Encourage Keith Hill MP to Help Me

I live in a bugged house, bugged both for audio and video. My movements are monitored by MI5. The Security Service have followed me to Canada, to Poland and the Continent, to the States. I cannot work anywhere, not in England, not in Canada, because MI5 will destroy whatever employment I am able to obtain. I have asked Keith Hill MP to help me, and he has refused.

The situation is intolerable. It is Mr Hills job to help me out of this mess. So, please, as I said in the last fax a week ago: Do not waste your time returning multiple copies of my faxes to my fax mailbox, as some of

you have done. Instead;

Please encourage Keith Hill M.P. to help me.

I am sorry to be using this device to encourage Mr Hill to help, but I think eight and half years are quite enough and it is time something was done to bring this matter to a close.

MI5 Persecution : BBC Newscasters Spying on my Home

This week's topic is the quite extraordinary claim that BBC newscasters such as Martyn Lewis and Michael Buerk have spied on my living room while they read the news. I currently have an advert running for the next six months in Private Eye's "Eye Say" column (at a cost of over ₱200) which says,"MI5 Persecution - BBC Newscasters Spying on my Home"; the story of my campaign in the Eye is on my Website at; http://www.pair.com/spook/evidence/plaint/priveye.htm

BBCs staff magazine Ariel also ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm

Beginnings

The very first incident in the "MI5/BBC Persecution" occurred in June of 1990, when a newsreader reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

Most of the "TV watching" has occurred on the news, and most of it in summer 1990, although some as late as autumn 1993. My website has a few extracts of what might be politicians "getting at" me, in particular John Major and interviewer Dimbleby sharing a joke about the "Knutsford Guardian" which is almost certainly about me.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

Examples of Media Harassment

Here are a few examples which I can still remember of media harassment;

In early 1992 I was watching the BBC news with Martyn Lewis on a small black-and-white portable television at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

Victor Lewis Smith in his TV (BBC2?) program at the end of 1993, had a taxi-driver saying, "theyre all out to get me", to which VLS replied, "but you're quite intelligent aren't you?" (what a nice chap VLS is, compliments no less!)

Paul Daniels the TV magician, sometime in 1990-92 (sorry I can't be more precise but it was so long ago), made a "crying face" and put his face in his hands, which was his way of expressing that I was frequently crying in 1990-92, and that he and other media people found my crying funny.

Kenny Everett (deceased) on some talk show, compared me to a "huge ape" who "scratches himself"; he made some other remarks about what the "ape" got up to which unfortunately I cant remember. (I remember that Everetts comments were quite sympathetic and human, but were obviously about me.)

Stephen Fry on another talkshow (Wogan I think) talking about "masturbatory fantasies", he then referred to me with the words "you prat"; I wonder if the studio audience knew what he was talking about and to whom his comments were directed?

Griff Rhys Jones on Clive James' TV show, made a "lunatic face" (wide fixed grin) to which I said to the TV that he had a "face like a horse's arse", to which Clive James said to GRJ "did you hear that?"

Crimestoppers summer 1990, remarks by a Midlands police officer on the programme, while Nick Ross was presenter (as far as I can remember). The officer talked about "in car entertainment". Nick Ross said to officer, "why don't you stop doing it?" to which he replied, "we can't while he's like this".

BBC2 Newsnight in autumn 1993 had a piece on football hooliganism. A black interviewee said apparently of the hooligans, but in fact of me; "they're just idiots, carry on with the surveillance".

There was an incident with Jonathan Ross which I remember clearly; he was on both BBC and ITV television at the same time, one (ITV I think) was recorded, the other channel was live. Ross has a speech impediment which causes him to pronounce his "r"s as "w". I sarcastically said something about "Mr Woss" to the recorded channel, then turned over to where he was live, and he repeated "Woss" with heavy emphasis and sarcasm.

On the radio, in spring 1994, Chris Tarrant made a sarcastic remark in his morning show, saying "he says were trying to kill him, we should be done for attempted manslaughter", to which another of the studio staff said, "oh no, dont say that". His comment was in reply to a comparison Id made the previous evening between my persecutors and the Polish secret police who murdered dissidents.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "interactive watching". They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

I can understand that they might think that if they were to make written denials to me, then many other people with my condition might write to them with similar questions. But Ive asked a couple of journalists if theyve been writing about me, theyve made written denials, Ive believed them, and I have not put their denials on my website because, since I believe their denials, it would not be relevant to publish them.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

One of the strangest aspects of "TV watching" is that Buerk and Lewis have convinced themselves that their "interactive spying" is reasonable behaviour. Martyn Lewis thinks of himself as a "gentleman". He expressed in 1992 that he was "on my side". If this matter ever comes out into the open, I wonder what these newscasters will have to say for themselves, and what the British public will make of their behaviour?

Media Persecution Evidence on my Website

You may directly access the Evidence section on my website at URL;

The category currently contains four video segments, a number of audio files and three published articles. The first video of ITN's John Suchet is unfortunately a mistake - after looking at it again it is obviously not about me. The two Ken Clarke excerpts may or may not be about me; it is funny that he should keep on harping about "paranoia" and "madness", but I have given these ratings of only 30% certainty, as it is more likely that they are not about me in particular, and Clarke is simply displaying the normal prejudices against the mentally ill found in much of society.

The piece I find most interesting is the Dimbleby/John Major interview from April 1997. I have assigned this a 90% rating. Dimbleby starts by emphasising a report from the "Knutsford Guardian". Major recognizes what's going on and joins in with a falsely apologetic "heaven forfend". The emphasis is on the first syllable pronounced "nuts" in "Knutsford", which is repeated three times. Of course this is hardly anywhere near convincing evidence; the really clear items were all in 1990-92, and they are basically unobtainable now.

If you're reading the website, have a look at the two files from David Hepworth's programme on GLR radio. The first one from 21/Feb/1997 has him

talking about an "embarassment" of prizes and "absolute obscene", in reference I believe to the verbal sexual abuse that was being used against me at the time (and which unfortunately is still current). In the second file dated 9/May/1997 he again talks about "absolute embarrassment" of prizes, followed by laughter. To my mind he knows I am listening to his programme, and deliberately makes these remarks for my benefit, with very little attempt to disguise their purpose.

Bernard Levin - "Fanatic's Fare for the Common Man"

On 21 September 1991 this article by Bernard Levin appeared in The Times. It is reproduced in the Evidence section of the website, or may be accessed directly at URL;

To my mind, Levin's article described the situation at the time and in particular a recent meeting with a friend, during which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of harassment over the previous year and a half.

Levin writes about a "madman running loose about London" who "bursts into tears, and swears it is all true. And it is." I am pleased to agree with his assertion that "it is all true" because the truth is what I presented to my friend in September 1991 and it is what is being presented to the readership of these articles now.

Conclusion

The harassment, in particular media persecution, was at its strongest in 1990-92. Today, I am recording everything I watch, read and listen, and the media have pretty much given up. It is now incidents "in public" which make up what there is of MI5s persecution. But much of the material from 1990-92 still exists in archives, although the organisations which have those archives generally wont make the material available to the public, for copyright and other reasons.

MI5 can no longer employ the media to persecute me, partly because journalists now know who is behind the persecution, and also because I would publish any instances. My mistake during 1990-92 was to not record instances as they happened; Ive learned from that mistake, and know better now.

MI5 Persecution Update: Friday 19 March, 1999

If You Intend To Reply, Please Read This

Please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. Faxes over a page or two will be deleted without being read.

Theyve started again. Why? I have no idea.

Unhappily, the persecutors, whoever they might be, have started their activities again over the last two weeks. Usually they try to blame their activities on their victim, but this time they have stopped even pretending that the persecution is my fault. Their verbal abuse appears as gratuitous as it is vicious.

Last Sunday 14 March, I went for a meal in Londons Chinatown with some friends. As we were walking down Gerrard St, a man shouted loudly, twice, the obscenity which has been directed at me for some three years now. This followed previous incidents where the same words had been used. It is very upsetting to be verbally abused in this way and to know that the cowardly abusers are guaranteed to "get away with it" because if you report it then it will be assumed to be part of your illness.

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Persecution : How to Identify the Persecutors

Usually delusional thinking does not allow the perpetrators to be identified, or the alleged persecution to be proved. My so-called "delusions" are different, because I have several times over a period of some nine years seen the same people, in widely varying places. Most importantly, their names have been recorded, on aircraft passenger lists and hospital register; and if only the police would do their job conscientiously then the persecutors could be identified and this unhappy story brought to a final conclusion.

BA93 Heathrow->Toronto, 10 June 1993

In 1993 I flew to Toronto for a holiday. On disembarking from the aircraft, a group of four men who travelled together looked in my direction, and one of them said, laughing, "If he tries to run away well find him".

I was absolutely stunned when I heard this. I wasnt surprised that they had followed me to Canada, but it shocked me that they had been on the

same flight, and that one of them had foolishly given their group away. Unfortunately I was so stunned that I made no attempt to stop them as they got off the flight and proceeded into the terminal. I did not see these people again during my visit to Toronto. I do not know whether they followed me, or whether they were only part of a larger group, some of whom may have already been on the ground and awaiting my arrival.

Over the next few years I made a number of attempts, all unsuccessful, to obtain the passenger list for this flight. British Airways keeps passenger flight coupons for each flight; so if only the police would do the job that is being asked if them, then these four persecutors could be identified, and thus their employing organisation, which is very likely to be the Security Service, determined.

These four men were, apart from the joker who looked the odd man out in the pack, very serious individuals. They appeared to be in their forties or fifties, and my impression on seeing them was that they might have been former soldiers. Their campaign against me concentrates on how "funny" their abuse is; but in this they are plainly lying, because they realise how awful will be the damage to the establishment of which they form part, if the truth about the persecution ever sees the light of day.

The riddle of "Alan Holdsworth"

During Oct/Nov 1996 I saw a doctor several times about an infection, and on 2 Nov 1996 I went to Emergency at the Ottawa Civic Hospital and saw Dr Worthington, who was then Chief of Emergency Medicine. I had to wait several hours before being seen, and several people jumped ahead of me in the queue. One of these was a grey-haired man in his forties or fifties. This may have been one of the men on the BA flight in 1993; I cannot be sure. When Dr Worthington asked his name, he loudly said, "Tad", which is the common abbreviation of my name. Dr Worthington looked puzzled, glanced at the sheet in front of him, and said, "but your name is Alan Holdsworth isnt it?". (I am pretty sure his Christian name was Alan; I cannot be sure of the surname). The man looked put out, and said quietly, "yes".

Unfortunately, I did not follow up this incident immediately. Some time later, I wrote to Dr Worthington to ask the name of this patient, but he refused to give the name out.

I saw this person again two and a half years later, at Ottawa Airport, just as I was about to leave for England. In the warm weather, he was wearing a coat and woolly cap, and pacing up and down in a menacing and aggressive manner. Presumably he thought he was pretending to be a "nutter" and in this way was getting at me; my impression is that he doesnt need to pretend, Holdsworth or whatever his name is is clearly a psychopath and in a healthy society such a person would be locked up, instead of being paid public money to exercise his psychopathic instincts. But todays Britain, a country where the MI5 secret police are given free rein and nobody dares raise a voice in protest, is not a healthy society.

"He doesnt know who we are"

For some reason, whenever I take a British Airways flight, I get hassled by the "persecutors who wont admit theyre MI5". Since this business started, I have travelled BA three times; once in June 1993 BA93 (see above), once to/from Europe during Dec 95/Jan 96, and once in June 1998 with my mother to visit her family. The last journey, I was abused by two "plants" who kept repeating, loudly, "paranoid" (I have this recorded on minidisc). Presumably British Airways gives MI5 the seating plans for their flights, which allows MI5 to position their agents of abuse three rows behind me, so I cant face them, and they are throwing abuse at the back of my head. I have travelled BA as infrequently as possible; to Canada, I usually travel Air Canada.

Anyway, lets return to the second of the three BA trips, and in particular to the flight on 2 January 1996 from Berlin Tegel, to Heathrow, and onwards to Montreal Mirabel. Id waited all night at Tegel for the flight, and was very tired on reaching Heathrow. On the plane to Montreal, two youths sat about three/four rows behind me and to the right, in the window seats. One of them, a rather fat "asshole" to use the Americanism (it fits), kept on going on about "this bloke", saying among many other things, "he doesnt know who we are".

Now that form of words is particularly interesting, because from May 1995, some 8 months previously, I had been vigorously denouncing the "MI5 Persecution" on Usenet. So if Id guessed wrong, then you might expect the harassers to crow about it; which they have not done. If I had guessed right, and the persecutors have been silent before and since this flight, then they could either admit they were MI5, which would be a very serious thing for them to own up to, or they could brazenly lie, in which case I would report their lie, and since many people must surely know who they are, they would lose all credibility. So they have remained silent; apart from this one phrase on the BA flight, where one of their agents said, "he doesnt know who we are". Note carefully that this phrase is NOT a denial, it only appears to be a denial; since it does not say that my guess was wrong; it only states the objective fact that I do not know the identity of the persecutors, without giving any information as to the validity of my guess. Which leads me to posit that my guess was correct.

MI5 Persecution Update: Friday 25 March, 1999

If You Intend To Reply, Please Read This
Please.... keep your response to one page if you can!. Faxes over a page or two will be deleted without being read.

The Usual Words

The persecutors-who-wont-admit-theyre-MI5 have been active again this week. On Saturday 20/3/99 I visited Ravenscourt Park in west London, and was verbally assaulted with the usual words, "something wrong with him". This audio file is on the web at URL;

This afternoon (Friday 26/March) I was again verbally assaulted while travelling by bus. The same sexual obscenity was thrown at me, and the incident was recorded on my minidisc-walkman. Because of the deeply offensive nature of the slander, I will not be posting this on the website.

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Persecution : Browse Website

The March 1998 issue (number 42) of .net Magazine reviews the website describing it as an "excellent site". Since August 11, 1996 over 50,000 people have browsed this website.

You are encouraged to read the web pages which include

a FAQ (frequently asked questions) section outlining the nature of the persecutors, their methods of harassment through the media, people at work and among the general public

an evidence section, which carries audio and video clips of media and workplace harassment, rated according to how directly I think they refer to me

objective descriptions of the state security agencies involved

scanned texts of the complaints I have made to media and state security agencies involved

posts which have been made to netnews over the last four years on this topic

This article outlines what is to be found on the webpages, which you are encouraged to browse for the complete story.

Frequently Asked Questions

Your excursion through the website starts with the "FAQ - Frequently Asked Questions" portion. MI5s campaign of harassment against me has been going on for almost 9 years, and its longevity and breadth is reflected in the FAQ. Many thousands of people in Britain and abroad, including some recipients of this fax, have known for many years of MI5s activities against me. The FAQ describes the mass "Omerta suppressing its publication"; we pretend Britain is part of the "Free World", yet the British Secret Police, which is what MI5 are, carry on for many years a campaign which politicians and the media know about, and rely on the silent complicity of so many thousands of people.

The FAQs introductory article names those who are "in the know"; media figures like Martyn Lewis, Michael Buerk, entertainment figures like Chris Tarrant, politicians and many in the general public, "all united in a conspiracy which breaks the laws which the UK does have regarding harassment, and all completely uncaring for any semblance of decency or elementary respect for individual rights.

Broadcast media play a key role in the harassment. The very first incident in June 1990 was when a television newsreader reacted to what she saw happen in my living room at home; such incidents of "interactive television" are still happening in 1999. The same goes for radio stations such as Capital FM. In spring 1994, Chris Tarrant on his Capital morning show made an aside to someone else in the studio, about a person he didn't identify. He said, "You know this bloke? He says we're trying to kill him. We should be done for attempted manslaughter". Tarrant and Capital have made strenuous efforts to avoid answering this charge.

Perhaps worst of all, MI5 have deliberately set-up many incidents in public places such as tube stations, shops, cinemas, where they have paid people to throw abuse at me. Since MI5 obtains funds to the tune of 160 million a year to fund its criminal activities, it has funds both to pay its operatives and to "buy" media figures and members of the public to take part in its campaign of persecution.

The Security Service are professional liars. They throw slanderous abuse, yet they refuse to admit out loud that they are doing so. When challenged about their activities through the Security Service Tribunal they lie and deny their activities. They induce other workers and managers at places of employment to take part in their campaign of abuse, presumably by buying them in the same way they buy media figures.

Complaints, and Press Coverage (BBC Lies, MI5 Lies)

As you might expect I have challenged both the Security Service, through the Security Service Tribunal, and offending broadcasters, to own up to what they have been doing. And as you might also expect, all of these people have lied through their teeth. Still worse, they have refused to commit unambiguous lies on paper; they have couched their lies in bureaucratic language, and allowed others to make false assurances and tell lies on their behalf. So when their lies are exposed, they will then tell further Clintonesque lies about how they werent really telling lies in the first place!

On 6/Feb/1997 the BBC told me they would "never engage in any form of surveillance activity such as you describe". The BBC told me Buerk and Lewis had refused to put their lies in writing, but had stated verbal falsehoods denying my accusations of "interactive watching" during news broadcasts. Clearly Buerk and Lewis fear being caught and exposed, so they hide behind their Viewer Correspondence department.

In March 1997 I issued a summons against the BBC to try to "smoke them out". This summons was struck out as "disclosing no reasonable cause of action", because I had acted as a Litigant-in-Person and most LiP summons are treated thus. My case was arguable in law, so the striking out was unjust.

In June 1997 the Security Service Tribunal wrote to me regarding the complaint I had brought against MI5 in February. They say, "The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint." I think you can guess the contempt which I feel for the Security Service Tribunal, who have never made a determination against MI5, and act as merely a whitewashing body for the Security Service. Unsurprisingly in May 1997 the Interception of Communications Tribunal gave the same result.

The last few items of "Press Coverage" give details of mentions of the MI5 Persecution in various magazines and newspapers such as BBCs Ariel, the Observer and .net magazine.

Evidence

Some audio and video clips of evidence have been recorded. My weakness in this area is because most of the really unambiguous evidence would have been obtainable in 1990-92, but I wasnt taping anything at the time, and its very difficult to now obtain recordings from that period.

The audio clip "Life is so Hard" relates to harassment at my workplace in Canada. In the latter half of 1996, I was sitting near to co-worker Mark Lee, who kept coming out with words and phrases which showed MI5 were supplying him with data from my home life. For example, I would say something on the telephone at home, and the following day he would repeat verbatim what I had said. When Mark Lee saw I was recording what he was saying, he started to make his remarks more ambiguous, or make the obvious ones out of earshot of the recorder.

However, during the evening of 12 November 1996, at home in my apartment (flat to you UK-ers), I said "life is so hard, and then you die". A nihilistic, negative thing to say, but quite distinctive. The following day, 13 November, Mark said loudly, "life is so hard eh, and then you die" followed by loud laughter. I captured this on my tape-walkman and the computer-audio file is posted on the website.

There are a number of other audio files in the websites "Evidence" area demonstrating the abuse to which MI5 subject me to through their paid agents.

Also in this section is a very interesting article by journalist Bernard Levin, which followed a meeting I had with a friend in 1991, and to my mind describes in some details Levins "artists impression" of the meeting. He talks about a "madman" who "bursts into tears, and swears it is all true. And it is."

Internet Newsgroup (Usenet) archive

From May 1995 until the present day, this matter has been discussed exhaustively on internet newsgroups. The most interesting articles from the first two years of posts are documented here. This area is worth reading since most of the questions which the reader would ask, have been asked at some time or another by someone on usenet. Perhaps the very first article posted sums it all up so succinctly;

Date: Thu May 4 18:27:24 1995
Newsgroups: alt.conspiracy
Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?
Well the country which brought Orwell into the world has made his nightmare follow into the world after him. Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their victim.
And the most remarkable thing about it is that what they do is not even illegal - the UK has no laws to protect the privacy of its citizens, nor does it proscribe harassment or abuse except in the case of racial abuse.
A lot of people in England know this to be going on, yet so far they have maintained perfect "omerta"; not a sound, not a squeak has escaped into the English press, and for all the covert harassment absolutely nothing has come out into the public domain.
Have the British gone mad? I think we should be told.

So how much deeper will the persecutors-who-wont-admit-theyre-MI5 sink in their campaign of lies and intimidation? Each time I thought they could sink no lower, they have managed to surprise me. You thought it could never happen here? When the MI5 British Secret Police make their smears against me, it is the corruption of the Establishment, which they are part of, that is demonstrated.

BBC newscaster Nicholas Witchell cant stop himself laughing

During 1990-91 there were very many instances of "interactive television" where newscasters and other TV presenters saw on a screen before them what was happening in my home, and reacted, frequently by laughing at me. During this period I unfortunately did not record these programmes. For the last year or two, I have been recording everything I watch, and there has been a drastic decrease in such incidents.

However, on occasion, television presenters do still engage in "interactive watching" and react to what they see. This has been evident with Jon Snow of Channel Four News recently - a particularly interesting case, since it has been established that he cannot be corrupted by money (it is well-documented that MI5 offered him a tax-free salary and he turned them down). I wonder what device MI5 are using to encourage him to do the "interactive watching"?

On Saturday 10 April 1999 at 7pm, Nicholas Witchell on BBC2 News reacted when he saw that I was watching the programme, and I have his reactions stored safely on videotape. I have watched this tape several times and I am entirely confident that my evaluation of his reactions is correct. For several minutes his upper lip quivered in mirth as he attempted to keep a straight face. Then finally his self-control evaporated through the excuse of a weak joke and his face collapsed into a grin.

The strange thing is that I dont know why he was laughing at me, what I had done recently to "deserve" to be laughed at. The MI5 persecutors usually manage to invent some justification as to why people should laugh at and/or abuse me ("hes an X", "it was so funny" etc), so Mr Witchell could have been laughing for any number of reasons. Perhaps he found the views I have been expressing in these articles amusing? I suppose if youre paid enough money and ordered to laugh then even the most innocuous thing becomes funny.

Jon Snow of Channel Four News cant stop himself smirking, either.

On 12 February 1999 I was watching Channel Four News presented by Jon Snow. As usual, I was recording the programme, so that if anything out of

the ordinary happened, Id be able to go back and watch it again.

Now, Jon Snow, by his own claim, is uncorruptible. He says he turned down an offer of a substantial tax-free salary from MI5 - they wanted to make him their mouthpiece, and he told them where to get off.

So you will be most surprised to learn that Jon Snow "interactively watched" me that evening, and on many other evenings. Approximately fifteen minutes into the programme, he announced that the US President would be making a live appearance at about 7.30pm; I looked at the clock on the mantelpiece; and Snow saw me looking at the clock, and visibly tried to suppress a smirk.

Uncorruptible, are you, Mister Snow? If not money, then why are you watching me, Mister Snow? Are they forcing you to watch me? Cant you turn the monitor off, Mister Snow?

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

Comparing the MI5 Persecution with German "Final Solution"

It might seem offensive to compare the mass murder of millions of civilians in wartime with the peacetime persecution of merely one person. Yet the comparison has been coursing through my mind for several years now, because the brutality of German intent to "sub-humans" is very much comparable to the brutality of British intent to someone they vituperate and term "not up to British standards". The methods may differ, but the persecutors mindset is the same.

The Germans first targeted the mentally disabled, too

During WW2 millions of ethnic Russians, Poles, Jews, mentally ill, gypsies and other minorities were rounded up and murdered in purpose-built camps by the German regime, in the name of "racial superiority". Fifty years on, the British Secret Police, MI5, instituted a campaign of mass hysteria; but in their cowardice, limited their activities to one single victim.

It is instructive to note that the early German "cleansing" effort was directed primarily not at Jews, but at the mentally ill. The Nazis set up the T4 project in the thirties to "cleanse" away 70,000 mentally disabled people, including schizophrenics and epileptics. After WW2 the Jews with their media influence used the reaction from the holocaust to roll back anti-semitism in the Western countries; however, the mentally ill are today still a persecuted group in the modern Western world as they were under the Nazis (the current Jewish home secretary in the UK intends to bring in laws for incarceration without any criminal charge for some mentally ill people - he protects his own minority, but does nothing for the other minorities in todays society), and this continuing bias forms a central cause for the current acts of persecution in the UK.

Widespread knowledge of what is happening to the "un-British" minority

In both the German persecution of the thirties and early forties, and the current British persecution, many, many people are well aware of whats happening. There is widespread complicity through inaction of populace; and in a substantial proportion of the mainstread population, the persecution had/has widespread enthusiastic support; yet in both the German case in the 1940s and the British today, the existence of persecution is a mass secret which must be never admitted out loud. In the recent Lawrence case this "secret bigotry" has been termed "institutionalised racism", and that is a very good word for what the British are doing today The persecutory attitudes and omerta regarding them are so deeply ingrained in the national psyche that they define the national mood

During WW2 many Germans knew minorities were disappearing, and through inaction quietly condoned their government's mass murder of "un-German" minorities and inferior "foreigners"; and in the 1990s, similarly, many English people know what the MI5 British Secret Police have been doing, and not only condone it, but actively take part, because of xenophobia against the "un-British" unit minority that is the target of "British" actions. This attitude by the British persecutors has been made explicit through the words "he's not up to British standards"; the British seem to have found their very own "untermenschen" to victimise.

Why these obsessive "holy wars" happen

This type of aggression occurs when the majority is threatened or humiliated in some way, economically, militarily or culturally. In pre-WW2 Germany the threat was primarily economic and military, following Germany's humiliating defeat in the first world war and the reparations it was forced to pay. In modern Britain, one might guess that the majority English who are behind the persecution feel pressured by the swiftly diminishing status of Britain in the world, and the rapidly increasing coloured colonisation of their country, which in time will see the ethnic English a minority in their own land, and their more antisocial elements, unable to reply to the obvious threat, instead project their aggression onto another, weaker, unit minority

In both cases there is a whiff of "holy war" or irrational obsession with the persecution. Certainly the German behaviour fifty years ago bordered on the not-quite-sane, and the current British behaviour towards their chosen victim is strongly tinged with a leave-taking of reason. And the choices open to the victims are the same, since MI5 will never allow me to escape them, "if he tries to run away we'll find him", just like the commandant of Auschwitz telling the new arrivals, "the only escape is through the chimney".

The Victim Will Destroy Us if We Dont Destroy Him First

The persecutors propaganda is the same. Fifty years ago the Germans said, "if we don't do it to the Jews then the Jews will do it to us"; and MI5's propaganda in the early nineties concentrated on their victim as a "monster" aesome "untermenschen" minority.

"We are decent fellows" say the Brutal Persecutors

During the course of researching this article I read part of the very interesting book, "Hitler - A Study in Tyranny", by Alan Bullock. This volume contains a quote from Himmler on the "Final Solution";

"Most of you know what it means when a hundred corpses are lying side by side, or five hundred or one thousand. To have stuck it out, and at the same time .... to have remained decent fellows, that is what has made us hard. This is a page of glory in our history which has never been written and is never to be written."

In the MI5 persecution, too, there is a thread of deliberate brutality to the sick and vulnerable, while the persecutors maintain that "we are decent fellows". There is almost a conscious schizophrenia in the self-attitudes of the Security Service operatives and those in the public who they employ against me, which reflects the contradiction evident in the German attitude above. On the one hand, they stoop to the lowest and most base behaviour; yet at the same time, the MI5 operatives tell themselves that since they are civilised British people, then surely they must by definition be "decent fellows". Any indecency is made the fault of the victim; "hes making us persecute him, so we need feel no guilt".

Yet the conduct is atypical of the way these peoples see their normal modes of behaviour. Befslaughter was not typical of normal German behaviour up to that point. Similarly, the current MI5 abuse goes against the grain of British self-image as being "reserved" and "decent", since they are using terms of abuse which are common among blacks and other supposedly less-developed races, but not among the English.

Conclusion

The ultimate aim of both persecutions is the humiliation and physical extinction of the persecuted group. The Germans did this in a very direct way; the British Secret Police MI5 are acting indirectly and relying on self-extinction of their target, because in peacetime and in the current somewhat false climate of "political correctness" more direct methods are impossible. If MI5 undertook more direct action the mass "omerta" would be broken.

I have written this article with sincerity to show how a historically recent persecution in another country parallels what is being done in this country today. In both cases, the evil-doers are of their countries establishments, and rely on widespread tacit support to maintain the persecution and omerta around it. While the holocaust was undoubtedly the greater evil, it is important to be aware of the fact that had the Germans not been defeated fifty years ago, their plans would have gone through to total completion. In Britain today no force threatens the "permanent government" of which the Security Service forms a part; and it looks very unlikely that the wrongs perpetrated by the MI5 secret police will ever be revealed to public view, and the British secret state brought to justice for its evil actions.

MI5 Persecution Update: Friday 30 April, 1999

If You Intend To Reply, Please Read This
Please.... keep your response to one page!. Faxes over a page or two will be deleted without being read.

Somewhere between 0 and 100%

The last few days there have been no clear recordable instances of abuse. However, while travelling on the Underground, while walking around near my home and going to friends homes, I am constantly troubled by thoughts that those people over there might be about to get at me; that the couple sitting in the opposite seats laughing are in fact laughing at me; et cetera, et cetera.

A comment by a scientist to the BSE inquiry sticks in my mind. He described the possible scale of the epidemic as "between 0% and 100%". It might not be happening, it might not happen at all, to any discernable degree.... or it might be total. Without clear recording, which seems to have become impossible the last couple of weeks, there is no way of knowing whether the harassment really is continuing, whether we have entered a temporary hiatus, or whether perhaps it has perhaps stopped for now.

But for the time being I think there arent any reasons to dicontinue these faxes. I only re-started them six weeks ago in response to a resumption of MI5 harassment; and I think I will need to be more convinced of absence of persecution before I discontinue my complaints.

The Newscasters are still watching

In the last few weeks there have been at least a couple of fairly overt instances of "interactive watching" by newscasters. I reported this in a previous "MI5 Persecution Update".

These instances are really very rare compared to 1990-91, when there were many dozens of such occurrences. Undoubtedly the reduction is due to my practice of videotaping everything I see. Recently I had the opportunity of showing this years "happenings" (Jon Snow/Nicholas Witchell) to my psychiatrist, and he agreed that in both cases the newscasters were expressing merriment without visible cause, and that objectively it might be possible for my claims to be true - although of course other people reported similar thoughts to him, and this thinking is usually a symptom of illness.

Read About the MI5 Persecution on the World Wide Web

The March 1998 issue (number 42) of .net Magazine reviews the website describing it as an "excellent site". Since August 11, 1996 over 50,000 people have browsed this website.

You are encouraged to read the web pages which include

a FAQ (frequently asked questions) section outlining the nature of the persecutors, their methods of harassment through the media, people at work and among the general public

an evidence section, which carries audio and video clips of media and workplace harassment, rated according to how directly I think they refer to me

objective descriptions of the state security agencies involved

scanned texts of the complaints I have made to media and state security agencies involved

posts which have been made to netnews over the last four years on this topic

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Waste Taxpayer Millions on Pointless Hate-Campaign

Recently I was talking to an independent observer about the nature and purpose of the perceived campaign of persecution against me. The person I spoke to, a highly intelligent man, said he was struck by the utter pointlessness of the perceived campaign against me. He also said that, if my theories were in fact true, many people would have to be involved, in the surveillance itself, and in the technical side of the delivery of information from my home to TV studios for example, if the "interactive watching" were happening as described. He voiced these thoughts without any prompting from me; but both I and other observers had arrived at pretty much the same conclusions, some years ago.

I saw a team of four men at Toronto Airport in 1993

To carry out the surveillance alone, full-time, would employ four or five men, or their equivalent in terms of man-hours. Each man would "work" an eight-hour shift, so you would need at least three men doing the surveillance, plus a connecting link / manager. An indicator that this estimate is correct arrived in 1993, when I was accosted by one of a group of four men at Toronto Airport; he said, laughing, "if he tries to run away well find him". Plainly these were the men who had been involved in the intrusive surveillance of me for the preceding three years.

On other occasions, I have seen the same man on two or three occasions. On one such occasion, at Ottawas Civic Hospital in November 1996; he gave his name to the doctor as "Alan Holdsworth" or some such; my hearing is not very good sometimes and I am not sure of the surname, although I am sure "Alan" was his first name. I saw exactly the same man again in Ottawa, at the airport, in July 1998. Obviously, other people must be "working" with

this person; he would not be the sole agent employed in this case.

Usenet readers views on the Cost to MI5 of Running the Campaign

Here's what a couple of other people on internet newsgroups / Usenet (uk.misc) had to say regarding the cost of running such an operation...

PO: >Have some sense, grow up and smell reality. What you are talking about
PO: >would take loads of planning, tens of thousands of pounds and lots of
PO: >people involved in the planning, execution and maintenance of it. You
PO: >must have a very high opinion of yourself to think you are worth it.

and......

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more
like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that makes
PM: >it worth the while of the state to spend over one and a quarter million
PM: >on you?

Those are pretty much the sort of calculations that went through my head once I stopped to consider what it must be costing them to run this operation. At the very least, a quarter million a year - and probably much more, given the intrusive and human-resource-intensive methods employed. Times nine years. Equals well over two million pounds - and probably much, much more.

Its wasteful for someone with my skills to be unemployed

The wastefulness of the MI5 campaign against me is not just that of futile expenditure on their side. It is also extremely wasteful for someone with my talents to be unemployed and on a disability pension. I am highly qualified in numerate disciplines, yet am unable to work, specifically because of the MI5 hate-campaign against me. It is a terrible waste of resources for a supposedly efficient economy like that of the UK to be squandering the talents of a skilled and capable worker.

I made every effort to remain in employment for as long as I could, but ultimately I was defeated by MI5s employment of massive resources specifically targeted on my workplaces with the sole aim of seeing me

evicted from those workplaces. You might expect this sort of behaviour from the Stasi or some other secret police force in a communist country where labour is cheap, and the governments aim on seeing its citizens confined; but for a supposedly free and efficient economy like Britains, the wastefulness resulting both directly and indirectly from the Security Services activities is simply criminal, and should never be allowed.

The international dimension means the costs are multiplied many times overoer had any sense, then they have surely taken leave of them over the last nine years.

Four years of persecution in Canada

The persecution re-started within less than five minutes of my arrival in Canada, as documented above, and in the "frequently asked questions" article on the website. The words, "if he tries to run away well find him" spoken by one of the harassers at Toronto Airport are now imprinted on my mind.

A year later I emigrated to Canada, intending to find a job and settle there, hoping that MI5s interest in me might dim with time. I did manage to find work there, but my hopes of avoiding Security Service interest were ground into dust. As detailed above, I saw the same man in November 1996 and July 1998, both times in Ottawa. Apart from these encounters, there were numerous incidents between 1994 and 1998 of harassment, of an identical nature and in most cases using identical words to what had occurred in the UK. It became quite clear to me that the permanent surveillance and harassment operation which MI5 had subjected me to in England was being continued.

For a team of four or five men to be employed overseas must cost a lot more than if they operate in their home country. And for MI5 to continue the operation for a period of over four years, continuously, must cost many hundreds of thousands of pounds. This confirms my belief that the state is funding the campaign against mehat the Security Service receives current annual funding of #160M. Divided by 1850 staff, works out at #86,000. But the unit annual cost of each "watcher" must be much higher than this, especially given the frequently mobile and overseas nature of their actions of the last few years. A very conservative figure might be a little over #100,000 pa for each of a team of five people, or half a million pounds per year. For nine years, so far. So the most conservative estimate of the surveillance element alone is perhaps four or five million pounds since 1990.

This guesstimate is of course theoretical - I am not privy to inside details of how MI5 split their funding. But to take some other examples, the cost of a US counter-surveillance specialist per day is USD 5,000. Even if the agents permanently assigned to me are not of this calibre - even if they employ specialists when difficult work planting bugs etc is encountered - their salary and support costs must still be very high. The individual agents are doing well for themselves as they are well-paid to exercise psychopathic instincts which in any sane society

would see them in prison; but the taxpayers who must fund this terribly wasteful exercise are being "done" out of hundreds of thousands of pounds each year.

It must be emphasised that the above estimates are highly conservative. Besides the surveillance operation, it must carry a high cost in man-hours to propagate covert slanders through the population; to setup and maintain the "interactive watching" links to TV and radio stations, which these organisations continue desparately to "lie and deny"; and to induce antipathy in co-workers which would not otherwise exist.

Why they are wasting Millions of Pounds on a "Nobody from South London"

As remarked in the prologue to this article, it is really most extraordinary that the Security Service spends a chunk of its budget, every year for nine years so far, on a meaningless campaign against a "nobody from South London". That they are spending such a large amount of money has been confirmed to me on several occasions, usually by oblique references to "its costing this country millions". The supposed "logic" behind the persecution is that MI5 wish to avoid their harassment of me, and the involvement of the UK media, to be made public; yet as the reader will appreciate that is a circular argument, "theyre doing it because they want to keep it secret and avoid humiliation for themselves and their country" begs the question, "why did they start doing it in the first place?", to which in truth I myself do not know the answer.

Plainly MI5 with its rich budget can afford half a million pounds a year to waste on a "nobody from South London". Some time ago I was talking to a British surveillance professional on Compuserve who told me "this work costs a lot of money and is usally because the person I am following has done something (usually criminal) to warrant all this money and time being spent." Yet in this particular case it is plainly not the "victims fault" that the harassment is taking place. The hate-campaign against me is completely the creation of the obsessive psychologies of the MI5 agents who have made themselves my persecutors; it is obviously a "personal" campaign for them, and for years they misuse taxpayer funding to feed their insane, unnatural and fixated fantasies.

Four Years of "MI5 Persecution" Posts on Internet Newsgroups

For approximately the first three years of the MI5 persecution, from June 1990 until late 1992, I kept as quiet as possible, in the hope that by not reacting, MI5s interest in me would decrease and they would simply go away of their own accord. This is the sort of behaviour some people employ against bullies; if the bullies arent getting a reaction, then they might simply go away and victimize someone else.

Unfortunately, this tactic didnt work. The quieter I became, the more shrill and hysterical the noise from the Security Service operatives. For about two years I didnt watch TV news at all. Yet this only heightened their obsessed fixation; they continued to follow me wherever I went, they continued to induce harassment at work by managers and fellow workers, and they continued to encourage me to commit suicide. They seemed to regard my refusal to react as a crime which they would have to "put right" by ever more extreme forms of abuse.

Finally, in 1995, I changed tactics radically. Since late 1994 I had had accounts with internet providers in Ontario, Canada. I discovered the cornucopia of internet newsgroups, on every topic from consumer electronics, to politics and legal topics, and I discovered online services such as Compuserve and AOL. In May 1995, I made the first posting to the conspiracy newsgroup, on the subject of "BBCs Hidden Shame".

BBC's Hidden Shame

The internet newsgroup discussion, which has now reached its fourth anniversary, started with an article in alt.conspiracy, which I reproduce here.

Date: Thu May 4 18:27:24 1995
Newsgroups: alt.conspiracy
Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?

Well the country which brought Orwell into the world has made his nightmare follow into the world after him. Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their "victim".

And the most remarkable thing about it is that what they do is not even illegal - the UK has no laws to protect the privacy of its citizens, nor does it proscribe harassment

or abuse except in the case of racial abuse.

A lot of people in England know this to be going on, yet so far they have maintained perfect "omerta"; not a sound, not a squeak has escaped into the English press, and for all the covert harassment absolutely nothing has come out into the public domain.

Have the British gone mad? I think we should be told

At this point, I did not name MI5 as my persecutors. I was still unsure that they were the ones responsible for the "psychological terrorism". In followup posts however I did name them; and the persecutors have never denied the claim; so I think my guess is valid. (The Security Service Tribunal in 1997 have said "no determination in your favour was made", but it is a well established fact that MI5 lies routinely to the Tribunal which has never found in favour of a plaintiff, so no conclusions can be drawn from this.)

This first post was made to alt.conspiracy, but further posts were made to the UK-local newsgroups, in particular uk.misc but also uk.legal and uk.politics (which is now called uk.politics.misc). Some time ago I tried to take the battle to the Compuserve forums, UKPOLITICS (which is now called UKCURRENT - current affairs), but my articles were censored by the forum operators. Such censorship is impossible on the internet newsgroups.

Police Refuse to Act

I have complained several times to the Metropolitan Police, who have each time refused to help.

bu765@torfree.net "Mike Corley" writes:

>Last Easter (1995) I went into the local police station in London and spoke to
>an officer about the harassment against me. But I couldn't provide tangible
>evidence; what people said, in many cases years ago, is beyond proof, and
>without something to support my statements I cannot expect a police officer to
>take the complaint seriously.

This in itself dos not suggest that the police have it in for you. The old bill operates on extremely tight spending limits forced on them by that pillock Michael Howard, and without evidence, they often have higher priorities than chasing something that cannot go to court.

I doubt that the police are actually being leant on, but they probably realise that if they looked into this, they would be leant on hard. The met always stays away from anything that looks like it has Defence, Security or secret service interest already, because they realise that they are below these government agencies in the general

pecking order.

If I walked into my local nick and complained that MI5 were snooping on me, they would show me the door without even looking at my evidence, because that bored desk seargant with only five years to go before he retires doesn't want to start fucking about with somebody who has incurred the wrath of Stella Rimington. He would rather deal with the lost dogs and driving licence producers, eat his cheese and pickle sandwiches and piss off home at the end of his shift than have some high ranking spook having a go at his boss and getting him a bollocking.

In short, you have earned much sympathy but little surprise. Just remember that saying about the enemy of your enemies.

Most recently, I wrote in March 1999 to Charing Cross Police Station CID. They did not acknowledge or reply to my letter. When I phoned them up, the detective Id written to treated me to a sadly not unusual display of police bigotry, with an uneducated rant about "your paranoid rubbish".

It would be nice to think that such uneducated bigotry is something other than wholly typical of police behaviour, but unfortunately that is an illusion that is rapidly dispelled.

Uncorruptible Jon Snow of Channel Four News

From previous articles the reader will know what I think Jon Snow has recently been watching me while he reads Channel Four News in the evening. Recently I digitized a few moments of one such broadcast, where his face twists into a smile, without there being anything in the news broadcast to cause merriment. Here is a usenet post from some time ago on MI5s "bought and paid for" tools in the so-called "free" press.

Peter Harding (harding@ermine.ox.ac.uk) wrote:
: I was at speakers' corner on Sunday. There was one chap who was bellowing
: about something or other, I don't know what, but one thing he said to
: someone caught my ear:

: "BBC, MI5, same thing."

Can't disagree with that sentiment.

Wasn't it documented that MI5 sometimes "bought" journalists and broadcasters?
I remember reading a report by some jouralist who had been offered an extra
tax-free income by MI5 to become their covert mouthpiece, and had refused.
.....
> : >mouthpiece, and had refused.
> :
> : It was Jon Snow of Channel 4.
>
> Was it reported in any of the papers?

It has been reported several times. The most recent was in Private Eye, a few months back. As I recall they also wanted information from him; journalists would be a natural choice for members of the Security Service and the Secret Intelligence Service for information sources.

> It might be interesting to see what he had to say regarding their
> attempt to recruit him.

He was most concerned that many others would have accepted such an
offer. However, we can probably make an educated guess as to some of
those who accepted: Nigel West (Rupert Allason, MP) and Chapman Pincher
would come near to the top of the list.

Corrupt Security Service agents steal millions from taxpayers

Money is of course a factor in the grand equation which is the MI5
persecution. It costs money for the Security Service to "buy" people in
the media etc. But that is only a small part of their expenditure of
taxpayers resources. Most of the expenditure is directly on the salaries
if the agents involved; and in this post I put forward the theory that MI5
are trying to draw out their involvement for as long as possible, very
cynically, to maximise their income and line their own pockets.

At each stage they have tried to pretend that I am something out of the ordinary.
Either I was very stupid ("he's an idiot") or very clever ("he's like a genius").
Either I was a threat to Western civilization (Levin once referred to me as the next
Hitler) or I was completely defenceless ("a soft toy").

Now, it should be obvious to any person with common-sense that I am not out of the
ordinary in any way. I have an IQ which is average for the Web, I am racially white
European, and there are plenty of other people with schizophrenia or epilepsy out there
who haven't been targeted for MI5 attention, so why me?

I think the answer is that the MI5 agents who harass me have cynically exploited the
situation by painting me as extraordinary in order to assure themselves of well-paid
employment funded by the ordinary British taxpayer. To put it bluntly, they are
stealing millions of pounds from the taxpayer to feed their own pockets.

This assertion is supported by the observation that it's the same agents who are doing
the harassment. Six months ago in a local hospital I was harassed by someone whose face
I had seen (he had stared straight at me aggressively, at the time I just thought it
was some nutter but it turns out he was one of "them") aboard a KLM flight a couple of
years ago. It's presumably been the same people most of the time. I've seen the way
contractors act when they don't want their positions terminated. Would these agents
really want to lose their well-paid employment harassing me? Presumably they are
promising their bosses a "breakthrough" (ie my demise) real-soon-now and have been for
the last seven years, while all the while these MI5 agents skim millions
off the taxpayer.

I wouldn't mind a job like that. Perhaps if I persecute myself a little bit, like standing in front of a mirror and shouting mindless obscenities, do you reckon I'd get a slice of the caky Service Tribunal. This year Nick Brooks, current Tribunal Secretary, confirmed to me that he could not think of a single case where the Tribunal had found in favour of a complainant. Here is my usenet post from two years ago.

Subject: MI5: "It wasn't us"
Newsgroups: uk.misc,uk.legal
Organization: Toronto Free-Net

"The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint."

Signed ER Wilson, Tribunal Secretary

Well that's a relief then. All that spamming for nothing eh. Gaw blimey, if they say they're not doing it then it can't be them, can it?

In a recent letter to Mr Brooks I expressed the opinion that the Tribunal were unable to fulfil their responsibilities in the face of MI5 falsehoods. Nevertheless, I do intend to make another complaint to the Tribunal in the near future, despite the Tribunal appearing to be a toothless watchdog.

Discrimination against a Unit Minority

MI5 have been very clear in their instructions as to what I should do. They have openly shouted at me the word "suicide", and also from the other abuse it is clear that they want my existence terminated.

This point is covered in more detail in a previous article. The following post describes the xenophobic nature of MI5s campaign against me. They have refined their bigotry down to a unit minority, yet they make use of the discrimination against the mentally ill which is a feature of current British society.

>Indeed. If you've ever had a 'conversation' with someone suffering
>from florid schizophrenia, you'll know how difficult it can be to
>'argue' with them.

I don't have florid symptoms. But I'm in a difficult situation, because those people who don't know, aren't going to believe, and those who do, they just go along with the crowd. It's never a good idea to go against the grain, and the grain here is defined by interests in the establishment and the media. Even people who could say out loud what was happening won't, because then there's a

risk that they'll be seen as traitors and ostracised.

Usually this type of 'hidden abuse' is racial and targetted at a racial minority within a country. You keep the minorities out of the good jobs, but you don't admit discrimination exists. It happens everywhere, not just in Britain. The persecution that is going on now is in reality a refined form of racism. Instead of "nigger" it's "nutter", and abusing the mentally ill is still socially acceptable today. In 50 years it might not be, but today there isn't any social or legal sanction against it.

So really they've refined racial harassment down to a minority of one. The words may be different, but the methods are the same.

MI5 Persecution: BBC Newscasters Lie & Deny They're Watching Me

Central to the persecution campaign waged against me for some nine years now by the Security Service is their use of the media, and in particular the broadcast media, to make clear to me that I am under surveillance and being watched within my own home, even by BBC newscasters while they read the news. This is really an act of arrogance; MI5 and their tools in the television and radio are so sure that they can never be caught, that they have many times made explicity clear on broadcast programmes that they are as capable of seeing me as I am of seeing the broadcast pictures. Even when they have known I am taping the programmes they still carry on this practice; for examples of TVand radio presenters caught "in action", see the Evidence area of my website.

If you wish to reply to this article......
then please include your name and fax number! I provide the means for recipients to send me their thoughts on the topics discussed, but ask that you provide me with your fax number or email address if you require a response. Also would you please send not more than one or two pages, if by fax. Thank-you!

It started with a Newscaster, and it continues with Newscasters today

The very first incident in the story started with a reaction by an ITN newscaster, Sue Carpenter, in June of 1990, almost nine years ago now. She reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

However, I have been busy recording everything Ive watched the last couple of years, and the taping has yielded some nuggets, which you will find if you point your Web browser at the "evidence" area of my website, whose URL address is given above. Strangely it is not particularly the BBC who are "after me" at the moment (with the exception of occasional fire from Nicholas Witchell), but that supposed paragon of virtue and decency Jon Snow of Channel Four TV News (he actually works for ITN), who once claimed hed turned down MI5s offer of a tax-free salary. I will cover Snows recent actions in a future article.

BBCs Hidden Shame

The first ever Usenet post (internet newsgroup article) on the subject of the MI5 bugging / BBC watching occurred, as stated in a previous article, in early May 1995. It is reproduced here;

Date: Thu May 4 18:27:24 1995
Newsgroups: alt.conspiracy
Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?

Well the country which brought Orwell into the world has made his nightmare follow into the world after him. Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their "victim".

I suppose "BBCs Hidden Shame" is more of a wish than a fact. It may be hidden, but the BBC and other media and security organisations seem to have no shame whatever in their anti-social, not to say criminal, actions. Nor do the general public, who seem quite happy to parrot the vilest obscenities without much hesitation or apparently thought.

Martyn Lewis, Nicholas Witchell and the rest

Most of the harassment occurred in 1990-92, when I wasnt making any recordings, and the BBC wont release copies of current affairs programmes from that period.... so although I can remember there were many incidents in that time, even many specifics, I cant dig up the actual programmes to flesh out the bones.

This year, there has been at least one incident with Nicholas Witchell as newsreader, which I have successfully recorded and digitized, i.e. converted into a computer Quicktime movie file. This has not yet found its way onto my website (Im a busy man, dontcha know) but you can be sure I will let the readership of these articles know when that clip makes it onto the web. The Witchell clip was recorded on Saturday 10 April 1999 at 7pm, and shows Witchell trying to restrain his features from collapsing into a smirk. First his upper lip quivers for several minutes, then with the non-excuse of a non-joke his entire face twists into a grin. It looks as if he finds me so funny, that he allows himself to submerge any pretence at professionalism in a sea of MI5-inspired sarcasm and harassment.

The two BBC newscasters whose reactions to me I can remember most vividly over the years are Martyn Lewis and Nicholas Witchell. I can remember thinking years ago that Michael Buerk was also seeing me at home; and if the other two are watching then there would be no reason why he wouldnt be doing the same; but in all honesty I cannot remember a single clear instance of his reacting through facial or verbal expression to me.

I can remember several instances of Martyn Lewis reacting to what he saw of me, however. In early 1992 I was watching the BBC news with Lewis on a

small black-and-white portable TV at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

And in spring 1991 I remember Martyn Lewis clearly reacting to what he saw of me at my then accommodation in Woking, Surrey, by continuing to stare at some fixed point near the camera after the news had finished - presumably this is where the monitor interactively showing pictures of my room was located.

Why would BBC and other Newscasters Watch and Harass Me, Watching Them?

This is a very difficult question, and I dont actually know the answer. It is a matter of record that the Secret Services are very much part of the Establishment. The recent exposure of the "MI6 Agent List" on the internet, and its coverage in the newspapers, reveals how much MI5 and MI6 are recruited from the ranks of the Establishment. Obviously the relationship is bi-directional; the Establishment influences MI5/MI6, but the secret services (well, perhaps not so secret now we know who works for MI6!!!) also influence the machinery of power and information dissemination i.e. media in this country. So they must have a lot of covert leverage with the BBC and ITN.

Some of this leverage is obviously through bribery. It is a matter of record that MI5 tried some years ago to "buy" Jon Snow of Channel Four TV. He turned them down - obviously they must have approached other media people as well, and from the lack of other reports of people turning them down, it may be presumed that some other journalists will have accepted the sugared carrots put before them. Ironically, Jon Snow has been taking part in the recent "watching" actions against me - but why he has allowed himself to be used by the secret services is something which I do not know.

Perhaps the Security Service uses blackmail to twist arms of journalists into co-operating with them? I have always thought there was something slightly odd about Martyn Lewiss demeanour. At the time of the Ron Davies "rough trade" scandal it was reported that MI5 had known all about Davies predilections and the sham of his pretence to be a happily married man. Perhaps MI5 have been able to dig something up from Martyn Lewiss private life to blackmail him into acting on their behalf? And if there wasnt anything before the "newscaster watching" started then there most certainly is something now.... once theyve started watching, the newscasters will surely wish their activities to remain covered-up, and co-operate with the security service.

"Newscaster Watching" Deliberately Constructed to Mimic Schizophrenia

Presumably this is the first case in history of television journalists actually taking part in acts of real-time, live spying and reacting against one of their viewers. What you have to understand, though, is that I was quite mentally healthy in June 1990, certainly relative to November

1992, when after two and a half years of harassment I was finally admitted to hospital as an out-patient. MI5 decided from the outset that they would make me mad; they constructed the media harassment to resemble what would be reported by a person with mental illness; and then they carried on years of abuse to inflict on me the condition which they wished to use as an excuse to cover up their abuses.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

When I started publicising my case on internet newsgroups in 1995, I was met with the disbelief one might expect to be accorded to a mentally ill person who talks about "newscaster watching" and media persecution. Some newsgroup participants thought I had started a "troll", an invention made to obtain a reaction; one bright spark even suggested a group of psychology students were behind the articles. But most people thought the articles were symptomatic of derangement - and that is exactly what MI5 want people to think. MI5 chose me as a target because I was mildly mentally ill at the outset in 1990, although I stress my illness then was very mild in comparison with November 1992, and because they knew that enough abuse would (a) make me much more seriously ill, and (b) once I was more ill, they would "get away" with a harassment deliberately constructed to look like the symptoms of paranoid schizophrenia.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "real-time spying" on me. They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

BBC-VLC also said that the BBC "would never engage in any form of surveillance activity" such as that described. Clearly Martyn Lewis and the rest have lied to their own organisations personnel about their criminal actions. So much for the "objective", "truthful" BBC, a nest of shabby liars.

Summons against the BBC, for Nuisance caused by Newscaster Spying

In March 1997 I issued a civil summons against the BBC, seeking injunction against further "newscaster spying", and token damages for what the BBC had done to me until that date. The purpose of the summons was to try to "smoke out" the BBC, since obviously I did not have good evidence which would be necessary for either a civil or criminal case to be made against them. My summons was worded as follows;

1. The plaintiff is and was at all material times residing at [home address]. At some time prior to or during June 1990, persons of unknown identity entered Plaintiff's premises and installed concealed television equipment in said premises.

2. A campaign of harassment was launched against the Plaintiff by the persons of unknown identity, which in part took the form of instigating harassment by BBC TV newscasters (including specifically Michael Buerk and Martyn Lewis) as they read news bulletins, by making direct and personal comments to Plaintiff.

3. The campaigns purpose was to subject Plaintiff to great mental stress and induce mental breakdown. As a result of it Plaintiff did indeed suffer from severe mental strain in 1990-97.

4. In order to avoid the mental strain being caused to him the Plaintiff has been compelled to stop watching BBC TV news. Defendant therefore committed the tort of private nuisance, since normal use of home was interfered with.

5. Plaintiff claims a permanent injunction prohibiting further nuisance, and damages for nuisance suffered limited to 5,000.

Naturally, my attempt to smoke-out the BBC and its lying newscasters failed. The BBCs litigation department sought to have my summons struck out; and they succeeded in doing so, on the grounds of my action "disclosing no reasonable cause of action". I was also prevented from issuing further civil claims against the BBC without leave of the Court. Apparently litigants-in-person frequently / usually have their claims struck out with this wording, regardless of the merit of their claims.

BBC Suppresses my Claims of "Watching by Newscasters"

BBCs staff magazine Ariel ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm
Clearly the BBC will not allow claims of its wrongdoing to be made public in the media channels it controls.

On several occasions people said to my face that harassment from the TV was happening. On the first day I worked in Oxford, I spent the evening in the local pub the Rose and Crown with the company's technical director Ian, and Phil, another employee. Ian made a few references to me and said to Phil, as if in an aside, "Is he the bloke who's been on TV?" to which Phil replied, "Yes, I think so".

The reader might think that mere "watching" by newscasters etc might be a relatively benign happening. But it is not; it is part of MI5s framework of harassment and lies. On many occasions the reactions of the BBCs newscasters to me has been in the nature of sarcasm, implicit contempt and abuse. This is visible in Witchells news programme mentioned above, where he engages in abuse by laughing at me during his newsreading. It was particularly visible in the early period of 1990-92, and as late as Autumn 1993, when during a Newsnight broadcast Jeremy Paxman interviewed a football person about soccer hooliganism, and the interviewee gave vent to an unsubtle rant about "theyre idiots, theyre just idiots, keep up the surveillance". Paxman started grinning, showing he understood and was taking part in the abuse being perpetrated on that programme.

Conclusion

The MI5 Persecution started with harassment by television newscasters, and today harassment by TV and radio presenters still forms a key part of MI5s activities against me. When this business started in June 1990 I was in relatively good health of mind. Years of persecution by the secret police and their mouthpieces in the state-run BBC and other media eroded my health until MI5 achieved their aim of seeing me rendered mentally ill in November 1992. The diagnosis which was forced on me unfortunately and ironically meant that my reports of the harassment are disregarded, because the mentally ill are second-class citizens in todays Britain.

Yet TV and radio harassment continues, albeit in a reduced form, despite my taping all the programmes I watch, resulting in my being able to obtain and demonstrate objectively on the website instances of media presenters attacking me. Unfortunately these recorded instances are quite tenuous; I might understand them, the presenters understand what it is theyre doing, but despite many thousands of people knowing the truth of the "newscaster watching", the omerta continues and they continue to refuse to admit the truth of the matter. It is a terrible indictment of British society that there is not even one decent person willing to speak out. I look forward to the day when the truth does finally emerge, and the mass corruption which has allowed the MI5 persecution to take place is finally purged and the Establishment criminals caught and appropriately punished.

MI5 Persecution: Molestation during Travel

MI5s persecution of me varies in intensity. Since 1990 it has been steady for perhaps 80% of the time; there was a notable quiet period in 1993, and another quiet period in Jan-Feb 1995, as well as a hiatus in the first two months of 1999. It puzzles me that they cease and restart, seemingly without any logic or reason. But one aspect of MI5s activities against me which is relatively predictable is this weeks articles topic, which is Molestation during Travel. Almost every time I cross the Atlantic, go to the Continent or even try to enjoy a holiday in this country, you can bet that MI5 will be there doing their utmost to wreck it all.

This aspect of the harassment is particularly relevant as I will be travelling to Europe again in a months time, with naturally the Minidisc recorder in tow; so it will be interesting to see if I can record the abuse which will almost certainly take place, either on the Tube going to the airport, at the airport, on the flight, in the terminal building - MI5 have previously instituted instances of abuse at each of these locations, so well see how much taxpayers money they waste this time, and whether it will prove possible to capture their abuse on minidisc.

Read about the MI5 Persecution on the Web

June 1992 in Polands mountain resort of Zakopane

The persecution started in June 1990, and for the first two years I stayed in the UK apart from a couple of brief day trips to Calais. By the summer of 1992 Id had enough of being cooped up in England with abusive fellow employees egged on by an abusive secret police service, and decided to spend 10 days in southern Poland, on what was intended to be a holiday at the mountain resort town of Zakopane.

Unfortunately the psychopaths of the Security Service were not willing to allow me to enjoy a holiday in peace and quiet. The journey to Zakopane was by coach from the meeting point at Londons Victoria coach station (National Express) followed by ferry followed by another coach across Europe. As we left Victoria a youth and his girlfriend started a loud tirade of abuse directed at "this bloke", where the "bloke" was never named, but it was very clear that the "bloke" was myself. The youth said "they" had "found somebody from his school, and he was always really stressed at school, a real psycho". Again, the label "they" was not elaborated on, but it was clear that "they" = the persecutors from MI5. The boy also said, "he was in a bed and breakfast for only one night and they got him". By a not unexpected coincidence I had been in a B&B in Oxford a week previously, which had been booked from work; other things

lead me to the conclusion that the company's offices were bugged for most of the 2 1/2 years that I was there, so "they" would have known a room in the B&B had been booked. After a few minutes of this I went back to where they were sitting and asked where they were travelling. The boy named a village in France, and the girl's giggling suddenly ceased; presumably it permeated to her brain cell what the purpose of the boy's abuse was.

It is now very clear to me that MI5 were trying to have me incarcerated, assaulted or killed on this trip across Europe. The degree of verbal violence inescapably leads to this conclusion. When we arrived at our destination, it became clear that many people, both in our tour group and its guide, and among the ordinary residents of the town, knew there was a movement under way to "get" me. MI5 employed many people and significant resources for an action which they knew would only take a maximum of ten days. A commercial operation would never have felt able to waste such resources on such an unproductive and temporary action; only a state-sponsored, taxpayer-funded entity like the Security Service would be able to be so wasteful.

To give some examples of what happened in those ten days; I was walking in some woods outside the town, when a Polish woman, looking at me, said the English "shit" in a strongly Polish-accented voice. For the first three years 1990-92 MI5 had been trying to force this word on me. Another example; I was walking near my "hotel" when a mother said laughing to her child, "a wiesz ze to prawdziwy wariat" which means "you know hes a real madman". And the "TV reacting" happened there too; on Polish TV, a bemused looking journalist said to another, "to jest sprawa Anglikow", which means "its the concern of the English", in other words, none of our business, despite what the English are trying to force down our throats.

Just before we left for home, I went with some others from our group to a nearby bar. There a man shouted at me the same sexual obscenity which MI5 have constantly thrown at me these last three years. I think MI5 try to justify their various terms of abuse by repeating them at me until I say them, either while conscious or while talking in my sleep; and then they seize on my saying those words to "prove" that the obscenities are "my fault", et cetera. This rather stupid reasoning of theirs can actually be seen as indicative of the psychopathic condition attributed to them in a previous article; blaming the victim for the crime you inflict on him is how psychopaths think.

Nor did the persecutors let up during the return trip. Returning on the ferry over the channel, a rather insalubrious-looking guy talked to his mates about "and you know this bloke, hes really mad you know, hes really mad". On the National Express return coach to London, a group of five or six young people started shouting at me. I slumped in my seat and tried to avoid presenting a target, so they got ever more strident - "whats the matter with you, cant you hear us?" One of the other people who had been on the trip to Poland asked them why they were shouting at me, and they said, "hes been to Cambridge", to which the co-holidayer asked them, "have you been to Cambridge?" presumably thinking they were aggrieved fellow

students, but they answered "no". Even after I left the coach at Elephant and Castle abuse continued; in the tube station, two kids started throwing abuse at me; one of them said to the other, "and you know he works?" to which the other answered "yes".

Immediate Aftermath of November 1992

As you will know from previous articles, my manager at OCG - ARIS/Oxford, Mr Mitchell, induced a mental breakdown in me in the months leading up to Nov/92. The diagnosis was regarded by the persecutors as a victory for them, because few if any people give credence to allegations of harassment when they are made by somebody suffering from schizophrenia. There is also a bias against the mentally ill, an "institutionalised bigotry" in society comparable to the institutionalised racism against blacks.

However, MI5 did not let up on persecuting me following Nov/92. In December 1992 I flew by charter jet to Alicante in Spain for two weeks recuperation. MI5 planted one of their people on the flight, a youth who tried to start some noises that "hes a nutter". One of the other passengers replied, "oh hes a nutter is he? oh well!" and the youth shut up and said nothing for the rest of the flight. I think it would be fair to say that the youth on the flight was embarrassed by what he had been asked to do in making the flight "uncomfortable" for me; he sounded defensive rather than aggressive.

My first trip to Canada in June 1993

Ive already covered this in a previous article so Ill just give a brief summary here. On 10 June 1993 I flew British Airways from Heathrow to Torontos Pearson Airport. On de-planing from the aircraft, one of a group of four fellow passengers looked at me and said, laughing, "if he tries to run away well find him". It was quite obvious that these four men were the ones who had been harassing me since 1990.

I did nothing to apprehend them or bring this incident to the attention of the airport authorities, mostly because this was my very first visit to Canada, and the last thing I wanted was to get into a dispute before I had even finished disembarking. In retrospect, I can see this was a terrible mistake; I should have made every effort to detain and identify these people.

Subsequently I have made numerous attempts to obtain the names of these people from British Airways passenger lists, by talking to BA, through a lawyer in Ontario, through a solicitor in England, through the UK police, and also through private detectives in the UK. But all my efforts have come to nothing. BA have told me they keep passenger lists for a period of seven years, so they will still have the list for this 1993 flight. I did not see or hear anything during the rest of my visit to Ontario in 1993 which would have lead me to believe that I was being watched or followed.

Journey across Canada in summer 1994

As I think Ive already said in previous articles I emigrated to Canada in late May 1994. For six weeks between late May 1994 and early July 1994 I travelled across Canada from coast to coast, starting in Toronto, visiting various cities and ending up in British Columbia. I saw this both as something of a holiday, and the chance to get to know a little better my adopted country.

As you can guess, MI5 followed me everywhere I went during these six weeks. In Toronto, where I started this trip in late May, I was spoken about by one youth to another with the words "hes an idiot", to which the other replied, laughing sympathetically, "good luck to him".

A couple of days later I went to Montreal and stayed at the YMCA downtown. As you can guess (this is all so predictable, isnt it?) MI5 followed me there and bugged my room at the YMCA. Not only that, but they managed to set-up an instance of "newscaster reaction" from a local television station; while I was watching a Vermont TV news programme on the set in my room, the woman reporter said, "well theyre just tired and they want to go home", which sounds like a pretty unprofessional thing to say until you realise she was trying to say of me that I was the one that was supposed to be tired, and they (ie MI5) wanted me to go home to the UK.

On the bus journey across the North American continent, it was quite clear that MI5 were following me every step on the way. For the first part of the journey they actually put someone on the bus with me, a youth who said at me "that guys paranoid" and tried to incite other passengers to attack me. I stopped for a couple of days in Winnipeg in central Canada, and on leaving the town heard on the radio a female presenter ranting about "insanity! insanity!". It is very tiring travelling such a long distance by bus; I took the journey in two steps, each of about 36 hours; and it is especially tiring when you know MI5 are watching you and harassing you every step of the way.

When I finally got to Vancouver, MI5 instituted the usual harassment, in very short order. I was surprised how quickly they were able to induce hatred towards me in elements of the general populace; the Security Service must have employed a number of agents and serious resources in a very short period of time; and for no real gain, because I havent been back to BC for almost five years, so all their "work" appears to be for nothing. In downtown Vancouver a street person said in front of me, "theyre all talking about him". For a few days I was staying at Pauls Guest House (345 W.14th Ave); on the day I left, the owner Paul shouted at no-one in particular, "hes going to Victoria" - which was quite accurate, I was indeed going to the provincial capital Victoria on Vancouver Island. But I had not told anyone at the guest house where I was going; I had only mentioned to my parents back in England on the phone that I was going away from Vancouver for a few days. Which leads me to suppose that MI5s bugging of the phone in my parents house yielded the "intelligence" that I intended to visit Victoria, and they had passed the information on to Paul.

When I got to Victoria it was again obvious that the persecutors were "doing their stuff" there as well. On the street I was identified as being English, although I had not said anything so my accent hadnt given me away; and returning by ferry to the mainland, I was abused by a Canadian woman who said, "hes a nutter! you can run but you cant hide". During my years in Canada I have never heard the word "nutter" on any other occasion; I do not think it is part of Canadians vocabulary; so the Canadian woman on the ferry, who was obviously talking about me, must have been supplied with this word by the English persecutors. And once I got back to Vancouver, staying at the Austin Hotel on Granville St, I listened to a conversation in the apartment block directly opposite, and a man saying, "hes paranoid, so thats as bad as it can be, so why are they doing this to him?".

Holiday in the States, August 1995

By 1995 I was living in Canada, and in August I went down the eastern seaboard to Florida and as far as Key West by car. As you can guess (this is all so boring and predictable, isnt it?) MI5 followed me every step of the way. I can see in retrospect that this must have been quite easy for them as they had my car bugged, both on the inside to listen to anything that was said and what radio station I was listening to, as well as what must have been a tracker device installed to track it across long distances.

The first city I visited was Philadelphia. In the old Congress Hall where the first US Congress assembled, the woman guide started referring to my situation, saying that "all these people in Europe were watching it", and they were "a little paranoid" at this 18th-century experiment in democracy. Also I had recently written a newsgroup post where Id described a (female) poster as "wet-nosed" (implying "canine"), and a young girl in Philadelphia remarked, "so he thinks were dogs?" There were two or three more incidents during this holiday in the eastern States, including a radio station down near Miami, showing "they" had tracked me all the way there, and were bugging the inside of my car; but I didnt record the details and Ive forgotten some of it now. Also down in Miami Beach a French tourist in a lift expressed support for me with the words, "cest incroyable" ie. its incredible, meaning that MI5s well-known actions against me were beyond belief.

To go back a bit, in about May/June 1995 Id visited New York, again by car, and was insulted several times by people using the same words that had been used against me in England. In Central Park, and elderly Englishman (not a real gentleman - but then the Engish view of themselves as "gentlemen" etc is quite laughable) looked at me and said "idiot". And while I was eating in a streetside restaurant a New York youth started laughing and said something like, "I cant believe it, hes actually here" - I think that was because I had had an expressed wish to visit New York for some years before this, although after this visit I wont be going there again for a very long time.

Visit to Poland December 1995/January 1996

In December 1995 I flew (BA again, unfortunately - every time Ive flown BA one of these incidents has happened, presumably MI5 is happier setting up harassment on British-domiciled carrier) from Montreal to Berlin and travelled on to Poland to visit family. MI5 naturally harassed me in Poland during my brief stay. They followed me around and got Polish people to take part in the harassment. In one case two Polish youths talked in front of me saying in English (with marked Polish accents), "fucked up men, fuck you". There were also other incidents which I dont remember too clearly since it was some time ago.

The return flight connected through Heathrow, and in the transit lounge MI5 again set-up harassment against me. In Poland they were talking their abuse in English, and in London they set Polish people after me to speak in Polish; they heard me on the phone to my father, and said "a wiesz ze to Polski wariat", in an almost sympathetic, inclusive fashion (translation. "you know hes a Polish nutter"). Once on the flight to Montreal I was again set upon by two English youths, one of whom spoke and the other listened. The aggressive "fat bastard" youth said, "if he wants to be a wanker" (its my fault theyre harassing me, you see), self-justification that "hes a nutter" (so we have to keep on abusing him, because hes ill), as well as talking about the town in Poland where I had been staying. He also said, "he doesnt know who we are", but as already remarked in a previous article, that was at best a half-denial of my guess expressed in internet newsgroups that the people after me were MI5 - if anything its a half-confirmation rather than a half-denial.

These incidents are still going on. You can hear digitised audio files of abuse on a BA flight to Berlin in 1998 on the Web at address

On this flight they were again attacking my mental health; "paranoid, hes paranoid" and "nutter" are discernable. The last "during travel" contact was at Ottawa Airport on 21 July 1998, when "Alan Holdsworth" the psychopath MI5 agent, dressed as a vagrant, was pacing aggressively in the departure area. In three weeks I will again be travelling to Europe; we will see what fresh acts of molestation MI5 perpetrate during this trip.

479. MI5-Persecution: MI5 are Afraid to Admit Theyre Behind the Persecution (26684)

Newsgroup: rec.radio.amateur.dx
Date: 2007-12-16 16:49:18 UTC
From: MI5-Victim@mi5.gov.uk

MI5 are Afraid to Admit They're Behind the Persecution

MI5 have issued a formal denial of any involvement in my life to the Security Service Tribunal, as you might expect them to; but, more importantly, the persecutors have never denied that theyre from the Security Service, despite several years of accusations from my corner on usenet and in faxed articles. I am not surprised that the Security Service Tribunal found "no determination in your favour". I am however a little surprised that the persecutors have refused to confirm my identification of them; by doing so, they implicitly admit that my guess was right.

"No determination in your favour" says the Security Service Tribunal

In 1997, I made a complaint to the Security Service Tribunal, giving only the bare outlines of my case. I do not think it would have made very much difference if Id made a much more detailed complaint, since the Tribunal has no ability to perform investigatory functions. It can only ask MI5 if they have an interest in a subject, to which MI5 are of course free to be "economical with the truth". A couple of months after my complaint the Tribunal replied that;

The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint.

Needless to say this reply didnt surprise me in the slightest. It is a well established fact that the secret service are a den of liars and the Tribunal a toothless watchdog, so to see them conforming to these stereotypes might be disappointing but unsurprising.

It is noteworthy that the Tribunal never gives the plaintiff information on whether the "no determination in your favour" is because MI5 claims to have no interest in him, or whether they claim their interest is "justified". In the 1997 report of the Security Service Commissioner he writes that "The ambiguity of the terms in which the notification of the Tribunals decision is expressed is intentional", since a less ambiguous answer would indicate to the plaintiff whether he were indeed under MI5 surveillance. But I note that the ambiguity also allows MI5 to get away with lying to the question of their interest in me; they can claim to the Tribunal that they have no interest, but at a future date, when it becomes clear that they did indeed place me under surveillance and harassment, they can claim their interest was "justified" - and the Tribunal will presumably not admit that in their previous reply MI5 claimed to have no interest.

"He doesnt know who we are"

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly. What he was trying to do was to half-deny something he knew to be true, and he was limited to making statements which he knew to be not false; so he made a lukewarm denial which on the face of it means nothing, but in fact acts as a confirmation of my guess of who "they" are.

On one of the other occasions when I saw the persecutors in person, on the BA flight to Toronto in June 1993, one of the group of four men said, "if he tries to run away well find him". But the other three stayed totally quiet and avoided eye contact. They did so to avoid being apprehended and identified - since if they were identified, their employers would have been revealed, and it would become known that it was the secret services who were behind the persecution.

Why are MI5 So Afraid to admit their involvement?

If you think about it, what has been going on in Britain for the last nine years is simply beyond belief. The British declare themselves to be "decent" by definition, so when they engage in indecent activities such as the persecution of a mentally ill person, their decency "because were British" is still in the forefront of their minds, and a process of mental doublethink kicks in, where their antisocial and indecent activities are blamed on the victim "because its his fault were persecuting him", and their self-regard and self-image of decency remains untarnished. As remarked in another article some time ago, this process is basically the same as a large number of Germans employed fifty years ago against Slavic "untermenschen" and the Jewish "threat" - the Germans declared, "Germans are known to be decent and the minorities are at fault for what we do to them" - so they were able to retain the view of themselves as being "decent".

Now suppose this entire episode had happened in some other country. The British have a poor view of the French, so lets say it had all happened in France. Suppose there was a Frenchman, of non-French extraction, who was targeted by the French internal security apparatus, for the dubious amusement of French television newscasters, and tortured for 9 years with various sexual and other verbal abuse and taunts of "suicide". Suppose this all came out into the open. Naturally, the French authorities would try hard to place the blame on their victim - and in their own country, through the same state-controlled media which the authorities employ as

instruments of torture, their view might prevail - but what on earth would people overseas make of their actions? Where would their "decency" be then?

This is why MI5 are so afraid to admit theyre behind the persecution. Because if they did admit responsibility, then they would be admitting that there was an action against me - and if the truth came out, then the walls would come tumbling down. And if the persecutors were to admit they were from MI5, then you can be sure I would report the fact; and the persecutors support would fall away, among the mass media as well as among the general public. When I started identifying MI5 as the persecutors in 1995 and 1996 there was a sharp reduction in media harassment, since people read my internet newsgroup posts and knew I was telling the truth. The persecutors cannot deny my claim that theyre MI5, because then I would report their denial and they would be seen as liars - but they cannot admit it either, as that would puncture their campaign against me. So they are forced to maintain a ridiculous silence on the issue of their identity, in the face of vociferous accusations on internet newsgroups and faxed articles.

Have MI5 lied to the Home Secretary?

In order for the Security Services to bug my home, they would either have needed a warrant from the Home Secretary, or they might have instituted the bugging without a warrant. Personally I think it is more likely that they didnt apply for a warrant - I cannot see any Home Secretary giving MI5 authority to bug a residence to allow television newscasters to satisfy their rather voyeuristic needs vis-a-vis one of their audience. But it is possible that the Security Service presented a warrant in some form before a home secretary at some point in the last nine years, for telephone tapping or surveillance of my residence, or interception of postal service.

So the possibility presents itself that a Home Secretary might have signed a warrant presented to him based on MI5 lies. Just as MI5 lie to the Security Service Tribunal, so they might have lied to a Home Secretray himself. MI5 and MI6 are naturally secretive services former home secretary Roy Jenkins said, they have a "secretive atmosphere ... secretive vis-a-vis the government as well as [enemies]". Jenkins also said he "did not form a very high regard for how they discharged their duties".

It was only a few years ago that MI5 was brought into any sot the extraordinary thing is that British media organisations like the state- and taxpayer-funded BBC take such an active part in the MI5-inspired campaign of harassment. We have after all heard of MI5 trying to bribe broadcast journalists; but surely there must be a substantial number who are not bought or blackmailed by the Security Services, and who take part in the "abuse by newscasters" of their own volition? The BBC is supposed to be independent of the government of the day as well as the Establishment in general. While perhaps it is childish to think that the BBC is anything other than effectively state-controlled, the degree of

collusion between the BBC and the British Secret Police MI5 is something you would not find in many countries. Individual tele-journalists in other countries would have enough self-esteem not to allow themselves to be controlled by their secret police - seemingly, BBC broadcasters like Martyn Lewis and Nicholas Witchell have such a low opinion of their employing organisation that they see no wrong in dragging the BBCs no-longer-good name through yet more mud, at the mere request (whether supported by financial or other inducements) of the British secret Police, MI5.

And when challenged, these broadcasters LIE about their involvement, with just as little shame as MI5 themselves. The BBCs Information dept have said that;

"I can assure you that the BBC would never engage in any form of surveillance activity such as you describe"

which is an out-and-out lie. Buerk and Lewis have themselves lied to their colleagues in the BBCs Information department over the "newscaster watching", but unsurprisingly they refuse to put these denials in writing. Doubtless if the "newscaster watching" ever comes to light, Buerk and Lewis will then continue to lie by lying about these denials. So much for the "impartial" BBC, a nest of liars bought and paid for by the Security Services!

It is obvious that the persecution is at the instigation of MI5 themselves - they have read my post, and only they have the surveillance technology and media/political access. Yet they have lied outright to the Security Service Tribunal. Similarly, BBC newscasters Michael Buerk and Martyn Lewis have lied to members of their own organisation. The continuing harassment indicates they are all petrified of this business coming out into the open. I will continue to do everything possible to ensure that their wrongdoing is exposed.

K9YA Telegraph
Fifth Anniversary For The Good News About Amateur Radio

It's been another great year at the K9YA Telegraph. Thanks to your strong and continued support we're looking forward to celebrating our fifth anniversary in January 2008.

There's a definite buzz on the 'Net with the Telegraph earning enthusiastic comments from bloggers, reviewers and in discussion list threads. As we wrote at the completion of our first year: "Our success derives from you, our large, enthusiastic and devoted subscriber base worldwide, and to the writers whose contribution of personal stories-at once fascinating, humorous, enlightening and compelling-made the Telegraph staff's inaugural year one of consistent joy and fulfillment." That truth remains unchanged, but ever more encompassing as more of you, drawn from the international ham community, have joined the Telegraph readership and lent your experience to enlighten, evoke and entertain.

The Telegraph staff continues in its fifth year-as in our first-ebullient. Thank you for your messages of praise and encouragement, and remember: we're always on the lookout for your good story, or two.

The K9YA Telegraph is a free, monthly, general interest amateur radio publication read by hams in more than 100 countries. The Telegraph is a full-color e-Zine providing the stories and features most wanted by our subscribers because our subscribers write it. Check it out; we think you'll like it too.

http://www.k9ya.org

Subscribe FREE to the K9YA Telegraph. It's FREE! It's FUN, It's ALL ABOUT HAM RADIO!

The January 2008 issue includes:

A Scholar's View... By Philip Cala-Lazar, K9PL

The Race with Obstacles By Francisc Gr&#65533;nberg, YO4PX

Lincolnwood Pack 74's First JOTA By Joel Byron, WD9ICL

There Were Angels Dining at the Ritz By Rod Newkirk, VA3ZBB/W9BRD

Hog Morse By K9YA Telegraph Staff

Ham Quips By Dick Sylvan, W9CBT

If you're in the mood for Morse, hankering for history, gluttonous for gear, ravished for a review, needing nostalgia, or just plain famished for fun,

you'll find it in the K9YA Telegraph.

MI5 Persecution Update: Friday 11 June, 1999

Harassment in a pub in Clapham, Tuesday lunchtime

Once a month, or once every other month, I meet a Polish friends of mine who lives in Clapham North, and sometimes we go to a particular pub near where he lives. The last time was some two months ago; I did not have my minidisc-walkman with me, and consequently was seriously harassed by people MI5 had instructed to harass me, in the pub.

This Tuesday, 8 June 1999, we again went to the same pub for a pre-meal drink. This time I did have my minidisc-walkman with me. As you can guess, we were followed into the pub by a couple of young people (Im getting older and older - isnt it funny how the MI5 agents all look young these days?). They started talking about my situation, in particular some travel I had booked the previous day. Unfortunately, they were talking fairly quietly, and my minidisc didnt pick up their speech.

MI5s schizophrenic reasoning is that simultaneously I am very important and worthy of their acts of persecution, and I am also totally unimportant and their abuse of me "doesnt matter". Perhaps they should test their agents and managers for obsessive personalities or psychotic features in the same way as employees are drug-tested. MI5 might lose their "worst cases" employees if some psychological testing were applied to their recruitment procedure.

Toothless Watchdogs. What a Surprise.

Recently I have been engaging in communications with two watchdogs, the Security Service Tribunal which deals with complaints against the security service (and always clears MI5 of any wrongdoing), and the Data Protection Registrar, which is mandated to investigate misuse of personal data held on computer.

In a letter to Nick Brooks, Security Service Tribunal secretary, dated 20 April, I asked him if the Tribunal, as an allegedly independent body, had the means to investigate complaints against MI5 other than asking MI5 to themselves investigate complaints. To my disappointment, his reply two weeks later answered the question only indirectly, in the negative. Whatever the reader might think of the merits of the case I have been putting before you in faxed articles this last year and half, you will surely recognise that it is a significant anomaly for the Tribunal to have no independent means of investigating complaints, particularly given the view expressed even by previous home secretaries that the security services are untrustworthy.

MI5 Persecution: No Justice for the Victims of MI5

In a previous article I detailed the similarities between the current MI5 Persecution in England, and other historical instances of similar persecution, notably that by the Nazi Germans in the thirties and forties. The Germans persecuted first the mentally ill, the epileptics and those suffering from schizophrenia, then moved on to racial groups; in todays Britain the persecution is again directed at those with mental illness, which the British in their cowardice find easier than taking on racial groups as the Germans did. But just as in Thirties Germany there was no recourse against a malign and omnipotent state, so the MI5 Secret Police in the modern British Fascist State allow no justice for their victims.

No Recourse Against the Security Services Illegal Harassment

It has become apparent to me over the last nine years just how loaded the dice are in todays Britain, a fundamentally fascist country which masquerades as a democracy. Britain is a democracy in name only; the Establishment, the defence and MI5 secret police are always there, regardless of which party has been voted into power most recently - and from "New Labours" conduct in office one finds it difficult to tell them apart from Old Tories, in their crackdowns on the sick and vulnerable in society.

In thirties Germany the victims of the Nazi regime had no legal recourse against their State oppressors; and in todays Fascist British state, the victims of the Establishment and its MI5 Secret Police similarly have no recourse against the illegal state-funded and organised oppression. There is supposed to be a mechanism for dealing with MI5 crimes, in the shape of the Security Service Tribunal and Commissioner; yet these have never found favour of a plaintiff. One might as well ask the Nazi SS to investigate crimes against epileptics or Jews as ask the Security Service Tribunal to investigate MI5 crimes against British citizens; it is quite obvious what the answer is going to be, regardless of what you say to them, and what evidence you provide. The Tribunal and Commissioner are a mere formality, a whitewashing body to give the Secret Services a veneer beneath which they hide their shabby criminality.

"Institutional Racism" and Bigotry in the Metropolitan Police

The recent inquiry into the racist murder of Stephen Lawrence found clear evidence of systematic and deliberate racism in the Metropolitan Police, which cannot have surprised anyone. Commissioner Sir Paul Condon accepted a somewhat lukewarm definition of institutional racism as being "unconscious". In truth, and this truth must surely be obvious to anyone who has any familiarity or encountered the great British police, the Met has not just "unconscious" racism, but very clearly "conscious" and deliberate racism, of the kind that would have done Thirties Germans proud. And it is a bastion of such open racism - when many other parts of society are learning to live in a multicultural environment, the Met is still living in the past in its attitude to the minorities.

But in addition to the systematic racism confirmed by the Lawrence inquiry, there is also something much more relevant to this case, which is systematic police bigotry against the physically and mentally disabled, which I personally have experienced in my dealings with the police over the years. You cannot expect equal treatment if you are mentally disabled. I tried to make a complaint to the police in 1995 about the harassment I had been subjected to for several years. As soon as they found out I had mental illness, they refused to even talk to me. I tried again in March 1999; the police made various threats to me, while ranting about "your paranoid rubbish" in reference to the complaints expressed to them.

The police refusal to do the job they are employed and paid to do is extremely serious, particularly as this case is highly important, indeed key to the whole issue of British self-perception at the end of the 20th century and the beginning of the 21st century. Britain has lost much in the last fifty years - it has lost an empire, it has lost its self-respect and its identity as a people. If the MI5 persecution finally makes it into the light and the Security Services are seen for the rather cheap bullies their behaviour indicates, it will have a massive and harmful effect on British self-perception in the new century.

Security Service Tribunal - Blatant Whitewashing

A few weeks ago I spoke on the phone to Nick Brooks, the Secretary of the Security Service Tribunal, which is supposed to deal with cases of MI5 transgression. I asked him if the Tribunal had ever found in favour of a plaintiff and against the Security Service. He answered that as far as he knew, it had not.

I also asked Mr Brooks if the Tribunal had any means of investigating allegations of criminal activity by MI5, other than asking MI5 themselves if they had engaged in such activity. His rather circuitous written reply states that the 1989 Security Service Act provides that "it shall be the duty of every member of the Service to disclose or give to the Tribunal such documents or information as they may require for the purpose of enabling them to carry out their functions under this Act". Which is a very round-about way of saying - "No" - the Tribunal has no way of investigating MI5 crimes - None At All.

Setting up the S.S. Tribunal, and creating a Security Service Commissioner, was really an act of falsehood by the government. It is generally recognised that MI5 are out of reach of the normal criminal justice system - the police, as we have seen, have no intesot answer to the government; in a previous article I quoted Roy Jenkins speaking of "a secretive atmosphere.... secretive vis-a-vis the government as well as [enemies]", and a "lack of frankness" from MI5.

If the government wanted to, it could reform the secret services and ensure they acted in conformance with the laws which have been enacted for them in the last ten years. But apparently the present government does not see any need to ensure security service compliance with the law. As noted above, the regulatory machinery for MI5 is deliberately weak; the Tribunal

has no independent means of investigation, and it is simply a waste of time complaining to the Tribunal or Commissioner.

Every so often, fresh revelations come to light of secret service transgressions. We have heard from Shayler that MI5 bugged Jack Straw and Peter Mandelson; we have heard from Peter Wright that MI5 plotted to see Wilson ejected from office; yet so closed is the system of government that the law is never enforced against MI5 when they "bug and burgle" everyone from politicians to ordinary citizens.

No Justice from the Legal System, either

Britain has a civil and criminal justice system which effectively limits many complaints from being heard. For a civil complaint to be brought before a court, you need a solicitor willing to act on your behalf. Supposedly it is possible to represent yourself as a Litigant-in-Pthe basis of being "frivolous and vexatious" or "disclosing no cause for action in law". This is exactly what happened to me in 1997 when I twice tried to take the BBC to court for spying on me in my living room at home; my case was twice struck out, and on the second occasion an order was made against me that I could not bring further civil litigation against the BBC without leave of the court.

As the reader can guess it is quite impossible for a person with schizophrenia, who complains about the secret services and media interfering in his life, to find a solicitor willing to represent him in legal action against the persecutors. I have quite a lot of evidence of the continuing persecution which I have posted on the website, even if the evidence is quite tentative and perhaps open to varying interpretations. But I have tried several firms of solicitors; some of them have acted unprofessionally and abused me; all of them have refused to represent me. My psychiatrist gave me the name of the firm of Bindman and Partners in central London, and I have approached them twice. On each occasion they refused to accept my instructions. Plainly the problem with Bindmans, which they have admitted, is their bigotry against mentally disabled people; yet this is not just something that is wrong with Bindmans, it is something that is wrong with the legal system as a whole, since the legal system necessitates finding a solicitor willing to represent you in order to bring a case to court, but it does not have a mechanism for providing a lawyer in the case where no solicitor is willing to take on your case. So the British legal system is such as to prevent cases such as mine from ever receiving an airing in a court.

So much for the civil courts. But the criminal justice system is no better. Two years ago the Protection from Harassment Act came into force. But again, while the Act is all very well on paper, in practice it is unenforceable in my case, since it would require Police action to see the law implemented, and if the police cannot even be trusted to conduct a murder investigation competently (in the Lawrence case), then what chance is there of their investigating complaints against the Security Service? Of course, it would be possible for me to personally issue proceedings through a private prosecution either against MI5 themselves,

or against one or more of their media tools; but here we see the same problems as with the civil courts, because first of all I would have to find a lawyer willing to act on my behalf. Litigants-in-person do exist in the criminal courts, but the Attorney General can bring such a prosecution to an end by taking it over and entering a plea of "nolle prossequi"; and I suspect that if I were to bring a private prosecution against either MI5 or one of their media tools, then this is exactly what would happen.

So much for British justice. But if anything the wrongs that have been perpetrated on me by the British justice system are quite mild to what others have suffered. Others have been wrongly convicted based on police evasions and lies, and spent many years in jail based on false charges. I should count myself lucky that despite the best efforts of the MI5 secret police, I have not acquired any criminal charges or convictions; which shows that for all their resources and influence, and the clear imperfections in the British legal system, there are still limits on how much subversion MI5 can achieve.

The latest in a long line of injustices

A comment I heard during the recent scandal of the police mishandling of the Lawrence murder investigation is that "its not as if the police themselves murdered him". This is not a particularly wise statement to make about the case, since it could be argued that the four alleged murderers were aided in their crime by the expectation that the police would deliberately botch the investigation - which of course is exactly what the police did.

But in my case, this would be a completely inaccurate thing to say - since the MI5 secret-police have expressly been trying to nine years now to see an end put to my life, either by having me incarcerated and my liberty ended, or by forcing self-termination on me. It is exactly as if the secret police "themselves murdered [me]", since that is what their aim is in their campaign against me.

The public has heard of instances of police mishandling of cases, of police manufacturing evidence, lying in court, extracting false confessions to clear up crimes, et cetera. Various instances of extra-legal activity by the secret services have also come to light in the last few years. The unhappy truth is that what MI5 have been doing to me for the last nine years is really nothing out of the ordinary for them. To me it seems unbelievable that this sort of systematic campaign of harassment, which thousands and thousands of people in this country and abroad are well aware of, could exist for such a long period of time with the media maintaining "omerta". But my case is not the first such instance of persecution by the "British secret police", and judging by the lack of any real controls on MI5, I very much doubt it will be the last.

482. MI5-Persecution: MI5 Have Systematically Destroyed My Life (31050)

Newsgroup: rec.radio.amateur.dx
Date: 2007-12-16 17:53:32 UTC
From: MI5-Victim@mi5.gov.uk
Message-ID: <m07111617532924@4ax.com>

MI5 Have Systematically Destroyed My Life

This is getting depressing. From the feedback Ive received, the recipients of these faxes are tired of hearing my complaints, and in truth I am tired of sending them. The reason I havent yet ceased sending faxes is because I cannot think of any other effective means of replying to MI5s actions against me, and I feel I have to do something to try to defend myself. Three/four years ago I got the MI5 harassment out of my system by posting about it on Internet newsgroups, and for a few months this tactic was quite effective - I received (and indeed still do today) support from newsgroup regulars, and felt I could make my voice heard and break the MI5 monopoly on access to the British media. But that was years ago, and today nobody gives a tinkers cuss about my internet posts - so I have sought to escalate matters by communicating directly with the politicians who allegedly say how this country is supposed to be run.

Of course, its quite expensive to keep up a campaign of fax messages for many weeks. Each set of faxes takes approx 50 hours to send over the weekend, and costs perhaps 35. My phone bill for the last quarter was 350. These figures are naturally insignificant compared to what MI5 have been spending against me over a similar period. It also takes a lot of time and energy to create a new article every week, and try and find new and fresh aspects and viewpoints on MI5s persecution of me. I am beginning to run out of both new topics and energy to write these articles.

So I have a suggestion to put before the MI5 persecutors who have been wrecking my life since 1990. In a few days time I will be going on holiday to Poland and Germany, for a couple of weeks. Previously, almost every time I have travelled by plane, or gone anywhere on holiday, the MI5 "wreckers" have been most assiduous in destroying these trips. My suggestion is; if MI5 leave me alone on this next trip, I will cease transmitting these articles. If, however, there are any clear instances of harassment (and I am very capable of recognising MI5 harassment when I see it), then I will make public these instances and publish any recordings I may make of them, and, unwillingly and unhappily, continue the articles.

Read about the MI5 Persecution on the Web

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Refuse to Allow me to have a Normal Life

Its kind of difficult to contemplate having a normal existence when you know your entire house is bugged from top to bottom, for audio and, very

unpleasantly, video; when your employment is systematically destroyed, over and over again; when every time you leave the country your travel is disrupted by MI5 plants on the plane yelling abuse at you..... you get the idea. I would like to have some semblance of a normal life, like my Polish and English friends do. But MI5 have made this impossible, and they have leached massive resources from the taxpayer to institute a life not worthy of the name on me.

A few years ago MI5 were very open about their aims in persecuting me. They were shouting "suicide" at me, both in Canada where I lived at the time, and during my occasional visits to London. You cant get much clearer than that. There have been instances as recently as a few weeks ago of this intention being voiced by their side; on 15 April 1999, a woman at the next ticket counter at the Royal Festival Hall said;

"it would kill it, you know, it would just be overkill... they can't stop can they"

meaning that "they" were trying to "kill it" i.e. me and they "cant stop". The audio file is at;

I wonder why they "cant stop". Nobody (who doesnt know already) believes my claims - so what difference would it make, if they were to "stop" persecuting me? Perhaps what this persons remarks indicates, is the depth of the obsession MI5 have with this case. They have chosen at random a person from the general population, and done their worst to ruin my life. What is wrong with these people, that they persecute a national of the country whose citizens they are supposed to protect?

No Chance of a Harassment-Free Job

Since the harassment started in 1990 I have had three jobs, the first near Guildford, the second in Oxford, and the third overseas in Canada. All three jobs have been systematically destroyed by MI5. It is so ironic that MI5 employs a team of agents, each well compensated for their efforts, to persecute just one person paid a mere fraction of what they get for their "work". In fact, it is a joke that MI5 is allocated resources for this sort of effort. If this area of government were run along commercial lines then MI5 would be very rapidly closed down, they produce nothing of any value, instead spending their time obsessed with the bugging and surveillance of their former employees like Shayler, dangerous subversives like Straw and Mandelson, and "threats to national security" like yours truly.

Applying for my first post university job

When I was applying for my first post-university job in the closing months of 1990, I found at two or three job interviews that MI5 had got there ahead of me. Interviewers knew what words to repeat from what had been said at my home recently; MI5 had supplied them with words to hurt me, and the "British secret police" were trying to wreck my job search and discourage me from joining the world of work. This and the continuing harassment in the media and by the public meant that the search for a job

took very much longer than it would ordinarily be expected to take for a person with my qualifications.

With my first job near Guildford came the knowledge that MI5 were doing everything possible to make me lose the job. Despite their efforts I managed to stay in work for ten unhappy months, during which they made very clear to me that they were bugging my workplace, my accomodation in Woking, my car, my home..... and they also made clear that they had "got to" my employer in Guildford.

Employment with Oxford

I was able to find a new job, with Oxford Computer Training Services (now ARIS/Oxford), quite quickly. But it became very clear, very quickly, that MI5 were treating this job the same as the first; they tried to get the other employees and in particular the managers to attack me. It was plainly MI5s intention that I be sacked fro this job. But I was not sacked; instead, after almost a year of abuse from OCTS managers, I was forced to seek medical help, and had to take two months off for medical leave. OCTS MD Hugh Simpson-Wells was motivated in keeping me on by the fear that if he sacked me, then I would take him to court for the treatment OCTS managers had meted out to me during 1992.

Emigration to Canada

When I emigrated to Canada in 1994, I did think that perhaps MI5 would leave me alone, given that I had made the effort to leave the UK and try to find a new life overseas. I could not see any reason why they would continue to harass me over in Canada. But clearly the MI5 agents had their salaries to think about, since continue to harass me they most certainly did, at my home in Ottawa, and by getting fellow employees to speak against me, as had happened with previous jobs in the UK.

MI5 are denying me a future in work

Former Chief Constable of Devon and Cornwall John Alderson had this to say regarding MI5's activities;

"MI5 is not under the same restraints as the police. They infiltrate organisations, people's jobs and lives. They operate almost like a cancer."

Currently I am on disability, and I can see that MI5 are denying me a future in work. It would be an insult to logic for me to return to work and find a job, in the knowledge that an entire team of MI5 agents, paid in total many times what I would be earning, would have the objective of seeing me "done down" in the employment, and ejected from the place of work. This situation is completely wrong and nonsensical - I would very much like to have a job, but MI5 are preventing me from even thinking about returning to work. The culture of secrecy in MI5/MI6 means there is no objective oversight of their expenditure, when external oversight and greater transparency might lead to wasteful and illogical operations such as that against me being shelved.

Watched and Harassed at my Home and Accommodation

As you will know if you have been reading these articles, MI5 have watched and harassed me at my home, and at every accommodation Ive had since 1990. Theyve also watched me at neighbours houses in London, and at short-term accommodation such as hotels and bed-and-breakfasts. They have used the "words" gained from these watching activities against me, by passing these words on to other people such as OCTS managers for them to make clear that I am being watched where I live.

Harassed at rented rooms in Oxford in 1992

This was at its worst in 1992 in Oxford, where during the week I lived at rented accommodation in Oxford, and at weekends returned to my parents home in London. I was being severely harassed by managers at my place of work, OCTS; and it was clear from the things they said that they were being supplied by MI5 with details of my home life, that they were being supplied with words to repeat at me.

In 1992 I moved house in Oxford many times, living at a total of five rented accommodations in ten months. In January I started off living in a rented room at Headington near the ring road / A40 intersection; then when it became clear that house was being bugged, moved to a rented room in Botley, some miles away. It was at the house in Botley that I had an "interactive watching" experience with Martyn Lewis while he was reading the news; I threw a term of abuse at him; he first flinched, then gave a gsult of what I had just said, he was no longer "on my side".

So I moved house again. This time to a place in Cowley, near the Rover car works, where I stayed for a few weeks. Because of continuing harassment at work, I soon moved from this accommodation, to yet another rented room on Iffley Road. By this time I was very ill and being abused continuously at work. Again, MI5 followed me to the rented room on Iffley Road, and created new instances of "newscaster watching". There was a television in the room which I watched, and as you can guess the newscasters got at me when I was watching the television. Also once I was assaulted, if thats the word for what happened, on leaving the house; a youth grabbed me by the coat lapels, roughed me up a bit with various terms of abuse. I did not report this assault to the police, because what was happening to me at work was very much worse, and nobody seemed to think that that was worthy of being reported to the police. Later that day at work, Alex G, a fellow employee, said "I heard he was assaulted".... I had not told anyone at work about the incident that morning..... so once again it was made very clear that MI5 were watching my rented accommodation and giving information about what was going on there to managers at work.

So I moved house yet again in late autumn 1992, this time to a rented room in a large house on Woodstock Road. I stayed there for several weeks as the situation at work deteriorated due to OCTS managers abuse, until I was forced to take sick leave from work for two months and attend hospital as an outpatient; at which point I gave notice on the room, and returned to London.

MI5 continued to harass me after the diagnosis of serious illness was made. As reported previously, they harassed me on a flight to Spain in December 1992; and in 1993, when I returned to live and work in Oxford, they again bugged my rooms, as well as my workplace, although the intensity of the harassment was very much less than in 1992.

Watched, followed and harassed in Canada

It dismayed me to find that MI5 would not leave me alone after I had settled in Canada. In January 1995 I rented an apartment at the Bayshore complex in Ottawas west end. For some weeks there was no sign of the "buggers". But then it started all over again. They first bugged my car, which had a car alarm installed - the alarm went off two or three times in a single evening, and the following day gave a signal that the car had been broken into. Then they bugged my apartment, and in particular they installed bugs on the phone line in my apartment.

In September 1995 I moved to a new apartment in Ottawas Bytown Market area, the restaurant and entertainment heart of Canadas capital. This proved a serious mistake. In the west end I had been fairly distant from the centre of town where MI5 concentrated their efforts at turning people against me. In the Market area it was much easier for the persecutors to motivate people to harass me, and over the next couple of years there were frequent instances of harassment by the general public.

From 1995 I had some Polish friends in Ottawa, and as the reader can guess, MI5 have spent much effort trying to break up this friendship. They supplied various things about my home life to these friends, for example where I was living in the Market, directly over the road were the studios of a music radio station, which you had to "look up" to see; and MI5 told these friends that I was "looking up" to see the radio station; so the friends then replayed these words back to me, that I was "looking up". MI5 have also made various sexual slanders against me, and these friends also unwittingly replayed some of the words they had been imprinted with by the MI5 persecutors.

MI5 Will Never Allow Me to have a Normal Life

I have heard many excuses as to why MI5 continuously prevent me from having a normal life. We are told that MI5 are defending the country against a tere to zero.

When I have travelled abroad, they always put their people on the flights, on the journeys I undertake, to continue the harassment, so that I am put off further overseas travel, and chained to my home in London. Yet even this is illogical, because when I lived in Canada, they would still put people on flights back to the UK.... and what possible reason would they have for doing that? Perhaps the truest words to describe the MI5 persecution is that reason has nothing to do with their activities - sane people do not behave in the way the MI5 British Secret Police have been doing.

Summer 1999 - more MI5 harassment?

In only a few days time I will be going to Europe again. This time I have deliberately chosen to travel by a non-UK airline; so we will see if they put their paid agents on this foreign carrier, we will see if they try to harass me on this non-British flight.

If they do harass me on this trip to Europe, or if they resume the harassment in London after I return home, then I will continue to report their activities in these faxes. As I said at the beginning of this article, I would very much like to not have to send these articles any more, but that is not my decision to make - it is entirely up to MI5 to cease their pointless persecution of me, once and for all.

December 17, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1DG, NJ1Q, KF2TI, NG3K, W3UR & The Daily DX, KP4BJD, N4AA & QRZ DX, K5KG, AA8EY, K8YSE, N0VD, DX-IS News Site, Pete's-DX-Newsdesk, DJ2YA, DK8JB, DL7MAE & The DX News Letter, EA5OL, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JA1ELY, LZ1ZF, MW0USK, ON4AEO, PG7V, RSGB IOTA Web Site and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 9th-December, through Sunday, 16th-December there were 218 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4O, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E4, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, JA, JD/m, JD/o, JT, JX, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PY0F, PZ, S0, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, V8, VE, VK, VP2V, VP5, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XF4, XT, XU, XW, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA. Tony, 3D2AG, reportedly has made it to Rotuma Island and has been busy with his work assignment. By the time you read this he should be active as 3D2AG/p until end of January. Logs will be sent to Sam, FK8DD, and will be posted on: http://www.3d2ag.fr.tc/

3Y, BOUVET ISLAND (AN-002). Operator Petrus, ZS6GCM, is expected to be active as 3Y/ZS6GCM from Bouvet Island, probably for the next three months. He is with a five member team on the island and is their medic. The operator does have a vertical antenna for 40/20/15/10 meters but no amplifier. He is also a newly licensed amateur and has no experience in pile-ups. So, please go easy on him. Activity will be during his spare time only.

3 STEVE'S & W1AW. Once again the famous 3 Steve's (Steve/KF2TI, Steve/ N2IFA, Steve/KB2ENF and Kurt/W2MW [aka Steve]) will be guests operating at the ARRL station, W1AW, Wednesday December 26th, from 1700-2045z. This is their 15th annual WAS (Worked All Steve's) DXpedition to Newington, and they will be operating the following bands:
30m CW - Kurt (aka Steve)
40/20/15m SSB - Steve, Steve and Steve
17/10m - Andrew/N2IFB and Eric/K2EMZ will also be operating as "Steves"
Steve/KF2TI, states, "Hopefully condx will improve, and we will try to listen for outside the US. Packet spots will be posted." If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed as they will have copies of the log and send out a certificate to all those who qualify. If you want a W1AW QSL card, please send to them direct or via the bureau. The logs will be posted after January 1st on their website: http://the3stevesarc.org/
PLEASE NOTE: This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steves Amateur Radio Association - WK3SS (all rights reserved), and they are responsible for the printing and sending of the 3 Steve's and a Kurt Worked All Steve's certificate (suitable for framing).
Steve/KF2TI, states, "We would like to thank the ARRL for allowing us to play with their great toys and putting up with us each year. Hope to work you then."

5H, TANZANIA. Pat, W8FV, will be returning to Mwanza sometime this week (possibly December 20th) and is expected to be active as 5H9PD until he returns stateside January 12th. Activity will be mostly on CW on 40-10 meters depending on propagation. He is going to try 80 meters but with only just 100 watts, and he doesn't know how successful he will be. He will also be active on PSK31. QSL via his home callsign.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, will once again be active from Africa and will also activate again both Senegal (as 6W2SC) and Guinea-Bissau (as J5UAP), between January 15th and April 15th. His activity from Senegal (6W) will be mostly Digital with some SSB on 160-6 meters. Activity from Guinea-Bissau (J5) will be on 30-10 meters. His operations will be limited to his spare time and possibly other available longer periods. QSL via HA3AUI direct, by the bureau, LoTW or e-QSL.

7P, LESOTHO. Belgium operators and members of the Radio Club Secunda will be active as 7P8FC from Katsdam between March 27th and April 1st (2008). Operators/members mentioned are Filip/ON4AEO, Kath/ON7BK, Gert/ ZS6GC, Sid/ZS5AYC, Lucas/ZS6ACT, Tom/ZS6TMO, Adele/ZR6AP, Steffi and

Elna. Activity will be on 80-10 meters. Here are the following suggested frequencies and modes:
SSB - 3780, 7063, 14185, 18136, 21290, 24930 and 28490 kHz
RTTY - 3590, 7040, 14084, 18104, 21084, 24924 and 28084 kHz
PSK - 7038, 14072, 18102, 21072, 24922 and 28122 kHz
QSL via ON4CJK. More details will be forthcoming once their new Web site is complete at: http://www.7p8fc.be

C4, CYPRUS. Look for members of the Pafos District of the Cyprus Amateur Radio Society (CARS) to be active as C4EURO throughout the new year in 2008. Activity is to celebrate the official currency of the Republic of Cyprus changing from the Cyprus Pound to the Euro on January 1st. Look for operations to be on the HF and VHF bands, CW, SSB and the digital modes. QSL via 5B4AGC.

E4, PALESTINE. Operators Mike/OM2DX, Steve/OM3JW, Rudy/OM3PC and Miro/OM5RW are now active as E4/OM2DX until December 22nd. As this was being written, they were pleasing many on 160 and 40 meters. Look for them to be active on all bands from 160-10m using CW, SSB and RTTY with two stations. QSL via OM3JW. Updates and online logs are available at: http://www.om2dx.com/e4.html

E5, SOUTH COOK ISLANDS (Story Wrap-up). The complete story wrap-up and QSL information on the recent DXpedition to the South Cook Islands by George/K5KG (E51MMM) and Ron/KK9K (E51NNN) that took place between November 12th and December 1st, is available at: http://e51mmm.blogspot.com Their operation was on all HF bands, primarily on CW and some SSB. They concentrated as much as possible on 160m and 80m. They also operated as E51A, Multi-Two in the CQWW CW Contest, November 24-25th.

E100, IRELAND. Look for special event station EI100SI to be active from January 1st to December 31st, 2008, to celebrate the 100th anniversary of the Boy Scouts in Ireland. QSL route will be posted on QRZ.com.

FO/M, MARQUESAS ISLANDS. Operators Jouko/OH1RX, Pertti/OH2PM, Veijo/OH6KN and Juha/OH8NC will be active from Nuku Hiva (OC-027), January 9-22nd. Activity will be on 160-10 meters with a maximum of three stations running. However, they plan to concentrate on 160-30 meters. Here are the following suggested frequencies:
CW - 1822, 3502, 3523, 7008, 7023, 10108, 14008, 14023, 18068, 21008, 21023, 24898 and 28008 kHz
SSB - 1845, 3790, 7050, 19195, 18145, 21295, 24945 and 28495 kHz
RTTY - 14080, 21080 and 28070 kHz

A Web page and callsigns will be announced later. QSL via OH2PM, direct or by the bureau.

GP4, GUERNSEY (EU-114). Members of the Barry Amateur Radio Society (GW4BRS) will activate the special club callsign/prefix GP4BRS on a number of bands and modes from April 19-26th (2008). The team so far includes club members from Wales and Germany, Glyn/GW0ANA, Curtis/MW0USK, Markus/DL9RCF, Alois/DL8RBL and Franz/DJ9ZB. QSL route is direct via

manager GW0ANA or RSGB Bureau.

IOTA NEWS.....
NA-009. Hisato, JA1DOT, is expected to be active as VY0/JA1DOT from
(Zone 2) Resolute Bay, Cornwallis Island, between December
18-27th. Emphasis will be on the lower bands, SSB, CW and
RTTY using a vertical antenna with 500w. Hisato does have
a Web on his 2001 Dxpedition to Resolute Bay at:
http://www1.famm.ne.jp/~ndxa/pedi/vy0-2001/vy0-2001.html

NA-128. Operator Igor, VE3ZF, will be active as a VE2IDX from Orleans
Island (CISA QC-007) on December 28-29th during the RAC Canada
Winter Contest. Before and after the contest he will use his
regular callsign VE3ZF/2. His main suggested frequencies
are 14260 kHz (daytime) and 3795/7260 kHz (during the night).
SKEDs are welcome via: Igor.Slakva_at_smithsdetection.com
This is a good chance to start working for the Canadian Islands
Trophy (CISA Award program). Rules concerning the CISA Award
program can be found at: http://www.qsl.net/ve3tpz/cisa
QSL via VE3ZF: Igor Slakva, 105 La Rose Avenue, PH #1410,
Etobicoke, Ontario, M9P 1A9 Canada.

OC-142. Steve, G0UIH, will be active as VK2IAY/4 from Great Keppel
Island, December 16-22nd. Activity will be centered around
14260 kHz, with the possibility of some operations on 17/15
meters also. QSL via his home callsign, direct or by the
bureau. Check out the following Web site for further details
at: http://www.percy.me.uk

LZ130, BULGARIA (Special Event). Members of the Balkan Contest Club LZ1KZA
(LZ5A) will actiavte the special event callsign LZ130LO from January 1st
to March 31st (2008). Activity is to commemorate the 130th anniversary of
the liberation of Bulgaria from Ottoman yoke by Russia. QSL to LZ1KZA via
Bureau. QSLs are printed by Gold Print Service - http://www.lz3hi.com
A special award will be issued: European stations must establish 5
two-way contacts with LZ130LO on different bands or different modes,
(for DX stations - 3 contacts). The same rules are for SWLs. The fee for
the Award is 5 EUROs or 10 IRCs. Mail to: Balkan Contest Club LZ1KZA,
P.O. Box 36, 4300 Karlovo , Bulgaria.
Amateur radio stations from Russia and countries whose solders took part
in Russo-Turkish War of 1877-1878, like part of the Russian army will
receive the award free of charge. These countries are: Armenia, Belarus,
Bulgaria, Estonia, Finland, Georgia, Latvia, Lithuania, Moldova,
Montenegro, Romania, Serbia and Ukraine. For these 14 countries the awards
will be send to their national QSL Bureaus. Also, a QSO with LZ130LO counts
for 10 points towards the "St. Teodosii Tyrnovski Award":
http://www.balkanclub.org/awards.htm
PLEASE NOTE - See the following Web sites for info on the war:
http://en.wikipedia.org/wiki/Russo-Turkish_War_%281877%E2%80%931878%29
http://en.wikipedia.org/wiki/Treaty_of_San_Stefano

NEW AWARD AVAILABLE. Paco, EA5OL, informs OPDX that there is a new award available. Details of the new "WORLDLAKES Award" can be found on the Web site at: http://worldlakes.info

NEW DXPEDITION VIDEOS AVAILALBE. James Brooks, 9V1YC, has released two new DXpeditions videos. They are the 2007 BS7H Scarborough Reef DXpedition and the 2006 ZL8R Raoul (Kermadec) Island DXpedition videos. These videos will provide a look at a superb behind the scenes (as well as dangerous and successful) DXpeditions. If these videos are anything like James' previous videos (which were great!), they will be a great holiday gift for the DXer in your family or DX friend, or even for your DX club's viewing. Videos are only 25 USDs. These two new videos (and his previous videos) are available at: http://www.dxvideos.com

OOOPPPSSS DEPARTMENT. Two small corrections to OPDX.836. Under "CU2, AZORES" a Web link was left out. The Web site should be: http://ea1fch.ure.es/log_novo.htm
Also, under "SATELLITE DX REPORT (by John, K8YSE)" the AO7 satellite is an CW/SSB satellite (not an FM/SSB satellite as stated).

PA, THE NETHERLANDS (Special Event Callsigns). Look for the following special event Christmas callsigns to be activated in The Netherlands between December 20th and January 6th (2008). There will be 8 special event callsigns activated. QSL route for each special event station is via the operator. The following stations are also valid for the "Christmas 2007 Award" (See info at: http://www.pg7v.net/xmas2007):

Callsigns	Operators/QSL Managers	Callsigns	Operators/QSL Managers
PA07XMAS	PG7V	PD08HNY	PD0EMR
PC07XMAS	PA3AM	PF07XMAS	PA1WLB
PD07SANTA	PD0AT	PG07XMAS	PA7JWC
PD07XMAS	PD2J	PH07XMAS	PA4CHE

PZ, SURINAME. Operators Stan/AC8W, Hank/K8DD, Jim/KB8TXZ and Jay/W5JAY will be operating from the QTH of Ramon/PZ5RA, February 13-18th. Activity will be on all bands 160-10 meters that will include the ARRL DX CW Contest (February 16-17th) as a Multi-Single entry. Operators are currently awaiting for their callsigns. QSL info will be announced at a later date.

QSL INFO AND NEWS.....
QSL MANAGER FOUND (Update): Kelly, N0VD, reports: "Given the amount of guys that have offered their QSL managerial services, I thought it best to reply to the list rather than individually as I'm still getting offers. I was amazed at the caliber of managers that stepped forward. It was a tough decision, but I have chosen Joe Arcure, W3HNK, as my new manager. Joe seemed the best fit, and I have no doubts he will do a bang up job of cleaning up my backlog and tending to new requests in a timely manner. So, beginning immediately please send all QSL requests to W3HNK for the following calls: KE9KD, N0VD, VP5/N0VD, VP5D (2005 - present only for my QSOs. Joe also manages the original VP5D call holder), J3/N0VD, PJ2/N0VD and PJ4/N0VD. I have a handful of direct QSLs that I will be replying to shortly. If you have sent a bureau card for any of the above calls, it will be forwarded to Joe, and you should have a reply back to

your bureau soon. Thanks for everybody's patience while the backlog is
cleared up, and thanks to everybody for their offer. Please spread the
word. 73 Kelly - N0VD"

QSLS VIA LOTW: 3X5A, T30R and T33RD

QSLS RECEIVED VIA MAIL: 3B7C, 5X1NH, 8Q7GS, A52AM, F5KAQ/P, HQ9R,
JW/G3SXW, K3B, KH7XS, NH7O, RK1B/p, TA3J/0, TC2K4J, XW1A, Z36A,
ZB2X, ZD7X and ZL3RG

QSLS RECEIVED VIA THE BUREAU: CS2P, CU2A, GB6WW, GB8RU, KG9N/VP9, VE3SY
and VE6FI

S0, WESTERN SAHARA. Fernando, EA1BT, has been active as S05A over the
past few days on 40/20 meters SSB. His length of stay is not known. QSL
via EA1BT.

TN, REPUBLIC OF CONGO. Phil, 9Q1TB, showed up this past weekend as
TN/9Q1TB/p on 17 and 20 meters SSB. Gabe, KP4BJD, who talked to him, was
told that Phil is only running 30 watts and a "low profile antenna" from
Impfondo (his QTH) on the bank of the Ubangi River. He is expected to
return to Kinshasa this coming Tuesday. QSL via SM5DJZ.

V5, NAMIBIA (Topband Activity). Uli, DJ2YA, has announced that Frank,
V51AS, will be active on Topband on 1826 kHz +/-, December 22nd and
23rd.

V6, MICRONESIA. Kazu/JA0VSH and his XYL Miyuki/JG0PBJ will be taking
their New Year vaction on Pohnpei Islands (OC-010), Micronesia, between
December 28th, and January 3rd (2008). Kaz will operate as V63KZ and
Miyuki as V63MP. Also, they will use the club callsign V63BBQ. Activity
will be on 160-10 meters, CW and SSB. No RTTY this time, but Kazu is
interested in 160m and will use a 500w amp. Send all QSLs direct to
JA0VSH: Kazuhide MARUYAMA, 1-25-49 Iruma, Chofu, Tokyo 182-0004 Japan.

XT, BURKINA FASO. Michael, F1IQH, is now active as XT2WC from Bobo Dioulasso
until January 5th. Activity so far has been on 20 meters SSB (14145, 14175
and 14220 kHz). Watch after 0800z and again 1500z. QSL via F1IQH.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy Holiday and Season's Greetings". Thanks to the individuals who sent holiday wishes to my family and me. I tried to answer all of them this time around..... 73 and Have a Great Holiday de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 16th-December, through Sunday, 23rd-December there were 219 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 3Y/b, 4J, 4L, 4O, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9X, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0Y, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E4, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, JA, JD/m, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S0, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TN, TR, TT, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V4, V5, V7, V8, VE, VK, VP2M, VP2V, VP8, VP8/o, VP9, VQ9, VR, VU, XE, XF4, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZD7, ZF, ZK2, ZL, ZL7, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

3B7C DVD VIDEO AVAILABLE. Don, G3XTT, FSDXA Publicity Officer, informs OPDX that the 3B7C DVD is available now! Don states, ... "View a colorful and comprehensive account of life on Ile du Sud, Saint Brandon, during the 3B7C DXpedition." Neville Cheadle, G3NUG, states, "137,500 QSOs with no sunspots from the remote island of Ile du Sud - this is the story of 3B7C." The price is £12.50, USDs 25, Euro 20 or Yen 3,000 including p&p. Also included is the 3B9C Rodrigues video - two for the price of one! Each video runs for approximately 45 minutes. To order your copy, go to http://3b7c.com and click on "Order the Video" which has all details of payment methods.

3D2/R, ROTUMA. Tony, 3D2AG, is now very active as 3D2AG/p until the end of January. Most of his activity has been on 20 meters CW, but he has been on 20 meters SSB and 40/17 meters CW. Logs will be sent to Sam, FK8DD, and will be posted on: http://www.3d2ag.fr.tc/

4S7DXG (Illegal Operation). Victor Goonetilleke, 4S7VK, Secretary RSSL, reports: "I am sorry to inform you as the Secretary of the Radio Society of Sri Lanka that Ivan, a Ukranian Ham, is operating without a valid licence. He had a Sri Lankan callsign from a previous occasion, and he applied for a renewal which has not been granted yet from the Ministry of Defense. In the meantime he is stealthily operating and also claiming to operate from IOTA 171 Barbaryn Island which needs special clearance from the Harbour Master which he hasn't received, while operating from elsewhere in Sri Lanka, again without a valid license. No one is permitted to land without this clearance on Barbarine. We have brought this to the notice of the authorities. Last time when he was in Sri Lanka he operated with his Maldivian callsign while in Sri Lanka. We are sad to say that any contacts by him should not be counted as valid."

3Y, BOUVET ISLAND (Update). Rhynhardt, ZS6DXB, reports (edited): "On December 19th, Petrus, ZS6GCM, was granted temporary permission to operate an Amateur Radio Station for the duration of the 2007/2008 scientific expedition from Bouvet Island. The callsign will be 3Y0E. We would like to use this opportunity to thank Tom V. Segalstad, LA4LN, and Trond Olsen, LA8XM, for the wonderful help and time they dedicated in obtaining permission to operate from Bouvet Island. Secondly, we would like to welcome Colin McGowan, MM0NDX, to the team. Colin has donated a dedicated Web site for the expedition and will act as the webmaster. We are hoping to receive regular logbook updates from Petrus via satellite phone and will have a logbook search page where you can look if you are in the log. The official 3Y0E operation Web page address is: http://www.3y0e.com
The site is under construction, and we plan to have it fully operational in a couple of days. Feel free to visit the site on a regular basis for the latest news from Petrus. Emil Stoikov, LZ3HI, has begun design on the 3Y0E QSL card. Emil has donated the QSL card design and printing free of charge. He will also act as the official QSL Manager for 3Y0E. Previews of cards that were designed and printed by Emil can be found on his Web

page at: http://www.lz3hi.com
We look forward to present you all with the official QSL card when it is done. 3Y0E QSL information is: Emil Stoikov, P.O. Box 8, 6000 Stara Zagora, BULGARIA. Petrus will be notified via Satellite phone of his new callsign and permission to start operating. We certainly look forward to bring you more exiting news in the near distant future." Just a reminder, operator Petrus, ZS6GCM, is expected to be active from Bouvet Island, probably for the next three months. He is with a five member team on the island and is their medic. The operator does have a vertical antenna for 40/20/15/10 meters but no amplifier. He is also a newly licensed amateur and has no experience in pile-ups. So, please go easy on him. Activity will be during his spare time only. Also, Rhynhardt, ZS6DXB, is the 3Y0E Pilot Station and Media Officer. His E-mail address is: zs6dxb@kats.za.net

5Z, KENYA. Ben, DL7UCX, will be active as 5Z4/DL7UCX from December 31st through January 12th. Activity will be on 160-17 meters, mainly on CW and a focus on the lower bands. This will be a holiday style operation using 400 watts into a 18m vertical. QSL via DL7UCX, by the bureau or direct.

8Q, MALDIVES (AS-013). Andrew, G7COD, will once again be active from Embudu Island, South Male Atoll (WLOTA L-3911), using the callsign 8Q7AK between January 21st and February 2nd. This will be the fourth time being active from here. Activity will be mainly SSB with some CW. He plans to be operational everyday (approx.) between 0900-1100z, 1400-1600z and 1800-1830z. Suggested frequencies are: 7093, 10123, 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz). For complete details of operating times, suggested frequencies, QSL information etc...., please check 8Q7AK on QRZ.com. QSL via G7COD, direct or by the bureau.

9H, MALTA (EU-023). Horst, DJ6OZ, will be on holiday and active as 9H3HW between December 23rd and January 5th (2008). QSL via DJ6OZ, by the DARC Bureau or direct.

9L, SIERRA LEONE. Norbert, 9L1FZ, is currently is active and has been heard 20 meters SSB. His transmitter varies with output using 60-100 watts (depends on battery voltage). His antenna system is a homemade loop 20'x60' with SGC automatic tuner, estimated 10 ft. above ground (medium dry soil and rock), with tropical vegetation around and above. We were told the QSL info is via " qsl.9l1fz@mac.com ".

BS7H VIDEO REVIEW (by Editor Tedd, KB8NW). "Let me first say I am a big fan of James Brooks's, 9V1YC, videos. They are all PBS quality videos. If you worked the last BS7H operation in May of 2007 (or even if you didn't), you will want this DVD for your collection. There are 58 minutes of pure pleasure in knowing you worked a rare one (or at least tried to). The video gives you the complete lowdown on how Scarborough Reef became DXCC's most controversial entity, the history of the island, past operations, the difficulties of operating from there and the actual operating conditions. This only touches the surface of the video. James's keen eye for great cinemaphotography is unbelieveable in this

DVD (probably better to view it on a big screen). The underwater shots and the sunsets and rises are a real joy. There are also plently of commentaries by key individuals including operators, pilot stations and past operators. You will also see how difficult and dangerous it was for the operators to operate from the four different rocks stations. You will see how operators endured skin cuts on their feet and knees while dragging their boat over the sharp coral reef between their main boat and operating positions on the four rocks. This is only a glimpse of what you will see. This DVD is definitely a five star video." The BS7H video is available at: http://www.dxvideos.com
NEXT WEEK: The review of the 2006 ZL8R DXpedition video.

CQIR WINNERS (CQ - Ireland Calling). A press release by Paul Martin, EI2CA, the P.R.O. for the IRTS, announced the following winners of the "CQIR - Ireland Calling" on December 19th: "In September 2007 the IRTS (Irish Radio Transmitters Society) organised 'CQIR - Ireland Calling', a contest to celebrate the society's 75th anniversary - giving a chance of winning a trip to Ireland, for 2 people, for each and every 75 valid QSOs logged. There were 53 entries in the draw, representing 20 countries - all the way from GW to ZL - and the winner is Ian "Wilf" Prater, M0WLF, of Bristol, England. He had over 300 QSOs and qualified for 4 entries. Wilf is a member of the Bristol Contest Club and has previously visited EI for the IOTA Contest. He can now look forward to a week in Kinnitty Castle, County Offaly. Living in Bristol, Wilf may be closer to Ireland than any other entrant, but he says he will probably travel long path this time. EI/GI entrants had a separate draw for a trip to New York City for two people, to include a visit to the ARRL HQ in Newington, Connecticut. The winner is Declan Horan, EI9FVB, of Ballincollig, County Cork. Declan had 175 QSOs and 2 entries in the draw. IRTS thanks all who took part in CQIR. We're only sorry we can't offer the same prizes every year."

CQ MAGAZINE NEWS (St. Barthelemy [FJ] to Count for CQ DX Awards). From the CQ Newsroom: "CQ DX Awards Manager Billy Williams has announced that the Caribbean island of St. Barthelemy - prefix FJ - has been added to the CQ DX Awards entity list, effective immediately, for confirmed contacts with the island made on or after February 21, 2007. For purposes of the CQ DX Field Awards, St. Barthelemy is in grid field FK.
Until now, the island (along with surrounding smaller islands) has been considered part of French St. Martin (FS) for awards purposes. Last February 21st, the French government gave St. Barthelemy a new status as an 'overseas collective', leading the U.S. State Department last Friday (December 14th) to add the island to its list of 'Dependencies and Areas of Special Sovereignty.' Presence on this list is one of the criteria used to designate a location as a separate entity for award purposes. The ARRL was expected to add St. Barthelemy to its DXCC list in the near future as well."
ADDED NOTE: Rich, W2VU, states: "Hi all - Just one note regarding FJ - For purposes of CQ awards, it is a separate entity as of Feb 21, 2007, the date that France changed Barthelemy's status. So for the CQ DX Marathon (and any other CQ awards), any contacts with FJ on or after

Feb 21, 2007, count as a separate entity. I bring this up only since
the DXCC date is Dec. 14, when it was added to the US State Dept.'s
special list."
For more information on the CQ DX Awards, visit the following link
on the CQ website at: http://www.cq-amateur-radio.com/awards.html
Or the CQ DX Awards homepage at:
http://home.earthlink.net/~bfwillia/page3.html

CU2, AZORES. Michael, G7VJR, will be active as CU2/G7VJR from Ilha de
Sao Miguel (AZ-002 for the Portuguese Islands Award, WLOTA L-2016),
December 26th through January 3rd. Activity will be CW only on various
HF bands including 160 meters. QSL via G7VJR. Logs will be uploaded to
LoTW shortly after the operation.

CY0, SABLE ISLAND (Update). The callsigns for the 6 meter DXpediton
planned in 2008 between June 25th - July 5th, have been announced. Look
for Sable Island (NA-063, CISA NS-004) to be activated by Pete/VE3IKV,
Dick/K5AND, Chris/W3CMP, and Bill/W4TAA. Activity will be on CW and SSB.
The fixed 6m station (in FN93) will use the callsign CY0X and CY0RA (for
the portable station in GN03). The fixed station will use 800 watts into
a 7 element beam up 40 ft. The portable 6m station in GN03 will have 100
watts into a 5 element beam up 30 ft. Other references are: Sable Island -
East Lighthouse (ARLHS SAB-001, TWLHD WLH CY0-001, WLOTA:0758, WW Loc.
GN03CX) and Sable Island - West Lighthouse (ARLHS SAB-002, TWLHD WLH
CY0-002, WW Loc. FN93XW).

DAYTON CTU 2008 (Update - Registration). Tim Duffy, K3LR, CTU Chairman,
reports: "I am pleased to announce that 'early bird' registration for
Dayton ConTest University (CTU) 2008 is now OPEN. The CTU staff is working
hard to prepare an interesting and informative curriculum for 2008. CTU
will be held in Dayton, Ohio, on Thursday, May 15th, 2008. CTU 2008 will
feature some of the best Radio Contest operators and station builders
("CTU Professors). They will present state of the art contesting topics
that will increase your knowledge and fun. Thanks to Icom for their support
of CTU 2008 and our contesting radio sport. For CTU 2008 details and
registration, 2007 CTU wrap up and more information, go to:
http://www.contestuniversity.com
Please make sure that you click on the registration page and indicate if
you are a returning CTU graduate "Graduate School" or this is your first
time attending CTU. Based upon the tremendous attendance at CTU 2007,
I expect the CTU 2008 student registration slots will fill up fast.
Space is limited. Hope to see you at CTU 2008.... Thanks to Scott, KA9FOX,
and QTH.com for his hosting of the Contest University Web site!
Merry Christmas and 73! ... Tim, K3LR"

DXCC NEWS.....
NEW DXCC ENTITY. The following was sent out via W1AW (edited):
On December 19th (in ARLD052), the ARRL DXCC Desk announced the addition
of St. Barthelemy (FJ) to the DXCC List, making the island entity number
338 with an effective date of 14th December, 2007. Cards with contacts
dated December 14th, 2007, or after will be accepted for DXCC credit. New

card submissions for St. Barthelemy will not be accepted until January 1st, 2008, in order to allow time for administrative adjustments.
The "event date" that caused St. Barthelemy to be added to the DXCC list was December 14, 2007, the date the U.S. State Department Fact sheet was updated by the Bureau of Intelligence and Research. This update added St Barthelemy to the List of Dependencies and Areas of Special Sovereignty with its Administrative Center in Gustavia, qualifying it under DXCC rules in Section II -- 1 Political Entities (c). French St. Martin (FS), while also added to the List of Dependencies and Areas of Special Sovereignty, will remain on the DXCC List, but it is now considered a Point 1 Political Entity under the same classification as that of St Barthelemy.
Please direct any questions you may have about St. Barthelemy, St. Martin or the DXCC program to the ARRL DXCC Desk at: dxcc@arrl.org

2007 HONOR ROLL PROCESSING: Bill Moore, NC1L, ARRL DXCC MANAGER reports: "Because of the addition of Saint Barthelemy to the DXCC List, DXCC will prepare its 2007 Honor Roll listings for a future issue of QST based upon applications postmarked no later than December 31, 2007.

END OF DXCC YEAR REMINDER! Bill Moore, NC1L, states: "This is a reminder that in order to receive the free edition of the 2007 DXCC Yearbook you must have a submission dated within the 2007 calendar year. If you do not make a submission, but you are current on the DXCC Honor Roll (current entity count of 328 or higher), you automatically qualify. If you have made a submission in the past weeks, and you do not see it listed yet, as long as your application is postmarked on or by December 31, 2007, your application will be credited for your 2007 submission. If you plan a 2008 submission, it is a good idea to wait until January to mail it.
We here at DXCC would like to take this time to wish you and your families a Happy, Healthy, Safe and Enjoyable holiday season and all the best for 2008! And, oh yes, good DX too!... 73 es DX!"

A NEW LOOK FOR TWO ARRL CENTURY CLUB AWARDS: The ARRL has completed the finishing touches on certificates issued through the 5-Band DXCC (DX Century Club) and VUCC (VHF/UHF Century Club) programs. The awards program staff worked with the ARRL in-house graphic designers to create a fresh new look for these traditional awards. To see the new look, visit Web pages at: http://www.arrl.org/awards/vucc
http://www.arrl.org/awards/dxcc/rules.html#si
Or on the DXCC Dialog Weblog at: http://www.arrl.org/blog/DXCC%20Dialog

C56JJ GOOD FOR DXCC: Jan, PA4JJ, informs OPDX that his recent C56JJ DXpedition to The Gambia between December 1-10th has been approved by DXCC.

DX MARATHON (Update). John, K9EL, CQ DX Marathon Administrator, reports: "CQ Magazine's 2007 DX Marathon will soon come to a close. Since St. Barthelemy, FJ, was just added to the DXCC list, a new version of the DX Marathon scoresheet (V6) is now available on the DX Marathon website. However, since many participants will have already completed their sheets,

we will accept the older version with FJ contact information submitted separately in an E-mail. The official DX Marathon website is: http://www.dxmarathon.com
This years contest ends December 31, 2007, at 2359z."

FH, MAYOTTE (AF-027). Georg, DK7LX, will be active as FH/DK7LX from June 11-23rd (2008). Activity will be mostly CW on all bands with an emphasis on 80/40/30 meters. Operation will be holiday style, using vertical arrays as well as dipoles. More details will become available in 2008 and look for updates on his Web page at: http://www.dk7lx.mayotte.2008.ms/

FJ, ST. BARTHELEMY (NA-146).....
Operators Martti/OH2BH and Olli/OH0XX continue to be active as FJ/OH2AM from this new DXCC entity (see DXCC News above) until December 27th. They have two stations active (one on SSB and one on CW) using an FT-1000MP and FT2000MP along with Fin Fet amplifier. Most of the activity over the past week as been on 20 meters SSB and 40/17 meters CW. Their goal for this operation is to give as many DXers as possible a new country. Additional bands may be added heading towards the end of the DXpedition. QSLs for this operation go via OH2BN.

Also, active this past weekend was FJ5KH. This is the club station of the "Radio Club of the Association des Radio-Amateurs de St. Barthelemy". Club members DK6ST, FJ5AB, FJ5BC and FJ1CM came on the air early Saturday morning and were expected to end on Sunday evening. DO NOT WORRY IF YOU MISSED IT! Gregg, W6IZT, is expected to join their club as a full privilege member. He will be on St. Barth between January 14-16th (2008) and will be active from their club station FJ5KH, if he finds an accomodation. QSL FJ5KH via FJ5DX (qrz.com).

Members of the RZS Amateur Radio Club (W2RZS) are currently finalizing plans to operate from the new DXCC entity of St. Barthelemy for the upcoming CQ WW WPX SSB Contes (March 29-30th). The W2RZS team will tentatively consist of Bob/WB2NVR, Mike/WA2VQW, Bob/N2DVQ and Adam/ N2DHH. They will be concentrating on 160m and the 30/17/12 meters bands before and after the contest, and of course operate 80/40/20/15/10 meters during the contest. Mike/WA2VQW informs OPDX, "Our antennas will be the same as we have been using for our three previous J75 DXpeditions. We hope to get as many of you in our log as possible during our 7 day stay. Please don't hesitate to give us a call, we will look for the 'weak ones' and the MOBILES!"

GJ/MJ, JERSEY (EU-013). Operators Flo/F5CWU, Sylvain/F4EGD and Terry/F5MOO will be active as MJ/homecall, while Tom, GM4FDM, will sign GJ4FDM from the Isle of Jersey (WLOTA L0818) before, during and after the New Year week. Activity will actually take place between December 28th and January 6th, with operations mostly on the lower bands and 30/17/12 17 meters as well as RTTY. They plan to have three stations on the air for HF and one for VHF (2 meters). They will have a Web site online with their logs at: http://jersey2008.f5cwu.net
QSL via their home callsigns, either direct or by the bureau.

HF0, SOUTH SHETLANDS (AN-010). Marek, SP3GVX, has been on King George Island since November 2007. He is at the Polish "Henryk Arctowski Antarctic Station" managed by Polish Academy of Science (Institute of Antarctic Biology). At the moment he has many duties to perform, but he should soon be active as HF0POL. This is his 4th time there, and he is going to be there the whole year during 2008. His QSL manager is the same as last time: Tom, SP3WVL. For more info about the Arctowski Station, visit the Web page at: http://www.arctowski.home.pl
ADDED NOTE: Stan, SP3BGD, who was active as HF0POL in 1998, states that his contacts are available via eQSL and LoTW.

IOTA NEWS.....
NA-057. Ray, WQ7R, will be active as HQ9R from Roatan Island (WLOTA L-1671), for the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/Low-Power entry. Outside of the contest look for him to be active as HR9/WQ7R. QSL both callsigns via K5WW.

OC-160. Steve, G0UIH, who recently activated Great Keppel Island (OC-142) this past week, will now activate South Molle Island (OC-160), January 7-11th. His callsign will be VK2IAY/4, the same as the previous operation, and he plans to operate mainly around 14260 kHz, with the possibility of some 17/15m operations also. QSL via his home callsign, direct or by the bureau. Check out the following Web site for further details at: http://www.percy.me.uk

KP2, U.S. VIRGIN ISLANDS. Harry, W6DXO, will be active as KP2/W6DXO from St. John, March 24-28th. Activity will be holiday style with a focus on 20-10 meters SSB with some CW planned. Operations on 40 meters may take place if an antenna can be rigged up. QSL Manager is KF6JOQ.

NEW OFFICERS FOR 2008. At its Annual Meeting and Christmas Party held on December 13th, 2007, the Carolina DX Association elected its officers for 2008. They are:
President: Ted Goldthorpe W4VHF
Vice-President: Paul Ponak AD4IE
Secretary-Treasurer: Cliff Wagoner W3ZL
Newsletter Editor: John Scott K8YC
Contest Manager: Dick Williams W3OA
Cluster Manager: Joe Simpkins K4MD
Cluster Manager, North: Paul Sturpe W3GQ
Webmaster: Wayne Setzer WB4BXW

Visit the Carolina DX Association Web page at: http://www.cdxa.org

QSL INFO AND NEWS.....
Online logs for an older Amsterdam Island DXpedition by Michel, F6DWQ, signing FB8ZP during the year 1983, are now available on the Clipperton DX Web pages at: http://www.cdxc.org/dxp/1983-FB8ZP/searchlog_fb8zp.php

NEW ADDRESSES FOR YB0ZZ AND YE0X. Pri, YB0ECT, informs OPDX that YB0ZZ and YE0X have changed their mailing addresses. The new address are:
YB0ZZ

ORARI DKI JAKARTA CLUB STATION
Jl. Suryo Pranoto No.8 Gedung Prasada Sasana Karya Lantai 10.
Jakarta Pusat (10130) Indonesia

YE0X
CONTEST ORARI DAERAH DKI JAKARTA
Jl. Suryo Pranoto No.8 Gedung Prasada Sasana Karya Lantai 10.
Jakarta Pusat (10130) Indonesia

The P.O. BOX 8000, Jakarta 11000 Indonesia, was no longer be renewed.
So, All The QSLs request should go to a new addresses as above.

QSLS VIA LOTW: 3X5A, 4U1ET, 4U1ITU, CQ9K, CT9M, EA6IB, RX3AEX, RZ0AF
T30R (1999) and VU7LD

QSLS RECEIVED VIA MAIL: 5L2MS, 9M6XRO, C91KDJ, E51NOU, EP3HF, J79CO,
K6VVA/KL7, KH0O, N8S, OJ0B, P29VCX, P29VLR and V31KO

TA, TURKEY. Ozer, TA2RC, will be active from Izmit-Kocaeli during the
CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/Low-Power
entry. QSL via his homecall, direct or by the bureau.

V2, ANTIGUA (NA-100). Nobby, G0VJG, will once again be active as V25V
from the V26B super station at Gunthroppes, March 28-30th. Activity will
include the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/High-Power
entry. QSL via his home callsign.

What seems encrypted to you "Mike", is perfectly normal to the rest of us.
Take a look at www.tinyurl.com for a better explaination. Nice forge by
the way.

If it isn't encrypted, then why don't you just post your eBay link,
like most normal people, so that people know what type of a site they
are going to, before they click on it?

The appropriate way of doing it is to post BOTH links. The long one may be broken but users can still see where the tinyurl will take them and decide if they want to go there.

absolutely correct but it is just the hams RH knows abouts and refuses
tobust for some reason I am begining to belive Koral's theory that
sexual blackmail of RHis involved in that but I hate

"one useless man is disgrace 2 become a law firm 3 or more become a congress"
adams

woger you are a Congress all in your own head

http://kb9rqz.bravejournal.com/
altopia is never used by KB9RQZ
nor is Konstans@hotmail.com ever
btw i can be found at
17366 N River Rd
Chassel Mi

but the cowards asking lack the gut to act

SB DX @ WW < KB8NW $OPDX.839
Ohio/Penn DX Bulletin No. 839

The Ohio/Penn DX PacketCluster
DX Bulletin No. 839
BID: $OPDX.839
December 31, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL W1AW Bulletins, K1XN & GoList, NG3K, W3UR & The Daily DX, AI4U, KP4BJD, N4AA & QRZ DX, N4MM, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, G3XTT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, OM3JW, PY2WAS, PY2ZA, RSGB IOTA Web Site, VA3RJ & ICPO and ZS6DXB for the following DX information.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie and her husband Kevin), and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Thanks to the many individuals who have provided DX information over the past year. Without them there would not be an OPDX Bulletin. Also, thanks to the individuals who sent holiday wishes to my family and me.....
73 and Have a Great/Safe/Healthy New Year de Tedd KB8NW
P.S. The year 2008 should be one of the most exciting years for DXers with all the upcoming new DXCC entites expected to be on the air.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 23rd-December, through Sunday, 30th-December there were 214 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3W, 3X, 3Y/b, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7X, 8P, 9A, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E4, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/m, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VP2V, VP8, VP9, VQ9, VR,

VU, XE, XU, XW, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Ghis, ON5NT, will be active as 3A/ON5NT from January 23-27th. His activity will be mostly during his morning and evening hours.

3Y, BOUVET ISLAND (Update). Before last weekend there had been a report by Mehdi, F5PFP, indicating that he has talked to Petrus, ZS6GCM (3Y0E), via the Bouvet Island satellite phone and was told Petrus is currently unable to transmit due to a problem with his transceiver. However, on December 30th, Petrus/3Y0E and Rhynhardt/ZS6DXB had a conversation via satellite phone. Petrus was happy to confirm that the radio and antenna are working. He made a couple of contacts on December 30th with some ZS and PY stations. Rhynhardt/ZS6DXB and Petrus/3Y0E will be trying a new strategy to get 3Y0E into pileups. 3Y0E will, until further notice, be calling CQ between 1600-1730z on 14200 kHz only. 3Y0E will work simplex until Petrus gets more acquainted with the radio equipment. Please note that no pre-arranged skeds "contacts" can be arranged with 3Y0E. Petrus is still having some E-mail problems, and as soon as they are resolved, they will publish the 3Y0E logbook on the 3Y0E Web site. There has been a number of false cluster reports over the last couple of days and they urge anybody that hears Petrus/3Y0E calling CQ to record him and forward the recording to: zs6dxb@kats.za.net
The official 3Y0E operation Web page address is: http://www.3y0e.com

4X, ISRAEL. Henri, F6EAY, is now signing 4X8AY. No other details were provided. QSL via F5LGE.

6W, SENEGAL. Jacques, F6HMJ, will be active as 6W/F6HMJ from January 8-29th. Activity is usually on 80-10 meters on CW, SSB and RTTY. He will use an IC-706 MKIIG and HF9V. QSL via his home callsign.

9L, SIERRA LEONE (Update). Norbert, 9L1FZ, is currently active and can usually be found on 20 meters (14165 kHz) SSB. He informs OPDX that he will announce a QSL Manager very soon. He also tells OPDX that he can be active on all bands up to 30 MHz, from home, mobile, portable and maritime mobile. Modes of activity will be SSB, CW (please only if needed for specific diploma etc., as he is in the process of relearning after 30 years and is very slow) and all digital modes which can be covered by SCS PTC, including Pactor 3 and robust packet. Norbert adds, "I can operate crossband and duplex, as there are 4 transceivers and antennas available (remote transmitter available). I am not very active and not operating in contests but can spend a couple of hours on the radio if some folks need this rare country (don't think that there are more than 10 licences and more than 3 OMs active over here)." There is a possibility he may activate Banana Island (AF-037).

CN, MOROCCO. Didier, F4ELJ, will be active as CN4MC through January 3rd. Activity will be on 80-10 meters SSB. Most of the activity over the past weekend was on 20 meters. QSL via his home callsign.

CO8, CUBA. Eduardo, CO8LY, reports that he is very active on RTTY and PSK31 on all bands. If you need to work Cuba on any band, he is willing to make a sked for the QSO via E-mail. His E-mail address is: co8ly@frcscu.ciges.inf.cu

D4, CAPE VERDE. Operator Yuris, YL2GM, will be active as D4C during the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band/High-Power entry. Operator Girts, YL2KL, will be active as D4C during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/High-Power entry. QSL Manager for both operations go to IZ4DPV. For latest information, check the Web page at: http://www.d4c.cc

DXCC NEWS. OPDX was informed by Gabe, KP4BJD, who received an E-mail from Phil, 9Q1TB, who was recently active as TN/9Q1TB/p, was told by Bill Moore, NC1L, that his TN/9Q1TB/p contacts are not good for DXCC.

FJ, ST. BARTHELEMY. Paul, F6EXV, reports: "Members of the KH8SI group are happy to announce their upcoming activity from the newest DXCC entity, Saint Barthelemy Island. With the help and support of FJ5DX, FJ5AB and FJ5KH, both Yuichi/JR2KDN and Paul/F6EXV will sign FJ/F6EXV (callsign used for SSB and CW) and FJ/JR2KDN (callsign used for RTTY), from January 6-20th. Activity will be on 160-10m, with beam antennas from Cushcraft, vertical and dipole antennas, Yaesu FT2000 and FT857 plus 500W amplifiers. QSL via respective home calls, OK on QRZ.com.
Please note the following:
1) F6EXV will do CW, but is not primarily a CW op. He will do his best, be patient with him.
2) Several hams have been involved in the preparations. The list would be too long but let them be thanked already for their help.
3) A Web page will be available for log checking, though access to internet will not be possible from the operating location. Do not use the clusters to ask us to QSY places, it would be a waste of time... Logs will probably be uploaded every 2 or 3 days, depending on internet access. Details to be given soon, as page is being constructed now.
4) More details will come soon."

HB0, LIECHTENSTEIN. Tom, DL2OBO, will once again be active as HB0/DL2OBO from Chalet Barsula, January 1-9th. Activity will be mainly CW with an emphasis on 160/80/40 meters using a FT-1000MP with an AL1200 amp. Look for him on 40m the first night using a verticial. He will then use 2 element wire beams for 80m and 160m toward USA following the next day(s) and a single vertical for JA/Asia (He states, "Sorry, there is no chance for the 2 element in that direction.")

HC & HC8, ECUADOR AND GALAPAGOS ISLANDS (SA-004). Peter, DL9DAK, is expected to activate Ecuador (HC) and the Galapagos Islands (HC8) during the first half of January. His planned schedule is as follows:
January 2-9th - Active as DL9DAK/HC1 from Quito, Ecuador

January 11-14th - Active as DL9DAK/HC2 from Guayaquil, Ecuador
January 15-18th - Active as DL9DAK/HC8 from the Galapagos Islands
January 19-21st - Active as DL9DAK/HC2 from Guayaquil, Ecuador
Activity will mainly be on 20/17 meters (with some 40 meters) only on the digital modes (RTTY, PSK31/63, MFSK, Feldhell and Olivia500/1000) using only vertical dipoles and 50 watts. Look for him to be active as DL9DAK/HC1 during the "ARRL RTTY Round-Up" Contest (January 6-7th). QSL via his home callsign. For more information, please visit the Web page at: http://www.dl9dak.de

IOTA NEWS.....
AS-060. Chae, HL5YI, will be active as HL5YI/4 from Sorok Island, January 18-21st. Activity will be on 80/40/20/10 meters, CW, SSB and RTTY. He will also participate in the UK DX RTTY Contest (January 19-20th). QSL via his home callsign, direct or by the bureau.

EU-011. A French team of operators lead by Tony, F8ATS, will activate St. Mary's (Grid Square IN69UV) in the Isles of Scilly group between May 15-23rd. During their stay they hope to manage a 2 hour activation from the rare Grid Square IN79jx. The callsigns to be used will be M/homecall. Activity will be on HF (160-10m), VHF(2 m) and UHF (70 cm), CW and SSB. They are expecting one or several digit operators to join them. St. Mary's also counts for the "World Lighthouse On The Air" award under the reference: WLOTA 0234. En route to St Mary's, the team will be active as homecall/m and M/homecall/m, on 40m and 2m. QSLs for all of the callsigns go via F8ATS, through the French Ref-Union Bureau (please only this bureau). For those who cannot use the bureau, Tony will accept valid IRCs and SAEs (please avoid green stamps). More information will follow.

NA-075. Richard, VA7MJR, will be active from Entrance Island (BC) between Jan 9-20th. Activity will be limited due to work, but look for him on 80-6 meters SSB. Other reference numbers are: Canadian Island Award - BC 176, Grid Square CN89cf and Lighthouse CAN-171.

SA-021. A team of Brazilian operators will be active as PW2M from Moela Island, February 1-8th. Team members mentioned so far are (alphabetical): Rolf/PY1RO, Joe/PY2EJ, Luiz/PY2OC, Alex/ PY2WAS, Fred/PY2XB, Junior/PY2ZA, with administrative support by Andre/PY2MTV and Eder/PY2XAT. Activity will be on 160-2 meters, CW, SSB and the Digital modes. QSL Manager will be AI4U for foreign operators and PY2AA for Brazilian operators. There is a lighthouse on Moela Island (WLOTA 1335) and permission for the operation was granted by the Brazilian Navy. This is a rare island for IOTA.

J2, DJIBOUTI. Mal, F4FMI, will be active as J20MB between January and the end of March. Activity will be on 20/17/15 meters SSB. QSL via his

home callsign.

J5, GUINEA BISSAU (Update). From a press release, the "F6KOP TEAM", who is planning a DXpedition to Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January 12-21st (2008), report everything is a go. This is the same group that was active as XT2C from Burkina Faso. They hope to be able to use all their skills and experiences gained from the past XT2C operation as well as being active on as many bands as possible simultaneously. Team members located near Paris have spent a lot of time packing their equipment (antennas, coax and guys, four PA's and five transceivers, laptops, and other miscellaneous gear). The team has their licenses in hand: J5C (the official DXpedition callsign), and one for each operator's different nationalities (1 for F, OE and K). Operators are: F2JD, F2VX, F4AJQ, F5JSD, F5PED, F5TVG, F5VHQ, F8BJI, F8BUI, F8IXZ, F8PDR, F9IE, FM5CD, OE8KDK, N2WB and N6OX. Pilot stations are: Thierry/F4TTR and Bruno/F5AGB. To contact the pilot stations, use the E-mail address: pilots@j5c.eu
For more details and up-to-date info, visit their Web pages at: http://www.j5c.eu

JD1, OGASAWARA. By the time you read this, Harry, JG7PSJ, will be active as JD1BMH from Chichi-Jima (AS-031, JIIA AS-031-003, WW Loc. QL17CC, JCG 10007), Ogasawara Islands, through January 4th. Activity will be on 160-10 meters, CW, SSB and RTTY. QSL via JG7PSJ, by the bureau or direct to: Hiroyuki Kawanobe, 1-4-1,Mikamine, Taihaku, Sendai, Miyagi 982-0826 JAPAN. For more info and a log search, visit: http://sapphire.ganko.tohoku.ac.jp:8080/jd1bmh

NEW OFFICERS FOR 2008. The following individuals were announced as new officers for the North Shenandoah DX Association:
President - Godfrey Miller, N8GM
V. President - Steve Cuccio, NB3O
Sec/Treasurer - John Kanode, N4MM

NEW PREFIX FOR BOSNIA-HERZEGOVINA IS NOW OFFICIAL. In an announcement by the ARRL and the ARRL Special W1AW Bulletin (ARLX008): "In response to a request from the Ministry of Communications and Transport of Bosnia and Herzegovina in August, the International Telecommunication Union (ITU) withdrew the call sign prefix allocation T9A-T9Z for Bosnia and Herzegovina and made a new allocation, E7A-E7Z. The change was made initially on a provisional basis under authority of the ITU Secretary-General and was confirmed by the 2007 World Radiocommunication Conference to be effective November 17, 2007.
According to International Amateur Radio Union (IARU) Secretary David Sumner, K1ZZ, the Ministry of Communications and Transport (BiH) held a press conference in Sarajevo on December 18 to formally announce the change. Minister Dr. Bozo Ljubic explained the desirability of changing a prefix that initially was allocated during wartime and how it was now being replaced with one that has no connection to that troubled time; similar steps have been taken with regard to passports, drivers' licenses and automobile registrations, he said. Ljubic also observed that the costs

associated with the change were minimal compared to the benefits. Amateur Radio station licenses bearing E7 prefixes will be issued beginning in January 2008, and the use of other prefixes will be phased out.
Sumner and IARU Region 1 President Ole Garpestad, LA2RR, of Norway, were invited to speak at the press conference. Accompanying them was IARU Region 1 Executive Committee member Nikola Percin, 9A5W, of Croatia. They expressed congratulations and support for the change, eliminating an issue that has complicated relations among the radio amateurs of Bosnia-Herzegovina.
Also invited to speak was Miroslav Nikse, President of the Union of Radioamateur Associations of Bosnia and Herzegovina (URAS), a recently formed umbrella organization of amateur radio associations based in different parts of the country. He thanked those involved in promoting the change. In his remarks, Dr. Ljubic pledged support from the Ministry of Communications and Transport to the umbrella organization for the development of Amateur Radio repeater and digital networks that would cover the whole of the country, enhancing emergency communications capabilities."

PZ, SURINAME. Just a reminder that the 4M5DX Group is expected to be active from Paramaribo, Suriname, January 4-11th. There will be a multi-national team of skilled and experienced operators, and their plans are to have three stations active for 10 days. They will operate as PZ5YV on all bands (160-6 meters) CW, SSB and RTTY. Team members mentioned are: Olli/OH0XX, Spiros/SV8CS, Pedro/HK1X, Alex/YV5SSB, Ramon/XE1KK, Jose/YV5TX, Diego/LU8ATX, Pasquale/YV5KAJ and Ramon/PZ5RA. They are still looking for financial assistance to help offset the costs. For more information, please visit: http://www.pz5yv.4m5dx.info/index.html
For a full colored QSL card, please QSL via IT9DAA (direct or by the bureau).

QSL INFO AND NEWS.....
Steve, OM3JW, reports that the complete log, as well as statistics for the recent E4/OM2DX operation from Bethlehem, Palestine, can be found at: http://www.om2dx.com
QSL via OM3JW. PLEASE NOTE: One USD does not cover return postage, but 1 IRC does. All direct requests with insufficient funds will be replied to via the Bureau.

QSL CORRECTION. The correct QSL Manager for HR9/WQ7R is AI4U. K5WW is the QSL Manager just for the HQ9R callsign.

QSLS VIA LOTW: None reported this week.

QSLS RECEIVED VIA MAIL: 3C7Y, 5L2MS, 5U5U, 5W0RE, B1Z, CO6XN, EE5E, EX2M, EY8MM, FM/JE1JKL/P, FM5BH, H40MY, J3A, J38AA, J88DR, KA3UNQ/p, KP2/K3VA, OD5/F5PTM, OX3XR, P29VCX, P29VLR, VK9WWI, XQ0X and ZL1BYZ

QSLS RECEIVED VIA THE BUREAU: DT8A, DR2006K, EE5E, GB95MGY, HP1WW, TZ5A and SV0XAO

T2, TUVALU (Also, H4). Ito "Dan", JA1PBV, who was active as H44V from the Solomon Islands last week, was expected to be active from Tuvalu (T2) starting December 28th through January 4th. However, as of press time there have not been any QSNs reported. So be listening. Dan will return back to the Solomons and be active again starting January 5th. QSL via JA1PBV.

TF, ICELAND. Siggi, TF3CW, will be active in the CQ 160-Meter CW Contest (January 26-27th) as Single-Op entry. QSL via LX1NO.

TR, GABON. Roland, F8EN, continues to be active as TR8CR from Libreville until January 12th. Activity will be mostly on 20 meters. Watch 14005 kHz after 0600z and 14191 kHz after 0700z. There is a possibility that Roland may make a short operation from an island in the AF-043 IOTA group. QSL via F6AJA or F8EN.

VP9,BERMUDA. Kurt, W6PH, will be active as VP9/W6PH again for the 2008 ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/Low-Power entry. He will also be active during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/Low-Power entry. QSL direct to his home callsign W6PH.

ZD7, ST. HELENA. Tom, KC0W, who recently moved to St. Helena Island in September and is active as ZD7X, announced that he will be departing the island in April 2008. He states, "This will prematurely bring to a close my eight month ZD7X operation. Thanks to the Radio Amateurs in over 225 countries with whom I have established on-the-air friendships with. The reason that I moved to ZD7-land was my dream of constructing a Big Gun Contesting/DXing station here on St. Helena Island. Unfortu-nately, I must now abondon this project. I WILL start again in 2008 from another desirable DX location. I will be spending the majority of my last few months as ZD7X on 75/80 meters, CW and SSB. Look for me around 3502 kHz on CW and in the DX window on SSB (+/- QRM). My QSL manager is W0MM. Please send all QSLs for ZD7X to W0MM via bureau or direct..... LoTW, eQSL or any other type of electronic QSLing WILL NOT be accepted." This past weekend Tom was heard on 160/80/20/17 meters at various times.

ZL8R DVD REVIEW. Another interesting video done by James Brooks, 9V1YC. This 46 minute video takes you to Raoul Island which is in the Kermadec Islands chain. As always, James shows you the beauty of the island. The island has a large and active volcano on it where an eruption recently took place on March 17, 2006. One scientist/conservationist died and several others were evacuated from the island. The video tells the story how the well-known ship (by DXers) called the "Braveheart" took a team of operators known as the "Microlite Penguins" to Raoul Island on a DXpedition in October that same year. James provides a view on how the team had to follow strict regulations by the New Zealand Department of Conservation before going to Raoul Island. All the equipment, clothing and gear had to be quarantined before leaving for Raoul. However, seeing that this was a "Microlite Operation", the radio equipment was light. The ZL8R operation only used 100w radios (IC-7000) and dipoles. You will enjoy the many different views from the island, and the interesting way the DXpedition team had to get their equipment on the island to operate.

This DVD is definitely another "must have" for the collection. The ZL8R video is available at: http://www.dxvideos.com

MI5. Persecution: Molestation during Travel

MI5s persecution of me varies in intensity. Since 1990 it. has been steady for perhaps 80% of the time; there was a notable quiet. period in 1993, and another quiet period in Jan-Feb 1995, as well as a hiatus in the first. two months of 1999. It puzzles me that they cease and restart,. seemingly without any logic or reason. But one aspect of MI5s. activities against me which. is relatively predictable is this weeks articles topic, which is Molestation during Travel. Almost every. time I cross the Atlantic, go to the Continent or even try to enjoy a holiday in this country, you. can bet that MI5 will be there doing their utmost to. wreck it all.

This aspect of. the harassment is particularly relevant as I will be travelling to. Europe again in a months time, with naturally the Minidisc recorder in tow; so it will be interesting to. see if I can record the abuse which will almost certainly take. place, either on the Tube going to the airport, at the airport, on the flight, in the terminal building -. MI5 have previously instituted instances of abuse. at each of these locations, so. well see how much taxpayers money they waste this time, and whether it will prove. possible to capture their abuse on minidisc.

Read about the MI5 Persecution. on the Web

June 1992 in. Polands mountain resort of Zakopane

The persecution started in June 1990, and for the first two. years I stayed in the UK apart from a couple of brief. day trips to Calais. By the summer of 1992 Id had enough of being cooped up in England with. abusive fellow employees egged on by. an abusive secret police service, and decided to spend 10 days in southern. Poland, on what was intended to be a holiday at the mountain. resort town of Zakopane.

Unfortunately the psychopaths of the Security Service. were not willing to allow me to enjoy a holiday in. peace and quiet. The journey to Zakopane was. by coach from the meeting point at Londons Victoria coach station (National Express) followed by ferry followed by another coach. across Europe. As we left Victoria a youth. and his girlfriend started a loud tirade of abuse directed at "this bloke",. where the "bloke" was never named, but it was very clear that the "bloke" was myself. The youth. said "they" had. "found somebody from his school, and he was always really stressed at school, a real psycho". Again,. the label "they" was not elaborated on, but it. was clear that "they" = the persecutors from MI5. The boy also said, "he was in a bed and breakfast for only one. night and they got him". By a not unexpected. coincidence I had been in a B&B in Oxford. a week previously, which had been booked from work; other things

lead me to the conclusion that the company's offices were bugged for. most of the 2 1/2 years that I was there,. so "they" would have known a room in the B&B had been booked. After a few minutes of this I went. back to where they were sitting and asked where they were travelling. The boy. named a village in France, and. the girl's giggling suddenly ceased; presumably it permeated to her brain cell what the purpose of. the boy's abuse was.

It is now very clear to me that. MI5 were trying to have me incarcerated, assaulted or killed on this. trip across Europe. The degree of verbal violence inescapably leads to this conclusion. When we arrived at. our destination, it became clear that. many people, both in our tour group and its guide, and among the ordinary residents of. the town, knew there was a movement under way to "get" me.. MI5 employed many people and significant resources for an action which they. knew would only take a maximum of ten days. A commercial operation would never have. felt able to waste such resources on such an. unproductive and temporary action; only a state-sponsored, taxpayer-funded entity. like the Security Service would be able to be so. wasteful.

To give some examples of what happened in those ten days;. I was walking in some woods outside the town, when a Polish woman, looking. at me, said the English "shit" in a strongly Polish-accented voice.. For the first three years 1990-92 MI5 had been trying to force this word on me.. Another example; I. was walking near my "hotel" when a mother said laughing to her child, "a wiesz ze to prawdziwy wariat" which means "you know hes a. real madman". And the "TV reacting" happened there. too; on Polish TV, a bemused looking journalist said to another, "to. jest sprawa Anglikow", which means "its. the concern of the English", in other words, none of our business, despite what the English are trying to force. down our throats.

Just before we left for home,. I went with some others from our group to a nearby bar. There. a man shouted at me the same sexual obscenity which MI5 have constantly. thrown at me these last three years. I think MI5 try to justify their various. terms of abuse by repeating them at me until I say them, either while conscious or while talking. in my sleep; and then they seize on my saying. those words to "prove" that the obscenities are "my fault", et cetera. This rather stupid reasoning of. theirs can actually be seen. as indicative of the psychopathic condition attributed to them in a previous article; blaming the victim for the. crime you inflict on him is how psychopaths. think.

Nor did the persecutors let up during the return. trip. Returning on the ferry over the channel, a rather insalubrious-looking guy talked to. his mates about "and you know this bloke, hes. really mad you know, hes really mad". On the National Express return coach to London, a group of five. or six young people started shouting at me. I slumped in my. seat and tried to avoid presenting a target, so they. got ever more strident - "whats the matter with you,. cant you hear us?" One of the other people who had been on the trip to. Poland asked them why they were shouting at me, and they said, "hes been to Cambridge", to which the. co-holidayer asked them, "have you been to Cambridge?" presumably thinking they were. aggrieved fellow

students, but they. answered "no". Even after I left the coach at Elephant and. Castle abuse continued; in the tube station, two kids started throwing abuse at me; one of them said. to the other, "and you know he works?" to which the. other answered "yes".

Immediate Aftermath of. November 1992

As you will know. from previous articles, my manager at OCG - ARIS/Oxford, Mr Mitchell, induced a mental breakdown in me in. the months leading up to Nov/92. The diagnosis was regarded by the persecutors. as a victory for them, because. few if any people give credence to allegations of harassment when they are made by somebody suffering from schizophrenia. There. is also a bias against the mentally. ill, an "institutionalised bigotry" in society comparable to. the institutionalised racism against blacks.

However, MI5 did not let up on persecuting. me following Nov/92. In December 1992 I flew by charter jet to Alicante in Spain for two. weeks recuperation. MI5 planted one of. their people on the flight, a youth who tried to start some noises that "hes a nutter". One. of the other passengers replied, "oh hes a nutter is. he? oh well!" and the youth shut up and said. nothing for the rest of the flight. I think it would be fair to say that. the youth on the flight was embarrassed by what he had been asked to. do in making the flight "uncomfortable" for me; he sounded defensive rather. than aggressive.

My first trip to Canada in. June 1993

Ive already covered this in a previous. article so Ill just give a brief summary here. On 10 June 1993. I flew British Airways from Heathrow to Torontos Pearson Airport. On de-planing from the aircraft, one of a. group of four fellow passengers looked at me and said, laughing, "if. he tries to run away well. find him". It was quite obvious that these four men were the ones who had been harassing me since. 1990.

I did nothing to apprehend them or bring this incident to the attention. of the. airport authorities, mostly because this was my very first visit to Canada, and the last thing. I wanted was to get into a dispute before I had even finished disembarking. In retrospect, I. can see this was a terrible mistake; I should have made every effort to. detain and identify these people.

Subsequently. I have made numerous attempts to obtain the names of these people from British Airways passenger lists,. by talking to BA, through a lawyer in Ontario, through a solicitor in England, through the UK. police, and also through private detectives in the. UK. But all my efforts have come to nothing. BA have told me they keep passenger lists for a period. of seven years, so. they will still have the list for this 1993 flight. I did not see or hear anything during. the rest of my visit to Ontario in 1993 which would have lead me to believe that I was being watched or. followed.

Journey. across Canada in summer 1994

As I think Ive already said in. previous articles I emigrated to Canada in late May 1994. For six weeks between late May 1994 and early July 1994. I travelled across Canada from coast. to coast, starting in Toronto, visiting various cities and ending. up in British Columbia. I saw this both as something of a holiday, and the chance. to get to know a little better my adopted. country.

As you can guess, MI5 followed me. everywhere I went during these six weeks. In Toronto, where I started this trip in. late May, I was spoken about. by one youth to another with the words "hes an idiot", to which the other replied,. laughing sympathetically, "good luck to him".

A couple of days later I went to Montreal and stayed at. the YMCA downtown. As you can. guess (this is all so predictable, isnt it?) MI5 followed me there and bugged my room at the. YMCA. Not only that, but they managed to. set-up an instance of "newscaster reaction" from a local television station; while I. was watching a Vermont TV news programme on the set in my room, the woman reporter said, "well theyre just. tired and they. want to go home", which sounds like a pretty unprofessional thing to say until you realise she was trying to say of. me that I was the one that was. supposed to be tired, and they (ie MI5) wanted me to go home to the UK.

On the bus journey. across the North American continent, it was quite clear that MI5 were following me every step on the. way. For the first part of the journey they actually. put someone on the bus with me, a youth who said at me "that guys paranoid" and tried. to incite other passengers to attack me. I stopped for. a couple of days in Winnipeg in central Canada, and on leaving the town heard on the radio. a female presenter ranting about "insanity! insanity!". It is very tiring. travelling such a long distance by bus; I took the journey in. two steps, each of about 36 hours; and it is especially tiring when you know MI5 are watching. you and harassing you every. step of the way.

When I finally got to Vancouver,. MI5 instituted the usual harassment, in very short order. I was surprised how. quickly they were able to induce hatred towards me in elements of. the general populace; the Security Service must have employed a. number of agents and serious resources in a very. short period of time; and for no real gain, because I havent been back to BC for almost five years, so all their "work" appears to. be for nothing. In. downtown Vancouver a street person said in front of me, "theyre. all talking about him". For a few days I was staying at Pauls Guest House (345 W.14th Ave); on the day I left, the owner Paul shouted. at no-one in. particular, "hes going to Victoria" - which was quite accurate, I was indeed going to the. provincial capital Victoria on Vancouver Island. But I had not told anyone at the guest house where I. was going; I had only mentioned to my parents back in. England on the phone that I was going away from Vancouver for a few days. Which leads. me to suppose that MI5s bugging of the phone in my parents. house yielded the "intelligence" that I intended to visit Victoria, and they had. passed the information on to. Paul.

When I got to Victoria it was. again obvious that the persecutors were "doing their stuff" there as well. On the street. I was identified as being English, although I had not. said anything so my accent hadnt given me away; and returning by ferry to the mainland, I was abused by. a Canadian woman. who said, "hes a nutter! you can run but you cant hide". During my years in Canada I. have never heard the word "nutter" on any other occasion; I do not think. it is part of Canadians vocabulary; so the Canadian woman on the ferry, who was obviously talking about. me, must have been supplied with this word by the English persecutors. And once. I got back to Vancouver, staying. at the Austin Hotel on Granville St, I listened to a conversation in. the apartment block directly opposite, and a man saying, "hes paranoid, so thats as bad. as it can be, so why are they doing this. to him?".

Holiday in the States, August. 1995

By 1995 I was living in Canada,. and in August I went down the eastern seaboard. to Florida and as far as Key West by car. As you can guess (this is all so boring and predictable, isnt it?) MI5 followed me every step. of the way.. I can see in retrospect that this must have been quite easy for them as they had my car bugged, both on. the inside to listen to anything that was. said and what radio station I was listening to, as well as what must. have been a tracker device installed to track it across long distances.

The first city I visited was Philadelphia. In. the old Congress Hall where the first US Congress assembled, the. woman guide started referring to my situation, saying that "all these people. in Europe were watching it", and they were "a little paranoid" at. this 18th-century experiment in democracy. Also I. had recently written a newsgroup post where Id described a (female) poster as "wet-nosed" (implying "canine"), and a young. girl in Philadelphia remarked, "so he thinks were dogs?" There were two. or three more. incidents during this holiday in the eastern States, including a radio station down near. Miami, showing "they" had tracked me all the way there, and were bugging. the inside of my car; but I didnt record the details and Ive forgotten some of it now.. Also down in Miami Beach a French tourist in a lift expressed support for me with the. words, "cest incroyable" ie. its incredible,. meaning that MI5s well-known actions against. me were beyond belief.

To go. back a bit, in about May/June 1995 Id visited New York, again by car, and was insulted several times by people using the same. words that had been used against me in. England. In Central Park, and elderly Englishman. (not a real gentleman - but then the Engish view of themselves as "gentlemen" etc is quite laughable). looked at me and said "idiot". And while I was eating in a streetside restaurant a New York. youth started laughing and said something like, "I cant believe it, hes actually here". - I think that was because I had had an expressed. wish to visit New York for some years before this, although after this visit I wont. be going there again for a very. long time.

Visit to Poland December 1995/January. 1996

In December 1995 I flew (BA again, unfortunately. - every time Ive flown BA one of these incidents has happened, presumably. MI5 is happier setting up harassment on British-domiciled. carrier) from Montreal to Berlin and travelled on to Poland to visit family. MI5 naturally. harassed me in Poland during my brief stay.. They followed me around and got Polish people to take part in the. harassment. In one case two Polish youths talked in front of. me saying in English (with marked Polish accents), "fucked up men, fuck you". There were also other incidents which I dont remember. too clearly since it was some. time ago.

The return flight connected through Heathrow,. and in the transit lounge MI5 again set-up harassment against me. In Poland. they were talking their abuse in English,. and in London they set Polish people after me to speak in Polish; they heard me on the phone to my. father, and said "a wiesz ze to Polski. wariat", in an almost sympathetic, inclusive fashion (translation. "you know hes a. Polish nutter"). Once on the flight to Montreal I. was again set upon by two English youths, one of whom spoke and the other listened. The aggressive "fat bastard" youth said, "if. he wants to be a wanker" (its my fault theyre. harassing me, you see), self-justification that "hes a nutter" (so we have to keep on. abusing him, because hes ill), as well as talking about. the town in Poland where I had been staying. He also said, "he doesnt. know who we are", but as already remarked in a previous article,. that was at best a half-denial of my guess expressed in internet newsgroups that the people after me were MI5. - if anything its a half-confirmation. rather than a half-denial.

These incidents are still going. on. You can hear digitised audio files of abuse on a BA flight to Berlin in. 1998 on the Web at address

On this flight they were again. attacking my mental health; "paranoid, hes paranoid" and "nutter" are discernable. The. last "during travel" contact was at Ottawa Airport on 21 July 1998,. when "Alan Holdsworth" the psychopath MI5 agent, dressed as a vagrant, was pacing. aggressively in the departure area. In three weeks I will. again be travelling to Europe; we will. see what fresh acts of molestation MI5 perpetrate during this trip.

MI5 are Afraid to Admit They're. Behind the Persecution

MI5 have issued a formal denial of any. involvement in my life to the Security Service Tribunal, as. you might expect them to; but, more importantly, the persecutors. have never denied that theyre from the Security Service, despite several years of accusations from my corner. on usenet and in. faxed articles. I am not surprised that the Security Service Tribunal found "no determination in your favour". I. am however a little surprised that the persecutors have refused to confirm. my identification of them; by doing so, they implicitly admit that my. guess was right.

"No determination in. your favour" says the Security Service Tribunal

In 1997, I made a complaint to the Security Service Tribunal, giving. only the bare outlines of my. case. I do not think it would have made very much difference. if Id made a much more detailed complaint, since the Tribunal has no ability to perform investigatory functions. It can only ask. MI5 if they have an interest. in a subject, to which MI5 are of course free to be "economical with the truth". A couple of months after. my complaint the Tribunal replied. that;

The Security Service Tribunal have now investigated your complaint. and have. asked me to inform you that no determination in your favour has been made on your. complaint.

Needless to say this. reply didnt surprise me in the slightest. It is a well established fact that the secret service are a. den of liars and the Tribunal a toothless watchdog, so to see them conforming to. these stereotypes might be disappointing but. unsurprising.

It is noteworthy that. the Tribunal never gives the plaintiff information on whether the "no determination in your favour" is because MI5. claims to have. no interest in him, or whether they claim their interest is "justified". In the 1997 report. of the Security Service Commissioner he writes that. "The ambiguity of the terms in which the notification of the Tribunals decision is expressed is intentional",. since a less ambiguous answer would indicate. to the plaintiff whether he were indeed under MI5 surveillance. But I note that the ambiguity also allows. MI5 to get away with lying to the question of their interest in me; they can. claim to the Tribunal that they have. no interest, but at a future date, when it becomes clear that they did indeed place me under surveillance and. harassment, they can claim. their interest was "justified" - and the Tribunal will presumably not admit that in their previous reply MI5 claimed. to have no interest.

"He doesnt. know who we are"

In early January 1996 I flew on a British Airways jet from London. to Montreal;. also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It. was quite clear that these two had been planted on the aircraft to. "wind me up". The fat youth described the town in. Poland where I had spent Christmas, and made. some unpleasant personal slurs against me. Most interestingly, he. said the words, "he doesnt know who we are".

Now I. find this particular form of words very interesting, because while it is not a clear admission, it is only. a half-hearted attempt at denial of my guess that "they" = "MI5". Had my. guess been wrong, the fat youth would surely have said so more clearly. What. he was trying to do was to half-deny something he knew to be true,. and he was limited to making statements which he knew to be not false; so he made a lukewarm. denial which on the face of it means nothing, but. in fact acts as a confirmation of my. guess of who "they" are.

On one of the other. occasions when I saw the persecutors in person, on the BA. flight to Toronto in June 1993, one of the group of four men said, "if he tries to run away well find him". But the other. three stayed totally quiet and avoided eye contact. They did so to avoid. being apprehended and identified - since if they were identified, their employers. would have been revealed, and it would become known that. it was the secret services who. were behind the persecution.

Why are. MI5 So Afraid to admit their involvement?

If you think about it, what has been going on in Britain for the. last nine years is simply beyond belief. The. British declare themselves to be "decent" by definition, so when they engage in indecent. activities such as the persecution of a mentally ill person, their. decency "because were British" is. still in the forefront of their minds, and a process of mental doublethink kicks in, where their antisocial. and indecent activities are blamed on the victim "because its his fault were. persecuting him", and their self-regard. and self-image of decency remains untarnished. As remarked in another article some time ago,. this process is basically the same as a large number of Germans employed fifty years ago against. Slavic "untermenschen" and. the Jewish "threat" - the Germans declared, "Germans are known to be decent and the minorities are at fault for what. we do to them" - so they were able to retain the view. of themselves as being "decent".

Now suppose. this entire episode had happened in some other country. The British have a poor view of the French, so. lets say it had all happened in France. Suppose there was a Frenchman, of non-French. extraction, who was targeted by. the French internal security apparatus, for the dubious amusement of French television newscasters, and. tortured for 9 years with various. sexual and other verbal abuse and taunts of "suicide". Suppose this all came out into the. open. Naturally, the French authorities would try hard to place the blame on their victim. - and in their own country, through the same state-controlled media which the. authorities employ as

instruments of torture, their view. might prevail - but what on earth would people overseas make of their actions? Where would their "decency". be then?

This is why MI5. are so afraid to admit theyre behind the persecution. Because if they did admit. responsibility, then they would be admitting that there was an action against me -. and if the truth came out, then the walls would come tumbling down. And if the. persecutors were to admit they were from MI5,. then you can be sure I would report the fact; and the persecutors. support would fall away, among the mass media as well. as among the general public. When I started identifying MI5 as the persecutors in 1995 and. 1996 there was a sharp reduction in media harassment, since people read my internet newsgroup posts and knew. I was telling the truth. The. persecutors cannot deny my claim that theyre MI5, because then I. would report their denial and they would be seen as liars - but they. cannot admit it either, as that would puncture their campaign against me. So. they are forced to maintain a ridiculous silence on the issue of their identity, in the face of vociferous accusations on. internet newsgroups. and faxed articles.

Have MI5 lied to. the Home Secretary?

In order. for the Security Services to bug my home, they would either have needed a warrant from the Home Secretary, or. they might have instituted the. bugging without a warrant. Personally I think it is more likely that they didnt apply for a warrant - I. cannot see any Home Secretary giving MI5 authority to bug a residence to. allow television newscasters to satisfy their rather voyeuristic. needs vis-a-vis one of their audience. But it is possible that the Security Service presented. a warrant in some form before a home secretary at some point in the last nine. years, for telephone tapping or surveillance of my. residence, or interception of postal. service.

So the. possibility presents itself that a Home Secretary might have signed a warrant presented to him based on MI5 lies. Just as MI5 lie to. the Security Service Tribunal, so they might. have lied to a Home Secretray himself. MI5 and MI6 are naturally. secretive services former home secretary. Roy Jenkins said, they have a "secretive atmosphere .... secretive vis-a-vis the government as well as [enemies]". Jenkins also said he "did not form a very. high regard for how they discharged their. duties".

It was only a few years ago that MI5. was brought into any sot the extraordinary thing. is that British media organisations like the state- and taxpayer-funded BBC. take such an active part in the MI5-inspired campaign of harassment. We. have after all heard of MI5 trying to bribe broadcast. journalists; but surely there must be a substantial number who are not bought or blackmailed by. the Security Services, and who take part in the "abuse. by newscasters" of their own volition? The BBC is supposed to be independent of. the government of the day as well as the Establishment in general. While perhaps it is childish to think that. the BBC is anything other than effectively. state-controlled, the degree of

collusion between the BBC and the British Secret Police MI5 is. something you would not find in many. countries. Individual tele-journalists in other countries would have enough self-esteem not to. allow themselves to be controlled by their secret police -. seemingly, BBC broadcasters like Martyn Lewis and Nicholas Witchell. have such a low opinion of their employing organisation. that they see no wrong in dragging the BBCs no-longer-good. name through yet more mud, at the mere request (whether supported by financial or other inducements) of the British secret. Police, MI5.

And when challenged, these broadcasters. LIE about their involvement, with just as. little shame as MI5 themselves. The BBCs Information dept have said. that;

"I can assure you that the. BBC would never engage in any form of surveillance activity such. as you describe"

which is an out-and-out lie. Buerk and Lewis have themselves lied to. their colleagues in the BBCs Information. department over the "newscaster watching",. but unsurprisingly they refuse to put these denials in writing. Doubtless if the "newscaster watching" ever. comes to light, Buerk and Lewis will then continue to lie by lying about these denials.. So much for the "impartial". BBC, a nest of liars bought and paid for by the Security. Services!

It is obvious that the persecution is at the instigation of. MI5 themselves - they have read. my post, and only they have the surveillance technology and media/political access.. Yet they have lied outright to the Security Service Tribunal. Similarly, BBC newscasters Michael. Buerk and Martyn Lewis have lied to members of their. own organisation. The continuing harassment indicates they are all petrified. of this business coming out into the open. I will continue to do everything. possible to ensure that their wrongdoing. is exposed.

MI5 Persecution Update: Friday 11 June,. 1999

Harassment in. a pub in Clapham, Tuesday lunchtime

Once a. month, or once every other month, I meet a Polish friends of mine who. lives in Clapham North, and sometimes we go to a particular pub near where. he lives. The last time was some two months ago; I did not have my minidisc-walkman with me, and consequently. was seriously harassed by people MI5 had instructed to. harass me, in the pub.

This Tuesday, 8 June 1999, we again went to. the same pub for a pre-meal drink. This time I did have my minidisc-walkman with me.. As you can guess, we were followed into the. pub by a couple of young people (Im getting older and older -. isnt it funny how the MI5 agents all look young these days?).. They started talking about my situation, in particular some travel I had booked the previous day.. Unfortunately, they were talking fairly quietly, and my minidisc didnt. pick up their speech.

MI5s schizophrenic reasoning is that simultaneously I am very. important and worthy of. their acts of persecution, and I am also totally unimportant and their abuse of me. "doesnt matter". Perhaps they should test their agents and managers. for obsessive personalities or psychotic features in the same way as employees are drug-tested. MI5 might. lose their "worst cases" employees if some psychological testing were applied to. their recruitment. procedure.

Toothless. Watchdogs. What a Surprise.

Recently I have been engaging in. communications with two watchdogs, the Security Service. Tribunal which deals with complaints against the security service (and always clears MI5 of. any wrongdoing), and the Data Protection Registrar, which is. mandated to investigate misuse of personal data held on. computer.

In a letter to Nick Brooks, Security Service. Tribunal secretary, dated 20 April, I asked him if the Tribunal, as. an allegedly independent body, had the means to investigate complaints against. MI5 other than asking MI5 to themselves investigate complaints. To my disappointment,. his reply two weeks later answered. the question only indirectly, in the negative. Whatever the reader might think. of the merits of the case I have been. putting before you in faxed articles this last year and half, you will surely recognise that it is a significant anomaly for. the Tribunal to have no independent means of investigating complaints,. particularly given the view. expressed even by previous home secretaries that the security services. are untrustworthy.

MI5 Persecution: No Justice for the. Victims of MI5

In a previous article. I detailed the similarities between the current MI5 Persecution in England, and. other historical instances of similar persecution,. notably that by the Nazi Germans in the thirties and forties. The Germans persecuted. first the mentally ill, the epileptics and those suffering from. schizophrenia, then moved on to racial groups; in todays Britain the persecution is again. directed at those with mental illness, which the British in their cowardice find easier than taking. on racial groups as the Germans did.. But just as in Thirties Germany there was no recourse against a malign and. omnipotent state, so the MI5 Secret Police. in the modern British Fascist State allow no justice for their victims.

No. Recourse Against the Security Services Illegal Harassment

It has. become apparent to me over the last nine years just how loaded the dice. are in todays Britain, a fundamentally fascist country which masquerades as a democracy.. Britain is a democracy in name only; the Establishment, the defence and MI5 secret police are. always there, regardless of which party has been voted into power most. recently - and from "New Labours" conduct in office one. finds it difficult to tell them apart from Old Tories,. in their crackdowns on the sick and vulnerable in society.

In. thirties Germany the victims of the Nazi regime had no legal recourse against their State oppressors; and in todays Fascist. British state, the victims. of the Establishment and its MI5 Secret Police similarly have no recourse against the illegal state-funded and organised oppression.. There is supposed to be a mechanism for dealing with. MI5 crimes, in the shape of the Security. Service Tribunal and Commissioner; yet these have never found favour of a plaintiff. One. might as well ask the Nazi SS to investigate crimes against. epileptics or Jews as ask the Security Service Tribunal to investigate MI5 crimes against British citizens; it. is quite obvious what the answer is going to be,. regardless of what you say to them, and what evidence you provide. The Tribunal and Commissioner. are a mere formality, a whitewashing body to give the. Secret Services a veneer beneath which they. hide their shabby criminality.

"Institutional Racism" and Bigotry. in the Metropolitan Police

The recent inquiry into the racist murder of Stephen. Lawrence found clear evidence. of systematic and deliberate racism in the Metropolitan Police, which cannot have. surprised anyone. Commissioner Sir Paul Condon accepted a somewhat. lukewarm definition of institutional racism as being "unconscious". In truth, and this truth must surely be obvious. to anyone who has any familiarity or encountered the great. British police, the Met has not just "unconscious" racism, but very. clearly "conscious" and deliberate racism,. of the kind that would have done Thirties Germans proud. And it is a bastion of such open racism - when many. other parts of society are learning to live in a multicultural environment,. the Met is still living in the past. in its attitude to the minorities.

But in addition to. the systematic racism confirmed by the Lawrence inquiry, there is also something much more. relevant to this case, which is systematic police bigotry against the physically and mentally. disabled, which I personally have experienced in. my dealings with the police over the years. You cannot expect equal treatment if. you are mentally disabled. I tried to make a complaint. to the police in 1995 about the harassment I had been. subjected to for several years. As soon as they found out I had mental illness, they refused to even talk to me.. I tried again in March 1999; the police made various threats to. me, while ranting about. "your paranoid rubbish" in reference to the complaints expressed to them.

The police refusal to do the job they are employed and paid. to do is extremely serious, particularly as this case is highly important,. indeed key to the whole issue of. British self-perception at the end of the 20th century and the beginning of the 21st. century. Britain has lost much in the last fifty years - it. has lost an empire, it has lost its self-respect and its identity as a people. If. the MI5 persecution finally makes it into the light. and the Security Services are seen for the rather cheap bullies their behaviour indicates, it will. have a massive and harmful effect on British self-perception in the new. century.

Security. Service Tribunal - Blatant Whitewashing

A few weeks ago I. spoke on the phone to Nick Brooks, the Secretary of the Security Service Tribunal, which is. supposed to deal with cases of MI5 transgression. I asked him if the Tribunal had ever found. in favour of a plaintiff and against the Security Service. He answered that. as far as he knew, it had. not.

I also asked Mr Brooks if the. Tribunal had any means of investigating allegations of criminal activity by MI5, other than asking MI5. themselves if they had engaged in such activity. His rather. circuitous written reply states that the 1989 Security Service Act provides that "it. shall be the duty of every member of the Service. to disclose or give to the Tribunal such documents. or information as they may require for the purpose of enabling. them to carry out their functions under this Act". Which is a very round-about. way of saying - "No" - the Tribunal has no way of investigating. MI5 crimes - None At All.

Setting. up the S.S. Tribunal, and creating a Security Service Commissioner, was really an act of falsehood by the government.. It is generally recognised that MI5 are out of. reach of the normal criminal justice system - the police, as we. have seen, have no intesot answer to the government; in a previous article I quoted Roy Jenkins speaking of. "a secretive. atmosphere.... secretive vis-a-vis the government as well as [enemies]", and. a "lack of frankness" from MI5.

If the government wanted to, it could reform. the secret services and ensure they acted in. conformance with the laws which have been enacted for them. in the last ten years. But apparently the present government does not see any. need to ensure security service compliance with the law. As noted above, the regulatory machinery for. MI5 is deliberately weak; the Tribunal

has no independent means. of investigation, and it is simply a waste of time complaining to. the Tribunal or Commissioner.

Every so often, fresh revelations come to light. of secret service transgressions. We have heard. from Shayler that MI5 bugged Jack Straw and Peter Mandelson; we have heard from Peter Wright that MI5 plotted to. see Wilson. ejected from office; yet so closed is the system of government that the law is never enforced against MI5 when they "bug. and burgle" everyone from politicians to. ordinary citizens.

No Justice. from the Legal System, either

Britain has a civil and criminal justice. system which effectively limits many complaints from being heard. For a civil. complaint to be brought before a court, you need a solicitor willing to act on. your behalf. Supposedly it is. possible to represent yourself as a Litigant-in-Pthe basis of being "frivolous. and vexatious" or "disclosing no cause for action in law".. This is exactly what happened to me in 1997 when I twice tried to take the BBC to court for. spying on me in my living room at home; my case was twice struck. out, and on the second occasion an order. was made against me that I could not bring further civil litigation against the BBC. without leave of the court.

As the reader. can guess it is quite impossible for a person with schizophrenia, who complains about the secret services and. media interfering in his life, to find a solicitor willing. to represent him in legal action against the persecutors. I have quite a lot. of evidence of the continuing persecution. which I have posted on the website, even if the evidence is quite tentative. and perhaps open to varying interpretations. But I. have tried several firms of solicitors; some of them have acted unprofessionally and abused me; all. of them have refused to represent me. My psychiatrist gave me the name of. the firm of Bindman and Partners in central London, and I have approached them twice. On. each occasion they refused. to accept my instructions. Plainly the problem with Bindmans, which they have admitted, is. their bigotry against mentally disabled people; yet this is. not just something that is wrong with Bindmans, it is something that is wrong. with the legal system as a whole, since the legal system necessitates finding a solicitor willing. to represent you in order to bring a case to court,. but it does not have a mechanism for providing a lawyer in the case where no solicitor. is willing to take on your case. So the British legal system is such. as to prevent cases such as mine from ever receiving an airing in a. court.

So much for the civil courts. But the criminal justice. system is no better. Two years ago the Protection from. Harassment Act came into force. But again, while the Act is all very well on paper, in practice. it is unenforceable in my case,. since it would require Police action to see the law implemented,. and if the police cannot even be trusted to conduct a murder investigation. competently (in the Lawrence case), then what chance is there of their investigating complaints against the. Security Service?. Of course, it would be possible for me to personally issue proceedings through a private prosecution either. against MI5 themselves,

or against one or more of their media tools; but here. we see the same problems as with the civil courts,. because first of all I would have to find a lawyer willing to. act on my behalf. Litigants-in-person do exist in the criminal courts, but the Attorney General can bring. such a prosecution to an end by taking. it over and entering a plea of "nolle prossequi"; and I suspect that if I were to bring. a private prosecution against either MI5 or one of their media. tools, then this is exactly what would happen.

So much for British justice. But. if anything the wrongs that have been perpetrated on me by the British justice system are quite mild. to what others have suffered. Others have been wrongly convicted. based on police evasions and lies, and spent many years in jail. based on false charges. I should count myself lucky that despite the best efforts of. the MI5 secret police, I have. not acquired any criminal charges or convictions; which shows that. for all their resources and influence, and the clear imperfections in the British. legal system, there are still limits on how much subversion. MI5 can achieve.

The latest in a long line of. injustices

A comment I heard. during the recent scandal of the police mishandling of the. Lawrence murder investigation is that "its not as if the police themselves murdered him". This is not a particularly wise statement. to make about the case, since it could. be argued that the four alleged murderers were aided. in their crime by the expectation that the police would. deliberately botch the investigation - which of course is exactly what. the police did.

But in my case, this would be a completely inaccurate thing to say. - since the MI5 secret-police have expressly been trying to. nine years now to see an end put to my life, either by having me. incarcerated and my liberty ended, or by forcing self-termination on me. It is exactly. as if the secret police "themselves murdered [me]", since. that is what their aim is in their campaign against. me.

The public has heard of instances of police mishandling. of cases, of police manufacturing evidence, lying. in court, extracting false confessions to clear up. crimes, et cetera. Various instances of extra-legal activity by the secret services have also. come to light in the last few years.. The unhappy truth is that what MI5 have been doing to me for the last nine. years is really nothing out of the ordinary for them. To me it seems. unbelievable that this sort of systematic campaign of harassment, which thousands and thousands of. people in this country and abroad are well. aware of, could exist for such a long period of time with the media maintaining "omerta". But my case is not the. first such instance of persecution by. the "British secret police", and judging by the lack of any real controls on MI5, I very much doubt. it will be the last.

MI5 Have Systematically. Destroyed My Life

This is getting depressing. From the feedback Ive received, the. recipients of these faxes. are tired of hearing my complaints, and in truth I am tired of sending them. The reason I havent yet ceased. sending faxes is because I cannot think of any other effective means of replying to MI5s. actions against me, and I feel I have to. do something to try to defend myself. Three/four years ago I. got the MI5 harassment out of my system by posting about it on Internet newsgroups,. and for a few months this tactic was quite effective. - I received (and indeed still do today) support from newsgroup regulars, and felt I. could make my voice heard and break the MI5 monopoly on access to. the British media. But that was years ago, and today nobody gives a tinkers cuss about my internet posts - so I have sought. to escalate matters by communicating directly with the. politicians who allegedly say how this country is. supposed to be run.

Of course,. its quite expensive to keep up a campaign of fax messages for many weeks. Each set of faxes. takes approx 50 hours to send over the weekend, and costs perhaps 35. My phone bill for the last. quarter was 350. These figures are naturally insignificant. compared to what MI5 have been spending against me over a similar period. It. also takes a lot of time and energy to create a new article. every week, and try and find new and fresh aspects and viewpoints on MI5s persecution of me. I. am beginning to run out of both new topics and. energy to write these articles.

So I. have a suggestion to put before the MI5 persecutors who have been wrecking my life since 1990. In a few days time I will be going on. holiday to Poland and Germany, for a couple of weeks.. Previously, almost every time I have travelled. by plane, or gone anywhere on holiday, the MI5 "wreckers". have been most assiduous in destroying these trips. My suggestion is; if MI5 leave me alone on this. next trip, I will cease transmitting these articles.. If, however, there are any clear instances of harassment (and I am very capable of recognising. MI5 harassment when I see it), then I will make. public these instances and publish any recordings I may make of them, and, unwillingly. and unhappily, continue the articles.

Read about the MI5 Persecution on the. Web

Keith Hill MP (Labour - Streatham),. my elected representative, as ever refuses. to help.

MI5 Refuse to. Allow me to have a Normal Life

Its. kind of difficult to contemplate having a normal existence when you know your entire house is bugged from top to bottom,. for audio and, very

unpleasantly, video;. when your employment is systematically destroyed, over and over again; when every time you leave the country. your travel is disrupted by MI5 plants on the plane yelling abuse at you..... you get the idea. I would like to have some semblance. of a normal life, like my Polish and English friends do. But MI5 have made this. impossible, and they have leached massive resources from the taxpayer. to institute a life not worthy of the name. on me.

A few years ago MI5 were very open. about their aims in persecuting me. They were shouting "suicide" at me, both in Canada. where I lived at the time,. and during my occasional visits to London. You cant get much clearer than that. There have been instances as recently as a. few weeks ago of this. intention being voiced by their side; on 15 April 1999, a woman at the next ticket. counter at the Royal Festival Hall said;

"it would kill it, you know, it would. just be overkill... they can't stop can. they"

meaning that "they" were. trying to "kill it" i.e. me and they "cant stop". The audio. file is at;

I wonder. why they "cant stop". Nobody (who doesnt know already) believes my claims -. so what difference would it make, if they were to "stop" persecuting. me? Perhaps what this persons remarks indicates, is the depth of the obsession MI5 have with this case.. They have chosen at random a person from the general population, and done their worst. to ruin my life. What is wrong with these people, that they persecute a. national of the country whose citizens they are supposed to. protect?

No Chance of a Harassment-Free. Job

Since the harassment started. in 1990 I have had three jobs, the first near Guildford, the second in Oxford, and the. third overseas in Canada. All three jobs have been systematically destroyed by MI5.. It is so ironic that MI5 employs a team of agents, each well compensated. for their efforts, to persecute just one person paid a mere fraction of. what they get for their "work". In fact, it is a joke that MI5 is allocated resources for. this sort of effort. If. this area of government were run along commercial lines then. MI5 would be very rapidly closed down, they produce nothing of any value,. instead spending their time obsessed with the bugging and surveillance of their. former employees like Shayler, dangerous subversives like Straw and Mandelson, and "threats. to national security" like yours truly.

Applying for my. first post university job

When I was applying for my first post-university job in. the closing months of 1990, I found at two or. three job interviews that MI5 had got there ahead of me. Interviewers knew what words to repeat from what had. been said at my home recently;. MI5 had supplied them with words to hurt me, and the "British secret. police" were trying to wreck my job search and discourage me from joining the world. of work. This and the continuing harassment in the media and by the public meant that the search. for a job

took very much longer. than it would ordinarily be expected to take for a person with. my qualifications.

With my first job near Guildford came the knowledge that MI5. were doing everything possible to make me lose the job. Despite. their efforts I managed to stay in work. for ten unhappy months, during which they made very clear. to me that they were bugging my workplace, my accomodation in Woking, my car, my. home..... and they also made clear that they had "got to" my employer in. Guildford.

Employment. with Oxford

I. was able to find a new job, with Oxford Computer Training Services (now ARIS/Oxford),. quite quickly. But it became very clear, very quickly, that MI5 were treating this job the. same as the first; they tried to get the other employees and. in particular the managers to attack me. It was plainly MI5s intention that I be. sacked fro this job. But I was not sacked; instead, after almost a year of abuse from OCTS managers,. I was forced to seek medical help, and had. to take two months off for medical leave. OCTS MD Hugh Simpson-Wells. was motivated in keeping me on by the fear that if he sacked me, then I. would take him to court for the treatment OCTS managers had meted out. to me during 1992.

Emigration to. Canada

When I emigrated to Canada. in 1994, I did think that perhaps MI5 would leave me alone, given that I had. made the effort to leave the UK and try to. find a new life overseas. I could not see any reason why they would continue to harass me over. in Canada. But clearly the MI5 agents had their salaries to think about, since continue. to harass me they most certainly did, at my home in Ottawa,. and by getting fellow employees to speak against. me, as had happened with previous jobs in the UK.

MI5 are denying me a future in. work

Former Chief Constable of Devon. and Cornwall John Alderson had this to say regarding MI5's. activities;

"MI5 is not. under the same restraints as the police. They infiltrate organisations, people's jobs and lives. They operate almost. like a cancer."

Currently I am on disability, and I can see. that MI5 are denying me a future in work. It would be an insult to logic. for me to return to work and find a. job, in the knowledge that an entire team of MI5 agents, paid in total many times what. I would be earning, would have the objective of seeing me "done down" in the employment, and ejected. from the place of work. This situation is completely wrong and. nonsensical - I would very much like to have a job, but MI5 are. preventing me from even thinking about returning to work. The culture of secrecy. in MI5/MI6 means there is no. objective oversight of their expenditure, when external oversight and greater. transparency might lead to wasteful and illogical operations such as. that against me being shelved.

Watched and Harassed at my Home. and Accommodation

As you will know if you. have been reading these articles, MI5 have watched and harassed me at my home, and at every accommodation. Ive had since 1990. Theyve also watched. me at neighbours houses in London, and at short-term accommodation such as. hotels and bed-and-breakfasts. They have used the "words" gained from these watching. activities against me, by passing these words on to other people such as OCTS managers for. them to make clear that I am being watched where. I live.

Harassed. at rented rooms in Oxford in 1992

This was at its worst in 1992 in Oxford, where during the week I lived. at rented accommodation in Oxford, and at weekends returned. to my parents home in London. I was being severely harassed. by managers at my place of work, OCTS; and it. was clear from the things they said that they were being supplied by MI5 with. details of my home life, that they were being supplied with. words to repeat at me.

In 1992 I moved house. in Oxford many times, living at a total of five rented accommodations in ten. months. In January I started off living in a rented. room at Headington near the ring road / A40 intersection; then when it became clear that house was being bugged, moved. to a rented room in Botley, some miles away. It was at the house in Botley that I. had an "interactive watching" experience. with Martyn Lewis while he was reading the news; I threw a term of abuse. at him; he first flinched, then gave a gsult of what I. had just said, he was no longer "on my side".

So I moved house. again. This time to a place in Cowley, near the Rover car works, where I stayed. for a few weeks. Because of continuing harassment at work, I soon moved from this accommodation, to yet. another rented room on Iffley Road. By. this time I was very ill and being abused continuously at work. Again, MI5 followed me to the. rented room on Iffley Road, and created new instances of "newscaster watching". There was a television. in the room which I watched, and as you can guess the. newscasters got at me when I was watching the television.. Also once I was assaulted, if thats the word for what. happened, on leaving the house; a youth grabbed me by the coat lapels, roughed. me up a bit with various terms of abuse. I did not. report this assault to the police, because what was happening to me at work was very much worse,. and nobody seemed to think that that was worthy of being reported to the police. Later that day at work, Alex G,. a fellow employee, said "I heard he was assaulted".... I had not told anyone. at work. about the incident that morning..... so once again it was made very clear that MI5 were watching my rented accommodation. and giving information about what. was going on there to managers at work.

So I moved house yet again in. late autumn 1992, this time to a rented room in a large house on. Woodstock Road. I stayed there for several weeks as the situation at work deteriorated due to OCTS managers abuse,. until I was forced to take sick leave from work for two months and attend hospital. as an outpatient; at which point I. gave notice on the room, and returned to London.

MI5. continued to harass me after the diagnosis of serious illness was made. As reported previously, they harassed. me on a flight to Spain in December 1992; and in 1993,. when I returned to live and work in Oxford, they again bugged my rooms, as well as my workplace,. although the intensity of the harassment was very much less than. in 1992.

Watched, followed. and harassed in Canada

It. dismayed me to find that MI5 would not leave me alone after I had settled in Canada. In. January 1995 I rented an apartment at the Bayshore complex. in Ottawas west end. For some weeks there was no sign of the "buggers". But then it started all over again. They first. bugged my car, which had a car. alarm installed - the alarm went off two or three times in a single evening, and the following day gave a. signal that the car had been broken into. Then. they bugged my apartment, and in particular they installed bugs on the phone line. in my apartment.

In September 1995. I moved to a new apartment in Ottawas Bytown Market area, the restaurant and entertainment heart. of Canadas capital. This proved a serious mistake. In the west end I had been fairly. distant from the centre of. town where MI5 concentrated their efforts at turning people against me. In the Market. area it was much easier for the persecutors to motivate people to harass me, and over the next. couple of years there were frequent instances of. harassment by the general public.

From. 1995 I had some Polish friends in Ottawa, and as the reader can guess, MI5 have spent much effort trying. to break up this friendship. They supplied various things about my home life. to these friends, for example where I was living in the Market, directly. over the road were the studios of a music radio station, which you had to "look up" to. see; and MI5 told these friends that. I was "looking up" to see the radio station; so the friends then replayed these words back to. me, that I was "looking up". MI5 have also made various sexual slanders against. me, and these friends also unwittingly replayed. some of the words they had been imprinted with by the MI5. persecutors.

MI5 Will Never Allow Me. to have a Normal Life

I have heard many excuses. as to why MI5 continuously prevent me from having a normal life. We are told that MI5 are. defending the country against a tere. to zero.

When I have travelled abroad, they always put their people on the. flights, on. the journeys I undertake, to continue the harassment, so that I am put off further overseas travel, and chained. to my home in London. Yet even this is illogical, because when I lived. in Canada, they would still put people on flights back to the UK.... and what possible reason would. they have for doing that? Perhaps the truest words to. describe the MI5 persecution is. that reason has nothing to do with their activities - sane people do not behave in the way the MI5 British Secret. Police have been doing.

Summer 1999 - more MI5. harassment?

In only a few days. time I will be going to Europe again. This time I have deliberately chosen. to travel by a non-UK airline; so we will see if they put their paid. agents on this foreign carrier, we will see if they try to harass. me on this non-British flight.

If they do harass me on this. trip to Europe, or if they resume the harassment in London after I return. home, then I will continue to report their activities in these faxes. As I. said at the beginning of this article, I would very much like to not have to send these articles. any more, but that is not my decision to make - it is entirely. up to MI5 to cease. their pointless persecution of me, once and for all.

MI5 Persecution. Update: Friday 9 July, 1999

Harassment. in Poland, July 1999

And still it continues.... in my last fax I said. that provided MI5 made no attempts at harassment during my two-week holiday this. summer, or after I returned to. England, then I would discontinue these faxes. Unfortunately MI5. have continued to harass me, both during the holiday and after my return to London. I really dont want to continue these. articles, since they take up so much time and. effort, not to mention expense; but the Security Service wont even let me have a. holiday in peace and quiet, so I have to make further efforts. to bring their activities out into the open.

In early July I. visited my aunt and her family in Poland. On Saturday 3 July 1999, I went to a family barbecue at an allotment. outside the city. One of my aunts family has previously shown himself to be in. the "enemy" camp, by saying the Polish equivalent. of "something wrong with him", and. various other unprovoked insults. It is disappointing that one of my family could forsake the usual ties of. blood and take part in the actions against me, but thats the way it. is. This guy turned up at the barbecue, and started making insults against me.. In particular, he started to say. something about the video camera which I had brought along on the trip, and. the relevance of the video-camera to my fight against the persecution. It seemed pretty. obvious to me that my enemies had told him to. turn up to this occasion, and most likely schooled him in precisely what words to say; since hes. an unintelligent person and would not be able. to think for himself what insults to make against me.

Harassment in London, week ending Friday 9 July. 1999

Got back to London Wednesay afternoon. Two incidents on. the Underground returning from the airport. Unfortunately I wasnt. recording because I wasnt expecting trouble,. so these slipped through the net. One of these was verbal sexual abuse, of the type Ive. heard many, many times before these last. three-and-a-half years.

Yesterday, Thursday 8/July/1999, I switched on. Heart FM which had never "got at". me before.... and the presenter started making jokes about "mad, crazy" etc. Again,. wasnt recording this because Id never had any trouble from. this radio station and wasnt expecting any.

Also. yesterday, on a bus (155?) from Balham to Clapham, a couple of girls started harassing me with taunts of "crazy". By now I. was expecting trouble and recorded an audio. file of this instance of abuse, at web URL;

The. cynical reader might think my demeanour or behaviour had given rise to the. taunts of "crazy" recorded above. But I assure you my behaviour on the bus would not have made. anyone think I was ill; and the taunts the previous day were the same sexual words as previously; so I'm quite. sure that these incidents are either. deliberately staged, or indicative of an overall high level of awareness among the London public, particularly. in the part of London where. I live.

Keith Hill MP (Labour - Streatham), my elected representative, as. ever refuses. to help.

MI5 Persecution:. Harassment through the Radio

One of the aspects of the MI5. persecution has been harassment through the broadcast and print media; and. one of the aspects of harassment through the. broadcast media is being "got at" by radio presenters. This being "got at" from the radio takes various. forms, the most obvious form being through overt or hidden words and insults. But. there are other, subtler forms. In Canada a couple of years ago, I used to listen to the. local radio stations every morning driving to work, and listened to. the music only, switching between radio station presets rapidly as. soon as a presenters voice came on, so that I would not be subjected to. any verbal harassment by the D.J.s. But they found a way around this;. they kept on playing the same song, every. bl**dy morning at the same time, which had the words "all coming back to me"; the perceptive. reader will remember that. the words "coming back" have special meaning (see the Private Eye cover. at web URL; for the
hidden. meaning).

And thats. not the only time theyve allowed the songs themselves to be used as abuse against me; many years. ago Radio-1 in the UK did exactly the same, and the DJ even made it explicitly. clear by saying, "dont you sometimes feel as if the. songs were made just for you".

"We should be done for attempted manslaughter". says Chris Tarrant

Capital Radio DJs have been "in on it" from. the start. One of the first things I heard in the summer. of 1990 was from a Capital DJ who said, "If he listens to Capital then he can't be all bad". (supportive, you see. We're not bastards). Much of what came over the. radio in 1990 is now so far away the precise details have. been obliterated by time. No diary was kept of the details, and although archives if they exist may. give pointers, the ambiguity of what broadcasters said. would leave that open to re-interpretation.

In spring. 1994, Chris Tarrant on his Capital morning show made an aside to someone else in the studio, about a. person he didn't identify. He said, "You know this bloke? He says we're trying to kill. him. We should be done for. attempted manslaughter".

That mirrored something I. had said a day or two before. What Tarrant said was understood by the staff. member in the studio he was saying it to; they said, "Oh no, don't say that". to Tarrant. If any archives exist of the morning. show (probably unlikely) then it could be found there; what he

said was so out of context that he would. be very hard put to find an explanation. A couple of days later, someone at the site where. I was working repeated. the remark although in a different way; they said there had been people in a computer room when. automatic fire extinguishers went off and those people. were "thinking of suing for attempted manslaughter".

Pirate Radio "gets. at" me

In another incident in. 1990/91, Id been listening to a pirate radio station in South London. for half an hour, when there was an audible phone call in. the background, then total silence for a few moments, followed by shrieks of laughter. "So what. are we supposed to say now? Deadly torture? Hes going to talk. to us now, isnt he?" which meant that they could hear what I would say in my room. Note the word "deadly". - they give away their. purpose.

It constantly surprised me that MI5 are so. easily able to subvert broadcasters, and, in this case of the pirate station, to do so,. so quickly. I think the. answer to this question is that they must have very wide contacts. in the broadcast media; presumably some or in fact many of those contacts are literally "bought". In the. same way as they tried to buy Jon Snow of Channel Four news, they. must have bought many broadcasters and use them both directly to. make insults against me, and promulgate their points of view; but also, they must use. these "bought" broadcasters to influence. other television and radio presenters, who might not even be aware that it was on MI5s behalf that. they were being influenced to "get at". me.

BBC-Radio-1 D.J.s celebrate my job termination. in November 1991

This is another one from the "early years". At the beginning. of November 1991 my employment in Woking, Surrey was terminated.. Chris Tarrant of Capital-FM had already made nasty remarks. about both my work for the company, and the. managers of the company themselves - "so theyre not really a serious. company, well theyd have to be to employ you wouldnt they".

So when I was terminated, as you can expect, BBC Radio 1. D.J.s celebrated. On the Saturday. afternoon (either 9/Nov/1991 or 16/Nov/1991 - I cannot. remember precisely) I briefly listened to Radio-1 and heard the disc. jockeys loudly proclaiming "youre useless, you should be sacked". On the same day, I went down to the Kwik-Fit in Tooting to get my. cars tyres replaced, and in. the office ran into a couple of their staff, one of them with an Australian accent, who said. "what do you think about it then? Its getting killed on. the radio."

Plainly, if. a random car-repair shop in Tooting knew about the persecution, then many thousands of other people. across the capital and all over the country must have known. And. the phrase "getting killed". shows very clear awareness of what the MI5 Persecutors intentions towards me were in 1991, and. judging by the continuing harassment, still remain. today.

Recent Feedback from. Virgin-Radio

As readers will know, from mid-March 1999 for. some four months, every weekend, I have bombarded. Westminster MPs with faxes about the terrible, all-encompassing MI5 Persecution. (Jesting aside,. it really is terrible and all-encompassing, in the UK anyway.). In June 1999, after I'd been at it some three months, I. started getting "covert" feedback from Virgin Radio.

The first feedback I got was from. Danny Baker, on Sunday 13th June. That weekend. I was sending an article which contained biting criticism of the police inaction. in this case. Danny Baker on his Virgin radio show started an angry rant that "he. knows it's rubbish", ie. he was rubbishing what I'd said in that weekend's faxed article. Unfortunately I. wasn't recording this. programme.

The next possible Virgin-Radio feedback was a week later on 19th. June 1999. This is contained in the audio file above, in which. Johnny Boy on his. "Wheels of Steel" programme says;

"and. if you would like to put a triple play together, ahhh.... because quite frankly Hipster and me are. running out of ideas...."

He. goes on to counter Hipster's "how dare you" with a protestation that he is "only joking". You can listen to this incident. on my website at URL;

What I reckon is that my article faxed to MPs. that weekend was forwarded by one of the recipients to Virgin Radio. My article. had included the words;

"I am beginning. to run out of both new topics and energy to write these articles."

So what I reckon is that Johnny Boy read the article.... and. rephrased the above. line "run out of ... new topics" to "running out of ideas". I recognise that. this is a pretty tenuous inference to make.... but do listen. to the audio file, from the "ahhh...." pause in JB's speech you can guess he. is about to say something "risky" and at someone's expense. Anyway, I. listen to the Wheels of Steel regularly and will continue to do so, recording it as I always do. - so any future funny remarks will get immortalised on my website! (There was. a previous incident from August 1998 which is preserved. at web URL;

but I am sufficiently. uncertain about it that I have not included it in this. article.)

First Ever Radio Reference - Alan Freeman. of BBC-Radio-1

The first time I was ever referred. to on the radio was sometime in May or June of 1990, by Alan. Freeman of BBC-Radio-1. Note that this isnt an "interactive listening" episode, its different, this. was Freeman reading out. a letter from one of my "real life" enemies.

Id acrimoniously broken up with some former friends. in January of 1990, and I think. they were still trying to cause me trouble in June of that

year. Freeman. on his rock show read out a letter from an "Andrew Turner"; one of my acquaintances from. January 1990 had been called Andy Turner, so I think its the same guy. Freeman quoted Turner as. saying various things about me, in. particular Freeman said "thats a hell of a letter you wrote there Andy", "with. a schizophrenic you're never alone", and something about the "one who wore out his welcome with. random precision" (from the words. of the Pink Floyd song).

When I was looking for. primary causes of the MI5 persecution, this letter which Freeman had read out on. his programme struck me as being potentially one of the sources of the persecution. I know Turner and. various others in that group were very bitter at what they saw. as their failure and my undeserved success, and they were quite determined to upset. the applecart. Of course several other. primary causes are possible; I do not know. why MI5 chose me as opposed to someone else, and MI5 are hardly likely to tell. me.

"Absolute Obscene" David Hepworth. of GLR

This one. Ive assigned a 100% rating on the website. There are actually two separate incidents, which are. linked through the D.J.s choice of words. The first incident can be heard in computer audio at web. URL;

On 21/Feb/1997,. I was listening to BBC GLR, by stealth. Back in 1990 I used to have Capital blaring. out of the speakers all over the garden ("if he listens to Capital then he can't. be all bad", thanks ever so much). But now I listen on my walkman on headphones. with the volume turned right down. It could. not possibly be overheard by any listening device, no matter how sensitive, because sound does not carry from the. phones.

Yet somehow they. are still able to tell which station I am listening to on the walkman. And last night, I bravely tuned. to GLR 94.9FM at around 8.45pm. Everything went well for. the first half hour or so. Around 9.10pm, Hepworth said the following. after the song "Come Around" by the Muttonbirds.

"coming up after this,. we got the rock-and-roll A-level, we have, I assume, Brian do we. have an embarrassment of prizes in there, we do, don't we, absolute obscene amounts of prizes,. there will no doubt be a riot at the back door, and that's, er, A-level coming. up after this"

The key phrases in what he said are, "EMBARRASSMENT of prizes",. and what he himself emphasized verbally, "ABSOLUTE OBSCENE. amount of prizes". It is my belief (based on content and. tone of voice) that when he spoke these phrases. he knew I was listening, and that the phrases refer directly to my situation. The. "EMBARRASSMENT" is the embarrassment he and other media people would feel at having their. wrongdoing exposed; the "ABSOLUTE OBSCENE". (which he verbally emphasized) described the disgusting sexual abuse which. the harassers have been throwing at me.

There was a second incident, on 9/May/1997, which may. be found on the web (with computer audio) at. URL;

This incident again contains the words "absolute. embarrassment of prizes", with the same emphasis. as the first instance, and laughter following the phrase. So theyre aware of the complaint I made on Usenet after the. first incident; and they. are so arrogant that they do exactly the same again. They are so arrogant, they know they are. being recorded and that what. they say will be published on the web, but they dont care. What corrupt media, and what a corrupt country to have such corruption. in its media.

Three Years of. "MI5 Persecution" Faxes

Ten Thousand Faxes,. and Still No Breakthrough

In the last three. years I have sent at least 5,301 faxes directly from my computer, and 4,478 faxes through Demons. extremely useful TPC.INT service, to politicians and the media, in the subject of the. "MI5 Persecution". This has obviously cost me quite a lot of money,. not to mention. time and effort. The aim of all this communication has been to try to put discussion of the "MI5 persecution" into. the public arena; unfortunately, this aim has not. been achieved, yet.

This fax will be my last transmission for the time being,. since the summer recess is almost upon. us. Depending on what the persecutors do between now and the autumn,. I may or may not resume faxing later this year. In the article dated 18/6/99 I said Id stop the articles if. MI5 left me alone; but they. seem to have no fear of these articles, since they kept pursuing me in Poland and after my return. to the UK. Again, if they leave me alone this summer then. I wont have to resume the articles in the autumn; but I think. its fairly obvious that MI5 have nothing better to do with their time than to go after me, and its almost pointless to. make this offer when I know. they wont cease harassing me.

TPC.INT. 1996, 1997, 1998.....

Three years ago I was living in Canada, and. the only economic way of sending faxes to. the UK was through the international email-to-fax gateway TPC.INT. This highly useful and totally free service. converts emails (which may have Postscript-formatted attachments). into faxes which it delivers to any number within the UK. Using the. telephone book, I constructed a computer database of M.P.s fax numbers, and. used this database to deliver copies of the "FAQ -. frequently asked questions" article which Id written some. time earlier.

This service is still operational, but given that I have. resided in London for the last year, I do not need to use Demons service when. I can send articles directly from my own computer. using its fax/modem, which is what I have been doing since. 1998. However, instead of just sending the FAQ article, Ive been composing articles on. various aspects of MI5s treatment of me. Since their activities have been going on. for nine years now, and there have been various aspects to their actions; they have harassed me. at work, at home, through the media, etc; I have so far not run. out of things to say, particularly since their harassment. of me is still ongoing, and I have been able to record the actual words used by their paid agents. on my minidisc-walkman. Since mid-March 1999 I have been. sending these articles

pretty much. every weekend.

Anyway, as mentioned above, I intend this to. be the final transmission before the summer recess, and. it would be nice not to have to continue these articles in the autumn. But thats something. that depends on them, not me,. and their attitude is unfortunately clear.

Why am. I sending these articles?

Because I want the harassment to stop.. The cynical reader might think from these articles that I "thrive on adversity" and would be lost without. the harassment to complain. about; but that is not the case. In a perfect world I would like to return to work, in a job unsullied by. MI5s attempts to ruin it; I would like to live. in a house which wasnt bugged, with my words being. repeated at me wherever I go; I would like a normal life. I do not particularly thrive on adversity; I am beaten down by. adversity; the purpose of these faxes. is to try to bring the whole matter out into the public arena, where. the rights and wrongs would be visible to all, and once that were to happen, the adversity might. cease. I have had something approaching a normal life a couple of times in. the last nine years, but always, in the end,. MI5 turn up and ruin it. I just want these people out of my life, permanently, and the only way of. doing that is to kick this business into the public arena, and shame MI5. so that they are incapable of. doing me further damage.

Having said that, unfortunately it seems fairly obvious by now that. these faxed articles are. not going to achieve that aim. Some of the recipients know what I am saying is true; but they choose to stay. quiet - wisely, because if they were to admit the. truth of these articles, then they would bring the wrath of MI5 down on their heads. Presumably. most recipients do not know these articles are true; their reaction to me is. the same as my reaction to the other apparently deluded people who have. sent me email after reading my webpage to tell me it. happened to them too; the reaction being, "leave. me alone, I dont want to know". Its sad that many M.P.s have given me this reaction, because my case. genuinely is different; I genuinely am telling the truth, and the harassment. genuinely is happening to me, and some recipients. of this fax know this to be true.

"Write to. your own M.P."

My local M.P. is Mr. Keith Hill, Labour-Streatham. He refuses to have anything to do with. me. He refuses to represent me, he refuses to talk to me, he has told me not to communicate. with him. He has done absolutely nothing to help me,. and he has told me he will do absolutely nothing to help. me.

Other M.P.s, recipients of these faxes, have for quite some time. been telling me, "write to your own M.P.". On 23 March 1998, Paul. Burstow M.P. wrote. to me; "Whilst I take the issues that you raise seriously, there. is a strict Parliamentary convention that one Member of Parliament does not take up anothers casework. Can I suggest that you write. to your own M.P. at the House of Commons?" Hopefully. the above paragraph will

make clear that I. have written to my own M.P. and he has proved unhelpful.

Other M.P.s have told me the same thing. On 21. May 1998, John McFall M.P. told me, ".... there is a parliamentary convention that M.P.s do not take. up cases of people not in their constituency..... therefore can I suggest that you write to your local M.P. who will be better. able to assist you." And on. 8 June 1998, Michael Foster M.P. wrote to me that "M.P.s are inundated with. unsolicited faxes .... M.P.s have a considerable amount of constituent work to. deal with, thus other M.P.s constituents cease to be of concern in so far as they should have. a voice and representation".

Simon Hughes M.P. wrote to me on 5 November 1998, "There. is a strict parliamentary convention which states. that I am not able to represent individuals who are not constituents of mine. My advice. is that you find out who your own Member. of Parliament is rather than circulating your story to all M.P.s.". To my suggestion. that Keith Hill M.P. was doing nothing to help me,. George Foulkes M.P. sent the following faxed response; "If Keith Hill your own M.P. cannot help. no-one else in the House of Commons can." But it is clearly not a case of "cannot" help,. but "will not". help. I have detailed in letters to Mr Hill specific ways in which he could. help me, first of all by finding a lawyer to represent me.. It is Mr Hills job as a Member of Parliament to represent his constituents; if he chooses not to do so, then it reflects badly. on him.

Kate Hoey Sympathises,. but says, "Write to your own M.P."

Here is part of. a letter Ms Hoey sent to me on 15 June 1999.

I appreciate that. you have concerns about the persecution and harassment that you feel you. are experiencing but I note that your MP is in fact Keith Hill. There is. a very strict Parliamentary code which means that M.P.s can only. take action on matters that relate to their own constituents. I am aware that you are not happy with the fact that. you do not feel Mr Hill will assist you but I am afraid that I. cannot take any action on your. behalf.

Ms Hoey plainly belongs. in the camp of people who do not know about the reality of the "MI5 Persecution". She doubts its. existence; "the harassment you feel you are experiencing". She urges me to. see Mr Hills assistance, as have. other M.P.s detailed above.

Really, the fact that I am unable to. obtain assistance from any other M.P., if. my own alleged "representative" Mr Hill chooses not to represent me, is a very. basic weakness in the Parliamentary system. Beinggmainly events at my. former employers in Oxford during 1992, when I was harassed constantly by manager Steve. Mitchell for most of 1992, and was forced to begin attending hospital as an. outpatient as a result. This harassment was obviously of Mitchells own. volition, since I observed him harass similarly another new worker two years later; but. it was also at MI5s instigation, since they kept. providing him with words from my home life which he then proceeded to abuse me with. Yet this is not the only employment. that MI5

have destroyed; the MI5 persecution has lasted from the end. of my student days until the present time, during which I have had three jobs,. all of which have been in. various ways destroyed by MI5s deliberate actions.

In March 1999 I decided to try to force the issue once and. for all. Ever weekend for. the last four months, apart from two weeks when I was on holiday, I have sent original articles by fax directly from my. computer to Westminster politicians. Here is a summary of the articles of the. last four. months;

How to. Identify the Persecutors

Their use of. Schizophrenia to discredit my claims
Comparing the MI5 Persecution with. German "Final Solution"
MI5. are Plainly Trying to Kill Me
MI5 Waste Taxpayer Millions on Pointless. Hate-Campaign
Four Years of "MI5 Persecution" Posts on. Internet Newsgroups
MI5 Agents are Clinical. Psychopaths
BBC Newscasters Lior the Victims. of MI5
MI5 Have Systematically. Destroyed My Life
Harassment. through the Radio

To my deep worry these fourteen faxed articles. have still not achieved the objective of kicking the matter out into the public. arena and forcing an admission either from the persecutors, or from those. "in the know", which includes. some M.P.s.

I dont really know what else. to do to try to bring the "MI5 persecution" out. into the open. I would have expected that these weekly faxed articles. would have had some effect, but the only result has been M.P.s telling me. to contact my own representative Mr Hill who refuses to talk to me. I. understand the convention that M.P.s deal with their own constituents and not those of other M.P.s, but there seems to be a. gap in the process since it allows your own M.P. to refuse to deal. with you, and then you are totally denied any representation. at all.

Conclusion

The only conclusion I can inform the readership. of these articles of, is that there is no conclusion. to this matter, yet! Three years of intermittent articles,. and four months of faxes every weekend, have been absorbed by some of the most powerful people in the. country, to no effect.

Whether these articles. continue in the Autumn is entirely up to the "opposition".. I offered them a cessation of complaints if they would leave me alone. on holiday in June/July, and they went right ahead and harassed me anyway, on holiday and after I returned to. London. If MI5 cease their activities now, then I wont have to continue these faxes. in the autumn;. but I suspect they wont cease, which means youre in for more articles later this year. "There will. be no conclusion."

MI5 Want Me to Send. You these Faxes

MI5 seem to Want to Spin this Business out for as Long. as Possible

The. MI5 persecution has now been going on, starting from June 1990, for well over nine years. If. I knew how to put an end to it then I would do so.. Of course MI5 have indicated how they wish to finish the matter, by finishing me off; they indicated this very clearly years ago. when they were. shouting "suicide" at me.

But a deeper truth is that. the MI5 agents carrying out the persecution rely on it. for their income and their livelihood. They have absolutely no interest in anything other than spinning out the whole business,. because that is how they will maximise their earnings from. their employer for the "work" they. do against me.

A vital part of the fantasy structure MI5 have created about me is. that I am somehow a worthwhile target. If you. bother to read these faxes, if you browse my website, or perhaps read my posts on. the uk.misc newsgroup, you will have by now. twigged that I am a totally insignificant person who in a proper dictatorship like East Germany would not. merit five minutes of Stasi time. But Britain. is improper in the methods of its corruption, and the Security Service. seeks to present me as being a an evil fascist, an evil communist,. an evil something-else, and even a "national institution".

It. occurs to me that to some extent I am playing into their hands, into their scheme of things, by writing these articles and sending. these faxes. By doing these things,. I elevate my profile, and fuel MI5s paranoid obsession with me. But to stop. sending faxes would be to give up the only hope I have. of seeing their campaign "outed" and justice done. Certainly there is no point going to the police. again; and as remarked in a previous article, the. Security Service Tribunal routinely whitewashes every complaint. that is placed before it.

So although MI5 seems to want me. to continue sending these faxes, doing this is the only real chance of getting this business out into. the open. And so Ill continue trying to kick. down their house of cards. At least my situation is less serious than that of some other. victims of the secret services; unlike Shayler I am not. broke and exiled; unlike Fayed I have not lost. a son to the posited activities of the secret services. All I. have lost is some of my health, some of my life, and some of my possible career.

MI5s Abuse. of me is without Cause or Reason

It constantly. puzzles me that MI5 refuse to leave me alone, wherever I go and whatever. I do, or rather, whatever I dont do, since Im not a very socially. or otherwise active person. When I am in England, they chase me all over the place,. and once theyve found me, they pay people to shout rude words at me. When I. am in Europe, they again chase me all over the place, and as usual pay people to shout obscenities at me. When. I am in Canada or visiting the States, they faithfully chase me all. over the place, and. when they find me, pay people to shout obscenities at me.

It is hard to avoid the conclusion that. these MI5 operatives who chase me are total. lunatics. You will remember from a previous articles the assessment "MI5 Agents are Clinical Psychopaths". They have tried. to blame me for what they. do and what they say; yet their lies have been wafer-thin, and are. clearly seen to be oiled by the money which they acquire from the Government,. and ultimately from the taxpayer.

They have tried various lies to put the blame on me; "we have to. abuse him because. hes a nutter", as if there werent many tens of thousands of other people with schizophrenia in the. United Kingdom. Their choice of abuse words is telling; subconsciously perhaps they realise that it is. they who are the "nutters", and they try to project their. own illness onto their target.

MI5 Operatives have Nothing Else to Do With. Their Time

Ive seen the same "Alan Holdsworth" person. three or four times over a period of several years. I saw. him at the Civic Hospital in Ottawa in the Emergency Ward, where he falsely. declared his name to be "Tad"; at Ottawa airport in summer 1998; and on board another. flight in 1995.

So what. we see from the above paragraph is, the same people are delegated to watch me for many years. Without me,. they wouldnt have a job. They literally have nothing else to do. with their time, except indulge their voyeurism against me. With this observation,. we come to the core of MI5s campaign against me; these people are. not fit for any job other than the exercise of voyeurism against me, and if sanity. were to land on MI5 then they would be out of a. job. If sanity were truly to land then these people and their. employers would be prosecuted for offences under the Protection from Harassment legislation,. which they are clearly breaking.

It is one of the ironies of their. campaign that MI5 have been trying to make me an object of ridicule for completely trivial. things I have done, while MI5 themselves have simply not mentioned how ridiculous is their. own behaviour and. that of broadcast media journalists, in spying on me while they. read the news for example. If the whole truth of this business is ever exposed,. and despite all my efforts it still seems there is a block on its exposure in Britain, then the. rights and wrongs will be clear to all, and no amount of MI5 lies will be able to. change that. MI5 presumably do realise just how damaging such a revelation. would be both to themselves,. and to broadcast media such as the BBC and ITN, because there has not been even the. slightest chink in the armour, despite four and a half years. of my complaints on internet newsgroups and by fax to politicians and the. media.

MI5s Final Kick in. the Teeth to the British State

For someone like myself born in. the late sixties it seems peculiar to think that Great Britain once used to have a. say in the destiny of foreign peoples in far-off sections of the globe. Modern Britons tacitly. accept the. lowering of their country to a third-rate power reliant on the United States for what little say it has in the. world. A third-rate power, now "reverse-colonised" by third world peoples. it once ruled and riven with internal problems so severe the. government hardly dares acknowledge them.

To this third-rate power the MI5 secret police are delivering the. final kick in the teeth through a. campaign of persecution which is guaranteed to hold the state up to ridicule throughout the world when it. is finally exposed. As. a "thought experiment" suppose the French or the Spanish security service had done to one of their own born citizens. what MI5 has done. in this country. Suppose say the Spanish had planted hidden cameras in his home,. for the perverted pleasure of their state television newscasters, just as hidden cameras have been placed in my home for. the perverted pleasure of Martyn Lewis,. Nicholas Witchell et al. Suppose the Spanish service had for nine years. been trying to force suicide on their target; at times,. so blatantly that they shouted the word "suicide".

Now suppose they were. caught.

Of course, as long as MI5 arent caught, theyre laughing.. The psychopathic security service agents gets their kicks from shouting. abuse at me; the newscasters, Lewis, Witchell etc get their jollies,. "it was so funny", we were watching this bloke and he. couldnt do anything about it.

But. once theyre caught, the sky falls in. Of course, the "patriotic" MI5-funded media in Britain will. try to put the best spin on the MI5/media activities; it was the targets fault, of course. But. most of the world bears no allegiance to Britain. If this business is ever. exposed then a weakened Britain will become the laughing-stock of. the world. And I promise you, the security services. persecution of me will be exposed. MI5 has delivered a final kick. in the teeth to the British state, and I will do everything I can to ensure. the world hears about what they have done.

Metropolitan Police Refuse to Investigate. the MI5 persecution

I have on a couple of. occasions tried to motivate the police to investigate. MI5s actions against me. On each occasion they have refused to do so. In. 1995 I went to my local police station and spoke to an officer there; he refused to. accept my complaint, and seemed interested only in seeing me leave the station as. quickly as possible.

Earlier this year I had some communications. with Det.Sgt.Richards of Charing Cross police. Again I asked him to deal with MI5s actions. against me.. Unfortunately DS Richards conformed to the negative stereotype of the bigoted, ignorant "copper"; he said, "I. have read your various bits on the internet. I'm afraid there is no substance or credence to it.. It's an absolute load. of rubbish. I don't investigate rubbish. I can't be more blunt or to the point. than that."

You. have to wonder at the state of law enforcement in Britain. If the victim of a murder. is black, as happened in the Lawrence case, the police deliberately botch the investigation. If the victim of a crime is. mentally ill,. and the perpetrators are the secret services, as in my case, then the police refuse. to even begin to investigate the crimes committed. Politically Britain is a. third-rate country, but from the point of view of obtaining justice, Britain ranks down there with. third-world countries.. You almost feel that MI5 and their media buddies would not even have any shame if their activities against me were exposed;. after all, why should they? they. have the money, they have the control, OK so perhaps theyve broken a few dozen laws, but doesnt the fact. that the police are too corrupt to investigate these. crimes, doesnt that prove that in fact no crimes. have been committed?

I. should say again what I have said earlier in this article. My losses over the last nine. years have not been as great as those of other victims of British Secret. Police malefaction. Fayed lost his son to their murderous activities; in my occasional communications. with former MI5/MI6 employees I have been informed that a "permanent solution" is not. uncommon for opponents of the British secret police. I have lost. health and financially, but am obviously well enough to keep fighting my. case. Others have lost. much more than I. If the joke which is British "law enforcement" refuses to enforce laws against. the security services then that is something that is recognised in other. countries and Britains stock correspondingly. falls. Not that it has very far to fall; the days when England had. any say in the world are long gone.

MI5 Want These Faxes. to Continue

Before the holiday,. I said that if MI5s harassment of me stopped, then I would cease my. complaints. They have known very well that if they continued to harass me then I would resume the fax. campaign in the autumn. Yet they have not stopped persecuting me.. Recently a woman outside my domicile screamed her. head off with abuse in the direction of my window; and on Saturday 2 October, when I was. shopping at a nearby supermarket, a. man shouted the particularly vile sexual swear word which I have heard many times before. over the last few years.

MI5s attitude shows complete. arrogance. Yet it also shows that they want the. faxes to continue and deliberately try to provoke me into sending further faxes. The reasons for this. are given in the first paragraphs of this article; the MI5 operatives who persecute. me have nothing else to do with their time; to make their campaign, against. an apparently unreacting target, have some value, they have to force me to react in. some way against their actions; and by reacting in this. way, by bringing their campaign to the attention of British politicians, I play into. their hands, by giving their campaign the attention and importance which. they feel it deserves.

In the short term, by sending these faxes, perhaps. I am doing something they want me to do, but in the longer term it is undoubtedly more. in my interest than theirs for their. activities to be exposed. If their operatives truly do wish to see these faxes continued then they. are

committing a serious mistake, because. it significantly increases the risk if M.P.s (some of whom already. know about MI5s activities against me) are advised of my side of. the story.

I will continue to monitor and record the. secret services activities against me over the next few weeks.. If they diminish and cease, as I hope they will, then I may be able to call a. halt to these faxes; but that it something which is entirely up to them;. recently their continued harassment makes. clear that they do wish the faxes to continue, and in all sincerity I. do think they will continue their activities and make it impossible for me to cease these faxes. It may trouble. you to receive these articles, but it troubles me much. more to be on the receiving end of a national persecution campaign; and while. Britain does not have free speech provisions as does. Canada in the Charter of Rights and Freedoms, and the US in the. first amendment to the constitution, in practice I do not. think anyone is going to try to have me locked up for speaking the truth. I still cherish the hope that the veracity. I express will be shown for what it is, and that the truth will prevail. and make me free.

Removing the Mask of Anonymity from. the MI5 Operatives

Undoubtedly one factor encouraging the MI5 agents. actions against me has been the fact that they can shelter behind. a mask of anonymity while they carry out their abuse. This is both a sign of their. realisation that their actions are criminal; for crimes are harder to pin down. and make a coherent complaint about when their perpetrators are. unknown; and it is a sign of. their cowardice, since they lack the backbone to say things to my face themselves; instead they almost always rely on third parties. to carry out. the actual acts of abuse.

On a. few occasions I have seen the perpetrators, but on each occasion they have managed. to preserve their anonymity. They travelled on the same British Airways flight as me in. 1994; but BA have ever since refused to give up the passenger list for the flight, and the police. and lawyers have proved useless in obtaining their identities from the list. Also one. of them followed me into A&E department of Ottawas Civic Hospital a couple. of years ago, and gave his name as (if I heard. correctly) "Alan Holdsworth"; but. the doctor refused to give out his identity when I later tried to speak. to him.

If only we knew the identities of the individual operatives, then it. would be possible to find out the identity of their employing. organisation. But I think we know the latter already, since I. have been accusing them on internet newsgroups for. four and a half years now, and they have never denied my guess. Indeed, when I was travelling. in January 1996 back to Ottawa, two youths on the (British Airways again,. unfortunately) flight made a lot of noise at. me, one of them saying to the other that I "didnt know who we are". That is a. wafer-thin denial; I had been saying for a year that they were MI5, so a stronger denial. would be necessary if my guess were truly mistaken. I. think the lukewarm denial was worse than no denial at. all, since it confirmed my guess that the employing agency was indeed. MI5.

Conclusion

It has been suggested to me that by. sending these faxes I could be making trouble for myself; but I dont think. so. My psychiatrist knows what I am doing; indeed I have given him a couple of these articles for him to. cast an. eye over.

I dont want to have to send faxes for the next year, or the year. after that. But that is entirely up to MI5. If. they continue to persecute me then I am forced into defending myself. The. ball is in their court, and it is entirely up to them what they. do. If as I suspect it is their intention that these faxes continue, if that is what they insist. will happen then so be. it.

MI5 Persecution Update:. Friday 31 March, 2000

22,544 Faxes Delivered in Three Years,. and Still No Breakthrough

In the last three years I have sent at. least 22,544 faxes to recipients in the UK, of which at least 13,974 have gone to. Westminster. Last weekend alone I sent 832. completed faxes to politicians, the media and various others, on the subject of MI5s mistreatment of me these last ten. years.

I believe some of the recipients know of MI5s actions against. me in the last decade; yet they. maintain strict "omerta" in fear of the security services persecution. actions being made public.

MI5 Insist that these. Faxes must Continue

Between September. 1999 and mid-January 2000, the persecutors, whoever they might be, mostly left me alone. I counted only three. incidents in almost five months - which is a lower rate than at. any time since June 1990, when this business. started.

By leaving me alone. for several months, the "oppressors" were making an implicit assurance that they would continue. to leave me alone in the future. On 11. January I posted to an internet newsgroup accepting what I saw as their assurance of no. further harassment, stating that I would cease sending. these faxes - which is the only thing I do in my defence - if they. continued to leave me alone. And for two weeks I did indeed refrain from distributing. these articles.

But MI5 acted in bad faith. From the last week of. January until the beginning of. March, they resumed their hate campaign against me with a vengeance. They even put people in. my road three times in February, one instance. of which I recorded. They resumed their normal behaviour of bugging my phone and house, listening to where. I would go, and then placing people. in that location to "aggravate and annoy" me.

What MI5 did in February is plainly a contravention of. the Protection from Harassment Act. 1997, since it has caused me "alarm and distress" as specified in the Act.. But it is a waste of time going to the police with a complaint, since. the police have done, and will do, absolutely nothing. I complained to the Metropolitan Police in. 1995, and they refused to take my complaint. When I complained again. in 1999, the detective sergeant laughed at my complaint, with. the words, "It's an absolute load of rubbish. I don't investigate rubbish. I can't be more blunt or. to the point than that." It is useful to remember that the Met also. treated Stephen Lawrences parents with. similar discourtesy; police prejudices are similar in my case, so I can take some comfort. from that case and hope that one

day I will get a. fair hearing.

MI5 acted in bad faith, but they also. acted with arrogance. They do not care if I send 800 faxes every weekend, since they know. I cannot prove my claims, and the recent. Shayler case shows how weak external oversight is of the secret services. But they acted with more than arrogance - the. MI5 agents actually want my faxes to continue,. they insist that these faxes continue, since my communications give them an excuse to. continue their activities, and continue. in the paid employ of the secret service. Despite their use of diverse proxies over the. last ten years, it is the same MI5 officers behind. the campaign all the time - I have seen one of them on three occasions in Canada over a period. of years, and it is a safe belief that. that same person continues to be paid for his "work" in harassing me in London now.. The average cost of an MI5 employee is some 75,000 per annum, so one may. infer that their officers are amply compensated; their insistence that "hostilities". are maintained is understandable when placed in this. light.

MI5 Persecution Update: Friday 7 April,. 2000

22,544. + 837 = 23,381

Last weekend. I delivered another 837 faxes to politicians and the media on the subject of the security service conspiracy. which has destroyed my life. This brings the. total in the last three years to at least 23,381.. These totals do not include partially delivered faxes.

Some of the recipients of. these faxes must know that what I say is true; and I hope to motivate those. people to acknowledge the reality of the harassment which has. followed me for ten years. It takes much time to transmit these articles, but as OCG MD Simpson-Wells said. to me in 1992, you have to be a good communicator if you are. to succeeed.

Harassment in. February 2000

Following a quiet period of almost five months,. the persecution resumed with a vengeance in. late January/February 2000. At this time I was at home in Clapham, London and was a. relatively easy target for the persecutors. They have. my house bugged, for audio and I believe video in some rooms as well; so they can find. out easily where I will be going on a particular day, and place people in that location to. mouth words of abuse at me. (I know the last sentence sounds like classic. paranoia, but it happens to be true, and some of the people. reading this know it to be true.)

On Friday 11 February 2000 I went shopping in Croydon, to buy. a watch at H.. Samuels jewellers in the Whitgift Centre. While I was there two youths came into the shop,. one of them quietly uttered an obscenity at me, and they immediately walked out. They. showed no interest in the shop.

That Sunday I met with. a friend in Clapham, who started needling me about "do you know anything about the CIA. and FBI?". Rather unsubtle, and worrying considering Ive known this guy. for 20 years. From the words and demeanour of this "friend" and others in February,. I saw that the persecutors have again been trying to separate from me what remains of. my social. life.

Incidents in my. Road in February

MI5 very rarely place people. in my home road to harass me, but such was their persecutory fervour in February that they did so on three. separate occasions. On the first such. occasion, I was met my two youths who, grinning, said a deeply offensive sexual obscenity at me -. at which I coughed at them, so they called me a "wanker". This incident. is safely

recorded on. minidisc-walkman, but because of the offensive nature of their abuse. the recording will not be made public.

Another incident very early in the morning of Sunday 20/Feb/2000. occurred outside my home, following. an evening in Croydon with some schoolfriends. Again there were two youths - for some reason. the persecutors always travel in twos. or threes, very rarely is there just one of them - perhaps they need a group to bolster their. courage, perhaps just one of them wouldnt have the guts to say something unpleasant.. One of the youths said quietly,. and bitterly, "shitty, very shitty".

Anyway, in March there. were no further incidents near my house in in my road, and our neighbours. are very well disposed towards us, so let us hope that the current. quiet continues.
